FSA News - Lone Star State Edition

**Farm Service Agency
Texas State Office**

2405 Texas Ave. South
College Station, Texas 77840

Phone: 979-680-5151

State Executive Director:
Gary L. Six

From the State Executive Director

Our FSA county offices have been hard at work between completing program enrollments and issuing payments. We still have a lot of deadlines in the near future, with the most urgent being the **Oct. 30** deadline to enroll in the Wildfire and Hurricanes Indemnity Program Plus (WHIP+).

If you have not enrolled in WHIP+, please call your local FSA office TODAY. The deadline to enroll is **Oct. 30, 2020**. WHIP+ helps producers recover from losses related to 2018 and 2019 natural disasters. Producers can apply for eligible losses of drought (D3 or

State Committee:

Jerry Harris - Chair
Juan Garcia
Rodney Schronk
Michael Skalicky
Linda G. Williams

Executive Officer:

Erasmus (Eddie) Trevino

Division Chiefs:

Ronda Arnett
Roel Garza
Raymond Marr
Scott Reed
Jeffrey Dudensing

To find contact information for your local office go to:
<http://www.fsa.usda.gov/tx>

above) and excess moisture. Assistance is also available to sugar beet producers.

As a reminder CFAP 2 signup began Sept. 21 and runs through **Dec. 11, 2020**. Eligible commodities include row crops, wool, livestock, specialty livestock, dairy, specialty crops, floriculture and nursery crops, aquaculture, broilers and eggs, and tobacco. Producers seeking one-on-one support with the CFAP 2 application process can call 877-508-8364 to speak directly with a USDA employee ready to offer assistance.

With much of the state affected by drought conditions, livestock producers may be eligible for assistance through the Livestock Forage Disaster Program (LFP) for 2020 grazing losses. To date, 163 counties have met qualifying drought ratings that trigger eligibility for LFP. Applications for 2020 losses will be accepted through **Jan. 30, 2021**.

FSA recently announced that producers can make elections and enroll in the Agriculture Risk Coverage (ARC) and Prices Loss Coverage Programs (PLC) for the 2021 crop year from now through **March 15, 2021**. Many producers have received payments for 2019 covered commodities that met payment triggers. FSA anticipates issuing additional payments by the end of November for 2019 ARC-Individual commodities and additional commodities that trigger payments, for which rates have not yet been published.

Our offices continue to take phone and virtual appointments, and we encourage you to prepare and complete as much business as you can during your appointment. A handful of FSA offices are open for scheduled, in-person appointments. Regardless of your office's operating status, please call first to make an appointment. You can find contact information for your local FSA office at farmers.gov/service-center-locator.

Gary L. Six
State Executive Director
Farm Service Agency – Texas

USDA Announces Oct. 30 Deadline to Submit Wildfire, Hurricane Disaster Assistance Applications

The U.S. Department of Agriculture (USDA) today announced Friday, Oct. 30, 2020, as the deadline to submit applications for the Wildfire and Hurricane Indemnity Program – Plus (WHIP+) for 2018 and 2019 losses. USDA did not originally specify a deadline when the program was announced.

WHIP+ compensates producers for losses due to hurricanes, floods, snowstorms, tornadoes, typhoons, volcanic activity, drought, excessive moisture, and wildfires occurring in calendar years 2018 and 2019. Drought and excessive moisture were added as eligible losses for the program in

March 2020. To date, FSA has received more than 133,000 applications for WHIP+ disaster assistance and paid out nearly \$1.4 billion in WHIP+ benefits.

Next week, FSA will launch a new tool on the [farmers.gov WHIP+ webpage](#) to help producers understand eligibility for the program and whether they had possible losses in 2018 and 2019. The tool will also allow producers an opportunity to provide information for FSA staff to reach out to them.

FSA will announce soon the details for producers who experienced quality loss from 2018 and 2019 natural disaster events authorized in appropriations legislation. There will be a separate signup period for producers reporting quality loss.

For more information or application assistance, visit [farmers.gov WHIP+ webpage](#), or contact your local USDA Service Center. To locate your local FSA office, visit [farmers.gov/service-center-locator](#).

