Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Sarah Keyton, Assistant Director, Legislative Budget Board
Lisa Collier, CPA, First Assistant State Auditor

Dear Governor Abbott, Mr. Hegar, Ms. Keyton, and Ms. Collier:

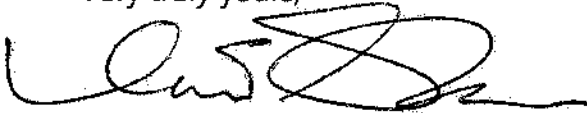

We are pleased to submit the annual financial report of the Texas Department of Insurance for the year ending August 31, 2018.

The report was compiled in compliance with Texas Government Code 2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Valerie Tullos, financial reporting team lead, serves as the lead staff on this matter and can be reached by telephone at 512-676-6184 or by email at valerie.tullos@tdi.texas.gov.

Very truly yours,

Kent C. Sullivan
Commissioner of Insurance

TEXAS DEPARTMENT OF INSURANCE (454)

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ENTITY

The Texas Department of Insurance (TDI) is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for State Agencies*.

TDI statutory authority is Chapter 31.002 of the Texas Insurance Code. Chapter 31.002 states "the department shall (1) regulate the business of insurance in this State; (2) administer the workers' compensation system of this State as provided by the Texas Workers' Compensation Act, Labor Code Title 5, and (3) ensure that this code and other laws regarding insurance and insurance companies are executed." The history of TDI dates back to the Texas Constitution of 1876. Since then, the composition of the agency has changed several times. In 1993, House Bill No. 1461, 73rd Legislature, Regular Session, amended the Insurance Code to establish the commissioner of insurance as the primary policy-setting authority and to abolish the three-member State Board of Insurance no later than September 1, 1994. The Board transferred all remaining authority to the commissioner effective December 16, 1993. Additionally, effective September 1, 2005, House Bill 7, 79th Legislature, Regular Session, created the Division of Workers' Compensation within TDI. This legislation transferred many of the duties and functions of the abolished Texas Workers' Compensation Commission to the Division of Workers' Compensation to administer and operate the workers' compensation system of the State.

TDI includes within this report all components as determined by an analysis of its relationship to TDI as listed below:

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the Texas State Auditor's Office as part of the audit of the *State of Texas Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No component units have been identified which should be blended into an appropriate fund.

Discretely Presented Component Units

These component units are legally separate from the state, but are financially accountable to the state, or have a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of these four entities. Information on these component units can be found in Note 19.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

Capital Assets Adjustment Fund Type

Capital Assets Adjustment Fund Type is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment Fund Type is used to convert governmental fund types' debt from modified accrual to full accrual.

Other Adjustments Fund Type

Other Adjustments Fund Type is used to convert all other governmental fund types' activity from modified accrual to full accrual.

PROPRIETARY FUND TYPES

Enterprise Funds

Enterprise Funds are used to account for any activity for which a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met:

- The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
- Laws or regulations require that the activity's costs of providing services including capital costs (such as depreciation or debt service), be recovered with fees and charges.
- The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

FIDUCIARY FUND TYPES

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Insurance company receivership assets are held by the commissioner of insurance exclusively in his capacity as receiver. These assets belong to insurance companies and other entities in receivership and are not the property of the state.

Agency Funds

Agency Funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Private-Purpose Trust Funds

Private-Purpose Trust Funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

COMPONENT UNITS

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Proprietary Component Units are used to account for discretely presented component units which follow proprietary fund measurement focus and accounting principles.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end.

The state of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- Full accrual revenues and expenses

Proprietary funds and private-purpose trust funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services in connection with the proprietary funds principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES, AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenues set aside for statutory or contractual requirements.

Inventories and Prepaid Items

Inventories consist of consumable inventories. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset, using the straight-line method.

All capital assets acquired by proprietary funds are reported at cost or estimated historical cost, if actual historical cost is not available. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Other Receivables – Current and Noncurrent

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Other Assets – Current and Noncurrent

Other assets reflects the portion of other assets that are not classified in any other categories of assets. This account appears in our fiduciary and proprietary fund types. Surplus Lines Stamping Office of Texas (proprietary fund 3159) reported \$43,266 in other non-current assets, Texas Windstorm Insurance Association (proprietary fund 4154) reported \$11,540,718 in other current assets, and the Fair Access to Insurance Requirements Plan Association (proprietary fund 4163) reported \$43,971,552 in other current assets respectively for FY 2018.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables – Current and Noncurrent

Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types. The disaggregation of other payables, for proprietary fund types, as reported in the financial statements is disclosed in Note 24.

