Texas Register, ISSN 0362-4781, is published semi-weekly 100 times a year except July 30, November 30, December 28, 1993. Issues will be published by the Office of the Secretary of State, 1019 Brazos, Austin, Texas 78701. Subscription costs: one year - printed, \$95 and electronic, \$90; six-month printed, \$75 and electronic, \$70. Single copies of most issues are available at \$5 per copy.

Material in the *Texas Register* is the property of the State of Texas. However, it may be copied, reproduced, or republished by any person without permission of the *Texas Register* Director, provided no such republication shall bear the legend *Texas Register* or "Official" without the written permission of the director. The *Texas Register* is published under Texas Civil Statutes, 6252-13a. Second class postage is paid at Austin, Texas.

POSTMASTER: Please send form 3579 changes to the *Texas Register*, P.O. Box 13824, Austin, TX 78711-3824.

How to Use the Texas Register

Information Available: The 10 sections of the *Texas Register* represent various facets of state government. Documents contained within them include:

Governor - Appointments, executive orders, and proclamations.

Attorney General - summaries of requests for opinions, opinions, and open records decisions.

Secretary of State - opinions based on the election laws.

Texas Ethics Commission - summaries of requests for opinions and opinions.

Emergency Sections - sections adopted by state agencies on an emergency basis.

Proposed Sections - sections proposed for adoption.

Withdrawn Sections - sections withdrawn by state agencies from consideration for adoption, or automatically withdrawn by the *Texas Register* six months after the proposal publication date.

Adopted Sections - sections adopted following a 30-day public comment period.

Open Meetings - notices of open meetings.

In Addition - miscellaneous information required to be published by statute or provided as a public service.

Specific explanation on the contents of each section can be found on the beginning page of the section. The division also publishes cumulative quarterly and annual indexes to aid in researching material published.

How to Cite: Material published in the *Texas Register* is referenced by citing the volume in which the document appears, the words "TexReg" and the beginning page number on which that document was published. For example, a document published on page 2402 of Volume 18 (1993) is cited as follows: 18 TexReg 2402.

In order that readers may cite material more easily, page numbers are now written as citations. Example: on page 2 in the lower-left hand corner of the page, would be written "18 TexReg 2 issue date," while on the opposite page, page 3, in the lower right-hand corner, would be written "issue date 18 TexReg 3."

How to Research: The public is invited to research rules and information of interest between 8 a.m. and 5 p.m. weekdays at the *Texas Register* office, Room 245, James Earl Rudder Building, 1019 Brazos, Austin. Material can be found using *Texas Register* indexes, the *Texas Administrative Code*, section numbers, or TRD number.

Texas Administrative Code

The *Texas Administrative Code (TAC)* is the official compilation of all final state agency rules published in the *Texas Register*. Following its effective date, a rule is entered into the *Texas Administrative Code*. Emergency rules, which may be adopted by an agency on an interim basis, are not codified within the *TAC*. West Publishing Company, the official publisher of the *TAC*, releases cumulative supplements to each printed volume of the *TAC* twice each year.

The *TAC* volumes are arranged into Titles (using Arabic numerals) and Parts (using Roman numerals).

The Titles are broad subject categories into which the agencies are grouped as a matter of convenience. Each Part represents an individual state agency. The *Official TAC* also is available on WESTLAW, West's computerized legal research service, in the TX-ADC database.

To purchase printed volumes of the *TAC* or to inquire about WESTLAW access to the *TAC* call West: 1-800-328-9352.

The Titles of the *TAC*, and their respective Title numbers are:

1. Administration
4. Agriculture
7. Banking and Securities
10. Community Development
13. Cultural Resources
16. Economic Regulation
19. Education
22. Examining Boards
25. Health Services
28. Insurance
31. Natural Resources and Conservation
34. Public Finance
37. Public Safety and Corrections
40. Social Services and Assistance
43. Transportation

How to Cite: Under the *TAC* scheme, each section is designated by a *TAC* number. For example in the citation 1 TAC §27.15:

1 indicates the title under which the agency appears in the *Texas Administrative Code*; *TAC* stands for the *Texas Administrative Code*; §27.15 is the section number of the rule (27 indicates that the section is under Chapter 27 of Title 1; 15 represents the individual section within the chapter).

How to update: To find out if a rule has changed since the publication of the current supplement to the *Texas Administrative Code*, please look at the *Table of TAC Titles Affected*. The table is published cumulatively in the blue-cover quarterly indexes to the *Texas Register* (January 22, April 16, July 13, and October 12, 1993). In its second issue each month the *Texas Register* contains a cumulative *Table of TAC Titles Affected* for the preceding month. If a rule has changed during the time period covered by the table, the rule's *TAC* number will be printed with one or more *Texas Register* page numbers, as shown in the following example.

TITLE 40. SOCIAL SERVICES AND ASSISTANCE
Part I. Texas Department of Human Services
40 TAC §3.704.....950, 1820

The *Table of TAC Titles Affected* is cumulative for each volume of the *Texas Register* (calendar year).

Update by FAX: An up-to-date *Table of TAC Titles Affected* is available by FAX upon request. Please specify the state agency and the *TAC* number(s) you wish to update. This service is free to *Texas Register* subscribers. Please have your subscription number ready when you make your request. For non-subscribers there will be a fee of \$2.00 per page (VISA, MasterCard). (512) 463-5561.

Proposed Sections

Before an agency may permanently adopt a new or amended section, or repeal an existing section, a proposal detailing the action must be published in the *Texas Register* at least 30 days before any action may be taken. The 30-day time period gives interested persons an opportunity to review and make oral or written comments on the section. Also, in the case of substantive sections, a public hearing must be granted if requested by at least 25 persons, a governmental subdivision or agency, or an association having at least 25 members.

Symbology in proposed amendments. New language added to an existing section is indicated by the use of **bold text**. [Brackets] indicate deletion of existing material within a section.

TITLE 31. NATURAL RESOURCES AND CONSERVATION

Part II. Texas Parks and Wildlife Department

Chapter 65. Wildlife

Subchapter A. Statewide Hunting and Fishing

- 31 TAC §§65.3, 65.9, 65.13, 65.26, 65.27, 65.31, 65.40, 65.54, 65.62, 65.72, 65.78

The Texas Parks and Wildlife Department proposes amendments to §§65.3, 65.9, 65.13, 65.26, 65.27, 65.31, 65.40, 65.54, 65.62, 65.72, and 65.78, concerning statewide hunting and fishing regulations.