Enrollment Begins for Agriculture Risk Coverage and Price Loss Coverage Programs for 2021

Agricultural producers can now make elections and enroll in the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for the 2021 crop year. The signup period opened Tuesday, Oct. 13. These key U.S. Department of Agriculture (USDA) safety-net programs help producers weather fluctuations in either revenue or price for certain crops, and more than \$5 billion in payments are in the process of going out to producers who signed up for the 2019 crop year.

Enrollment for the 2021 crop year closes March 15, 2021.

ARC provides income support payments on historical base acres when actual crop revenue declines below a specified guaranteed level. PLC provides income support payments on historical base acres when the effective price for a covered commodity falls below its reference price.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium and short grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2021 Elections and Enrollment

Producers can elect coverage and enroll in crop-by-crop ARC-County or PLC, or ARC-Individual for the entire farm, for the 2021 crop year. Although election changes for 2021 are optional, enrollment (signed contract) is required for each year of the program. If a producer has a multi-year contract on the farm and makes an election change for 2021, it will be necessary to sign a new contract.

If an election is not submitted by the deadline of March 15, 2021, the election defaults to the current election for crops on the farm from the prior crop year.

For crop years 2022 and 2023, producers will have an opportunity to make new elections during those signups. Farm owners cannot enroll in either program unless they have a share interest in the farm.

2019 Crop Year ARC and PLC Payments

FSA began processing payments last week for 2019 ARC-County (ARC-CO) and PLC on covered commodities that met payment triggers on farms enrolled for the 2019 crop year. In addition to the \$5 billion now in process, FSA anticipates it will issue additional payments by the end of November for 2019 commodities covered under ARC-Individual (ARC-IC) and additional commodities that trigger PLC and ARC-CO payments for which rates have not yet been published

Producers who had 2019 covered commodities enrolled in ARC-CO can visit the [ARC and PLC webpage](#) for payment rates applicable to their county and each covered commodity. For farms and covered commodities enrolled in 2019 PLC, the following crops met payment triggers: barley, canola, chickpeas (small and large), corn, dry peas, grain sorghum, lentils, peanuts, seed cotton and wheat.

Oats and soybeans did not meet 2019 PLC payment triggers.

2019 PLC payment rates for the following covered commodities have not been determined: crambe, flaxseed, long and medium grain rice, mustard seed, rapeseed, safflower, sesame seed, sunflower seed and temperate Japonica rice. Payment rates for these commodities will be announced at a later date.

Web-Based Decision Tools

In partnership with USDA, the University of Illinois and Texas A&M University offer web-based decision tools to assist producers in making informed, educated decisions using crop data specific to their respective farming operations. Tools include:

- [Gardner-farmdoc Payment Calculator](#), the University of Illinois tool that offers farmers the ability to run payment estimate modeling for their farms and counties for ARC-County and PLC.
- [ARC and PLC Decision Tool](#), the Texas A&M tool allows producers to analyze payment yield updates and expected payments for 2021. Producers who have used the tool in the past should see their username and much of their farm data already available in the system.

More Information

For more information on ARC and PLC, including two online decision tools that assist producers in making enrollment and election decisions specific to their operations, visit the [ARC and PLC webpage](#).

For additional questions and assistance, contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Coronavirus Food Assistance Program 2

Signup for the Coronavirus Food Assistance Program 2 (CFAP 2) began on Sept. 21, 2020 and will continue through Dec. 11, 2020. CFAP 2 provides eligible producers with direct financial assistance due to market disruptions and associated costs because of the COVID-19 pandemic. Check out our [brief video](#) about the program.

CFAP 2 is a separate program from the first round of the Coronavirus Food Assistance Program, now referred to as CFAP 1. Farmers and ranchers who participated in CFAP 1 will not be

automatically enrolled and must complete a new application for CFAP 2. Details on how to apply can be found on farmers.gov/cfap/apply.

CFAP 2 Eligible Commodities Finder

Many more commodities are eligible for CFAP 2 than CFAP 1. Interested in finding the Coronavirus Food Assistance Program 2 payment rates for the eligible commodities you grow or raise? Our new, easy-to-use [CFAP 2 Eligible Commodities Finder](#) makes finding payment rates specific to your operation simple. From yam to alpaca farmers – and everyone in between – the payment rate information you need is just a few clicks away. Try it today on your desktop, tablet, or mobile device.

