November 15, 2018

Honorable Greg Abbott
Governor of Texas

Honorable Glenn Hegar
Texas Comptroller

Ms. Ursula Parks
Director, Legislative Budget Board

Ms. Lisa R. Collier, CPA
First Assistant State Auditor

To Agency Heads Addressed:

The Annual Financial Report of Texas Tech University System (TTUS), with which this letter is bound, is transmitted for inclusion in the State of Texas Comprehensive Annual Financial Report for the fiscal year ended August 31, 2018. Neither the State Auditor nor TTUS Office of Audit Services has audited the accompanying annual financial report and, therefore, neither has expressed an opinion on the financial statements and related information contained in this report. This report is intended to present a complete picture of the fiscal affairs of the System for the year ended August 31, 2018.

As indicated by the following letter of transmittal, this report has been prepared by the fiscal office of the System to provide a summary of the System's financial records.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tedd L. Mitchell".

Tedd L. Mitchell, M.D.
Texas Tech University System
Lubbock, Texas 79409

Dear Chancellor Mitchell:

Submitted herein is the Annual Financial Report of Texas Tech University System for the fiscal year ended August 31, 2018, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact me at 834-4849.

Sincerely,

A handwritten signature in black ink that reads "Sharon Williamson".

Sharon Williamson, CPA
Assistant Vice President, Financial & Managerial Reporting

**NOTES to the COMBINED
FINANCIAL STATEMENTS**

TEXAS TECH UNIVERSITY SYSTEM (793)**Notes to the Combined Financial Statements****Note 1: Summary of Significant Accounting Policies****General Introduction**

The Texas Tech University System (the System) is an agency of the State of Texas and its financial records comply with State statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Annual Financial Reporting Requirements for State Agencies and Universities.

Component institutions which comprise the System include Texas Tech University (TTU), Texas Tech University Health Sciences Center (TTUHSC), Texas Tech University Health Sciences Center at El Paso (TTUHSC at El Paso), Angelo State University (ASU) and Texas Tech University System Administration (TTUSA). The System serves the state of Texas by providing undergraduate and post-graduate education and research in fields such as Law, Business, Medicine, Engineering and Nursing. Each component institution's financial statements are presented at the end of the combined report.

The System also includes within this report all component units as determined by an analysis of their relationship to the System. Blended component units are described in more detail in Note 19. The System has one discrete component unit, the Angelo State University Robert G. Carr and Nona K. Carr Scholarship Foundation (Carr Foundation). Financial statements for this discrete component unit are presented separately at the end of this combined report, and more detailed information can be found in Note 19.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Basis of Accounting

For financial reporting purposes, institutions of higher education are considered proprietary funds, which are used to account for business-type activities. Business-type activities are defined as those that are financed in whole or in part by fees charged to external parties for goods and services. The accompanying financial statements are prepared with transactions recorded on a fund basis. GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an Amendment of GASB Statement No. 34*, established accounting and financial reporting standards for universities within the financial reporting guidelines of GASB 34 as mentioned above. Under GASB 35, universities must follow proprietary fund accounting, and are required to report all funds in a single column instead of by individual fund.

The basis of accounting determines when revenues and expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Proprietary funds use the flow of economic resources measurement focus (whether or not the entity is economically better off as a result of the events and transactions that occurred during the fiscal period reported) and the full accrual basis of accounting, meaning revenues are recognized when earned and expenses are recorded when an obligation has occurred.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Proprietary funds distinguish between operating and nonoperating items. Operating revenues and expenses result from providing services, or producing and delivering goods in connection with ongoing operations. Operating expenses include the cost of sales and services, administrative expenses, and depreciation and amortization on capital assets.

Budgetary Information

The System component institutions prepare annual budgets which are approved by the Board of Regents. The budgets for appropriated funds are prepared biennially and represent appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Cash and Cash Equivalents

For reporting purposes, cash includes cash on hand, cash in transit, cash in local banks, cash in the state treasury, and cash equivalents. Cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near maturity they present insignificant risk of a decrease in value due to changes in interest rates. Investments with an original maturity of three months or less and used for cash management rather than investing activities are considered cash equivalents.

The System records and reports its deposits in the general deposit account at cost. It records and reports its special deposit accounts at fair value.

Investments

The System accounts for its investments at fair value on the Combined Statement of Net Position, as determined by quoted market prices or, in the case of limited partnerships, values as reported by the partnership managers and/or their third party administrators, in accordance with GASB Statement No. 31 – *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Money market and TexPool investments are reported at cost provided the investment has a remaining maturity of one year or less at the date of purchase. All investment income, including changes in the fair value of investments, is reported in the Combined Statement of Revenues, Expenses, and Changes in Net Position. Investments are addressed in more detail in Note 3.

Legislative Appropriations

This item represents the balance of General Revenue Funds and Higher Education Assistance Funds at August 31 as calculated in the Texas State Comptroller's General Revenue Reconciliation.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost generally utilizing the first-in, first out method. Changes in inventories are recorded using the consumption method, with the inventories being reported as assets when they are purchased, and the expense recognized in the period in which the inventories are used or consumed. The consumption method of accounting is used to account for inventories and prepaid items benefiting more than one accounting period. The cost of these items is expensed when the items are used or consumed. Prepaid items also include payments for capital assets that have not been received by the end of the fiscal year.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)**Receivables**

Receivable balances are grouped into several receivable categories. Accounts receivable are recorded net of estimated uncollectible amounts based upon a review of outstanding receivables and historical collection information.

Student receivables consist of tuition and fees charged to students, patient receivables are for medical fees charged for services, and accounts receivable are fees for auxiliary enterprise services provided to students, faculty, and staff, as well as state and local grant billings.

Contracts receivable are primarily related to agreements between the System health sciences center component institutions and teaching hospitals for the provision of medical services.

Federal receivable includes amounts due from the federal government in connection with reimbursement of allowable expenditures disbursed by the System's grants and contracts departments.

Gift receivables are accounted for at their estimated net realizable value. The estimated net realizable value consists of the present value of long-term pledges and a reduction for any allowance for uncollectible pledges. Pledges vary from one to ten years and are used to support specifically identified System programs and initiatives.

Interest and dividend receivable consists of amounts due from investment holdings, cash management pools, and cash invested in various short-term investment items.

Other receivables include items such as travel advances, returned checks, and various other accrued items not included in any other receivable category.

Loans and Notes Receivable

These receivables are student loans receivable that consist of amounts due from the Federal Perkins Loan Program and from other loans administered by the System.