It should be noted that §65.30, White-tailed Deer Herd Management Tag, expires February 28, 1993. Text complementing §65.30 is proposed for deletion.

The proposed amendments allow the department to adjust seasons, bag limits, means, and methods of taking wildlife resources in consideration of the species' population.

The proposed amendments are in compliance with the Texas Parks and Wildlife Code, Chapter 61, and represent required findings of fact. These findings are based upon scientific studies and surveys which track trends in relative abundance of the different fish and wildlife species. The rules as proposed are designed to prevent depletion or waste of wildlife resources. The amendments that differ from the existing 1992-1993 Statewide Hunting and Fishing Proclamation are summarized by sections.

Section 65.3. Definitions: designate approximately 76 small lakes, as Designated Urban Lakes which permits special restrictive regulations to be placed upon these lakes under §65.72; delete certified wildlife biologist, deer herd management tag, designated agent, designated harvester, and eligible landowner from definitions listing. These definitions are associated with §65.30 (white-tailed deer herd management tag) which expires February 28, 1993; add small lakes that are below the Coastal Water Boundary to listing that exempts these lakes from the Coastal Water Boundary rules; add definition of chumming; change wildlife management plan definition to deer management plan.

Section 65.13. Firearms: delete Angelina County from list where only shotguns may be

used to take turkey during the spring gobbler season, as this county no longer has a spring gobbler season.

Section 65.26. Wildlife Management Plan: change name to Deer Management Plan to more closely identify the section's purpose. Rewrite text to clarify what information is required to be included in the deer management plan.

Section 65.31. Antlerless Mule Deer and White-tailed Deer Permits: amend this section to conform with proposed amendments in §65.40.

Section 65.40. Deer, White-tailed and Mule Deer: §65.40(1) is being rewritten due to a proposed more conservative approach to white-tailed deer harvest in several areas of the state and a proposed bag limit increase for 14 south Texas counties. The white-tailed deer general open season text, due to its complexity, is being presented in block form. The block form permits the reader to compare new and old text and determine how a county's deer bag limit relative to other counties is proposed to be changed. Itemized are the major changes: adjust downward the white-tailed deer bag limits. The proposed amendments, incorporated into the text, provide a more conservative harvest strategy to the counties of East Texas, parts of the Post Oak-north Edwards Plateau, and Oak Prairie vegetative areas of the state. This more conservative harvest approach is due to a recognized decline in the deer population; open the white-tailed deer season statewide the second week in November rather than the first week in November; close the white-tailed deer season in south Texas the third Sunday in January rather than the second Sunday in January in 14 of 27 south Texas counties which provides a season that is one week longer; increase the bag limit for deer in 14 of 27 south Texas counties by one deer which means a total of five white-tailed deer and no more than three bucks may be taken; adjust the late antlerless only season to conform to 14 days in length in those counties having a one-week extended season while those south Texas counties having no extended season will have a 16-day late antlerless only season; and change archery-only deer seasons back to the month of October and archery bag limits will conform to the general season bag limits. The paragraphs previously listed within §65.40 additionally have an optional effective date of September 1, 1993 or September 1, 1994. This option permits public comments on the effective date. Implementation of the effective date is to be carefully considered because landowners and hunters traditionally make contractual and vacation arrangements a year ahead.

Section 65.54. Prairie Chicken: Open Seasons, Bag, and Possession Limits: delete the permit requirement to take prairie chicken as this information can be gained by using hunter harvest surveys.

Section 65.62. Turkey: permit the hunter a choice of taking up to three turkeys either during the fall or spring seasons. This bag limit change applies only to areas where the Rio Grande turkey subspecies is located. The annual bag limit remains the same at three turkeys per license year; change south Texas turkey season dates to conform with white-tailed deer season dates; change archery-only season dates back to the month of October to conform with deer archery season.

Section 65.72. Fish: require juglines to have a 30-day gear tag, juglines used for commercial purposes must have an orange colored floating device, and non-commercial juglines must have a white colored floating device one gallon in size; designate approximately 76 small lakes as Designated Urban Lakes and place restrictive fishing regulations upon these lakes so as to more equitably distribute fishing opportunities for youth, by prohibiting trotlines, juglines, throwlines, and reduce catfish bag limit from 25 per day to three per day and increase minimum length limit from nine to 12 inches; change Lake Conroe black bass regulations from statewide five per day and 14 minimum length limit to five per day and minimum length limit of 16 inches; change Lakes: Bridgeport, Weatherford, Georgetown, Tyler State Park, Striker, and Caddo from statewide five per day and minimum length limit of 14 inches on largemouth bass to three per day with a protected 14-18 inch slot limit; add Lakes Bastrop and Walter E. Long (Decker) to the list of lakes that have a protected 14-21 inch slot length limit on largemouth bass; provide Gibbons Creek Reservoir with a catch-and-release fishery for largemouth bass rather than the current 14-21 inch protected slot length limit; add to the special regulation for the protected 14-21 inch slot length limits that only one largemouth bass over 21 inches may be retained per day; remove Caddo Lake from special crappie exception of 50 per day and no minimum length limit to 25 per day and a minimum length limit of 10 inches; prohibit "chumming" in Lake Texoma as chumming alters fish behavior and concentrates feeding activity. This activity may be detrimentally affecting the abundance of large striped bass in Lake Texoma by increasing the vulnerability of large fish to harvest; place Lost Maples State Park into category of a catch-and-release only fishery; place the following water bodies into the exceptions listing for Coastal Water Boundary

