REPORT

OF

SUPERINTENDENT OF PUBLIC INSTRUCTION.

DEPARTMENT OF EDUCATION,
AUSTIN, December 1, 1886.

To His Excellency John Ireland, Governor of Texas and Ex Officio President of the State Board of Education:

SIR:—I have the honor to submit to the State Board of Education the following report of the operations of this department during the scholastic years ending August 31, 1885, and August 31, 1886.

I am, with high respect,

Your obedient servant,

B. M. BAKER,
Superintendent of Public Instruction.

REPORT.

Notwithstanding many serious difficulties have attended the administration of the public schools during the two scholastic years just ended, I am gratified to be able to report that the cause of popular education has steadily advanced, the schools have become more efficient, and the general public is better satisfied with the results attained. It is gratifying to know that opposition to free schools has almost been silenced, and that the demand of our people is—the most perfect system consonant with our condition and resources. The original advocates of public schools have won many to their ranks, and the few who are still classed among the objectors have accepted the situation and now only desire that the public fund be used to the best possible advantage. It is believed that progress has been much retarded by the events in educational affairs which transpired when our people were poor and our most intelligent citizens disfranchised. Before the close of the war between the States Texas had made no effort to provide more than free tuition for indigent children; and notwithstanding large quantities of the public domain had long before been reserved for

public schools, no steps had been taken to utilize them for that purpose. The whole educational question had been left to private enterprise. When the war had closed, and before the people had begun to recover from its dreadful ravages, a school system was launched upon them, which, to say the least, was better fitted for an older and a richer State. Copied from older, richer, and more thickly populated States, that system for a country prepared for its reception, was comparatively without fault. But the immense sums of money necessary to support it were extorted from a poor and unwilling people. The schools, though open to all, soon became exceedingly unpopular with a large majority of the people, both because of the unnecessary expenses incident to them and the manner in which they were conducted. It is not a matter of surprise that the system was overthrown, but it is to be regretted that its healthy features were not preserved and engrafted into the new one which took its place. But popular prejudice repeating its history drifted madly to the other extreme and inaugurated a system weak in many respects and illy fitted to the demands of the times and people. The bitter prejudices born of the old law created among the people a strong distaste to taxation for educational purposes and indeed to free schools, and we may congratulate ourselves that the subject was not abandoned altogether. For years no interest in educational affairs could be aroused, our people being strongly disposed to look to private enterprises alone for the education of their children, leaving the necessitous poor the only patrons of the public schools. Matters became brighter in 1876, and from that time the public schools have grown in favor. The law of 1884 was a vast improvement on that of 1876, and I am convinced that the people are ripe for the other changes demonstrated to be necessary, and that the time has arrived for making them. In this report I propose to suggest what I conceive to be the necessary amendments to the present law, and in the suggestions I make I believe I am in accord with the views of the best educators of the State.

Among the improvements made in our system I may mention as the one of greatest importance "the district system" which has been provided for a large number of the counties. The advantages of this system over the community system is apparent. Under the community system a reorganization of each school takes place annually, giving rise to neighborhood disputes and disagreements. No local school taxes can be levied under it, and the people are consequently compelled to rely on the State fund alone for both the expenses of the schools and the building of school houses. Few school houses are erected from the fact that the schools have no fixed place of abode and are constantly changing habitations. The district system suffers none of these disadvantages. Under it local

taxes may be levied, and thus a fund raised for building purposes, for lengthening the school term and extending the scholastic age. The districts have defined limits: the place for the school is fixed. The people knowing that no change of locality can take place, are encouraged to erect comfortable school buildings and supply them with modern furniture and apparatus. A large portion of our State is so sparsely populated as to make the district system of doubtful feasibility, but it has been demonstrated to be superior for the counties well populated, many of which have not yet accepted it.

The State has the best reason to be proud of the progress of her teachers. I attribute their advancement in a large way to the fact that the recent changes of school law have encouraged them to become professional teachers. Some of the provisions of the law of 1874 bore so unjustly upon them that there were few who looked upon themselves as in the work for life. The provision of that law making the teachers' salary dependent upon the attendance of pupils was a relic of barbarism. Its repeal and the advance in maximum salaries allowed by the law of 1884 give promise of adequate remuneration to the teacher and encourages him to regard the profession as not wanting in dignity. The State normal schools and the summer normals, so generously provided, have also been powerful instruments in advancing the profession. It is probable now that no State can boast of a better qualified, more conscientious corps of public school teachers. For many years the teachers have held annual State associations, but until recently they have been poorly attended and awakened no enthusiasm. In 1884 the one of the white teachers at San Antonio was a success; in 1885 the one at Waco a grand success; and in 1886 the one at Austin was in every respect one of the most imposing and learned gatherings in the history of the State. The colored teachers have also held annual meetings and have each year added to their interest. The one of the present year at Galveston was largely attended and participated in by educators who reflect great honor on their race and on Texas. The white teachers have also organized a "State reading circle," and its success is assured. Through its influence very many teachers are pursuing a course of professional reading at their homes, which will add greatly to their strength and capacity. Prof. Jacob Bickler, of Austin, is now president of the white State association, and Prof. L. C. Anderson, of Prairie View, is president of the colored association. Superintendent J. E. Dow, of Houston, is president of the reading circle. Well organized county institutes exist in a great majority of the counties, notwithstanding the county judges, whose duty it is to organize them, have done so in but few instances. As a rule these institutes hold monthly meetings, at which are discussed matters appertain-

ing to school management, school law, and important educational questions of the day. These things show that the teachers of Texas are alive and keeping pace with the progress of the times.

A summer normal institute has been conducted each year for the white teachers in each senatorial district, and for colored teachers in each congressional district except the eleventh. In that district there are not a sufficient number of colored teachers to organize an institute. Great success has attended them, and I recommend that they be continued. While under the present law the salaries allowed principals are inadequate, I have experienced no trouble in securing the best talent in the State to conduct them. Eminent teachers have deemed it a patriotic duty to take charge of them when requested to do so, and have responded willingly in the discharge of it. The institutes have been well attended, as the tables accompanying this report will show, and have already done much toward preparing teachers for the onerous duties incumbent upon them.

The trustees of the Peabody education fund give Texas nine scholarships at the "Nashville, Tennessee, Normal College." Appointees are permitted to attend two sessions. My appointees at the college at this time are as follows:

| | |
|-------------------------------|-------------|
| Miss Louie Sexton | Second Year |
| Miss Mattie R. McLellan | " |
| Mr. Henry J. Conyington | " |
| Mr. J. H. Hackney | " |
| Mr. J. A. Stanford | " |
| | |
| Miss Ida Gentry | First Year. |
| Miss Fannie January | " |
| Miss Ada Robertson | " |
| Mr. J. F. Stanley | " |

The first five will graduate at the close of the present session and return to enter the public schools of Texas as teachers.

SECTARIAN SCHOOLS.

In regard to sectarian schools the constitution has the following language:

"SEC. 5, Art. 7. The principal of all bonds and other funds and the principal arising from the sale of the lands hereinbefore set apart to said school fund, shall be the permanent school fund, and the interest derivable therefrom and the taxes herein authorized to be levied shall be the available

school fund, which shall be applied annually to the support of the public free schools, and no law shall ever be enacted appropriating any part of the permanent or available school fund to any other purpose whatever, nor shall the same or any part thereof ever be appropriated to or used for the support of any sectarian schools, and the available school fund herein provided shall be distributed to the several counties according to their scholastic population, and applied in manner as may be provided by law."

This language is an injunction on the Legislature to provide effectually against sectarian training in the public schools, and past events have demonstrated its wisdom. Yet the Legislature has so far contented itself with simply repeating the provision of the constitution. I most respectfully submit that that honorable body would act wisely by defining a sectarian school, and in doing so it would but discharge the duty contemplated by the provision referred to. The good of all governments demands the education of the masses, and the object of all public educational systems should be to make virtuous and intelligent citizens. Religious training is neither a function nor a duty of government; it belongs exclusively to the church and to the home and to such private institutions of learning as may be established by individual means. The Protestant should not be taxed to teach Judaism to his child, and vice versa. In my judgment a great majority of the bitter disagreements arising daily as to the management of our public schools spring from this question of religious instruction in them, and we need not expect anything approaching perfect harmony until the principle is plainly laid down that the schools are for the preparation of the children for citizenship only and the rule fixed thereby rigidly enforced.

SCHOOLS TAUGHT IN THE GERMAN AND SPANISH LANGUAGES.

The present law declares that the exercises of the schools shall be conducted in the English language. And yet very many complaints have been made each year to the effect that some of the schools are conducted in the German and some of them in the Spanish languages. Investigation disclosed the truth of some of the charges, but the Superintendent in a majority of instances found himself powerless to remedy the evil. I have myself conversed with teachers who could not speak the English sufficiently well to be understood. I am glad to say that as to the German language nearly all the complaints were made by Germans. I do not hold it objectionable to teach other languages than the English in the schools, but they should be pursued as studies, while the language of the school should be the English. This matter should be seriously considered by the Legislature, for if not arranged it promises much harm to public school interests.

In another part of this report a provision for county superintendents is advocated. If the suggestion is so fortunate as to meet with the favor of the Legislature, and the superintendents are given sufficient power, and the mode of their selection removed safely from local influences, it will not be difficult for them to establish the English as the sole language for the schools under their charge.

LOCAL SUPERVISION.

