Printed June, 1990

**NOTES**

N0220152 016

This report contains information for the year 1989 as well as some historical information. It is published as a two volume set.

Information on availability of this publication and other publications may be obtained from the Railroad Commission of Texas, Publication Sales, Capitol Station - P.O. Drawer 12967, Austin, Texas 78711-2967 (telephone 512-463-7255).

Please note the following explanations of terms and abbreviations used in this report.

All gas volumes reported in thousand cubic feet (MCF) at a standard base pressure of 14.65 pounds per square inch absolute and a standard base temperature of 60 degrees Fahrenheit.

All liquid volumes reported in barrels of 42 U.S. gallons.

GAS WELL GAS PRODUCTION is **WET GAS**, which includes LEASE CONDENSATE (BBL) converted to gas equivalent (MCF).

Production data includes all reports received by mid-February, 1990.

PROD WELLS EOY - Producing oil wells at end of year; consists of oil wells classed as producing (prorated, marginal, exempt, and new pool exempt) in December of production year. Oil production is reported by lease, not by individual well.

TOTAL WELLS EOY - Total oil wells at end of year; consists of all wells, except plugged wells, on record at the end of production year (includes producing, shut-in, injection, service, etc.).

PROD WELLS 1989 - Producing gas wells for production year; consists of all gas wells having production during 1989.

TOTAL WELLS 1989 - Total gas wells at end of year; consists of all wells on record at the end of 1989 (includes wells plugged during that year, as well as producing, shut-in, injection, service, etc.).

A - Associated 49(b) Field.

C - Gas cycling reservoir gross production reported.

F - One or more wells from this reservoir are producing "full well stream" to plant; hydrocarbon liquid totals may be partial.

M - Multiple County.

N - Gas production data prior to 1970 is not included in cumulative totals.

N/A - Not available