definition: Galveston County Reservoir, Galveston State Parks ponds 1-7, Lake Nassau, Fort Brown Resaca, Resaca de la Guerra, Resaca de la Palma, Resaca de los Cuates, Resaca de los Fresnos, Resaca Ranch Viejo, and Town Resaca. By placing these lakes into the exceptions listing, these lakes may be fished without a saltwater stamp and will reduce confusion among the public, controlling authorities, and clarify enforcement; delete text "500 acres or less" in regulation that applies special regulations to reservoirs lying totally within the boundaries of state parks. Elimination of size restriction will allow state park lakes exceeding 500 acres to be covered by this regulation of prohibiting trotline use; add text "and its tributaries" to regulation exceptions relating to Lakes Somerville and Palestine. Regulations on Lakes Somerville and Palestine and some creeks allow for a 12-inch white bass (there are some creeks feeding into these lakes that are not named and therefore have a 10-inch length limit for white bass); add text "bag, possession, and length limits apply to all waters within the Corps of Engineers Lands on Cooper Lake; upstream from State Highway 19/154 and down stream from FM 71." Within the boundaries of the Corps of Engineers lands, several old stock tanks remain. These are well known fishing holes. This proposed regulation change is to make limits uniform for anglers and reduce law enforcement confusion within the area known as Cooper Lake; place a bag, possession, and minimum length limit on saugeye of three per day, six in possession, and 18-inch minimum length limit. This hybrid fish (Sauger X Walleye) is being experimentally introduced to increase angling opportunities in urban areas and small impoundments. This fish also serves as a biological control on abundant small crappie; provide Lakes E. V. Spence and Fort Phantom Hill with an experimental blue catfish bag limit of five per day and a minimum length limit of 18 inches. The proposed experimental regulation should increase weight of blue catfish harvested by anglers. Protecting blue catfish from harvest until they reach 18 inches should help to maintain or increase reproduction in these reservoirs; increase daily bag and possession limit of red drum from three to four per day and possession limit from six to eight. Staff data indicates that coastal populations of red drum have made significant recoveries from previous natural disasters and overfishing. Staff monitoring data reveal that spawning success, relative abundance of sub-adults, as well as escapement of red drum to the Gulf spawning stocks have all increased. This moderate liberalization is justified to increase recreational opportunities without jeopardizing long-term health of red drum fisheries; increase minimum size limit of king mackerel from 14 to 23 inches total length. The 23-inch minimum size limit corresponds to the regulation implemented by the federal government in the Exclusive Economic Zone (EEZ). The proposal would ensure consistency in regulation enforcement. Staff data indicate no adverse impacts would occur since less than 1.0% of king mackerel retained by Texas anglers are below 23 inches; delete king mackerel bag limit exception that licensed chartered vessels currently have. The bag limit exception is: two king mackerel per person-per day for all persons on board

or three per person-per day exclusive of captain and crew, whichever is greater. Deletion of this exception will allow Texas regulations to correspond to those regulations implemented by the federal government in the EEZ. Staff analysis reveals no adverse overall impacts would occur; permit the retention of freshwater catfish taken by trotline below the Coastal Waters Boundary. Almost all coastal counties have freshwater below the proclamation defined Coastal Waters Boundary. At present there are no provisions for retaining catfish taken by trotline below the Coastal Waters Boundary. Currently persons trotlining above the boundary may retain freshwater catfish while those fishing below the boundary (usually defined by a bridge) may not retain catfish caught on a trotline; clarify text that adds sharks to those game species that may be taken by sail line; delete special note about when the minimum length limit of 24 inches for flathead catfish becomes effective; delete special note about when all netting of freshwater fish becomes effective; remove the phrase "smallmouth bass" from the statewide listing. Removal will clarify regulation wording to make limits apply to the targeted species as intended. The listed reservoirs do not have smallmouth bass or smallmouth will be regulated separately; place Lake Texoma into bass category of "Bass: largemouth and smallmouth, spotted and Guadalupe bass, their hybrids, and subspecies." Lake Texoma belongs under this category to make regulation conform to those existing in Oklahoma.

Section 65.78. Crabs: prohibit the tending of crab traps during the period of 30 minutes after sunset to 30 minutes before sunrise. The restriction should reduce the theft of crabs and crab traps. The proposal was recommended by the Texas Blue Crab Fishery Management Plan adopted by the Commission, January 1992; require 2 3/8-inch escape vents in crab traps. Escape vents are expected to reduce the sub-legal catch of crabs, reduce culling time, and reduce cannibalism. The proposal was recommended by the Texas Blue Crab Fishery Management Plan adopted by the Commission, January 1992.

Robin Riechers, staff economist, has determined that for the first five-year period the sections are in effect there will be fiscal implications for state and local government and small businesses as a result of enforcing or administering the sections.

The proposed amendments generally restrict to an additional degree the bag, possession, and size limits for the selected species of fish and wildlife. The restrictions are designed to reduce the vulnerability of the species to take, stem the population decline, prevent overharvest of the species, and more equitably distribute harvest of the wildlife resource. The proposed amendments also change seasons to reflect comments from the public.

Sections 65.3 and 65.72. Designation of 76 urban lakes makes the regulations on those lakes more restrictive to more equitably distribute fishing opportunities. There should be minimal cost to state and local governments as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible.

All sections proposed. Many rules can be classified as more restrictive in nature. These include rules which increase the minimum length limits, restriction on bag limits, protected slot length limits, and rules which make certain lakes catch and release only. These rules are designed to prevent overharvest, maintain viable wildlife and fisheries populations, and insure equitable distribution of harvest. There should be minimal cost to state and local government as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible.

Sections 65.3 and 65.72. Clarifications to definitions and rules are made in order to reduce confusion and ensure enforceability and compliance with the rules. This also includes standardization with rules in the EEZ for King Mackerel in order to reduce confusion and to create uniformity of rules in the EEZ and in Texas waters. There should be minimal cost to state and local governments as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible.

Section 65.78. Rules affecting the crab fishery include time restrictions on the tending of crab traps and mandatory escape vents for crab traps. There should be minimal cost to state and local governments as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible. There are potential economic costs associated with small businesses as a result of compliance with these rules.

Section 65.72. Liberalizations of rules on red drum, on the catching of freshwater species below the Coastal Waters Boundary, and in any other bag and size limits may provide more recreational opportunity. There should be minimal cost to state and local governments as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible.

Section 65.72. Experimental regulations permit for the species saugeye and catfish on lakes E. V. Spence and Fort Phantom Hill the department to regulate the age of species retained and improve population structure of wildlife resources. There should be minimal cost to state and local governments as a result of enforcing or administering this rule and the revenue losses or gains to state or local governments should be negligible.

Section 65.40. Some benefits anticipated as a result of enforcing the rules as proposed will permit hunters to take an additional deer in south Texas and to hunt one week longer in south Texas. The reduction by one week in the deer season length for the rest of the state will benefit those hunters and landowners who have commented to the department that the deer season is too long.

