AN ACT

relating to the powers and duties of the North Harris County Regional Water Authority.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subsection (c), Section 2.02, Chapter 1029, Acts of the 76th Legislature, Regular Session, 1999, is amended to read as follows:

(c) In the manner described by Section 49.103(d), Water Code, the board shall redraw the single-member voting districts [~~as required by law~~] as soon as practicable after[+]

[~~(1)~~] each federal decennial census[+] and as otherwise required by law

[~~(2) any change in the boundaries of the authority which increases the total area of the authority by more than 20 percent~~].

SECTION 2. Section 4.10, Chapter 1029, Acts of the 76th Legislature, Regular Session, 1999, is amended by adding Subsections (e) through (k) to read as follows:

(e) The authority may expedite the financing and construction of a surface water delivery system, or other projects of the authority to accomplish a conversion from reliance on groundwater to reliance on surface water not later than the earlier of:

(1) the date required by the subsidence district; or

1 (2) the date determined by the board to be in the
2 interest of the authority or one or more districts inside or outside
3 the authority.

4 (f)(1) In this section, "surface water delivery system"
5 includes a facility that is to be constructed and that will be:

6 (A) used to transport groundwater between
7 utility districts;

8 (B) used temporarily to transport groundwater
9 between utility districts if there is a reasonable probability that
10 the facility will be used for that purpose on a permanent basis in
11 the future; or

12 (C) necessary to accomplish an authority
13 purpose, including management of water, water conservation, or
14 water reuse.

15 (2) For purposes of Subsections (e)-(k), "surface
16 water delivery system" does not include the use of the bed and banks
17 to transport water or wastewater.

18 (g) It is the intent of the legislature that the commission
19 cooperate with and assist the authority in developing a surface
20 water delivery system or other authority project in an expedited
21 manner as provided by Subsection (e). The commission may grant
22 conditional approval of a construction project or waive a
23 requirement of any law or commission rule with respect to a
24 construction project, if the conditional approval or waiver does
25 not compromise public health or safety.

26 (h) If the commission grants conditional approval of or a
27 waiver for a construction project, the authority shall make any

1 subsequent changes in the construction project necessary to protect
2 the public health or safety that the commission requires.

3 (i) The commission may not require as a condition for
4 approving an authority construction project that the authority
5 enter into a contract with another person. The authority may meet
6 its obligations under commission rules that require that certain
7 issues be addressed by contract by adopting rules that address
8 those issues and that allocate responsibility as necessary between
9 the authority and a district or person within the boundaries of the
10 authority.

11 (j) The commission and the authority may enter into a
12 memorandum of understanding that relates to the construction of a
13 surface water delivery system. The memorandum of understanding
14 may:

15 (1) establish standard procedures for the commission
16 to grant conditional or final approval of authority construction
17 projects;

18 (2) establish standing waivers or conditions
19 applicable to those construction projects;

20 (3) if the delegation does not violate federal law and
21 is not inconsistent with any agreement of this state with, or any
22 delegation of authority to this state from, the United States
23 Environmental Protection Agency, delegate powers to the authority
24 to carry out any commission duty relating to an activity that the
25 authority may undertake;

26 (4) set minimum standards for construction or other
27 projects; or

1 (5) address any other matter that relates to an
2 activity that the authority may undertake and that the commission
3 may regulate.

4 (k) To comply with commission rules that would require the
5 authority to state specific amounts of water that may or will be
6 provided to another entity receiving water from the authority, the
7 authority may state the amount in ranges that the authority may
8 change on prompt notification to the commission.

9 SECTION 3. Chapter 1029, Acts of the 76th Legislature,
10 Regular Session, 1999, is amended by adding Section 5.01A to read as
11 follows:

12 Sec. 5.01A. ANTICIPATION NOTES AND BONDS. (a) The board
13 may issue negotiable revenue anticipation notes or negotiable bond
14 anticipation notes to borrow the money needed by the authority
15 without advertising or giving notice of the sale. The board may
16 also issue negotiable combination revenue and bond anticipation
17 notes. Negotiable combination revenue and bond anticipation notes
18 may contain any term authorized under this section for revenue
19 anticipation notes or bond anticipation notes. Any note issued
20 must mature not later than one year after its date of issuance.

21 (b) A revenue anticipation note may be issued to enable the
22 authority to carry out any purpose authorized by this Act. A
23 revenue anticipation note must be secured by the proceeds of
24 revenues to be collected by the authority in the 12-month period
25 following the date of issuance of the note. The board may covenant
26 with the purchasers of the notes that the board will charge and
27 collect sufficient revenues to pay the principal of and interest on

1 the notes and pay the cost of collecting the revenues.

2 (c) A bond anticipation note may be issued for any purpose
3 for which a bond of the authority may be issued or to refund
4 previously issued revenue or bond anticipation notes. The
5 authority may covenant with the purchasers of the bond anticipation
6 notes that the authority will use the proceeds of the sale of any
7 bonds in the process of issuance for the purpose of refunding the
8 bond anticipation notes, in which case the board shall use the
9 proceeds received from the sale of the bonds in the process of
10 issuance to pay the principal, interest, or redemption price on the
11 bond anticipation notes.

12 (d) For purposes of Section 1202.007, Government Code, a
13 note issued under this section is considered to be payable only out
14 of:

15 (1) current revenues collected in the year the note is
16 issued; or

17 (2) the proceeds of other public securities.

18 SECTION 4. This Act takes effect immediately if it receives
19 a vote of two-thirds of all the members elected to each house, as
20 provided by Section 39, Article III, Texas Constitution. If this
21 Act does not receive the vote necessary for immediate effect, this
22 Act takes effect September 1, 2005.

David Dewhurst

President of the Senate

Tom Craddick

Speaker of the House

I hereby certify that S.B. No. 331 passed the Senate on April 14, 2005, by the following vote: Yeas 31, Nays 0; and that the Senate concurred in House amendment on May 27, 2005, by the following vote: Yeas 29, Nays 0.

Lacey Graw
Secretary of the Senate

I hereby certify that S.B. No. 331 passed the House, with amendment, on May 25, 2005, by the following vote: Yeas 144, Nays 0, two present not voting.

Robert Haney
Chief Clerk of the House
