**NOTES TO THE FINANCIAL STATEMENTS****NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****ENTITY**

The Texas Workforce Commission (Commission) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Commission was created by House Bill 1863 in 1995 to create and operate an integrated workforce development system for Texas. The legislation accomplished this through the consolidation of 28 job training, employment and employment-related educational programs from 10 different state entities into the new Workforce Commission. The first transition of programs began on March 1, 1996, and the Commission completed the consolidation and began full operation on June 1, 1996. In 2015, Senate Bill 208 moved the Vocational Rehabilitation, Business Enterprises of Texas and Older Blind Independent Living Services as well as the Criss Cole Rehabilitation Center from the Texas Department of Assistive and Rehabilitative Services (DARS) to the Commission effective September 1, 2016. The Rehabilitation Council of Texas was also included in the transfer.

Due to the statewide requirements embedded in *Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements of this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

**Component Units*****Blended or Discretely Presented Component Units***

No component units have been identified that should be blended into an appropriate fund or discretely presented.

A memo of understanding exists between the IAWP-TC and the Commission that outlines the roles and responsibilities of both parties. This fund is used to record the financial activity of the Conference Account that the IAWP-TC maintains in local bank accounts.

## BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Basis conversion adjustment fund types convert modified accrued basis to full accrued basis of accounting. The following activities are recognized when the related liability is incurred. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- The outstanding debt service principal on long-term liabilities
- Capital leases
- Long-term claims and judgements
- Full accrual revenues and expenses
- Pension amounts in governmental activities

Proprietary fund types (enterprise funds and internal service fund) and fiduciary fund types (pension and other employee benefit trust funds, external investment trust funds and private-purpose trust funds) except agency funds are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time the liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the enterprise and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

## BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

## ASSETS, LIABILITIES AND FUND BALANCES/NET POSITION

### Assets

#### *Cash and Cash Equivalents*

Short-term, highly-liquid investments with an original maturity of three months or less are considered cash equivalents.

#### *Securities Lending Collateral*

Investments are generally stated at fair value with certain exceptions in accordance with GASB Statement No. 72 Fair

Value Measurement and Application.

Invested security lending collaterals are measured at fair value.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expense on the operating statement. These costs are reported at gross.

***Restricted Assets***

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

***Inventories and Prepaid Items***

Consumable inventories, including supplies and postage on hand at year-end, are valued at cost generally using the last-in, first-out method. The consumption method of accounting is used to account for inventories that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

***Capital Assets***

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all 'exhaustible' assets. 'Inexhaustible' assets (such as works of art and historical treasures) are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

***Other Receivables –Current and Noncurrent***

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24.

**Liabilities**

***Accounts Payable***

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

***Employees' Compensable Leave Balances***

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

***Bonds Payable – Revenue Bonds***

Revenue bonds are accounted for in proprietary funds for business-type activities and in the long-term liabilities adjustment column for governmental activities. These payables are reported as current portion (amounts due within one year) and non-current (amounts due thereafter) of long-term liabilities in the statement of net position. The bonds are reported at par, net of unamortized premiums, discounts and gains/losses) on bond refunding activities.

For governmental activities, bond proceeds are accounted for when received as an 'other financing source' in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

## **Fund Balance/Net Position**

'Fund balance' is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. 'Net position' is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

The resources are used in the following order. When both restricted and unrestricted resources are available use restricted resources first and unrestricted resources (as they are needed). When only restricted resources are available for use in governmental funds use committed resources first, assigned resources second and unassigned resources last.

### ***Fund Balance Components***

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

***Non-spendable fund balance*** includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

***Restricted fund balance*** includes those resources that have constraints placed on their use through external parties - such as creditors, grantors, contributors, laws or regulations of other governments - or by law through constitutional provisions or enabling legislation.

***Committed fund balance*** can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.

***Assigned fund balance*** includes amounts constrained by the state's intent to be used for specific purposes, but constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

***Unassigned fund balance*** is the residual classification for the general fund. This classification represents fund balance that was not restricted, committed or assigned to specific purposes within the general fund.

### ***Net Investment in Capital Assets***

Net investments in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

### ***Restricted Net Position***

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

***Restricted for Unemployment Trust Fund*** represents designated funds available for payment of unemployment benefit claims.

***Restricted for Debt Retirement*** represents designated funds available for retirement of debt.

### ***Unrestricted Net Position***

Unrestricted net position consists of net resources that do not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

**INTERFUND ACTIVITIES AND BALANCES**

The agency has the following types of transactions between funds.

