

THE ATTORNEY GENERAL

OF TEXAS

CRAWFORD C. MARTIN ATTORNEY GENERAL AUSTIN, TEXAS 78711

May 9, 1967

Honorable J. W. Edgar Commissioner of Education Texas Education Agency Austin, Texas Opinion No. M-71

Re: The authority of the Texas Education Agency to allocate federal and State funds to hospital districts for the purpose of carrying out the State's plan for vocational rehabilitation in said area.

Dear Dr. Edgar:

Your request for an opinion states that the Amarillo Hospital District, which is coextensive with the boundaries of the City of Amarillo, created pursuant to Section 5, Article IX of the Constitution of Texas, is interested in the possibility of the district being designated as a local administration rehabilitation agency under the supervision of the Texas Central Education Agency, pursuant to the State Plan for administration of the program of Vocational Rehabilitation in Texas. Your request on the authority of the Amarillo Hospital District to be designated as a local administration rehabilitation agency reads, in part, as follows:

"For the several years past and at the present time, the Texas Education Agency has not provided for administration of such Program by a political subdivision, a local rehabilitation agency. Section 4.7, State Plan, copy forwarded herewith. Currently, the entire Program is administered pursuant /to/ an approved State Plan, directly by the designated State Agency through its central and several field offices; financed by federal and state funds appropriated. House Bill 12, Acts 59th Leg., R.S., 1965, Article IV, at pages 177-181. See also: Articles 2675-1, as amended; 2654-1, Sections 1, 3; and 2654-3, Sections 1 and 2.

"Only recently have the federal laws been amended to allow for a flexibility in State ad-

Hon. J. W. Edgar, page 2 (M-71)

ministration of the Program. The Federal Vocational Rehabilitation Act (Public Law 83-565) as last amended by Section 8(a) of Public Law 89-333 authorizes and/or provides, in substance and in so far as pertinent herein, that the State Board of Education may be designated as the sole State agency to administer the plan, 'or to supervise its administration in a political subdivision of the State.'

Section 8(b) provides that amendments of (a) shall become effective July 1, 1967, except that in any State (like Texas) such amendments shall become effective earlier on or after November 8, 1965 (the date of enactment of this Act) as such State has in effect an approved plan meeting the requirements of the Vocational Rehabilitation Act as amended by subsection (a).

"The Texas Education Agency is contemplating the alteration of its State Plan to meet the requirements of the Vocational Rehabilitation Act as amended, thereby to authorize and approve political subdivision(s) of the State locally to carry out the State function; that is, the State Agency only to supervise administration of the State approved plan by a political subdivision, such as the Amarillo Hospital District. Section 401.8 in the federal regulations revised to conform to the amendments (Federal Register, Vol. 31, No. 9, at page 501) further clarifies or reads in part as follows:

"The State plan may provide for administration of the program through a sole local rehabilitation agency of a political subdivision of the State, under the supervision of the State agency and in compliance with Statewide standards established by the State agency (except to the extent there is a waiver of Statewideness, 8 401.9). If the plan provides for local administration, the local rehabilitation agency shall be responsible for the administration of all aspects of the program within the political subdivision which it serves If the State plan provides for the administration of the program by local rehabilitation agencies, the State plan shall set forth the standards governing their organization and methods of administration, and shall describe

Hon. J. W. Edgar, page 3 (M-71)

the nature and the extent of supervision exercised by the State agency in order to assure observance in the application of State standards and the effective achievement of the objectives of the State plan throughout the State except to the extent that the requirement for statewideness is waived in accordance with § 401.9.

"Assuming this Agency adopts an amended and approved State Plan to provide for flexibility in State administration authorized in the amended Vocational Rehabilitation Act, we need and will appreciate receiving an opinion from your Office on the following three legal questions which give us concern in the matter.

"1. Does the Texas Central Education Agency have the authority to allocate or grant appropriated federal and state funds to a political subdivision of this State to carry out said State function under the Vocational Rehabilitation State Plan and supervision by the Agency?

"In the light of the authorities cited in Attorney General Opinion No. M-32, we do not believe that the allocation or grants, being for governmental purposes, could legally be regarded as violative of prohibitions set out in Section 51, Article III, Constitution of Texas. Nor do we find any provision in the law creating the Amarillo Hospital District (Art. IX, Sec. 5., Constitution) which prohibits State participation in its hospital program; as may be found in Article IX, Sections 4 and 9, Constitution of Texas.