In general, fiscal implications to small businesses may be reduced sales of gear, supplies, etc., to persons as a result of the amended rules. Small businesses or persons who are forced to comply to changes in regulations may also be negatively impacted. Expenditures in certain locales may be

increased or decreased due to the restrictions upon the targeted species.

Mr. Riechers also has determined that for each year of the first five years the sections are in effect the public benefit anticipated as a result of enforcing the sections will be to permit appropriate take of wildlife resources consistent to maintain viable populations.

Those rules which are designed to be more restrictive, will ensure long-term viability of the resource, and thus will accrue public benefits in the future. Rules which clarify or liberalize provide opportunities for immediate public gains through reduced confusion and greater recreational opportunities through increased take of the resource or satisfaction among users of the resource.

It is anticipated there will be fiscal implications to persons who are required to comply with the rules as proposed. Persons who depend upon the expenditures of others that exercise their recreational privileges may find reduced income as a result of the rules. Fiscal implications also concern those hunters who have season hunting leases and will be denied one week of hunting. Fiscal implications may impact hunters and landowners who have already applied for leave from work and landowners who have contracted hunts for the first week in November. Other fiscal implications may affect those small businesses that gain a large part of their annual income just from the deer season.

The department has filed a local employment impact statement with the Texas Employment Commission in compliance with the Administrative Procedure and Texas Register Act, §4A, and of this date has not received a reply.

Comments on the rules as proposed may be submitted to Phil Evans, Regulatory Coordinator, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744; (512) 389-4974 or 1 (800) 792-1112, extension 4974.

The amendments are proposed under the Texas Parks and Wildlife Code, Chapter 61, Uniform Wildlife Regulatory Act (Wildlife Conservation Act of 1983), which provides the Texas Parks and Wildlife Commission with authority to establish wildlife resource regulations for this state.

§65.3. Definitions. The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise.

[Certified wildlife biologist—A person who has been certified as a wildlife biologist by The Wildlife Society, or who:

(A) has fulfilled the scholastic requirements of an accredited university or college for the B. S. degree (or advanced degree) with major course work in wildlife science or wildlife management; and

(B) has not less than five years of post-graduate experience in research or wildlife management associated

with white-tailed deer or mule deer within the past 10 years.]

Chumming—To deposit into the water any fish, parts of fish, or other substances containing fish or fish parts that are not attached to a hook and line and used to attract fish or stimulate fish feeding activity.

Coastal waters boundary—For purposes of Texas Parks and Wildlife Code, Chapters 61 and 66, all public waters east and south of the following boundary are considered coastal waters: Beginning at the International Toll Bridge in Brownsville, thence northward along U.S. Highway 77 to the junction of Paredes Lines Road (FM Road 1847) in Brownsville, thence northward along FM Road 1847 to the junction of FM Road 106 east of Rio Hondo, thence westward along FM Road 106 to the junction of FM Road 508 in Rio Hondo, thence northward along FM Road 508 to the junction of FM Road 1420, thence northward along FM Road 1420 to the junction of State Highway 186 east of Raymondville, thence westward along State Highway 186 to the junction of U.S. Highway 77 near Raymondville, thence northward along U.S. Highway 77 to the junction of FM Road 774 in Refugio, thence eastward along FM Road 774 to the junction of State Highway 35 south of Tivoli, thence northward along State Highway 35 to the junction of State Highway 185 between Bloomington and Seadrift, thence northwestward along State Highway 185 to the junction of FM Road 616 in Bloomington, thence northeastward along FM Road 616 to the junction of State Highway 35 east of Blessing, thence southward along State Highway 35 to the junction of FM Road 521 north of Palacios, thence northeastward along FM Road 521 to the junction of State Highway 36 south of Brazoria, thence northward along State Highway 36 to the junction of State Highway 332 in Brazoria, thence eastward along State Highway 332 to the junction of FM Road 2004 in Lake Jackson, thence northeastward along FM Road 2004 to the junction of Interstate Highway 45 between Dickinson and La Marque, thence northwestward along Interstate Highway 45 to the junction of Interstate Highway 610 in Houston, thence east and northward along Interstate Highway 610 to the junction of Interstate Highway 10 in Houston, thence eastward along Interstate Highway 10 to the junction of State Highway 73 in Winnie, thence eastward along State Highway 73 to the junction of U.S. Highway 287 in Port Arthur, thence northwestward along U.S. Highway 287 to the junction of Interstate Highway 10 in Beaumont, thence eastward along Interstate Highway 10 to the Louisiana State Line. The public waters north of the dam on Lake Anahuac in Chambers County; north and west of the junction of the north and south forks of the Guadalupe River in Calhoun and Refugio Counties; the waters of Taylor Bayou and Big Hill Bayou

inland from the saltwater locks on Taylor Bayou in Jefferson County; the Galveston County Reservoir on State Highway 146 in Galveston County; Lakeview City Park Lake in Corpus Christi; [and] Lake Burke-Crenshaw in Pasadena; Galveston County Reservoir in Galveston County; Galveston State Park ponds Number 1 through 7 in Galveston County; Lake Nassau in Harris County; Fort Brown Resaca in Cameron County; Resaca de la Guerra in Cameron County; Resaca de la Palma in Cameron County; Resaca de los Cuates in Cameron County; Resaca de los Fresnos in Cameron County; Resaca Rancho Viejo in Cameron County; and Town Resaca in Cameron County, are not considered coastal waters for purposes of this proclamation.

Deer Management Plan—A written document provided to the landowner or agent and approved by a department biologist after an investigation is completed on a tract of land.

[Deer Herd Management Tag—A tag that permits antlerless white-tailed deer to be taken under a wildlife management plan without becoming a part of the daily bag limit.

[Designated agent—A person who is named in the application for deer herd management tags by the landowner to act on behalf of the landowner for purposes of the wildlife management plan, including acting as a designated harvester.]

