FOREWORD

Texas County Statistics presents the statistics for each county on a single page.

Individual county sheets showing all of the data for a given county are available to those who want the data for one or more counties separately. Also, commodity bulletins showing all Texas counties for 1970 for Vegetables, Fruit and Pecans, Small Grains, Field Crops, Cotton, Livestock, Poultry, Dairy, and Cash Receipts are available upon request.

Please refer to the following two pages for an explanation of the estimates and important factors in determining the estimates by county.

These county statistics have been made possible by the Texas Legislature which provided the Texas Department of Agriculture with funds for the operation of an annual county data program. The project is in cooperation with the Statistical Reporting Service of the U.S. Department of Agriculture.

Many individuals and organizations support and make possible these surveys, but I want to especially thank the some 60,000 farmers and ranchers who have furnished basic data for their farms and ranches.

Sincerely yours,

John C. White
Commissioner of Agriculture

A Word of Explanation

The estimating procedures and survey methods are discussed in detail in the commodity bulletins, which are available upon request. However, some general comments may be helpful.

County estimates have been prepared by the Texas Crop and Livestock Reporting Service since 1959 for cotton, wheat, sorghum, rice and peanuts, and for several earlier years for cotton and wheat. These estimates were for Government program crops financed by the Agricultural Stabilization and Conservation Service and the Federal Crop Insurance Corporation for use in setting bases and allotments for the Government programs. The data on which the estimates were based came mainly from sample surveys of farmers. Government program allotment and measurement data (varying by crop and year) have been very helpful. For cotton production, ginnings have been the primary source for many years.

For many years prior to the publication of the estimates for these allotment crops and while they were being published, there was a continuing and insistent demand on the part of the whole agricultural and agri-business community for more adequate statistics on Texas agriculture by county than furnished by the 5-year Census for which data was generally two years old before available.

The Texas Legislature, starting with the fiscal year 1967-68, responded to the request for county data with an appropriation to the Texas Department of Agriculture for the operation of an annual county statistical program for Texas in cooperation with the Statistical Reporting Service of the United States Department of Agriculture.

The county data program is based on probability multiple frame sampling. A complete census would cost about ten times as much. There are approximately 185,000 farms in Texas, and the big June 1970 crop survey included 23,840 farms and about 22 percent of the State's land in farms. The big November-December livestock survey included about 25,800 farms and about 41 percent of the cattle.

A sample survey to produce county estimates for 62 items for 254 counties is a tremendous undertaking. Improvements and accuracy in coverage took place in 1970 and may be expected in succeeding years. One of the problems is more complete lists on livestock--the survey list being about 13 percent incomplete for cattle, 30 percent for hogs, less than 1 percent for goats, and between 1 and 2 percent for sheep. Lists of large livestock operators are being updated in the summer of 1971 with the help of the County Agents.

Improvement in statistics of greenhouse and nursery products is needed. There are not adequate current surveys; so for these items the State total and county distribution largely reflects the number reported by the 1964 Census.

Definitions are not entirely comparable with the 5-year Federal Census. The Government programs have generally placed acreage for a crop in the county where the land was located--and this is also true of the Texas Crop and Livestock Reporting Service estimates--whereas the Federal Census has tended to place the land and commodities for farms where the headquarters are located (which is not necessarily the county where most of the farm commodities were produced). This has not been much of a problem on crops; but on livestock (especially cattle), significant differences occur.

Revisions for January 1, 1970, for beef cows, all cattle, all sheep, ewes 1+, and goats have been made. Some rather large year-to-year differences for individual counties occur, especially for cattle, due to changes in number of cattle on feed for market, the occurrence of more or less grazing on small grain pastures at the time of the survey, and the shifts of cattle by operators of large holdings from county to county in different years.

Credit should go to many organizations for furnishing data, but more importantly for communicating the importance of the reports and the need for response by farmers. These organizations include the Texas Agricultural Extension Service, ASCS, FHA, SCS, farm magazines, farm organizations, agri-business, radio and television farm directors, and newspapers. Special credit goes to the farmers and ranchers who furnished the basic data on their own operations. Without these, the reports would not be possible.

Comparisons between value of production, value of crop year sales and calendar year cash receipts series, and their effect on county estimates

For any given calendar year, county income does not always agree with the value of production. Some years, especially for cotton, part of the harvest and sales may occur in the following year. Also, the Government loan program is an important factor, as shown by the comments and table below.

The table below shows the relationship between value of crop year production, crop year sales, and calendar year cash receipts for the past seven years for cotton and wheat. Over a long period of years, two of the series (crop year sales and calendar year cash receipts) average the same, but for a particular year (See table below, 1968-69-70 cotton) either series can decline while the other increases.