Capital Assets

Capital assets, defined as assets held for use in operations with a value equal to or greater than the capitalization threshold established for that asset type and an initial useful life of more than one year, are recorded at cost at the date of acquisition. Gifts of donated assets are recorded at acquisition value (the price that would be paid to acquire the asset with equivalent service potential in an orderly market transaction) at the date of donation. This is a change in definition established by GASB 72. Capital assets may or may not be capitalized for financial reporting purposes. Livestock held for educational purposes is recorded at estimated fair value.

The capitalization threshold for personal property, such as furniture and equipment is \$5,000. For buildings, building improvements, and facilities and other improvements, the capitalization threshold is \$100,000. Infrastructure has a capitalization threshold of \$500,000. Land, works of art and historical treasures are capitalized regardless of cost or value.

Intangible assets, defined as assets lacking physical substance and of a nonfinancial nature, include computer software, land use rights and patents and trademarks. Purchased computer software is capitalized if the aggregate cost of the purchase meets or exceeds \$100,000. Internally generated computer software has a capitalization threshold of \$1,000,000, and other intangible capital assets must be capitalized if the cost meets or exceeds \$100,000.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

The System is required to depreciate and amortize capitalized assets. Depreciation for capital assets is computed using the straight-line method over the estimated useful lives of the assets. Amortization of intangible assets is based on the estimated useful life of the asset using the straight-line method. Land, works of art and historical treasures are not depreciated.

Capital asset activity for the current fiscal year is shown in Note 2.

Deferred Outflows of Resources

Deferred outflows of resources refers to the net asset consumption of assets that is applicable to a future fiscal year. The System reports certain changes in the net pension liability, changes in net other postemployment benefits liability, and unamortized losses on refunding of debt as deferred outflows. Pension-related deferred outflows are discussed in more detail in Note 9, and other postemployment benefit-related deferred outflows in Note 11.

Payables

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending. Payroll payable includes accrued salary, wages and benefits.

Claims and Judgments

Claims and judgments include estimates for both known medical malpractice claims and those that have not yet been made against the insured participants. These liabilities are reported separately as either current or noncurrent in the Combined Statement of Net Position. Claims and judgments activity is shown in Note 5, with a detailed explanation of the medical self-insurance plan and activity in Note 17.

Unearned Revenues

Unearned revenues include amounts for tuition and fees, certain auxiliary activities, and amounts from grant and contract sponsors received prior to the end of the fiscal year but related to the subsequent accounting period.

Employees' Compensable Leave

Employees' compensable leave represents the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid. These liabilities are reported separately as either current or noncurrent in the Combined Statement of Net Position, and are explained in more detail in Note 5.

Short-term Debt Commercial Paper Notes

Short-term debt commercial paper notes are amounts owed for commercial paper that was issued during the current accounting period for long-term construction projects for the System's component institutions. Short-term debt commercial paper notes are further explained in Note 4.

Revenue Bonds Payable

The System has a number of bond issues outstanding, most of which are supported either directly or indirectly by tuition revenue. Revenue bonds payable are addressed in more detail in Note 6, with changes in activity shown in Note 5. The bonds are reported at par, net of unamortized premiums. Issuance costs are expensed in the period incurred.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)**Pollution Remediation Obligation**

A pollution remediation obligation addresses the current or potential detrimental effects of existing pollution and contamination by participating in pollution remediation activities such as spills of hazardous substances or asbestos abatement. These obligations will generally require the recognition and reporting of remediation liabilities. The System initially accrued and recorded a pollution remediation obligation for Texas Tech University in fiscal year 2016, and the obligation remains the same for fiscal year 2018. This obligation is discussed in detail in Note 5.

Funds Held for Others

Current balances in funds held for others result from the System acting as an agent or fiduciary for other organizations.

Net Pension Liability

The System is required to recognize its proportionate share of net pension liability and operating statement activity related to changes in the net pension liability for participation in the Teacher Retirement System (TRS) pension plan. The net pension liability is the System's proportionate share of the total TRS pension plan liability less the Plan's net assets as reported by the TRS pension plan for fiscal year 2018. The System's proportionate share is based on its contributions to the pension plan relative to the contributions of other employers participating in the plan. The net pension liability and pension-related deferred outflows and inflows are provided by the Texas Comptroller of Public Accounts. These amounts are included in this annual financial report and represent the total net pension liability for all System component institutions. Pensions are discussed in greater detail in Note 9.

Net Other Postemployment Benefits (OPEB) Liability

Effective for fiscal year 2018, GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, the System is required to recognize its proportionate share of the collective net OPEB liability and operating statement activity related to changes in the net OPEB liability for participation in the State Retiree Health Plan administered by the Employees Retirement System of Texas (ERS). The net OPEB liability is the System's proportionate share of the total OPEB Plan liability less the Plan's net assets as reported by the ERS OPEB plan for fiscal year 2018. The System's proportionate share is based on its contributions to the OPEB plan relative to the contributions of all employers and non-employer contributing entity participating in the plan. The net OPEB liability and OPEB-related deferred outflows and inflows are provided by the Texas Comptroller of Public Accounts. These amounts are included in this annual financial report and represent the total net OPEB liability for all System component institutions. OPEB is discussed in greater detail in Note 11.

Deferred Inflows of Resources

Deferred inflows of resources are defined as the net asset acquisition of assets that is applicable to a future fiscal year. The System reports certain changes in the net pension liability and certain changes to net postemployment benefits liability as deferred inflows of resources. Pension-related deferred inflows are discussed further in Note 9, and other postemployment benefit-related deferred inflows in Note 11. There are also deferred inflows associated with irrevocable split-interest agreements, as discussed below.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)**Irrevocable Split-Interest Agreements**

Irrevocable split-interest agreements are a specific type of giving arrangement used by donors to provide resources to two or more beneficiaries. GASB 81, *Irrevocable Split-Interest Agreements*, effective for fiscal year 2018, requires that agencies that receive resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement, and revenue when the resources become applicable to the reporting period. The System reports the transactions for unconditional lead and remainder interests in irrevocable split-interest agreements held by System component institutions in their financial records.

Other Liabilities

The major component of other liabilities consists of advance deposits received from students for residence hall occupancy in the next fiscal year. This category also includes liabilities at TTU for licensing agreements for broadcasting rights with Public Broadcasting Service and National Public Radio.

Liabilities in the above categories are reported separately as either current (due within one year) or noncurrent (amounts due thereafter) in the Combined Statement of Net Position.

Net Position

Net Position reflects the difference between assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources. Net position is presented in three separate classes: Net Investment in Capital Assets; Restricted Net Position; and Unrestricted Net Position.

