CAPITOL STATION — P. O. DRAWER 12967

AUSTIN, TEXAS 78711-2967

The Honorable Mark White
Governor of Texas
Capitol Station
Austin, Texas 78711

Dear Governor White:

The Texas Legislature has charged the Railroad Commission with the responsibility of regulating gas utility companies in Texas. The Commission has original jurisdiction over rates, operations, and services of natural gas sales in unincorporated areas, in addition to de novo appellate review of municipal action.

The Gas Utilities Division performs the day-to-day regulatory activities on behalf of the Commission. In this Annual Report for fiscal year 1985, the Gas Utilities Division presents all information as required by law, plus pertinent 1984 data obtained from gas utilities in Texas.

The Gas Utilities Division operated on a budget of \$2,741,368 during fiscal year 1985. The Division's staff averaged 90 employees. To best fulfill its responsibilities, the division is organized into five activities: Auditing, Pipeline Safety, Hearings and Legal Analysis, Reports and Statistics, and Program Management.

The Auditing Section is charged with in-house auditing of annual reports, quarterly tax reports, and other filings required by the Commission of the approximately 300 gas utilities operating in Texas. In addition, 127 field audits were performed in fiscal year 1985 in the offices of gas utilities. The Auditing Section also collects a gross receipts tax of one-fourth of one percent of a utility's gross taxable revenue. In fiscal year 1985, \$23,651,435 was collected in gross receipts taxes. The most common violation discovered during field audits concerned the filing of tariffs and monthly purchased gas adjustments.

During the fiscal year, 2,081 safety evaluations were performed by the Pipeline Safety Section. Of this total, 1,525 systems were cited in 33,208 areas of non-compliance. The large increase in the number of violations cited as compared to fiscal year 1984 was the result of intensified efforts in the evaluation of master metered systems. A master metered system is a pipeline system for distributing gas within a mobile home park, housing project or an apartment complex, where the operator purchases metered gas from an outside source and resells it to tenants. A 1979 federal study estimated that there are approximately 40,000 master metered systems in Texas. On-site accident investigations were performed on 89 natural gas related incidents, and 119 special investigations were performed in an effort to preserve human life and prevent the destruction of property and loss of natural resources.

The Hearings and Legal Analysis Section holds hearings to gather evidence concerning gas utility applications, analyzes the evidence, and recommends disposition to the Commission. In fiscal year 1985, the section received 1,048 applications and completed 717 applications. Of the applications completed, 64% were within the Commission's original jurisdiction and included rates for unincorporated areas immediately surrounding municipalities, called "environs," pipeline to pipeline rates, pipeline to industrial rates, city gate rates, and rural burnertip rates; 14% of the cases involved appeals from city rate determinations; and 22% involved other types of cases, including safety violations, audit exceptions, jurisdictional questions, abandonment, and utility sale or merger cases. At the end of fiscal year 1985, there were 409 cases pending.

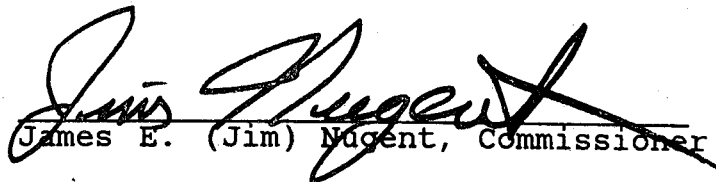

The Reports and Statistics Section gathers data from gas utilities subject to Commission regulation, conducts research, and publishes reports on matters of relevance to Commission responsibilities. This section also monitors compliance with docket orders, tariff filings, and the statewide curtailment plan. This section responded to 4,170 complaints and inquiries from the general public during fiscal year 1985. This section also serves as a centralized micrographics facility.

Program Management plans, organizes, coordinates, and controls the work of the division as a whole. It is also responsible for fiscal matters, rulemaking proceedings, statutory notices, and communication between the division and other parts of the Commission.

