87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

On behalf of the Texas Parks and Wildlife Department (TPWD), I am pleased to present the agency's Legislative Appropriations Request (LAR) for the 2022-23 biennium. In line with policy directives and LAR instructions, this request reflects funding at approved base GR/GRD limits, and expresses TPWD's priorities for programs we believe are of highest value to Texas' hunters, anglers, boaters, park goers, landowners, and other outdoor enthusiasts whose support and participation largely finance our work.

This funding is necessary to further our mission, which is "to manage and conserve the natural and cultural resources of Texas and to provide hunting, fishing and outdoor recreation opportunities for the use and enjoyment of present and future generations." As has been well illustrated and amplified during this time of COVID, this mission is essential to the quality of life, heritage, health, and economic well-being of all Texans.

EXCEPTIONS TO THE BASELINE REQUEST LIMITATION:

Per the August 2020 policy letter, exceptions applicable to TPWD include amounts needed for bond debt service. For FY2020-021, TPWD was appropriated \$710,911 for debt service on outstanding revenue bonds. The Texas Public Finance Authority (TPFA) indicates that all revenue bonds will be fully paid in FY2020, therefore revenue bond debt service is not requested for 2022-23.

** As in past years, debt service on TPWD related GO bonds will be paid directly from TPFA appropriations in 2022-23, and TPWD will reimburse TPFA for the state park related portion using Sporting Goods Sales Tax (SGST) per Article IX, Section 17.08.

OPPORTUNITIES/CHALLENGES:

Key issues/challenges for TPWD leading into the 87th Legislative Session include:

COVID-19 RESPONSE & IMPACTS

TPWD, like other state agencies, has experienced significant changes to business and programmatic operations as a result of the COVID-19 pandemic. These have included transitions from office to work-from-home environments for some staff, increased reliance on virtual meetings and other electronic means of communication, reduced travel, restricted public access to parks/other facilities, and other steps necessary to ensure the health and safety of TPWD employees, volunteers, and customers. Yet, the pandemic has also highlighted the vital role TPWD plays in this state. As Texans seek safe and affordable venues for relaxation and recreation, the importance of access to outdoor activities has become even more apparent. Many parks are in great demand, and fishing, boating and hunting continue to increase. Additionally, TPWD Law Enforcement and other staff have played a crucial role in pandemic response efforts, helping deliver test kits and samples in remote areas, participating in the state COVID-19 response management planning efforts, and continuing to assist with duties at the State Operations Center.

TPWD's COVID-19 related costs have consisted primarily of amounts for salaries/wages, personal protective equipment, enhanced sanitizing services and supplies, and increased focus on emergency response readiness. To date, the agency has not received any COVID-19-related FEMA reimbursements.

While the full impact of the pandemic on TPWD revenue streams remains to be seen, participation in hunting and fishing has remained consistently strong and translated into record license sales for License Year 2020. However, statewide park closures during the spring and limited capacity upon re-opening resulted in declines in park visitation and revenues, which otherwise would have been very strong because of the high demand.

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

SUNSET REVIEW

TPWD is currently undergoing the Sunset review process. The Sunset Advisory Commission's recently released staff report recommends continuation of the Department and identified several areas for improvement, including administration of non-recreational permits, strategic planning, and internal audit. TPWD has begun to address some of these findings and is committed to implementing remaining recommendations and other changes included in the Sunset bill as passed by the 87th Legislature.

PROPOSITION 5

Proposition 5, which allows for an automatic appropriation of Sporting Goods Sales Tax (SGST) revenue to TPWD, was overwhelmingly approved by voters in November 2019. This amendment ensures that a predictable and sustained funding stream will be available for state and local parks. For the purpose of this LAR, SGST has been submitted consistent with approved GR/GRD limits and every dollar is directed to state parks operations, local parks grants, state parks capital construction and related benefits/transfers, as outlined in the SGST Informational Rider.

STATE PARK DEMAND & FUNDING NEEDS

Over the years, the State Parks system has experienced increased pressures due to significantly increased visitation and costs, recurring disasters, and aging/declining facilities. Pre-pandemic demand for parks often saw many sites reaching maximum visitor capacity on a regular basis and having to turn away visitors. Despite declines in park visitation during early stages of the pandemic, and reduced COVID-19 capacity limits, demand for state parks has surged as more Texans seek respite in the outdoors and outdoor activities. This trend is likely to be on-going not only due to uncertainty regarding the severity and duration of the pandemic, but also as the Texas population grows and Texans gain a greater appreciation of and more routinely incorporate outdoor recreation into their activities. As the State Parks system approaches its 100th anniversary in 2023, TPWD hopes to leverage available SGST funding to better meet state park operational demands and ensure appropriate upkeep, safety, and quality visitor experiences.

CAPITAL CONSTRUCTION

TPWD's extensive holdings include the Austin headquarters complex, field offices, state parks, natural areas, historic sites, wildlife management areas and hatcheries statewide. Many of these facilities are between 30 - 50 years old and continued/increased usage and harsh environmental conditions further contribute to diminished quality, deterioration, and aging of these facilities. Recent increases in funding for TPWD's capital construction/repair program have allowed for significant progress at state parks. However, an ongoing investment in all of TPWD's facility infrastructure is needed to ensure proper upkeep of these sites. For example, deferred maintenance challenges still exist for facilities not located in state parks, such wildlife management areas, fish hatcheries and law enforcement facilities. Current capital construction funding levels (averaging \$8M per biennium) are inadequate to keep up with the backlog at these facilities. The Austin Headquarters building also requires several upgrades and repairs.

LAW ENFORCEMENT EQUIPMENT

Law Enforcement activities continue to grow with our expanding population and more frequent and more intense weather-related events that demand extensive emergency response. Fulfillment of these statewide responsibilities requires well maintained and properly functioning equipment including patrol vehicles, vessels, aircraft, communications technology and duty gear to ensure officer safety and to reduce maintenance & repair costs.

CHRONIC WASTING DISEASE

Chronic Wasting Disease (CWD) remains a concern in Texas as new cases have recently been discovered in free-ranging deer in Val Verde County (2019) and in a Kimble County captive deer breeding facility (2020). TPWD continues to work collaboratively with the Texas Animal Health Commission (TAHC) and stakeholders in implementing a comprehensive management strategy focused on early detection and containment of the disease. The principal strategy of early detection includes the

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

establishment of voluntary and mandatory check stations, as well as enhanced reporting, and testing requirements for individuals permitted to move live deer, designed to increase the capacity to detect CWD where it exists, before it can spread. Department staff have also increased the number of inspections of deer breeding facilities and release sites to assess compliance with existing rules.

AQUATIC INVASIVE SPECIES

Aquatic invasive species often grow rapidly and displace more beneficial native species, and can ultimately limit recreational access, restrict water flow rates in canals and rivers, interfere with industrial water uses, harm fish and wildlife, and negatively impact economic growth and development.

Over the last several biennia, TPWD has used appropriations for statewide aquatic invasive species management for planning and implementation of numerous projects for aquatic invasive species control, monitoring and research across the state. Since September 2015, in cooperation with partners, approximately 85,000 acres of giant salvinia and water hyacinth have been treated and 1,590,000 giant salvinia weevils have been released in Texas lakes. TPWD and partners also continue to monitor water bodies for early detection of zebra mussel infestations, and TPWD has worked with approximately 450 landowners to manage invasive saltcedar, giant reed and elephant ear along rivers and creeks. Statewide public outreach campaigns are also key to increasing awareness and preventing the spread of these species.

RECRUITMENT, RETENTION AND REACTIVATION

The number of hunters and fishers in Texas has remained relatively stable, yet the state population has grown exponentially, resulting in a smaller percentage of people contributing into the user-pay, user-benefit system of recreational licenses and excise taxes on firearms, ammunition, and fishing equipment that have funded wildlife and fisheries conservation in Texas for decades. TPWD has developed a plan to strategically align and evaluate its activities with the aim of recruiting, retaining, and reactivating (R3) customers to maximize the number and diversity of paying users and stakeholders in its mission of conservation and natural recreation. By creating additional opportunities, providing engagement and recruitment, better reflecting customer demands and interests, and studying trends in license purchases, the Department seeks to counteract the effects of demographic changes on the number of hunters, boaters and anglers in Texas and better secure future revenue sources.

STRATEGIC PRIORITIES & FUNDING REQUESTS:

TPWD's funding request for the 2022-23 biennium recognizes the fiscal environment the state will be operating in during the 87th Legislative session and represents a deliberate effort to prudently direct valuable state resources in order to maximize natural resource and recreational outcomes for the citizens of the state.

BASE FUNDING:

Through strategic repurposing of existing base-level authority and various method-of-finance (MOF) adjustments, TPWD has addressed core priorities for the FY2022-23 biennium fully within its base submission. This strategic re-alignment ensures TPWD can provide core services while also addressing long-standing funding issues that will allow us to better achieve our mission and goals. The following key priorities are addressed within the base (amounts are biennial):

LAW ENFORCEMENT OPERATIONS, EQUIPMENT & AIRCRAFT: In addition to restoring Law Enforcement (LE) funding to original 2020-21 levels (\$3.1M), TPWD's base directs additional resources to LE, as outlined below:

LE Field Based Initiatives (\$1.25M) - This would provide \$800K in equipment such as body-worn cameras, firearms, electronic control devices, OC spray, duty gear and personal protective equipment to address growing public demand for more accountability/ transparency and to ensure game wardens can safely perform required duties.

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

This also directs \$450K to address game warden operating cost increases. Inflation is a big factor in most operations of the LE Division, and has affected the yearly maintenance of vehicles, vessels, and other related items.

LE Helicopter (\$5.8M) - The LE Division operates 24-7 to respond to all hazard and emergency situations. Currently the agency has one functional helicopter and one functional fixed wing, which are accruing hours rapidly and approaching end of life. A helicopter will greatly extend the life expectancy of the agency's rotor wing platforms and vastly improve response to all hazard life-saving situations.

LE Transportation/Equipment (\$5.1M) - This includes:

- Game Warden Patrol Vehicles (50) To maintain the current fleet at a 110,000-mile replacement schedule (\$2.25M).
- Patrol Vehicle Radios (50) Mobile/portable radios and communications technology is evolving rapidly, requiring the refresh of game warden vehicle-based communication capability (\$500K).
- In Car Automation Setup for Patrol Vehicles (50) There is a growing need for officer safety, situational awareness, response time, and receiving and distributing information in a more effective and efficient manner (\$125K).
- Boats for Law Enforcement, Search & Rescue, and Resource Protection (22) This funding will allow LE to purchase vessels to start a replacement schedule for an aging fleet. Vessels are crucial to performing the water safety enforcement strategy (\$2.2M).

ADDRESS STATE PARKS NEEDS: The base submission restores State Park (SP) funding to original 2020-21 funding levels (\$2.8M), and devotes additional amounts to the following areas:

SP Field Salary, Operational & Equipment Needs (\$5.7M) - This includes:

- Salary for Critical Personnel (\$2.4M) Salary funds are needed to fill the remaining FTE granted to the SP Division during the 2020-2021 session to address critical operational and administrative needs and ensure public health/ safety. This will fund salaries for 26 FTE in each year, including 5 SP Law Enforcement officers.
- Vehicles/ Equipment (\$2.2M) Texas State Parks operates a diverse fleet of vehicles and equipment, such as mowers, utility vehicles, tractors, and trailers, most of
 which are operating well beyond their useful life and require significant maintenance costs. This increase will help the SP Division get closer to State Policy replacement
 cycles.
- Park Development (\$731K Palo Pinto \$501K/Powderhorn \$230K) The development of Palo Pinto Mountains SP has begun and the park is currently slated to open in 2023. This requires investments in staffing, equipment and operations to ensure protection of and begin implementation of management activities on the site. Likewise, the upcoming addition of the Powderhorn Ranch property to the Division's inventory requires additional resources to continue resource management work currently being conducted by the Parks and Wildlife Foundation.
- Franklin Mountains SP Water (\$316K)- Franklin Mountains SP does not currently have direct access to potable water which is critical for staff and visitor safety. This has created an operational need to haul water into the park.

Minor Repair (\$1M) - The current SP minor repair budget is below funding levels needed to maintain park assets and ensure facilities are safe and accessible to the public. Minor repair funding is currently utilized to address critical system failures, causing purchases and project solutions to be developed under shortened time frames. Additional funding will allow the Minor Repair program to provide the best value to the state through a proactive, predicted end of life "repair by replacement" strategy that will allow for larger purchases and economies of scale, prevent failures and last minute repairs that have exorbitant cost, prevent facility shut downs and lost revenue, and allow redirection of staff time that is currently occupied with emergencies/ failures. Additionally, minor repair will be critical in supporting ADA improvement projects throughout the park system.

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

Bastrop SP Fire Recovery (\$4.4M) - On September 4, 2011, downed powerlines ignited the Bastrop County Complex Fire (BCCF), which burned 97% of the total acreage of Bastrop SP. The BCCF burned most of Bastrop SP's forested land, including 93% of its high-quality habitat for the critically endangered Houston toad, and damaged or destroyed buildings, utilities, vehicles, equipment, fencing, bridges, and campsites. The wildfire also caused extensive soil erosion and hydrologic changes, which resulted in the loss of roads, trails, and lake/pond dams. Progress to restore Bastrop SP's natural, cultural, and recreational resources since the BCCF continues, but many unfunded needs remain. Litigation settlement funding resulting from Texas Parks and Wildlife Department v. Asplundh Tree Expert Company provides funding to continue restoration efforts and mitigate ongoing negative impacts from damages caused by the BCCF. This amount represents a portion of the settlement proceeds planned for use in 2022-23.

CAPITAL CONSTRUCTION/REPAIRS AT FACILTIES STATEWIDE: TPWD's request for GR/GRD capital construction totals \$84.0M over the 2022-23 biennium. This provides \$67.9M for state park related projects, including \$17.9M for carry forward of unexpended SGST balances tied to existing state park related projects. Additionally, \$16M is provided for Fund 9 related projects.

Funding at this level ensures staff capacity to effectively manage the overall capital construction portfolio, while also allowing TPWD to address the highest priority deferred maintenance backlog needs, capital construction projects, weather/disaster event damages, and repair needs at state parks, WMA's hatcheries and other field locations across the state. Requested amounts also devote an additional \$8M above 2020-21 levels (for a total of \$16M) to address Fund 9 construction/repair needs of Coastal Fisheries, Inland Fisheries, Law Enforcement and Wildlife Divisions. These Fund 9 divisions require well-maintained facilities to carry out TPWD's mission and goals of making reliable science-based conservation and management decisions, providing hunting and fishing opportunities, and other conservation and safety enforcement priorities.

PROTECT TPWD DATA/INFORMATION TECHNOLOGY SYSTEMS: The base restores IT funding to 2020-21 levels (\$145K), provides amounts to ensure a 5-year PC refresh cycle (\$170K) and also directs \$1.5M in additional funding to agency cybersecurity efforts. This will provide funds to establish a 5-year refresh schedule for network infrastructure equipment such as routers, switches and wireless equipment, allowing elevated cybersecurity remote administration to respond quickly to security threats and reduce services downtime. It will also fund contract services to implement ongoing security tools and additional features of the existing M365 suite. These tools continue to protect private and confidential information of agency customers and staff, help minimize exposure to cyberattacks and maintain the TPWD's security maturity level.

ONGOING CAPPS COSTS: In September 2020 TPWD transitioned to CAPPS Financials, and is the first agency to use the project costing module and link CAPPS HR with CAPPS FIN. Retaining key CAPPS personnel is vital to ensuring this new process is successful, addressing impacts of the new system on Purchasing and AP functions, and providing IT support/maintenance for CAPPS file transfer/data extracts, data structure, and other CAPPS related IT needs. TPWD's base proposes continuation of existing funding and FTEs for CAPPS Financials (totaling \$2.4M) to ensure the ongoing success of this major initiative post-implementation.

ENHANCE & CONSERVE FISH AND WILDLIFE RESOURCES: This submission restores funding for wildlife and fisheries programs to original 2020-21 appropriation levels (\$3.0M), and addresses the following key areas to improve access to and conservation of fish and wildlife resources:

Additional Authority for Managed Lands Deer Program (MLDP) and Oyster Related Programs: TPWD's base directs \$1.4M in authority to address program implementation and growth in the Managed Lands Deer Program (MLDP), the Oyster Cultch Replacement Program, and the Cultivated Oyster Mariculture Program. In tandem with requested rider language, this authority will allow these programs to fully access unexpended balances and any revenues collected during the 2022-23

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

biennium to provide services/programs as outlined in enabling statutes.

MLDP: The Wildlife Division anticipates launching online fee collection for MLDP participation in April 2021, as authorized by SB733. The revenue from these new fees will be used to hire new field biologists to fulfill technical guidance duties offered by this program. Landowner interest and demand for the MLDP have increased since 2000, leading to an +700% increase in the number of acres covered by the program. The number of biologists providing these services has remained constant since 2000. Additionally, landowner interest in technical assistance and wildlife management plans, and demand related to Chronic Wasting Disease detection/containment, has increased significantly. Additional MLDP staff will enhance technical guidance services by allowing biologists to spend more time with program participants and minimize declines in service that have occurred over the years due to a steady increase in program participation with no corresponding increase in staff capacity.

Oyster Cultch Replacement: Oyster habitats provide essential ecosystem services within the estuary by providing habitat for finfish and invertebrates, stabilizing sediments, and improving water quality. They are also critical to Texas' coastal economy and support a commercial oyster fishery currently valued at over \$20 million. The Cultch Replacement Program allows these habitats to be restored by replacing cultch material on reefs. Industry supports this program through a tag and can provide payment in lieu of actual cultch placement. TPWD needs full access to these funds for cost-efficiency when contracting for cultch placement and to ensure they are used as intended.

Cultivated Oyster Mariculture: This new program, authorized by HB1300 (86th Legislature), allows for the commercial production of oysters in Texas coastal waters. Rules establishing various program requirements, as well as applicable permit fees, were adopted in May 2020. Fees were structured to cover cost of FDA required annual facility inspections, as well as any clean-up costs. TPWD is seeking access to use the fees for those purposes.