Net Investment in Capital Assets

This category represents the System capital assets, net of the System accumulated depreciation and outstanding principal balances of the System debt attributable to the acquisition, construction or improvement of those capital assets for the System.

Restricted Net Position

Nonexpendable – assets subject to externally imposed stipulations that they be maintained permanently by the System. Such assets include the principal of the System's permanent endowment funds.

Expendable – assets whose use by the System is subject to externally imposed stipulations that can be fulfilled by actions of the System pursuant to those stipulations, or that expire by the passage of time.

Unrestricted Net Position

Unrestricted net position includes assets whose use by the System is not subject to externally imposed stipulations. They may be designated for specific purposes by action of management or the Board of Regents, or may otherwise be limited by contractual agreements with outside parties.

Interfund Activity and Transactions

The System is regularly involved in both interfund activity and interfund transactions. Interfund activity refers to financial interaction between funds (including blended component units) and is related to internal events. Interfund transactions refer to interactions with outside parties (discretely presented component units, other governments, other legally separate entities and individuals) and are restricted to external events. Interfund activity and interfund transactions are both clearly identifiable and are eliminated where appropriate.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Note 3: Deposits, Investments, and Repurchase Agreements

The System's investment portfolio is invested pursuant to the parameters of applicable Texas law and the governing board's Investment Policies. Under Texas law, the System investments may be "any kind of investment that persons of ordinary prudence, discretion, and intelligence, exercising the judgment and care under the circumstances then prevailing, acquire or retain for their own account in the management of their affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital." Under Texas law, the System is required to invest its institutional funds according to written investment policies adopted by the Board of Regents. No person may invest the System funds without express written authority from the governing board.

The governing investment policy is Regents' Rules Chapter 09, "Investment and Endowments." The majority of the System assets are invested in two investment pools; the Long Term Investment Fund (LTIF) and the Short/Intermediate Term Investment Fund (SITIF), both having their own stand-alone investment policies. Endowment funds and certain eligible long-term institutional funds are invested in the LTIF, which invests in equity and fixed income securities, as well as alternative investments such as hedge funds and private equity, and is operated using a total return philosophy. Other institutional funds not in the LTIF are invested in the SITIF. Other assets include securities gifted to the System with donor instructions to maintain in their original form, and debt proceeds.

Deposits of Cash in Bank

The carrying amount of deposits as of August 31, 2018 and August 31, 2017 was \$101,636,910.13 and \$86,342,796.56 (restated), respectively, as presented below:

Investments

The System values its investments at fair value. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value is an exit price at the measurement date from the perspective of the market participant that holds the asset. This is a market-based measurement.

GASB 72 identifies the following three acceptable valuation approaches to determine fair value:

- Market approach - uses prices and other relevant information generated by market transactions involving identical or similar items.
- Cost approach – measures fair value based on the current cost to replace the present service capacity of an asset.
- Income approach – discounts future amounts (such as cash flows or revenues and expenses) into a single current amount.

GASB 72 also establishes a fair value hierarchy that classifies inputs to valuation techniques into three levels:

- Level 1 – inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that can be accessed at the measurement date.
- Level 2 – inputs are inputs (other than quoted prices included within Level 1) that are observable for an asset or liability – either directly (quoted market prices for similar assets or liabilities) or indirectly (corroborated from observable market information).
- Level 3 – inputs are unobservable inputs for an asset or liability.

Beyond these three levels, Net Asset Value and Amortized Cost may be used to categorize investments without a readily determinable fair value.

These investments calculate the NAV consistent with the Financial Accounting Standard Board’s measurement principles for investment companies. These investments are exempt from classification within the fair value hierarchy when the System does not intend to sell all or a portion of the investment for an amount that is different from the NAV.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the agency will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The System’s investment policy is to require third party custody for the two investment pools, the LTIF and the SITIF. The balances listed below relate to the securities held outside of those pools at August 31, 2018 and August 31, 2017.

Business-Type Activities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System's investment policy limits fixed income securities held by the STIF to those issued by the U.S. or its agencies and instrumentalities. As of August 31, 2018, the System's credit quality distribution for securities with credit risk exposure was as follows.

Investment Derivative Instruments

The System's Investment Policy Statement for the LTIP² allows investment in certain derivative securities. A derivative security is a financial instrument which derives its value from another security, currency, commodity or index. As of August 31, 2018 the System held futures contracts, options and total return swaps as investment derivatives.

Derivative investments are also reported at fair value, using the same approach and hierarchy required by GASB 72 discussed in the Investments section above. The System's derivative investment instruments are reported using Level 2 inputs. Derivatives are discussed more in Note 7.

The System entered into these type derivatives as efficient substitutes for traditional securities to reduce portfolio risks created by other securities, or in fully hedged positions to take advantage of market anomalies. The derivative contracts entered into during fiscal year 2018 all used market indices as underlying securities in order to gain and reduce market exposure in an efficient manner. All investment derivatives are reported as Investments on the Combined Statement of Net Position, and changes in fair value of certain derivatives are reported as investment revenue in the Combined Statement of Revenues, Expenses and Changes in Net Position.

These derivative instruments involve market and/or credit risk in excess of the amount recognized in the Combined Statement of Net Position. Risks arise from the possibility that counterparties will be unable to meet the terms of their contracts and from movement in index values. Futures contracts have reduced counterparty credit risk since they are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees them against default. Counterparty risk for swaps and options is mitigated by master netting agreements between the System and its counterparties, and by the posting of collateral on a daily basis.

At August 31, 2018, the System also had exposure to investment **foreign currency risk in derivative investments** as presented in the table below.

Fund Type	GAAP Fund	Foreign Currency	Business-Type Activities

Short-Term Debt Commercial Paper Notes

Commercial paper, both taxable and non-taxable, was issued during the fiscal year to serve as an interim financing source for various long-term construction projects in advance of the issuance of authorized bonds. All commercial paper outstanding at August 31, 2018 will mature in fiscal year 2019. Commercial paper has short maturities up to 270 days with interest rates ranging from .85% to 1.73% for tax-exempt, and 1.20% to 2.15% for taxable paper.