The demand for local supervision of the public schools is imperative. That local superintendents can be sustained without additional expense to the school fund is easily demonstrated, and that the efficiency of the schools would be increased tenfold with the aid of such officers is certain. As a rule county judges are incompetent to supervise the schools, because they have not been trained in the art of school management. With but few exceptions they have not the time to do so without neglecting other duties made incumbent on them. In nearly all cases the labor entailed on them by the school law is distasteful. They do not visit and lecture in the schools, nor do they hold county institutes. They are but machines for the disbursement of the school fund. The schools are therefore practically without local supervision.

If local superintendents were provided two important results might be confidently looked for—better teaching and a longer school term. Superintendents could devote all their time to the organization of schools, managing them, employing teachers and paying them, visiting the schools and lecturing, arousing favorable public sentiment, inducing the levy of local school taxes, aiding teachers in the discharge of their duties, and taking the scholastic census. I most earnestly recommend that county superintendents be provided for in all except the small or sparsely populated counties. In this connection I venture to present several extracts from an able address of Hon. Z. T. Fulmore, County Judge of Travis county, delivered before the teachers institute of that county on his retirement from office:

* * * * *

“With the ostensible purpose of simplifying school matters and of economically administering our school fund, the Legislature made the county judge ex officio superintendent of county schools, the county treasurer ex officio the custodian of the funds of the various counties, the assessor of taxes ex officio the census taker, and to these was added a board of examiners, in each case the several officials being independent of each other and of any superior authority. Under this loose, disjointed plan, according to the best information we have on the subject all have grown in scholastic

population from about 238,000 in 1880 to 489,000 in 1886, and our school fund increased from \$750,000 to about \$2,350,000 during the same period, becoming complicated and confused in proportion as it has grown, until today we have no accurate means of determining whether our scholastic population is 350,000 or 500,000, or whether our actual resources are \$2,350,000 or \$3,250,000.

“By the exercise of great industry our State Superintendent has succeeded in placing sufficient data before us to throw some light upon our present condition.

“From these data we are able to form some idea of the disadvantages of an utter lack of system in our school organization.

* * * * *

“Another great evil consists in the frauds that may be, and in some instances are practiced upon county judges and county treasurers. They have no means of knowing whether or not services have been performed for which money is claimed—their only protection is in the honesty of teachers and trustees.

“Another evil consists in the unreliability and in many instances absurdity of the statistics furnished by county judges, when furnished at all. A few specimens culled at random will give a better idea. The official reports show that for the scholastic year ending August 31, 1855, Webb county had an average school term of 400 days, and that the tuition of the children of that county cost between \$20 and \$21 per month, while tuition in Hopkins county only cost 14 $\frac{3}{4}$ cents per month; that Red River, with a scholastic population of 4085, had an average daily attendance of only 43 and a total daily attendance of 199,583; while Runnels county had an average daily attendance of 152 and a total daily attendance of only 192.

“Grayson county, with a scholastic population of 6832, had an average daily attendance of only 56, although she had 102 schools; and Shelby, with a population of 2051, had an average daily attendance of 34.

“The total daily attendance is from 100 to 120 times greater than the average daily attendance, but in Liberty county last year they tallied with each other.

“The total daily attendance in Montgomery county was 1801, average daily attendance 1801, with 583 pupils studying natural philosophy; while Ellis county, with a scholastic population nearly twice as large, had only 12 studying natural philosophy, Travis county only three, and Austin city 31.

“Now, if the Legislature of the State were to appropriate enough money for a six months' term at the same rate as the actual cost of the Webb county schools for 1884-5, it would take about \$13,000,000. On the other hand, if the appropriation was made on the Hopkins county basis, it would

only require \$89,986.71 to maintain the schools of the State for six months.

* * * * *

“Nothing approximating a complete diagnosis of our school affairs can be had until the Legislature establishes a school system, and it seems to me that the first step towards the establishment of a system would be the creation of the office of county superintendent of schools, and the complete annihilation of county judges, treasurers, assessors, and boards of examiners as school officers, and a merger of their duties into the office of county superintendent. In this officer the State would have a responsible agent, charged with the duty of keeping accurate accounts, of obtaining thoroughly reliable statistics, and administering the school affairs of the State honestly, intelligently, and in accordance with the best business methods.

“It would add but little to his duties to make of him a general statistician in his county, and such data as could be gathered by 180 county superintendents distributed among 8000 teachers, located in every neighborhood and scattered over a population of 2,500,000, would be of incalculable value to the Legislature in shaping the future policy of the State. The Superintendent of Public Instruction, instead of having to multiply circulars in sending to the county judge for one thing, the county treasurer for another, the assessor and trustees for another, and the board of examiners for another, would have a single source upon which to draw, and complete order and method could be brought out of the present chaos.

“Instead of having several officers between the children and the school fund there would be but one, and to have 180 county superintendents, subject under severe penalties to rendering strict account of their stewardship to the State at least once a year, would be no more novel in our form of government or inconsistent with our notions of local self-government and individual freedom than the law which now and for years past has made between two and three hundred collectors and assessors of taxes under severe penalties subject to the Comptroller’s department.”

* * * * *

SECONDARY EDUCATION.

I believe that in this day the character of its public schools will determine how far a State has advanced in civilization. An intense desire for the ultimate success of the public schools of Texas makes me bold to call attention to a much mooted and very important subject. It has not yet been carefully considered by any Legislature so far as I know, but there is no reason for longer delay. The object of providing free tuition for the child is to fit him for intelligent citizenship; to enable him to participate in the priv-

ileges of a citizen and discharge the duties incumbent upon him as a member of society. It is rather a duty the government owes to itself than to the child. This added to the fact that without free schools a great number of the people would be reared in ignorance of the privileges and duties of citizenship I conceive to be the only argument in support of a free school system. Just how far the State should go in thus preparing a child is a question of much moment. Shall the line be drawn at what is commonly termed secondary education, or shall the high school, having in its curriculum the higher mathematics, the sciences, and Latin and Greek, be supported? Is the high school necessary to mould the character of citizenship mentioned? I believe not. A thorough knowledge of orthography, penmanship, reading, English grammar, geography, arithmetic, and English composition, I believe amply sufficient for the purpose indicated. A knowledge of the branches taught in the high school may better prepare one for advanced thought and exalted position, but they are not necessary to the performance of the simple duties appertaining to the citizen. If what is termed the higher education is bestowed at the public expense the poor as well as the rich are taxed to bestow it. The children of these poor seldom go through the high school, no matter if the tuition is free, because when ready for the branches taught in it they have arrived at the age of breadwinners and must work. Those who attend the high school are as a rule (and there are few exceptions to the rule) the sons and daughters of people who are so fortunate as to be able to educate their children at private schools. The high school therefore is in fact a school only for the fortunate few while the many are taxed for its support. Drawing as it does largely from the school fund, its teachers being paid higher salaries than other teachers, the terms of the primary and intermediate schools are shortened and the State is debarred from the privilege of increasing the scholastic age. They thus keep out of the schools children under eight and over sixteen years whose education the State has made itself responsible for, and cause the government to fail to comply with the constitutional provision declaring that a term of six months shall be maintained. These are potent reasons against the maintenance of high schools, but they are not more potent than the simple one first stated: "the State does not owe the child the character of education they bestow."

TEACHERS' CERTIFICATES.

There should be but two grades of teachers' certificates issued by county judges. The third grade certificate should be abolished. No one who cannot pass a reasonable examination on the subjects required for a second

grade certificate is competent to teach any kind of a school. Summer normal certificates should be made to hold good during good behavior, and there should be provision whereby men and women of distinguished ability might procure State certificates from the Superintendent of Public Instruction. A certificate issued by the Superintendent of Public Instruction or by a normal school should be valid in any county, but experience has shown that a county certificate should operate only in the county in which it is issued. I am sorry to say that these certificates are issued recklessly in some counties without examinations. Other counties have cautious boards which are endeavoring to elevate the standard of the teachers to be employed in their schools. In many instances this laudable object has been paralyzed by the careless and reckless issuance of certificates by neighboring boards.

APPORTIONMENT OF AVAILABLE FUND.

The present mode of apportioning the annual available fund to the several counties has not proved satisfactory. Its object is to give every child the opportunity of attending school the same length of time, but it does not accomplish that object and in some instances has occasioned a waste of the fund. The child who lives in a sparsely settled community may not find himself within reach of any school and consequently will not receive any benefit from the fund. In some counties there are many such and in addition many who without reason refuse to accept the benefit offered. But to such counties the fund for all the children is apportioned every year and is either wasted or lies unused in the county treasury. This has been the means of locking up in the various county treasuries many thousands of dollars of the fund, where it now lies doing no good, but acting as a standing temptation to its custodians. I believe that a better plan would be to apportion the fund with the attendance on the schools the previous year as a basis, but this seems to be inhibited by sec. 5, of art. 7, of the constitution. I suggest as a partial remedy that each county and city be required to return to the State Treasury, to be credited to the available school fund account at the end of each scholastic year, all the unexpended available fund on hand. This office has advised county judges in extreme cases to return unexpended funds of districts and communities to the county general fund for redistribution. It has been done in some cases and I believe had a good effect. I very much doubt, however, if under the law the State Superintendent has power to make such a regulation. At all events it is a matter worthy of the consideration of the Legislature.

SAM HOUSTON NORMAL INSTITUTE.

