# Introduction

## Overview

The tables in this report provide grade-level retention data at the district level as a supplement to *Grade-Level Retention in Texas Public Schools, 2006-07* (Texas Education Agency [TEA], 2008). Retention rates for the 2006-07 school year are presented for students in Grades K-12 by school district and grade level. Average retention rates for district groupings based on a variety of enrollment, staffing, and financial characteristics are also presented. In addition, the supplement contains information on rate calculations; more information can be found in *Grade-Level Retention in Texas Public Schools, 2006-07* (TEA, 2008).

## Calculations

Data used in this report on the grade levels of all students in the Texas public school system were drawn from the Public Education Information Management System (PEIMS) (Texas Education Code §29.083, 2007).

Retention rates for the 2006-07 school year were calculated by comparing 2006-07 attendance records to fall 2007 enrollment records. Students who left the Texas public school system for any reason other than graduation were excluded from the total student count. Students new to the Texas public school system in fall 2007 were also excluded. Students who enrolled both years or graduated were included in the total student count. Students found to have been enrolled in the same grade in both years were counted as retained. Students found to have been in a higher grade in fall 2007 than in 2006-07 were counted as promoted. Students reported to have had improbable grade sequences were assigned an "unknown" promotion status. Retention rates were calculated by dividing number of students retained by total student count. Because of the criteria used, student counts in this report differ from those in other agency publications.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

11	0	92	0.0	GORMAN ISD	All	13	339	3.8	
12	–	<105	1.0						

Note. A dash (–) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (–) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (–) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of retained students is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149.

# Notes on Tables 1 and 2

## Notes on Tables 1 and 2

**Source.** Data about teachers, district expenditures, and students are from the Public Education Information Management System (PEIMS). Tax and property data are provided by the Comptroller's Property Tax Division. Information about college admission examinations and the Texas Assessment of Knowledge and Skills (TAKS) is provided by the test contractors. All data are for the 2006-07 school year, with the exception of college admissions and district expenditures, which lag one year.

### **Cost of Education Index**

The Cost of Education Index (CEI) reflects geographic variations in costs beyond the control of districts. The CEI has a minimum value of 0.0 and a maximum of 1.2. Most districts have CEI values of at least 1.0. Districts with CEI values of 0.0 are primarily charter school districts. Districts are grouped into five subcategories, each with approximately the same number of districts.

### **District Type**

Districts are grouped into eight subcategories, ranging from major urban to rural, based on factors such as enrollment, growth in enrollment, economic status, and proximity to urban areas. Charter school districts make up a ninth subcategory. The subcategories are as follows.

#### **Major Urban**

A district is classified as major urban if: (a) it is located in a county with a population of at least 725,000; (b) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county; and (c) at least 35 percent of enrolled students are economically disadvantaged. A student is reported as economically disadvantaged if he or she is:

- eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- from a family with annual income at or below the federal poverty line;
- eligible for Temporary Assistance to Needy Families or other public assistance;
- a recipient of a Pell Grant or comparable state program of need-based financial assistance;
- eligible for programs assisted under Title II of the Job Training Partnership Act; or
- eligible for benefits under the Food Stamp Act of 1977.

#### **Major Suburban**

A district is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is contiguous to a major urban district; and (c) its enrollment is at least 3 percent that of the contiguous major urban district or at least 4,500 students. A district also is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is not contiguous to a major urban district; (c) it is located in the same county as a major urban district; and

(d) its enrollment is at least 15 percent that of the nearest major urban district in the county or at least 4,500 students.

### **Other Central City**

A district is classified as other central city if: (a) it does not meet the criteria for classification in either of the previous subcategories; (b) it is not contiguous to a major urban district; (c) it is located in a county with a population of between 100,000 and 724,999; and (d) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county.

### **Other Central City Suburban**

A district is classified as other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of between 100,000 and 724,999; and (c) its enrollment is at least 15 percent of the largest district enrollment in the county. A district also is other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is contiguous to an other central city district; (c) its enrollment is greater than 3 percent that of the contiguous other central city district; and (d) its enrollment exceeds the median district enrollment for the state of 743 students.

### **Independent Town**

A district is classified as independent town if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of 25,000 to 99,999; and (c) its enrollment is the largest in the county or greater than 75 percent of the largest district enrollment in the county.

