(1) the date permanent directors are elected under Section 7992.003; or

(2) the fourth anniversary of the date of the appointment or reappointment.

(d) If Subsection (c) applies, the owner or owners of a

creation of the district or to the inclusion of land in the
district.

Sec. 7992.106. DIVISION OF DISTRICT. (a) The district may

S.B. No. 2274

(c) The district may not issue bonds payable from ad valorem taxes to finance a road project unless the issuance is approved by a vote of a two-thirds majority of the district voters voting at an election held for that purpose.

Sec. 7992.152. OPERATION AND MAINTENANCE TAX. (a) If authorized at an election held under Section 7992.151, the district may impose an operation and maintenance tax on taxable property in the district in accordance with Section 49.107, Water Code.
(b) The board shall determine the tax rate. The rate may not exceed the rate approved at the election.

Sec. 7992.153. WATER AND SEWER RATES. Notwithstanding any other law, the district shall establish the same rates for
residential and commercial classes of customers for the provision
of water and sewer services. For purposes of this section, the
commercial class may not include apartment complexes or other
multifamily dwellings.

SUBCHAPTER E. BONDS AND OTHER OBLIGATIONS

OBLIGATIONS. The district may issue bonds or other obligations
payable wholly or partly from ad valorem taxes, impact fees,
revenue, contract payments, grants, or other district money, or any
combination of those sources, to pay for any authorized district
purpose.

Sec. 7992.202. TAXES FOR BONDS. At the time the district
issues bonds payable wholly or partly from ad valorem taxes, the
board shall provide for the annual imposition of a continuing
direct ad valorem tax, without limit as to rate or amount, while all
or part of the bonds are outstanding as required and in the manner
provided by Sections 54.601 and 54.602, Water Code.

Sec. 7992.203. BONDS FOR ROAD PROJECTS. At the time of
issuance, the total principal amount of bonds or other obligations
issued or incurred to finance road projects and payable from ad
valorem taxes may not exceed one-fourth of the assessed value of the
real property in the district.

IN RE: SB2274 by Creighton (Relating to the creation of the Lakewood Municipal Utility District No. 1; granting a limited power of eminent domain; providing authority to issue bonds; providing authority to impose assessments, fees, and taxes.), As Engrossed

The Legislative Budget Board, in cooperation with the Texas Water Development Board (TWDB) and the Texas Commission on Environmental Quality (TCEQ), has determined that:

This bill amends the Special District Local Laws Code by adding Chapter 7992 which creates the Lakewood Municipal Utility District No. 1 (District) with the powers and duties of a standard municipal utility district under Water Code Chapters 49 and 54.

Population - The very specific description of the proposed boundaries does not allow staff to develop precise population estimates. Based on the Original Texas Land Surveys mentioned in SB 2274, staff is unable to determine a population estimate.

Population growth in the specific area since the 2010 census is unknown. The 2010 population estimate for areas of Harris County served by small systems or private wells (County-Other) is 204,630. The Harris County-Other population projections approved for the 2017 State Water Plan projects the population to grow to 245,944 in 2020, 291,438 in 2030 and 311,968 in 2040.

Location - The Proposed district's initial boundaries are described with a combination of Original Texas Land Surveys, Harris County Real Property Records and metes and bounds. Due to the complexity of these boundaries for the various sub areas of the district, staff is able to determine only the general location of the proposed district.

The proposed district's area is approximately 0.94 square miles in northeastern Harris County, located east of the City of Houston and the San Jacinto River. The proposed district does not appear to overlap any existing Certificate of Convenience and Necessity (CCN) boundary.

Comments on Powers/Duties Different from Similar Types of Districts: The Senate Engrossed version of the bill removes Chapter 7992.107; the limitation on use of eminent domain for recreational facilities and road projects.

The bill requires the TCEQ to appoint the five initial temporary directors upon receipt of a petition from the owners of a majority of the assessed value of the real property in the District; this bill grants the District authority for road projects; the bill allows the District to divide; the bill
specifies that at the time of issuance, the total principal amount of bonds or other obligations issued or incurred to finance road projects and payable from ad valorem taxes may not exceed one-fourth of the assessed value of real property in the District; and, if the bill does not receive a two-thirds vote of all members elected to each house, the District may not exercise the power of eminent domain.

Overlapping Services: TCEQ does not have mapping information for water and/or wastewater providers because this function was transferred from the TCEQ to the Public Utility Commission on September 1, 2014. As a result, TCEQ is unaware of possible overlapping service providers.

TCEQ's Supervision: As with general law districts, the TCEQ will have general supervisory authority, including bond review authority and review of financial reports.

Water Use - SB 2274 specifies that "the district has the powers and duties provided by the general law of the state, including Chapters 49 and 54, Water Code, applicable to municipal utility districts created under Section 59, Article XVI, Texas Constitution".

Within Harris County, 26 percent of the total water use was groundwater (Gulf Coast and other Aquifers) in 2014. Eighty two percent of all the groundwater pumping was for municipal use. The water source of the proposed district might pursue is unknown.