Coastal Fisheries Research Vessel: TPWD is responsible for monitoring and managing marine resources of the state which includes over 6,300 square miles of marine waters. Currently, the Coastal Fisheries Division maintains eight research vessels that are key to collection of fisheries data and agency monitoring efforts. The life expectancy of research vessels is 25 years with a major renovation after 15 years of service. As the oldest research vessel, constructed in 1984, is reaching the end of its effective use, TPWD's base submission directs \$600K for a new 36 to 40-foot, single engine, fiberglass research vessel.

Inland Fisheries Habitat Enhancement: As the result of statutory changes enacted by the 85th and 86th Legislatures, eligible uses of Freshwater Fish Stamp funds now include delivery of bank and shoreline-based angler access improvements and the restoration and enhancement of freshwater fish habitats. Royalties from sand and gravel mining can now be used to support restoration of rivers and streams. These additional eligible uses reflect critical freshwater fisheries resource management needs in the state. TPWD's base directs \$500K of this funding to support 15-20 individual projects that restore fish habitat and expand angler access in creeks, rivers, reservoirs, and community fishing lakes throughout the state. These projects would be completed in collaboration with local communities, river and lake authorities, angling organizations, and other local partners.

PROVIDE RECREATIONAL GRANTS ASSISTANCE TO LOCAL COMMUNITIES: Local parks provide invaluable outdoor recreational and educational opportunities and offer positive economic impacts to communities around the state. TPWD's base submission prioritizes this program by restoring authority to original 2020-21 appropriated levels (\$12.1M), directing additional amounts for program salaries to better meet current workload/ existing demand for grants (\$300K), and increasing competitive pass-through grants (\$6.6M).

ADDRESS PRIORITY OPERATIONAL NEEDS: The base addresses long-standing agency-wide operational needs by directing \$5.4 M to strategic management initiatives such as the agency's R3 Plan to recruit, retain and reactivate hunters, anglers & boaters; insurance coverage; tort claims; ADA software; and other areas of strategic

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

importance.

RESTORE AGENCY-WIDE SUPPORT SERVICES: TPWD's base directs amounts (\$625K) to restore funding for critical support functions, such as Infrastructure, Communications and Financial Resources, to original 2020-21 appropriated levels. This will ensure important services needed for agency-wide operations can continue with minimal disruptions resulting from holding positions vacant and reducing operations to meet the 2020-21 5% reductions.

Maintaining base funding as outlined above is critical for TPWD to meet ongoing and future operational demands. If funding is modified/reduced, these priorities may be pursued as exceptional items.

EXCEPTIONAL ITEMS:

TPWD's has addressed critical funding needs within base limits. No exceptional items are requested.

RIDERS:

TPWD's more significant rider requests include:

APPROPRIATION-MANAGED LANDS DEER PROGRAM (MLDP) PARTICIPATION FEES: TPWD is requesting that Article IX Sec. 18.72, appropriating MLDP fees, be moved to TPWD's riders and language be amended to "estimated" to allow appropriation of all MLDP fee revenue (estimated at \$1.6M per year), to allow carry forward of unexpended balances within/across biennia, and to specify that amounts may be spent for FTEs and capital budget items. These changes will allow TPWD to use all program fees on the MLD program as contemplated by the enabling legislation and stakeholders, and more meaningfully engage with MLDP participants and meet technical guidance requests.

CAPITAL CONSTRUCTION UB AUTHORITY FOR GR & GRD: TPWD is not authorized to carry forward General Revenue (GR) or General Revenue-Dedicated (GR-D) capital construction funds from the prior biennium. Lack of UB authority is a major impediment to efficient use of capital funding and very problematic for a capital repair program that includes an enormous backlog of deferred maintenance, shifting priorities due to antiquated and failing infrastructure, and dispersed assets that are critically impacted by natural disasters. TPWD is requesting modifications to Rider 4 (UB for Construction Projects) to allow carry-forward of unexpended GR and GR-D amounts, if any, from one biennium to the next.

INFORMATIONAL LISTING-SPORTING GOODS SALES TAX: Due to passage of Proposition 5, several modifications are requested to the SGST Informational rider (Rider 15). These include changes to reflect TPWD's requested allocation of SGST for programs, estimated amounts required for employee benefits, cash transfers to ERS for retiree insurance and to TPFA for debt service, and other items to designed to anticipate/accommodate process changes resulting from automatic appropriations.

UB AUTHORITY FOR OYSTER SHELL RECOVERY/CULTCH REPLACEMENT RECEIPTS: TPWD is requesting modifications to Rider 27 to allow unexpended balances in the Oyster Shell Recovery & Replacement Account to be carried forward into the 2022-23 biennium for use on the recovery and enhancement of public oyster reefs. This would allow TPWD to better optimize programmatic decisions regarding cultch placement, as these efforts often require accumulation of sufficient balances prior to initiation of activities.

UB/APPROPRIATION OF CULTIVATED OYSTER MARICULTURE FEES: TPWD is requesting that current Article IX, Sec. 18.06 provisions appropriating Cultivated

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

802 Parks and Wildlife Department

Oyster Mariculture(COM) fees be moved to TPWD's riders and modified to allow carry forward of estimated unexpended balances across biennia. This will ensure the Department is able to access COM fees to conduct required inspections and other activities.

PAYMENTS TO STATE PARKS BUSINESS SYSTEM VENDOR: The contract for the State Parks Business system is structured on a percent of revenue basis, such that contract costs can and will fluctuate depending on park revenues in any given year. TPWD is requesting a new rider to allow flexibility to address contract cost increases that are driven by increases in park revenues, ensuring TPWD can pay the vendor without adversely impacting budget for other areas.

CRIMINAL HISTORY BACKGROUND CHECKS:

In accordance with Texas Government Code, Section 411.135, TPWD conducts criminal history checks on all new employees, volunteers, and contractors. Criminal background checks are conducted on all individuals applying for law enforcement positions according to the Occupations Code, Section 1701.303, and on individuals applying for IT positions, contractors, interns or volunteers who have access to IT resources according to Texas Government Code, Section 411.1405.

EXEMPT POSITIONS:

We do not anticipate changes to exempt positions in FY2022-23.

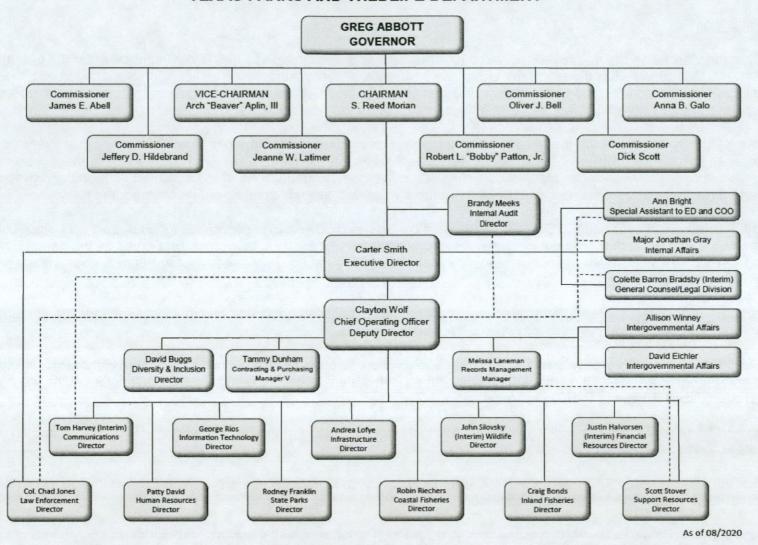

TEXAS PARKS AND WILDLIFE DEPARTMENT COMMISSION MEMBERS

Member	Term	Hometown
S. Reed Morian, Chairman	November 18, 2015 – February 1, 2021	Houston

Dick Scott	November 15, 2018 – February 1, 2023	Wimberley
Lee M. Bass, Chairman-Emeritus		
T. Dan Friedkin, Chairman-Emeritus		

EXECUTIVE OFFICE

- Executive Director: Serves as the agency's chief executive officer and is accountable to the TPW Commission for the overall operations
 of the department. Coordinates the development of agency strategy and policy, supervises senior agency management, makes major
 budgetary allocation decisions, serves as the senior decision authority, and acts as the chief spokesman for the agency. Responsible
 for management and oversight of 13 divisions with a wide variety of programs, facilities and services.
- Chief Operating Officer: Oversees the day-to-day internal operations of the agency. Supervises senior agency management and
 provides oversight for agency programs, facilities and services. Assists the Executive Director and executive management team in
 determining strategic direction, financial planning, administration initiatives and functions of the assigned divisions and program areas.
 Helps plan and direct legislative initiatives and statutory matters related to assigned divisions and program areas.
- Internal Audit: Reviews and evaluates TPWD's management controls and governance processes for all department operations,
 performs assurance and management advisory services and facilitates business risk assessments. Serves as the external audit liaison
 for all audits of TPWD by external audit entities, and for statewide and federal audits. Assists management in coordinating management
 responses for all external audits.
- Internal Affairs: Responsible for internal employee investigations, threat assessments and criminal investigations; coordinates with other law enforcement jurisdictions and provides emergency response services.
- Purchasing and Contracting: Oversees and manages the agency's procurement process, including the development and review of
 solicitations and agreements, as well as monitoring compliance with state purchasing requirements and implementing the agency's
 Historically Underutilized Business (HUB) program.
- Intergovernmental Affairs: Coordinates all activities related to the Legislature, and assists with engagement and interaction with other public officials at the local, state and federal levels.
- Office of Diversity and Inclusion: Oversees the Department's diversity and inclusion efforts; works with executive management to set strategic direction for internal and external engagement.
- Records Management: Provides records management and retention services for all department records, preservation and protection of records, maintains and certifies the Department's Record Retention Schedule with the Texas State Library and Archives Commission.
- Executive staff coordinates all activities related to the Commission, Legislature, Executive Office, and the Texas Parks and Wildlife Foundation.

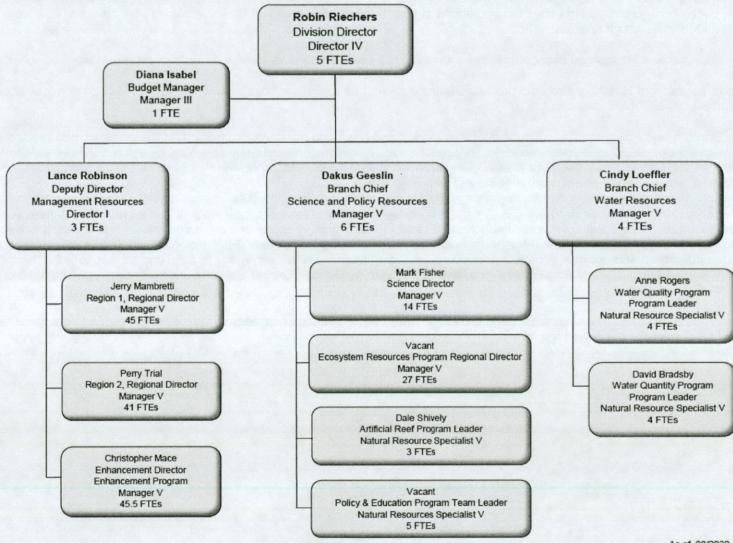

TEXAS PARKS AND WILDLIFE DEPARTMENT

COASTAL FISHERIES DIVISION

- The Coastal Fisheries Division manages the marine fishery resources of Texas' four million acres of saltwater, including the bays and
 estuaries and out to nine nautical miles in the Gulf of Mexico. Coastal Fisheries management strategies are directed toward optimizing longterm utilization and sustaining fisheries populations at levels that are necessary to ensure replenishable stocks of commercially and
 recreationally important species.
- The Management Resources Branch monitors and manages marine natural resources for optimal benefit to the State of Texas.
- The Enhancement Hatchery Program produces and stocks marine species in coastal estuaries of the State to enhance economically important recreational fisheries.
- The Science and Policy team is responsible for analyzing and preparing data and information for the division's policies and programs. This
 team is responsible for geo-spatial modeling and analysis, social and economic analysis, and outreach to fisheries stakeholders. Lastly, this
 team conducts project management planning and implementation for division programs including the limited entry programs, buyback
 programs and management of grant processes for the division.
- The Ecosystem Resources Program (ERP) performs investigations and assessments and provides technical guidance/recommendations for avoidance and minimization of coastal impacts. ERP staff interacts with agencies and other stakeholders to review and comment on Section 10/404 permit applications, NEPA documents and other environmental documents. ERP staff also conducts data collection and analysis to better understand and quantify ecosystem functions, including freshwater inflows, water quality, and habitat needs. To increase public awareness of Texas coastal ecosystems, outreach activities (e.g., Coastal Expos) are conducted that target participation of urban youth and minorities.
- The Water Resources Branch represents the Department in water planning and permitting matters statewide to ensure sufficient water quality and quantity to support the needs of fish, wildlife and recreation.

COASTAL FISHERIES DIVISION

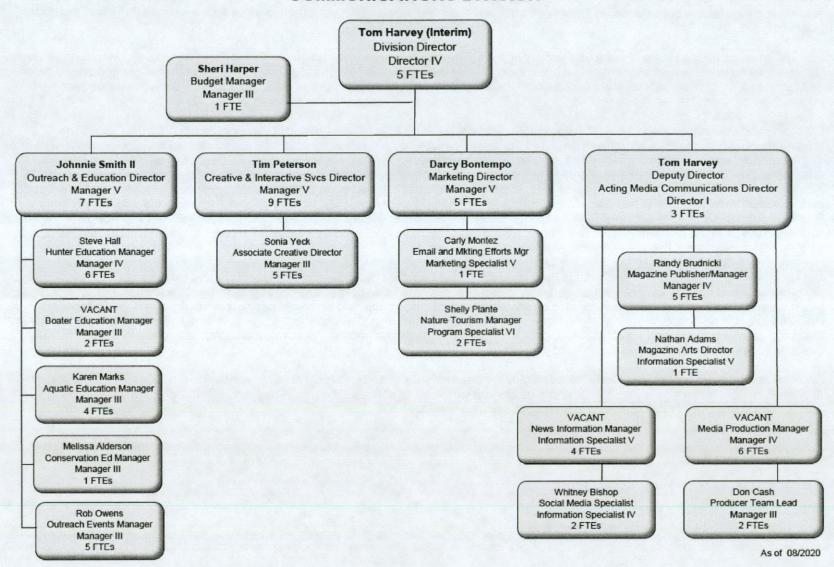

As of 08/2020

COMMUNICATIONS DIVISION

- Director's Office: Provides strategic direction and counsel for division staff and TPWD leadership on communications-related issues. Staff is also responsible for the preparation and monitoring of the division's operating budget, reporting on performance measures and legislative activities.
- Media Communications Group: Produces a variety of public information products including the Texas Parks and Wildlife Magazine, a weekly PBS television series, a podcast series, and a variety of other video products. This group also produces news releases, video news reports and serves as point of contact for state and national media. In addition, this group manages the Department's social media engagement efforts.
- Outreach and Education Group: Provides statewide outdoor skills and conservation education train-the-trainer programs as well as management of thousands of volunteer instructors. Partnerships with key community groups help introduce new and underserved audiences to the outdoors and participation in TPWD's mission. Train-the-trainer workshops are the agency's primary tie with formal and informal educators. Oversees and implements the state mandated hunter, boater and water safety education programs, and provides hunting incident reports. These programs emphasize safe, knowledgeable and responsible participation and meet national standards for reciprocal certifications. Provides Fishing and Aquatic Education, Project WILD suite of educator workshops and Archery in the Schools program. Provides outreach, such as Get Outside!® and other outreach events, the Becoming an Outdoors Woman outdoor skills workshops, mobile sporting clays, and a Community Archery initiative. Efforts focus on participation and wise use of fish and wildlife resources and state parks as a recreational and educational resource.
- Marketing Group: Develops and implements marketing efforts for Department sites, programs, products and initiatives to increase visitation
 to state parks and other sites, sell hunting and fishing licenses, promote sales of revenue-generating products and programs and increase
 public awareness of conservation issues such as invasive species. This group also manages nature tourism programs (including Texas
 Paddling Trails, The Great Texas Wildlife Trails and The Great Texas Birding Classic) and the agency's email marketing efforts. In addition,
 the group provides expertise in sponsorships, consumer research, database analysis, Hispanic marketing, and leadership in the state
 Children in Nature effort.
- Creative and Interactive Services Group: Administers the Department's website, content management system (Plone) intranet site, mobile
 app development, other agency websites, social media and web-related policies. The group also manages the Department's publications
 policy, print design, print and copy services, and photography services.