Call Center

A call center is available for producers who would like additional one-on-one support with the CFAP 2 application process. Please call 877-508-8364 to speak directly with a USDA employee ready to offer assistance. The call center can provide service to non-English speaking customers. Customers will select 1 for English and 2 to speak with a Spanish speaking employee. For other languages, customers select 1 and indicate their language to the call center staff.

USDA Offers Drought Impacted Texas Farmers and Ranchers Immediate Disaster Assistance

USDA's Farm Service Agency (FSA) offers disaster assistance and low-interest loan programs to assist you in your recovery efforts following drought. Available programs and loans include:

- **Non-Insured Crop Disaster Assistance Program (NAP)** - provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including qualifying drought (includes native grass for grazing).
- **Livestock Forage Disaster Program (LFP)** – provides compensation to eligible livestock producers who suffered grazing losses for covered livestock due to drought on privately owned or cash leased land
- **Livestock Indemnity Program (LIP)** - offers payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather. Drought is not an eligible adverse weather event, except when associated with anthrax, a condition that occurs because of drought and directly results in the death of eligible livestock.
- **Tree Assistance Program (TAP)** – provides assistance to eligible orchardists and nursery tree growers for qualifying tree, shrub and vine losses due to natural disasters including excessive wind and qualifying drought.
- **Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP)** - provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs.
- **Emergency Loan Program** – available to producers with agriculture operations located in a county under a primary or contiguous Secretarial Disaster designation. These low interest loans help producers recover from production and physical losses.
- **Emergency Conservation Program (ECP)** - provides emergency funding for farmers and ranchers to rehabilitate land severely damaged by natural disasters and to implement emergency water conservation measures in periods of severe drought.

To establish or retain FSA program eligibility, you must report prevented planting and failed acres (crops and grasses). Prevented planting acreage must be reported on form *FSA-576, Notice of Loss*, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

USDA Issues CRP Payments

The U.S. Department of Agriculture (USDA) is issuing \$1.68 billion in payments to agricultural producers and landowners for the 21.9 million acres enrolled in the Conservation Reserve Program (CRP), which provides annual rental payments for land devoted to conservation purposes.

Through CRP, farmers and ranchers establish long-term, resource-conserving plant species, such as approved grasses or trees, to control soil erosion, improve water quality, and enhance wildlife habitat on cropland. Farmers and ranchers who participate in CRP help provide numerous benefits to the nation's environment and economy.

Signed into law in 1985, CRP is one of the largest private-lands conservation programs in the United States. It was originally intended to primarily control soil erosion and potentially stabilize commodity prices by taking marginal lands out of production. The program has evolved over the years, providing many conservation and economic benefits. The program marks its 35-year anniversary this December. Program successes include:

- Preventing more than 9 billion tons of soil from eroding, which is enough soil to fill 600 million dump trucks;
- Reducing nitrogen and phosphorous runoff relative to annually tilled cropland by 95 and 85 percent, respectively;
- Sequestering an annual average of 49 million tons of greenhouse gases, equal to taking 9 million cars off the road;
- Creating more than 3 million acres of restored wetlands while protecting more than 175,000 stream miles with riparian forest and grass buffers, which is enough to go around the world seven times; and
- Benefiting bees and other pollinators and increasing populations of ducks, pheasants, turkey, bobwhite quail, prairie chickens, grasshopper sparrows, and many other birds.

The successes of CRP contribute to USDA's [Agriculture Innovation Agenda](#) and its goal of reducing the environmental footprint of U.S. agriculture by half by 2050. Earlier this year, Secretary Perdue announced the department-wide initiative to align resources, programs, and research to position American agriculture to better meet future global demands.

CRP participants with contracts effective beginning on October 1, 2020, will receive their first annual rental payment in October 2021.

For more information on CRP, visit fsa.usda.gov or contact your [local FSA county office](#).

USDA Offers Annual Installment Deferral Option for Farm Storage Facility Loan Borrowers

To assist Farm Storage Facility Loan (FSFL) borrowers experiencing financial hardship from the pandemic and other challenges in production agriculture, USDA's Farm Service Agency (FSA) is

offering a one-time annual installment payment deferral option. No fees or prepayment penalties apply for borrowers who choose this FSFL loan flexibility option.

