

Combined Annual Financial Report
For the Year Ended August 31, 2019

THE TEXAS  STATE UNIVERSITY SYSTEM.

November 19, 2019

Honorable Greg Abbott
Governor of Texas

Honorable Glenn Hegar
Texas Comptroller of Public Accounts

Mr. John McGeady
Assistant Director, Legislative Budget Board

Ms. Lisa Collier
First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of The Texas State University System for the year ended August 31, 2019, in compliance with Texas Government Code Annotated, Section 2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Should you have any questions, please contact Daniel Harper, Vice Chancellor and Chief Financial Officer at (512) 463-1808.

Sincerely,

Brian McCall
Chancellor

Notes to the Financial Statements
For the Year Ended August 31, 2019

NOTE 1: Summary of Significant Accounting Policies

Reporting Entity

The Texas State University System (TSUS), founded in 1911, is the first higher education system established in Texas. Beginning as an administrative means to consolidate the support and management of state teacher colleges, the System has evolved into a network of higher education institutions stretching from the Texas–Louisiana border to the Big Bend region of west Texas.

Today, seven component institutions offer a broad range of academic and career opportunities. Those institutions are located throughout the state and include Lamar University, Sam Houston State University, Sul Ross State University, Texas State University, Lamar Institute of Technology, Lamar State College-Orange, and Lamar State College-Port Arthur. Throughout the System, faculty and staff are preparing students to work in and contribute to our global society.

The Texas State University System is governed by a nine-member Board of Regents appointed by the Governor. In addition, a nonvoting student regent is appointed annually to the board. The Texas State University System Administration (System Administration), which is headed by a board-appointed chancellor, is based in Austin, where it provides support to the System components and state government.

The financial records of TSUS comply with state statutes and regulations, including compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for State Institutions of Higher Education*. However, due to the statewide requirements embedded in Governmental Accounting Standards Board Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements of the statement. TSUS's annual financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

UNAUDITED

The Texas State University System Notes to the Financial Statements For the Year Ended August 31, 2019

Business Type Activity funds account for activities financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education report their financial activities as business type because the institution's funding comes primarily through charges to students, sales of goods and services, and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business Type Activity funds are accounted for using the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the accounting period when they are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The operating budget is prepared annually and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act) and other revenues generated by System components. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*.

UNAUDITED

The Texas State University System Notes to the Financial Statements For the Year Ended August 31, 2019

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets and Related Debt

Purchases of assets with an estimated useful life in excess of one year exceeding TSUS's capitalization thresholds are recorded as capital assets at their acquisition cost on the date of acquisition. Donated assets with an estimated useful life in excess of one year exceeding the capitalization thresholds are recorded as capital assets at their fair market value on the date of acquisition. Intangible capital assets are defined as assets that lack physical substance, are nonfinancial in nature and have an initial useful life extending beyond a single reporting period. Routine repairs and maintenance that do not increase the value of buildings are charged to operating expense in the year in which the expense was incurred.

TSUS's capitalization thresholds are:

<u>Asset Category</u>	<u>Threshold</u>
Land, land improvements, and land use rights	All acquisitions
Books and materials for academic and research libraries	All acquisitions
Works of art and historical treasures not held for financial gain	All acquisitions
Furniture, equipment, and vehicles	\$5,000
Buildings and building, facilities, and other improvements	\$100,000
Purchased computer software and land use rights (A)	\$100,000
Infrastructure	\$500,000
Internally generated computer software	\$1,000,000

(A) Applies only to land use rights considered to have a limited useful life (TERM.)

Buildings, Infrastructure and Facilities	10-30 years
Other Assets	15 years

All land, land improvements, land use rights, and works of art and historical treasures not held for financial gain are considered to have an indefinite useful life. Because these assets are inexhaustible, they are not depreciated.

Bonded indebtedness is issued by the Texas State University System Revenue Financing System, which is comprised of System Administration and each component institution within the system. Debt service requirements are disclosed in Note 6, Bonded Indebtedness.