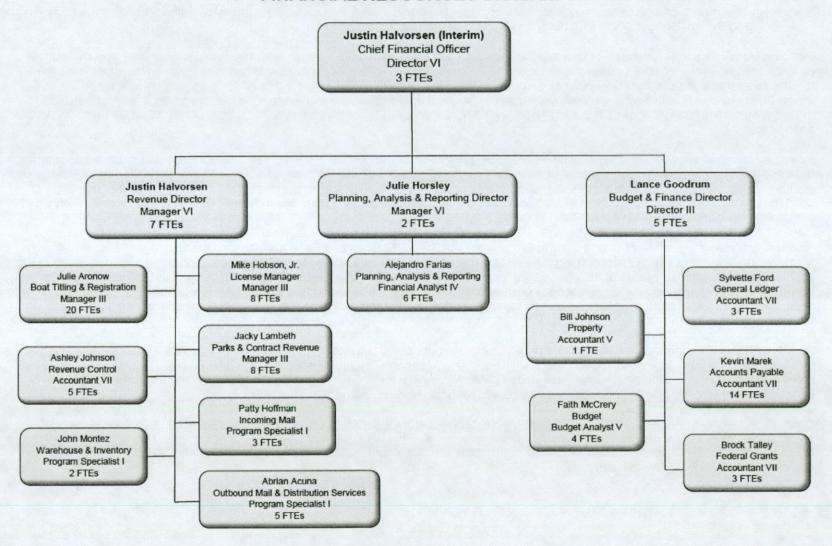

COMMUNICATIONS DIVISION

FINANCIAL RESOURCES DIVISION

- Budget: Provide budget preparation and analysis to oversight agencies and TPWD executive management; and provide budget
 maintenance, support, and research to stakeholders both internal and external. Responsible for developing and managing the LAR, Annual
 Operating and Capital Budget, Rider reporting, and assistance with fiscal note analysis.
- Planning, Analysis and Reporting: Provide support, research and analysis to help internal executive management staff and legislative/ oversight offices make informed decisions regarding TPWD programs, fund balances, revenues and other areas. Responsible for the legislative strategic plan (Natural Agenda), business plan analysis, revenue estimating, fund balance analysis, financial report development/design and financial systems maintenance, financial data warehouse architecture, reconciliation services, performance measure system, oversight agency reporting (including LAR), bill analysis/legislative assistance, special projects and on-going TPWD analytic training.
- Grants Administration: Oversee the fiscal elements of all grants awarded to TPWD. Prepare, review and/or approve each stage of grants
 from application submittal through the final closeout, in collaboration across divisions. Responsible for tracking, monitoring, reporting, and
 seeking reimbursement for a wide variety of federal grants; annually negotiating a federal indirect rate with Department of Interior;
 coordinating external audit reviews and related corrective actions; overseeing compliance with federal license diversion restrictions; and
 completing the annual SEFA for the AFR.
- Accounting: Accurately, efficiently, and in compliance with GAAP, GASB, State and Federal statutes, rules and regulations, manage the
 following: (a) The processing of, accounting for, and tax notices related to expenditure transactions; (b) accounting and monitoring of the
 capitalized and controlled assets of the agency; (c) accounting and collection of revenue transactions; (d) general ledger accounting and
 reporting for the agency and the agency's petty cash accounts and donation reporting and tax notices. Responsible for AP and property
 accounting; revenue control, revenue contract accounting, and state park revenue accounting; GL accounting; and preparation and
 submission of the AFR.
- Revenue: Ensure implementation of statutory provisions related to the issuance of hunting and fishing licenses, endorsements and permits
 and to vessel and outboard motor registration and titling; manage all sales channels, agents, and systems; properly account for all such
 sales and revenue; and provide internal and external customer service for all license and boat registration and titling transactions.
 Responsible for hunting and fishing license issuance and for boat registration and titling issuance.
- Distribution Services: Provide outstanding internal and external customer service for three (3) integral services to TPWD operations: shipping/receiving supply service center, outgoing mail services, and the disposition of agency surplus property. Responsible forfulfillment of hunting and fishing licenses, fulfillment of boat registration and titling, and incoming/outgoing mail; and for the reporting, tracking, and disposition of agency surplus property.

FINANCIAL RESOURCES DIVISION

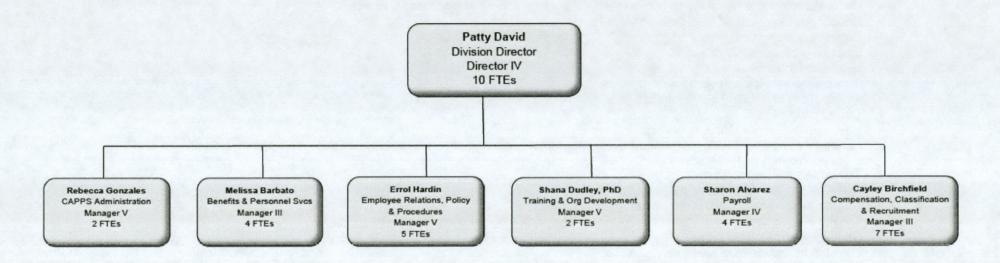

HUMAN RESOURCES DIVISION

Functional Responsibilities

The Human Resources Division supports all divisions with agency policies and practices, recruitment and selection, personnel management, classification, training and development, and employee relations, payroll and CAPPS administration, including:

- Develop and administer policy and procedures
- Ensure compliance with federal and state labor and employment laws
- · Oversee EEOC and ethics compliance
- · Recordkeeping and reporting on human resource metrics and other workforce analytics
- Recruitment for full time, part time, seasonal and intern positions
- Diversity outreach programs
- · Employee benefits
- · Leave administration
- · Retirement, service and recognition awards
- Job analysis and salary administration
- · Classification audits
- New employee orientation, e-learning
- Facilitate workforce development and training programs in management, leadership, soft skills, performance excellence, and professional and technical areas
- Tuition assistance program
- Measure job satisfaction and employee engagement
- Coordinate and facilitate agency-wide mentoring program
- Facilitate the accommodation process for disability and religious accommodation requests
- Resolve workplace conflicts
- Investigate reported violations
- · Represent the agency at unemployment hearings
- Commercial drivers drug testing
- Performance management
- Workplace safety in compliance with State Office of Risk Management
- Initiate, coordinate and deliver wellness and employee assistance programs
- Mother-friendly worksite program
- Payroll Comptroller reporting
- Payroll audits
- · Payroll document reissues
- IRS payroll reporting
- Respond to all internal and external payroll inquiries
- · CAPPS system administration, support, and upgrades
- Agency-wide volunteer program

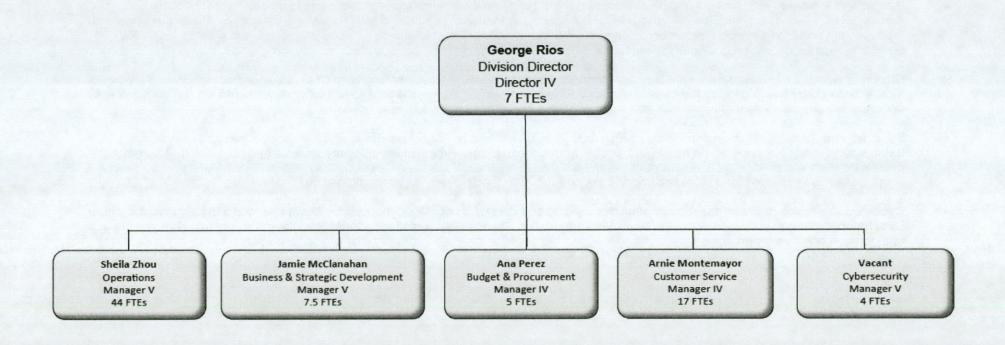

HUMAN RESOURCES DIVISION

INFORMATION TECHNOLOGY DIVISION

- Operations: Responsible for supporting, maintaining and upgrading network infrastructure and telecommunications services throughout the state, to include call centers which allow constituents to utilize services offered by TPWD. Provides safe and secure access to agency resources in support of the agency mission. Works strategically to take advantage of solutions to enhance security and work within the framework of evolving technology. Works with business partners to develop and publish custom web and mobile applications to modernize and improve agency business processes. Manage the life-cycle of applications to protect and prolong TPWD's digital investment. Provide technical services to include monitoring critical system availability, managing services in the cloud, server and database administration for digital services and GIS consulting services for spatial information to reveal patterns and relationships to help users make smarter decisions.
- Budget and Procurement: Manages the division's operating budget and the agency's capital technology and data center budgets.
 Administers the technology procurement process for the agency and ensures compliance with state oversight entities. Offers guidance and management on technology contracts, coordinates with the Cybersecurity Team to ensure products are secure and meet all technology standards, while meeting the customers' needs.
- Customer Service: Provides staff technology assistance in support of agency initiatives. The Help Desk, Desktop Support, Park Support and Mobile Technology teams provide hands-on assistance for agency hardware and software products. Upgrades hardware and software when opportunities are available and introduces and supports new technology to meet business needs.
- Business and Strategic Development: Works with executive management on project prioritization, strategic direction and compliance.
 Establishes the agency priorities on business initiative requests to support modernization of legacy systems and oversees that systems are developed. Ensures procurement vendor partnerships are upholding security standards, meeting intended goals, alleviating risks, meeting agency business initiatives, and providing improved opportunities to reach or provide information to our constituents.
- Cybersecurity: Helps maintain the security of all agency data and data systems. The Cybersecurity Team also works in conjunction with the
 Department of Information Resources, the Multi-State Information Sharing & Analysis Center, and Homeland Security to reduce the impact
 of threats on computers and against the agency.

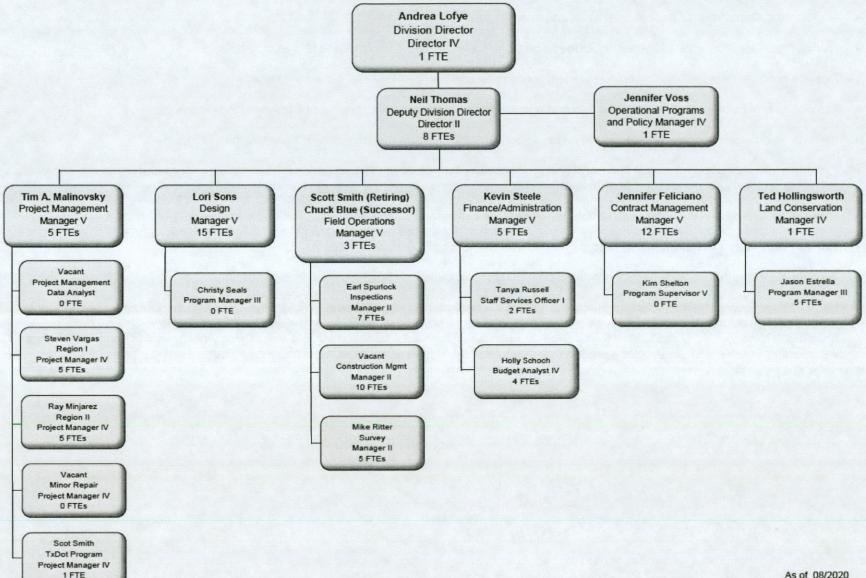

INFORMATION TECHNOLOGY DIVISION

INFRASTRUCTURE DIVISION

- Manage the Department's capital and minor construction programs.
- Manage the Department's Interagency Cooperation Contract with TxDOT for road and bridge projects.
- Provide procurement and contract management for construction and professional services contracts.
- · Provide sound fiscal oversight necessary to manage the financial aspects of Department's construction programs.
- Provide field-based construction related services to perform and oversee the Department's construction programs.
- Provide professional architectural and engineering services in support of the Department's funded facilities, operations and repair projects, including architectural, landscape architectural, civil engineering, mechanical engineering, and electrical engineering.
- Provide professional design services to the Department for conserving natural resources, including sustainable buildings and sites.
- Provide secure and comprehensive records management of capital construction documentation.
- Provide the Department-wide capital construction project identification and ranking information system.
- Land Conservation: Provides land transaction and land conservation services, including land acquisition and disposition, leasing, negotiation
 of third-party easements and surface use agreements, and real estate administration. Maintains current and historic land records, tracks
 federal interests in TPWD lands, monitors revenue generation from easements and surface use agreements, resolves boundary conflicts,
 works with partners such as foundations and non-governmental organizations to achieve priority land conservation goals.

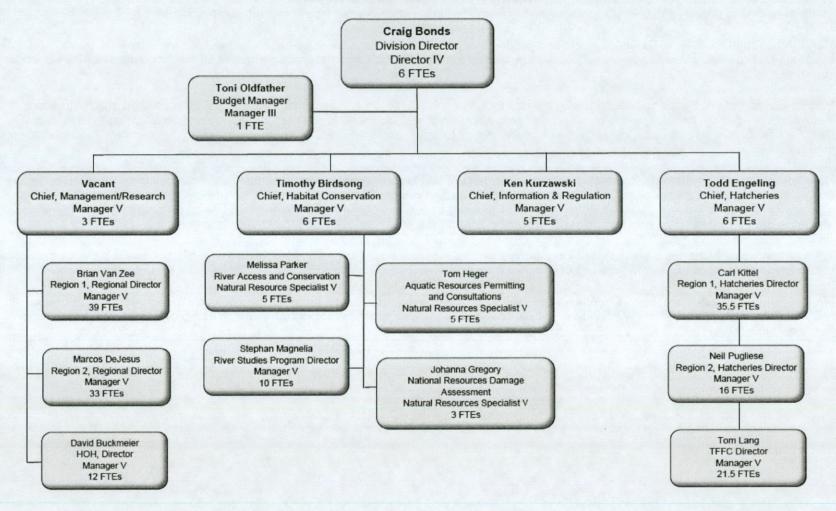

INFRASTRUCTURE DIVISION

INLAND FISHERIES DIVISION

- The Inland Fisheries Division is responsible for managing and protecting the state's diverse freshwater fisheries resources. The goal of this management is to provide the best possible angling while protecting and enhancing freshwater aquatic resources.
- Management and Research: Develops plans and conducts applied management activities for all freshwater impoundments, rivers, and streams and provides scientifically sound information leading to the understanding and management of aquatic resources, their production, status and utilization.
- Habitat Conservation: Responsibilities include a broad range of natural resource issues including: watershed protection and restoration; instream flow science; native species conservation; management of aquatic invasive species; monitoring and researching harmful algal blooms; environmental response, damage assessment and restoration; and a variety of other topics affecting the health of Texas fisheries, their habitats, and other aquatic resources.
- Hatcheries: Provide functional support for fisheries management and create, enhance and maintain fish populations in Texas public waters.
 Stocked fish increase species diversity and angler opportunities and restore fish populations that have been decimated or reduced due to natural or man-made influences. Includes an Analytical Services Lab, which serves a unique function in support of divisional, interdivisional, and interagency programs by providing state-of-the-science analyses of water quality, fish pathology, and genetics.
- Texas Freshwater Fisheries Center: A multipurpose facility that provides educational experiences to the public while also producing millions of fish annually to meet the stocking needs of fisheries managers. Also serves as headquarters for the Toyota ShareLunker program.
- Information and Regulations: Works to ensure the validation of proposed regulations, provides data analysis expertise for assessments of
 relevant data, provides general information to the public, including fishing and river access information, and provides administrative support
 to the division.

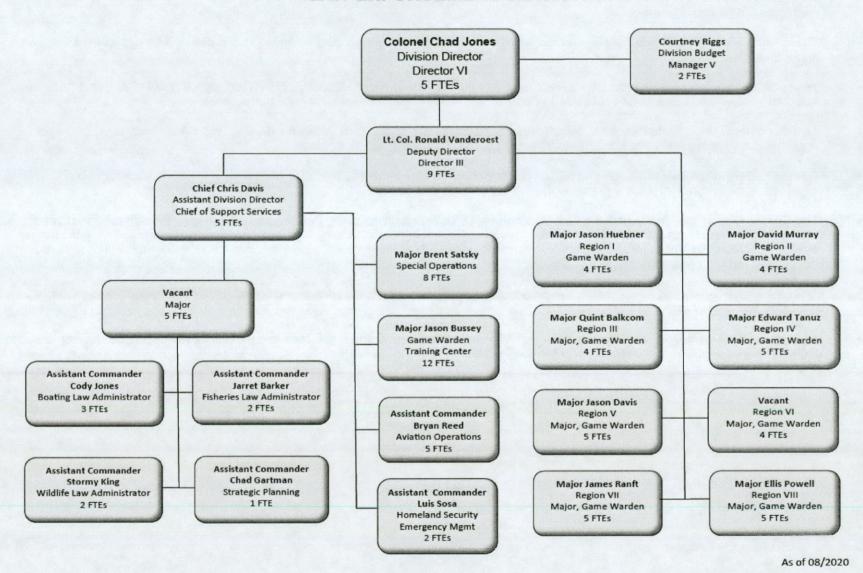

INLAND FISHERIES DIVISION

LAW ENFORCEMENT DIVISION

- The Law Enforcement Division provides a comprehensive statewide law enforcement program to protect Texas' wildlife, other natural resources, and the environment.
- The division also provides safe boating and recreational water safety on public waters by ensuring compliance with applicable state laws and regulations.
- Texas Game Wardens are responsible for enforcement of the Parks and Wildlife Code, all TPWD regulations, the Texas Penal Code and selected statutes and regulations applicable to clean air and water, hazardous materials and human health.
- As fully commissioned State Peace Officers, Texas Game Wardens not only enforce fishing, hunting, and water safety laws; they also apprehend dangerous criminals and provide valuable public safety to the people of Texas.
- Game Wardens often lead in search-and rescue operations across the State and are at the front lines of the State's border security initiatives and environmental law enforcement.
- The Special Operations Unit assists the Law Enforcement Division in accomplishing the Department's mission through the investigation and apprehension of those who violate the natural resource laws of this state, utilizing both overt and covert strategies. This unit houses several specialized teams such as aviation, underwater search and recovery, boat accident reconstruction, marine tactical operations, land-based tactical operations and K-9 operations.
- The 24-7 Operation Game Thief (wildlife, fishing and water safety crime stoppers) provides citizens with a toll-free number to report poaching and other violations.
- The Law Enforcement Division also educates the public about various laws and regulations and prevents violations by conducting high visibility patrols and apprehending and arresting violators.

LAW ENFORCEMENT DIVISION

LEGAL DIVISION

- The Legal Division provides legal advice and assistance to department staff and the Texas Parks and Wildlife Commission regarding
 matters within the department's authority. Legal practice areas include environmental, fish and wildlife, criminal, real estate, employment,
 contracts, torts, administrative, ethics, and open government.
- The Legal Division represents the department in administrative legal proceedings and assists the Attorney General's office in litigation involving the department.
- In addition, Legal Division attorneys coordinate responses to requests for information under the Texas Public Information Act, review and analyze legislation that affects the department, review and draft agreements involving TPWD, review and draft TPWD policies, and assist staff in other divisions and the Executive Office with rulemaking.