### **Non-Metropolitan: Fast Growing**

A district is classified as non-metropolitan: fast growing if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it has an enrollment of at least 300 students; and (c) its enrollment has increased by at least 20 percent over the past five years.

### **Non-Metropolitan: Stable**

A district is classified as non-metropolitan: stable if: (a) it does not meet the criteria for classification in any of the previous subcategories; and (b) its enrollment exceeds the median district enrollment for the state.

### **Rural**

A district is classified as rural if it does not meet the criteria for classification in any of the previous subcategories. A rural district has either: (a) an enrollment of between 300 and the median district enrollment for the state and an enrollment growth rate over the past five years of less than 20 percent; or (b) an enrollment of less than 300 students.

## **Charter School Districts**

Charter school districts are open-enrollment school districts chartered by the State Board of Education. Established by the Texas Legislature in 1995 to promote local initiative, charter school districts are subject to fewer regulations than other public school districts. Generally, charter school districts are subject to laws and rules that ensure fiscal and academic accountability but that do not unduly regulate instructional methods or pedagogical innovation. Like other public school districts, charter school districts are monitored and accredited under the statewide testing and accountability system.

## ***Education Service Center Regions***

The state is divided into 20 geographic regions, each served by an education service center (ESC). Although not usually the case, an ESC may serve districts outside its geographic boundaries. For this category, districts are grouped by the ESC regions that serve them, not by the ESC regions in which they are located geographically.

## ***Enrollment***

Districts are grouped into nine subcategories based on number of students enrolled. Enrollment counts are taken on a specified date in late October of each year.

## ***Highest Property Value***

Each district is placed into one of four subcategories of taxable property based on type of property with the highest value for the district. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have taxable property. The four subcategories of taxable property are:

- residential: single-family and multi-family residential, and residential inventory;
- land: vacant lots and taxable rural real property;
- oil and gas: oil, gas, and minerals; and
- business: commercial and industrial real property, commercial and industrial personal, and utilities.

## ***Operating Cost Per Student***

Operating costs are the sum of actual expenditures for a district's operation. Note that the number shown is not the amount actually spent on each student, but rather a per-student average of the total. Per-student amounts are calculated as expenditures for the prior school year divided by the current number of students. Districts are grouped into five subcategories, each with approximately the same number of districts.

## ***Property Wealth: Average, Equal Student Groups, and Median***

Property wealth is used as an indicator of a district's ability to raise local funds on a per-student basis. It is calculated as total taxable property value for the last completed calendar year divided by total enrollment for the current school year. Taxable value is the traditional measure of value, not the alternative value used in state funding formulas. The "property wealth: average" category classifies districts as either under or over the state average for district property wealth. The "property wealth: equal student groups" category groups districts by property wealth into 20 subcategories, each accounting for approximately the same number of students. The "property wealth: median category" groups districts by property wealth into 10 subcategories, each with approximately the same number of districts. In each of the three categories, special statutory school districts and charter school districts make up a separate subcategory, labeled "non-taxing entities," because they do not have taxable property wealth.

## ***Retained***

To determine the number of students retained in grade, fall enrollment data were compared to attendance in the final, six-week period of the previous school year. Students enrolled in the same grade in both years were counted as retained.

## ***Retention Rate***

The retention rate was calculated by dividing the number of students retained by the total student count. Through the 1998-99 school year, the retention calculations included only students who were enrolled on the last Friday in October. Beginning in 1998-99, the retention calculations for Grades 7-12 included all students enrolled at any time during the fall.

## ***SAT/ACT 2005-06: At or Above Criterion, Percentage***

Districts are grouped into five subcategories based on percentage of examinees in the prior year who scored at or above the criterion score on either the SAT or ACT. Districts that did not have test takers make up a sixth subcategory. Criterion on the SAT is a combined score of 1110, and criterion on the ACT is a composite score of 24.

## ***SAT/ACT 2005-06: Participation, Percentage***

Districts are grouped into three subcategories based on percentage of non-special education graduates who took the SAT, ACT, or both in the prior year. Districts that did not have graduates make up a fourth subcategory.

### ***Small/Sparse Adjustment***

Districts are grouped into four subcategories, each with approximately the same number of districts, based on adjustments to state funding to compensate for small and/or sparsely populated districts. Districts receiving no small/sparse adjustment make up a fifth subcategory. Small/sparse adjustments are shown as percentages of total adjusted basic allotment amounts.