In accordance with TEX. REV. CIV. STAT. ANN. art 6061, (Vernon 1962), we hereby transmit the Annual Report of the Gas Utilities Division of the Railroad Commission of Texas for Fiscal Year 1985.

Respectfully submitted,

Buddy Temple, Chairman

James E. (Jim) Nugent, Commissioner

Mack Wallace, Commissioner

Carlos W. Higgins
Director

The weighted average 10 Mcf bill for residential customers in the 25 cities listed above:

January 1977 - \$23.79	January 1980 - \$30.70	January 1983 - \$54.96
January 1978 - \$24.92	January 1981 - \$36.57	January 1984 - \$53.45
January 1979 - \$28.09	January 1982 - \$44.79	January 1985 - \$54.38

The median 10 Mcf bill in January 1985 was \$53.12 (Sherman, Texas).

The above 25 cities have 1,762,642 residential customers which represent 57% of the total residential customers in the state.

During 1984, the base rate was increased in 12 of the above cities by approval of the city. Base rates did not increase in the remaining 13 cities.

Net 10 Mcf Gas Bills increased in 13 cities and decreased in 12 cities during 1984.

Wichita Falls	3,011	3,463	3,158	+15.0	+ 4.9
Mean (for 25 cities)	2,158	2,570	2,107	+19.8	- 2.4

*Degree-days measure the deviation from normal temperature by accumulating the difference between 65°F and the daily mean temperature. A mean temperature of 60° for one day would be five heating degree-days. A greater number of heating degree-days than normal indicates colder weather. Less heating degree-days than normal indicated warmer weather. These figures are on a calendar year basis. Colder periods in each heating season may fall either before or after year end.

**Normal Heating Degree-Days are based on NOAA records. The above norms are based on the 30-year period from 1951-1980.

* Net loss

Note
This report is based upon calendar year (Jan-Dec 84) records and has not been adjusted to compensate for heavy gas purchases during the cold spell in Dec 83. The problem is that purchases were booked in Dec 83 and the corresponding sales were booked in Jan 84. When unusual purchases and sales do not appear in the year they occur, the volume of gas unaccounted for (loss and gain) is distorted. To prove this point, we calculated the percentage of purchases unaccounted for using records provided by 23 of the 41 companies listed above, which represent 97% of the sales in Texas, for the period from July 83-July 84. This placed the heavy purchases and sales within the same reporting period. The result was a 2.47% loss in purchases unaccounted for.

The value of unaccounted for gas was calculated by multiplying the net volume of unaccounted for gas by the average purchase price \$/Mcf.

* The percentage of unaccounted for gas for 1984 reflects a gain. This was caused by the cold spell in Dec 83. Heavy purchases were booked in Dec 83 and the corresponding sales were booked in Jan 84. A full explanation is given on the last page of Table 2.

Note
The reporting period is July 1, 1984 - June 30, 1985. There are 87 municipally-owned systems in Texas. Brazoria, Bullard, Cotulla, Kountze, Plains, and White Deer did not report. Grey Forest Utilities is a municipally-owned system, but it is also classified as a gas utility because it makes a sale for resale to the city of Boerne and pays the RRC gross receipts tax on this sale.

WOODVILLE, CITY OF	899	169	2	1	1,071	47,593	26,170
TOTALS	401,075	28,650	521	3,218	433,468	22,315,888	12,901,255

Note

The reporting period is July 1, 1984 - June 30, 1985. There are 87 municipally-owned systems in Texas. Brazoria, Bullard, Cotulla, Kountze, Plains, and White Deer did not report. Gray Forest Utilities is a municipally-owned system, but it is also classified as a gas utility because it makes a sale for resale to the city of Boerne and pays the RRC gross receipts tax on this sale.

* Not classified as gas utilities but did report industrial sales volume and revenue to the Commission.
**Regulated by the Federal Energy Regulatory Commission and not classified as gas utilities.

Note

Exxon Company, USA chose not to report sales for 1984. This company is not a gas utility and is not required to report but has in previous years. In 1983 it reported a sales volume of 392,526,353 MCF and revenue of \$356,979,607.