Claims and Judgments

TTUHSC and T'UHSC at El Paso have self-insured arrangements for medical malpractice coverage through a medical malpractice self-insurance plan. Claims and judgments include estimates for both known medical malpractice claims and those that have not yet been made against the insured participants. The liability is actuarially estimated to reflect the anticipated future claims for past medical services, and is adjusted annually based on an actuarially estimated incurred but not reported (IBNR) liability. Some of these claims are in process, while others are expected to be filed in the future. The liability estimate does not consider the probability of payment on a claim-by-claim basis and instead considers overall probability of payment for medical malpractice claims. Funding for future claim payments will be from a self-insurance reserve managed by the office of the General Counsel. More information is presented in Note 17.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)**Employees' Compensable Leave**

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Under state law, the hours accumulated are limited based on the employees' length of service. Expenditures for accumulated annual leave balances are recognized in the period paid or taken. The liability for unpaid benefits is recorded in the Combined Statement of Net Position. This obligation is paid from a central vacation pool account which collects the funding from the same funding source(s) from which the employee's salary or wage compensation was paid. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Revenue Bonds Payable

See Note 6 and accompanying Bond Schedules for detailed information on bond liability balances and transactions.

Pollution Remediation Obligation

TTU owns a 5,855-acre parcel of land in Carson County, Texas. The land was purchased from the United States of America, acting by and through the General Services Administrator, in 1949 to operate an experimental research farm on a portion of the land. TTU is a responsible party for pollution remediation activities on this land for which expenses have been accrued in the amount of \$1,022,641.50. The estimated liability is based on analysis from Stroller Newport News Nuclear, Inc. and factored down by 50% for cost reduction measures that would result in cost savings. This amount is subject to cost volatility until such time remediation activities are complete. The land will be considered for remediation if the land is sold, transferred or otherwise utilized in a manner necessitating pollution remediation.

Capital Lease Obligations

Capital lease obligations and more detailed information on assets under capital leases and capital lease transactions are illustrated in Note 8.

Pledged Future Revenues

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, and the pledging of receivables or future revenues to repay a borrowing (collateralized borrowing). The following table provides the pledged future revenue information for the System's revenue bonds for which a revenue pledge exists:

Pledged Future Revenues	Business-Type Activities	
	FY18	FY17
Pledged Revenue Required for Future Principal and Interest on Existing Revenue Bonds	\$ 982,392,523.46	\$1,071,695,919.47
Term of Commitment for Year Ending 8/31	2045	2045
Percentage of Revenue Pledged	100%	100%
Current Year Pledged Revenue	\$ 733,578,918.70	\$ 743,933,156.59
Current Year Principal and Interest Paid	\$ 89,303,396.01	\$ 66,086,373.24

Pledged revenue sources include operating income from tuition and fees, sales and services from auxiliary and non-auxiliary activities, investment income, unrestricted contract and grant revenues, and state appropriations for tuition revenue bonds.

Sources of Debt-Service Revenue

On October 21, 1993, the governing board of the System established a Revenue Financing System (RFS) for the purpose of providing a financing structure for all revenue supported indebtedness of System component institutions. The source of revenues for debt service issued under the RFS includes pledged general tuition, pledged tuition fee, pledged general fee and any other revenues, income, receipts, rentals, rates, charges, fees, including interest or other income, and balances lawfully available to System component institutions. Excluded from the revenues described above are amounts received under Article 7, Section 17 of the Constitution of the State of Texas, general revenue funds appropriated by the Legislature except to the extent so specifically appropriated, encumbered housing revenues, and practice plan funds.

Prior to September 1, 2007, all bonded indebtedness for Angelo State University (ASU) was issued through the Texas State University System (TSUS) Revenue Financing System, of which the TSUS Administration and each of their components were members. The TSUS Board of Regents cross-pledged all lawfully available funds (revenues) and balances attributable to any TSUS RFS member against the bonded indebtedness of all other TSUS RFS members for payment on the Parity Debt. Effective September 1, 2007, House Bill 3564 (80th Legislature, Regular Session) transferred governance of Angelo State University to the Texas Tech University System. For the debt issued by the TSUS, the bonds payable are reported by TSUS. ASU will repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented below for informational purposes only.

Totals		\$ 3,995,000.00	\$ 509,500.00	\$ 4,504,500.00

A portion of the ASU debt above represents Tuition Revenue Bonds historically funded by the Texas Legislature through General Revenue Appropriations. ASU was appropriated \$1,121,750.00 during the current fiscal year for Tuition Revenue Bond debt service. ASU expects future Legislative appropriations to meet debt service requirements for Tuition Revenue bonds.

Note 7: Derivatives

The System Investment Policy Statement for the LTF allows investment in certain derivative securities. Derivatives are financial instruments whose values are derived in whole or in part from the value of any one or more underlying assets or index of asset values. Investment derivatives are entered into with the intention of managing transaction risk, reducing interest cost, or reducing currency exchange risk in purchasing, selling or holding investments. The System's investment derivatives include futures contracts, options, and total return swaps.

The following disclosures summarize the System's derivative activity as reported in the financial statements as of August 31, 2018.

Investment Derivatives	Changes in Fair Value		Fair Value at August 31, 2018		
	Classification	Amount	Classification	Amount	Notional

The System classified its investment derivative instruments using Level 2 inputs in the fair value hierarchy, meaning the instruments are valued using a market approach that considers benchmark interest rates and foreign exchange rates. Note 3 contains more detailed information about derivatives held for investment purposes and the fair value measurement hierarchy established by GASB 72.

Fair Value

Derivative instruments are recorded at fair value. Futures contracts are marked-to-market daily and valued at closing market prices on the valuation date. A daily variation margin between the daily value of the contracts and the value on the previous day is recorded and settled in cash with the broker the following morning. Options and total return swaps are valued using broker quotes, proprietary pricing agents or appropriate pricing models with primarily externally verifiable model inputs.

Investment Derivatives

Investment derivatives expose the System to certain investment related risks. The System discloses more detail about investment derivatives and risk in Note 3.

Note 8: Leases

Capital Lease Obligations

In fiscal year 2018, a capital lease was entered into between TTU and TCF Equipment Finance for turf maintenance equipment to be used at the Rawls Golf Course, which is operated by Troon Golf, LLC. Capital leases are recorded at the present value of the future minimum lease payments at the inception of the lease. The table below presents the capitalized cost and accumulated depreciation of the property under capital lease at August 31, 2018.

Assets Under Capital Leases	Business-Type Activities	
	FY18	FY17
Furniture & Equipment	\$ 917,908.57	\$ 0.00
Less: Accumulated Depreciation	(81,626.16)	0.00
Total	\$ 836,282.41	\$ 0.00

System components had no obligations due under capital lease agreements at the end of fiscal year 2017.