Designated urban lakes—For purposes of the Texas Parks and Wildlife Code, Chapters 61 and 66, the following public waters, listed by county and location, are considered designated urban lakes: Bell—Sammon's Park Lake; Bexar—Espada; Hi—Lions; Live Oak City; Millers Pond; San Antonio River; Blanco—Blanco State Park Number 5; Five Mile Dam; Bowie—Spring Lake Park; Brazos—Cy Miller Pond; Gabbards Park; Cameron—Dixieland; Fort Brown Resaca; Harlingen City Lake; Harlingen Sports Complex; Collin—Bethany Park A; Bethany Park B; Bethany Park C; Bob Woodruff; Shawnee Park; Towne; Dallas—Kid Springs Park; Lakeside (Duncanville); Mesquite City Lake; Northwest Park Pond; (Irving)—O'Bannon (Garland); Palos Verdes; Samuel Farm Pond A; Samuel Farm Pond Number 1; Samuel Farm Pond Number 4; Samuel Farm Pond Number 5; Denton—Flower Mound Rheudasil; North Lake Park (Denton); South Lake Park (Denton); Fort Bend—Missouri City; Missouri City Community Park Lake; Gillespie—LBJ State Park; Grayson—Pickens; Waterloo; Gregg—Teague Park Lake; Harris—Bane Park; Eisenhower City Park; Forest Lake; Hermann Park; Tom Bass 1; Lubbock—Canyon Lake Project 1; Maxey Park; Montgomery—Albert Sallas County Park; Orange—Cairborne West Park; Potter—Medical Center North; Medical

Center South; Randall-Southeast Park; Smith-Camp Tyler A; Camp Tyler B; Camp Tyler C; Tarrant-Bedford Boys Ranch; Como; Echo; French; Hurst Chisolm Park; Oakland; Taylor-Nelson Park; Tom Green-Bell Street; Irving Street; Martin Luther King Park; Oak Street (San Angelo); Travis-Searight Park Lake Number 1; Wichita-Kid's Pond; Plum Lake (Softball Complex); Williams Park; Williamson-South San Gabriel River (Georgetown); Round Rock City Park; San Gabriel Park; Taylor City Lake Number 1; Taylor City Lake Number 2; Taylor City Lake Number 4.

[Designated harvester—A person who is named in the application for deer herd management tags by the landowner or designated agent to take and tag antlerless white-tailed deer with a deer herd management tag on the property specified in the wildlife management plan.]

[Eligible landowner—A landowner who has placed a specific tract of land under a department approved wildlife management plan and the plan for the property specifies that 40 or more antlerless white-tailed deer shall be taken.]

[Wildlife management plan—A written document provided to the landowner or agent and approved by a department biologist after an investigation is completed on a tract of land.]

§65.9. Open Seasons: General Rules.

(a)-(h) (No change.)

(i) Every game bird or game animal wounded by hunting and reduced to possession by the hunter must be killed immediately and [except as provided in §65.3 of this title (see definition of deer herd management tag)] become a part of the daily bag limit.

(j)-(l) (No change.)

(m) A person may give, leave, receive, or possess any species of legally taken wildlife resource, or a part of the resource, that is required to have a tag or permit attached [, except for white-tailed deer tagged with a herd management tag,] or is protected by a bag or possession limit, if the carcass or a part of a carcass is tagged with a hunter's document by the person who killed or caught the wildlife resource. The hunter's document that shall accompany the carcass or a part of the carcass until reaching final destination and the document must contain the following information:

(1) -(5) (No change.)

§65.13. Firearms.

(a) It is lawful to shoot game animals and game birds with a rifle, shotgun,

or other legal firearm including muzzleloading weapons, except it is unlawful to shoot:

(1)-(2) (No change.)

(3) turkey gobblers during spring gobbler seasons in [Angelina,] Houston, Jasper, Newton, Polk, Trinity, and Tyler Counties with any firearm other than a shotgun.

(b)-(d) (No change.)

§65.26. Deer [Wildlife] Management Plan.

(a) A deer management plan (see §65.3 of this title (relating to Definitions)) shall include:

(1) measurements of density, production, and sex composition of the deer population present on the property;

(2) measurements of the number, sex, and, where possible, age of the deer harvested from the property;

(3) evaluation and appraisal of habitats determined by Texas Parks and Wildlife Department to be of significance to white-tailed deer;

(4) the number of hunters on the property, the number of days that they hunted, and the dates that they harvest deer; and

(5) descriptions of land management practices occurring on the property.

(b) A deer management plan shall:

(1) specify the number of antlerless deer to be harvested from a given tract of land;

(2) require each antlerless deer taken to be tagged with any permit or deer herd management tag issued under this section; and

(3) no permit or deer herd management tag is valid unless it has been issued, used, and possessed in accordance with this section and §65.31 of this title (relating to Antlerless Mule Deer Permits and White-tailed Deer Permits).

[A wildlife management plan (see §65.3 of this title relating to Definitions) shall:

(1) specify the number of antlerless deer to be harvested from a given tract of land and an equal number of permits or deer herd management tags may be issued to the owner or authorized agent of the tract;

(2) require each antlerless deer taken to be tagged with the permit or deer herd management tag required by this section; and

(3) no permit or deer herd management tag is valid unless it has been issued, used, and possessed in accordance with this section and §65.30 of this title (relating to White-tailed Deer Herd Management Tag) and §65.31 of this title (relating to Antlerless Mule Deer Permits and White-tailed Deer Permits and Tags).]

§65.27. Permits.

(a) No person may hunt antlerless mule deer, pronghorn antelope, elk, or antlerless white-tailed deer in areas where permits [or deer herd management tags] are prescribed unless he first procures a valid permit [or deer herd management tag] issued by the landowner.

(b) It is unlawful to use an antlerless mule deer, antelope, elk, or antlerless white-tailed deer permit [or white-tailed deer herd management tag] on more than one antlerless mule deer, antelope, elk, or antlerless white-tailed deer.

(c) (No change.)

(d) No permit [or deer herd management tag] is valid unless it has been issued, used, and possessed strictly in accordance with this section; §65.29 of this title (relating to Antelope Permits), [§65.30 of this title (relating to White-tailed Deer Herd Management Tag),] §65.31 of this title (relating to Antlerless Mule Deer Permits and White-tailed Deer Permits [and Tags]); and §65.33 of this title (relating to Elk Permits).

(e) It is unlawful for any person other than a person named as a designated harvester to use a deer herd management tag for tagging deer.]

§65.31. Antlerless Mule Deer and White-tailed Deer Permits.

(a)-(d) (No change.)

