Update on 78th Legislative Session's Impact on TMB

Senate Bill 104, passed unanimously by both the Texas House of Representative and the Senate, will strengthen regulation of the practice of medicine in Texas. The bill, effective September 1, was introduced by Sen. Jane Nelson (R-Flower Mound) and sponsored in the House by Rep. Ray Allen (R-Grand Prairie).

The legislation encompasses both licensure and enforcement and adds new reporting requirements. Provisions include the following:

- **Licensure:** Major issues are the biennial registration process, a new \$80 license surcharge and many minor changes involving rules and processes.
- **Physician Profile:** The physician profile is expanded to include a description of settled/paid malpractice claims and removes all 10-year limits on reporting criminal and disciplinary history. The profile format must make information easily available to the public.
- **Enforcement:** Major issues are implementation of the expert panel for standard of care cases, adoption of a schedule of disciplinary sanctions, new temporary restriction/suspension provisions, a 180-day deadline to schedule informal settlement conferences, and changes to reporting and investigations regarding medical malpractice claims. There are numerous changes to rules and processes regarding investigations and complaints.
- **Reporting requirements:** The statute adds a new report of investigations pending over one year old and a statistical report of all complaints by category and dispositions. TMB will no longer be required to report all open complaints to health care entities and will now report only those pending complaints assigned for legal action. The Texas Workers Compensation Commission is required to report physician offenses to TMB.
- **Malpractice reporting:** The current requirement for an insurer to provide TMB all "notice of claim letters" is revised to require only reports of settlements and expert witness reports filed. TMB will be required to investigate the medical competency of physicians against whom three or more expert reports have been filed in three separate lawsuits within five years.

With passage of SB 104, TMB was also appropriated \$6,522,730 for enforcement for the biennium and an additional 20 staff positions. You may access the full text of SB 104 by at www.capitol.state.tx.us . After Governor

Rick Perry signed the bill on June 10, Board President Lee S. Anderson, M.D., said, "We are now ready to move forward with new language, new funding and new resolve."

Former Board Member Suzanne Ahn, M.D., Dies

Condolences to the family and friends of Suzanne Insook Ahn, who died June 22 at 51. She is survived by her husband, Dr. Steven Hays, son Foster Hays, and daughter Kimberly Hays. A neurologist, she graduated from U.S. Southwestern Medical School in Dallas in 1977. Dr. Ahn served on the Texas State Board of Medical Examiners from 1983 until 1989.

Free Brochures Available on Osteoporosis

Osteoporosis impacts the health of thousands of American women. Its prevention is an important goal for women and their health care providers. A woman plays a significant role in successful prevention through her daily decisions about nutrition and physical activity.

Salud En Accion Makes Online Debut

A new Hispanic health resource is available online with the debut of the Salud En Accion: National Hispanic/Latino Health Communication Research web site. The new site, under the Chronic Disease Prevention and Control Research Center at Baylor College of Medicine, can be found at www.saludenaccion.org

The site offers comprehensive information about the Hispanic/Latino health communication research activities that the Center has been engaged in for several years under the leadership of Amelie G. Ramirez, DrPH. Featured on the Salud En Accion web site are "fact sheets" describing 13 current and three past research initiatives, as well as historical data and publications that are available in video, audio and print media format. The projects are categorized under breast cancer, community-based, genetics education/clinical trials recruitment, and tobacco prevention and control. Among the current initiatives is Redes En Accion: The National Hispanic/Latino Cancer Network.