Eligible borrowers can request a one-time only annual installment payment deferral for loans having terms of three, five, seven or ten years. The installment deferral option is not available for 12-year term loans.

The FSFL installment payments will remain the same, except for the last year. The original loan interest rate and annual payment due date will remain the same. However, because the installment payment deferral is a one-year loan term extension, the final payment will be higher due to additional accrued interest.

Borrowers interested in exercising the one-time annual installment deferral option should contact FSA to make the request and to obtain, complete and sign required forms.

FSFLs provide low-interest financing for producers to store, handle and transport eligible commodities.

More Information

In addition to offering flexibilities for FSFLs, FSA has also made other flexibilities to help producers impacted by the pandemic, including relaxing the loan-making process for farm operating and ownership loans and implementing the Disaster Set-Aside provision that enables an upcoming installment on a direct loan to be set aside for the year. More information on these flexibilities can be found at farmers.gov/coronavirus.

For more information, contact your local USDA Service Center. To locate your local FSA office, visit farmers.gov/service-center-locator.

USDA Supports U.S. Seafood Industry Impacted by Retaliatory Tariffs

U.S. Secretary of Agriculture Sonny Perdue announced that the U.S. Department of Agriculture (USDA) will provide approximately \$530 million to support the U.S. seafood industry and commercially licensed fishermen impacted by retaliatory tariffs from foreign governments. The funding will be provided through the Seafood Trade Relief Program and funded through the Commodity Credit Corporation (CCC), administered by USDA's Farm Service Agency (FSA).

The Seafood Trade Relief Program funding will support the following seafood types:

- Atka mackerel
- Crab (Dungeness, King, Snow, Southern Tanner)
- Flounder
- Geoduck
- Goosefish
- Herrings
- Lobster
- Pacific Cod
- Pacific Ocean Perch
- Pollock

- Sablefish
- Salmon
- Sole
- Squid
- Tuna
- Turbot

Fishermen can sign-up for relief through the program from September 14, 2020 to December 14, 2020. Fishermen should apply through their local USDA Service Center. To find your local Service Center, visit www.farmers.gov/service-center-locator. The application can be found at www.farmers.gov/seafood.

Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the *Farm Loan Discovery Tool* on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting farmers.gov/fund and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

Preauthorized Debit Available for Farm Loan Borrowers

USDA's Farm Service Agency (FSA) has implemented pre-authorized debit (PAD) for Farm Loan Program (FLP) borrowers. PAD is a voluntary and alternative method for making weekly, bi-weekly, monthly, quarterly, semi-annual or annual payments on loans.

PAD payments are pre-authorized transactions that allow the National Financial and Accounting Operations Center (NFAOC) to electronically collect loan payments from a customer's account at a financial institution.

PAD may be useful if you use nonfarm income from regular wages or salary to make payments on loans or adjustment offers or for payments from seasonal produce stands. PAD can only be established for future payments.

To request PAD, customers, along with their financial institution, must fill out form RD 3550-28. This form has no expiration date, but a separate form RD 3550-28 must be completed for each loan to which payments are to be applied. A fillable form can be accessed on the USDA Rural Development (RD) website at rd.usda.gov/publications/regulations-guidelines. Click forms and search for "Form 3550-28."

If you have a "filter" on the account at your financial institution, you will need to provide the financial institution with the following information: Origination ID: 1220040804, Agency Name: USDA RD DCFO.

PAD is offered by FSA at no cost. Check with your financial institution to discuss any potential cost. Preauthorized debit has no expiration date, but you can cancel at any time by submitting a written request to your local FSA office. If a preauthorized debit agreement receives three payment rejections within a three-month period, the preauthorized debit agreement will be cancelled by FSA. The payment amount and due date of your loan is not affected by a cancellation of preauthorized debit. You are responsible to ensure your full payment is made by the due date.

New to Farming Because of the Pandemic? USDA Can Help!

Are you new to farming because of the pandemic? USDA can help you get started – everything from helping you register your farm to getting financial assistance and advice. Our team members, based at USDA Service Centers across the country, are hearing from people who are interested in more space and working the land, and we want to let you know we can help.