The CCC loans are treated as cash receipts in the month in which the loan is made. There is an added equity value when sale price exceeds the loan. The quantity of cotton from the 1968 crop placed under loan after the following January 1 was much greater than for either the 1967 or 1969 crops. This helped cause calendar year 1969 cash receipts for cotton to exceed 1969 crop year value of sales.

So in 1969 in the important cotton counties, calendar year receipts for all crops appear high in relation to crop production, and in 1970 calendar year receipts appear low in relation to crop production. For the State, 1970 value of cotton crop year sales is 23 percent above 1969 whereas 1970 calendar year cotton cash receipts are 10 percent lower than 1969. Also, value of the 1970 wheat crop sales is 18 percent below 1969 whereas calendar year cash receipts are down 27 percent.

TEXAS COTTON LINT AND WHEAT: Value of production, sales and calendar year cash receipts, 1964-1970

Pecans 2/ 1969 (lbs.)	--
{ 1970	--

5. 1970 LIVESTOCK PRODUCTION OR MARKETINGS

Eggs produced (Dozen)	*
Broilers produced (Number)	--
Turkeys produced (Number)	--
Milk produced (Cwt.)	*
Wool produced (Pound)	2,000
Mohair produced (Pound)	*
Cattle marketed from feedlots (Number)	--

6. JANUARY 1 LIVESTOCK ON FARMS

Item	1970	1971
	Number	
All Cattle 3/	12,000	15,000
Milk cows that have calved	*	*
Beef cows that have calved	10,000	10,000
Cattle on feed	--	--
All hogs 4/	*	*
All sheep 3/	3,000	1,000
Ewes 1 year and over 3/	1,000	*
All angora goats 3/	1,000	*
Hens and pullets of laying age	*	*

7. GOVERNMENT PAYMENTS IN 1970

Item	Dollars
Feed grain diversion and price support	--
Wheat diversion and marketing certificate	--
All cotton price support	316,608
Sugarbeet program	--
Wool and mohair program	4,285
Great Plains conservation program	--
Cropland adjustment program and CCP	4,762
Agricultural conservation program including ECM	17,718

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969	1970
	1,000 dollars	
All crops 3/	764	1,162
Livestock and livestock products 3/	1,550	1,381
Total crops and livestock 3/	2,314	2,543
Government payments	398	343
Total farm marketings and government payments 3/	2,712	2,886

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table B, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

Cucumbers	--	Spinach 2/	--		

4. FRUITS AND PECANS

Crop	Production
Peaches (Bu.)	8,000
Grapefruit (80 lb. box)	--
Oranges (90 lb. box)	--
Pecans 2/1969	*
(lbs.) 1970	240,000

5. 1970 LIVESTOCK PRODUCTION OR MARKETINGS

Eggs produced (Dozen)	281,600
Broilers produced (Number)	1,830,000
Turkeys produced (Number)	*
Milk produced (Cwt.)	*
Wool produced (Pound)	*
Mohair produced (Pound)	--
Cattle marketed from feedlots (Number)	*

6. JANUARY 1 LIVESTOCK ON FARMS

Item	1970	1971
	Number	
All Cattle 3/	74,000	73,000
Milk cows that have calved	*	*
Beef cows that have calved	44,000	48,000
Cattle on feed	*	*
All hogs 4/	2,800	6,000
All sheep 3/	*	*
Ewes 1 year and over 3/	*	*
All angora goats 3/	--	--
Hens and pullets of laying age	12,000	15,000

7. GOVERNMENT PAYMENTS IN 1970

Item	Dollars
Feed grain diversion and price support	196,116
Wheat diversion and marketing certificate	--
All cotton price support	25,669
Sugarbeet program	--
Wool and mohair program	12
Great Plains conservation program	--
Cropland adjustment program and CCP	7,395
Agricultural conservation program including ECM	134,809

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969	1970
	1,000 dollars	
All crops 3/	328	344
Livestock and livestock products 3/	8,434	7,953
Total crops and livestock 3/	8,762	8,297
Government payments	356	364
Total farm marketings and government payments 3/	9,118	8,661

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

Agricultural conservation program including ECM	31,345

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969	1970
	1,000 dollars	
All crops 3/	850	842
Livestock and livestock products 3/	3,747	4,309
Total crops and livestock 3/	4,597	5,151
Government payments	678	725
Total farm marketings and government payments 3/	5,275	5,876

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors effect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

HENDERSON COUNTY 1970 AGRICULTURAL STATISTICS

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969	1970
	1,000 dollars	
All crops 3/	1,416	1,633
Livestock and livestock products 3/	3,459	3,313
Total crops and livestock 3/	4,875	4,946
Government payments	184	103
Total farm marketings and government payments 3/	5,059	5,049

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes.
2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

HOPKINS COUNTY 1970 AGRICULTURAL STATISTICS

Item	Dollars
Feed grain diversion and price support	890,655
Wheat diversion and marketing certificate	643,451
All cotton price support	4,727,777
Sugarbeet program	---
Wool and mohair program	1,598
Great Plains conservation program	111,627
Cropland adjustment program and CCP	51,924
Agricultural conservation program including ECM	111,175

