HAPPY NEW YEAR!

A word about why we use the brightly colored papers for printing this newsletter. We have found, many times, that we can send a memo and a copy of this publication to the same person at the same address on the same day, in either Interagency and US Mail, and the person will say they never received the memo, but they always remember the green or orange or pink newsletter and always seem to read it.

Most of the papers we use do copy readably on our copier. However, it is a new one with many "bells and whistles," and many of you have only older, less sophisticated machines.

If you need more copies to distribute to all your travelers, give us a call. We will be happy to put you down to receive more. If you have a particular problem with distribution, give us a call. We will work with you to solve it in the way that is most convenient for you. Our first priority is to get the information to the people who need it. →

RENTAL CAR NOTES AND REMINDERS

When making rental car reservations, be sure to ask for the **State of Texas contract rate** and give the appropriate assigned **state identifier number** for that rental car contractor.

For **ADVANTAGE**, it is your agency three-digit code and the letters TXC, i.e., 123-TXC, and your individual PIN number if you have rented from them before and know it.

For **AVIS**, it is your agency's Avis-assigned AWD number. If you don't know what this is, contact your state agency travel coordinator or our office. [**NOTE:** Some or all state agencies will be getting new AWD numbers soon. In the current system, there are a number of agencies that have the same AWD number and this has caused some serious confusion. Our Avis account manager is exploring the best way to assign new AWD numbers incorporating the state agency three-digit code. When this has been worked out, we will contact each agency with the new numbers and will also communicate these changes to the contract travel agencies. Avis will contact each state agency about new stickers or cards with the new numbers.]

News

ADVANTAGE is now "in-airport" in Houston Intercontinental and Houston Hobby; they will be in-airport at Dallas Love Field in early 1996 (probably February). Also, they now have locations in San Marcos, New Braunfels, and Seguin. They are currently establishing locations in Atlanta, GA; these should be open some time in 1996.

Advantage's Frequent Renter program seems to be a big success for state business travelers. Most of the free rentals given so far have been earned by state travelers and most of the free rentals have been used for state business travel! Thanks to all these state renters—they are saving our tax dollars! (Advantage is in the process of disseminating information on this program to state agency travel coordinators.)

Reminder

The per-day "property tax and registration fee" still applies to all rentals with both companies. [HB 2151] These range from approximately \$1.00 to \$2.00. →

NEW AIRLINE CITY-PAIR CONTRACTS

Effective December 1, 1995, Delta Airlines no longer flies between College Station and Dallas/Fort Worth Airport. This change affected their contract city-pairs between College Station and Atlanta, GA, and College Station and Nashville, TN.

Consequently, those routes have been awarded to new carriers.

CITY-PAIR	CITY CODES	CARRIER	ONE-WAY FARE
Atlanta, GA-College Station, TX	(ATL-CLL)	Continental (CO)	\$165.00
College Station, TX-Nashville, TN	(CLL-BNA)	American (AA)	\$157.00

(This is a capacity controlled market; filed under fare basis code QCATX.)

These new contracts are effective December 1, 1995, through August 31, 1996. The same rules and conditions apply to these contracts as to the other airline contracts. →

SAPB: LOWER COSTS FOR GROUP AIR TRAVEL

The State Aircraft Pooling Board (SAPB) provides safe, cost-effective air transportation for State of Texas business travelers and has several advantages over using commercial aircraft.

1. Flights are direct to the airport of your choosing, with no layovers or connecting flights and no worries about lost luggage. These benefits result in less travel time, reduced travel fatigue, shorter work days, and increased productivity.
2. SAPB can fly into smaller airports that most commercial flights can't. If you are traveling to a small town that has no commercial flights but does have an airport, you can often fly directly in, instead of having to fly into a larger city and rent a vehicle to drive to your destination.
3. State planes fly on your schedule and can be scheduled for any day of the week, 24 hours a day. In many instances, this flexibility can eliminate the need for an overnight stay. (In emergency situations, flights can be scheduled with as little as 15 minutes' notice if a plane is available.)
4. Travelers on state aircraft can spend their travel time doing planning and paperwork, etc., while en route to their destination—in a quiet and private environment—without concern that confidential information will be compromised.
5. Depending on the number of passengers, the cost of using the SAPB can be significantly lower than flying on commercial aircraft, without worrying about advance purchases or nonrefundable tickets.
6. Free, secured parking.