Sam Houston Normal Institute continues to grow in merit. It has done a wonderful work for Texas and if liberally supported will increase in usefulness each succeeding year. Teachers who have attended this institution may be found in every county and in almost every city. In every instance they are worthy and competent. The faculty reports submitted herewith show the operations of the institute during the past two terms. In every way they show most satisfactory results. The institute began its present session on the fifteenth day of September last and has enrolled 182 students. The State students number one from each senatorial district appointed by the Senator, one from each representative district appointed by the representative, and four from the State at large appointed by the Board of Education. The institute building is sadly in need of repair, the library small and the apparatus scanty. Its good work entitles it to the most careful consideration. I suggest an appropriation of one thousand dollars for repairs, one thousand dollars for apparatus, and one thousand dollars for library purposes. Aid from the Peabody education fund is being gradually withdrawn from the institute. For the past two sessions I have received three thousand dollars each, but for the present session only two thousand five hundred dollars have been appropriated by the trustees. The institute always opens about the middle of September, and the number of free students decided upon by the Board of Education as early as July. As the Peabody fund is not apportioned until October the Board of Education cannot possibly know what amount will be on hand for the support of the institute. The present session was arranged for on the supposition that the institute would receive as much as three thousand dollars from the Peabody education fund; so there may be a small deficiency, but of that my successor will be able to advise the Legislature with certainty, before it shall adjourn.

I am free to say that if the Legislature will give it a proper support the interests of the institute will be subserved when the Peabody fund is withdrawn entirely. Texas may not be said to be rich, but she can support her institutions without it, and she should therefore leave this charity fund for States not so fortunate.

PRAIRIE VIEW NORMAL SCHOOL.

This school is not under the management of this department, but it should be. It is a school for training teachers for the colored schools. It has a most excellent faculty, and is doing splendid work. It has accomplished

much in elevating the standard of the colored teachers of the State. It is a part of the common school system, supported from the common school fund, and should be managed and controlled by this department.

TEACHERS' NORMALS.

I have said that the advancement of our teachers is marvelous. The teachers of a few years ago and the teachers of to-day are not to be compared. But of "the teachers of to-day" we have not a sufficient number. The demand of the hour is for better facilities for the education of teachers. The two State normals have not the capacity to accommodate the large number of our young men and women who, if opportunity offered, would seek special training and become professional teachers. It is matter of very great surprise that the State seems not to appreciate the necessity for trained experts in our public schools. If it is important that the minister should understand his calling, and that the physician should know how to diagnose a disease and apply the remedy, it is also of the greatest moment that the teacher who develops the minds of our children should be trained in the science of elevating them rather than be left to warp and mar them. Missouri, with a much smaller territory and a much smaller fund, wisely supports six normal schools. Many of the other States are likewise working diligently in the education of their teachers. But to this date Texas has contented herself with one school for the white and one for the colored teachers. I respectfully submit that no time should be lost in establishing two more normals for white teachers, one in West and one in North Texas, and one for colored teachers in East Texas, where so many of that people reside.

SCHOOL BOOKS.

I again most earnestly recommend that provision be made for uniformity in school books. I fear that gentlemen of the Legislature have not heretofore realized the enormous expense attending the present mode of selecting books. Whatever interested parties may say as to the merits and demerits of the various publications, the best educators know that all school books now in use are nearly of equal merit, and that it is a matter of small importance which a child may use. It is rather a question of expense than one of the merits of the various books. My views expressed in other reports upon this subject have undergone no change. The years that have passed have strengthened me in the belief that the demand for uniformity is imperative. The sum annually expended for school books cannot fall far short of half a million dollars. Not only do the frequent and unnecessary changes in books help to make up this large sum, but the prices demanded for the books are

unreasonable and extortionate. These prices are a grievous burden to the poor parent, and instances are not wanting in which they have effectually barred the door of the school house against the poor. I admit that other States have failed in efforts to remedy this evil, but I believe that the failures can be safely attributed to a want of nerve and perseverance. The State has assumed the power to maintain public schools, and the right to manage and make rules for their government follows. It is said that the right of the parent to select the books his child shall study should not be taken away; that popular prejudice is against the proposition. The universal demand for uniformity shows that the argument is without foundation. Besides, it is a well known fact that it is not the parent, but the teacher, who selects the books. Other benefits would also arise from uniformity. The Superintendent of Public Instruction, knowing the books that would be in use in a certain county, would be able to prescribe a course of study for the schools of that county, and thus practically GRADE the country schools. As the matter now stands, with all sorts of books in every school, he cannot do so; the result being that the cities with graded schools march smoothly on, while the rural schools scamper hither and thither without object or aim.

BOARD OF EDUCATION.

The Superintendent of Public Instruction is selected with special reference to his fitness to conduct the educational interests of the State. The general public holds him responsible, and it is fair to presume that he understands the duties of the position better than others who give those duties little or no attention. The people impose no higher trust upon the government than the supervision of the education of their children. I hold therefore that the Department of Education ought to made an entirely independent one, with a head not subject to the dictation of other officers. The Governor, Comptroller, and Secretary of State, the officers who compose the Board of Education, have enough to do to occupy their whole time in discharging the duties particularly appertaining to their several offices, without being called upon to determine the correctness of the rulings of the Superintendent of Public Instruction upon subjects with which they are in no way familiar. Such a power bestowed on a board cripples the influence of the Superintendent, and in many instances renders him powerless to amicably settle the most trying differences between inferior officers. The Superintendent is selected by the people just as the Governor and Comptroller are selected, and there is as much reason for a board to act upon the decisions of those officers as upon the decisions of the Superintendent;

better reason, if the boards were chosen with reference to their understanding of the matters they were to act upon. I unhesitatingly state that the several Boards of Education since 1873, notwithstanding they were composed of gentlemen of distinguished ability and upright character, have been potent factors in retarding the advance of popular education and the successful administration of the school law.

TRUSTEES.

In district counties trustees can only be removed in the manner provided for the removal of county and district officers. Instances have occurred in which schools have been wrecked through the friendship or enmity of trustees for or against teachers, and the refusal of trustees to submit to the rulings of county judges. Some quicker and less expensive method should be provided for the removal of trustees in proper cases. I can see no reason why they should not be removed by county judges in *ex parte* proceedings at the instance of a majority of the voters of the districts. It is certain that the mode of removal should be simple, speedy and expenseless.

Trustees should not be paid for taking scholastic census. It is a duty discharged with small labor and at the expense of but little time. Any district can supply three men of patriotism enough to do so small a thing in the interest of education. But if it is determined to continue paying them, some better arrangement for doing so than the present mode should be sought. It would be well to require them to file their accounts with the county judge, require the county judge to report same to this department, and the Comptroller to pay same through a warrant in favor of the county treasurer, who disburses the remainder of the school fund. If county superintendents are provided for, they should be required to take the census, and of course without pay, if they are paid salaries, as I imagine will be considered the best plan for remunerating them.

ELECTIONS TO LEVY LOCAL TAXES.

Many of the school districts do not contain twenty property tax paying voters, and consequently under the present law cannot petition the county commissioners' court for an election to determine if a district school tax shall be levied on the district. These districts should be granted the privileges accorded to the more fortunate, more populous ones, and I trust that they will be allowed the right to tax themselves for the purpose of enabling them to increase the scholastic age, lengthen the school term, and making their schools more efficient:

This is quite an important matter, if I am right in believing that the success of our school system depends largely upon the levy of local school taxes.

SCHOOL HOUSES, FURNITURE, ETC.

Nothing lends more to the success of a school than permanency of the place at which it is to be taught—this permanency is best obtained by a substantial, well equipped building. As long as the school is held in a house not the property of the State, there will be danger of neighborhood strife and bickering. The State should own a house in every school neighborhood, and supply it with modern furniture. While the present law offers some inducements for building houses, many neighborhoods are too poor to avail themselves of its provisions. I respectfully suggest a more liberal provision on this subject. With a county superintendent to advise the location, select the plans and direct the work, I believe it would be advisable to permit a district or community to use a whole year's fund, without supplementing it with labor, money or material, as required by the present law.

NEWLY ORGANIZED COUNTIES.

I call attention to the fact that counties which have organized since the enactment of the law of 1884 are not designated either as district or community counties. This department has not known under which system to place them, and they have been permitted to conduct the schools under the system chosen by their local officers. Other counties will be organized from time to time, and of course it is important that the law give them a definite status in the educational system of the State.

FAILURE OF COUNTY OFFICERS TO MAKE REPORTS.

An inspection of the accompanying tables will show that several county judges, county treasurers, city superintendents and city treasurers have failed to make reports to this department as directed by law. I have used every exertion to secure these reports. The Legislature cannot be accurately informed of the condition of affairs unless the officers of government make prompt and faithful reports to the proper departments. It will be noticed in some cases that the reports when made are incomplete, unsatisfactory, and replete with mistakes. A great many of the officers named do not during the year keep data on which to base reports, and when the end comes make just such reports as may be convenient to them with a few hours' work. Again the necessity for county superintendents becomes apparent. To obtain faithful work you must employ men in sympathy with

that work. I regret to be compelled to say that the statistics herein presented are in some instances unreliable, because they are made up from reports that cannot be relied on. In several instances the errors in reports are so apparent that to rescue the character for correctness of my own report I have altogether omitted the items. Justices of the peace and other officers are punished for failing to make required reports. Why should not the officers whose duty it is to make reports to this department be punished penally for refusing to comply with the law?

TRAVELING FUND OF SUPERINTENDENT.

It is often necessary for the Superintendent of Public Instruction to leave the capital and visit schools for the purpose of arousing educational interest, settling disputes, ascertaining if the schools are being conducted in accordance with law, etc. To enable him to do so without financial embarrassment a small traveling fund should be placed at his disposal. The meagre salary paid him is insufficient to enable him to bear these expenses himself, and it is unjust to require him to pay them.

UNUSED SCHOOL FUND.

Much of the school fund lies from year to year in the several county treasuries to the credit of districts and communities. County judges should be required to return all unexpended balances to the general county fund at the end of each scholastic year unless convinced by proper evidence adduced that it is reserved for the purpose of building school houses. I suggest also that in some counties large sums have been kept in the treasuries because not apportioned by the county judges. In all cases the fund so unexpended ought to be returned to the State Treasury as a part of the general fund or deducted from the next year's apportionment of the available school fund.

TAXATION.

There is a widespread belief that the time is not distant when the State can discontinue the levy of a tax for the support of the public schools. Public speakers and the press have repeatedly asserted that a proper management of the permanent fund already on hand and the school lands not yet disposed of will supply a sufficient annual revenue for the schools. The people have been educated to look forward to the consummation of these expressed hopes and have therefore been slow to acquiesce in such a tax as will always be necessary. In addition they have from the same cause failed in a great majority of instances to levy the local taxes permitted by law. These promises by those who lead public sentiment are inexcusable, for the

slightest investigation will disclose the fact that the time when the school tax can be discontinued without destroying the schools will never come.

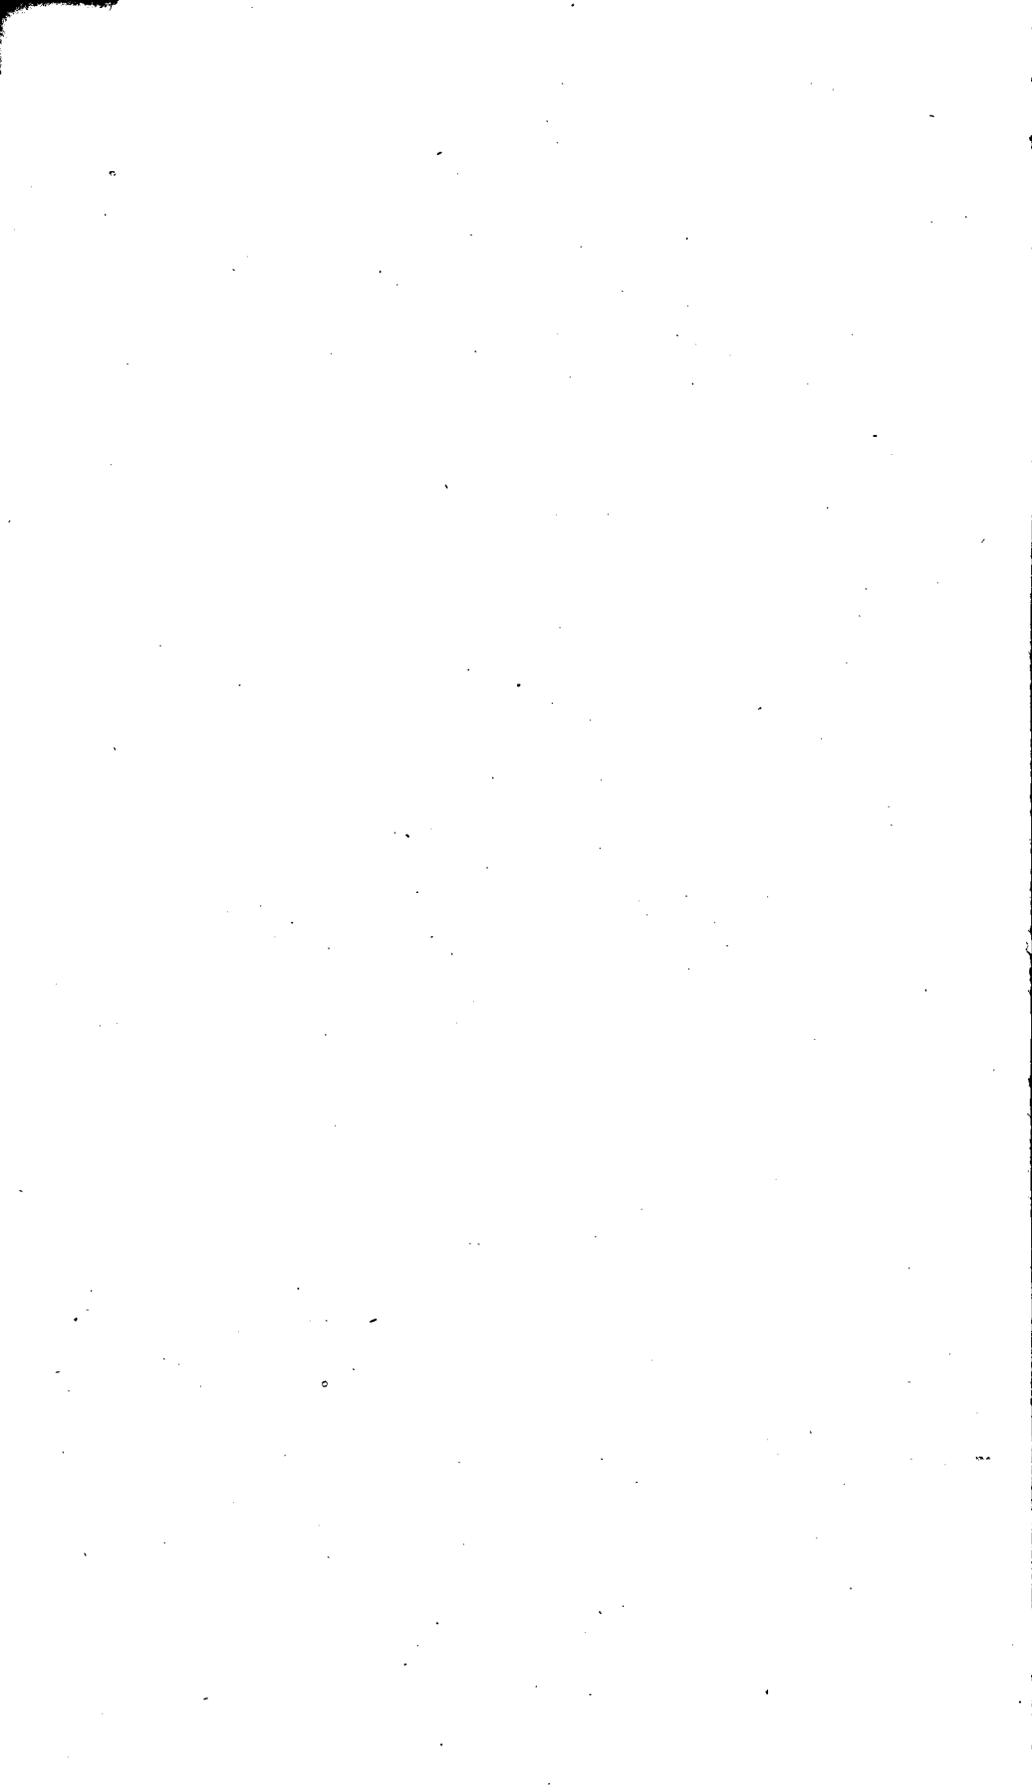

The amount of permanent fund now on hand, including State, county and railroad bonds and land notes, is about \$11,217,990. From this source a larger annual revenue than \$660,000 can not be expected. Of school lands not disposed of, there remain about 23,000,000 acres. If these lands were all disposed of at two dollars per acre the sum realized therefrom added to the permanent fund on hand would give us about \$57,217,990. This sum at 6 per cent per annum would bring us annually about \$3,433,000. It has been demonstrated that less than \$6 per capita will not maintain the schools for six months. Our scholastic age extends now only between eight and sixteen years. The scholastic age should include all between seven and twenty-one years of age, and the school term should not be less than seven months. In that case the natural increase of children would be about 12 per cent yearly, and it must not be forgotten that under any sort of regulations years must elapse before even three-fourths of the school lands are disposed of. In this connection it may be well to state that many districts and communities are practically without school houses. The schools are being taught in rented houses, in dwellings, in church houses, and public halls. The time has arrived for looking these matters squarely in the face, and the situation demands provision for present needs and active preparation for future wants.

CITIES AND TOWNS.

Until recently the cities and towns were slow to avail themselves of the law permitting them to assume control of the schools within their limits. Latterly, however, many of the smaller towns have acted, and it is anticipated that soon all or nearly all of them having three or four hundred inhabitants will take advantage of the law granting them exclusive privileges. In this view of the matter I submit that the laws relating to cities and towns are in a chaotic form, standing badly in need of revision, and place the cities and towns actually under them with too many important powers and makes them too nearly independent of the Department of Education. The duties and powers of city councils and boards of trustees should be more clearly defined, the chances for conflicts of the jurisdictions of the two should be removed, and both should be placed more definitely under the jurisdiction of this department. I suggest also that there is now no provision under which a city or town which has assumed control of the schools within its limits can surrender such control. Incidents have occurred showing a pressing necessity for such a provision, and I trust that it will be made.

STATISTICAL TABLES.

STATISTICS FOR THE YEAR 1884-5.

TABLE A—DISTRICT.

County Judges' Annual Reports for the Year ending August 31, 1885.

| Counties. | Schools Organized. | | | Schools Maintained. | | | Scholastic Population Reported by Districts. | | | Pupils Enrolled in School and receiving Tuition Free of Charge. | | | Pupils Paying Tuition. | Grand Total. | Average School Term, in Months. | |

SUMMARY OF TABLE D.

| | Counties Reporting. |
|---|---------------------|
| Number of certificates held by white male teachers of the first grade..... | 1738 |
| Number of certificates held by white male teachers of the second grade..... | 2025 |
| Number of certificates held by white male teachers of the third grade..... | 361 |
| Total..... | 4210 |
| Number of certificates held by white female teachers of the first grade..... | 518 |
| Number of certificates held by white female teachers of the second grade..... | 884 |
| Number of certificates held by white female teachers of the third grade..... | 215 |
| Total..... | 1648 |
| Number of certificates held by colored male teachers of the first grade..... | 264 |

SUMMARY OF TABLE D.

(CONTINUED.)

| | | Counties Reporting. |
|---|------|---------------------|
| Number of certificates held by colored male teachers of the second grade..... | 698 | 92 |
| Number of certificates held by colored male teachers of the third grade..... | 338 | 74 |
| Total..... | 1303 | 104 |
| Number of certificates held by colored female teachers of the first grade..... | 30 | 22 |
| Number of certificates held by colored female teachers of the second grade..... | 191 | 67 |
| Number of certificates held by colored female teachers of the third grade..... | 175 | 71 |
| Total..... | 426 | 92 |
| Teachers employed—Grand total..... | 7666 | 158 |
| Number of school houses built during the year..... | 322 | 108 |
| Number of frame school houses belonging to the State..... | 1464 | 131 |
| Number of brick school houses belonging to the State..... | 3 | 2 |
| Number of stone school houses belonging to the State..... | 24 | 13 |
| Number of school houses in good condition..... | 1022 | 109 |
| Number of school houses in indifferent condition..... | 393 | 112 |
| Total number of school houses belonging to the State in the name of the County..... | 1719 | 124 |

NOTE.—In this table some of the County Judges reported the *total* number of teachers, not giving grades, hence the apparent discrepancy in addition, etc.

TABLE E.
Financial Statement Rendered by County Judges.

| Counties. | Value of school houses built during the year. | Acres of county school land not sold. | Average salary per month paid teachers. | | | | Total amount paid teachers from public school fund. | Total amount paid teachers from private school fund. | Grand total paid teachers. | Average rate of tuition of pupils of scholastic age as per actual attendance. | | Average rate of tuition as per actual enrollment in school. | Scholastic population as per assessor's abstract for 1884-5. | Amount state fund apportioned for 1884-3. |

SUMMARY OF TABLE E.

| | | Counties Reporting. |
|--|----------------|---------------------|
| Value of school houses built during the year | \$109,642 23 | 107 |
| Total number of acres of county school land not sold . . | 885,474 | 73 |
| Average salary paid white male teachers per month . . | \$56 72 | 150 |
| Average salary paid white female teachers per month . . | 40 24 | 146 |
| Average salary paid colored male teachers per month . . | 41 05 | 102 |
| Average salary paid colored female teachers per month . . | 35 25 | 86 |
| Total amount paid teachers from public school fund . . . | 1,606,721 39 | 153 |
| Total amount paid teachers from private school fund . . . | 73,307 94 | 69 |
| Grand total paid teachers | 1,680,029 33 | 154 |
| Average rate of tuition of white pupils of scholastic age as per actual attendance | 2 72 | 115 |
| Average rate of tuition of colored pupils of scholastic age as per actual attendance | 2 52 | 90 |
| Average rate of tuition of pupils of scholastic age as per actual enrollment in school | 2 08 | 113 |
| Total scholastic population as per assessors' abstract for 1884-5 | 249,887 | 161 |
| Total amount of state apportionment for 1884-5 | \$1,749,435 00 | 161 |

SUMMARY OF TABLE I.

| | | Cities and Towns Reporting. |
|---|-------|--------------------------------|
| Number of white pupils 8 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 2635 | 43 |
| Number of colored pupils 8 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 1263 | 31 |
| Total | 3898 | 45 |
| Number of white pupils 9 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 1709 | 42 |
| Number of colored pupils 9 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 779 | 32 |
| Total | 2481 | 44 |
| Number of white pupils 10 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 1241 | 42 |
| Number of colored pupils 10 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 544 | 30 |
| Total | 1785 | 43 |
| Number of white pupils 11 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 797 | 33 |
| Number of colored pupils 11 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 246 | 30 |
| Total | 1043 | 39 |
| Number of white pupils 12 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 493 | 31 |
| Number of colored pupils 12 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 303 | 27 |
| Total | 801 | 37 |
| Number of white pupils 13 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 369 | 29 |
| Number of colored pupils 13 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 210 | 25 |
| Total | 579 | 33 |
| Number of white pupils 14 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 158 | 25 |
| Number of colored pupils 14 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 123 | 18 |
| Total | 281 | 29 |
| Number of white pupils 15 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 119 | 15 |
| Number of colored pupils 15 years of age deficient in the four fundamental rules of arithmetic at the beginning of term | 77 | 17 |
| Total | 196 | 25 |
| Grand total | 11349 | 47 |
| Number of white pupils 8 years of age deficient in the four fundamental rules of arithmetic at the end of term | 1777 | 42 |
| Number of colored pupils 8 years of age deficient in the four fundamental rules of arithmetic at the end of term | 950 | 31 |
| Total | 2727 | 44 |
| Number of white pupils 9 years of age deficient in the four fundamental rules of arithmetic at the end of term | 868 | 39 |
| Number of colored pupils 9 years of age deficient in the four fundamental rules of arithmetic at the end of term | 499 | 31 |
| Total | 1367 | 42 |
| Number of white pupils 10 years of age deficient in the four fundamental rules of arithmetic at the end of term | 439 | 28 |
| Number of colored pupils 10 years of age deficient in the four fundamental rules of arithmetic at the end of term | 290 | 26 |
| Total | 729 | 35 |
| Number of white pupils 11 years of age deficient in the four fundamental rules of arithmetic at the end of term | 259 | 22 |
| Number of colored pupils 11 years of age deficient in the four fundamental rules of arithmetic at the end of term | 199 | 25 |
| Total | 451 | 33 |
| Number of white pupils 12 years of age deficient in the four fundamental rules of arithmetic at the end of term | 181 | 19 |

SUMMARY OF TABLE I.

(CONTINUED.)

| | Cities and Towns Reporting. | |
|---|-----------------------------|----|
| Number of colored pupils 12 years of age deficient in the four fundamental rules of arithmetic at the end of term | 152 | 22 |
| Total | 333 | 28 |
| Number of white pupils 13 years of age deficient in the four fundamental rules of arithmetic at the end of term | 102 | 18 |
| Number of colored pupils 13 years of age deficient in the four fundamental rules of arithmetic at the end of term | 110 | 19 |
| Total | 212 | 28 |
| Number of white pupils 14 years of age deficient in the four fundamental rules of arithmetic at the end of term | 77 | 14 |
| Number of colored pupils 14 years of age deficient in the four fundamental rules of arithmetic at the end of term | 55 | 9 |
| Total | 132 | 17 |
| Number of white pupils 15 years of age deficient in the four fundamental rules of arithmetic at the end of term | 30 | 7 |
| Number of colored pupils 15 years of age deficient in the four fundamental rules of arithmetic at the end of term | 20 | 6 |
| Total | 50 | 10 |
| Total gain | 5202 | 47 |

NOTE.—In a few reports totals were given without regard to sex, color, and respective ages, hence an apparent discrepancy in totals.

TABLE J.
Cities and Towns—Attendance and Progress.

| Cities and Towns. | Total Daily Attendance of Pupils of Scholastic Age. | | | Average Daily Attendance of Pupils of Scho. Age. | | | No. of Pupils instructed in the following branches. | | | | | | | | | | |

NOTE.—The record shows for 1881-82 a scholastic population of 266,729, including cities and towns. Amount appropriated for the support of same, \$900,000.00.

NOTE.—The census report for 1881-82 was destroyed when the old capitol burned. The scholastic population and amount of school fund apportioned was copied from the county judge's annual report, which at best is very incomplete, and not at all satisfactory.

SUMMARY OF TABLE P.

| | Popula- tion. | Amount Apportioned. | Increase. | Decrease. | Counties Report'g |
|--|------------------|------------------------|----------------|--------------|----------------------|
| Scholastic population for the year commencing September 1, 1878, and ending August 31, 1879, | 198,489 | | | | 152 |
| School fund apportioned for the year commencing September 1, 1878, and ending August 31, 1879, | | \$857,968 70 | | | 152 |
| Scholastic population for the year commencing September 1, 1879, and ending August 31, 1880, | 218,620 | | 20,131 | | 154 |
| School fund apportioned for the year commencing September 1, 1879, and ending August 31, 1880, | | 655,860 00 | | \$202,108 70 | 154 |
| Scholastic population for the year commencing September 1, 1880, and ending August 31, 1881, | 243,871 | | 25,251 | | 159 |
| School fund apportioned for the year commencing September 1, 1880, and ending August 31, 1881, | | 731,613 00 | \$75,753 00 | | 159 |
| Scholastic population for the year commencing September 1, 1881, and ending August 31, 1882, | 164,468 | | | 79,403 | 126 |
| School fund apportioned for the year commencing September 1, 1881, and ending August 31, 1882, | | 534,521 00 | | \$197,092 00 | 126 |
| Scholastic population for the year commencing September 1, 1882, and ending August 31, 1883, | 264,473 | | 100,005 | | 175 |
| School fund apportioned for the year commencing September 1, 1882, and ending August 31, 1883, | | 956,234 00 | \$421,713 00 | | 175 |
| Scholastic population for the year commencing September 1, 1883, and ending August 31, 1884, | 274,466 | | 993 | | 178 |
| School fund apportioned for the year commencing September 1, 1883, and ending August 31, 1884, | | 1,235,097 00 | \$298,863 00 | | 178 |
| Scholastic population for the year commencing September 1, 1884, and ending August 31, 1885, | 349,887 | | 75,221 | | 185 |
| School fund apportioned for the year commencing September 1, 1884, and ending August 31, 1885, | | 1,749,435 00 | \$514,338 00 | | 185 |
| Scholastic population for the year commencing September 1, 1885, and ending August 31, 1886, | 386,137 | | 36,250 | | 191 |
| School fund apportioned for the year commencing September 1, 1885, and ending August 31, 1886, | | 2,007,912 40 | \$258,477 40 | | 191 |
| Scholastic population for the year commencing September 1, 1886, and ending August 31, 1887, | 412,380 | | 26,243 | | 188 |
| School fund apportioned for the year commencing September 1, 1886, and ending August 31, 1887, | | 1,958,805 00 | | 49,107 40 | 188 |
| Total increase in scholastic population from September 1, 1878, to August 31, 1887. | | | 213,891 | | |
| Total increase of school fund apportioned from September 1, 1878, to August 31, 1887. | | | \$1,100,836 30 | | |

Report of Superintendent of Public Instruction.

