Dear Sister Lottie

Just sent my  
pistol up to Columbia by GW Made  
to be handed to the Conductor of  
the Bozonia Road byt he must  
have taken it home with him  
as it has not come to hand -  
please send to him for it and  
send it in as I must have  
it before I leave, and I am  
not certain of being able to see  
you again. [[Fred?]] will be  
here on the the Cury Saturday and  
will probably expect the team  
here so that he can visit you  
on Sunday. I presume all  
the articles sent home come to  
hand by this time. If I  
do not see you again to say  
good bye beleive me that I  
earnestly desire and pray that [[crossed out]]  
you may all be shielded from all  
possible pain and enjoy as much  
hapines as it is the sting of  
humanity to enjoy him.