(e) It is unlawful for a person to possess an antlerless mule deer or white-tailed deer, [except as provided in §65.30 of this title (relating to White-tailed Deer Herd Management Tag),] unless the person has been issued an antlerless mule deer or white-tailed deer hunting permit on which appear:

(1)-(3) (No change.)

(f) It is unlawful for a hunter to use an antlerless mule deer or white-tailed deer hunting permit [or a designated harvester to use a white-tailed deer herd management tag] on a tract of land other than the designated tract for which the permit or tag was issued.

(g) The permit [or white-tailed deer herd management tag] must be attached to each antlerless mule deer or white-tailed deer taken, and shall remain attached until

the deer has reached its final destination as defined in the Texas Parks and Wildlife Code, §42. 001(4).

(h)-(i) (No change.)

§65.40. *Deer: White-tailed and Mule Deer.* No person, [other than the designated harvester acting under the authority of a white-tailed deer herd management tag (see §65.30 of this title (relating to White-tailed Deer Herd Management Tag),] may take more than the aggregate total of six [five] deer per license year; of which no more than two may be mule deer, only one of which may be a buck mule deer; no more than three [two] white-tailed buck deer, or no more than six [five] antlerless deer, both species combined.

Adopted Sections

An agency may take final action on a section 30 days after a proposal has been published in the *Texas Register*. The section becomes effective 20 days after the agency files the correct document with the *Texas Register*, unless a later date is specified or unless a federal statute or regulation requires implementation of the action on shorter notice.

If an agency adopts the section without any changes to the proposed text, only the preamble of the notice and statement of legal authority will be published. If an agency adopts the section with changes to the proposed text, the proposal will be republished with the changes.

TITLE 37. PUBLIC SAFETY AND CORRECTIONS

Part I. Texas Department of Public Safety

Chapter 1. Organization and Administration

Personnel and Employment Policies

- 37 TAC §§1.22, 1.23, 1.32, 1.34, 1.36

The Texas Department of Public Safety adopts amendments to §§1.22, 1.23, 1.32, 1.34, 1.36, concerning personnel and employment policies. Section 1.32 was adopted with changes to the proposed text as published in the January 8, 1993, issue of the *Texas Register* (18 TexReg 154). Sections 1.22, 1.23, 1.34, 1.36 are adopted without changes and will not be republished.

The adoption of these sections will ensure that applicants for positions with the department will be screened on the basis of job-related requirements in compliance with the Americans with Disabilities Act. The last statement in §1.32(b)(9) was published incorrectly in the *Texas Register* which is now rewritten for clarification purposes.

Adoption of these amendments comply with the provisions of the Americans with Disabilities Act. Language is added and deleted in §§1.22, 1.23, 1.32, and 1.34 to revise the screening and basic requirements for certain positions in order that medical and physical requirements are related to the performance of essential job functions. Section 1.36 is amended by changing the word handicap to disability.

No comments were received regarding adoption of these amendments.

The amendments are adopted under the Texas Government Code, §411.006(4) and §411.004(3), which provides the director with the authority to adopt rules necessary for the control of the department, subject to the Public Safety Commission's approval.

§1.32. Basic Requirements for Employment as Trooper.

(a) Application requirements.

(1)-(8) (No change.)

(9) All applicants for a position with the department must pass a physical

examination and the physical demands work Texas Department of Public Safety Page 7 of 14 Chapter 1. Organization and Administration sample tests prior to probationary appointment. The physical demands work sample tests will be conducted by the Department of Public Safety personnel. The physical examination will be made by a physician designated by the department after a conditional job offer has been made.

(10)-(11) (No change.)

(b) Medical-physical standards. Applicants must conform to the following medical-physical standards.

(1) Weight. Not less than two pounds per inch of height nor more than three pounds per inch of height for males and not less than 1 3/4 pounds per inch of height nor more than 2 1/2 pounds per inch of height for females and according to body build.

(2) Vision.

(A) Visual acuity. Maximum uncorrected visual acuity of 20/200 and correctable or corrected as follows:

(i) 20/30 thru 20/40—correctable to 20/30 in each eye and binocularly;

(ii) in excess of 20/40 thru 20/100—must be corrected to 20/30 in each eye and binocularly by means of eyeglasses or contact lenses;

(iii) in excess of 20/100 thru 20/200—must be corrected to 20/30 in each eye and binocularly by contact lenses and a statement from an ophthalmologist that no ocular disease exists.

(B) Field of vision. Horizontal 60-85 degrees temporally from a central fixation point.

(C) Muscular imbalance. Zero vertical deviation. Horizontal—5 prism diopters exophoria at 20 feet, 10 prism diopters esophoria at 20 feet.

(D) Other visual factors. Applicants will be rejected for color deficiencies as determined by Department of Public Safety testing, chronic inflammation of the eye or adnexa, or permanent abnormalities

of either eye (including cataracts, corneal opacities, paralysis of ocular muscles, etc.). Loss of either eye will reject.

(3) Ears. Normal hearing with or without a hearing aid for each ear is required.

(4) Heart. The action of the heart must be uniform, free, and steady, its rhythm regular, and the heart and vascular system free from organic changes. Organic heart disease will disqualify.

(5) Circulation. Blood pressure—systolic maximum, 139; diastolic, 89; pulse pressure, 45. A slight variation from these figures may be permissible subject to the discretion of the examining physician. Hypertension that is controlled by medication to within the limits set forth herein is acceptable. The applicant must furnish a medical statement describing the medication and any warnings or cautions for proper safeguards against physical conditioning techniques with a statement furnished by a physician. It is also very important that the training academy and DPS physical training officer know when a trainee is taking medication. A marked tendency to the formation of varicose veins must reject.

(6) Respiration. Must be full, easy, and regular; the respiratory murmur must be clear and distinct over both lungs, and no disease of the respiratory organs must be present.

(7) Hernia. An actual hernia in any form must reject.

(8) Genito-Urinary. Applicants must be free from stricture or incontinence of urine. Kidneys or kidney must be healthy and the urine normal.

(9) Limbs. Both arms and legs, hands, and feet must be present. Must be free from infections of the joints, sprains, stiffness, or other conditions which prevent the proper and easy performance of duty. Great toes must be present in their entirety on both feet. First (index), second (middle), and third (ring) fingers and thumb must be present in their entirety on both hands. The provisions of this paragraph may be waived by the director.