LEGAL DIVISION

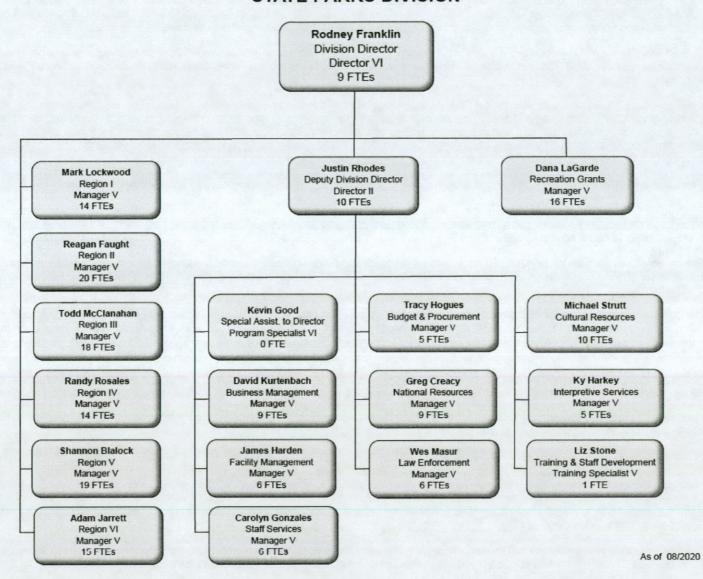

Colette Barron Bradsby Interim Division Director Director IV 10.5 FTEs

STATE PARKS DIVISION

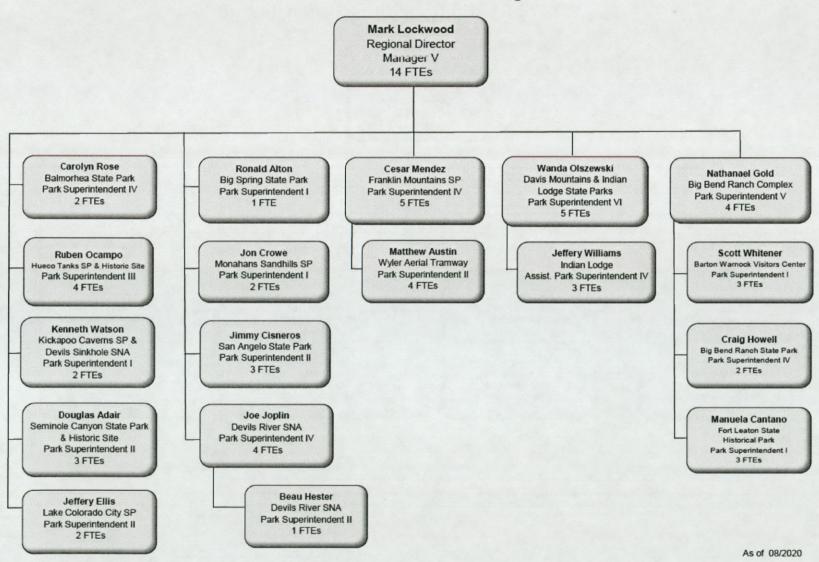

Functional Responsibilities

- Staff Services & Administration: Supports a mission-focused, professional, diverse, and engaged workforce with positive and productive workplaces. Ensures utilization of best employment practices through policy administration, performance and conduct management. Provides oversight of the division's internship and volunteer programs, recruitment and retention, classification and compensation plans.
- Training & Staff Development: Oversees State Parks' staff development and training initiatives. Serves as Division training coordinators and liaison for State Parks' staff participation in TPWD and external training and development. Assesses, develops, implements and evaluates State Parks' specific training programs.
- Business Management & Development: Administers business management and revenue development through revenue resource identification, oversight and compliance of park fees, staff retail and rental operations, hospitality management, customer services, group, special event and commercial partnership management and development and oversight of leased concession operations, park literature and promotions & park system passes. Oversees customer contact center, TPWD operator/information, and State Park Information Technology automation oversight. Manages and provides technical support for the park system's vendor owned business management and reservation software system.
- Budget, Procurement & Contracts: Prepares and manages division budget, procurement & contracts management and oversight.
- Natural Resources: Oversees natural resource management activities and provides guidance to parks for compliance with federal and state regulations
 regarding resource protection. Provides geospatial resources and park planning services, operates the State Parks wildland fire program, and manages
 mitigation of third party impacts on state parkland.
- Cultural Resources: Oversees parks' and historic sites' cultural resources. Provides guidance to parks and sites for compliance with federal and state antiquities and historic preservation laws; conducts archeological surveys, writes monitoring and management plans and curates artifacts and architectural samples.
- Interpretive Services: Oversees parks interpretation/education programs, training and evaluation of approximately 80 field-based park interpreters. Responsible for parks educational literature (maps, field guides and brochures), web-based media, exhibits, collections, wayside signs and interpretive master plans as well as statewide outdoor education and outreach programs (Texas Outdoor Family and Texas Buffalo Soldiers Program), which support increased visitation to State Parks.
- Law Enforcement: Responsible for the overall safety, security and protection of State Parks, its visitors and resources. Provides oversight and training of approximately 145 State Park Police Officers and regional coordinators. Partners with other federal, state, and local law enforcement agencies.
- Facilities Maintenance Management: Oversees minor repair, capital repairs, facilities & equipment tracking, TCEQ compliance, park safety oversight, and information management system oversight.
- Recreation Grants: Administers grant assistance programs providing local governments and non-profit entities grants for acquisition and development of local parks, boat access and recreation trail (motorized and non-motorized) opportunities. Administers grants providing assistance to introduce underserved populations to outdoor experiences. Administers grants providing funds for land acquisition and development in Texas State Parks. The branch administers a total of 10 grant programs providing for these opportunities. Plans and develops recreation trails in Texas State Parks. Services include technical assistance, grants administration and financial management, compliance with state and federal laws, and administrative requirements and post-completion compliance oversight.
- Region Offices: The Division's six Regional Offices provide direct supervision and support of the 88 State Park system sites. These offices supervise
 Minor Repair projects, provide technical support for resource management activities, fiscal control compliance and personnel actions.

STATE PARKS DIVISION—Region III

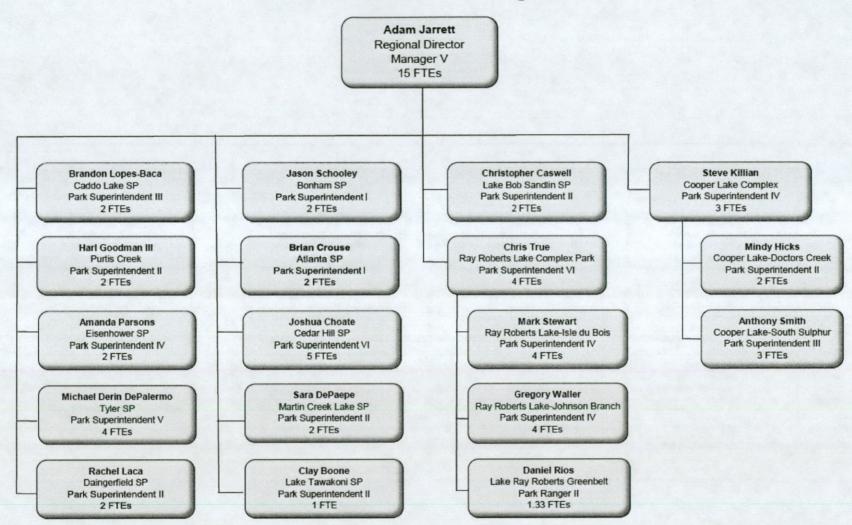

STATE PARKS DIVISION—Region IV

STATE PARKS DIVISION—Region V

STATE PARKS DIVISION—Region VI

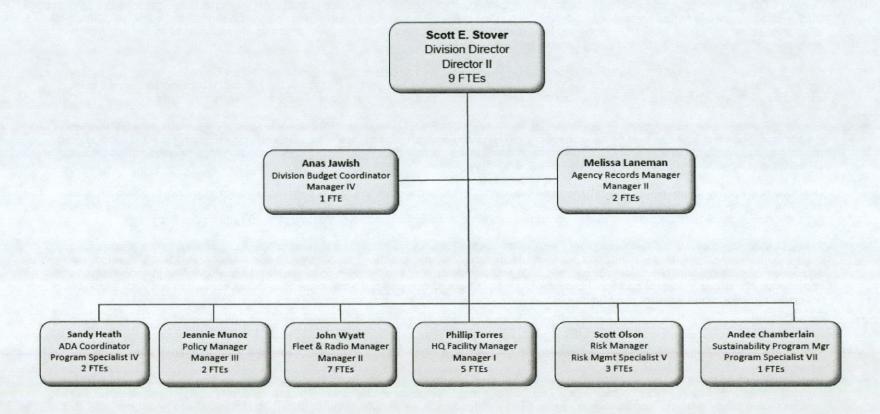

SUPPORT RESOURCES DIVISION

Functional Responsibilities

The Support Resources Division administers seven agency-wide programs:

- Director's Office / Division Administration: Provides strategic direction and counsel for division branch and program managers, as well as division staff.
 Staff is also responsible for the preparation and monitoring of the division's operating budget, reporting on performance measures, responding to internal and external audits, providing purchasing service to the division and legislative activities. Staff also are responsible for the preparation and monitoring of the Executive Office and Legal Division operating budgets.
- Americans with Disabilities (ADA) Branch: Supports the agency's mission to provide outdoor opportunities for all Texans by ensuring compliance with federal civil rights laws. This is achieved through annual reviews, consultation, support, and staff trainings. The ADA Branch serves as a point of contact for all visitor ADA matters, intake of visitor ADA complaints, and ensures the agency is informed of industry standards.
- Fleet and Radio Branch: Responsible for administering the Texas State Fleet Management Plan and the Agency Fleet Management Policy and Procedures. The Fleet Management Office administers vehicle procurement, transfers, licensing, titling, data management, operations and policy maintenance. The radio management office function is to manage the department's radio frequencies, radio towers (both leased and on agency property), and hand-held radios across all divisions in the agency.
- Headquarters Facility Management Branch: Manages the agency's Austin headquarters facility complex buildings, grounds, and infrastructure
 including the three main campus buildings and one off-site building. Responsible for coordinating major repairs, minor repairs, custodial services,
 grounds maintenance and all other day-to-day operations of a large office building complex housing over 800 employees.
- Policy Branch: Responsible for the development and management of agency administrative policies, processes and governance documents that outline guidelines and criteria, set behavioral or procedural expectations, and communicate roles and responsibilities. Policy staff develop new policies and revise existing policies; coordinate reviews and approvals and implement and maintain policies utilizing a standard format and process to ensure consistency and transparency. In addition, Policy staff are responsible for completing special projects as assigned, as well as the development of new or revisions to existing policies for the division.
- Records Management Branch: Provides records management and retention services for all department records, preservation and protection of records, training and consultation to department staff, and maintains and certifies the Department's Record Retention Schedule with the Texas State Library and Archives Commission. The Branch reports to the Executive Office but day-to-day operations are handled through the division.
- Risk Management Branch: The Risk Management Branch is made up of four programs. These programs include Risk Management, Safety, Federal Emergency Management Agency (FEMA) coordination and Emergency Management. The branch oversees agency insurance, continuity of operations, safety, workers' compensation trends, FEMA projects, and are liaisons with the State Fire Marshal Office and the State Office of Risk Management.
- Sustainability Branch: The Sustainability Branch works to support TPWD's efforts in resource conservation and environmental stewardship. As a
 conservation agency with a mission of sustainability the branch assists the agency in adoption of sustainable technologies, implementation of
 renewable and energy efficiency projects, implementation of water retention and efficiency projects, implementation of recycling efforts, and
 encourages opportunities to educate all Texans about eco-friendly practices.

SUPPORT RESOURCES DIVISION

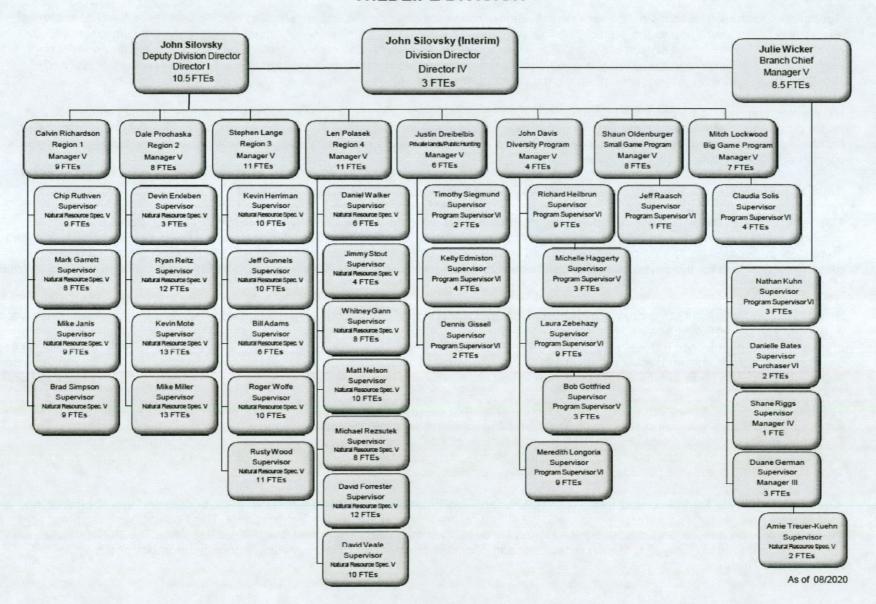

WILDLIFE DIVISION

Functional Responsibilities

- Regional Programs: The four Wildlife regions provide operations and support to ensure efficient Wildlife programs, such as technical assistance to landowners and the public. The four regions also operate 50 Wildlife Management Areas, encompassing over 748,000 acres of land. The Wildlife Division utilizes Wildlife Management Areas for research on wildlife populations and habitat, conducting education on resource management, providing habitat management demonstrations to landowners and other professionals, and providing public hunting, hiking, and other recreational opportunities.
- Big Game: The Big Game program coordinates surveys and research projects to understand the life history, habitat requirements, restoration, and management needs of big game species in Texas. The program routinely considers strategies to provide additional hunting opportunities, and offers various permits affording landowners and managers more flexibility to meet their management needs without adversely impacting the resource.
- Private Lands and Public Hunting: The Private Lands program provides private landowners with assistance, financial support and recognition for conservation efforts through agency staff and federal or other outside resources. Federal Farm Bill coordination, Wildlife Management Area administration and planning, and administration of the Texas Landowner Incentive Program are all essential components of the Private Lands Program's efforts to assist landowners. The Public Hunting program supports and administers public hunting opportunities on TPWD-owned and leased private lands. The Program also administers Big Time Texas Hunts, a revenue-generating program for the Division, and supports the partnership with Texas Wildlife Association for implementation of the Texas Youth Hunting Program.
- Small Game: The Small Game program is responsible for both resident and migratory game bird species, as well as habitat conservation associated with Joint Ventures and habitat-based partnerships within Texas and across the country. Migratory bird management requires coordination of population, harvest and habitat surveys as well as regulatory issues at the state, national and international levels, since these resources are shared between the United States, Canada, and Mexico. Monitoring and biological recommendations are developed using current research to establish habitat conservation objectives and regulations that meet the needs of resident game birds in Texas.
- Wildlife Diversity: This program works to improve the conservation of non-game, rare, and urban wildlife in Texas, including conservation
 for threatened and endangered species. A significant aspect of the program is participation in and support of wildlife research. The
 Outreach Program develops awareness of the conservation of Texas' wildlife resources through "citizen science" and "hands-on"
 activities. The Habitat Assessment Program reviews proposed development projects that affect the state's wildlife resources and
 associated ecosystems and provides comments and recommendations to protect these resources.
- Branch Chief of Administration and Research: The Federal Aid Program, Wildlife Research Program, budget and financial reporting, purchasing, and division personnel records and coordination are administered by the Branch Chief. The Federal Aid Program administers, and coordinates actions required to qualify department activities for federal grant reimbursement. The Wildlife Research Program coordinates review of research proposals, and compiles survey data to identify wildlife population trends and hunting constituents' interests.

BL 2022

BL 2023

TPWD is the state agency primarily responsible for protecting and managing the state's fish and wildlife resources. This strategy request includes funds needed to manage and conserve the state's wildlife resources and habitats. Major programs funded through this strategy include the Big Game, Small Game, and Wildlife Diversity programs. These programs provide recommendations for the regulation and management of big game species (including white-tailed deer, mule deer, pronghorn, desert bighorn sheep, javelina and alligators), small game species (including upland and migratory game birds) and non-game, endangered, threatened and rare species. Other activities conducted in support of wildlife conservation and management include management and operation of TPWD's 50 wildlife management areas encompassing over 748,000 acres, conducting population and harvest surveys, collaborating with universities to conduct wildlife research, issuing permits to take and hold captive wildlife, developing and managing wetlands and other habitats, and assessing the impact of development projects on wildlife and associated habitat. This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 12.001, 12.013, Chapter 43, 44, 45, 49, 61, 62, 64, 65, 67, 68, 71, 81 and 83.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Population growth, changing land uses, periodic drought, invasive species, wildlife diseases and habitat fragmentation are placing increased pressure on the state's natural resources and diminish wildlife habitat and diversity. Rare and endangered species continue to be an important area of focus for the Texas Comptroller's Office and the U.S. Fish and Wildlife Service, resulting in increased demand for information and conservation. TPWD continues to implement a comprehensive Chronic Wasting Disease management plan and update regulations to monitor and prevent the spread of the disease. Continued funding is essential for wildlife conservation and management efforts to maintain and improve wildlife populations and habitats given these pressures.

Funding is derived largely from hunting license and stamp revenues deposited into the Game, Fish and Water Safety Account (009). Migratory and upland game bird stamp revenues are statutorily restricted for research, management, protection and other activities to address the needs of migratory and upland game birds in Texas. The major source of federal grants is provided by the Wildlife Restoration Act of 1937. A state match is required for receipt of these and other federal funding sources. Federal statutes prohibit the diversion of state and federal wildlife funds for other uses. The Department of Interior has in recent years increased review of some nongame/endangered species conservation and research grants, thereby slowing the grant approval process.

STRATEGY DESCRIPTION AND JUSTIFICATION:

TPWD administers a number of programs that provide technical guidance, assistance, and information to private landowners and the public. In a state that is 95 percent privately owned or managed, these programs are vital in helping TPWD achieve its overall wildlife and habitat conservation goals, as they enlist the support of private landowners and inform/educate the public about wildlife and habitat conservation.

The Private Lands and Public Hunting program provides technical assistance to private landowners and land managers interested in implementing voluntary conservation, enhancement or development of wildlife habitat, and improvement of population management practices through a written wildlife management agreement. Cost-share assistance is primarily based on federal funds, in cooperation with USDA Farm Bill programs and the Landowner Incentive Program. Other examples of activities within this strategy include staff support to landowner organizations such as wildlife management and prescribed burn associations, and recognition for excellence in private land stewardship through the Lone Star Land Steward Awards program. This strategy is authorized under the Parks and Wildlife Code, including but not limited to §11.0181, 12.025 and Chapter 81.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

-

The majority of Texas' natural resources are on private lands. TPWD's ability to manage and conserve wildlife and habitats and to provide outdoor recreational opportunities is tied directly to the strength of partnerships with private landowners.

Landowner interest and demand for the Managed Lands Deer Program (MLDP) have increased since 2000, leading to an increase in the number of acres covered by the program by over 700%. Additionally, due to increases in technical assistance and preparing wildlife management plans, and demands related to Chronic Wasting Disease detection and containment, workload has increased significantly. The number of biologists providing these services has remained constant since 2000.

The Wildlife Division anticipates launching online fee collection for MLDP participation, as authorized by SB733. The revenue generated by these new fees will be used to hire new field biologists to fulfill the duties listed above. Allowing appropriation of the full amount of estimated MLDP fee revenue, allowing carry forward of unexpended balances across biennia, and specifying that amounts may be spent on FTEs and to increase capital budget authority would allow for more effective use of these amounts.

Funding in this strategy is derived primarily from the Wildlife Restoration Act, a federal source of funding. A state match, provided from hunting license and stamp revenues, is required for receipt of this federal funding source. Federal statutes prohibit the diversion of state and federal wildlife funds for other uses.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy includes funding for TPWD programs aimed at enhancing public hunting opportunities. The Annual Public Hunting Permit provides walk-in hunting opportunities on TPWD owned and leased lands, including short-term leases for dove and other small game. The Public Hunt Drawing system, now accessible online, provides opportunities to apply for a variety of supervised, drawn hunts on state owned lands and leased private properties. Big Time Texas Hunt drawings provide the opportunity to participate in guided package hunts for quality native and non-native animals on TPWD lands and leased private properties. Department staff annually review hunting regulations and propose modifications to increase or enhance hunting opportunity within biological constraints. TPWD partners with a number of organizations to provide youth hunting opportunities. Relevant statutory citations include Parks and Wildlife Code §11.0181, 11.033, Chapter 61, 62, and 81.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Although the total number of hunters in Texas is relatively stable, as a group, hunters are becoming a smaller percent of the overall population. Factors contributing to the decline include insufficient access to affordable hunting areas, lack of recruitment from younger generations, competition with a multitude of other activities and a cultural shift from rural to urban constituencies. TPWD recognizes the need to recruit, retain and reactivate hunters, including youth, women and minorities, and has developed programs to address this important issue. If the number of hunters declines, license dollars will decrease, making it difficult for the agency to fulfill its mission of wildlife conservation and management. Quality hunting opportunities must be affordable and readily accessible to ensure that hunters remain supportive of TPWD programs and additional hunters are recruited.

Funding for this strategy is derived primarily from the sale of various hunting licenses and stamp fees deposited in the Game, Fish and Water Safety Account.

DESCRIPTION

Exp 2019

Est 2020

Bud 2021

BL 2022

BL 2023

This strategy requests funds necessary to manage and conserve the state's freshwater fisheries, their habitats, and other aquatic resources. Fisheries are managed by conducting surveys to accurately assess fish population dynamics and angling trends; proposing and applying regulations, habitat improvements, and fish stocking to maintain and enhance quality fish populations and angler satisfaction; providing outreach; and conducting research to ensure management practices are efficient, effective, and grounded in the best available science. Other aquatic resource conservation activities include technical support for watershed conservation initiatives; in-stream flow and water quality studies; habitat surveys and assessments; invasive species management; contaminant investigations; fish kill and pollution events assessments; ecological risk assessments for waste sites undergoing clean-up; permitting sand, shell, gravel, and marl removal projects in navigable streams; and assessing aquatic resource impacts of projects permitted under state and federal regulatory programs. This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 11.082, 11.084, 12.001, 12.010, 12.015, 12.024, 12.301-12.303, Chapter 47, 61, 66 and 86, as well as the Water Code, Natural Resources Code and Texas Administrative Code.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

Funding for this strategy is largely derived from license/stamp proceeds deposited into the Game, Fish & Water Safety Account (009). To ensure this continues to be a stable source of funding, the department must provide quality fishing opportunities for the public. Federal funds, such as reimbursements provided by the Sport Fish Restoration Act, also comprise a large portion of funding. State match is required & federal statutes prohibit diversion of license fees other than for the administration of the state fish & wildlife agency.

Other factors impacting this strategy include weather conditions and blooms of toxic golden algae. Loss of fish habitat and angler access due to weather conditions, changes in available water, reservoir aging, development, pollution, and changes or disturbances to aquatic habitats also pose significant challenges to conservation efforts.

Population growth, increased water demands, and degradation/loss of fish habitats contribute to an increasing need for applied fisheries management activities. As populations grow, additional emphasis has been placed on managing fisheries near urban areas.

Threats posed by invasive aquatic species are an increasing concern as new introductions and species have been confirmed in Texas waterways and these species continue to spread. These species can displace more beneficial native species, limit recreational access, restrict flow rates, harm fish and wildlife, and have negative economic impacts on infrastructure and property values.

BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

Inland hatchery operations provide fish for put-take as well as put-grow-take fisheries, supplement natural fish populations, and stock fish to ensure genetic health and trophy potential of some fish populations. The Inland Fisheries Division operates five freshwater fish hatcheries located in San Marcos (A.E. Wood FH), Brookeland (John D. Parker East Texas State FH), Electra (Dundee FH), Graford (Possum Kingdom FH) and Athens (Texas Freshwater Fisheries Center). This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 12.001, and Chapter 81.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Since 1989, strategic investments have been made in targeted renovations and facility upgrades. Continued investments in facility improvements have increased productivity and effectiveness, including extensive renovations as well as relocating or rebuilding older, less productive facilities.

The department's freshwater fish hatcheries require periodic maintenance, renovation and upgrades to continue to operate efficiently and meet the needs of sportsmen. Senate Bill 573, passed by the 85th Legislature, expanded uses of the freshwater fishing stamp to include construction of facilities, supporting management/research related to freshwater fisheries; restoration, enhancement and management of freshwater fish habitats; projects to improve angler access; and administration and operation of freshwater fish hatcheries with a defined cap.

Federal funds, such as reimbursements provided by the Sport Fish Restoration Act, comprise a portion of funding for this strategy. State match is required for receipt of these funds, and federal statutes prohibit diversion of license fees for purposes other than administration of the state fish and wildlife agency. This strategy can be impacted by adverse weather conditions such as drought and flooding, as well as persistent blooms of toxic golden algae at the Possum Kingdom and Dundee Fish Hatcheries. Additionally, production of striped bass and hybrid striped bass is dependent on the availability and success in collecting wild brood stock each year and highly dependent on conducive environmental conditions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy request includes funds necessary to implement coastal fisheries management and habitat conservation efforts aimed at maintaining, protecting, restoring and enhancing the state's marine fisheries resources and aquatic ecosystems. The data collection programs and research activities that support management are designed to sustain harvest at levels that will ensure replenishable stocks of recreationally and commercially important species and provide balanced food webs within ecosystems. Activities and programs conducted to accomplish these management goals include annual status assessments of finfish, shrimp, crab and oyster populations and associated environmental conditions; stock identification and research activities; construction and design of artificial reefs; and active participation in multi-jurisdictional entities to help ensure a coordinated approach to protection of fisheries resources. This strategy also includes efforts related to the Water Quantity and Water Quality Programs, wetland protection and restoration, review and recommendations regarding wetland and navigable water permits and projects, and development of freshwater inflow recommendations for estuaries.

This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 12.001, 12.0011, 12.015, 12.024, Chapter 47, 61, 66, 76, 77, 78, 79, 83, and 91; and provisions of the Texas Water Code and Agriculture Code.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

A large portion of funding for this strategy is derived from license and stamp proceeds deposited into the Game, Fish and Water Safety Account (009). To ensure this continues to be a reliable source of funding, the department must continue to provide quality fishing opportunities for constituents. Saltwater stamp revenues are statutorily restricted for coastal fisheries enforcement and management activities. Authority from this and other dedicated sources allow the department to maintain and enhance coastal fisheries programs and ensure that funds are used for intended purposes. Federal funds also comprise a large portion of funding for this strategy. State match is required to receive these funds, and federal statutes prohibit diversion of license fees for purposes other than administration of the state fish and wildlife agency.

Other factors impacting this strategy include weather conditions, red tide and other harmful algal blooms. Loss of habitat due to water control structures, inflow rerouting, maritime activities and development also pose significant challenges to conservation efforts. As population and demands for recreational opportunities increase, and staff, technology and infrastructure remain limited, it is critical that resources are available to ensure a successful adaptation to the current operating environment.

STRATEGY DESCRIPTION AND JUSTIFICATION:

DESCRIPTION

CODE

Coastal hatchery operations stock fish in public waters for anglers' recreational enjoyment and the fishing industry's economic benefit. The hatcheries maintain and enhance existing fish stocks in selected marine habitats while continuously evaluating the impact of fish stocking on resident populations and fishing success. The Coastal Fisheries Division operates marine fish hatcheries in Corpus Christi (Marine Development Center), Lake Jackson (Sea Center Texas) and Palacios (Perry R. Bass Marine Fisheries Research Station). This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 12.001, and Chapter 81.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting activities in this strategy include weather conditions such as freezing temperatures, floods and drought, red and brown tide events, and extended loss of power as a result of hurricane damage or other events, which affect water quality and in turn, fingerling production levels. In addition, ongoing maintenance and repairs are necessary to keep hatcheries operational. The timing and extent of maintenance and repair work can also impact fingerling production.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy request includes funding to operate and maintain state parks, historic sites and state natural areas, protecting and informing visitors of the natural and cultural resources on state park properties and providing recreational opportunities for the general public. Field and program staff implement State Park programs and projects providing professional management of 88 park properties covering more than 600,000 acres of State lands that harbor unique cultural and natural resources; develop and conduct visitor education programs through live presentations, print and other media. In addition, park staff in all positions provide a safe and secure environment for visitors through a focus on education and voluntary compliance balanced with appropriate law enforcement capability, while operating, protecting and maintaining a wide variety of natural and built recreational venues and maintaining high standards of accountability and customer service. Public service is the primary focus of the Park Police function, whose duties have become increasingly complex. This has resulted in a need for more training, additional equipment and increased oversight necessary to maintain the high level of professionalism and accountability expected by park users and the public at large.

This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, and Chapters 13, 21 and 22; as well as portions of the Tax Code related to disposition of sporting goods sales tax proceeds (§151.801).

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

Extreme weather conditions and cumulative user wear results in physical impacts to parks that greatly effect TPWD's ability to keep facilities safe and open to the public. The fiscal effect of these damages is directly linked to the funding available for repairs, as site or facility closures negatively impact visitation and the revenue generated for State Parks Account 64.

Demographic changes also impact park operations and conservation efforts, as population growth and urbanization increase demand for access to parks, especially near major population centers, as illustrated by the COVID-19 pandemic. Increased use also raises costs for utilities, consumable supplies, staffing and maintenance. Expanding development near existing parks increases pressure on wildlife habitat and raises the risk of property damage due to wildland fires. TPWD must balance rising costs of addressing long-term deferred maintenance needs and repairs for weather-related damages with the costs of servicing increased user demands.

TPWD implemented a new business management system in February 2019 which improves customer service and agency capabilities. The contract payment terms are structured on a "percent of revenue collected" basis. Providing TPWD the flexibility to grow its expenditure authority to pay additional contract costs as revenues increase will avoid potential cutbacks to operations at a time of high visitation and user demand.

The agency also plans to assume management responsibility for the Powderhorn Lake State Park property in FY2021.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Minor Repair program enhances the State Parks Division's ability to operate and maintain the system of parks, historic sites, and natural areas in an effective manner, which contributes to increased revenue by ensuring that park facilities are available for use and are in an attractive and safe condition for visitors. The program addresses smaller, or immediately needed repairs that do not rise to the funding levels and execution cycle of major projects. Minor repair funding is crucial to proper upkeep and maintenance of park facilities and infrastructure systems, which reduces the likelihood of catastrophic failures resulting in revenue losses from unusable facilities, and minimizes costly major repairs that can be avoided through timely maintenance.

This strategy is authorized under provisions of the Parks and Wildlife Code including, but not limited to Chapters 13 and 22.

 Est 2020
 Bud 2021
 BL 2022
 BL 2023

Sufficient and dependable funding for timely repair and maintenance of park, historic and state natural area facilities and infrastructure is vital to the success of this strategy. Revenue generation is directly dependent on customer perceptions of facility desirability, and will be reflected in user demand levels. Emergency projects resulting from extreme acts of nature or other unplanned but necessary repairs can impact the availability of funding for scheduled maintenance and minor repairs, which can delay returning facilities to use. General weather conditions will also affect facility use and wear, with resulting fluctuations in revenue. Increased visitation and use, while generating additional revenue, also results in increased wear and tear on park facilities, resulting in maintenance cost increases to the agency and the need for additional funding to maintain facilities.

Complex contracting and purchasing rules can cause administrative delays and can negatively impact program performance. Costs associated with compliance, both in terms of dollars and time, divert resources from service delivery to overhead expenses, resulting in less actual investment in repairs and maintenance.

The agency is in the process of procuring a Facility Management system that will house the Minor Repair program as well as the asset inventory, preventive maintenance requirements, end of useful life for systems, as well as a work order system to manage the Minor Repair program that will improve the efficiency and project delivery of the program.

BL 2023

This strategy includes the State Parks Division's management of the functions and programs that directly support state park operations, including oversight of natural resources and wildland fire program management, and cultural resource management as well as curatorial collections management. Other services included in the strategy are interpretive program planning and exhibit design, supervision of park law enforcement, customer service center management, budget management and supply procurement, human resource management, field support training, volunteer recruitment, safety and FEMA coordination, and management of business enterprise activities. This strategy is authorized by provisions of the Parks and Wildlife Code, including §11.081 and Chapters 13 and 22.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As regulations governing natural and cultural resources have become more stringent and complex, providing technical expertise and oversight for field staff has become increasingly important to ensure compliance with state and federal regulations. Technical guidance for field staff is also critical to ensure adherence to accessibility regulations and other guidelines while fulfilling their daily tasks. The addition of new park sites to meet user demand also results in additional workloads on support staff to conduct resource surveys and supervise site staff. Increasingly complex purchasing, contracting and personnel management regulations also require greater support and guidance for staff.

Improvements to the division's business information systems have allowed for greater data extraction capability. Correspondingly, demand for information from within the agency and from external sources has increased. The volume of these requests is at times significant considering the limited human resources currently being funded for such activities.

DESCRIPTION

Exp 2019

Est 2020

Bud 2021

BL 2022

BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

Local parks provide valuable recreational opportunities for communities and are typically the most readily accessible and commonly used sites within our nationwide system of parks comprised of local, state and national parks. This strategy allocates grant funds to local governments for the acquisition, renovation and development of local parks and recreation centers. These grants require a local contribution of at least fifty percent of the project costs. By providing matching grants, the program maximizes the impacts of state funds, while ensuring local partners have a financial interest in park developments. The competitive nature of these grants often leads to local contributions exceeding the minimum contributions required, further extending the impact of State funds. Local park grants contribute to overall department goals by encouraging land conservation and outdoor recreation activities, and often serve as locations for other programs of the agency, such as community fishing events. This strategy is authorized by provisions of the Parks and Wildlife Code, including Chapter 24.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As the population of the state grows, competition for grant funds is expected to increase as demand for local recreational opportunities also rise. This is particularly true in rapidly developing communities with few existing recreational resources. Local parks have been found to contribute to the physical, social and mental well-being of residents, as well as creating positive economic impacts in communities. Current demand for grant assistance far exceeds the available funds and as a result, many worthy projects presented by local governments do not receive department assistance, resulting in a lack of readily accessible recreational opportunities. Additionally, as the state's demographics and ethnic makeup changes, there are additional demands for more variety in the types of recreational venues and facilities provided by communities. Costs for land and construction materials continue to increase, while accessibility and environmental protection mandates also contribute to rising costs for park development, decreasing the impact of resources provided to local entities. Funds for the program are primarily provided by the State dedication of sales taxes on sporting goods, and from federal offshore oil and gas lease earnings through the National Park Service's Land and Water Conservation Fund.

Service: 37 Income: A.2 Age: B.3

This strategy request includes funding for Recreational Trails, Community Outdoor Outreach Program, Boating, and Target Range grant programs administered by Recreation Grants staff in the State Parks Division. The Community Outdoor Outreach Program Grant provides funding to tax-exempt organizations to engage under-represented populations in TPWD mission-oriented outdoor recreation, conservation, and environmental education activities. Recreational Trails Grants provides funding for the development of motorized and non-motorized recreational trail projects that are open to the public.

Boating Grants provide assistance for the construction of new, or renovation of existing public boat ramps that provide access to public waters for recreational boating; assistance for pumpout stations and waste reception facilities to safely dispose of recreational boater sewage; and assistance for the construction, renovation, or maintenance of boating infrastructure tie-up facilities for transient recreational vessels.

Target Range Grants support the development of safe and accessible public shooting facilities that align with TPWD hunter education activities and programs. The program provides funding for the costs of construction, development and improvement of firearm and archery range facilities.

Grant activities in this strategy are authorized by provisions of the Parks and Wildlife Code, including Chapters 13, 24, 28, §31.141 and the Pittman-Robertson Wildlife Restoration Act.

Est 2020

Bud 2021

BL 2022

BL 2023

Population growth, urbanization and shifts in demographics, coupled with increased awareness of the benefits of outdoor recreation have led to higher demand for Community Outdoor Outreach Program grants. Funds for the program are provided by dedicated sales taxes on sporting goods.

Funding of the Recreational Trails Grant program is derived from a portion of the federal taxes generated by fuel purchases for motorized off-road vehicles (ORV's).

Administered by the Federal Highway Administration, the National Recreational Trails Fund is given to states based on a formula that considers state population and ORV fuel sales. A State match is required for these federal funds.

The State Boat Ramp Program receives funding from the Game, Fish and Water Safety Account and the Federal Sport Fish Restoration Act. 15% of the state's annual share from the Federal Aid in Sport Fish Restoration Act must be used to provide access for motor boating facilities and diversion of fishing license fees for purposes other than operation of the state fish and wildlife agency is prohibited. A State match is required for these federal funds.

Funding for the Target Range Grant Program is derived from a dedicated excise sales tax collected on manufacturers of certain sporting goods. Funds are administered to states by the U.S. Fish and Wildlife Service under authority of the Sport Fish Restoration Act. A state match is required for these federal funds.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Department is charged with enforcement of game, fish and water safety laws throughout the state. To meet these charges, the Law Enforcement Division operates a comprehensive statewide program of public education, preventative patrols, and apprehension of violators. To prevent violations, the division proactively provides resource users information and educational programs regarding rules, regulations, seasons, and bag limits. Public safety objectives are pursued through aggressive education efforts and stringent enforcement of hunter/boater education requirements. Twenty-nine law enforcement offices statewide provide support to game wardens and services to the public through the sale of licenses, registration and titling of boats/motors, and dissemination of information. This strategy also includes major investigative initiatives related to wildlife, marine theft, covert and environmental crimes. Finally, activities related to disaster response and Homeland Security are reflected in this strategy as well.

This strategy is authorized under provisions of the Parks and Wildlife Code, including but not limited to §11.0181, 11.019-11.0201, 12.101-12.119, Chapter 31, Chapter 91, selected provisions of the Texas Penal Code, and Texas Code of Criminal Procedures Article 2.12 (10).

Internal and external factors affecting this strategy include funding and personnel, geographic issues, weather and response to natural disasters, issues with communications, training, recruitment and retention.

In addition to enforcing fish and wildlife laws, Texas game wardens are often called upon to assist in disaster response, border operations and Homeland Security efforts. Because they have specialized equipment, training, and knowledge of our State's waterways, they are called upon to assist in protecting dams, nuclear power facilities, and industrial chemical plants across the state.

Ensuring that game wardens are adequately equipped and trained to carry out their duties safely and efficiently is a priority for TPWD. The Law Enforcement Division expends significant effort in training and purchase of equipment in an effort to combat all crimes mentioned above.

Federal funds comprise a portion of funding for this strategy. State match is required for receipt of these funds.

Est 2020

Bud 2021

BL 2022

BL 2023

The Texas Game Warden Training Center provides mandated instruction to newly hired game warden cadets in preparation for the state peace officer licensing exam and trains cadets in the enforcement of rules, regulations and proclamations of the Parks and Wildlife Code. The Training Center also provides Texas Commission on Law Enforcement (TCOLE) mandated continuing education training for licensed peace officers and marine safety enforcement officer certification and training to outside law enforcement agencies. Other functions of the Texas Game Warden Training Center include hiring, promotions and recruitment for the Law Enforcement Division.

This strategy is authorized under Texas Parks and Wildlife Code §11.019-11.0201 and Chapter 31. Peace officer training and education is governed by TCOLE rules and the Occupations Code §1701.352.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Internal and external factors affecting this strategy include funding and personnel, geographic issues, weather and response to natural disasters, issues with communications, training, recruitment and retention.

TPWD is mandated through authority of the state peace officer licensing commission, TCOLE, to provide training for newly hired cadets as well as existing officers in the field. Professional training, however, must be extended beyond minimum requirements to improve the knowledge base of our law enforcement officers. Given the increased emphasis the Legislature has placed on Texas border security, TPWD Law Enforcement is constantly communicating and collaborating with state and federal law enforcement agencies to ensure provision of the best and most current forms of law enforcement training available.

The Training Center is now providing the training for State Parks Division Police Officers, who serve as officers in the state parks throughout the state. The training center is operating at the maximum capacities to replace Game Wardens and Park Police officers for Law Enforcement and State Parks Division. A top priority for the training academy continues to be improved diversity in cadet applicant pools and ultimately, the workforce. Continued funding and support are necessary to ensure effective recruitment efforts.

The Law Enforcement oversight, management and support strategy includes overall management of the division, including regional operations, budget and administrative support, and development, coordination and implementation of policies, procedures and programs. Major oversight programs include Wildlife Enforcement, Fisheries Enforcement, and Marine Safety Enforcement.

Relevant statutory authority includes Parks and Wildlife Code §11.019-11.0201, 12.101-12.119, 12.201-12.206, and Chapter 31, selected provisions of the Texas Penal Code, and the Texas Code of Criminal Procedure, Article 2.12 (10).

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Internal and external factors impacting this strategy include an increased demand for coordination with other agencies on Homeland Security, border operations and/or disaster relief activities and with other divisions/field offices regarding statutory interpretation and enforcement policies, while maintaining oversight on normal operational activities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The programs funded within this strategy educate hunters, boaters and other water users to be safe, knowledgeable and responsible in pursuing hunting or water related activities, encourage the conservation and enjoyment of the state's natural and cultural resources, engage new users, especially youth, women, and minorities in natural resource outdoor recreation, and recruit new and reactivate returning outdoor users who fund the agency through purchases of licenses and sporting goods. The Communications Division manages the mandatory Hunter and Boater Education programs required of a certain age segment of participants in order to legally hunt or boat in Texas. Both hunter and boater education programs are based on nationally adopted standards. Courses are offered online, as well as from volunteers trained and managed by department staff. Other programs include outdoor skills workshops in archery, bowhunting, fishing and shot gunning, Get Outside® events, and conservation education programs such as Project WILD and Texas-based aquatic education. Most programs use trained volunteers to provide conservation education and outdoor recreation skills training.

This strategy is authorized by provisions of the Parks and Wildlife Code including §11.0181, 31.108-31.110, and 62.014.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

•

Understanding the recreational needs and cultural values of minorities, women, youth and urban populations is critical to increase participation in hunting, fishing and other outdoor recreation. Minorities comprise only a fraction of TPWD's traditional user base but an increasing part of the state's demographic base. Urbanization and competition from other activities also help to determine whether these outdoor activities grow. Since outdoor recreation is a gateway to conservation, maintaining vigorous engagement in this area increases chances for a knowledgeable, conservation-minded population.

Studies indicate that children who play and learn outdoors lead healthier, happier lives and perform better in school. TPWD has a leadership role in the Texas Children in Nature network, encouraging Texans of all ages to achieve healthier lifestyles by spending more time outside. The longevity of the program significantly hinges on access to additional staff support, funding and interagency cooperation.

Federal funds including the Wildlife & Sport Fish Restoration program comprise a large portion of funding for the hunter and aquatic education programs. State match is required for receipt of these and other federal funding sources. Federal statutes prohibit diversion of state and federal wildlife funds for other uses. Without state matching funds, TPWD stands to lose mainstay funding for educational programs. Programs in this strategy rely on trained external volunteers to train constituents. Volunteers serve as a source of in-kind funds used to receive the federal match.

BL 2022

BL 2023

This strategy helps fund communication products and services to inform and engage Texans in the responsible enjoyment of nature-based outdoor recreation and the conservation of the state's natural and cultural resources, while increasing revenue to help the agency better fulfill its mission. Communications products include the TPWD website, the Texas Parks & Wildlife magazine, the Texas Parks and Wildlife television series, and the Under the Texas Sky podcast. Communication services include media relations, social media, public awareness and revenue-generating campaigns, email communication and text messaging, video, mobile app interface design, photography, print design and materials, Spanish language translation services, customer analysis and marketing programs such as the Conservation License Plates, Texas Paddling Trails and the Great Texas Wildlife Trails. This strategy also provides marketing support for the statewide Texas Children in Nature network, which encourages greater access and connection to nature for Texas children and their families. Collectively these communications strategies increase awareness of and participation in conservation and natured-based outdoor recreation by all Texans, while increasing agency revenue from a wide range of license types, fees and products.

Relevant statutory authority includes Parks and Wildlife Code §11.0181, 11.033, 12.006, and 13.017.

 Bud 2021
 BL 2022
 BL 2023

As Texans become more diverse and their preferences for receiving information continue to change, communications products and services need to evolve to be as effective as possible helping the agency achieve its goals. Sponsorships have helped bolster limited funding for various communications products and efforts, but these are limited and dependent on the economic climate.

The TPW magazine has approximately 500,000 loyal readers, but a number of factors, including economic conditions, increasing fixed costs (paper and postage), and shift from print to digital media have had a profound effect on the magazine's ability to increase its revenue to offset the cost to provide this product. Marketing costs, including the cost to provide email and text communications, have significantly increased over the years. However, TPWD's ability to invest in and support this important function has been limited, even though proven models and pilot efforts have shown a strong ROI for revenue-generating efforts to recruit, retain, and reactivate customers and positive results for awareness efforts.

Finally, given the dramatic growth of the Texas population and the increased visitation demand on state parks, it is important to support increased awareness of outdoor recreational opportunities on other public lands and waterways in addition to those managed by TPWD.

1 Hunting and Fishing License Issuance

Est 2020

Bud 2021

Service: 37

BL 2022

BL 2023

Recreational and commercial hunting and fishing licenses are currently (1) issued over-the-counter by a network of license agents (generally retail businesses that sell outdoor gear and supplies) and TPWD offices; (2) issued by processing mail-in applications; (3) issued by processing phone requests; or (4) issued via Internet sales. A commission of roughly 5% is paid on sales made through license agents. Sales of hunting and fishing licenses are processed through a point-of-sale system called the Texas License Connection. The Financial Resources Division manages the contract with the vendor providing the point-of-sale system, manages relationships with all the license agents, processes mail-in requests for recreational and certain commercial licenses, and produces and mails all licenses ordered via phone, mail-in or the Internet. The division also ensures that all license revenues are collected, accounted for, and reconciled between processing and accounting systems.

Statutory authority includes but is not limited to Parks and Wildlife Code § 12.701-12.707 and Chapters 42, 43, 46, 47 and 50.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

DESCRIPTION

Key internal factors affecting this activity include (1) the availability of adequate staffing to provide timely support to license agents, timely delivery of documents due to customers (tags and licenses), to answer public and field questions 45 hours per week and the prompt collection of all funds due; and (2) adequate operation and support of the point-of-sale-system. External factors include (1) changes to regulations or statutes impacting fees or licensing requirements; (2) the state of the economy and weather factors, which can impact the volume of license sales; (3) postage costs; and (4) changes in customer use of different sales channels. Events affecting the external vendor for the automated point-of-sale system could also impact this strategy.

The modernization of record-keeping from paper-based to electronic databases and computer information systems has reduced customer transaction time, provided higher quality data and shortened the timeframe for the receipt of revenue from sales agents to Treasury.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Boat registration and vessel/boat motor titles are currently (1) issued over-the-counter at TPWD Law Enforcement offices, TPWD Headquarters and at participating county tax assessor-collector offices throughout the state; (2) issued by processing mail-in applications; or (3) sold via the Internet (registration renewals and replacement titles/cards/decals only). Boat titling and registrations are processed through a web-based application. A 10% commission on boat registration and titling fees is paid on sales through county tax assessor-collector offices. Ninety-five percent (95%) of sales tax revenues collected are transferred to the Comptroller's Office for deposit into General Revenue Fund 001.

The Financial Resources Division manages relationships with all the law enforcement and tax assessor-collector staff processing boat titles and registrations. TPWD Headquarters staff provide answers to the public and field staff via two phone banks, process mail-in requests for titles, registrations and marine dealer licenses, produce and mail all titles, decals and ID cards not provided over the counter, and ensure that all marine license, title and registration fees and boat sales taxes are collected, accounted for and reconciled between processing and accounting systems. Relevant statutory authority includes Parks and Wildlife Code Chapter 31, Chapter 11, §11.032 (Game, Fish and Water Safety Account-Sources), and Tax Code, Chapter 160.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

DESCRIPTION

Key internal factors affecting this activity include (1) the availability of adequate staffing to provide timely and accurate processing of registration/titling and related documents, to provide timely delivery of documents due to customers (titles, decals, etc.), to answer public and field questions 45 hours per week, and to promptly collect all funds due; and (2) adequate operation and support of the point-of-sale system. External factors include (1) changes to regulations or statutes impacting fees or boat registration/titling requirements; (2) the state of the economy and environmental (weather) factors, which can impact the volume of boat registration and titling transactions; and (3) postage, decal supply and printing costs, and costs associated with acceptance of credit cards.

TPWD relies on existing TxDMV technology infrastructure in place at tax assessor-collector offices (for vehicle registrations) to allow counties to access our boat registration system. The continued functionality and availability of the TxDMV system is necessary or TPWD must establish a new access approach.

In the future, TPWD will evaluate options for replacing/modernizing the IT platform supporting the department's in-house Boat Registration Information and Titling System (BRITS).

BL 2023

This strategy reflects the Department's funding for capital improvement and major repair projects needed to maintain and develop more than 150 different locations throughout the state. These facilities have been acquired and developed to represent the highlights and uniqueness of Texas landscapes, natural environments, wildlife, history and culture. While revenue, general obligation bonds, and Sporting Goods Sales Tax proceeds appropriated in past years have made strides in addressing the deferred maintenance backlog, there remains a significant backlog of deferred projects ranging from general repairs to code compliance to safety.

Relevant statutory authority includes but is not limited to Texas Const., Art. 3, §49-e, Art 3, §50-f, and Parks and Wildlife Code Chapter 22, §11.043, 13.002, 13.0045, 81.101-102 and provisions of the Government Code and Occupations Code.

 BL 2022
 BL 2023

TPWD's assets have been enjoyed by visitors for many decades, contributing to an erosion of quality over time in the absence of sustained deferred maintenance funding. Texas' harsh climate also contributes to facility deterioration. A sustained repair and restoration program is critical to ensuring TPWD's ability to effectively address facility needs.

Past challenges include funding uncertainty from session to session, weather/disaster events, changing legislative priorities, lack of Capital UB authority, and emergent needs. Recent capital construction and major repair funding increases have allowed the department to make significant strides in addressing major repair and construction needs. These increased funding levels enable the department to perform more purposeful upgrades to rapidly aging facilities, to meet increased population growth and overall use. The passage of Proposition 5 dedicates TPWD's allotment of the Sporting Goods Sales Tax to State Parks that, if sufficiently appropriated, will provide reliable and sustainable funding for strategic planning, design and implementation of projects into the future. It should be noted, however, there remains a lack of adequate and sustainable capital construction authority for the Fund 9 resource division facilities.

The 86th Legislature authorized the carry forward of any unexpended balances of capital construction authority associated with SGST deferred maintenance (excluding GR-D); however it was granted just a few months prior to the biennium end which precluded advance planning for strategic shifting.

BL 2023 CODE Exp 2019 Est 2020 **Bud 2021** BL 2022 DESCRIPTION

Through the addition of lands to the TPWD system and provision of grant funds to purchase conservation easements, the agency strives to meet the state's recreational needs and conserve and protect vital habitat and natural resources. This strategy reflects: (1) the department's capital budget authority for acquisition of land and other real property, and (2) grants to purchase conservation easements from willing sellers under the Texas Farm and Ranchlands Conservation Program (TFRLCP). TPWD's land acquisition efforts are focused on addressing the goals and objectives set forth in the Land and Water Conservation and Recreation Plan, including expansion of existing sites and conservation of priority habitats. The goal of TFRLCP is to conserve working lands that have high values for water, fish, wildlife and agricultural production that are at risk of development.

Land Acquisition staff negotiate and manage all agency land transactions, including sales, purchases, leases, conservation and other easements, analyze existing land inventory and make recommendations to the Executive Director and Commission.

Relevant statutory authority includes but is not limited to Const., Art.3, §49-e and Parks and Wildlife Code §11.043, 13.001, 13.002, 13.005, 13.008, 13.009, 81.102, 81.103, 81.401 and provisions of the Government Code and Occupations Code.

CODE DESCRIPTION

Exp 2019

Est 2020

Bud 2021

BL 2022

BL 2023

The most significant factors impacting the acquisition of new public lands include the availability of funding for acquisition purposes, the availability of priority lands, and general market conditions. As the population of the state continues to grow and becomes increasingly urban, and as rural lands are converted for residential uses, opportunities and venues for outdoor recreational experiences will continue to diminish. It will be increasingly important for TPWD to acquire lands to meet the needs of the public, including parks to improve access in underserved areas and wildlife management areas in under-represented ecosystems. These factors make pursuing innovative partnerships and maximizing state funding for land acquisition a high priority.

Activities included in this strategy were expanded in 2015, when the Legislature passed House Bill 1925, transferring the Texas Farm and Ranch Lands Conservation Program (TFRLCP) from the General Land Office to TPWD, appropriating \$2.0 million for TPWD to implement the program. This appropriation was continued for the 2020-21 biennium. The Texas Farm and Ranchlands Trust Council has approved funding for a number of projects, covering tens of thousands of acres of the state's high value working farms and ranches under conservation agreement.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Infrastructure program administration includes activities necessary to manage the design, construction and repair of facilities, and the development of TPWD lands. Project management oversight provides scheduling and project administration of capital projects. Architectural and Engineering design/oversight services provide the following: resources to ensure projects comply with TPWD adopted design, construction and building code standards; review of facility needs; and scoping services for resulting projects. TxDOT and TPWD are engaged in an Interagency Cooperation Contract (ICC) to carry out a program which coordinates road development and repairs within and adjacent to TPWD owned or leased facilities. Other activities include administering all professional design and construction contracts; survey and inspections; administering, coordinating and managing the annual Capital Construction Program; and maintaining a program and project management system.

Relevant statutory authority includes but is not limited to Texas Const., Art. 3, §49-e, Art 3, 50-f, Parks and Wildlife Code §11.043, 13.002, 13.0045, Chapter 22, 81.101-102 and provisions of the Government Code and Occupations Code.

The primary factor impacting funding for this strategy is the amount of bonds issued for repairs, acquisition and other projects, which influences the amount of debt service payments required annually.

TPWD does not currently have any debt service requirements associated with revenue bonds as outlined under this strategy.

This strategy provides executive and support functions for the agency. Executive Office coordinates activities related to the Parks and Wildlife Commission, Legislature and Parks and Wildlife Foundation. Human Resources Division functions include policy planning and development, workforce planning, job analysis, salary administration, payroll, training, organizational development, hiring, recruitment, employee relations, benefits, customer service and management development, employee recognition and intern programs. Legal Division provides legal assistance to the Parks and Wildlife Commission, the Executive Director and TPWD staff; represents TPWD in administrative legal proceedings; assists the Office of the Attorney General in litigation; coordinates/assists in development of rules and agreements; and coordinates responses to public information requests. Financial Resources Division functions include general ledger, property, accounts payable and revenue accounting, cashiering, finance, budget, planning, financial reporting and the office of the Chief Financial Officer.

Statutory authority includes provisions of the Parks and Wildlife Code; Texas Government Code, including Chapters 551 (Open Meetings), 552 (Public Information Act), 2001 (Administrative Procedure Act), 2101 (Accounting Procedures), 2012 (Internal Auditing), and Title 6 (Public Officers and Employees); Texas Water Code; Texas Natural Resources Code; and federal statutes regarding natural resources.

Key internal factors affecting these activities include the availability of adequate, trained staffing to accomplish the level of effort necessary to meet this strategy. External factors affecting this strategy include initiatives and legislation related to salary/accounting, human resources, legal, and other functions included in the strategy.

TPWD recently transitioned to the Centralized Accounting and Payroll/Personnel System (CAPPS) for both Human Resources and Financials. Continued staff and funding will be necessary to address workload changes resulting from the new system and ensure ongoing success of this new initiative. Functional areas of Financial Resources and Human Resources divisions at TPWD may continue to merge, expand, or evolve new responsibilities in response to requirements of the new system.

Addressing constituent and workforce diversity challenges is an important business imperative for TPWD. As such, TPWD has created and implemented a five-year Diversity and Inclusion (D&I) Strategy, which includes the development of a D&I web page and a recruitment strategy that focuses on increasing employee diversity.

STRATEGY DESCRIPTION AND JUSTIFICATION:

IT Division provides support for the agency's strategic plan, coordinates all technical information services, and provides general policy for information and telecommunications resource management in coordination with executive management. IT services are required by provisions under Government Code, Chapter 2054 and Information Resources Subchapter A (General Provisions). IT Division's goal is to provide cost-effective, secure and reliable services that meet the business objectives of the agency for constituents and staff.

The strategies necessary to achieve this goal are Cybersecurity, Digital Services, Innovative Solutions, Data Management and Legacy Modernization. IT supports all divisions by developing custom web, mobile, client-server apps and customer service. IT works with divisions on business development and strategic planning, focusing on expanding delivery of technology services. Technical experts work on planning, development, operations, and support of the technology infrastructure, including the technology datacenter, field services, and network support. Another key service is implementing and managing the cybersecurity program, encompassing diverse initiatives across divisions with a comprehensive program aligned to TPWD, DIR, and governing bodies' priorities. Another key activity is the procurement and contract management of technology-related purchases, consolidating purchases for best value, while meeting relevant rules and guidelines. IT has also significantly increased efforts to provide GIS technical support and environment administration.

CODE DESCRIPTION Exp 2019 Est 2020 Bud 2021 BL 2022 BL 2023

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

IT Division strives to maintain consistent support, despite increasing demands for existing and new technologies, with minimal funding increases. A key goal of the division is to meet internal and external expectations of immediate use of digital services, implementing improved technologies, and seamlessly and transparently maintaining data security. Another priority for IT division is to meet expectations of consistent and enhanced network connectivity and wireless access. Each division requires unique solutions, which requires more oversight and management of devices and customer service.

Other challenges include:

Recruitment

- · Affordable network connectivity
- · Accepting all types of payment for services
- Oversight on spending technology funds
- Challenges associated with decentralization

In-house services are more efficient and streamlined than contracted services that would result from major reductions to this strategy, effectively reducing funds from other areas and impacting their abilities to meet their mission. The ability of IT Division to provide real-time support and educate contracted staff minimizes delays and inefficiencies to supporting agency staff, which would otherwise impact all other programs and the ability to serve internal and external customers.

The Other Support Services strategy provides support activities for the entire agency. Support activities of the Financial Resources Division include outgoing mail services; literature and consumable distribution; warehouse management, and surplus property activities. Support activities of the Support Resources Division are also reflected, including risk management, safety, Federal Emergency Management Agency coordination, Emergency Management, fleet, radio, sustainability, Americans with Disabilities Act compliance, Austin headquarters facilities management, records management, and agency-wide policies and procedures. Purchasing and contracting and management of the agency Historically Underutilized Business program are also reflected in this strategy.

Statutory authority includes various provisions of the Parks and Wildlife Code; provisions of the Government Code, including but not limited to Chapters 2155 (Purchasing: General Rules and Procedures), 2156 (Purchasing Methods), 2161 (Historically Underutilized Businesses), 2171 (Travel and Vehicle Fleet Services), and Labor Code Chapter 412.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Key internal factors affecting these activities include the availability of adequate, trained staffing to accomplish the level of effort necessary to meet this strategy, as well as the condition of the aging Austin headquarters facilities. External factors impacting this strategy include fluctuating costs of paper and print services, and statutes/rules/policies established by federal, state, and local regulatory authorities governing purchasing/contracting; employee or public safety and health; indoor air quality; use of office space and state-owned property; fleet management; energy management; water management; environmental and recycling issues; and other functions included in the strategy.

E.1.3.	Other Support Services Prioritization: Indicate the methodology or appro	28	IT, Accounting Control, & Agency Services	USC §701, and U.S. Department of Justice Civil Rights Division.	\$8,841,286	\$4,769,904	\$4,769,904	\$9,539,808	\$698,522	7.9

Program Prioritization: Indicate the methodology or approach taken by the agency, court, or institution to determine the ranking.

The priority rankings for each program were derived based on evaluation of each as it relates to the following criteria (in order):

(1)-Protecting the state's fish, wildlife and natural resources
(2):Enhancing the state's fish, wildlife and natural resources
(3)-Providing access to the state's fish, villed and natural resources
(4) Helping others support our mission (i.e. pass through/other grants programs)

	In the last 20 years the Managed Lands Deer Program (MLDP) has grown considerably, but in that time Division has not had a source of funding to hire new staff to help address the challenges associated with Senate Bill 733, as well as Article IX, Sec. 18.72 of the General Appropriations Act (86th Legislature R.S. address this issue by authorizing the Parks and Wildlife Commission to charge a fee for participation in and appropriating collections to the department for use on the MLD Program. However, the appropriate limited to a set amount, did not allow the carry forward of any unspent balances and did not clearly speciand capital purposes. Given the department's growing needs in this area, and the timing of when fee coll be launched (April 2021), these restrictions on authority pose challenges to meaningfully engaging with participants, meeting technical guidance requests, and administering the MLDP as intended. TPWD is requesting that the current Article IX contingency rider (Sec. 18.72) be moved to TPWD's bill planguage be modified to specify that associated amounts are above the line. In addition, TPWD is requested language be amended to "estimated" to allow appropriation of the full amount of estimated MLDP licerallow carry forward of unexpended balances for use within and across biennia, and to specify that amount on FTEs and for increasing capital budget authority. These changes will allow the Department to more effect generated from MLDP participation on the MLD program, thereby increasing transparency and britwith expectations of fee-paying constituents. NOTE: The amounts specified in this rider are included in strategy level requests above (i.e. "included in appropriated above") and are within TPWD's approved 2022-2023 base authority. As such, this rider is itemized in Schedule 3.C. Rider Appropriations and Unexpended Balances Request. However, if any additional needed, further information can be provided as requested.

	Total Expenditures		22.0%		\$21,557,317	\$97,982,230		23.0%		\$14,322,638	\$62,319,028

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained four of the six applicable statewide HUB procurement goals in FY2018 and four of six TPWD HUB Goals.

The agency attained four of the six applicable statewide HUB procurement goals in FY2019 and four of six TPWD HUB Goals.

Applicability:

All categories are applicable to agency operations.

Factors Affecting Attainment:

Special Trade Construction - TPWD design services increased during this time period with less construction. In addition, the way TPWD budgeted construction projects was adjusted to fund more projects as building or heavy construction projects versus special trade.

Other Services - TPWD has difficulty meeting the statewide goal in this category due to the limited availability of HUB vendors for many of our remote field sites. Staff have increased vendor outreach efforts and are encouraging local vendors to participate in the HUB program.

"Good-Faith" Efforts:

HUB and Purchasing staff has increased our efforts to identify potential HUB vendors in regions where they were not available and assisted vendors in the HUB certification process to improve their opporunity to do business with state agencies.

TPWD has a continued partnership with Texas Association of African American Chambers of Commerce (TAAACC) and Texas Association of Mexican American Chambers of Commerce (TAMACC) to increase outreach efforts, HUB vendor recruitment, and technical assistance to HUB vendors.

6.A. Historically Underutilized Business Supporting Schedule

87th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) Date: 10/14/2020 Time: 9:41:41AM

Agency Code:

802

Agency:

Parks and Wildlife Department

Reporting - An internal HUB report is provided to executive management and Division Directors on a regular basis to stay abreast of TPWD progress in obtaining the HUB goals.

Project Description for the 2020-21 Biennium:

Palo Pinto Mountains State Park capital construction.

Project Description and Allocation Purpose for the 2022-23 Biennium:

In addition to restoring Law Enforcement funding to original 2020-21 levels (3.1 million) this includes maintaining the current fleet at a 110,000-mile replacement schedule, Game Warden Patrol Vehicles, partial funding (2.15 million); refreshing Game Warden vehicle-based communication capabilities, Game Warden Patrol Vehicle Radios (500k); addressing the need for officer safety, situational awareness, response time and receiving/distributing information in a more effective/efficient manner, in Car Automation Setup for Patrol Vehicles (125k); replacing the aging boat fleet which is crucial to performing water safety enforcement, Boats for Law Enforcement, Search & Rescue and Resource Protection (2.2 million).

The balance (4.43 million) of General Revenue Funding was allocated in Law Enforcement's budget with a corresponding method of finance swap out of Game, Fish and Water Safety Account. The Game, Fish and Water Safety Account funding was then allocated to Capital Construction to address Fund 9 construction/repair needs for Coastal Fisheries, Inland Fisheries, Law Enforcement and Wildlife divisions. These Fund 9 divisions require well-maintained facilities to carry out TPWD's mission and goals of making reliable science-based conservation and management decisions, providing hunting and fishing opportunities and other conservation and safety enforcement priorities.

Project Description for the 2020-21 Biennium:

Rider 37-Local Parks pass-through grants.

Project Description and Allocation Purpose for the 2022-23 Biennium:

Local Parks provide invaluable outdoor recreational and educational opportunities and offer positive economic impacts to communities around the state; increase of competitive pass-through grants, partial funding for 2-2-2 (6.1 million).

The Law Enforcement Division operates 24-7 to respond to all hazard and emergency situations. Currently, the agency has one functional helicopter and functional fixed wing, which are accruing hours rapidly and approaching end of life. A helicopter will greatly extend the life expectancy of the agency's rotor wing platforms and vastly improve response to all hazard life-saving situations; Law Enforcement Helicopter (5.8 million).

The Law Enforcement Division maintains the current fleet at a 110,000-mile replacement schedule; Game Warden Patrol Vehicles, partial funding (100k).

Project Description for the 2020-21 Biennium:

CAPPS Financials

Project Description and Allocation Purpose for the 2022-23 Blennlum:

In September 2020, TPWD transitioned to CAPPS Financials and is the 1st agency to utilize the Project Costing Module and link CAPPS HR with CAPPS FIN. Retaining key CAPPS personnel is vital to ensuring this new process is successful, addressing impacts of the new system on Purchasing and Accounts Payable functions and providing Information Technology support/maintenance for CAPPS file transfer/data extracts, data structure and other CAPPS related IT needs; Ongoing CAPPS Financials (2.4 million).

SUMMARY OF SPECIAL CONCERNS/ISSUES

Assumptions and Methodology:

TPWD's major sources of federal funding continue to be 15.605 (Sportfish), 15.611 (Wildlife Restoration), and 97.012 (Boating Safety). Sportfish and Wildlife Restoration is apportioned to each state by the U.S. Fish and Wildlife Service, while Boating Safety is apportioned by the U.S. Coast Guard.

Potential Loss:

Wildlife Restoration, funded in part by an excise tax on firearms is experiencing a short-term spike although it is not expected to last long-term. TPWD remains committed to pursuing federal funding opportunities that will further the agency's mission of managing and conserving our natural resources and providing hunting, fishing, and outdoor recreational opportunities for the citizens of Texas.

REVENUE ASSUMPTIONS:

Unless otherwise noted, FY20 revenues are based on actual revenue collections through August 2020 and FY21-23 estimates are based on historic averages/trends. Specific methodology on selected comp objects is shown below.

Game/Fish/Equip Fees - Non Commercial (3434) FY21-23 based on historical levels and assume 10 year average growth of 1.2%.

Game/Fish/Equip Fees-Commercial (3435) FY21-23 based on FY18/19 average.

Game, Fish, Water & Parks Violation (3449) FY21-23 based on FY19/20 average.

Wildlife Management Permits (3452) FY21-23 based on FY19/20 average adjusted to include MLDP estimates per SB 733.

Motorboat Registration Fees (3455) FY21-23 based on FY19/20 average.

Vessel/Motor Titles (3456) FY21-23 based on FY19 levels.

Grants/Donations (3740) FY21-23 based on FY20 actuals.

Third Party Reimbursements (3802) FY20 adjusted to reflect reimbursement for AY20 budgeted projects. FY21-23 based on adjusted 3 year average.

Interest (3851) FY21-23 based on FY20 trends.

Comp object 3972 for FY19 and FY20 reflects actual return of unspent balances from Fund 5166 - Deferred Maintenance Acct.

*These revenue estimates assume a gradual return to pre-pandemic levels in key revenue categories and that COVID-19 impacts will be largely eliminated by FY2022. However, if COVID conditions persist, the impacts to revenue streams will need to be re-evaluated for FY2021-2023.

Automated Budget and Evaluation System of Texas (ABEST)

Agency Code: 802 Agency name: Parks and Wildlife Department

FUND/ACCOUNT Act 2019 Exp 2020 Est 2021 Est 2022 Est 2023

Unless otherwise noted, FY20 revenues are based on actual revenue collections through August 2020 and FY21-23 estimates are based on historic averages/trends.

Gas Royalties (3324) FY21 estimated based on recent trends seen in this comp object. FY22/23 assumes a 5 year average.

State Parks Fees (3461) FY21 estimates account for expected gradual rebound from FY20 levels, which were impacted by COVID-19 park closures and visitation restrictions. FY22/23 assumes FY19 levels adjusted for transfer of Battleship and other historic sites.

Judgements and Settlements (3714) FY21 reflects Bastrop fire settlement.

Grants/Donations (3740) FY21 estimated based on FY20 actuals plus projected DMV donations. FY22/23 assumes FY21 levels.

Third Party Reimbursement (3802) FY20 includes \$9M associated with Galveston Island (BP) UB. FY21 estimated based on a 4 year average plus \$9.2 for Bastrop fire settlement. FY22/23 assumes FY21 levels less Bastrop.

Credit Card Fees (3879) FY21-23 assumes FY20 levels.

Sporting Goods Sales Tax (3924) estimates are based on expended/budgeted amounts and estimated benefits.

Comp object 3972 for FY19 and FY20 reflects actual return of unspent balances from Fund 5166 - Deferred Maintenance Acct.

*These revenue estimates assume a gradual return to pre-pandemic levels in key revenue categories and that COVID-19 impacts will be largely eliminated by FY2022. However, if COVID conditions persist, the impacts to revenue streams will need to be re-evaluated for FY2021-2023.

*The ending FY2023 balance in Afund 64 reflects a 58% increase as compared to the beginning FY2022. This is due to a reduction in projected expenses in FY2023.

USE OF HOMELAND SECURITY FUNDS

Homeland Security information presented in the schedule are contained within strategies C.1.1., C.1.2., and C.1.3. and funded from state appropriations and federal funds. TPWD Game Wardens are often called upon to assist in disaster response, border operations, and homeland security efforts because of their special equipment, training, and knowledge/skills.

Estimated Revenues FY2023	\$	11,549	
FY2022-23 Tota	1 \$	696,232	

Constitutional or Statutory Creation and Use of Funds:

The State Parks Endowment Trust Account (0885) was created as a trust fund by Parks and Wildlife Code, 13.004, 13.008 and Texas Attorney General Opinions No. WW-122, MW-493. This fund receives deposits of and income from permanent endowments held by the Texas Parks and Wildlife Department in trust for the sole purpose of benefiting parks as identified by the grantor. The principal is to be invested to provide permanent interest income in support of the specified park(s).