Current Receivables - Other

Other receivables include year-end revenue accruals not included in any other receivable category.

Deferred Outflows of Resources

For debt refunding, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and reported as deferred outflows or deferred inflows. The gain or loss is amortized using the straight-line method over the remaining life of the old debt or the life of the new debt, whichever is shorter, in the Statement of Revenues, Expenses and Changes in Net Position as a component of interest expense.

Certain changes in the collective net pension liability of the Teacher Retirement System of Texas (TRS) Plan are reported as deferred outflows of resources related to pensions or as deferred inflows of resources related to pensions. See Note 9, *Defined Benefit Pension Plan and Defined Contribution Plan*, for a description of the TRS Plan.

The effect on TSUS's proportionate share of the total pension liability of changes of economic and demographic assumptions or of other inputs that decrease the total pension liability is amortized as a component of pension expense using the straight-line method over the expected average remaining service lives of active and inactive employees.

The Texas State University System Notes to the Financial Statements For the Year Ended August 31, 2019

Decreases in TSUS's proportion of the collective net pension liability are amortized as a component of pension expense using the straight-line method over the expected average remaining service lives of active and inactive employees.

TSUS's contributions during the measurement period that are less than its proportionate share of total of contributions are amortized as a component of pension expense using the straight-line method over the expected average remaining service lives of active and inactive employees.

The effect on TSUS's proportionate share of the collective net pension liability of more actual earnings on pension plan investments than projected is amortized as a component of pension expense using the straight-line method over a period of five years.

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables – Other

Other payables are the accrual at year end of expenditure transactions not included in any of the other payable descriptions.

Bonds Payable - General Obligation Bonds and Revenue Bonds

General obligation and revenue bonds are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or non-current in the statement of net assets. Bond proceeds and principal payments are reported in the Statement of Cash Flows.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

Capital Lease Obligations

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the statement of net assets.

Net Pension Liability

The fiduciary net position of the TRS Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. The measurement of the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the TRS Plan, and additions to/deductions from the TRS Plan's fiduciary net position has been determined on the same basis as reported by TRS. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The framework for measuring fair value is based on a hierarchy that gives the highest priority to the use of observable inputs in an active market and lowest priority to the use of unobservable inputs.

Deferred Inflows of Resources

Certain changes in the collective net pension liability of the TRS Plan are reported as deferred outflows of resources related to pensions or as deferred inflows of resources related to pensions, depending on the type of change. See the section of this note titled *Deferred Outflows of Resources* for an explanation of the accounting treatment.

Net Position

The difference between assets and liabilities is Net Position.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net assets consist of net assets which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

Interfund Activities and Balances

TSUS has the following types of transactions among funds:

Transfers

Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Noncurrent."

Interfund Sales and Purchases

Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

Investments

TSUS is authorized to invest operating funds in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code) and the Public Funds Collateral Act (Texas Government Code 2257). The Operating Funds Investment Policy of TSUS is designed to provide the maximum safety of invested principal, ensure liquidity for all operating requirements which may be reasonably anticipated, manage interest-rate risk, maximize overall return within the established risk constraints; and provide for diversification of investment assets.

Endowment funds represent private funds including, but not limited to, gifts of property, stock, and real assets, donated to TSUS or its components to provide funding for scholarships, fellowships, professorships, academic chairs, and other uses as specified by the donors. It is the policy of TSUS or its components to invest endowment funds in accordance with the Uniform Prudent Management of Institutional Funds Act (UPMIFA), Texas Property Code Chapter 163.

Amounts Reported at NAV

The System invests a portion of its excess working capital in TexPool and TexPool Prime (TexPool). TexPool investments consist exclusively of U. S. Government securities, repurchase agreements collateralized by U. S. Government securities, and AAA-rated no-load money market mutual funds. TexPool Prime invests in the above plus, commercial paper and certificates of deposits. TexPool and TexPool Prime are each rated AAAm by Standard & Poor's. No limitations or restrictions on redemptions exist and redemptions can occur at any time. There are no unfunded commitments.