UNAUDITED

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Future minimum lease payments under this capital lease, together with the present value of the net minimum lease payments at August 31, 2018 are:

Note 9: Defined Benefit Pension Plan and Defined Contribution Pension Plan

Defined Benefit Pension Plan

The System component institutions participate in one of the three retirement systems in the State of Texas' financial reporting entity – the Teacher Retirement System (TRS). The accounting and reporting for the System's proportionate share of the TRS net pension liability is included in the System's financial records and represents the net liability for all the System component institutions.

The Teacher Retirement System of Texas is the administrator of the TRS Plan, a cost-sharing, multiple-employer defined benefit pension plan with a special funding situation.

The employers of the TRS Plan include the state of Texas, TRS, the state's public schools, education service centers, charter schools, and community and junior colleges. All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the TRS Plan. Employees of TRS and state of Texas colleges, universities and medical schools are members of the TRS Plan.

The TRS Plan provides retirement, disability annuities and death and survivor benefits. The benefit and contribution provisions of the TRS Plan are authorized by state law and may be amended by the Legislature. The pension benefit formulas are based on members' average annual compensation and years of service credit. The standard annuity is 2.3 percent of the average of the five highest annual salaries multiplied by years of service credit. For grandfathered members who were hired on or before August 31, 2005 and meet certain criteria, the standard annuity is based on the average of the three highest annual salaries. The plan does not provide automatic cost of living adjustments (COLAs).

An audited Comprehensive Annual Financial Report (CAFR) for the Teacher Retirement System may be obtained from:

Teacher Retirement System of Texas
1000 Red River Street
Austin, Texas 78701-2698

During the measurement period of 2017 for fiscal year 2018 reporting, and the measurement period of 2016 for fiscal year 2017 reporting, the amount of the System's contributions excluding the State match to TRS recognized by the Plan was \$18,861,478.00 for 2018, and \$18,429,661.00 for 2017. The contribution rates are based on a percentage of the monthly gross compensation for each member. The contribution requirements for the state and the members in the measurement period are presented in the table below:

Required Contribution Rates

Contribution Rates - TRS Plan	FY18	FY17
Employer	6.8%	6.8%
Employees	7.7%	7.2%

The total pension liability is determined by an annual actuarial valuation. The table below presents the actuarial methods and assumptions used by TRS to measure the total pension liability for the TRS Plan as of the August 31, 2017 and 2016 measurement dates.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Post-retirement	2015 TRS Healthy Pensioner Mortality Tables	2015 TRS Healthy Pensioner Mortality Tables
Ad Hoc Post-Employment Benefit Changes	None	None

The actuarial methods and assumptions used in the valuation were primarily based on the result of an actuarial experience study for the four-year period ending August 31, 2014 and adopted in September 2015. The mortality rates were based on 90% of the RP 2014 Employee Mortality Tables for the active members. The post-retirement mortality rates were based on the 2015 TRS Healthy Pensioner Mortality Tables.

There have been no changes to the benefit provisions of the Plan since the prior measurement date.

The discount rate of 8.0% was applied to measure the total pension liability for the TRS Plan. There has been no change in the discount rate since the prior measurement period. The projected cash flows into and out of the pension plan assumed that members, employers, and the non-employer contributing entity make their contributions at the statutorily required rates. Under this assumption, the pension plan's fiduciary net position is projected to be sufficient to make all future pension benefit payments of current plan members. Therefore, the 8.0% long-term expected rate of return on TRS pension plan investments was used as the discount rate without incorporating the municipal bond rate.

The long-term expected rate of return on TRS Plan investments was developed using a building-block method with assumptions including asset class of investment portfolio, target allocation, real rate of return on investments, and inflation factor. Under this method, best estimate ranges of expected future real rates of return (net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class for the TRS Plan's investment portfolio are presented below for the fiscal years 2017 and 2016 measurement dates:

Sensitivity analysis was performed by TRS on the impact of changes in the discount rate on the proportionate share of the System's net pension liability. The result of the analysis is presented in the table below:

Fiscal Year	Sensitivity of TTU System's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate		
	1% Decrease	Current Discount Rate	1% Increase
	(7%)	(8%)	(9%)
FY18	\$ 310,810,071.00	\$ 184,369,216.00	\$ 79,086,683.00
FY17	\$ 338,562,502.00	\$ 218,757,231.00	\$ 117,138,142.00

The TRS pension plan's fiduciary net position is determined using the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds of contributions are recognized when due and payable in accordance with the terms of the TRS Plan. Investments are reported at fair value. Fair value is a market-based measurement, not an entity-specific measurement. TRS utilizes one or more of the following valuation techniques in order to measure fair value: the market approach, the cost approach, and the income approach. More detailed information on the TRS Plan's investment policy, assets, and fiduciary net position, may be obtained from TRS' fiscal year 2017 Comprehensive Annual Financial Report.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

The System reported a liability of \$184,369,216.00 for its proportionate share of the TRS collective net pension liability for the year ended August 31, 2018 and \$218,757,231.00 for the year ended August 31, 2017. The collective net pension liability was measured as of August 31, 2017 for fiscal year 2018 reporting, and as of August 31, 2016 for fiscal year 2017 reporting, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of the measurement date for each year. The System's proportion of the net pension liability at the August 31, 2017 measurement date was .5766112 percent, and was .5788987 percent at the August 31, 2016 measurement date. The System's proportion of the collective net pension liability was based on its contributions to the pension plan relative to the contributions of all the employers and the non-employer contributing entity to the Plan for the period September 1, 2016 through August 31, 2017 for fiscal year 2018 reporting, and for the period September 1, 2015 through August 31, 2016 for fiscal year 2017 reporting.

For the years ending August 31, 2018 and 2017, the System recognized pension expense of \$17,311,355.00 and \$25,483,686.00, respectively. At August 31, 2018 and 2017, the System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FY18		FY17	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,697,405.00	\$ 9,942,790.00	\$ 3,430,071.00	\$ 6,531,963.00

The \$20,171,625.00 reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the System's net pension liability for the year ending August 31, 2019.

Amounts reported by the System as deferred outflows and inflows of resources related to pensions will be recognized as pension expense in the following years:

Year ended August 31:

Defined Contribution Pension Plan

The State has established an Optional Retirement Program (ORP), authorized by Texas Government Code, Chapter 830. Full-time faculty, librarians, and certain professionals and administrators employed in public higher education are eligible to elect ORP in lieu of the TRS Plan. The Texas Higher Education Coordinating Board develops policies, practices and procedures to provide greater uniformity in the administration of ORP. The contributory percentage of participant salaries by the members (employees) was 6.65% for both fiscal years 2018 and 2017. The contributory percentage of participant salaries by the employer (System components) was 6.8% in both fiscal years 2018 and 2017. For those employees who were participating in the ORP on or before August 31, 1995, the employer contribution rate was 8.5% for both fiscal years 2018 and 2017, and will remain so subject to legislative change. The contributions made by plan members and the employer for the fiscal years ended August 31, 2018 and 2017 are:

	FY18	FY17
Member Contributions	\$ 21,135,595.27	\$ 21,129,181.06
Employer Contributions	22,555,011.13	22,679,495.86
Total	\$ 43,690,606.40	\$ 43,808,676.92

ERS Plan

Employees Retirement System is the administrator of the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer defined benefit OPEB plan with a special funding situation.

