

TEXAS OFFICIAL TRAVEL MAP

The Texas Official Travel Map is published annually by the Texas Department of Transportation to assist travelers in safely exploring the diversity of interesting places and landscapes that Texas has to offer.

Because of limited space, some smaller communities, farm and ranch roads, and streams or rivers are omitted. Villages at highway junctions and county seats are included, as well as roads connecting arterial highways or leading to communities and recreational areas.

On the back side of the map, the insets are not intended to be detailed city maps but to aid motorists traveling through those metropolitan areas. The insets also show satellite cities and towns around metropolitan areas that cannot be fully identified on the main map.

The legend at the lower right corner of this side of the map identifies the various symbols and design characteristics on which this map is based. The grid to the right provides a convenient means of estimating distances between certain Texas cities.

Scale: To convert miles to kilometers, multiply miles X 1.609. Example: 100 miles X 1.609 = 160.9 kilometers.

Legend: Various symbols for roads, highways, and landmarks.

Scale in Miles: 0 to 100 miles.

Scale in Kilometers: 0 to 160 kilometers.