***Transfers***

Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

***Reimbursements***

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

***Interfund Receivables and Payables***

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as 'Current'. Balances for repayment due in two (or more) years are classified as 'Non-Current'.

The composition of the agency's interfund activities and transactions is presented in Note 12.

In addition, the Benefits Electronic Correspondence Claim project came in under the capitalization threshold. The Construction in Progress is for the Rehabilitation Works Enhancements project.

The schedule below shows the ending balances for the Texas Workforce Commission (TWC) and the Department of Assistive and Rehabilitative Services (DARS) as of August 31, 2016. Since DARS ceased to exist on September 1, 2016, capital assets for DARS were transferred and combined with TWC capital assets as of August 31, 2016. These amounts established the September 1, 2016 beginning balances as reflected in Note 2.

**Custodial Credit Risk** for deposits is the risk that, in the event of the failure of a depository financial institution, the agency will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Agency does not have a deposit policy for custodial credit risk. There were no bank balances that were exposed to custodial credit risks.

***Restricted Cash in State Treasury***

Warrants issued from Fund 0937 reduce the Restricted Cash in State Treasury account when they are issued. Funds to cover these warrants are not drawn down until they are presented for payment.

***Cash in Federal Treasury***

Deposits in the Federal Treasury at August 31, 2017, were \$1,319,866,041.19. Unemployment Compensation funds are deposited with the United States Secretary of the Treasury, to the credit of this State in the Unemployment Trust Fund, established and maintained pursuant to Section 904 of the Social Security Act.

**FAIR VALUE MEASUREMENT**

GASB 72 states fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. TWC categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The agency has no recurring fair value measurements as of August 31, 2017.

**NOTE 4: SHORT-TERM DEBT**

During the 73<sup>rd</sup> Legislative Session, legislation was passed which addressed a federal fund cash flow problem affecting state agencies using federal program funds for payroll purposes. The legislation, as codified in V.T.C.A., Government Code, Section 403.092, Chapter 449, Acts of the 73<sup>rd</sup> Legislature, R.S., provides authority for the Comptroller to make temporary transfers (loans) of general revenue under certain conditions to avoid interest liabilities related to the Cash Management

Improvement Act (CMIA).

**NOTE 5: LONG-TERM LIABILITIES**

**Changes in Long-Term Liabilities**

During the year ended August 31, 2017, the following changes occurred in liabilities reported in the general long-term debt account.

**Employee’s Compensable Leave**

If a state employee has had continuous employment with the state for at least six months, the state employee is entitled to payment for all unused vacation time accrued in the event of the employee’s resignation, dismissal or separation from state employment. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and a liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee’s salary or wage compensation was paid.

The changes in Employee’s Compensable Leave are reflected in the table below.

**Revenue Bonds Payable**

Under the provisions of Title IV, Subtitle A, Section 203.251 of the Labor Code, the Texas Workforce Commission is authorized to seek alternative methods of replenishing the unemployment compensation fund that can reduce the costs of providing these benefits and employers’ cost of doing business in the state. With the coordination of the Texas Public Finance Authority (TPFA), the state issued three series of bonds in 2010 to finance the unemployment insurance program. During 2014, as discussed in Note 6, the 2010 bonds were partially refunded with the issuance of two series of refunding bonds.

Detailed information on the bond issuance can be found in Note 6: Bonded Indebtedness.

The following page includes the changes in Bonded Indebtedness table.

The changes in Bonded Indebtedness are reflected in the table below.

Detailed supplemental bond information is disclosed in Schedule 2A - Miscellaneous Bond Information, Schedule 2B – Changes in Bonded Indebtedness, Schedule 2C – Debt Service Requirements, Schedule 2D – Analysis of Funds Available for Debt Service, Schedule 2E – Defeased Bonds Outstanding and Schedule 2F – Early Extinguishment and Refunding.

General information related to bonds is summarized below

**Revenue Bonds**

In November and December of 2010 the Texas Public Finance Authority (TPFA) sold Texas Public Finance Authority Unemployment Compensation Obligation Assessment Bond Revenue Bonds for \$2.1 billion with a net combined prospective interest rate of 2.8%. The bonds were sold in three separate tranches. Series 2010A had a par value of \$1,110,415,000, Series 2010B had a par value of \$549,465,000 and Series 2010C had a par value of \$300,000,000. The Series 2010A and Series 2010B issues were marketed with significant premiums.