NOTE 4: Short-Term Debt

On May 22, 2014 the Board of Regents, Texas State University System adopted the Eighteenth Supplemental Resolution to the Master Resolution Establishing the Texas State University System Revenue Financing System Commercial Paper Program, Series A. The Eighteenth Supplement authorizes the issuance of Commercial Paper Notes by the Texas State University System in an aggregate principal amount not to exceed \$240,000,000 at any one time outstanding for the purpose of financing project costs of eligible projects and to refinance, renew, or refund commercial paper notes, prior encumbered obligations and parity debt, including interest thereon.

Non-taxable commercial paper was issued during the fiscal year to finance various construction projects. All commercial paper outstanding at August 31, 2019 will mature in fiscal year 2020 or will be rolled into a long-term bond. Commercial paper has short maturities up to 270 days with interest rates ranging during the fiscal year from 1.31% to 1.90%.

Employees' Compensable Leave

Accrued compensable leave is TSUS's liability for unpaid overtime accrued by classified employees and unused vacation time for all employees. Any obligation to TSUS personnel is paid at the time an employee is dismissed, resigns, or separates from the university, provided the employee has had six months of continuous employment with the State of Texas in their lifetime. An expense and liability are recorded annually as the benefits accrue to employees. Accrued sick leave is only paid when an employee is off due to illness or to the estate of an employee in the event of his/her death. No liability is recorded for these non-vesting rights to sick pay benefits.

NOTE 6: Bonded Indebtedness

The Board of Regents approved the order establishing the Master Resolution for the Texas State University System Revenue Financing System in August 1998. The Master Resolution provides a financing structure under which revenue supported indebtedness of the Revenue Financing System can be incurred. Each component institution and the System Administration of TSUS are members of the Revenue Financing System. The Board pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that is lawfully available to the Board for payments on Parity Debt. Specifically exempted from pledged revenues are:

- (a) Amounts received on behalf of any member under Article 7, Section 17 of the Constitution of the State of Texas, including the income there from and any balances relating thereto, and
- (b) General Revenue Fund appropriations, except to the extent so specifically appropriated for debt service to the Board by the Legislature of the State of Texas.

Members may use the Revenue Financing System to acquire, purchase, construct, improve, renovate, enlarge, or equip property, buildings, structures, facilities, roads, or related infrastructure. An institution's request for the use of the Revenue Financing System is evaluated for an adequate revenue stream and bonding capacity for the specific institution prior to Board approval of issuing additional parity debt.

The following outstanding bonds have been issued utilizing the Revenue Financing System:

Revenue Financing Revenue Bonds, Series 2009

- To provide funds to acquire, purchase, construct, improve, renovate, enlarge, or equip property, buildings, structures, facilities, roads, or related infrastructure and to pay any costs related to the issuance of the bonds.
- \$86,745,000 par value; all authorized bonds have been issued.
- Issued June 30, 2009.
- Source of revenue for debt service – Pledged revenues of the Revenue Financing System and General Revenue Funds to the extent legally available for payment of debt obligations.

NOTE 9: Defined Benefit Pension Plan and Defined Contribution Plan

Teacher Retirement System of Texas (TRS) Plan

TSUS participates in a cost-sharing, multi-employer, defined benefit pension plan with a special funding situation, administered by TRS. The employers of the TRS plan include the state of Texas, TRS, the state's public schools, education service centers, charter

schools, and community and junior colleges. Employees of TRS and state of Texas colleges, universities and medical schools are members of the TRS plan. All employees of public, state-supported education institutions in Texas who are employed for one-half or more of the standard workload and not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

The TRS Plan provides retirement, disability annuities and death and survivor benefits. The benefit and contribution provisions of the TRS Plan are authorized by state law and may be amended by the Legislature. The pension benefit formulas are based on members' average annual compensation and years of service credit. The standard annuity is 2.3 percent of the average of the five highest annual salaries multiplied by years of service credit. For grandfathered members who were hired on or before August 31, 2005 and meet certain criteria, the standard annuity is based on the average of the three highest annual salaries. The plan does not provide automatic cost of living adjustments (COLAs).

