Reporting of Medical Peer Review Action

Zaafran

A serious enforcement challenge the Board faces pertains to reporting by medical peer review committees. In order to protect the public and ensure timely investigation of cases, the Board relies on required reporting from hospital organized medical staffs and related health care enti-

ties. When this reporting doesn't occur or there is a deliberate effort to circumvent reporting by allowing a resignation prior to an investigation by peer review, the Board is not able to take appropriate action on licensees leaving patients vulnerable.

In the January 2018 issue of the TMB Bulletin, [an advisory article](#) regarding the reporting of impaired physician colleagues was published. That article titled, "Duty to Report Impairment," outlines required reporting by both individual physicians and medical peer review committees as it relates to impairment.

In addition to impairment, when is reporting to the Board mandatory?

Sec. 160.002, Occupations Code (Report of Medical Peer Review) requires that peer review committees and health care entities report in writing (i.e., file a complaint) to the Medical Board the results and circumstances of a medical peer review that:

- 1) adversely affects the clinical privileges of a physician for a period of longer than 30 days;
- 2) accepts a physician's surrender of clinical privileges while the physician is under investigation or in lieu of conducting an investigation; or

3) adversely affects the membership of a physician in a professional society or association, if conducted by that society or association.

Additionally, any physician or peer review committee is required to report to the Board if, in their opinion, a physician poses a continuing threat to the public welfare through the practice of medicine. (Sec. 160.003, Report by Certain Practitioners).

It is important to remember that responsibility for reporting is the same for the peer review committee as a whole, individual committee members themselves, as well as the Medical Executive Committee of the health

care entity. So if there is a complaint regarding the failure to report, the Board's investigative analysis includes review of all persons and committees with reporting responsibility.

It is also important to note that reporting (complaint filing) is confidential by law and the statute lists the limited scenarios in which the Board may disclose a peer review record or report.

As a reminder, the Board has a wide range of actions it can take in response to peer review reporting. Several due process steps exist in statute and rule for a physician who is the subject of a Medical Board investigation.

For more information on mandated reporting, see the [January 2018 issue](#) of the TMB Bulletin as well as [Chapter 160](#) of the Texas Occupations Code (Medical Practice Act).

JUNE 2018

CHAPTER 170. PAIN MANAGEMENT

The adoption of new Subchapter B, §§170.4 - 170.8, concerning Utilization of Opioid Antagonists. With this new Subchapter B, comes the creation of Subchapter A, Pain Management, which will be the subchapter for existing §§170.1 - 170.3

New §170.4, concerning Purpose, describes the legislature's recognition of the importance of preventing opioid overdose death through the use of opioid antagonists. This section further describes the purposes of Subchapter B as establishing guidelines for the prescription of opioid antagonists, identifying individuals at risk of opioids, and clarifying liability issues for physicians who prescribe opioid antagonists with good faith and reasonable care.

New §170.5, concerning Definitions, sets the definitions for "Prescriber," "Opioid antagonist," and "Opioid-related drug overdose."

New §170.6, concerning Opioid Antagonist Prescription Guidelines, sets out the guidelines describing the individuals to whom opioid antagonists may be prescribed, as well as additional guidelines identifying individuals at risk of an opioid overdose.

New §170.7, concerning Liability for Act or Omission with Respect to Prescribing an Opioid Antagonist, makes clear prescribers acting in good faith and in accordance with the standard of care will not be subject to civil or criminal liability, or licensure disciplinary action for prescribing or failing to prescribe an opioid antagonist, or an outcome resulting from the eventual administration of a prescription of an opioid antagonist.

New §170.8, concerning Documentation, sets forth the requirement that prescribers prescribing opioid antagonists shall document the prescription in the medical record of the person at risk of an opioid overdose.

CHAPTER 172. TEMPORARY AND LIMITED LICENSE

The adoption of new §172.19, concerning Sports Team Physician Limited License, applies to out-of-state, non-Texas licensed physicians who are designated or employed as a physician for visiting athletes, athletic teams, sporting-event-related individuals participating in sporting events in Texas, and family members of such individuals. The new rule creates an exemption from Texas medical licensure requirements for visiting

team physicians who are licensed to practice medicine in the team's home state and who limit care to the team's members, coaches, staff, and family members of such individuals during sporting events held in Texas that last no longer than 21 consecutive days. The new rule also requires a limited license for sporting events that last longer than 21 consecutive days. The rule is adopted in accordance with the Sunset Advisory Commission's management direction (Staff Report, Final Results, August 2017).

CHAPTER 185. PHYSICIAN ASSISTANT

The amendments to §185.4, concerning Procedural Rules for Licensure Applicants, eliminates the requirement for applicants to have good moral character and adds language requiring applicants to submit to a criminal background check. These changes are based on the passage of SB 1625 (85th Regular Session), which amended §204.153 and §204.1525 of the Physician Assistant Licensing Act. The amendment also eliminates obsolete language referring to "surgeon assistants."

The amendment to §185.6, concerning Annual Renewal of License, changes registration of physician assistants to biennial instead of annual. The change also adds language to require applicants to submit to a criminal background check and includes new language providing that the Board may refuse to renew a license if the licensee is not in compliance with a Board Order. These changes are based on the passage of SB 1625 (85th Regular Session), which amended §§204.1525, 204.156 and 204.158 of the Physician Assistant Licensing Act.

The amendment to §185.8, concerning Inactive License, changes the reference to "annual" registration to "biennial" registration. This change is based on the passage of SB 1625(85th Regular Session), which amended §204.156 of the Physician Assistant Licensing Act.