The 61 employers of SRHP include state of Texas agencies and universities, community and junior colleges, and other entities specified by the Legislature. Benefits are provided to retirees through the Texas Employees Group Benefits Program as authorized by Texas Insurance Code, Chapter 1551.

The SRHP provides postemployment health care, life and dental insurance benefits to retirees. The benefit and contribution provisions of the SRHP are authorized by state law and may be amended by the Legislature. Retirees must meet certain age and service requirements and have at least 10 years of service at retirement to participate in the plan. Surviving spouses and dependents of retirees are also covered by the plan. The plan does not provide automatic cost of living adjustments (COLAs).

The audited Comprehensive Annual Financial Report (CAFR) for the Employees Retirement System may be obtained from:

Employees Retirement System of Texas

 Austin, Texas 78701

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

During the measurement period of 2017 for fiscal 2018 reporting, the amount of the System’s contributions recognized by the plan was \$7,892,593.19. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. The contribution requirements for the state and the members in the measurement period are presented in the table below:

Employer Contribution Requirements

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

The many actuarial assumptions used in the valuation were primarily based on the result of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2011 to August 31, 2016 for state agency members and for the period September 1, 2010 to August 31, 2014 for higher education members. The mortality rates were based on the tables identified in the table above titled *Actuarial Methods and Assumptions*.

The following benefit revisions have been adopted since the prior valuation for retirees and dependents for whom Medicare is not primary:

- a. increase in the out-of-pocket cost applicable to services obtained at a free standing emergency facility,
- b. elimination of the copayment for virtual visits,
- c. copay reduction for Airrosti and for out of state participants and,
- d. elimination of the deductible for in-network services and application of a copayment rather than coinsurance to certain services like primary care and specialist visits.

The discount rate that was used to measure the total OPEB liability is the municipal bond rate of 3.51% as of the end of the measurement year; as of the beginning of the measurement year, the discount rate was 2.84%. Projected cash flows into the plan are equal to projected benefit payments out of the plan. As the plan operates on a pay as you go basis and is not intended to accumulate assets, there is no long-term expected rate of return. ERS' board of trustees adopted an amendment to the investment policy in August 2017 to require that all funds in this plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments be at least 2.4%. The investment rate of return used to calculate the projected earnings on OPEB plan investments was 2.84%.

Sensitivity analysis was performed on the impact of changes in the discount rate on the proportionate share of the System's net OPEB liability. The result of the analysis is presented in the table below:

Sensitivity of TTU System's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate (\$ thousands)		
1% Decrease (2.51%)	Current Discount Rate (3.51%)	1% Increase (4.51%)
\$ 342,513,208.00	\$ 286,932,211.00	\$ 243,879,763.00

Sensitivity analysis was performed on the impact of changes in the healthcare cost trend rates on the proportionate share of the System's net OPEB liability. The result of the analysis is presented in the table below:

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Sensitivity of TTU System's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate		
1% Decrease (7.50% decreasing to 3.50%)	Current Healthcare Cost Trend Rates (8.50% decreasing to 4.50%)	1% Increase (9.50% decreasing to 5.50%)
\$ 241,215,276.00	\$ 286,932,211.00	\$ 346,252,538.00

The OPEB plan's fiduciary net position is determined using economic resources measurement focus and accrual basis of accounting, which is the same basis used by ERS. Benefits and refunds of contributions are recognized when due and payable in accordance with the terms of the plan. Investments of the Other Employee Benefit Trust Fund are reported at fair value in accordance with GASB Statement No. 72. The fair value of investments is based on published market prices and quotations from major investment brokers at available current exchange rates. However, corporate bonds in general are valued based on currently available yields of comparable securities by issuers with similar credit ratings. More detailed information on the plan's investment valuation, investment policy, assets, and fiduciary net position may be obtained from ERS' fiscal 2017 CAFR.

At August 31, 2018, the System reported a liability of \$286,932,208.00 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured as of August 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The System's proportion at August 31, 2017 was .8421099 percent. The System's proportion of the collective net OPEB liability was based on its contributions to the OPEB plan relative to the contributions of all the employers and non-employer contributing entity to the plan for the period September 1, 2016 through August 31, 2017.

For the year ending August 31, 2018, the System recognized OPEB expense of \$15,355,484.00. At August 31, 2018, the System reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience		\$ 3,448,004.00
Changes of assumptions		59,994,083.00
Net difference between projected and actual investment return	\$ 84,950.00	
Contributions subsequent to the measurement date	73,700,114.00	
Total	\$ 73,785,064.00	\$ 63,442,087.00

The \$73,700,114.00 reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net OPEB liability for the year ending August 31, 2019.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense in the following years:

Year ended August 31:	
2019	\$ (14,267,521.00)
2020	(14,267,521.00)
2021	(14,267,521.00)

Note 12: Interfund Activity and Transactions

As explained in Note 1 on interfund activities and transactions, there are numerous transactions between funds and agencies. Interfund activity refers to financial interactions between funds and/or blended component institutions and units and is restricted to internal events. Interfund transactions refer to financial interactions with legally separate entities, i.e., discrete component units and other governments, and are restricted to external events. Interfund activity between System components is eliminated where appropriate for reporting purposes.

At year-end, amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables
- Due from Other State Agencies or Due to Other State Agencies
- Transfers In or Transfers Out
- Interagency Capital Asset Transfers
- Legislative Transfers In or Legislative Transfers Out

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances occurs within one year from the date of the financial statement.

System component institutions and units had no interfund receivable or interfund payables as of August 31, 2018. Tables included in previous years detailing the other types of interfund activity and transactions above are an optional presentation and are not included in this note.

Note 13: Continuance Subject to Review

The System is not subject to the Texas Sunset Act.

Note 14: Adjustments to Fund Balances and Net Position

During fiscal year 2018, certain accounting changes and adjustments were made that required the restatement of net position for FY17 in order to provide comparative statements. The restatements are presented below.

