# TEXAS QUARTERLY CENSUS OF EMPLOYMENT & WAGES

**by Industry and County**

Prepared by the Labor Market & Career Information  
Department, Texas Workforce Commission

# **Quarterly Census of Employment and Wages by Industry & County**

## **Employment and Payroll under the Texas Unemployment Compensation Act**

### **Description of the Data**

This publication contains employment data, payroll data, and average weekly wages by county for the specified quarter. These data were compiled from quarterly employment and wage reports submitted by employers subject to the Texas Unemployment Compensation Act. Quarterly average employment data have been tabulated by industry according to the North American Industry Classification System (NAICS) manual (see Industry Classification below) on a statewide and county basis. Payroll data represent the total wages paid by the establishment during the quarter. Total wages are provided for each county and by industry for the state. Average weekly wage data are computed from employment and total wages reported by all establishments as well as just those establishments subject to the Texas Unemployment Compensation Act. Average weekly wages are not to be confused with "prevailing" wage rates in various industries.

### **Industry Classification**

Since the release of first quarter 2001 data, industry information has been provided under the newer North American Industry Classification System (NAICS). Beginning with first quarter 2007 data, the Texas Workforce Commission (TWC) will release Quarterly Census of Employment and Wage (QCEW) data using the NAICS 2007 revision. The purpose of this revision is to keep up with new and emerging technology industries. This revision is minor in the scope of the QCEW data set, as 12 NAICS 2002 codes will become obsolete, and 6 NAICS 2007 codes will be established. Because there are no plans for historical reconstruction of the data series, a series break will occur, canceling the ability for a time series analysis for those selected industries. For more information on the new NAICS 2007 code changes, see the following web link: <http://www.census.gov/epcd/www/naics.html>.

### **Definition of covered employment, wages, and average weekly wage**

Covered employment is the number of workers employed by employers subject to the Texas Unemployment Compensation Act during the pay period which included the 12<sup>th</sup> day of the month. Excluded from coverage are employment covered by the Railroad Retirement Act, self-employed, and unpaid family members.

The payroll data (total wages) used in this publication includes all wages and salaries paid to covered employees by their employers including bonuses, commissions, and cash values or remuneration received in any medium other than cash.

The average weekly wage is the numeric calculation of total wages for the county divided by the number of employees in the county, divided by the number 13 (the weeks in a quarter). This figure is listed in Table 3 for those establishments that are covered by the Texas Unemployment Compensation Act, and for all employers (those covered plus Federal Government employment).

## NAICS Industry Structure

The NAICS industry hierarchy classifies data to the six-digit level. The first level consists of the Goods-Producing and Service-Providing industries. Below this is the Super Sector level. The third layer is the Sector level. Statewide data is published at both the Super Sector and Sector levels. Data for the 254 Texas counties are published at the Super Sector level only.

### NAICS Sector Aggregation Tree

When there was no employment reported in a county in one of the industry groups, a "0" is shown. When one employer comprises 80% or more of the employment for an industry group in a county, or there are fewer than three employers for an industry group in a county, a dash (---) is shown. The employment for that industry is included in (L) - Unclassified so as not to reveal information about individual establishments.
