**Thought for a Day**

A warm smile is the universal language of kindness and friendship.

Friends need love, especially when you think they do not deserve it.

The nice thing about friends is that they don't go out of style and if you are careful, you won't wear them out either.

Recall it as often as you wish, a happy memory never wears out.

True friendship is like good health; the value of it is seldom known until it is lost.