Audited Comprehensive Annual Financial Report (CAFR) for Teacher Retirement System may be obtained from the Teacher Retirement System of Texas, 1000 Red River Street, Austin, Texas 78701-2698.

During the measurement period of 2018 for fiscal 2019 reporting, the amount of TSUS's contributions recognized by the plan was \$20,634,757. The contribution rates are based on a percentage of the monthly gross compensation for each member. The contribution requirements for the state and the members in the measurement period are 6.8% and 7.7% respectively.

The total pension liability is determined by an annual actuarial valuation. The table below presents the actuarial methods and assumptions used to measure the total pension liability as of the August 31, 2018 measurement date.

** Source for the rate is Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial assumptions used in the valuation were primarily based on the result of an actuarial experience study for the four-year period ending August 31, 2017 and adopted in July 2018. The mortality rates were based on 90% of the RP 2014 employee Mortality Tables for males and females. The post-retirement mortality rates were based on 2018 TRS Healthy Pensioner Mortality Tables.

Furthermore, assumptions, methods, and plan changes was updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following assumptions:

- the total pension liability as of Aug. 31, 2018 was developed using a roll forward method from the Aug. 31, 2017 valuation;
- demographic assumptions including post-retirement mortality, termination rates, and rates of retirement was updated based on the experience study performed for TRS for the period ending Aug. 31, 2017;
- economic assumptions including rates of salary increase for individual participants was updated based on the same experience study;
- the discount rate changed from 8.000% as of Aug. 31, 2017 to 6.907% as of Aug. 31, 2018;
- the long term assumed rate of return changed from 8.00% to 7.25%; and,
- the change in the long term assumed rate of return combined with the change in the discount rate was the primary reason for the increase in the net pension liability.

There have been no changes to the benefit provisions of the plan since the prior measurement date.

The discount rate of 6.907% was applied to measure the total pension liability. The discount rate was based on the expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.69%. The projected cash flows into and out of the pension plan assumed that active members, employers, and non-employer contributing entity make their contributions at the statutorily required rates. It is assumed that future

employer and state contributions will be 7.76% of payroll. This includes a factor for the rehired retirees and the Non-OASDI surcharge. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on plan investments was developed using a building-block method in which best estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class for the plan's investment portfolio are:

The pension plan's fiduciary net position is determined using economic resources measurement focus and accrual basis of accounting, which is the same basis used by TRS. Benefits and refunds of contributions are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Fair value is a market-based measurement, not an entity-specific measurement. TRS utilizes one or more of the following valuation techniques in order to measure fair value: the market approach, the cost approach, and the income approach. More detailed information on the plan's investment policy, assets, and fiduciary net position, may be obtained from TRS' fiscal 2018 CAFR.

At August 31, 2019, TSUS reported a liability of \$337,154,171 for its proportionate share of the collective net pension liability. The collective net pension liability was measured as of August 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. TSUS's proportion at August 31, 2019 was 0.6125% which was an increase from the 0.4251% measured at the prior measurement date. TSUS's proportion of the collective net pension liability was based on its contributions to the pension plan relative to the contributions of all the employers and non-employer contributing entity to the plan for the period September 1, 2017 through August 31, 2018.

For the year ending August 31, 2019, TSUS recognized pension expense of \$47,742,201. At August 31, 2019, TSUS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Optional Retirement Program (ORP)

The State has also established the Optional Retirement Program (ORP) for institutions of higher education, which is available to certain eligible employees in lieu of participation in the TRS Plan. Employees eligible for participation in ORP are defined in Texas Administrative Code § 25.4.

ORP provides for the purchase of annuity contracts and mutual funds. Participants are vested in the employer contributions after one year and one day of service. Depending upon the source of funding for the employee's compensation, TSUS may be required to make the employer contributions in lieu of the State.

