STATE OF WASHINGTON

Schedule of Vehicle Registration Fees

- I. Registration fees and taxes are calculated and collected on all power units.
- II. Excise tax - An excise tax is imposed annually for the privilege of operating a vehicle in the State of Washington. It is based on the vehicle's current fair market value which is considered to be the latest purchase cost adjusted by the latest purchase year.

CALCULATION PROCEDURES - The excise tax is based on the "midpoint value" (purchase cost in whole U.S. Dollars) of the vehicle. To determine the MIDPOINT, perform the following functions:

1. Subtract \$1.00 from the latest purchase cost of the vehicle:
 - * if the last three numbers of the cost is less than 250, replace the last three numbers with the "midpoint value" of "125"; or
 - * if the last three numbers of the cost is less than 500, replace the last three numbers with the "midpoint value" of "375"; or
 - * if the last three numbers of the cost is less than 750, replace the last three numbers with the "midpoint value" of "625"; or
 - * if the last three numbers of the cost is more than 750, replace the last three numbers with the "midpoint value" of "875".
2. After the "midpoint value" has been determined, it will be adjusted for depreciation. Using the latest purchase year, select the applicable depreciation factor from the table below, then multiply the "midpoint value" by the depreciation factor; drop the cents from the answer (i.e., \$837.60 = \$837.00). The result will be considered as the "current fair market value" of the vehicle.

DEPRECIATION TABLE

<u>LATEST PURCHASE YEAR</u>	1998-97	1996	1995	1994	1993	1992	1991	1990	1989	1988	1987	1986	85 & Older
<u>DEPRECIATION FACTOR</u>	1.00	.90	.83	.75	.67	.59	.52	.44	.36	.28	.21	.13	.10

3. If the vehicle is a single truck and/or is any power unit that does not operate at over 42,000 pounds gross weight, multiply the "current fair market value" by .02200 and round the answer to the nearest \$1.00.

If the vehicle is a tractor or truck-tractor and is operating at 42,000 pounds or more combined gross weight, multiply the "current fair market value" by .02780 and round the answer to the nearest \$1.00.

The result is your Excise Tax @ 100% for 12 months.

4. Add additional excise tax shown below:
