Message From the TMB President: COVID-19 Response

Zaafran

The past months have been incredibly challenging for countless individuals across the entire globe. These unprecedented times have demanded much from the public, our patients, and fellow health care workers alike. COVID-19 has also required all of us to adapt quickly to an ever-

evolving situation.

Eight weeks ago, when Governor Abbott issued his emergency declaration, the Texas Medical Board acted swiftly to identify, seek approval for, and implement procedures to help our licensees respond to the COVID-19 public health emergency. In less than 24 hours after Governor Abbott’s emergency declaration, waivers had been approved expanding the use of telemedicine, disaster licensing procedures had been implemented to aid the health care workforce, and deadlines for license renewal and completion of continuing education hours were immediately extended for our licensees.

In the weeks since, further relief was granted for chronic pain patients to continue needed treatment, to applicants seeking licensure to enter the state’s health care workforce, and physicians were given greater practice flexibility for supervising and delegating to medical residents and other health care workers during the COVID-19 response. The Board also worked with the Governor’s Office to help licensees navigate several mandated orders. These are just a few highlights of the Board’s ongoing work during the pandemic.

For the latest updates from the Board related to COVID-19, we encourage licensees to continue visiting the

Board’s COVID-19 response page (tmb.state.tx.us/page/coronavirus) and sign-up for agency communications e-mails (tmb.state.tx.us/page/join-our-email-list).

Of note, I know fellow colleagues are facing increased stress and other issues during these challenging times. We recently shared some [resources](#) we found that may be helpful. In addition to visiting the Board’s page for updates, please also continue visiting reliable state and federal sources for the latest health guidelines and recommendations – [Texas Department of State Health Services](#) and the [Centers for Disease Control and Prevention](#).

As we move forward in these next weeks and months ahead, the Board will continue working to help the public and those we license in fulfilling the Board’s mission of protecting the health and safety of the people of Texas.

Everyone, please be safe and stay healthy.

Dr. Sherif Zaafran, M.D., FASA

QUALITY OF CARE

Blackwell, Michael Lee, M.D., Lic. No. J3695, Tomball

On March 6, 2020, the Board and Michael Lee Blackwell, M.D., entered into an Agreed Order on Formal Filing requiring him to within one year complete the medical recordkeeping course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least eight hours of CME in post-operative exams and recognizing complications. The Board found Dr. Blackwell did not adequately document his physical exam findings post-operatively and did not note any findings which would indicate a surgical complication. The order resolves a formal complaint filed at the State Office of Administrative Hearings.

Contreras, Christine Ann, M.D., Lic. No. N8176, San Antonio

On March 6, 2020, the Board and Christine Ann Contreras, M.D., entered into an Agreed Order requiring her to have her practice monitored by another physician for eight consecutive monitoring cycles; within one year complete the medical recordkeeping course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least eight hours of in-person CME, divided as follows: four hours in risk management and four hours in prescribing. The Board found Dr. Contreras prescribed to a patient she should have known was using illicit drugs, did not document her rationale for continuing to prescribe, instead relying on the patient's denials. There were no clinic visits documented for another patient for eight months that Dr. Contreras was treating with controlled substances.

Donohue, Thomas A., M.D., Lic. No. P0040, Woodville

On March 6, 2020, the Board and Thomas A. Donohue, M.D., entered into an Agreed Order prohibiting him from engaging in any practice of surgery, with the exception of suturing minor lacerations. The Board found Dr. Donohue failed to recognize and appropriately treat post-operative complications following an aortic valve replacement procedure for one patient. With regard to a second patient, Dr. Donohue offered surgery even though the patient was not a good candidate for surgery and suffered complications.

Dozier, Norman Jay, M.D., Lic. No. G3306, Abilene

On March 6, 2020, the Board and Norman Jay Dozier, M.D., entered into an Agreed Order requiring him to within one year complete the medical recordkeeping course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least eight hours of CME, divided as follows: four hours in ethics/risk management and four hours in recognizing and treating complications of spinal blocks. The Board found Dr. Dozier failed to appropriately evaluate and treat a patient after complications from a lumbar regional block, failed to document consents for procedures, rationale, and efficacy of treatments and medical therapy for 10 chronic pain patients, and failed to properly monitor the patients during their treatment.

Eneli, Kenekukwu Onyechi, M.D., Lic. No. N4399, Columbus

On March 6, 2020, the Board and Kenekukwu Onyechi Eneli, M.D., entered into an Agreed Order requiring him to within one year complete at least 16 hours of CME, divid-

ed as follows: eight hours in risk management and eight hours in pediatric emergencies. The Board found Dr. Eneli failed to treat a pediatric patient according to the generally accepted standard of care by sending the patient home instead of admitting the patient for observation.