Employee and employer contribution rates are established by the State Legislature. Fiscal year 2019 contributions were made by participants at a rate of 6.65 percent of annual compensation. The State provides an option for a local supplement on top of the state base rate. Each component of TSUS may elect to adopt and fund this local supplement at their discretion. Employer contributions are therefore comprised of the state base rate of 6.60 percent plus up to a 1.90 percent local supplement as elected by each component.

Contributions made by participants and TSUS for the fiscal year ended August 31, 2019, were as follows:

Participant contributions	\$11,883,554.20
Employer contributions	<u>\$12,745,128.35</u>
Total	<u>\$24,628,682.55</u>

NOTE 10: Deferred Compensation

The state of Texas offers a deferred compensation plan to all state employees. This plan is in accordance with Internal Revenue Code Section 457 and permits employees to defer a portion of their salary until future years. The deferred compensation funds are not available to employees until distribution due to termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts and all income attributable to those amounts, property or rights are held in trust by the Employees Retirement System (ERS) Board of Trustees for the exclusive benefit of participants and their beneficiaries and may not be used for, or diverted to, any other expense, except to defray the reasonable expenses of administering the plan.

The Board of Trustees is not liable to participating employees for the diminution in value or loss of all or part of the participating employees' deferred amounts or investment income because of market conditions or the failure, insolvency or bankruptcy of a qualified vendor.

The state also administers the TexaSaver 401(k) plan. The assets of this plan do not belong to the state and the state has no liability related to this plan.

As the administering agency, the Employees Retirement System reports the plans, balances, and liabilities.

Notes to the Financial Statements
For the Year Ended August 31, 2019

The many actuarial assumptions used in the valuation were primarily based on the result of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period Sept. 1, 2011 to Aug. 31, 2016 for state agency members and for the period Sept. 1, 2010 to Aug. 31, 2017 for higher education members. The mortality rates were based on the tables identified in the table above titled *Actuarial Methods and Assumptions*.

The following assumptions and other inputs have been adopted since the prior valuation to reflect plan experience and trends as expected by ERS and the actuaries attesting to the results of the valuation:

- a. demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the Trustees from TRS;
- b. assumed expenses, assumed Per Capita Health Benefit Costs and assumed Health Benefit Cost, Retiree Contribution and expense trends have been updated to reflect recent experience and its effects on our short-term expectations;
- c. percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence;
- d. percentage of future retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends; and,
- e. discount rate assumption was increased from 3.51% to 3.96% to utilize the yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

The only benefit revisions that have been adopted since the prior valuation for retirees and dependents for whom Medicare is not primary is an increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect plans.

The discount rate that was used to measure the total OPEB liability is the municipal bond rate of 3.96% as of the end of the measurement year; as of the beginning of the measurement year, the discount rate was 3.51%. Projected cash flows into the plan are equal to projected benefit payments out of the plan. As the plan operates on a pay as you go basis and is not intended to accumulate assets, there is no long-term expected rate of return. ERS' board of trustees adopted an amendment to the investment policy in August 2017 to require that all funds in this plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments be at least

2.4%. The investment rate of return used to calculate the projected earnings on OPEB plan investments was 3.51%.

Sensitivity analysis was performed on the impact of changes in the discount rate on the proportionate share of Sample Agency's net OPEB liability. The result of the analysis is presented in the table below:

Sensitivity of TSUS's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate (\$ thousands)

The OPEB plan's fiduciary net position is determined using economic resources measurement focus and accrual basis of accounting, which is the same basis used by ERS. Benefits and refunds of contributions are recognized when due and payable in accordance with the terms of the plan. Investments of the Other Employee Benefit Trust Fund are reported at fair value in accordance with GASB Statement No. 72. The fair value of investments is based on published market prices and quotations from major investment brokers at available current exchange rates. However, corporate bonds in general are valued based on currently available yields of comparable securities by issuers with similar credit ratings. More detailed information on the plan's investment valuation, investment policy, assets, and fiduciary net position may be obtained from ERS' fiscal 2018 CAFR.

