ACKNOWLEDGMENTS

The Texas Uniform Crime Reporting Program has been made possible by a Grant Award from the State of Texas through the Criminal Justice Division of the Governor's Office.

This report on Crime in Texas during the first half of 1992 was compiled from data submitted to the Texas Department of Public Safety's Uniform Crime Reporting Section by 856 Texas Sheriffs and Chiefs of Police whose jurisdictions cover 99.9% of Texas' population. This publication is the result of their excellent cooperation.

Special appreciation is extended to the Federal Bureau of Investigation's Uniform Crime Reports Section and to the members of the Crime Records Committees of the Texas Police Association and the Sheriff's Association of Texas for their assistance provided to the Texas UCR Program.

Chapter Five - <i>Law Enforcement Officers</i>	24
Chapter Six - <i>Texas Arrest Data</i>	26
Chapter Seven - <i>Texas Crime by Jurisdiction</i>	27

Introduction

Crime affects every Texan in some fashion. To gain a greater understanding of the nature of crime, Texas has participated in the Uniform Crime Reporting (UCR) program since 1976. The fundamental objective of UCR is to produce reliable crime statistics for law enforcement administration, operation, and management. The compiled data is also made available for the use of scholars and the public as a measure for the fluctuations in the amount of crime in Texas.

This Report

This summarized report on crime in Texas during the first half of 1992 was compiled from data submitted to the Texas Department of Public Safety by 856 Texas Sheriffs and Chiefs of Police. These law enforcement agency jurisdictions cover 99.9 percent of Texas' population. In order to provide data that is comparable from year to year, it is necessary to estimate the information for non-reporting agencies. The information provided in this book on the index crime reports has been estimated for the agencies that do not report.

Index Crimes

To track variations in crime, UCR summarizes crime information as the Crime Index. The seven crimes that make up the Crime Index are murder, rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. For each of the index crimes, the UCR program collects reports on the number of crimes committed, while for non-index crimes the program tracks only reports of actual arrests. By mandate of the U.S. Congress, arson became the eighth index crime in 1979. Because arson reporting is not standardized and in order to continue creating comparable data reports, arson is not included as a part of the Crime Index total.

Texas Crime Summary

Texas Crime Volume By Offense			
Estimated Offenses	1st 6 Months 1992	1st 6 Months 1991	Percent Change
Murder	1,102	1,208	-8.8%

Index Crime Analysis

Murder

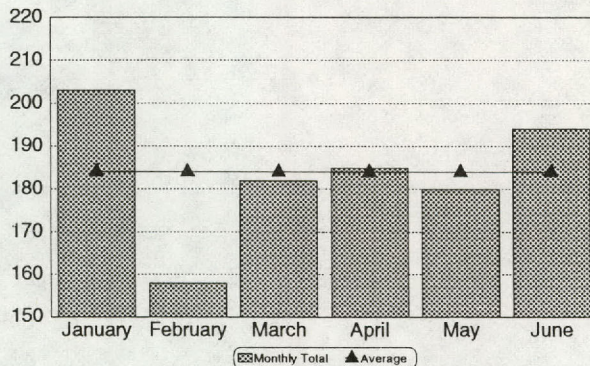

Murder and nonnegligent manslaughter, as defined in the Uniform Crime Reporting Program, is the willful killing of one human being by another. This offense category includes any death due to a fight, argument, quarrel, assault or commission of a crime. Attempted murder and assaults with the intent to kill are not counted as murder, but are included in UCR as aggravated assaults. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder classification. The classification of this offense, as well as for all Index Crimes, is based solely on police investigation and not upon determinations by courts, medical examiners, coroners, juries, or other judicial bodies.

The number of murders in Texas in the first six months of 1992 was 1,102. This represented a decrease of 8.8% in the number of murders when compared to the same period in 1991.

1992

Rape

Rape, as defined in the Uniform Crime Reporting program, is the carnal knowledge of a female forcibly and against her will. Statistics reported in this crime category include assaults to commit forcible rape, however, statutory rape (without force) and sexual assaults on males are excluded.

