Katherine A. Thomas, MN, RN, FAAN **Executive Director**

November 8, 2019

Honorable Greg Abbott, Governor Honorable Glenn Hegar, Texas Comptroller Ursula Parks, Director, Legislative Budget Board Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Texas Board of Nursing for the year ended August 31, 2019, in compliance with TEX. GOV'T CODE ANN §2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

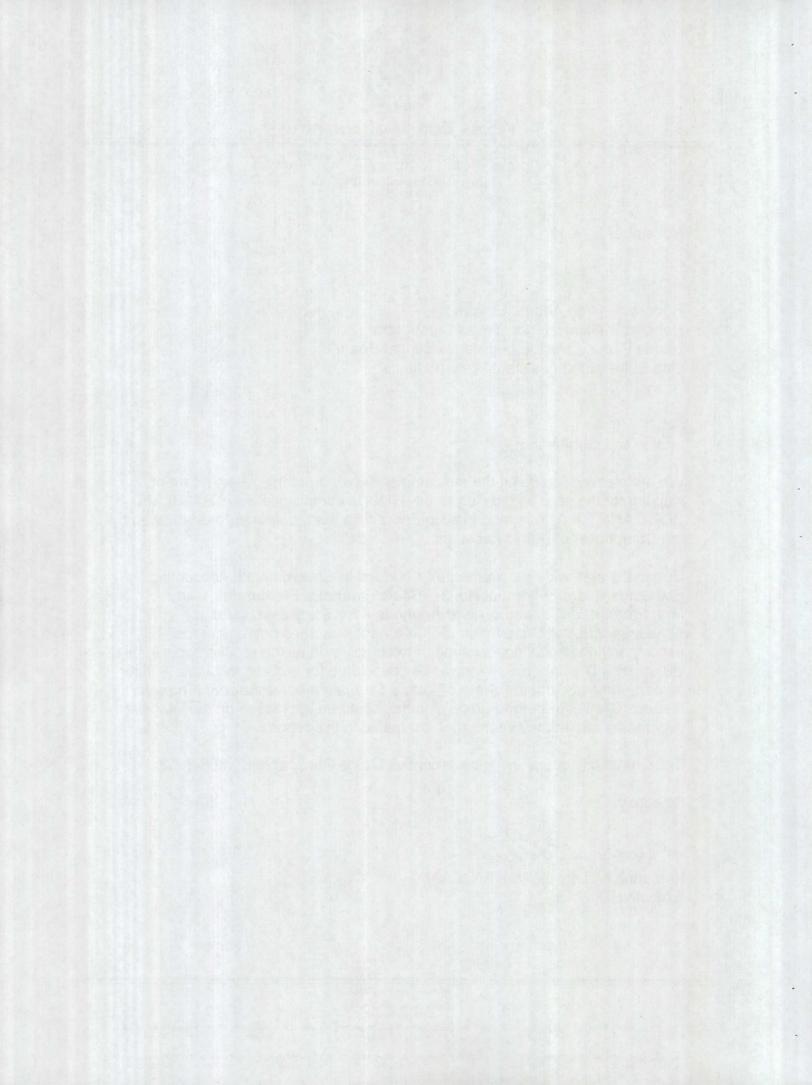

If you have any questions, please contact Laurie Perez at (512) 305-6853.

Katherine A. Thomas MN, RN, FAAN Executive Director

NOTES TO

THE

FINANCIAL

STATEMENTS

Texas Board of Nursing (507)

Note 1: Summary of Significant Accounting Policies

Entity

Texas Board of Nursing is an agency of the State of Texas and its financial records comply with the state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The mission of the Texas Board of Nursing is to protect and promote the welfare of the people of Texas by ensuring that each person holding a license as a nurse in the State of Texas is competent to practice safely. The Board fulfills its mission through the regulation of the practice of nursing and the approval of nursing education programs. This mission, derived from the Nursing Practice Act, supersedes the interest of any individual, the nursing profession, or any special interest group.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units: No component units have been identified which should have been blended into an appropriate fund.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types & Government-wide Adjustment Fund Types

General Funds: The general fund is the principal operating fund used to account for most of the state's general activities. It accounts for all the financial resources except those accounted for in other funds.

Capital Asset Adjustment Fund Type: Capital Assets Adjustment fund type will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type: Long-term Liabilities Adjustment fund type will be used to convert governmental fund types' debt from modified accrual to full accrual.

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement. either a pension trust fund, or a private purpose trust fund is used.

Agency Funds: Agency funds are used to account for assets the government holds of behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measureable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments and full accrual revenues and expenses. The activity will be recognized in these fund types.

वह देखा कर को प्रदान कर है। अन्योद रोहर एक साम्राह्म अंतर कर की वीर कर रोग विद्धार्थ । अपने प्र

SENSE OF EXPERIENCE DESIGNED AND SERVER COME OF THE PROPERTY OF A PROPERTY OF THE PROPERTY OF

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

Assets

Inventories and Prepaid Items: Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets: Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

<u>Current Receivables – Other</u>: Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Liabilities

Accounts Payable: Accounts Payable represents the liability for the value or services received at the balance sheet date for which payment is pending.

<u>Current Payables – Other</u>: Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types.

Employees' Compensable Leave Balances: Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by the covered employee. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

Fund Balance/Net Assets

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements. Fund balance components were reclassified according to GASB 54 to the following:

- Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- Restricted fund balance includes those resources that have constraints
 placed on their use through external parties or by law through
 constitutional provisions
- o Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority.
 - Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
 - Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Interfund Activities and Balances

The agency has the following types of transactions between funds.

<u>Transfers</u>: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfer Out' by the disbursing fund.

Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in financial statements.

Leave Balances (represent the liability that becomes "due" upon the occurrance of retriend each excessionations, retirements, and uses it leave balances by the occurred enquipyed. Liabilities are reported reparts, by the occurrent or noncurrent in the store next of net accets

Interfund Receivables and Payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".

<u>Interfund Sales and Purchases</u>: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

The composition of the agency's Interfund activities and balances are presented in Note 12.

TEXAS BOARD OF NURSING (507)

TEXAS BOARD OF NURSING (507)

Note 5: Long Term Liabilities

Changes in Long-Term Liabilities

During the year ended August 31, 2019 the following changes occurred in liabilities.

Governmental Activities	Balance 09/01/18	Additions	Reductions	Balance 08/31/19	Amounts Due Within One Year	Amounts Due Thereafter
Compensable Leave	787,867.05	558,562.66	570,457.53	775,972.18	396,954.76	379,017.42
Total Government Activities	787,867.05	558,562.66	570,457.53	775,972.18	396,954.76	379,017.42

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

TEXAS BOARD OF NURSING (507)

Note 12: Interfund Activity and Transactions

In Interfund Activities and Balances, there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

Interfund Receivables or Interfund Payables
Due From Other Agencies or Due to Other Agencies
Due to Other Funds or Due From other Funds
Transfers In or Transfers Out
Legislative Transfers In or Legislative Transfers Out

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

Individual fund balances and activity at August 31, 2019, which tie to Exhibit I & Exhibit II are as follows:

TEXAS BOARD OF NURSING (507)

Note 13: Continuance Subject to Review

Under the Texas Sunset Act, the Texas Board of Nursing will be abolished effective September 1, 2029, unless continued in existence by the 91st Legislature as provided by the Act. If abolished, the agency may continue until September 1, 2030 to close out its operations.