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969	1970
	1,000 dollars	
All crops ^{3/}	6,659	7,927
Livestock and livestock products ^{3/}	4,124	3,950
Total crops and livestock ^{3/}	10,783	11,877
Government payments	5,089	6,538
Total farm marketings and government payments ^{3/}	15,872	18,415

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. ^{1/} Planted for all purposes. ^{2/} Fresh market only but processing included in all vegetables. ^{3/} Revision for last year for these items. ^{4/} Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

Eggs produced (Dozen)	*
Broilers produced (Number)	--
Turkeys produced (Number)	--
Milk produced (Cwt.)	*
Wool produced (Pound)	8,000
Mohair produced (Pound)	--
Cattle marketed from feedlots (Number)	*

6. JANUARY 1 LIVESTOCK ON FARMS

Item	1970		1971	
	Number			
All Cattle 3/	12,000		14,000	
Milk cows that have calved	*		*	
Beef cows that have calved	5,000		6,000	
Cattle on feed	--		*	
All hogs 4/	8,900		4,800	
All sheep 3/	2,000		1,000	
Ewes 1 year and over 3/	1,000		*	
All angora goats 3/	--		--	
Hens and pullets of laying age	20,000		*	

7. GOVERNMENT PAYMENTS IN 1970

Item	Dollars
Feed grain diversion and price support	911,354
Wheat diversion and marketing certificate	3,241
All cotton price support	10,266,121
Sugarbeet program	--
Wool and mohair program	2,211
Great Plains conservation program	123,468
Cropland adjustment program and CCP	3,391
Agricultural conservation program including ECM	72,336

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1969		1970	
	1,000 dollars			
All crops 3/	21,155		17,376	
Livestock and livestock products 3/	1,839		1,628	
Total crops and livestock 3/	22,994		19,004	
Government payments	9,146		11,382	
Total farm marketings and government payments 3/	32,140		30,386	

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1,000 dollars	
	1969	1970
All crops 3/	5,929	5,678
Livestock and livestock products 3/	6,859	8,686
Total crops and livestock 3/	12,788	14,364
Government payments	3,245	4,139
Total farm marketings and government payments 3/	16,033	18,503

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.

RUSK COUNTY 1970 AGRICULTURAL STATISTICS

Cucumbers	--	Spinach 2/	--		

4. FRUITS AND PECANS

Crop	Production
Peaches (Bu.)	*
Grapefruit (80 lb. box)	--
Oranges (90 lb. box)	--
Pecans 2/ 1969	490,000
(lbs.) 1970	250,000

5. 1970 LIVESTOCK PRODUCTION OR MARKETINGS

Eggs produced (Dozen)	73,000
Broilers produced (Number)	--
Turkeys produced (Number)	*
Milk produced (Cwt.)	70,000
Wool produced (Pound)	4,000
Mohair produced (Pound)	*
Cattle marketed from feedlots (Number)	--

6. JANUARY 1 LIVESTOCK ON FARMS

Item	Number	
	1970	1971
All Cattle 3/	39,000	38,000
Milk cows that have calved	850	700
Beef cows that have calved	19,000	18,000
Cattle on feed	--	--
All hogs 4/	2,700	6,600
All sheep 3/	1,000	*
Ewes 1 year and over 2/	*	*
All angora goats 3/	*	*
Hens and pullets of laying age	5,000	5,000

7. GOVERNMENT PAYMENTS IN 1970

Item	Dollars
Feed grain diversion and price support	13,495
Wheat diversion and marketing certificate	661,446
All cotton price support	235,036
Sugarbeet program	--
Wool and mohair program	1,342
Great Plains conservation program	19,488
Cropland adjustment program and CCP	788
Agricultural conservation program including ECM	65,746

8. CASH RECEIPTS FROM FARM MARKETINGS IN 1969-1970

Item	1,000 dollars	
	1969	1970
All crops 3/	3,274	2,231
Livestock and livestock products 3/	4,325	4,088
Total crops and livestock 3/	7,599	6,319
Government payments	915	997
Total farm marketings and government payments 3/	8,514	7,316

* Items reported but not published on a county basis because of either limited production or to avoid disclosure of individual operations. 1/ Planted for all purposes. 2/ Fresh market only but processing included in all vegetables. 3/ Revision for last year for these items. 4/ Hogs on hand preceding December 1.

Table 8, Note: Many factors affect year-to-year changes in county calendar year cash receipts including weather, prices, delayed or early marketings, time and amount of major crops (especially cotton) placed under government loan, changes in number of cattle on feed for market, the shifts of cattle from county to county, and the occurrence of more or less grazing, especially on small grain pastures at the time of the survey.