The estimated number of rapes committed in Texas in the first half of 1992 was 4,730. This represented an increase of 2.6% in the number of rapes when compared with the same time frame in 1991.

1992

Robbery

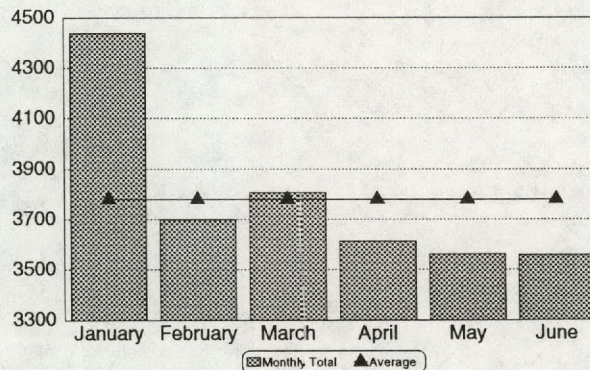

Robbery, in the Uniform Crime Reporting program, is defined as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force, threat of force or violence, or by putting the victim in fear. Robbery is a violent crime that frequently results in injury to the victim. Included in this category are assaults to commit robbery and attempted robberies.

The estimated number of robberies committed in Texas in the first six months of 1992 was 22,680. This represented a 3.4% decrease in the number of robberies when compared with 1991's first half.

1992

Aggravated Assault

Aggravated Assault is defined in the Uniform Crime Reporting program as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Statistics for aggravated assault include attempts to commit aggravated assault.

The estimated number of aggravated assaults committed in Texas in the initial six months of 1992 was 43,085. This represented an increase of 6.6% in the number of aggravated assaults when compared to the same time frame in 1991.

Aggravated Assault Offenses First Six Months of Each Year

Aggravated Assault by Month First Six Months of 1992

Burglary

Burglary, for Uniform Crime Reporting purposes, is the unlawful entry of a structure with the intent to commit a felony or a theft. While the use of force to gain entry is not required to classify an offense as burglary, attempted forcible entries to commit burglary are also counted in this crime's statistics.

The estimated number of burglaries committed in Texas in January through June 1992 was 135,259 — this number represents a 10.6% decrease when compared with the same months in 1991.

1992

Larceny-Theft

Larceny-Theft, in the Uniform Crime Reporting program, is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Larceny-Theft includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, and the like in which no use of force, violence or fraud occurs. In the UCR program, this crime classification does not include embezzlement, "con" games, forgery, and the passing of worthless checks. Motor Vehicle Theft is excluded from this category inasmuch as it is a separate Crime Index offense.

The estimated number of thefts committed in Texas in the first half of 1992 was 338,885 making this the largest crime category of the Index Crimes. The volume of theft in 1992 decreased 4.2% compared with the first half of 1991.

1992

Motor Vehicle Theft

Motor Vehicle Theft, for UCR purposes, is the theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that travels on the surface but not on rails. Specifically excluded from this category are motor boats, construction equipment, airplanes, and farming equipment.

The estimated number of motor vehicle thefts committed in Texas in the first six months of 1992 was 72,452. The volume of motor vehicle theft decreased a total of 5.6% when compared with the first six months of 1991.

Motor Vehicle Thefts First Six Months of Each Year

Motor Vehicle Theft by Month First Six Months of 1992

Arson

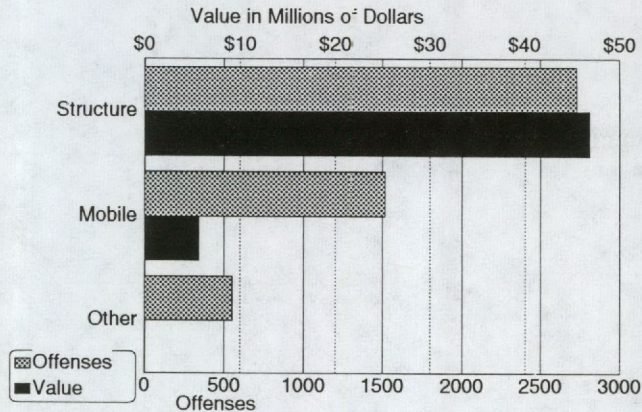

For Uniform Crime Reporting purposes, arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

The reported number of arsons committed in Texas in the leading months of 1992 was 4,801. The volume of arson decreased 6.7% when compared to the same time period in 1991.

