HOW TO USE THIS DIGEST

Read the general laws first.

If you want to know the regulations for a particular county or lake, look for that county under "Special Laws" or "County Laws" or "Lake Laws." If you do not find that county or lake mentioned, the "General Law" applies.

It must be understood that any restrictions contained in a special law must be obeyed even though they appear to be in conflict with the general law. Likewise, any privilege granted in a special law must be enjoyed without concern for general restriction in conflict.

THIS DIGEST DOES NOT CONTAIN the hunting, trapping and fishing regulations for the following counties: Armstrong, Bandera, Bell, Bexar, Bosque, Bowie, Brewster, Brisco, Carson, Castro, Childress, Clay, Collingsworth, Comal, Coryell, Cottle, Crockett, Culberson, Dallam, Deaf Smith, Denton, Dimmit, Donley, Edwards, El Paso, Erath, Falls, Fannin, Freestone, Gray, Hall, Hansford, Hardin, Hartley, Hemphill, Hood, Hudspeth, Hutchinson, Jack, Jasper, Jeff Davis, Jefferson, Johnson, Kerr, Lavaca, Limestone, Lipscomb, Llano, Mason, McLennan, Medina, Milam, Montague, Moore, Motley, Newton, Nolan, Ochiltree, Oldham, Orange, Palo Pinto, Parker, Parmer, Pecos, Potter, Presidio, Randall, Red River, Reeves, Roberts, Sherman, Somervell, Stephens, Sutton, Swisher, Tyler, Terrell, Titus, Wheeler, Wise, Young and Zavala Counties and the hunting and trapping regulations for those counties west of the Pecos River.

A supplement digest covering these counties will be available after September 1, 1958.

WARNING

Any person convicted of violating any game law may forfeit his hunting license and all hunting rights for one year from date of conviction.

The penalty for a second conviction is \$500 to \$1000 and license forfeiture for two years; and penalty for third conviction is confinement from thirty days to one year in the county jail, plus fine of from \$500 to \$1000, as well as forfeiture of hunting rights for three years.

10 COMMANDMENTS OF SAFETY

1. Treat every gun with the respect due a loaded gun. This is the first rule of gun safety.
2. Guns carried into camp or home, or when otherwise not in use, must always be unloaded, and taken down or have actions open; guns always should be carried in cases to the shooting area.
3. Always be sure barrel and action are clear of obstructions, and that you have only ammunition of the proper size for the gun you are carrying. Remove oil and grease from chamber before firing.
4. Always carry your gun so that you can control the direction of the muzzle even if you stumble; keep the safety on until you are ready to shoot.
5. Be sure of your target before you pull the trigger; know the identifying features of the game you intend to hunt.
6. Never point a gun at anything you do not want to shoot; avoid all horseplay while handling a gun.
7. Unattended guns should be unloaded; guns and ammunition should be stored separately beyond reach of children and careless adults.
8. Never climb a tree or fence or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.
9. Never shoot a bullet at a flat, hard surface or the surface of water; when at target practice be sure your backstop is adequate.
10. Avoid alcoholic drinks before or during shooting.

HELP PREVENT FOREST AND GRASS FIRES

Forest and grass fires not only destroy lives, homes, timber, and crops, they also destroy wild-life, thereby reducing and limiting hunting pleasures. Ordinary precautions can eliminate 9 out of 10 forest or grass fires. But precautions cannot be left to "the other fellow." It's up to you to do your part in observing the following simple rules which will prevent forest fires and maintain hunting opportunities for all sportsmen:

1. Select a suitable place for your campfire, preferably beside a stream or lake. Remove all combustible material down to the mineral soil. Extinguish your fire with water.
 2. Limit your smoking to the camp area or while resting in a safe place near a stream or a lake. Avoid smoking while on the trail. Never throw away lighted matches, burning cigarettes or cigar stubs, hot ashes from pipes or any other burning substance which has not been thoroughly extinguished.
 3. Observe all fire-prevention rules applying to particular hunting areas—especially rules posted as a result of unusual dry spells.