These bonds had been issued as a result of the severe economic downturn that began in 2008 which had caused the Texas Unemployment Trust Fund to become insolvent by July 2009. At that time Texas began receiving advances from the federal government under Title XII of the Social Security Act in order to continue to pay unemployment benefits. The Title XII advances that were originally interest free were scheduled to increase to 4.1% in January 2011. Additionally under Title XII of the same act the federal unemployment tax that Texas employers pays to the federal government under the Federal Unemployment Tax Act (FUTA), was scheduled to increase unless Texas paid off the balance of the outstanding federal advances. Of the 2.1 billion in bond proceeds collected, \$1.7 billion was utilized to pay off all outstanding federal advances and the remaining \$400 million was deposited to the Unemployment Trust Fund. This action achieved a significant interest savings as well as avoiding a prospective FUTA tax increase to Texas employers.

On May 15, 2014, the Texas Workforce Commission in coordination with the Texas Public Finance Authority implemented a current and an advanced refunding of a portion of the Texas Public Finance Authority Unemployment Compensation Obligation Assessment Revenue Bonds Series 2010A and 2010B. The Series 2010C bonds had been paid off in January 2013. The purpose of the refunding was to achieve a present value cost savings by refunding a portion of the Series 2010 Bonds, with a combined par value of \$707.8 million and an effective interest rate of 2.54%, and issuing the Texas Public Finance Authority Unemployment Compensation Obligation Assessment Revenue Refunding Bonds Series 2014A and 2014B with a combined par value of \$709.8 million and an effective interest rate of 1.04%.

The estimated principal and interest payments of the Series 2014 bonds were \$24.7 million less than the related principal and interest payments of the Series 2010 bonds that were refunded. This achieved an economic gain of \$24.1 million. This amount is the cash flow difference, above, discounted at the effective interest rate of the Series 2014 bonds.

On January 1, 2016, the remaining Series 2010A were retired. On January 1, 2017, the remaining Series 2014A were retired. Finally, on July 1, 2017 the remaining Series 2014B were retired through an early extinguishment. Thus, at August 31, 2017 all the Unemployment Compensation Obligation Assessment Bond Revenue Bonds and any related defeased bonds had been retired.

**NOTE 13: CONTINUANCE SUBJECT TO REVIEW**

Under the *Texas Sunset Act*, the Commission will be abolished effective September 1, 2027, unless continued in existence by the 90<sup>th</sup> Legislature as provided by the Act. If abolished, the agency may continue until September 1, 2028, to close out its operations.

**NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET POSITION**

The restatement of beginning Net Position of Capital Assets in Exhibit II of \$9,899,684.70 was the result of two events:

- The cancellation of the Tax Modernization Project due to the inability to complete the project. The construction in progress value of the project at the time of cancellation was \$8,931,332.02.
- In addition, the Benefits Electronic Correspondence Claim project was completed for \$968,352.68 which is under the capitalization threshold of \$1 million and therefore needed to be removed from the construction in progress account.

Note that the unadjusted beginning net position of Capital Assets includes \$3,378,735.89 in capital assets that had been transferred from the Department of Assistive and Rehabilitative Services. Details regarding this transfer are reflected in Note 2.

**NOTE 15: CONTINGENCIES AND COMMITMENTS**

At fiscal year end the Commission was not involved in any law suits that would likely materially affect the financial position of the Commission

The Career School or College Tuition Trust Fund (0925) provides refunds to students when the school or college they are attending closes and alternative training cannot be obtained. At the end of the year the Commission accrues a liability for these potential refunds, if any, and reflects them in Exhibit A-1. However in some cases the Commission has been unable to obtain any records from certain closed schools. Because the likelihood of refunding tuition in these situations is uncertain, the potential liability to these students is considered contingent. At year end the potential liability arising from these schools is estimated at \$467,884.

Sick Leave, the accumulation of which is unlimited, is earned at the rate of eight hours per month and is paid to the employee only in case of illness or to the employee's estate in the event of his/her death while employed by the Commission. The maximum sick leave that may be paid an employee's estate is one-half of the employee's accumulated entitlement or 336 hours, whichever is less. The Commission's policy is to recognize the cost of any sick leave when paid. No liability is recorded in the General Long-Term Liabilities Adjustment Fund type since experience indicates the probability of a material effect on any given year's operations as a result of death or abnormally high rate of illness is minimal.

The Commission, as an administrator of federal funds, awards contracts to subgrantees. The costs incurred by each subgrantee under contract are the responsibility of the Commission. Consequently, the Commission becomes contingently liable for any questioned costs that are ultimately disallowed by the granting federal agency. Although the Commission pursues aggressive debt collection for the subgrantees, collection cannot be assured. As of August 31, 2017, records of the Audit Resolution Unit indicate that federal grantor agency audits identified no questionable cost for which the Texas Workforce Commission is contingently liable.