Selected Non-Index Crimes

Driving Under the Influence Arrests

As with all Part II, non-index crimes, reports of crimes committed are not collected by the Texas UCR program for this offense. However, information on the number of persons arrested for this crime is collected and is reported here in this special section.

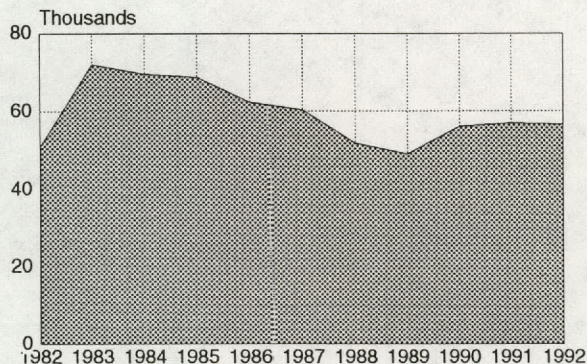

The reported number of arrests for DUI in Texas in the first six months of 1992 was 56,520. The volume of DUI arrests decreased 0.6% in comparison with the same period in 1991.

Any consideration of the number of DUI arrests must be reconciled with the fact that many factors control the ability of law enforcement personnel to detect and arrest drunken drivers. Among the significant factors which drive the DUI arrest rate are these: media coverage of the DWI problem, public awareness, availability of funds for patrol officer overtime, and the skill and training in DUI detection of law officers.

Persons Arrested

Of the 56,520 persons arrested for Driving Under the Influence in the leading months of 1992, only 100 or 0.2% were Juveniles (16 and under); 50,435, or 89% were Male; 51,792 or 92%, were White; 4,594, or 8%, were Black and the remainder were other races; 63% were not Hispanic and 37% were Hispanic.

DUI Arrests
First Six Months of
Each Year

Drug Abuse Arrests

For UCR purposes, drug abuse encompasses all violations of the narcotic drug laws. These are offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing and manufacturing of narcotic drugs.

In this report, these violations are summarized to include all drug abuse arrests (Grand Total Drug Abuse), Sale and Manufacturing arrests, and Drug Possession arrests. As with all Part II, non-index crimes, reports of crimes are not collected by the Texas UCR program for these offenses. However, information on the number of persons arrested for these crimes is collected and is reported here in this special section.

The reported total number of arrests for drug abuse in Texas in the first six months of 1992 was 36,122. Of this total, 30,356 persons, or 84% were arrested for drug possession and 5,766, or 16% were arrested for sale and manufacturing. The grand total of all drug abuse violations increased 13.7% in comparison with the same time frame in 1991.

Persons Arrested

Of the 36,122 persons arrested for drug abuse violations so far in 1992, only 2,113 or 5.8% were Juveniles (16 and under); 30,292, or 84% were Male; 22,092 or 61%, were White; 13,982, or 39%, were Black and the remainder were other races; 72% were not Hispanic and 28% were Hispanic.

**DRUG
SEIZURES**

**MARIJUANA PLANTS,
FIELDS AND GARDENS**

In addition to the drug seizures, displayed in the chart, Texas Law Officers seized:
76 Marijuana Gardens,
41 Wild Marijuana Fields,
240 Cultivated Marijuana Fields, and
18 Marijuana Greenhouses.
The total number of all marijuana plants seized in the first six months of 1992 was 289,524.

CLANDESTINE LABS

In the first six months of 1992, 18 Clandestine Labs were seized.
Of these labs,
11 manufactured Methamphetamine,
5 manufactured Amphetamines, and
2 produced Phenylacetone (P2P).