"2. Does a political subdivision of this State (Amarillo Hospital District) have authority to spend for vocational rehabilitation program purposes local funds; and/or state and federal appropriated funds approved and allocated by this Agency pursuant to the Vocational Rehabilitation State Plan, when administered under the supervision of the Texas Education Agency?

"3. May any political subdivision of this State (city, county, hospital or school district) legally be approved by this Agency pursuant the State plan to administer a vocational rehabilitation program, under the supervision of the Texas Education Agency?"

Section 5 of Article IX, Constitution of Texas, authorizes the creation of a hospital district coextensive with the boundaries of the City of Amarillo and the Amarillo Hospital District was so created pursuant to its provisions. The purpose of the District is to provide for "hospital care for needy individuals."

Article 2675-1, Vernon's Civil Statutes, provides:

"Section 1. The Legislature of Texas does hereby accept the provisions and benefits of an Act of Congress passed June 2, 1920, amended June 5, 1924, entitled: 'An Act to provide for the promotion of Vocational Rehabilitation of persons disabled in industry or otherwise, and their return to civil employment.'

"Sec. 2. The Treasurer of Texas be, and he is hereby authorized and empowered to receive the funds appropriated under said Act of Congress, and is authorized to make disbursements therefrom upon the order of the State Board for Vocational Education. The State Board of Vocational Education is empowered and instructed to cooperate with the terms and conditions expressed in the Act of Congress aforesaid.

"Sec. 2-a. The Vocational Rehabilitation Division, through the Supervisor of Rehabilitation, is authorized to receive gifts and donations for rehabilitation work, said gifts and donations to be deposited by the Supervisor of Rehabilitation in the State Treasury, subject to the matching of same with Federal Funds up to such amount as the Federal Government may allocate per biennium to the State for said work, and which has not already been met with state appropriations for said biennium.

"Sec. 2-b. Provided no person shall ever receive any commission in whole or in part for solicitation of any funds as provided in this Act.

Hon. J. W. Edgar, page 5 (M-71)

"Sec. 3. The Vocational Rehabilitation Division of the Texas Education Agency is designated and authorized to provide for the rehabilitation of severely physically disabled Texas citizens, excepting those who are blind as defined by House Bill No. 347, Regular Session, 49th Legislature, 1945, Section 1(f), and further that nothing herein contained would affect or repeal the present crippled children's restoration service as authorized by Article 4419c and administered by the Crippled Children's Division of the State Department of Health."

The above-quoted provisions constitute a part of the Vocational Rehabilitation Program established by the State in 1929. Acts 41st Leg., 1st C.S., 1929, ch. 23, p. 57. The purpose of the Program is to vocationally train disabled individuals so that they may return to civil employment, and the program is administered by the Texas Education Agency. Attorney General's Opinions 0-6464 (1945); 0-6933 (1945); 0-5666 (1943); WW-1229 (1962).

Article 2675k, Vernon's Civil Statutes, is a lengthy Act providing for the creation of Rehabilitation Districts. Section 2 of Article 2675k provides:

"Rehabilitation Districts may be created to provide education, training, special services, and guidance to handicapped persons peculiar to their condition and needs, to develop their full capacity for usefulness to themselves and society, and to prevent them from becoming or remaining, in whole or in part, dependent on public or private charity."

In view of the foregoing provisions, it is our opinion that the Vocational Rehabilitation Program of the State of Texas is an integral part of the State's overall educational program. Under Article 2675-1, the Vocational Rehabilitation Division is authorized to accept the provisions and the benefits of the Federal Government in regard to Vocational Rehabilitation and is authorized to disburse all such funds received for such purpose. Under Article 2675k, a Vocational Rehabilitation Program of the State is administered locally through Rehabilitation Districts, created for such purpose, and constitutes a comprehensive act authorizing the creation of Vocational Rehabilitation Districts for the specific purpose of providing education, training, special services and guidance to handicapped persons peculiar to their conditions and needs. Hon. J. W. Edgar, page 6 (M-71)

On the other hand, hospital districts are created for the purpose of providing "medical and hospital care to the needy inhabitants." Chapter 5, Title 71, Revised Civil Statutes of Texas, 1925, as amended. Such hospital districts' power to enter into contracts with agencies of the State of Texas is for the purpose of "performing its duty to provide medical and hospital care to needy inhabitants." Section 5 of Article IX providing for the creation of the Amarillo Hospital District specifically states:

"The district shall not have the power to levy any tax for maintenance or operation of the hospital or facilities, but shall contract with other political subdivisions of the state or private individuals, associations, or corporations for such purposes." (Emphasis added).