Notes to the Financial Statements
For the Year Ended August 31, 2019**

At August 31, 2019, TSUS reported a liability of \$615,719,047 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured as of August 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. TSUS's proportion at August 31, 2018 was 2.07748298 percent. TSUS's proportion of the collective net OPEB liability was based on its contributions to the OPEB plan relative to the contributions of all the employers and non-employer contributing entity to the plan for the period September 1, 2017 through August 31, 2018.

For the year ending August 31, 2019, TSUS recognized OPEB expense of \$122,119,524.00. At August 31, 2019, TSUS reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience		\$ 22,557,964
Changes of assumptions		215,764,785
Net difference between projected and actual investment return	\$ 291,577	
Effect of change in proportion and contribution difference	578,586,794	
Contributions subsequent to the measurement date	1,621,939	
Total	\$580,500,310	\$238,322,749

The \$1,621,939 reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net OPEB liability for the year ending August 31, 2020.

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense in the following years:

NOTE 15: Contingencies and Commitments

At August 31, 2019, various lawsuits and claims involving TSUS were pending. While the ultimate liability with respect to litigation and other claims asserted cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is unlikely to have a material effect on TSUS. Under Texas law, TSUS, as an agency of the State of Texas, enjoys immunity from most causes of action. Most claims are dismissed prior to trial.

NOTE 16: Subsequent Events

On September 10, 2019, the TSUS Revenue Financing System (RFS) issued \$19,781,200 in Tax-Exempt Commercial Paper Notes to finance a variety of capital projects at TSUS components. Subsequent to the issuance, \$144,761,200 of Tax-Exempt Commercial Paper Notes were outstanding.

On October 24, 2019, the RFS priced Series 2019A, tax-exempt bonds totaling \$176,055,000 at par and including a premium of \$26,442,211. The bonds are to finance a variety of capital projects at TSUS components, refund a portion of the System's outstanding commercial paper notes, refund a portion of the System's outstanding revenue bonds, and to pay costs of issuing the bonds. The RFS will take delivery of the bonds on December 17, 2019. \$89,706,200 of the proceeds will refund outstanding commercial paper, \$71,800,231 will be used to refund outstanding revenue bonds, and \$39,957,961 will be used for capital projects. Additionally, Texas Tech University System will provide \$2,118,273 needed to defease a portion of Series 2010 bonds attributable to Angelo State University. Principal to be refunded includes \$19,280,000 from Series 2010 and \$53,185,000 from Series 2010A.

On October 24, 2019, the RFS priced Series 2019B, \$149,480,000 of taxable bonds to refund a portion of the System's outstanding debt and pay costs of issuing the bonds. The RFS will take delivery of the bonds on November 21, 2019. Principal refunded includes \$64,230,000 of Series 2011, \$14,685,000 of Series 2012, and \$59,475,000 of Series 2013.

On October 29, 2019, the RFS rolled the \$144,761,200 outstanding balance of Tax-Exempt Commercial Paper Notes. \$89,706,200 of this balance will mature on December 17, 2019, to be defeased by the Series 2019A proceeds. The remaining \$55,055,000 will mature on January 15, 2020.

After the delivery of the 2019A Series and refunding of the outstanding commercial paper notes, outstanding Tax-Exempt Commercial Paper Notes will be \$55,055,000 and outstanding principal of bonds will be \$1,091,530,000.

NOTE 17: Risk Management

TSUS may be subject to a variety of civil claims or complaints arising from the performance of its duties; however, no claims or complaints are currently pending against TSUS for actions arising from performance of its duties. It is TSUS's policy periodically to assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. Currently purchase of commercial insurance is not planned, nor is TSUS involved in any risk pool with other government entities for these risks.

Changes in the claims liabilities during the current and prior fiscal years were:

Fiscal Year	Beginning Balance	Additions	Reductions	Ending Balance
2019	\$0.00	\$1,147,984.14	\$1,147,984.14	\$0.00
2018	\$0.00	\$1,042,630.46	\$1,042,630.46	\$0.00

NOTE 18: Management's Discussion and Analysis (MD&A)

Although MD&A is a required part of the basic financial statements, MD&A is omitted because TSUS is reported as a component of the State of Texas in the Comprehensive Annual Financial Report (CAFR) for the State of Texas. MD&A, as it relates to TSUS, can be found in the State of Texas CAFR.