Claims and Judgments

Claims and Judgments which are settled yet unpaid at year-end but will be paid with future fund resources.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position.

UNAUDITED

TEXAS DEPARTMENT OF INSURANCE (454)

FUND BALANCE/NET POSITION

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary, and fiduciary fund statements. The "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned, or unassigned in the fund financial statements:

- Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balances that were not assigned to other funds and were not restricted, committed, or assigned to specific purposes within the general fund.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of: capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories.

INTERFUND ACTIVITIES AND BALANCES

TDI has the following types of transactions among funds:

- (1) **Transfers:** Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.
- (2) **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are displayed as interfund receivables and payables.

The composition of the agency's interfund activities and balances are presented in Note 12.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, TDI and the discrete component units will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. TDI does not have a policy for custodial credit risk but maintains cash balances in a major financial institution and monitors account balances for amounts over \$250,000 of the Federal Deposit Insurance Corporation (FDIC) limit. The Surplus Lines Stamping Office's cash deposits are held in a major financial institution and are insured up to \$250,000. Texas Windstorm Insurance Association deposits exceed the insured limit, but the deposits are held in the Transaction Account Guarantee Program that

Claims and Judgments

Qualified injured workers receive Lifetime Income Benefits that are paid until their death for total and permanent loss of a body part as provided in Section 408.161 of the Texas Labor Code. The amount of lifetime income benefits is equal to 75 percent of the employee's average weekly wage and benefits being paid and shall be increased at a rate of three percent a year subject to Section 408.061 of the Texas Labor Code.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the state for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Position. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 17: RISK MANAGEMENT

The Texas Department of Insurance (TDI) is exposed to a variety of civil claims resulting from the performance of its duties. It is TDI's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

TDI assumes substantially all risks associated with tort and liability claims due to the performance of its duties. TDI carries both automobile liability insurance for agency drivers and owned vehicles, as well as a specialty risk policy for cyber liability. Both policies were issued in accordance with terms and conditions from the State Office of Risk Management. TDI is not involved in any risk pools with other government entities.

TDI's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years.

PRIMARY GOVERNMENT

Changes in the balances of the governmental claims liabilities during the fiscal year 2018 were as follows:

Fund	Beginning Balance	Increases	Decreases	Ending Balance
9997	\$ 13,143,202.79	\$ 0.00	\$ 2,357,332.85	\$ 10,785,869.94

Total	\$ 13,143,202.79	\$ 4,688,643.94	\$ 7,045,976.79	\$ 10,785,869.94

FIDUCIARY FUNDS

Balances of the fiduciary funds claims liabilities during the fiscal year 2017 and 2018 were as follows:

FY	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End

NOTE 19: THE FINANCIAL REPORTING ENTITY

As required by Generally Accepted Accounting Principles, these financial statements present the Texas Department of Insurance (TDI) (the primary government) and its component units. The component units discussed below are included in TDI's reporting entity because of the significance of their operational or financial relationships with the state.

**Individual Component Unit Disclosures
Discretely Presented Component Units:**

TDI is financially accountable for the following legally separate entities; however, they do not provide services entirely or almost entirely to TDI. They are reported in separate exhibits to emphasize that they are legally separate from TDI. The fiscal year-end for these component units is December 31. The component units are responsible for reporting their financial information to TDI for presentation in the financial statements. TDI does not verify the accuracy or completeness of the information and provides no assurances otherwise.