Thus, the power of the hospital district to contract is limited for the purpose of providing for maintenance and operation of the hospital or facilities. The Amarillo Hospital District does not have the power, by virtue of the provisions of Section 5 of Article IX of the Constitution of Texas to educate and provide the necessary educational training contemplated by the Vocational Rehabilitation Program to enable handicapped persons to gain the necessary training to enable such individuals to work in our general society. Of course, the Vocational Rehabilitation Division of the Texas Education Agency has the power to contract with the Amarillo Hospital District to provide medical and hospital care incident to the Vocational Rehabilitation Act but the Hospital District does not have the authority to administer the entire Vocational Rehabilitation Program in that area. Furthermore, as above noted, Article 2675k authorizes the creation of local Vocational Rehabilitation Districts designed specifically for the purpose of carrying out the Vocational Rehabilitation Program of the State and Federal Governments. While it may be contended that since the Legislature has created a specific agency for the purpose of administering the Vocational Rehabilitation Program locally that no other local subdivision is authorized to perform duties for which local Vocational Rehabilitation Districts are created, we find no provisions in Article 2675k which prohibit school districts from administering the program locally as a part of their educational program.

Your questions are therefore answered as follows:

(1) The Texas Central Education Agency has the authority to allocate or grant appropriate federal and state funds to a political subdivision of the State to carry out the State plan for Vocational Rehabilitation provided such political subdivision has the authority

Hon. J. W. Edgar, page 7 (M-71)

to "educate and provide necessary vocational training contemplated by the Program to enable handicapped persons to gain the necessary training to enable such individuals to work in our society." As above noted, Vocational Rehabilitation Districts created pursuant to the provisions of Article 2675k, Vernon's Civil Statutes, have such power. Amarillo Hospital Districts created under the provisions of Section 5 of Article IX, Constitution of Texas, does not have such comprehensive power but does have the power to provide medical and hospital care to such individuals.

(2) The Amarillo Hospital District has the authority to spend for medical and hospital care, funds allocated under the Vocational Rehabilitation Program, but does not have the power to expend such funds for the comprehensive purpose to educate and provide necessary vocational training contemplated by the Vocational Rehabilitation Program to enable handicapped persons to gain the necessary training to enable such individuals to work in our general society.

(3) School districts of the State may legally be approved by the Texas Education Agency to administer a Vocational Rehabilitation Program as a part of their educational program. However, we know of no provisions which would authorize political subdivisions other than Vocational Rehabilitation Districts or school districts to carry out this program.

SUMMARY

The Texas Central Education Agency has the authority to allocate or grant appropriate federal and state funds to a political subdivision of the State to carry out the State plan for Vocational Rehabilitation provided such political subdivision has the authority to "educate and provide necessary vocational training contemplated by the Program to enable handicapped persons to gain the necessary training to enable such individuals to work in our society." As above noted, Vocational Rehabilitation Districts created pursuant to the provisions of Article 2675k, Vernon's Civil Statutes, has such power. Amarillo Hospital Districts created under the provisions of Section 5 of Article IX, Constitution of Texas, does not have such comprehensive power but does have the power to provide medical and hospital care to such individuals.

The Amarillo Hospital District has the authority to spend for medical and hospital care funds allocated under the Vocational Rehabilitation Program,

Hon. J. W. Edgar, page 8 (M-71)

but does not have the power to expend such funds for the comprehensive purpose to educate and provide necessary vocational training contemplated by the Vocational Rehabilitation Program to enable handicapped persons to gain the necessary training to enable such individuals to work in our general society.

Vocational Rehabilitation Districts or school districts may legally be approved by the Texas Education Agency to administer a Vocational Rehabilitation Program.

ry truly yours,

AWFORD C. MARTIN

Attorney General of Texas