### ***Students***

A cumulative total of students served in a district, during the school year. Students who dropped or migrated out of the Texas public school system after the first year were excluded from the total student count, as were students new to the system in the second year. Students who enrolled both years or graduated were included in the total student count.

### ***Student Change: 2005-06 – 2006-07***

Districts are grouped into five subcategories based on change in enrollment from the prior school year to the current school year.

### ***Student Density***

Districts are grouped into four subcategories based on number of students per square mile. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have mileage information.

### ***Students: African American, Hispanic, and Non-White, Percentage***

In each of these three categories, districts are grouped into six subcategories based on racial/ethnic composition of enrollment. The term "Non-White" is used to designate the following groups combined: African American, not of Hispanic origin; Asian or Pacific Islander; Hispanic; and Native American or Alaskan Native.

### ***Students: Economically Disadvantaged, Percentage***

Districts are grouped into six subcategories based on percentage of enrollment reported as economically disadvantaged. A student is reported as economically disadvantaged if he or she is:

- eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- from a family with annual income at or below the federal poverty line;
- eligible for Temporary Assistance to Needy Families or other public assistance;
- a recipient of a Pell Grant or comparable state program of need-based financial assistance;

- eligible for programs assisted under Title II of the Job Training Partnership Act; or
- eligible for benefits under the Food Stamp Act of 1977.

### ***TAKS: Passing All Tests Taken, Percentage***

Districts are grouped into five subcategories based on percentage of Texas Assessment of Knowledge and Skills (TAKS) examinees in Grades 3-11 who passed all TAKS tests taken. Districts that did not administer TAKS make up a sixth subcategory. The percentages include only examinees who were enrolled in the same districts in October of the school year.

### ***Tax: Local Adopted Rate***

Districts are grouped into four subcategories, each with approximately the same number of districts, based on total locally-adopted tax rate. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The total locally-adopted tax rate is made up of a maintenance and operation rate and a debt service rate (sometimes referred to as the Interest and Sinking fund rate). Rates are expressed per \$100 of taxable value.

### ***Tax: Local Maintenance & Operation Rate***

Districts are grouped into four subcategories based on locally-adopted maintenance and operation (M&O) tax rate. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The M&O rate includes money generated by districts for equalizing wealth.

### ***Teacher Experience***

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average years of teacher experience. The average for a district is calculated by multiplying the full-time-equivalent (FTE) count for each teacher by years of experience. Results are summed, then divided by the FTE count for all teachers.

### ***Teacher Salary***

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average teacher salary. The average for a district is calculated by dividing the salary for all teachers by the full-time-equivalent (FTE) count for all teachers. Salaries reflect pay for regular duties only; they do not include pay for supplemental duties.

### ***Teachers: Non-White, Percentage***

Districts are grouped into six subcategories based on percentage of non-White teachers. The term "Non-White" is used to designate the following groups combined: African American, not of Hispanic origin; Asian or Pacific Islander; Hispanic; and Native American or Alaskan Native. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for non-White teachers by the FTE count for all teachers.

### ***Teachers: With Advanced Degrees, Percentage***

Districts are grouped into four subcategories, each with approximately the same number of districts, based on percentage of teachers with advanced degrees. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for teachers with master's or doctorate degrees by the FTE count for all teachers.

# Compliance Statement

## **Title VI, Civil Rights Act of 1964, the Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division.**

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1. acceptance policies on student transfers from other school districts;
2. operation of school bus routes or runs on a nonsegregated basis;
3. nondiscrimination in extracurricular activities and the use of school facilities;
4. nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5. enrollment and assignment of students without discrimination on the basis of race, color, or national origin;
6. nondiscriminatory practices relating to the use of a student's first language; and
7. evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

## **Title VII, Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972; Executive Orders 11246 and 11375; Equal Pay Act of 1964; Title IX, Education Amendments; Rehabilitation Act of 1973 as Amended; 1974 Amendments to the Wage-Hour Law Expanding the Age Discrimination in Employment Act of 1967; Vietnam Era Veterans Readjustment Assistance Act of 1972 as Amended; Immigration Reform and Control Act of 1986; Americans With Disabilities Act of 1990; and the Civil Rights Act of 1991.**

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