(10) Brain and nervous system. An applicant who has a history of epilepsy, blackouts, fainting spells, seizures, or con-

vulsions must be seizure free for two years without taking medication.

(11) Mental and personality. Applicants must be mentally alert and sound of mind and must be possessed of initiative, intelligence, good judgment, good address, and neatness of appearance.

(12) Physical agility tests. Applicants for a position with the department must pass the physical agility tests which are set out by the department.

(13) Diabetes. Applicants with insulin-dependent diabetes will be rejected.

Applicants who have a history of diabetes, but whose diabetes is controlled by diet alone or diet and oral hypoglycemic agents, will be considered on a case-by-case basis.

(14) Questions. In all instances where a question may arise as to whether an applicant meets the medical-physical standards, the director or his designee shall make the final determination as to whether an applicant is physically qualified for acceptance as a trooper.

This agency hereby certifies that the rule as adopted has been reviewed by legal counsel

and found to be a valid exercise of the agency's legal authority.

Issued in Austin, Texas, on February 9, 1993.

In Addition

The *Texas Register* is required by statute to publish certain documents, including applications to purchase control of state banks, notices of rate ceilings, changes in interest rate and applications to install remote service units, and consultant proposal requests and awards.

To aid agencies in communicating information quickly and effectively, other information of general interest to the public is published as space allows.

Texas Department of Health Correction of Error

The Texas Department of Health adopted an amendment to 25 TAC §133.21 and new §133.29, concerning hospital licensing standards. The rules were published in the February 2, 1993, *Texas Register* (18 TexReg 649). The agency inadvertently submitted the effective date as February 15, 1993. The correct effective date should be March 1, 1993.

Licensing Actions for Radioactive Materials

The Texas Department of Health has taken actions regarding licenses for the possession and use of radioactive materials as listed in the table below. The subheading labeled "Location" indicates the city in which the radioactive material may be possessed and/or used. The location listing "Throughout Texas" indicates that the radioactive material may be used on a temporary basis at job sites throughout the state.

In issuing new licenses and amending and renewing existing licenses, the Texas Department of Health, Bureau of Radiation Control, has determined that the applicants are qualified by reason of training and experience to use the material in question for the purposes requested in accordance with Texas Regulations for Control of Radiation in such a manner as to minimize danger to public health and safety or property and the environment; the applicants' proposed equipment, facilities, and procedures are adequate to minimize danger to public health and safety or property and the environment; the issuance of the license(s) will not be inimical to the health and safety of the public or the environment; and the applicants satisfy any applicable special requirements in the Texas Regulations for Control of Radiation.

This notice affords the opportunity for a hearing on written request of a licensee, applicant, or person affected within 30 days of the date of publication of this notice. A person

affected is defined as a person who is resident of a county, or a county adjacent to the county, in which the radioactive materials are or will be located, including any person who is doing business or who has a legal interest in land in the county or adjacent county, and any local government in the county; and who can demonstrate that he has suffered or will suffer actual injury or economic damage due to emissions of radiation. A licensee, applicant, or person affected may request a hearing by writing David K. Lacker, Chief, Bureau of Radiation Control (Director, Radiation Control Program), 1100 West 49th Street, Austin, Texas, 78756-3189.

Any request for a hearing must contain the name and address of the person who considers himself affected by agency action, identify the subject license, specify the reasons why the person considers himself affected, and state the relief sought. If the person is represented by an agent, the name and address of the agent must be stated.

Copies of these documents and supporting materials are available for inspection and copying at the office of the Bureau of Radiation Control, Texas Department of Health, The Exchange Building, 8407 Wall Street, Austin, Texas, from 8 a.m. to 5 p.m. Monday-Friday (except holidays).

Issued in Austin, Texas, on February 9, 1993.

Correction of Error

The Texas Department of Public Safety proposed new 37 TAC §31.11, concerning standards for an approved motorcycle training course. The proposal was published in the February 9, 1993, *Texas Register* (18 TexReg 833)

Due to a typographical error the word "Actions" was misspelled in the section heading. It should read as follows.

§31.11. *Notification of Legal Actions.*

Public Utility Commission of Texas

Questions Concerning Integrated Resource Planning

The Public Utility Commission of Texas requests interested persons to comment on whether the commission should adopt rules requiring electric utilities to adopt integrated resource plans. On January 26, 1992, the commission considered whether to publish a rule prepared by the commission staff that would have required electric utilities to file integrated resource plans. The commission decided not to publish the proposed rule, but requested that parties comment on the major issues that were raised in the staff proposal. Parties may obtain a copy of the staff proposal by contacting Jess Totten, at the Public Utility Commission, 7800 Shoal Creek Boulevard, Austin, Texas 78757, (512) 458-0365.

The commission requests that interested parties respond to the questions that are set forth below and any other issue raised by the proposed rule that the party believes is a significant policy issue related to resource planning for electric utilities. Any response that is longer than ten pages should include an executive summary. Parties should file 15 copies of their comments with the commission's Secretary, John Renfrow, at 7800 Shoal Creek Boulevard, Austin, Texas 78757, within 45 days of the publication of this notice in the *Texas Register*. Comments should refer to project number rulemaking, but the comments will assist the commission in the rulemaking project concerning integrated resource planning (project number 11365).

Should the commission require electric utilities to file integrated resource plans?

Should the commission change its procedures related to resource planning to consolidate existing avoided cost, NOI proceedings, and energy efficiency and load forecast filings into a more rational scheme? If so, should the commission require that utilities seek NOI approval in conjunction with the approval of a resource plan?

Should the commission require utilities to permit the public to participate in the resource planning process? Is the participation process set forth in the staff's proposed rule appropriate?

Should the commission require periodic approval of utilities' integrated resource plans?

Should the commission monitor utilities' implementation of resource plans? Does the proposal give utilities sufficient flexibility or should the rules be more prescriptive?

Should the commission prescribe the criteria for selecting resources in the resource planning process? Are the selection criteria in the staff's proposed rule appropriate?

Should the commission require utilities to consider environmental externalities in assessing resources? Are the selection criteria in the staff's proposed rule related to environmental externalities appropriate?

Should the commission use the committed-unit-basis methodology for calculating avoided costs as the primary basis for comparing purchased power arrangements with other resource options?

Should the commission treat all units that a utility has under construction as avoidable units that are subject to being replaced by power supplied by qualifying facilities?