**NOTE 16: SUBSEQUENT EVENTS**

In October 2017, in accordance with Section 204.123 of the Labor Code, \$47.2 million was transferred from the Employment Training Investment Act (ETIA) Holding Fund to the Skills Development program since the amount in the Unemployment Trust Fund Account was above the statutorily defined floor as computed under Section 204.061, that is, one percent of the total taxable wages for the four calendar quarters ending June 30, 2017.

**NOTE 17: RISK MANAGEMENT**

The Texas Workforce Commission is exposed to a variety of civil claims resulting from the performance of its duties. It is agency policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The agency assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance nor is the agency involved in any risk pools with other government entities.

The agency's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. Changes in the balances of the agency's claims liabilities during fiscal 2017 and 2016 were:

	Beginning Balance	Increases	Decreases	Ending Balance
2017	\$ 55,000.00	\$ 19,000.00	\$ 74,000.00	\$ 0.00
2016	\$ 185,000.00	\$ 323,320.00	\$ 453,320.00	\$ 55,000.00

#### NOTE 18: MANAGEMENT DISCUSSION AND ANALYSIS

At August 31, 2017, the Texas unemployment rate was 4.2% as compared to the U.S. unemployment rate of 4.4%. The Texas unemployment rate of 4.2% for August 2017 represents the lowest unemployment rate for Texas since July 2007. At August 31, 2016, the Texas and U.S. rates stood at 4.7% and 4.9% respectively. The Texas Workforce Commission paid unemployment benefits of \$2.7 billion during state fiscal year 2017 which represents a decrease of \$400 million, or 13 percent, as compared to state fiscal year 2016.

In November 2016, as required by House Bill 2732 of the 84th Texas Legislature Regular Session, the Texas Workforce Commission began utilizing the Treasury Offset Program (TOP). The TOP program is administered by the U.S. Department of the Treasury's Bureau of Fiscal Service and assists in the collection of debt by matching a database of certain TWC delinquent debtors against payments scheduled to be paid, generally income tax refunds, from the U.S. Treasury. During the 2017 fiscal year almost \$33 million was collected through the TOP program.

On August 25, 2017 Hurricane Harvey made landfall near Rockport, Texas, as a Category 4 storm. Afterwards, it stalled near the coastline of the state, dropping torrential and unprecedented amounts of rainfall over southeast Texas. On September 3, Governor Greg Abbott estimated that damages from the storm could range from \$150 billion to \$180 billion. The storm caused a significant loss in jobs. Initial unemployment claims related to the storm through September 30, 2017 exceeded 147,000. It is estimated that the related benefits that will be paid by the Texas Workforce Commission during FY 2018 could be as high as \$200 million.

The Texas 84<sup>th</sup> Legislative Session, Regular Session (2015) passed House Bill 2463 and Senate Bill 208, resulting in Vocational Rehabilitation and related programs being transferred from the Department of Assistive and Rehabilitative Services to the Texas Workforce Commission, effective September 1, 2016. These programs resulted in an increase of \$338 million of state and federal expenditures, as reported by the Texas Workforce Commission, during state fiscal year 2017.

As discussed in Note 6, the Texas Workforce Commission retired all outstanding Unemployment Revenue Bonds during the 2017 fiscal year. The Unemployment Trust Fund had become insolvent in July 2009 because of the severe economic downturn at that time. The Commission faced the choice of borrowing funds from the federal government at relatively high interest rates or issuing Revenue bonds. By issuing bonds in December 2010 and subsequently taking advantage of the call and refunding features contained within the Bond covenants, it is estimated that the Commission achieved interest savings totaling \$60 million.

\* The Civil Rights Division of the Texas Workforce Commission conducts investigations arising from complaints regarding employment. The Equal Employment Opportunity Commission (EEOC) pay for these investigations on a fixed fee basis.

Per the provisions of OMB Uniform Guidance 2 CFR Part 200, "a Federal award means Federal financial assistance and Federal Cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors." The Texas Comptroller of Public Accounts has interpreted this statement to mean that fixed fee contracts are not Federal awards, and therefore, not subject to the provisions of OMB Uniform Guidance 2 CFR Part 200. Thus, the fixed fee contracts that TWC maintains with EEOC is not considered a federal award, and therefore, are not included in the Schedule of Federal Financial Assistance.