Get Started with USDA

First, you want to make sure your farm is registered. If you purchased land, it might already be established with USDA's Farm Service Agency (FSA) with a farm number on file. If not, FSA can help you register your farm.

To obtain a farm number, you'll bring an official tax ID (Social Security number or an employer ID) and a property deed. If you do not own the land, bring a lease agreement to show you have control of the property to your FSA representative. If your operation is incorporated or an entity, you may also need to provide proof that you have signature authority and the legal ability to enter contracts with USDA.

Access to Capital

USDA can provide access to capital through its farm loans, which is a great resource when producers aren't able to get a loan from a traditional lender. Loans can help with purchasing land or equipment or with operating costs, and FSA even offers microloans, which are especially popular among producers with smaller farms. For more information, [check out our Farm Loan Discovery Tool](#).

Conservation Practices

We can help you make conservation improvements to your farm, which are good for your bottom line and your operation. We'll help you develop a conservation plan as well as apply for financial assistance that'll cover the bulk of the costs for implementing. To learn more about some of the conservation practices that we help producers with, [check out our Conservation at Work Video Series](#).

If you purchase land, and you don't want to farm all of it, you can look at either a conservation easement or managing for native shrubs and grasses through either the Agricultural Conservation Easement Program or Conservation Reserve Program (CRP). Easements are long-term, while a CRP contract is 10-15 years. These are good options for lands with land that is not optimal for production or sensitive lands like wetlands and grasslands.

Additional Resources

Depending on your farm, you may want to look at crop insurance. The USDA's Risk Management Agency provides crop insurance to help you manage risks on your farm. There are [many types of insurance products available](#) for a wide variety of production practices, including organic and sustainable agriculture.

Your local communities also have great resources for farmers including conservation districts, Rural Development, cooperative extensions, and different farming groups.

USDA Offers Secure New Options for Signing and Sharing Documents Online

Farmers and ranchers working with USDA's Farm Service Agency or Natural Resources Conservation Service can now sign and share documents online in just a few clicks. By using Box or OneSpan, producers can digitally complete business transactions without leaving their homes or

agricultural operations. Both services are free, secure, and available for multiple FSA and NRCS programs.

Box is a secure, cloud-based site where FSA or NRCS documents can be managed and shared. Producers who choose to use Box can create a username and password to access their secure Box account, where documents can be downloaded, printed, manually signed, scanned, uploaded, and shared digitally with Service Center staff. This service is available to any FSA or NRCS customer with access to a mobile device or computer with printer connectivity.

OneSpan is a secure eSignature solution for FSA and NRCS customers. Like Box, no software downloads or eAuthentication is required for OneSpan. Instead, producers interested in eSignature through OneSpan can confirm their identity through two-factor authentication using a verification code sent to their mobile device or a personalized question and answer. Once identity is confirmed, documents can be reviewed and e-signed through OneSpan via the producer's personal email address. Signed documents immediately become available to the appropriate Service Center staff.

Box and OneSpan are both optional services for customers interested in improved efficiency in signing and sharing documents with USDA, and they do not replace existing systems using eAuthentication for digital signature. Instead, these tools provide additional digital options for producers to use when conducting business with FSA or NRCS.

USDA Service Center staff are available to help producers get started with Box and OneSpan through a few simple steps. Please visit farmers.gov/service-locator to find your local office and let Service Center staff know you're interested in signing and sharing documents through these new features. In most cases, one quick phone call will be all that is needed to initiate the process.

Visit farmers.gov/mydocs to learn more about Box and OneSpan, steps for getting started, and additional resources for conducting business with USDA online.

To learn more about program flexibilities and Service Center status during the coronavirus pandemic, visit farmers.gov/coronavirus.

NRCS Reminders

[NRCS Announces 2021 Deadlines for Conservation Assistance Funding](#)

The USDA-Natural Resources Conservation Service (NRCS) in Texas has announced the first funding application deadline of December 4, 2020, for the Environmental Quality Incentives Program (EQIP). A second funding application deadline will be February 12, 2021.

Applications are taken year around for NRCS programs, but deadlines are announced to rank and fund eligible conservation projects. Producers interested in signing up for EQIP should submit applications to their local USDA service center. If already a USDA client, a producer can submit applications online via Farmers.gov.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