Should the commission assess the historical performance of a utility's demand-side management programs as a part of the approval of a resource plan?

Are the filing requirements for an integrated resource plan, as set out in the staff's proposed rule, appropriate? Please indicate which requirements are too burdensome or too general.

Do you agree with the staff proposal insofar as it specifies the utilities that are required to file an integrated resource plan or a load forecast or make no filing?

Will the time required for processing a resource plan application, a solicitation, and a certificate of convenience and necessity permit utilities to carry out a practical and economical resource acquisition?

Texas Water Commission Correction of Error

The Texas Water Commission proposed the repeal of 31 TAC §334.481 and §334.482, concerning storage, treatment, and reuse procedures for petroleum-substance contaminated soils. The proposal was published in the January 29, 1993, *Texas Register* (18 TexReg 553).

The agency inadvertently listed §§334.483-334.506 as proposed for repeal. Because these sections do not exist as permanent rules, they may not be repealed. The proposed repeal should include only §334.481 and §334.482.

Enforcement Orders

Pursuant to the Texas Water Code, which states that if the commission finds that a violation has occurred and a civil penalty is assessed, the commission shall file notice of its decision in the *Texas Register* not later than the 10th day after the date on which the decision is adopted, the following information is submitted.

An enforcement order was issued to Texas Department of Criminal Justice (TDCJ), Permits Numbers 02952 and 12353-01, on January 29, 1993. In lieu of paying administrative penalties of \$91,100, TDCJ is required to implement a proposed composting plan. Stipulated penalties were also imposed.

Information concerning any aspect of this order may be obtained by contacting Robert Martinez, Staff Attorney, Texas Water Commission, P.O. Box 13087, Austin, Texas 78711-3087, (512) 463-8098.

Notice of Application For Municipal Solid Waste Permits

Notice is given by the Texas Water Commission of public notices of waste disposal permit applications issued during the period of February 8-February 12, 1993.

No public hearing will be held on these applications unless an affected person has requested a public hearing. Any such request for a public hearing shall be in writing and contain the name, mailing address, and phone number of the person making the request; and a brief description of how the requester, or persons represented by the requester, would be adversely affected by the granting of the application. If the commission determines that the request sets out an issue which is relevant to the waste discharge permit decision, or that a public hearing would serve the public interest, the commission shall conduct a public hearing, after the issuance of proper and timely notice of the hearing. If no sufficient request for hearing is received within 30 days of the date of publication of notice concerning the applications, the permit will be submitted to the commission for final decision on the application.

Information concerning any aspect of these applications may be obtained by contacting the Texas Water Commission, P.O. Box 13087, Austin, Texas 78711, (512) 463-7906.

Listed are the name of the applicant and the city in which the facility is located, type of facility, location of the facility, permit number, and type of application—new permit, amendment, or renewal.

City of Brownfield; Type I (landfill); located on an 139.77 acre site, approximately 0.8 mile east of Texas Highway 137, and 1.2 miles south of Old Lamesa Road and 1.0 mile southwest of U.S. Highway 62/385 (Seagraves Road) in Terry County; new; MSW2170.

SOJO, Inc.; Type V non-hazardous and non-industrial grease and grit trap and special wastes processing facility; on a 0.9 acre site at 1401 East Highway 80 in the City of Abilene, Taylor County; new; MSW2183.

Request for Proposal

The On-site Wastewater Treatment Research Council (Council) issues this Request for Proposal (RFP), pursuant to the Health and Safety Code, Chapter 367, leading to the possible awards of contracts during fiscal year September 1, 1992-August 31, 1993, to conduct applied research at accredited colleges and universities, other governmental entities and acceptable private research centers in the State of Texas, regarding on-site treatment and disposal technology applicable to this State. Publication of this RFP does not obligate the Council to make an award if a suitable proposal is not received.

Description of Planning Objectives. The purpose of this project is to provide the Council with a meeting space, technical and administrative support and planning assistance for a symposium to be held in Austin, Texas during the month of October 1993 for the purpose of promoting research projects demonstration projects and technology transfer in the field of on-site wastewater. The duration of this symposium shall not exceed three days. The grantee shall be responsible for the management of all aspects of

the planning and execution of the symposium including procuring meetings and hotel accommodations, advance and on-site registration of attendees, procurement of program participants, development of program schedule, procurement of vendors and displays, provision of meeting proceedings and proceedings, and provisions of adequate personnel to accomplish the above. The acquisition of meeting space and hotel accommodations shall be accomplished in accordance with applicable State statutes.

Description of Funding Consideration. The Council will provide funding from the on-site wastewater treatment research account.

Criteria For Eligibility. For a corporation organized under the Texas Business Corporation Act, Article 1.01 et seq, proof it is not delinquent in a tax owned the state under the Tax Code, Chapter 171. In order to assure equitable distribution of limited funds and to avoid conflicts of interest, the following criteria are established for acceptability of applicants: Texas-based applicants will be given priority consideration and only in unusual circumstances will this priority be disregarded; research projects shall be conducted in Texas; project duration will be a minimum of one year to a maximum of three years; and a member if the On-site Wastewater Treatment Research Council is not eligible to submit a research proposal.

Proposal Rating. In addition to providing specific comments, each evaluator will, where appropriate, rate the proposals in the following areas: degree to which the proposal is responsible to the overall purpose and funding criteria or the specific purpose of an individual solicitation; qualifications of project staff and directly-related project and staff experience; reasonableness of proposed budget and time schedule; availability of matching funds or services, if any; project organization and management; and other information as may be required for the specific project.

Application Procedure, Deadlines, and Contact Person For Additional Information. Twelve copies of the research proposal must be filed the Council prior to 5 p.m. on March 5, 1993. A contract must be executed and work must be underway as soon as possible after Council approval of an application. The copies must be submitted to the On-site Wastewater Treatment Research Council in care of Texas Water Commission, Flood Management and Groundwater Programs Section, P.O. box Box 13087, Austin, Texas 78711-3087, Attention: Ted Johns, Executive Secretary.

Statement of Contract Terms and Required Completion Date. Procedure for awarding contracts shall comply with Texas Civil Statutes, Article 6252-11c, and with Article 664-4, where applicable.

Contractual agreements and associated funding will terminate on or before August 31, 2001.

Issued in Austin, Texas, on February 12, 1993.