Business-Type Activities

Combined Statement of Revenues, Expenses and Changes in Net Position	FY17
Beginning Net Position, September 1	\$ 2,924,054,999.45

Beginning Cash & Cash Equivalents, September 1 as restated	<u>\$ 386,529,710.80</u>

GASB 75 required an adjustment to fiscal year 2017 net position for the inclusion of other postemployment benefits expenses and related transactions. During fiscal year 2018, a determination was made that the Texas Tech Law School Foundation (TTLSF) should not be included as a blended component unit, resulting in changes to cash and cash equivalents, and net position for fiscal year 2017. GASB 81 reporting requirements for irrevocable split interest agreements also resulted in adjustments to net position.

There were also reclassifications of several items in the financial records of System component institutions resulting in the restatement of comparative financial statement balances for the year ended August 31, 2018. These reclassifications required no restatement of fund balances or net position.

Note 15: Contingencies and Commitments

Contingencies

Unpaid Claims and Lawsuits

At August 31, 2018 the following contingent claims were pending for TTUHSC:

Section 1115 Waiver Payments:

The Texas Health and Human Services Commission (HHSC) annually completes a reconciliation of Section 1115 Transformation Waiver Uncompensated Care payments to allowable uncompensated costs reported by participating hospitals/physicians. TTUHSC expects to receive a notification for Demonstration Year 2 (DY2) related to excess uncompensated care payments received by its Lubbock and Odessa campuses. TTUHSC estimates that the DY2 recoupment will be approximately \$1,565,000. A contingent liability in the amount of \$1,565,000 for the DY2 recoupment amount has been recorded in Other Current Liabilities in the Combined Statement of Net Position.

Contingent claims for overpayments for the *Physician Supplemental Payments* program previously accrued by both TTUHSC and TTUHSC at El Paso were paid in FY18. This HHSC program was terminated and no future repayments are anticipated.

At August 31, 2018, other lawsuits involving the System were pending. While the ultimate liability with respect to litigation and other claims asserted against the System cannot be precisely estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is in legal counsel's opinion, not likely to have a material effect on the System.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)***Federal Assistance***

The System component institutions receive federal grants for specific purposes that are subject to review or audit by federal grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, would be immaterial.

Arbitrage

Rebatable arbitrage is defined by Internal Revenue Code, Section, 148 as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. The rebatable arbitrage must be paid to the federal government. The System monitors its investments to restrict earnings to a yield less than the bond issue and, therefore, limit any arbitrage liability. For fiscal years 2018 and 2017, the System recorded no rebatable arbitrage.

Commitments***Investment Funds***

The System entered into capital commitments with investment managers for future funding of investment funds. Investment funds include hedge fund pools, private investment pools, public market funds and other alternative investments managed by external investment managers.

As of August 31, 2018 and August 31, 2017, the remaining commitment - domestic for the System was \$142,263,061.88 and \$168,430,658.94, respectively.

As of August 31, 2018 and August 31, 2017, the remaining commitment – domestic for the Carr Foundation was \$17,878,530.12 and \$21,395,934.06, respectively.

Note 16: Subsequent Events

The System had no subsequent events to report as of August 31, 2018.

Note 17: Risk Management

The System, by State law, is required to be a participant in the Workers Compensation Program and Pool managed by the State Office of Risk Management (SORM). The System component institutions are assessed fees by SORM based upon claims experience, claim incidences, payroll size and full-time equivalent (FTE). SORM also determines the methodology for allocation to the major fund groups. SORM pays all workers' compensation insurance claims. The Worker's Compensation plan for the fiscal year was funded by a .25 percent charge on non-educational and general gross payroll for paying its proportionate share of the SORM assessment.

The System has self-insured arrangements for Unemployment Compensation Fund coverage. The State of Texas pays 50% of claims for employees paid from state funds. The System pays the remainder for employees paid from state funds and 100% of the claims paid from non-state funds. The claims for employees paid from non-state funds are funded by interest earnings on the Unemployment Compensation Fund balance and utilization of fund balance.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

Two component institutions of the System, TTUHSC and TTUHSC at El Paso, have self-insured arrangements for medical malpractice coverage through a medical malpractice self-insurance plan. The plan is managed by the Office of General Counsel, and the associated liability is adjusted annually based on actuarially estimated incurred but not reported (IBNR) liability to reflect the anticipated future claims related to past medical services. The information below includes current year accruals and associated payments in addition to the liabilities accrued in Note 5.

Changes in the balances of the agency's claims liabilities during fiscal years 2018 and 2017 are presented in the table below.

Claims and Judgments	Beginning Balance	Increases	Decreases	Ending Balance
FY2018	\$ 7,857,022.00	\$ 530,623.77	\$ (1,429,507.77)	\$ 6,958,138.00
FY2017	\$ 10,685,358.25	\$ 25,198.30	\$ (2,853,534.55)	\$ 7,857,022.00

The increases in fiscal years 2018 and 2017 are comprised of miscellaneous claims and judgments. The decreases arose from the payment of these miscellaneous claims. The liability is actuarially estimated to reflect the anticipated future claims for past medical services, and is adjusted annually based on an actuarially estimated incurred but not reported (IBNR) liability.

Note 18: Management's Discussion and Analysis

The System is governed, controlled, and directed by a ten-member Board of Regents, who are appointed by the Governor of Texas and confirmed by the legislature. All members of the board serve six-year staggered terms with the exception of one (non-voting) student regent who serves a one-year term. Actions of the Board of Regents are guided by the Regents' Rules and Regulations. A list of the current members of the Board of Regents is included in the organizational data.

Chancellor Tedd L. Mitchell serves as the chief executive officer of the System, a position that is appointed by the Board of Regents. As chief executive officer, Chancellor Mitchell leads System policy and has direct oversight of all operations at the four universities (component institutions). An Executive Leadership team guides the System in areas including finance, academic affairs, legal affairs, fundraising, marketing and communications, and governmental relations, along with other strategic functions. Each of the four institutions has a president who is appointed by the chancellor. The president is the chief executive officer of that university and is responsible for its operation.

