Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Texas Animal Health Commission for the year ended Aug. 31, 2018, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Megan Hilker at (512) 719-0752. Ms. Hilker may also be contacted for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Andy Schwartz, D.V.M.

ADDENDUM I

ORGANIZATION AND GENERAL COMMENTS

In 1893 the Texas Legislature established the Texas Livestock Sanitary Commission to fight the tick fever epidemic which threatened to cripple the economic viability of the state's cattle industry. In 1959 the agency was renamed the Texas Animal Health Commission (TAHC). Over time, the Legislature has expanded TAHC's jurisdiction and animal health responsibilities into a growing number of new animal health programs. Many programs of which are mandated by state and federal law, some of which were requested by the affected industry and all of which have significant real or potential impact on Texas' animal agriculture industries. Today, TAHC works to prevent, control, and eradicate disease in Texas livestock, exotic livestock, domestic fowl, and exotic fowl.

Administration of the Commission's programs is handled at the Austin central office. The TAHC is divided into six "regions", each with a regional office managed by a veterinarian. TAHC and its USDA APHIS Veterinary Services (VS) partners are responsible for ensuring that Texas meets animal disease prevention, surveillance, control, and eradication standards. Three main elements embody animal health program field operations functions — Animal Health Assurance, Animal Health Management, and Animal Health Emergency Response.

Thirteen Commissioners are appointed by the Governor to serve for six-year terms. Representing all segments of the livestock industry and the public, to ensure industry representation by the Commission, one member, qualified by experience, must be from each of the following fields: (1) practitioner of veterinary medicine; (2) dairy industry; (3) cattle industry; (4) hog industry; (5) sheep or goat industry; (6) poultry industry; (7) feed-lot industry; (8) equine industry; (9) livestock marketing industry; and (10) exotic livestock industry. The three remaining members represent the general public.

Commission members serving at August 31, 2018, were:

ADDENDUM III
COMMENTS ON OPERATIONS

The Statement of Revenues, Expenditures and Changes in Fund Balances for the year ended August 31, 2018, is presented in Exhibit II. The following comments provide supplemental information regarding fiscal operations.

The Commission works to prevent, control, and eradicate disease in Texas livestock, exotic livestock, domestic fowl, and exotic fowl. The agency mission includes:

- protecting livestock and fowl from domestic, foreign, and emerging animal diseases;
- increasing the marketability of Texas livestock commodities worldwide;
- promoting and ensuring animal health and productivity;
- protecting human health from animal disease and conditions that are transmissible to people; and
- preparing for and responding to emergencies involving animals.

As Texas hones its competitiveness in the global food market, TAHC programs support animal agriculture by focusing on the control and eradication of domestic diseases and emerging diseases and/or pests such as cattle and swine brucellosis, tuberculosis, trichomoniasis, equine piroplasmiasis, and cattle fever ticks. The TAHC also ensures that the basic infrastructure is in place to reduce the risk of emerging and foreign animal diseases and exotic pests.