1. The *Surplus Lines Stamping Office of Texas* (Stamping Office) was created pursuant to Texas Insurance Code Chapter 981, Subchapter D, to assist TDI in the regulation of surplus lines insurance. The commissioner of insurance appoints all nine members of the board of directors. The Stamping Office performs its functions under a plan of operation approved by commissioner order. The Stamping Office assesses each surplus lines insurance agent a stamping fee for the administrative funding of the Stamping Office. The primary government can impose its will on the Stamping Office as the assessment rate that funds its operations is subject to commissioner approval.
2. The *Texas Health Reinsurance System* (THRS) was created pursuant to Texas Insurance Code Chapter 1501, Subchapter G, to reinsure risks covered under the health benefit plans of small employers' insurance carriers. The commissioner of insurance appoints, supervises and controls the nine-member board. The primary government can impose its will on THRS as the base reinsurance premium rates and the assessment rates against reinsured health benefit plan issuers are subject to commissioner approval. Senate Bill 1171-ENR-85R of the 85th Legislature called for approval of a Plan of Suspension of THRS. The board of THRS had recommended suspension of operations due to lack of participation. Following notice and hearing, TDI approved in September 2017 a Plan of Suspension and amended the Plan of Operation for THRS authorizing its wind down and suspension of operations. Final reporting for THRS, discretely presented component unit fund 4151, will be at the end of fiscal year 2019.
3. The *Texas Windstorm Insurance Association* (TWIA) was created pursuant to Texas Insurance Code Chapter 2210 and is the state's insurer of last resort for wind and hail coverage in the fourteen coastal counties and parts of Harris County. The commissioner of insurance appoints all nine members of the board of directors. The primary government can impose its will on TWIA as the commissioner of insurance has discretion to modify or approve fee changes and approve maximum liability limits for windstorm and hail insurance policies issued by the Association.
4. The *Fair Access to Insurance Requirements Plan Association* (FAIR) was created pursuant to Texas Insurance Code Chapter 2211 and was created to deliver residential property insurance to residents of Texas in areas that are not adequately served by the voluntary insurance market. The commissioner of insurance appoints all eleven members of the governing committee. The primary government can impose its will on FAIR as the commissioner of insurance can remove a governing committee member without cause and can impact revenues by approving or disapproving rates charged.

Complete financial statements of the individual component units can be obtained from their respective administrative offices.

1. The *Texas Life and Health Insurance Guaranty Association (TLHIGA)* was created pursuant to Texas Insurance Code Chapter 463, for the protection of persons against failure in the performance of contractual obligations under life, accident and health insurance policies and annuity contracts because of the impairment or insolvency of the member insurer that issued the policies or contracts. The commissioner of insurance appoints the nine-member board of directors of the association.
2. The *Texas Title Insurance Guaranty Association (TTIGA)* was created pursuant to Texas Insurance Code Chapter 2602, for the purpose of protecting Texas title insurance policyholders and claimants when a title insurance company or agency fails. This applies to all title insurance written by title insurance companies authorized to do business in Texas. The commissioner of insurance appoints the nine-member board of directors.
3. The *Texas Mutual Insurance Company (Texas Mutual)* was created pursuant to Texas Insurance Code Chapter 2054 and operates as a domestic mutual insurance company providing workers' compensation insurance in the state of Texas and also serves as the insurer of last resort. The commissioner of insurance regulates this entity to the same extent as a private mutual insurance company. The governor appoints five of the nine members of the board with the advice and consent of the Senate.

NOTE 20: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Fair Access to Insurance Requirements (FAIR) Plan Association, discretely presented component unit fund 4163, reported a negative net position of \$52,465,651.

- At times, FAIR can run at a deficit as was the case in 2016 and 2017. FAIR can, with the approval of the commissioner, issue public securities or assess member companies at any time there is a deficit. Assessments were made and reflected in the 2018 financial statements for the statutory deficit as of 12/31/2017.

Texas Windstorm Insurance Association (TWIA), discretely presented component unit fund 4154, reported a negative net position of \$440,232,297.

- TWIA has a deficit related to significant claim activity from Hurricane Harvey that affected the Texas coast in 2017.

Note 2 - Reconciliation

Below is a reconciliation of the total of federal pass-through and federal expenditures as reported on the schedule of Federal Financial Assistance to the total of federal revenues and federal pass-through revenues as reported in the general purpose financial statements. Generally, federal funds are not earned until expended; therefore, federal revenues equal federal expenditures for the reporting period.

Per Combined Statement of Revenues, Expenditures, and Changes in Fund Balance/Statement of Activities - Governmental Fund Types (Exh. II):

Federal Revenue	\$ 4,258,098.89