Formally established by the Texas Legislature in 1999, the System is composed of a central administration, two general academic institutions and two health-related institutions. The component institutions of the System are Texas Tech University (TTU), Texas Tech University Health Sciences Center (TTUHSC), Texas Tech University Health Sciences Center El Paso (TTUHSC El Paso), Angelo State University (ASU) and Texas Tech University System Administration (TTUSA). In its young history, the System has emerged as a nationally acclaimed higher education system. Headquartered in Lubbock, Texas, the System operates 18 campuses and academic sites throughout the State of Texas and internationally. The System has locations statewide in Abilene, Amarillo, Cleburne, Dallas, El Paso, Fredericksburg, Highland Lakes, Junction, Lubbock, Midland, Odessa, San Angelo and Waco. Internationally, the System has locations in Seville, Spain and San Jose, Costa Rica. The total enrollment across all component institutions is more than 54,000 students as of Fall 2018.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

In fiscal year 2018, the System maintained stellar financial ratings with all three of the industry's top credit rating agencies: Standard & Poor (AA+), Moody's (Aa1) and Fitch (AA+). The System's credit ratings are among the top 25% of all public higher education institutions nationwide. The System employs more than 18,300 faculty and staff and has an annual combined operating budget of more than \$2.1 billion consisting of revenues from the following sources: 43% designated funding, 27% appropriated funds by the Texas Legislature, 19% restricted funds, and 11% from auxiliaries.

The System is committed to providing the highest quality and most efficient resources and services to its components. Throughout all institutions and centers, the System strives to enhance student success, strengthen academic quality, expand research, and promote community outreach.

Note 19: The Financial Reporting Entity

The combined financial statements of the System include all component institutions comprising the System – Texas Tech University (TTU), Texas Tech University Health Sciences Center (TTUHSC), Texas Tech University Health Sciences Center at El Paso (TTUHSC at El Paso), Angelo State University (ASU) and Texas Tech University System Administration (TTUSA). Amounts due between and among component institutions and other duplications in reporting are eliminated in combining the financial statements.

Also included in these combined financial statements are the component units listed below.

Individual Component Unit Disclosures*Blended Component Units*

The financial transactions and records of the following component units are blended with the financial transactions and records of the System component institutions due to the significance of their operational or financial relationship with the System.

The Texas Tech Foundation, Inc. (TTFI) is a not-for-profit 501(c)(3) organization, exempt from income taxes. TTFI was founded to financially support and serve the fundraising needs of all colleges, schools, programs, and campuses of the System and the component institutions of the System, excluding ASU. TTFI was formed to seek and obtain gifts for all the System component institutions; to receive, hold, invest and administer property of any type given to the component institutions; and to make expenditures to or for the benefit of the System component institutions. The members of the TTFI Board are appointed by and serve at the will of the System Board of Regents. This Board of Regents also has the ability to veto, override or modify decisions of TTFI, and they can modify or approve TTFI's budget. Based on these criteria, the financial transactions of TTFI have been blended into the financial statements of the System. August 31 is the Foundation's fiscal year end, and the Foundation's financial statements may be obtained from the TTUS Office of Institutional Advancement, located at 1508 Knoxville Avenue, Suite 315, Lubbock, TX 79409.

Texas Tech Physician Associates (TTPA), whose principal office and financial records are located at Provider Payor Relations, 3601 4th St. Lubbock, TX 79430, is a certified non-profit health corporation authorized under the Medical Practice Act Section 5.01(a), article 4495b of the State of Texas. TTPA was organized and is operated exclusively for the benefit of, to perform the function of, or to carry out the purposes of TTUHSC and TTUHSC at El Paso, and its financial records are blended with those of TTUHSC and TTUHSC at El Paso. TTPA is exempt from tax under Internal Revenue Service code section 501(c)(3). The TTUHSCs have the sole and exclusive right to appoint the nine member Board of Directors. The TTUHSCs control all financial and operational transactions of TTPA including developing and approving the annual and capital budgets of TTPA, appointing and removing directors and officers of the Board, entering into contracts, sales or leases, giving or seeking grants, and approving financial expenditures; therefore, the financial transactions of TTPA have been blended into the financial statements of TTUHSC and TTUHSC at El Paso. TTPA's fiscal year end is August 31.

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

The Angelo State University Foundation, Inc. (ASUF) was formed exclusively for the benefit of ASU, and is a public, non-profit organization established to provide financial assistance to ASU, primarily from gifts and earnings on endowed funds. ASUF oversees management, investment and distribution of all funds for the furtherance of educational purposes at ASU. ASU provides the foundation with office space, telephone service, utilities and the use of other equipment and facilities. ASU also authorizes its officers and employees, as a part of their regular duties, to perform administrative tasks for, and solicit funds on behalf of, the foundation. The financial transactions of ASUF have been blended into the financial statements of Angelo State University. The financial records of ASUF may be obtained from Angelo State University, 2601 W. Ave N., San Angelo, TX 76909. ASUF's fiscal year end is August 31.

In fiscal year 2017, Texas Tech Law School Foundation (TTLSF) was included as a blended component unit of the System. In fiscal year 2018, a determination was made that TTLSF does not meet the reporting entity component unit criteria for blending, and System financial statements have been restated to remove TTLSF activity.

The condensed financial statements for the System blended component units as of August 31, 2018 are presented below.

Discretely Presented Component Unit

The Angelo State University Robert G. Carr and Nona K. Carr Scholarship Foundation financial statements are included at the end of this report as a discretely presented component unit of the System. The Foundation is a legally separate testamentary trust organization described in Internal Revenue Code Section 509(a)(3) as being exempt from income taxes under IRC Section 501(c)(3), and was established solely for the benefit of providing academic scholarships to the students of Angelo State University. The nine member Foundation Board of Trustees is comprised of all members of the TTU System Board of Regents, who have the ability to appoint, hire, reassign or dismiss those persons responsible for the operation of the Foundation. The Foundation has a fiscal year end of August 31, and the financial records of the Foundation are audited annually by an independent accounting firm. The Foundation's complete audited financial statements can be obtained from the Carr Foundation at Box 11007C, ASU Station, San Angelo, TX 76909.

Note 20: Stewardship, Compliance and Accountability

The System has no material stewardship, compliance, and accountability issues.

Note 21: N/A

Note 22: Donor-Restricted Endowments

Expenditure of endowed funds, in accordance with Texas Uniform Prudent Management of Institutional Funds Act (UPMIFA), is not allowed without the express consent of the donor. Most of the System's endowments are held in perpetuity. In many cases, endowment earnings are expendable for student financial assistance or other purposes as designated by the donor. In other cases, endowment earnings are reinvested.

The net appreciation (cumulative and unexpended) on donor-restricted endowments presented below is available for authorization and expenditure by the System. The System's spending policy for endowments reflects an objective to distribute as much of total return as is consistent with overall investment objectives while protecting the real value of the endowment corpus.

UNAUDITED

Texas Tech University System (793) – Notes to the Combined Financial Statements (continued)

The target distribution is set by policy to be between 4 and 6 percent of the moving average market value for endowments over the preceding 12 quarters.
