TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS

P.O. Box 13225 Austin, Texas 78711 (512) 936-4400 fax (512) 936-4409
Website: www.tbpg.state.tx.us

September 30, 2017

Honorable Greg Abbott, Governor
Honorable Glen Hegar, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Dear Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of the Texas Board of Professional Geoscientists for the year ended August 31, 2017, in compliance with TEX.GOV'T CODE ANN. Section 2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, Basic Financial Statements-and Management's Discussion and Analysis—for State and Local Government, the Comptroller of Public Accounts does not required the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditors as part of the opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Lisa Stockton at 512-936-4404.

Sincerely,

A handwritten signature in cursive script that reads "Charles Horton".

Charles Horton
Executive Director

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ENTITY

Texas Board of Professional Geoscientists is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the State Comptroller of Public Accounts' Reporting Requirements of State Agencies.

Texas Board of Professional Geoscientists was created by Senate Bill No.405, as enacted by the Seventy-seventh Legislature, to regulate the practice of geoscience in Texas. The Board entered into a Memorandum of Understanding with the Texas Department of Licensing and Regulation to initiate and implement the new program.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No component units have been identified which should have been blended into an appropriate fund.

B. FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Revenue Fund

The general revenue fund (fund 0001) is used to account for all financial resources of the state except those required to be accounted for in another fund.

Capital Asset Adjustment Fund Type

Capital Asset Adjustment Fund Type will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment Fund Type will be used to convert governmental fund types' debt from modified accrual to full accrual.

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

C. BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Basis conversion adjustment fund types convert modified accrual basis to full accrual basis of accounting. The following activities are recognized in these fund types:

- * Capital assets
- * Accumulated depreciation
- * Unpaid employee compensable leave
- * The outstanding debt service principal on long-term liabilities
- * Capital leases
- * Long-term claims and judgements
- * Full accrual revenues and expenses
- * Pension amounts in governmental activities

Proprietary fund types and fiduciary fund types except agency funds are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

D. BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

E. ASSETS, LIABILITIES, AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories & Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental fund types use the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost, if purchased, or at appraised fair value as of the date of acquisition. Purchase of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is depreciated over the estimate of average useful life of a grouping of assets using the composite method. Other depreciable assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated capital assets are reported at acquisition value. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Other Receivables - Current and Noncurrent

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables - Current and Noncurrent

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24.

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that became "due" upon the occurrence of relevant events such as resignations, retirements, and uses of Leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

FUND BALANCES/NET POSITION

'Fund balance' is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. 'Net position' is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

The Board uses resources in the following order:

* When both restricted and unrestricted resources are available, use:

1. Restricted Resources
2. Unrestricted Resources (as they are needed)

*When only unrestricted resources are available for use in governmental funds, use:

1. Committed Resources
2. Assigned Resources
3. Unassigned Resources

Fund Balance Components

Fund balances for governmental funds are classified as either nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

Nonspendable fund balance includes amounts not available to be spent because they are either:

Not in spendable form -OR- Legally or contractually required to be maintained intact.

Restricted fund balance includes those resources that have constraints placed on their use through external parties such as creditors, grantors, contributors, laws or regulations of other governments or by law through constitutional provisions or enabling legislation.

Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level decision making authority.

Assigned fund balance includes amount constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by: The Texas Legislature -OR- A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

Net Investment in Capital Assets

Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted Net Position results when constraints placed on net resources use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted Net Position consists of net resources, which do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources, which are imposed by management, but can be removed or modified.

F. INTERFUND TRANSACTIONS AND BALANCES

The agency has the following types of transactions among funds:

1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current" repayment for two (or more) years is classified as "Non-Current."

4) Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of the agency's Interfund receivables and payables, if any, is presented in Note 12.

UNAUDITED

TEXAS BOARD OF PROFESSIONAL GEOSCIENTISTS (481)
NOTES TO THE FINANCIAL STATEMENTS

Changes In Long-Term Liabilities

During the year ended August 31, 2017 the following changes occurred in liabilities.

	Balance 9/01/16	Additions	Deductions	Balance 8/31/17	Amounts Due Within One Yr
Governmental Activities:					
Compensable Leave	\$ 76,409.20	\$ 35,491.82	\$ (39,280.19)	\$ 72,620.83	\$ 34,431.96
TOTAL	\$ 76,409.20	\$ 35,491.82	\$ (39,280.19)	\$ 72,620.83	\$ 34,431.96

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Position. Both an expense and liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.