NOTE 19: The Financial Reporting Entity

The combined Texas State University System has the following component units and related parties.

Component Units

Component Units (CUs) are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, CUs can be other organizations for which the nature and significance of their relationship with the primary

government is such that exclusion would create misleading or incomplete financial statements.

Texas State University has the following blended component units:

The **Texas State University Research Foundation** (Research Foundation) was formed as an independent 501(c)(3) organization on July 22, 2010. The Research Foundation was formed to support Texas State University's (Texas State) mission and objectives of promoting higher education, conducting research, providing public service, and assisting in economic development in Texas. The Research Foundation is exclusively associated with the university and its fiscal year end concludes on the final day of February.

The Research Foundation is included in the financial statements as a blended component unit in accordance with GASB Statement 14 as amended by GASB Statement 39. Texas State's key business officers comprise the entirety of the Research Foundation's officers and directors, thereby enabling Texas State to impose its will on the Research Foundation.

During the fiscal year ended February 28, 2019 the Research Foundation incurred expenses in the amount of \$38,277.10. Separate financial statements may be obtained by contacting Texas State University, Director of Accounting, General Accounting Office, 601 University Drive, JCK 589, San Marcos, TX 78666-4684.

The **Harold M. Freeman Education Foundation** (Freeman Foundation) is a legally separate entity formed through a trust to make the use of Freeman Ranch available exclusively to Texas State University (Texas State). The Freeman Center is used and operated solely for farm, ranch and game management, education, and research purposes in connection with the educational activities of Texas State. There is no formal governing board for the Freeman Foundation. Texas State acts as an active co-trustee to operate the Center. Frost Bank operates as an inactive trustee to ensure the provisions of the trust are followed. Based on the Freeman Foundation's close relation to Texas State, it is included as a blended component unit. Separate financial statements are not issued by the Freeman Foundation. Information about the Freeman Foundation may be obtained by contacting Texas State University, Director of Accounting, General Accounting Office, 601 University Drive, JCK 589, San Marcos, TX 78666-4684.

Related Organization

The following foundation, while not a component unit, is disclosed due to its significant relationship with the System.

The Texas State University System Foundation, Inc. was established in 1977 by the Board of Regents to assist the System in gaining private financial support, and to help

component institutions pursue additional education-related activities and outreach. It is a nonprofit corporation that exists solely for the benefit of the Texas State University System (TSUS). It has an independent board of directors that governs Foundation activities and manages Foundation funds. For the fiscal year ended August 31, 2019, the Foundation had net assets of \$5,065,098 and the Foundation provided \$618,213 in scholarships and faculty/staff awards, as well as assistance to TSUS components, the Chancellor and Board of Regents.

NOTE 20: Stewardship, Compliance and Accountability

TSUS is not aware of any non-compliance items or material violations of finance related legal and contract provisions.

NOTE 21: Not Applicable

NOTE 22: Donor Restricted Endowments

Net appreciation of \$65,011,765.96 related to true and term endowments were classified as restricted, expendable on the Statement of Net Position.

<u>Donor Restricted Endowment</u>	<u>Amount of Net Appreciation</u>
True Endowments – Expendable	\$61,904,985.17
Term Endowments – Expendable	3,106,780.79
Total	<u>\$65,011,765.96</u>

The amount reported as net appreciation represents net appreciation on investments of donor restricted endowments that are available for authorization for expenditure. Pursuant to the Uniform Prudent Management of Institutional Funds Act (Property Code Chapter 163.001), net appreciation, realized and unrealized, in the fair market value of the endowment assets in excess of historical dollar value of the gifts may be distributed to the extent prudent.

Each component determines a prudent amount to distribute that aligns spending needs, investment objectives, and protecting the value of the endowment corpus. Generally, the targeted distribution rate ranges from 3% to 5%.