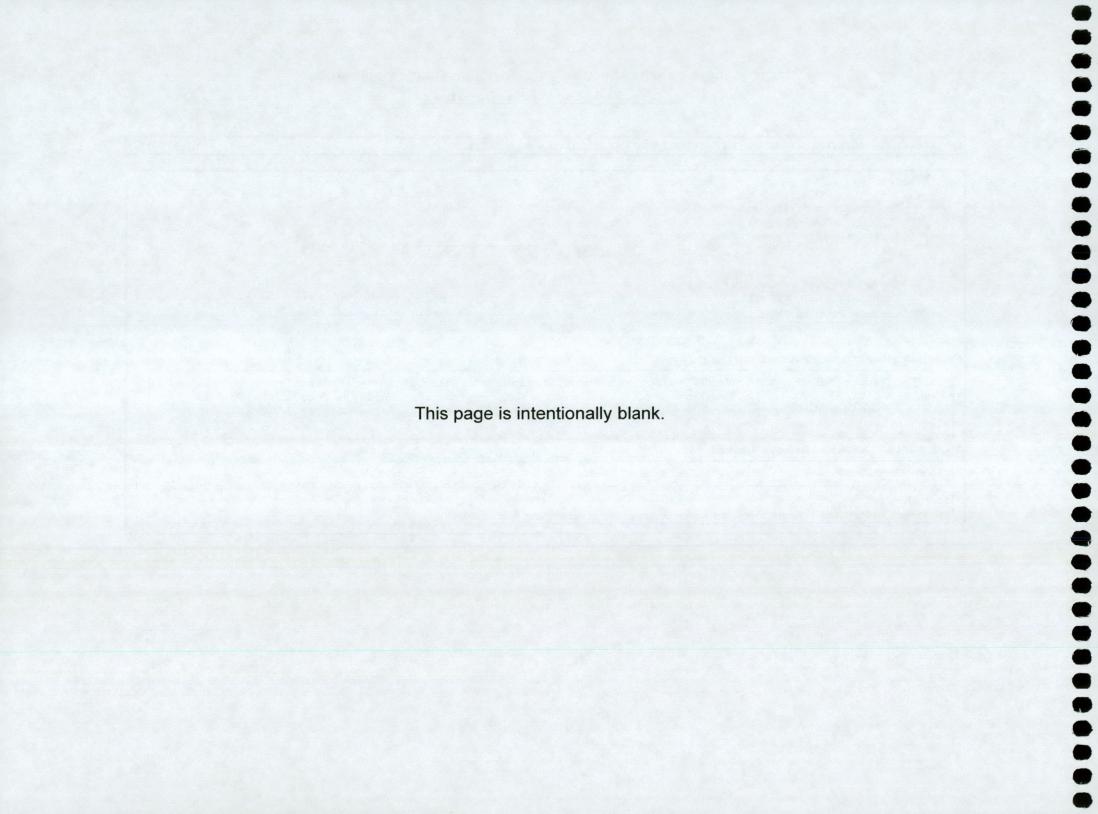

Method of Calculation and Revenue Assumptions:

Source Data: USAS

Method of Calculation: Revenues reflect depository interest earned and were derived by extrapolating YTD data through 05/31/20 to estimate the current

year revenue.

Assumptions: Revenues in future years are assumed to equal revenues anticipated in FY2020.

Expanded or New Initiative: 1. Managed Lands Deer Program Participation Fee

Legal Authority for Item:

Subchapter Y, Chapter 43 Parks and Wildlife Code, as added by S.B. 733 (86th Regular Session)

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

S.B. 733 authorized the Parks and Wildlife Commission to impose a fee for participating in the Managed Lands Deer Program, requiring the Commission to adopt rules to implement the program, and directing that any fees collected be deposited to the credit of the Game, Fish and Water Safety Account. In January 2020, the Parks and Wildlife Commission adopted rules that instituted fee amounts ranging from \$30 to \$300 for participation in the MLD Program dependent upon the level of enrollment voluntarily selected by the participant. The anticipated "go-live" date for fee implementation is April 2021. Based on the adopted fee levels, timing of fee implementation, and enrollment periods for the two options, TPWD anticipates collecting approximately \$600,000 in FY2021 and \$1,613,910 in each year thereafter.

Estimated costs for FY2021 reflect amounts needed to ramp-up the program to full capacity, including costs for salary for program staff, computers/peripherals and vehicles, as well as IT related expenses for enhancements to the existing Land Management Assistance (LMA) System to allow collection of fees through that system.

Costs shown for FY2022 & FY2023 reflect planned uses of estimated revenues to enhance technical guidance services by allowing biologists to spend more time with program participants and minimize declines in program service that have occurred over the years due to a steady increase in program participation with no corresponding increase in staff capacity.

TPWD plans to fund salaries and associated costs for approximately 20 additional technical guidance/MLDP staff with these funds by the end of 2023, however additional FTE are not reflected in the FTE section below as these will be addressed within TPWD's existing FTE cap.

Note cost amounts reported here are also shown in the related rider, and already reflected in TPWD's base authority; and associated revenues are reflected in revenue schedules.

Expanded or New Initiative: 2. Cultivated Oyster Mariculture Program

Legal Authority for Item:

Chapter 75, Parks and Wildlife Code, as added by H.B. 1300 (86th Regular Session)

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

H.B. 1300 establishes a new cultivated oyster mariculture program and cultivated oyster mariculture permit. Twenty percent of related fees are to be deposited to the cultivated oyster mariculture cleanup subaccount, with remaining amounts deposited to the Game, Fish & Water Safety Account.

The Commission adopted new rules concerning Cultivated Oyster Mariculture in May, 2020. As adopted, the Texas Cultivated Oyster Mariculture (COM) Program will provide three levels of participation in this new fishery:

- Oyster Grow-Out growing oysters in containers (bags, cages, etc.) to a harvestable size within permitted sites on public water; annual permit fee is \$450 per acre per year;
- Oyster Nursery an intermediate step to grow oysters taken directly from a hatchery and holding until they reach approximately 1-inch before moving to a grow-out operation; annual permit fee is \$170 per year plus \$0.01 per square foot per year if located on public waters and;
- · Hatchery produces oyster seed in a land-based facility that are then sold to either nursery or grow-out facilities;
- Broodstock Permit fee is \$25 and allows collection of live oysters from public reefs for use in hatchery operations; valid for 60 days.

Fees are structured to cover TPWD costs for annual inspections of each facility as required by the FDA. TPWD anticipates \$36,200 in revenue in the first year of the program (FY2021) and \$24,200 in each year thereafter. Costs shown reflect anticipated use of the estimated balances and fee revenue to conduct annual facility inspections starting in FY2022, and to address clean-up of illegal/ abandoned oyster cultivation equipment in the event that TPWD is unable to identify the responsible party associated with lost/ abandoned equipment. These amounts are reflected in the related rider for this program; costs are already reflected in TPWD's base & related revenues are reflected in revenue schedules.

Expanded or New Initiative: 3. Automatic Appropriation of Sporting Goods Sales Tax

Legal Authority for Item:

Article VIII, Texas Constitution, Section 7-d, as added by S.J.R 24 (86th Regular Session); Section 151.801(d), Tax Code and various sections of Parks and Wildlife Code as amended by S.B.26 (86th Regular Session)

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

S.J.R. 24 and S.B.26 allow for automatic appropriation of SGST to the Texas Parks and Wildlife Department (TPWD) and the Texas Historical Commission (THC) effective starting 9/1/21 (FY2022).

Based on legislative changes enacted by the 86th Legislature via H.B. 1422, the amount to be appropriated to TPWD is 93% of total SGST, while 7% is directed to THC. S.B. 26 specifies that the Legislature, via the General Appropriations Act, will determine the purposes and TPWD accounts to which the SGST amounts will be directed.

While in general, these changes are expected to result in positive budgetary impacts to TPWD over time, the exact nature of the impacts for FY2022-2023 is unknown given the COVID-19 pandemic and associated declines in state tax revenues. Ultimately, the specific budgetary/financial impacts for the FY2022-2023 biennium is contingent upon release of the Comptroller's Biennial revenue estimate in January of 2021. For the purpose of this LAR submission, TPWD has assumed continued SGST funding at 100% of FY2020-2021 levels. The specifics of how TPWD would like to spend these amounts has been outlined in the proposed SGST-Informational Rider elsewhere in this LAR, and final amounts and allocations will be determined by the Legislature after issuance of the BRE and during budget deliberations.

Expanded or New Initiative: 4. Supplemental Appropriations - Battleship "Texas"

Legal Authority for Item:

Section 69 (a) (1), Senate Bill 500 (86th Regular Session)

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

S.B. 500 (Supplemental Appropriations Bill), Section 69 (a) (1) appropriated \$35 million to TPWD from the Economic Stabilization Fund for the Battleship "Texas" contingent on passage of S.B. 1511. The appropriation is for the two-year period beginning on the effective date of the Act (6/6/19).

The full \$35 million was encumbered in FY2019. Actual expenses have been and will continue to be incurred as bills are received from the Battleship Texas Foundation.

Based on various issues surrounding the project, as of August 2020 it is estimated that 12% (\$4.35 million) will be disbursed in FY2020, 73% (\$25.4 million) will be disbursed in FY2021, and 15% (\$5.25 million) will be disbursed in FY2022. Amounts are associated with Strategy D.1.1. Improvements and Major Repairs, LBB 4000-Grants.

Note that the timeline for expenditures is on a Fiscal Year basis (not Appropriation Year).

Expanded or New Initiative: 8. Supplemental Appropriations - Wyler Aerial Tramway

Legal Authority for Item:

Section 72, Senate Bill 500 (86th Regular Session)

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

S.B. 500 (Supplemental Appropriations Bill), Section 72 appropriated \$5,000,000 to TPWD from the Economic Stabilization Fund for overhaul and necessary construction related to the Wyler Aerial Tramway and the related tramway system. The appropriation is for the two-year period beginning on the effective date of the Act (6/6/19).

* Per LBB request, the narrative information below reflects TPWD's best estimate of when this funding will actually be expended. Due to issues with ABEST closing edits, the amounts are not reflected in the strategy OOE/MOF fields for these schedules.*

Based on the February 2020 feasibility study, TPWD estimates that about 5% of the total funding (\$250,0000) will be expended in FY2021 for preliminary design/programming efforts. After preliminary design/programming, the Department plans to move forward with a strategy to encumber the remaining 95% (\$4.75 million) with the Camino Real Regional Mobility Authority (CRRMA) in FY2021 for the final design and construction of an initial phase of the Tramway redevelopment. The funds will be expended by June of FY2023. Amounts will be reflected in Strategy D.1.1., Improvements and Major Repairs, LBB 5000-Capital Expenditures.

Note that this timeline of expenditures is on a Fiscal Year basis (not Appropriation Year). Also note that based upon the February 2020 feasibility study, a complete overhaul and repair of the Tramway will substantially exceed \$5 million.

9. Transfer of Historic Sites to the Texas Historical Commission

Legal Authority for Item:

Section 16, H.B. 1422 (86th Regular Session), and 2020-21 GAA, Article IX, Sec. 18.97. Contingency House Bill 1422

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

H.B.1422 directed the transfer of six historic sites from the TPWD to the THC by September 1, 2019. Sites transferred on that date were: Fanthorp Inn, Lipantitlan, Monument Hill and Kreische Brewery, Port Isabel Lighthouse, San Jacinto Battleground, and Washington-on-the-Brazos.

Article IX, Sec. 18.97 of the 2020-21 GAA reduced appropriations to TPWD tied to the transfer of these sites, and increased appropriations to THC in an equal amount. The amountsidentified below are based on the appropriation changes reflected in the Article IX, Sec. 18.97. Note that while the original agency fiscal note estimates prepared during session identified greater cost savings tied to the transfer of the sites, it is understood that there will be no net savings over and above the GAA identified appropriation reductions, as other savings tied to transferred sites, if any, will be directed to operation of existing/remaining park operations.

Expanded or New Initiative:

10. Transfer Operation and Maintenance of Battleship "Texas" to Appropriate

Non-Profit Foundation

Legal Authority for Item:

Section 22.261 and 22.262 of Parks and Wildlife Code, as amended/added by S.B. 1511 (86th Regular Session); and 2020-21 GAA, Article IX, Sec. 18.58. Contingency for Senate Bill 1511

Description/Key Assumptions (including start up/implementation costs and ongoing costs):

S.B. 1511 directed the Department to enter into a memorandum of understanding for a term of 99 years with an appropriate non-profit foundation for the operation and maintenance of the Battleship "Texas".

Article IX, Sec. 18.58: Contingency for Senate Bill 1511, identified the amounts included in TPWD's bill pattern funding for operation (\$1.3M per year) and emergency repairs (\$700K per year) related to the Battleship "Texas" for the 2020-21 biennium, and directed the Department to transfer any unencumbered and unspent balances of these amounts to the non- profit foundation effective on the date upon which the foundation assumed operational responsibility, subject to LBB review and approval of the Battleship TEXAS restoration plan.

TPWD finalized the agreement regarding operations with the Battleship Texas Foundation on August 2019, and secured LBB approval of the restoration plan in July 2020. Per guidance from the LBB, the figures in the OOE/MOF fields of this schedule reflect the amounts that have been/will be transferred to the Foundation per Article IX (with an operations transfer effective August 2020) as well as amounts expended by TPWD on the Battleship Texas prior to the transfer. In July of 2020, TPWD transferred FY2020 unencumbered/unspent balances totaling \$1,312,470 to the Battleship Texas Foundation. TPWD anticipates transferring the full amount of the FY2021 appropriation (\$2.0M) in early fall 2020. These amounts are reflected in LBB Object 4000 (Grants) below.

Note that amounts referenced were included in TPWD's 2020-21 appropriations. Amounts are not reflected for FY2022-23, as the understanding is that the Foundation will utilize fee revenue collections to address operational costs. Amounts are shown on an FY basis.

Total Estimated Paper Volume Reduced		

Description:

The Texas Parks and Wildlife Department is unable to quantify agency-wide savings or total paper volume reduced for FY2020 and FY2021 at this time, as tracking/monitoring at this level of detail has not historically been in place or required, and efforts to ensure better tracking of this information for the FY2022-23 LAR were delayed due to the current pandemic.

However, the Department continues to be committed to employing efficient, sustainable and sound business practices, including those related to ensuring documents are produced in an efficient and cost effective manner. The following Land and Water Resources Conservation and Recreation Plan action items reflect this commitment:

- Goal E- TPWD will develop effective communication processes and tools
 - o Review all agency communication strategies in order to maximize efficiencies and minimize duplicative efforts
 - o Ensure that staff has increased electronic access to resources, applications, services
- · Goal F- TPWD will efficiently manage its lands and facilities for sustainable public use
 - o Adopt best practices to increase recycling and reduce use of utilities, fuel, and consumables

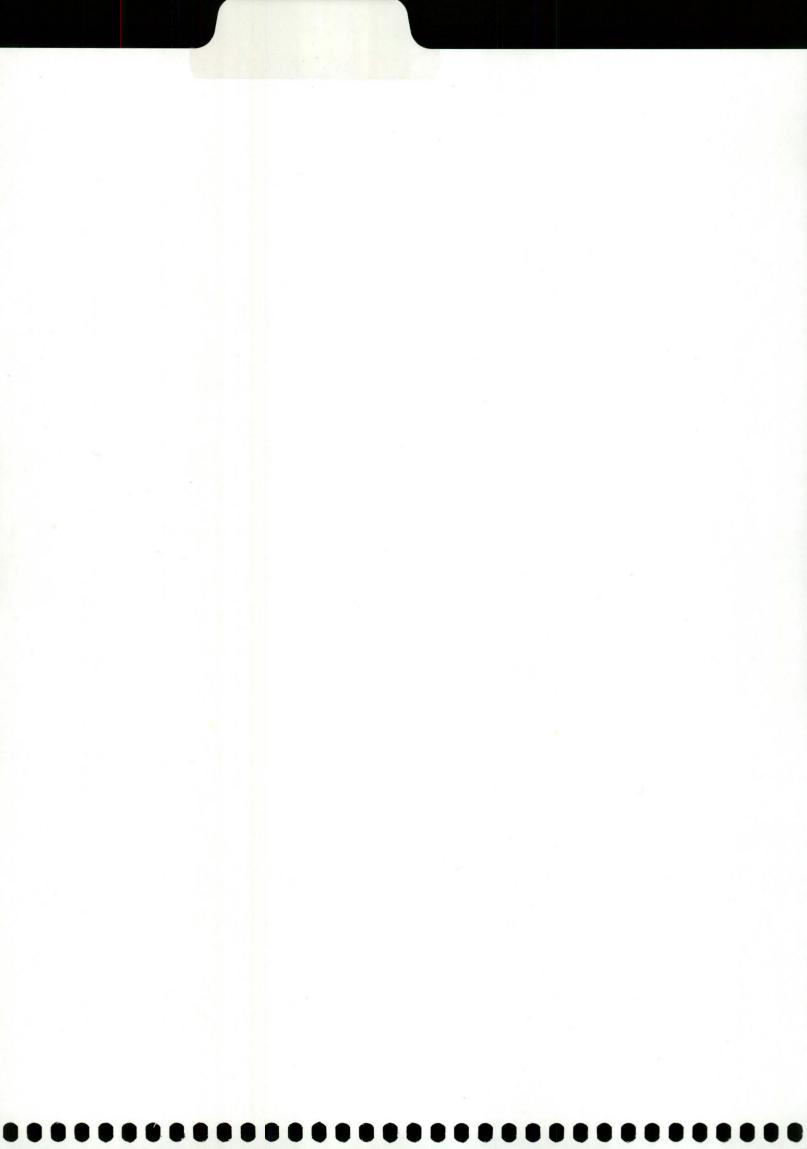

In support of these goals and action items, over the years TPWD has implemented a number of changes to transition documents and processes to electronic format and systems, resulting in a decreased volume of printed copies of reports, documents and other information.

Document printing is largely decentralized within the agency. In order to maintain confidentiality many staff utilize small printer equipment rather than a large central copy machines. While this poses challenges to implementing agency-wide print controls such as default two-sided printing, TPWD routinely encourages staff to save paper by printing two-sided or not printing at all when possible.

Additionally, TPWD has taken steps to improve the ability to track and report on document productions savings and usage statistics in the future. In early 2020, TPWD completed gathering data from each division regarding document printing expenses. Based on the data collected, it is estimated that TPWD spent approximately \$726,000 on document production in FY2019. Due to the current pandemic, several TPWD offices, including Austin HQ, closed in March 2020 and have not fully re-opened. The drastic shift in daily operations has caused a significant increase in our use of electronic documentation and subsequent decrease in print documentation.

Prior to the closing of offices, TPWD had been in discussion with vendors to evaluate the cost of printer consolidation in the main Austin HQ facility. Printer consolidation offers an opportunity to control printer default settings on a broader scale, allows password protected secure printing, and may help reduce agency energy use by lowering the amount of equipment operating in the building. Although assessments were delayed due to the pandemic, TPWD has recently begun to re-schedule printer consolidation evaluations and will be meeting with a vendor in early September 2020 to consider their services. The agency would like to evaluate the existing (FY2019) cost of document printing in comparison with a contracted service to determine the costs and benefits of switching systems.