Call the SAPB at 512-477-8900 to inquire about flying on state aircraft and SAPB billing procedures. →

AMERICAN EXPRESS NOTES

Applications

Many state agencies are sending American Express large numbers of "rush" applications for individual charge cards. Consequently, the New Applications department is being swamped by these and the processing of all applications are being greatly slowed. In addition, "overnighting" large numbers of rush cards creates additional costs for American Express.

1. If your traveler does not definitely have to travel within the upcoming two-week period, DO NOT request the application to be "rushed."
2. DO NOT apply for charge cards for persons who are not yet employees. Some agencies are submitting rush applications for persons who are in training prior to actually becoming state employees. In a number of instances, the individual has not passed the training and does not become a state employee. Then the newly-issued charge card has to be canceled. This creates unnecessary work for American Express. (Even if you are not requesting the application be rushed, do not request cards for persons before their hire date. Technically, this is

a violation of the state's contract with American Express.)

3. If the high volume of rush applications continues, your agency may be asked by American Express to pay for shipping charges.

NEW FORMS: American Express is issuing new forms for individual applications. The correct ones for SOT use will be distributed to state agency travel coordinators by our office. If you need additional applications, contact us or Iris Davis in Houston. If you receive these forms from another source, DO NOT mail the applications to the Phoenix address that is on them!

Reminders

1. Make sure applications are COMPLETE and LEGIBLE before sending them to American Express. (Fill in ALL the blanks with the complete/correct information.) Incomplete or unreadable applications cannot be processed. (Type or print in ink.)
2. Applications should NOT be mailed to American Express by the applying employee. He or she should complete the applicant portions and return the application to the state agency representative,

who then adds the control number and cost center, obtains the authorizing signature, and mails or faxes (not both) the application to American Express Corporate Services Representative Iris Davis in Houston. Applications sent to some other American Express address may not be processed and embossed correctly, which will cause problems for the cardholder later on.

Reports

If your office has moved or the person who should receive your agency's American Express reports has changed, please notify Iris Davis in Houston. The easiest way to do this is to take the cover page of the report, mark through the incorrect name or address, write the correct information beside it, and fax it to her.

If your agency receives reports that are not needed, contact Iris to have them stopped. If you don't receive a report you want to receive, contact Iris.

NOTE: Information on current American Express contacts has been distributed to all state agency travel coordinators. (It's the purple sheet, this time.) If you need additional copies for any reason, contact our office; we will be happy to send more. →

SHARED CONFERENCE ROOM

Room 103 in the Clements Building, 300 West 15th Street, in Austin, is now available as a shared conference room for use by all state agencies. This is a small room, suitable for meetings and training activities, that will comfortably seat 25 people. It is available on a first-come, first-served basis through the Conference Room Reservation Line at 512-463-3354. →

HOTEL FEES

Many hotels have begun charging an early check-out fee to travelers who check out before their designated departure date. They consider this the same as a "no show" or non-cancellation fee. In most instances, the hotels will not waive this fee, and **the traveler is obligated to pay it**—just as with non-cancellation fees.

The hotels will pass this information on to the travel agencies when they make reservations, just as they do

for non-cancellation fees, and it should appear on the itinerary. Travelers, be sure and check your itineraries for these fee notes on your hotel reservations. It may save you a lot of trouble and money later on.

The Comptroller's Office has stated that, just as with non-cancellation fees, if the early departure is for business reasons, the fee is reimbursable. It will not be reimbursed for personal reasons. →