TYPE AND QUANTITY OF DRUGS SEIZED	
Type	Quantity
Cannabinoids:	
Marijuana	118,273 Pounds, 289,524 Plants

Special Topic

Population Area Crime Trends

A topic of interest in Texas concerns relative crime trends in various parts of the state. As Texas becomes increasingly urban and as the state's crime rate has risen, are all population areas in Texas experiencing a similar upswings in crime? This special section is intended to analyze this question.

An initial problem in comparing population area crime rates is to select the proper representative areas for study. A traditional approach has been to consider Metropolitan Statistical Areas (MSA) as representing urban zones and to use non-MSA cities and counties to illustrate rural areas. This approach is at odds with the fact that MSAs can include rural areas. For example, the Houston MSA includes all of Fort Bend, Harris, Liberty, Montgomery and Waller counties—much of which is rural in nature. Furthermore, because the non-MSA cities include only incorporated municipal areas, it is possible for these areas to be more urban in character than some parts of the MSAs. To avoid this conflict, this analysis looks at four classifications: Cities over 300,000 in population, non-MSA cities, non-MSA counties and the Texas State total. To insure comparability, the 1983 definition of Texas MSAs was applied retroactively to the data from 1981 and 1982. The crime rate is the number of index crimes per 100,000 population.

Index Crime Rate Trends in Texas Population Brackets

The results of this crime trend analysis are presented in the graph on the opposing page and the chart on this page. Several main conclusions bear emphasis here. First, Texas has experienced large increases in both population and crime. The past decade's state crime rate increase was 29.4%. This crime rate increase was exceeded by both the non-MSA cities and the cities over 300,000 population, while non-MSA counties experienced a somewhat smaller increase. Although the percentage increase in crime rate was dramatic for each area, the crime rate of the large cities is more than double that of the non-MSA cities and is more than five times that of the rural counties. Interestingly, the percentage of the state Crime Index for each of the three comparison groups fell. Similarly, while the non-MSA cities experienced a slight gain in population, their percentage of the state population dropped sharply—this was also true, to a lesser extent, for the other test areas.

The conclusion of this study is that reports of large increases in the crime rate in non-MSA areas are correct with the proviso that the crime rates in these areas are significantly lower than the state crime rate and are very much lower than the crime rates for the Texas cities over 300,000 in population.

Texas Index Crime Rate Changes - 1981-1991

Law Enforcement Officers

The killing or assaulting of a law officer creates a serious detrimental effect on the security of our society. The real possibility of being assaulted by members of the community that they are sworn to protect may weigh heavily on the minds of persons contemplating law enforcement careers. As attacks on police officers reduce their ability to combat crime, violence towards the police equals violence towards society.

Texas Law Officers Assaulted First 6 Months of Each Year

Texas Law Officers Assaulted By Type of Weapon

Law Officers Assaulted

In January through June 1992, 2,544 Texas Law Officers were assaulted in the line of duty. The number of assaults increased 4.7% from the same period in 1991. Assaults resulted in injury to the officer in 36% of the cases, while 92% of the assaults were cleared.

Texas Law Officers Killed in the Line of Duty

In the first half of 1992, five Texas law enforcement officers have been killed in the line of duty: Two officers were killed by felonious action, and three officers were killed accidentally.

Felonious Deaths

Two officers were killed in the line of duty by criminal action:

- **Trooper Bill Davidson**, Texas Department of Public Safety, on April 14th — *Traffic Stop*.
- **Sergeant Kenneth Dwin Fowler**, Lubbock PD, on June 18th — *Disturbance Call*.

Accidental Deaths

Three officers were reported to have died as the result of duty-related accidents.

- **Officer Harold L. Hammons**, Dallas PD, on January 22nd — *Undercover Drug Operation*.
- **Deputy Larry Miller**, Hood County SO, on January 26th — *Traffic Accident*.
- **Deputy Rex St. John**, Karnes County SO, on February 29th — *Traffic Accident*.