The amendment to §185.14, concerning Physician Supervision, changes the reference to "annual" registration to "biennial" registration. This change is based on the passage of SB 1625 (85th Regular Session), which amended §204.156 of the Physician Assistant Licensing Act.

The amendment to §185.17, concerning Grounds for Denial of Licensure and for Disciplinary Action, adds language that provides the Board may refuse to renew a license if the licensee is not in compliance with a Board Order. This change is based on the passage of SB 1625 (85th Regular Session), which amended §204.158 of the Physician Assistant Licensing Act.

Board Rules, Cont.

The amendment to **§185.31**, concerning Prescriptive Authority Agreements: Minimum Requirements, deletes language requiring face to face meetings as part of quality assurance and improvement plans. These changes are based on the passage of SB 1625 (85th Regular Session), which amended §157.0512 of the Medical Practice Act.

CHAPTER 187. PROCEDURAL RULES

The amendment to **§187.78**, concerning Written Response, removes the undefined term "informal meeting" and replaces it with "ISC," which is defined in §187.2 of this chapter (relating to Definitions).

CHAPTER 190. DISCIPLINARY GUIDELINES

The amendments to **§190.8(6)(B)**, concerning Violation Guidelines, amends the rule to clarify that the Board will consider a misdemeanor to be a misdemeanor of moral turpitude if that type of misdemeanor has been found by a Texas Court to be a misdemeanor of moral turpitude. The rule also eliminates the word "deliberate" from the phrase "deliberate violence."

The amendments to **§190.14**, concerning Disciplinary Sanction Guidelines, revises the chart to ensure that references to violations under Texas Occupation Code §164.053(a)(6) are referenced in the same section with violations under §164.053(a)(5).

CHAPTER 198. STANDARDS FOR USE OF INVESTIGATIONAL AGENTS

The adoption of amendments to **§§198.1 - 198.4** and new **§198.5** and **§198.6**, concerning Standards for Use of Investigational Agents, amends Chapter 198 by dividing Chapter 198 into two separate subchapters, and adding Subchapter A, "Standards for Use of Investigational Drugs, Biological Products, or Devices" in an effort to distinguish the applicability of the provisions contained in Subchapter A and those provisions contained in new Subchapter B. Subchapter A contains amendments to §§198.1 - 198.4.

The amendment to **§198.1**, concerning Purpose, removes the word "agents" and replaces it with the terms "drugs, biological products, or devices" in order to align with statutory language contained in Health and Safety Code Chapter 489. It also includes new language to distinguish the applicability of Subchapter A and to differentiate Subchapter B.

The amendment to **§198.2**, concerning Definitions, removes the definition of "investigational agent" and defines the terms "drugs, biological products, or devices" and "terminal illness." These changes are consistent with the definitions and terms used in the Texas Health and Safety Code Chapter 489. The changes also include limiting language to clarify that such definitions are not applicable to Subchapter B.

The amendments to **§198.3**, concerning Practice Guidelines for the Use of Investigational Agents, removes the term "agent" throughout the section and includes the terms "drugs, biological products, or devices" in line with statutory language contained in Health and Safety Code, Chapter 489.

The amendments to **§198.4**, concerning Use of Investigational Agents for Patients with Terminal Illnesses, changes the title of this section by removing the term "agent" and replacing it with the terms "drugs, biological products, or devices" in order to correspond with statutory terms in Chapter 489 of the Texas Health and Safety Code. The remainder of this section is deleted, as it is contained in Chapter 489 of the Health and Safety Code.

New **Subchapter B, "Investigational Stem Cell Treatments for Patients With Certain Severe Chronic Diseases or Terminal Illnesses"** to distinguish the provisions contained therein with those provisions contained in Subchapter A. Subchapter B, contains new §198.5 and §198.6.

New **§198.5**, concerning Use of Investigational Stem Cell Treatments for Patients with Certain Severe Chronic Diseases or Terminal Illnesses, implements the requirements of House Bill 810, 85th Leg. R.S. (2017) which establishes the regulation of investigational stem cell treatments in Texas as set forth in Chapter 1003 of the Texas Health and Safety Code.

New **§198.6**, concerning Process and Procedures for IRBs Engaged in the Use of Investigational Stem Cell Treatments for Patients with Certain Severe Chronic Diseases or Terminal Illnesses, implements the requirements of House Bill 810, 85th Leg. R.S. (2017) which establishes the regulation of investigational stem cell treatments in Texas through statutory changes in Chapter 1003 of the Texas Health and Safety Code.

ALERT - Scam Targeting DEA Registrants

The U.S. Drug Enforcement Administration (DEA) reports that physicians, pharmacies and the public have been targeted by criminals posing as DEA agents. The DEA has issued notices to registrants and has provided the following advisory information:

The criminals mask their telephone number on caller ID by showing the DEA Registration Support 800 number.

Please be aware that a DEA employee would not contact a registrant and demand money or threaten to suspend a registrant's DEA registration.

If you are contacted by a person purporting to work for DEA and seeking money or threatening to suspend your DEA registration, submit the information on the DEA Diversion Control Division website www.DEADiversion.usdoj.gov and select the link for "[Extortion Scam Online Reporting](#)."

For more information, contact your local DEA Field Office, which may be found at <https://apps.deadiversion.usdoj.gov/contactDea/spring/fullSearch>. You may also contact the Registration Service Center: 1-800-882-9539 or DEA.Registration.Help@usdoj.gov.