TABLE Q.

Showing the Relative Increase or Decrease in Scholastic Population and Amount of School Fund Apportioned from Year Beginning September 1st, 1878, to August 31st, 1887.

| Cities and Towns. | 1878-79. | | 1879-80. | | 1880-81. | | 1881-82. | | 1882-83. | | 1883-84. | | 1884-85. | | 1885-86. | | 1886-87. | | |

Report of Superintendent of Public Instruction.

SUMMARY OF TABLE Q.

| | Popula- tion. | Amount Apportioned. | Increase. | Decrease. | Cities Report'g |
|--|------------------|------------------------|--------------|-------------|--------------------|
| Scholastic population for the year commencing September 1, 1878, and ending August 31, 1879, | 6,088 | | | | 11 |
| School fund apportioned for the year commencing September 1, 1878, and ending August 31, 1879, | | \$18,146 77 | | | 11 |
| Scholastic population for the year commencing September 1, 1879, and ending August 31, 1880, | 7,819 | | 1,731 | | 17 |
| School fund apportioned for the year commencing September 1, 1879, and ending August 31, 1880, | | 29,780 15 | \$11,633 38 | | 19 |
| Scholastic population for the year commencing September 1, 1880, and ending August 31, 1881, | 18,000 | | 10,181 | | 29 |
| School fund apportioned for the year commencing September 1, 1880, and ending August 31, 1881, | | 54,000 00 | \$24,219 85 | | 29 |
| Scholastic population for the year commencing September 1, 1881, and ending August 31, 1882, | *3,930 | | | 14,070 | 2 |
| School fund apportioned for the year commencing September 1, 1881, and ending August 31, 1882, | | *31,133 09 | | \$22,866 91 | 12 |
| Scholastic population for the year commencing September 1, 1882, and ending August 31, 1883, | 30,984 | | 27,054 | | 42 |
| School fund apportioned for the year commencing September 1, 1882, and ending August 31, 1883, | | 112,089 00 | \$80,955 81 | | 43 |
| Scholastic population for the year commencing September 1, 1883, and ending August 31, 1884, | 36,668 | | 5,684 | | 50 |
| School fund apportioned for the year commencing September 1, 1883, and ending August 31, 1884, | | 164,776 50 | \$52,687 50 | | 50 |
| Scholastic population for the year commencing September 1, 1884, and ending August 31, 1885, | 56,687 | | 20,019 | | 73 |
| School fund apportioned for the year commencing September 1, 1884, and ending August 31, 1885, | | 283,435 00 | \$118,658 50 | | 73 |
| Scholastic population for the year commencing September 1, 1885, and ending August 31, 1886, | 66,541 | | 9,854 | | 82 |
| School fund apportioned for the year commencing September 1, 1885, and ending August 31, 1886, | | 346,013 20 | \$62,578 20 | | 82 |
| Scholastic population for the year commencing September 1, 1886, and ending August 31, 1887, | 77,415 | | 10,874 | | 93 |
| School fund apportioned for the year commencing September 1, 1886, and ending August 31, 1887, | | 367,721 25 | \$21,708 05 | | 93 |
| Total increase in scholastic population from September 1, 1878, to August 31, 1887, | | | 71,327 | | |
| Total increase of school fund apportioned from September 1, 1878, to August 31, 1887, | | | \$349,574 48 | | |

NOTE.—In 1878 eleven cities and towns had assumed control of their public schools; in 1886 ninety-three cities and towns had assumed control of their public schools.

* See notes under Table P.

SUMMARY OF TABLE S.

| | Popula- tion. | Apportionment. | Increase. | Cities Report'g |
|---|------------------|----------------|--------------|--------------------|
| Total white male scholastic population for the year beginning September 1, 1883, ending August 31, 1884.... | 13,866 | | | 51 |
| Total white female scholastic population for the year beginning September 1, 1883, ending August 31, 1884.... | 13,294 | | | 51 |
| Total colored male scholastic population for the year beginning September 1, 1883, ending August 31, 1884.... | 4,563 | | | 47 |
| Total colored female scholastic population for the year beginning September 1, 1883, ending August 31, 1884.... | 4,945 | | | 47 |
| Grand total scholastic population for the year beginning September 1, 1883, ending August 31, 1884.... | 36,668 | | 5,684 | 51 |
| School fund apportioned for the year beginning September 1, 1883, ending August 31, 1884..... | | \$164,776 50 | \$52,687 50 | 51 |
| Total white male scholastic population for the year beginning September 1, 1884, ending August 31, 1885.... | 20,984 | | | 75 |
| Total white female scholastic population for the year beginning September 1, 1884, ending August 31, 1885.... | 21,796 | | | 75 |
| Total colored male scholastic population for the year beginning September 1, 1884, ending August 31, 1885.... | 6,549 | | | 66 |
| Total colored female scholastic population for the year beginning September 1, 1884, ending August 31, 1885.... | 7,470 | | | 66 |
| Grand total scholastic population for the year beginning September 1, 1884, ending August 31, 1885.... | 56,799 | | 20,131 | 75 |
| School fund apportioned for the year beginning September 1, 1884, ending August 31, 1885..... | | 283,435 00 | \$118,658 50 | 75 |
| Total white male scholastic population for the year beginning September 1, 1885, ending August 31, 1886.... | 24,275 | | | 81 |
| Total white female scholastic population for the year beginning September 1, 1885, ending August 31, 1886.... | 24,979 | | | 81 |
| Total colored male scholastic population for the year beginning September 1, 1885, ending August 31, 1886.... | 8,236 | | | 72 |
| Total colored female scholastic population for the year beginning September 1, 1885, ending August 31, 1886.... | 9,051 | | | 72 |
| Grand total scholastic population for the year beginning September 1, 1885, ending August 31, 1886.... | 66,541 | | 9,742 | 81 |
| School fund apportioned for the year beginning September 1, 1885, ending August 31, 1886..... | | 346,013 20 | \$62,578 20 | 81 |
| Total white male scholastic population for the year beginning September 1, 1886, ending August 31, 1887.... | 28,139 | | | 93 |
| Total white female scholastic population for the year beginning September 1, 1886, ending August 31, 1887.... | 28,468 | | | 93 |
| Total colored male scholastic population for the year beginning September 1, 1886, ending August 31, 1887.... | 9,962 | | | 93 |
| Total colored female scholastic population for the year beginning September 1, 1886, ending August 31, 1887.... | 10,846 | | | 93 |
| Grand total scholastic population for the year beginning September 1, 1886, ending August 31, 1887.... | 77,415 | | 10,874 | 93 |
| School fund apportioned for the year beginning September 1, 1886, ending August 31, 1887..... | | 367,721 25 | \$21,708 05 | 93 |
| Total increase in scholastic population since September 1, 1883..... | | | 40,747 | |
| Total increase in scholastic apportionment since September 1, 1883..... | | | \$202,944 75 | |

1. NOTE.—In 1884 the scholastic age was changed from 8 to 14 years of age to 8 to 16, hence the great increase in population from previous year.

2. NOTE.—In considering the increase in scholastic population and amount of school fund apportioned for the respective years, we must also consider the number of towns having assumed control of public schools, and the increase of the pro rata of the public fund, etc.

3. NOTE.—In 1883 fifty-one cities had assumed control of public schools, and reported a scholastic population of 13,866, and amount of school fund apportioned, \$164,776.50.

4. NOTE.—In 1886 ninety-three cities reported a scholastic population of 77,415; amount apportioned, \$367,721.25. Increase since September 1, 1886: population, 40,747; apportionment, \$202,944.75.

SAM HOUSTON NORMAL INSTITUTE

SESSION 1884-5.

To the Honorable State Board of Education:

GENTLEMEN — I have the honor to submit the following report of the work of the Sam Houston Normal Institute during its sixth annual session:

The 213 students enrolled represent 102 counties. The plan of having each senator and representative appoint one student, and of having each State student pay \$5 a month on board, works well, and its continuance is recommended. In cases where new students are to be appointed, competitive examinations, it is believed, will give the best results.

The Local Board and Faculty have studied the utmost economy, to keep our expenses within our resources.

FINANCIAL STATEMENT.

RESOURCES.

| | |
|---|--------------------|
| Net balance September 15, 1885 (in local treasury)..... | \$ 697 01 |
| State appropriation..... | 18,000 00 |
| Peabody fund..... | 3,000 00 |
| Board and incidental fees..... | 6,505 15 |
| Total resources..... | \$28,202 16 |

EXPENDITURES.

| | |
|---|--------------------|
| Faculty..... | \$ 9,900 00 |
| Boarding students..... | 17,888 00 |
| Text books..... | 142 10 |
| Incidental expenses and improvements..... | 766 43—\$28,196 53 |
| Balance June 15, 1886..... | \$ 5 63 |

On board and incidental fees \$179.50 have not been paid to date. The board and incidental expenses for May and June are estimated in the above, but will not exceed, it is believed, the amounts given.

The manuscript for the eighth annual catalogue is herewith submitted for your consideration. Last year but 2000 catalogues were printed, and this number fell short of the actual demand fully 1000. The call for catalogues is rapidly increasing. Your Board is earnestly asked to order 3500 printed. We also venture to request the immediate printing of catalogue, that our students may have copies to take with them when they return home, and also that those wishing to enter the school next session may secure timely information. Already requests have come in for hundreds of catalogues.

The session now near its close has been the most satisfactory in the history of the Institution. The utmost harmony, within and without, has prevailed throughout the year. With our increased facilities we have been

enabled to do better work than ever before, and our graduating classes, numbering 148, will go out remarkably well prepared for the work.

Respectfully submitted,

J. BALDWIN,
Principal S. H. N. Institute.

To the Honorable State Board of Education:

GENTLEMEN — The sixth annual session of the Sam Houston Normal Institute closed June 11, 1885.

The following table shows a steady increase in attendance during the six years since the establishment of the school:

ANNUAL ENROLLMENT.

| | |
|--|-----|
| First Year, 1879-80, State Students, 68; Pay Students, 42..... | 110 |
| Second Year, 1880-81, State Students, 95; Pay Students, 49..... | 144 |
| Third Year, 1881-82, State Students, 130; Pay Students, 35..... | 165 |
| Fourth Year, 1882-83, State Students, 155; Pay Students, 35..... | 190 |
| Fifth Year, 1883-84, State Students, 130; Pay Students, 70..... | 200 |
| Sixth Year, 1884-85, State Students, 159; Pay Students, 47..... | 206 |

GRAND TOTAL.

| | |
|--|-----|
| Whole number of different students..... | 910 |
| Number of counties represented during past session | 84 |

GRADUATING CLASSES.

| | |
|---|-----|
| Class of June, 1880, two years' course..... | 37 |
| Class of June, 1881, two years' course..... | 55 |
| Class of June, 1882, two years' course..... | 78 |
| Class of June, 1883, two years' course..... | 77 |
| Class of June, 1884, two years' course, 56—three years' course, 45..... | 101 |
| Class of June, 1885, two years' course, 90—three years' course, 28..... | 118 |
| Total number..... | 461 |

No effort has been made to secure large numbers, but rather the best material for making efficient teachers. None are admitted under eighteen years of age, or who do not possess a good knowledge of the common branches. All students sign a pledge to teach in the public schools of the State.

The standard for admission has been steadily raised as the educational facilities of the State have become more efficient. The aim is to make this strictly a professional school for preparing trained teachers for the public schools of Texas. Academic instruction is given only so far as we find it absolutely necessary, and this necessity, we are pleased to say, steadily diminishes from year to year, as the public schools, high schools, and colleges of the State become more thorough in their instruction.

The standard of graduation has been raised from year to year, and the course of study extended and made more thorough. The plan is to grant diplomas to none but efficient teachers—those who are proficient in scholarship, in the science of education and the art of teaching, and who have at least one year's successful experience.

Report of Superintendent of Public Instruction. 115

WORK OF THE SESSION.

The Faculty and students enjoyed remarkably good health during the session. The 206 students, representing every section of the State, deserve special mention for earnest work and good conduct. We are satisfied the graduating classes, like their predecessors, will do a good work for the State.

FINANCIAL STATEMENT FOR SCHOOL YEAR ENDING AUGUST 31, 1885.

RESOURCES.

| | |
|---|-------------|
| Balance incidental fund in hands local treasurer September 1, 1884..... | \$ 1,076 07 |

Respectfully submitted,

H. F. ESTILL,
Treasurer Local Board.

CURRENT YEAR.

The seventh annual session opened September 15, with a larger attendance and a more advanced class of students than any previous session.

Members of the Faculty are all at their posts, and are working with the utmost harmony, and doing vigorous and efficient work.

The outlook is indeed cheering.

Very respectfully submitted,

J. BALDWIN,
Principal S. H. N. Institute.

Huntsville, Texas, Oct. 1, 1885.

SUMMARY OF TABLE D.

| | | Counties Reporting |
|--|------|-----------------------|
| Number of first grade certificates held by white male teachers.. | 1896 | 160 |
| Number of second grade certificates held by white male teachers, | 2021 | 140 |
| Number of third grade certificates held by white male teachers, | 355 | 109 |
| Total certificates held by white male teachers | 4324 | 161 |
| Number of first grade certificates held by white female teachers, | 571 | 129 |
| Number of second grade certificates held by white female teachers, | 921 | 142 |
| Number of third grade certificates held by white female teachers, | 239 | 84 |
| Total certificates held by white female teachers..... | 1741 | 150 |
| Number of first grade certificates held by colored male teachers, | 278 | 75 |
| Number of second grade certificates held by colored male teachers | 820 | 99 |
| Number of third grade certificates held by colored male teachers, | 323 | 74 |
| Total certificates held by colored male teachers | 1436 | 119 |
| Number of first grade certificates held by colored female teachers, | 30 | 16 |
| Number of second grade certificates held by colored female teachers | 224 | 68 |
| Number of third grade certificates held by colored female teachers, | 181 | 64 |
| Total certificates held by colored female teachers | 440 | 89 |
| Grand total number of teachers employed..... | 7941 | 161 |
| Number of school houses built during the year..... | 321 | 111 |
| Number of school houses belonging to the State | 2234 | 145 |
| Number of frame school houses belonging to the State | 1996 | 146 |
| Number of brick school houses belonging to the State..... | 13 | 4 |
| Number of stone school houses belonging to the State..... | 27 | 15 |
| Number of box school houses | 32 | .. |
| Number of log school houses..... | 22 | .. |
| Number of jacal school houses | 2 | .. |
| Number of school houses in good condition | 1642 | 132 |
| Number of school houses in indifferent condition..... | 433 | 50 |

NOTE.—In this table some of the County Judges reported the *total* number of teachers, not giving grades, hence the apparent discrepancy in addition, etc.

TABLE E.

Financial Statement Rendered by County Judges for the Year beginning September 1, 1885, and ending August 31, 1886.

| Counties. | Value of school houses built during the year. | Acres of county school land not sold. | Average salary per month paid teachers. | | | | Total amount paid teachers from public school fund. | Total amount paid teachers from private funds. | Grand total paid teachers. | Average rate of tuition of pupils of scholastic age as per actual attendance. | | Average rate of tuition as per actual enrollment in school. | Scholastic population as per assessors abstract for 1885-6. | Amount state fund apportioned for 1885-6. |
|-----------|---|---------------------------------------|---|---------------|---------------|-----------------|---|--|----------------------------|---|----------|---|---|---|

Report of Superintendent of Public Instruction. 139

SUMMARY OF TABLE G.

| | Cities and Towns Reporting. | |
|--|--------------------------------|----|
| Number of white pupils 8 years of age who could not read at beginning of term | 1590 | 53 |
| Number of colored pupils 8 years of age who could not read at beginning of term | 991 | 43 |
| Total number of pupils 8 years of age who could not read at beginning of term | 2581 | 53 |
| Number of white pupils 9 years of age who could not read at beginning of term | 541 | 47 |
| Number of colored pupils 9 years of age who could not read at beginning of term | 439 | 39 |
| Total number of pupils 9 years of age who could not read at beginning of term | 980 | 47 |
| Number of white pupils 10 years of age who could not read at beginning of term | 176 | 37 |
| Number of colored pupils 10 years of age who could not read at beginning of term | 218 | 33 |
| Total number of pupils 10 years of age who could not read at beginning of term | 394 | 37 |
| Number of white pupils 11 years of age who could not read at beginning of term | 95 | 37 |
| Number of colored pupils 11 years of age who could not read at beginning of term | 153 | 33 |
| Total number of pupils 11 years of age who could not read at beginning of term | 248 | 37 |
| Number of white pupils 12 years of age who could not read at beginning of term | 68 | 22 |
| Number of colored pupils 12 years of age who could not read at beginning of term | 96 | 29 |
| Total number of pupils 12 years of age who could not read at beginning of term | 164 | 29 |
| Number of white pupils 13 years of age who could not read at beginning of term | 42 | 13 |
| Number of colored pupils 13 years of age who could not read at beginning of term | 53 | 22 |
| Total number of pupils 13 years of age who could not read at beginning of term | 95 | 22 |
| Number of white pupils 14 years of age who could not read at beginning of term | 22 | 8 |
| Number of colored pupils 14 years of age who could not read at beginning of term | 24 | 14 |
| Total number of pupils 14 years of age who could not read at beginning of term | 46 | 14 |
| Number of white pupils 15 years of age who could not read at beginning of term | 12 | 6 |
| Number of colored pupils 15 years of age who could not read at beginning of term | 14 | 8 |
| Total number of pupils 15 years of age who could not read at beginning of term | 26 | 8 |
| Grand total number of pupils who could not read at beginning of term | 4534 | 55 |
| Number of white pupils 8 years of age who could not read at the end of term | 156 | 20 |
| Number of colored pupils 8 years of age who could not read at the end of term | 173 | 26 |
| Total number of pupils 8 years of age who could not read at the end of term | 329 | 26 |
| Number of white pupils 9 years of age who could not read at the end of term | 53 | 12 |
| Number of colored pupils 9 years of age who could not read at the end of term | 59 | 12 |
| Total number of pupils 9 years of age who could not read at the end of term | 112 | 12 |
| Number of white pupils 10 years of age who could not read at the end of term | 25 | 10 |

SAM HOUSTON NORMAL INSTITUTE.

REPORT OF LOCAL BOARD.

To the Honorable Board of Education of the State of Texas:

GENTLEMEN—The Annual Catalogue of the Sam Houston Normal Institute and the accompanying reports, which are herewith submitted for your consideration, will advise you, in a general way, of the condition of the Institution and its progress during the present scholastic year.

Experience has fully demonstrated the wisdom of the change made by your Board in the manner of selecting State Students for this school, and the course of study and the general regulations for its government now in force seem well adapted to secure the ends for which they were established.

The school operations of the year have been characterized by earnestness, zeal, and harmony, both on the part of the faculty and students, and the most useful and prosperous year in the history of this school closed June 10, 1886, under circumstances highly encouraging to the friends of sound learning and assuring to those who desire higher qualifications for those who conduct our public free schools.

Very respectfully,

A. T. MCKINNEY,
G. W. GRANT,
BENTON RANDOLPH,

Local Board of Directors and Board of Visitors.

HUNTSVILLE, TEXAS, June 26, 1886.

REPORT OF PRINCIPAL.

To the Honorable State Board of Education:

GENTLEMEN—I have the honor to submit the following statements in reference to the Seventh Annual Session of the Sam Houston Normal Institute:

The Normal School was established by the State of Texas for the purpose of training competent teachers for the public schools.

The school is strictly professional, and its aim is to prepare teachers in the best possible manner for the work of the school room.

The primary object of each and every exercise is to impart efficiency, by cultivating in the students habits of systematic thinking, of clear and concise expression, and of order, that he may be fitted for the work of organizing, governing, and instructing in the public schools. This work recognizes the necessity of a thorough knowledge; first, of the law of growth or development of mind; second, of the branches of learning required to be taught; and third, of good methods of teaching.

Seven Departments are sustained. The principal, after the general management, devotes all his time and energies to strictly professional work. The other members of the faculty devote themselves to their respective departments. Each gives the necessary academic instruction, and thoroughly trains each student to teach the branches of his department.

Our work is special. We do not offer a general academic, college preparatory, or seminary education. We devote our whole time and energy to the training of teachers, and all our appliances have been gathered that we might offer better advantages to teachers. We invite all those who want to learn to teach, and those only. We want those who have good ability, good habits, and good purposes. We offer such our best help and encouragement. We can assist them greatly. When qualified to do good work as teachers we can help them to positions. One great public want is that of good teachers.

ATTENDANCE

The 215 students entered during the past session represent 102 counties. The following tables indicate the steady growth of the school. The increasing number of annual graduates is highly encouraging, as indicating great advances in the educational work throughout the State.

The record of the occupation of parent or guardian, and the nativity of the student, it is believed, will be of interest. Our books for the past session show the following results:

OCCUPATIONS OF PARENTS.

Farmers, 112; merchants, 33; physicians, 15; teachers, 12; mechanics, 10; officers, 9; stockmen, 8; lawyers, 8; ministers, 6; editors, 2.

NATIVITY OF STUDENTS.

Texas, 124; Mississippi, 15; Kentucky, 11; Alabama, 11; Tennessee, 10; Arkansas, 8; Georgia, 6; Missouri, 5; Indiana, 5; South Carolina, 4; Virginia, 4; Illinois, 2; Louisiana, 2; Iowa, 1; Kansas, 1; New Jersey, 1; New York, 1; North Carolina, 1; Ohio, 1; Pennsylvania, 1; England, 1.

GENERAL SUMMARY.

| | |
|---|-----|
| First Year, 1879-80, State Students, 68; Pay Students, 42..... | 110 |
| Second Year, 1880-81, State Students, 95; Pay Students, 49..... | 144 |
| Third Year, 1881-82, State Students, 130; Pay Students, 35..... | 165 |
| Fourth Year, 1882-83, State Students, 155; Pay Students, 35..... | 190 |
| Fifth Year, 1883-84, State Students, 130; Pay Students, 70..... | 200 |
| Sixth Year, 1884-85, State Students, 159; Pay Students, 47..... | 206 |
| Seventh Year, 1885-86, State Students, 140; Pay Students, 75..... | 215 |

GRAND TOTAL.

| | |
|---|-------|
| Whole number of different students..... | 1,054 |
| Number of counties represented during past session..... | 102 |

GRADUATING CLASSES.

| | |
|--|-----|
| Class of June, 1880, two years' course..... | 37 |
| Class of June, 1881, two years' course..... | 55 |
| Class of June, 1882, two years' course..... | 73 |
| Class of June, 1883, two years' course..... | 77 |
| Classes of June, 1884, two years' course, 56—two and a half years' course, 45..... | 101 |
| Classes of June, 1885, two years' course, 90—three years' course, 28..... | 118 |
| Classes of June, 1886, two years' course, 88—three years' course, 59..... | 147 |
| Total number..... | 608 |

After the school had graduated three classes, the course of study was extended from two to three years, but the class of 1884 were required to complete only two and a half years' work. Beginning with the class of 1885, none are classed as alumni who have not completed the full course of three years.

No effort has been made to secure large numbers, but rather the best material for making efficient teachers. None are admitted under eighteen years of age, or who do not possess a good knowledge of the common branches. All students sign a pledge to teach in the public schools of the State.

The standard for admission has been steadily raised as the educational facilities of the State have become more efficient. The aim is to make this strictly a professional school for preparing trained teachers for the public schools of Texas. Academic instruction is given only so far as we find it absolutely necessary, and this necessity, we are pleased to say, steadily diminishes from year to year, as the public schools, high schools, and colleges of the State become more thorough in their instruction.

The standard of graduation has been raised from year to year, and the course of study extended and made more thorough. The plan is to grant diplomas to none but efficient teachers — those who are proficient in scholarship, in the science of education and the art of teaching, and who have at least one year's successful experience. Though the standard has been raised more than one hundred per cent, the number graduating has steadily increased from year to year.

| Total expenditures..... | \$28,192 29 |
| Balance June 25, 1886..... | \$85 87 |

All expenditures are made upon vouchers examined and approved by the Principal, the Local Board, and the Superintendent of Public Instruction. The receipts, as above, from Board and Incidental Fees amounted to \$6,531.15. Each State Student pays a Board Fee of \$45.00 and all students an Incidental Fee of \$4.00.

The utmost economy has been necessary to keep our expenditures within our resources, as required by your Board.

NEEDS OF THE SCHOOL.

For four years we have not asked a dollar outside of the regular appropriation. However, we will be compelled to ask the Twentieth Legislature for a small appropriation for necessary repairs to our building, and additions to our apparatus and libraries.

LIBRARIES.

Four libraries are sustained, as follows:

I. TEXT-BOOK LIBRARY.

All *Text-Books* are furnished for use free of charge. Each student deposits *two dollars*, which is refunded when books are returned in good condition.

II. REFERENCE LIBRARY.

The design is to furnish students all desirable assistance, by means of encyclopedias, dictionaries, and leading text-books. We hope, ultimately, to secure for this library copies of the most important text-books published in this country. This library is now supplied with three encyclopedias—American, Chambers, and Britannica—and many other valuable works. To this library students have constant access

III. PROFESSIONAL LIBRARY.

This is kept in the principal's room, and is designed to embrace all books and reports that can aid teachers in their profession. This library now numbers about 500 volumes, embracing many of the most valuable works published, and is open to all students.

IV. GENERAL LIBRARY.

By the liberality of the Legislature, and generosity of publishers and others, a choice circulating library has been supplied, now numbering 2000 volumes. This library, also, is free to all students.

WORK OF NORMAL SCHOOLS.

In answer to many inquiries, the following items are submitted:

A teacher having the necessary scholarship may complete the entire professional course in a single year; but most students find it necessary to combine the studies of the various branches and the professional work.

The first year is devoted to the common branches. Subjects are first examined from the standpoint of the student, and critically re-examined from the standpoint of the instructor, and the students are trained to teach these branches.

As the students advance they are taught to connect the common and higher branches. Rhetoric, literature, and Latin are laid under contribu-

tion to better fit the student to teach English grammar and composition. Algebra, geometry, and trigonometry are made to contribute to the teacher's ability to teach arithmetic and illustrate its applications. A similar course is pursued in the other departments.

ON WHAT SHOULD PROFESSIONAL INSTRUCTION BE BASED?

An easy answer is, On the nature of man as a spiritual and physical being. We need as a basis for all teaching, and for all teaching how to teach, a much more definite and accurate knowledge than we now possess of mental, moral, and physical growth; of the way a child becomes a man. To the acquisition and extension of such knowledge, by careful observation and critical analysis, the best energies of normal educators should be carefully devoted.

The knowledge already possessed, though confessedly imperfect, must serve as the basis on which present plans for normal work must rest. On this basis the work may be concisely outlined as follows:

1. It presupposes ordinary school education and culture.
2. It includes a thorough review of common school studies in connection with methods of teaching them, and the study of such higher branches as will best fit the teacher for his work.
3. The sciences which treat of mental and physical laws; that is the elements of psychology, physiology, and hygiene.
4. The science of education—the science of human growth.
5. The art of teaching—the art of promoting human growth.
6. The art of school management—the art of organizing, governing, and improving schools.

Such, substantially, is the work in all efficient Normal Schools. Only visionary theorists advocate the omission of all academic instruction.

WORK OF OUR GRADUATES.

Our records, as published in our annual catalogue, show that less than three per cent of our graduates fail from any cause to fulfil their obligations. It gives me the highest pleasure to state that the reports from every section of the State show that the work done by our students is eminently satisfactory.

Very respectfully submitted,

J. BALDWIN,

Principal Sam Houston Normal Institute.

HUNTSVILLE, TEXAS, June 25, 1886.