Flores, Michael Dee, M.D., Lic. No. L2888, Hereford

On March 6, 2020, the Board and Michael Dee Flores, M.D., entered into an Agreed Order publicly reprimanding Dr. Flores and requiring him to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year complete at least 16 hours of CME in acute respiratory illness, to include diagnosis and treatment of pneumonia; and within 60 days pay an administrative penalty of \$5,000. The Board found Dr. Flores should have recognized the signs of hypoxia in a patient, which were obvious and which had been previously documented. Dr. Flores should have sent the patient to the hospital for inpatient treatment.

Inbody, Steven Bryce, M.D., Lic. No. G7443, Houston

On March 6, 2020, the Board and Steven Bryce Inbody, M.D., entered into an Agreed Order on Formal Filing under the following terms until the criminal charges pending against him are finally resolved: publicly reprimanded; shall not possess, prescribe, or distribute controlled substances in Texas; may not engage in the treatment of chronic pain; and shall not be permitted to supervise or delegate prescriptive authority to a physician assistant or advanced practice nurse or supervise a surgical assistant. The Board found Dr. Inbody failed to properly treat a chronic pain patient in compliance with Board rules. Prior to the case proceeding to a hearing at the State Office of Administrative Hearings (SOAH), Dr. Inbody was indicted and arrested for unrelated charges. As a result, his license was temporarily suspended. The issues in the indictment involve overlapping issues of nontherapeutic prescribing. Dr. Inbody denies the charges; however, the charges are serious, and if proven true, would warrant action by the Board. The order resolves the formal complaint filed at SOAH.

Rosenthal, Jon Evan, M.D., Lic. No. M4489, Bismarck, ND

On March 6, 2020, the Board and Jon Evan Rosenthal, M.D., entered into an Agreed Order on Formal Filing requiring him to within 10 days complete the necessary license cancellation forms and submit them to the Registrations Department of the Board to be processed. Dr. Rosenthal was under investigation for violating the standard of care; however, he no longer practices in Texas and expressed his desire to cancel his Texas medical license rather than continue to contest the matter at the State

Office of Administrative Hearings. The order resolves a formal complaint filed at SOAH.

Stewart, Deshawn Kirk, M.D., Lic. No. P5007, Dallas

On March 6, 2020, the Board and Deshawn Kirk Stewart, M.D., entered into an Agreed Order requiring him to within one year and three attempts pass the Medical Jurisprudence Exam; and within one year complete at least 32 hours of CME, divided as follows: eight hours in risk management, eight hours in medical recordkeeping, eight hours in ethics and eight hours in telemedicine and law. The Board found Dr. Stewart prescribed topical pain relievers to patients he never saw nor did he maintain an adequate medical record for any of the six patients.

Stroud, Robert Lee, M.D., Lic. No. E2888, Austin

On March 6, 2020, the Board and Robert Lee Stroud, M.D., entered into an Agreed Order on Formal Filing publicly reprimanding Dr. Stroud and requiring him to within one year complete at least 21 hours of CME in the following topics: PBI Prescribing Course, Opioids, Pain Management, and Addiction; within one year and three attempts pass the Medical Jurisprudence Exam; and within 90 days pay an administrative penalty of \$5,000. The Board found Dr. Stroud failed to meet the standard of care with respect to a patient he prescribed narcotic medications to by failing to properly evaluate and monitor the patient. The order resolves a formal complaint filed at the State Office of Administrative Hearings.

Torres, Frank, M.D., Lic. No. L1483, San Benito

On March 6, 2020, the Board and Frank Torres, M.D., entered into an Agreed Order Upon Formal Filing requiring him to within one year complete at least 16 hours of CME, divided as follows: four hours in diagnosing and treating pulmonary embolisms, four hours in risk management, four hours in ethics and four hours in differential diagnosis for shortness of breath; and within one year and three attempts pass the Medical Jurisprudence Exam. The Board found Dr. Torres did not meet the standard of care with a patient who had shortness of breath. Dr. Torres failed to obtain the patient's oxygen saturation. The order resolves a formal complaint filed at the State Office of Administrative Hearings.

The Board found Dr. Bishai is currently under indictment in Montgomery County, Texas for charges related to prescribing controlled substances for other than medical purposes. The criminal case remains ongoing and the Board reserves its right to take further action against Dr. Bishai's license in the event of any additional determinations of violations of the Medical Practice Act, whether related or unrelated, to the criminal investigation referenced.

On March 6, 2020, the Board and Peter Baker Craig, M.D., entered into an Agreed Order publicly reprimanding Dr. Craig and revoking his license; however, the revocation is stayed and he is placed on probation under the following terms: publicly referred to the Texas Physician Health Program; within seven days surrender his DEA controlled substances registration certificate and not reregister without prior Board approval; and shall not be permitted to supervise or delegate prescriptive authority to a physician assistant or advanced practice nurse or supervise a surgical assistant.