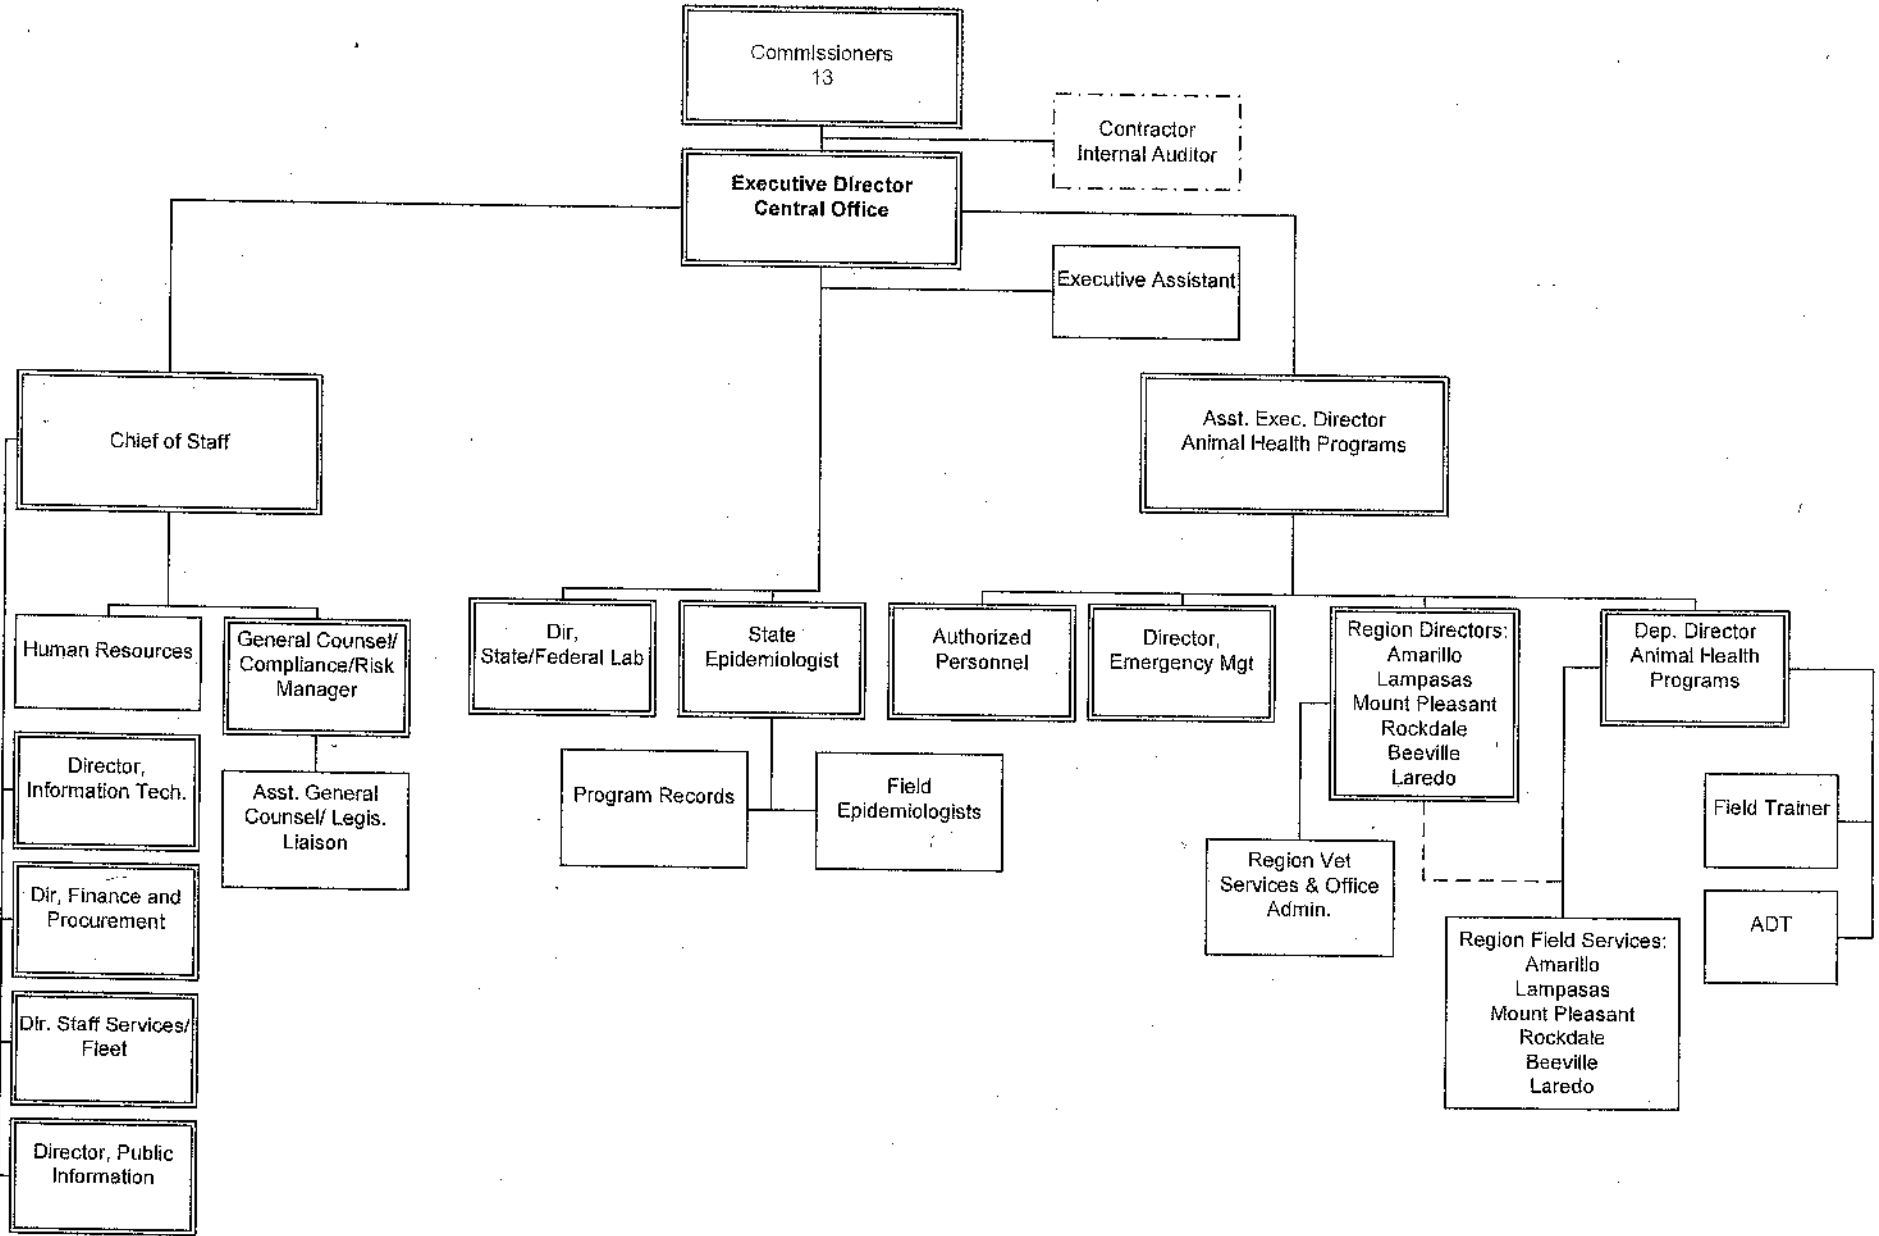

The Texas Animal Health Commission, as a livestock and poultry health agency, also provides services to key groups which include: private practice veterinarians, cattle producers/feeders, dairy producers, poultry producers, swine producers, exotic livestock and fowl producers, auction markets, livestock shows and rodeos, stakeholder organizations, equine producers, equestrians, non-profit emergency response organizations, and local governments.

New and/or innovative funding streams, and/or the return of traditional forms of fiscal support will be needed to ensure the agency can handle the long standing disease response activities, while strengthening new processes and partnerships to manage all the emerging situations mentioned above. Regardless, TAHC leadership is committed to continuing the proud tradition of service to the citizens and animals of Texas and looks forward to meeting any future challenges.

Six key functions of the agency in addressing diseases and parasites in animals and emergency management are: (1) Prevention, (2) Surveillance, (3) Diagnosis, (4) Control, (5) Eradication, and (6) Emergency Management/Homeland Security.
