## PREFACE

This survey of the records of Nacogdoches County was undertaken as part of a statewide project being conducted by the University Center for Community Services of North Texas State University in conjunction with the Regional Historical Resource Depository program of the Texas State Library. The goal is to provide a comprehensive accounting for all the records of all the counties in the state that have escaped the depreciation of time, weather, fire, neglect, or inadequate housing. In this case the focus is on one of Texas' senior counties where records have accumulated for a century and a half. The majority are retained within the courthouse or in recognized office depositories, some are located in the Special Collections area of the Stephen F. Austin State University Library, and a few are kept in the University of Texas Archives and the Archives of the State of Texas. Others are undoubtedly in private hands. Thus this inventory will never be complete, but it has been the aim of the surveying team to make it as comprehensive as possible.

It is hoped that this labor will have several positive consequences. First, when a nearly-complete inventory is available, the persons responsible for the records will know more exactly what they have in their charge. Second, the

potential users of these records will have a single resource that tells them not only general content but specific location, condition, and dimensions of each record series. And finally, for the distant future, the survey will provide an accounting of what was in existence in 1974, should a calamity befall us in the future.

This survey is a real team effort. The labor was largely provided by a class in Texas history from Stephen F. Austin State University, including Thomas Atkins, Tim Boatman, Ted C. Bloyd, Danny Bomar, David Bork, Norma Broberg, David Carter, John Craddock, Sherry Crickmer, Jan Crisp, Linda L. Deuel, Shane Goetz, Jordan Holt, Jeffrey Humphries, Debbie Interwicz, Phillip Jowell, Kitty Kennedy, Phil Kent, Marinelle Kesinger, William Kirk, Nancy Liles, Ray Martin, Bob Neyland, Frederick Root, Vicki Slaughter, Kathleen Smith, Scott Taylor, Andrew Vermillion, John Westbrook, Mike Workman, and David Zudell. The know-how came from two regional archivists with the Texas State Library, Paul Scott, stationed with the University Archives at Texas A & M Library, and Douglas Ferrier, stationed at the University of Texas at Arlington. Permission and gracious cooperation came from the various officers of Nacogdoches County, including County Judge Carl Burrows, County Clerk Hope Skipper, Sheriff John Lightfoot, County Auditor Robert J. Griffin, County Attorney Bryan Davis, County Surveyor Fred F. Tucker, County Treasurer Margie Westmoreland, District Clerk Matt C. Gartman, District Judge Jack Pierce, District Attorney David D. Adams, County Superintendent Lamar Green,

Justice of the Peace Ocie Lee Westmoreland, precinct 1, Tax Assessor-Collector T. J. Clark, and commissioners M. E. Tubbe, Billy Lucas, Joan H. Cason, and Woodrow Parmer.

When this inventory reaches print and becomes, in its own way, a record of the records, all of these people will have earned the gratitude of those who will continue to labor with the originals.

## EXPLANATORY NOTES

All entries are divided according to office, with each entry representing a separate record. The heading indicates the title (punctuation or wording has not been changed unless absolutely necessary for clarity), the dates for which the record exists, and the volume (shown by the number and dimensions for bound volumes, unbound documents, boxes, and permafiles; or by the number of cubic feet for narrow file drawers and filing cabinet drawers). A brief description of the record follows: what information it contains, how the record is arranged, and whether it is indexed. The abbreviation SPF indicates that the record is kept on a standard printed form. A further indication follows as to whether this information is handwritten or typed onto the form. Condition of all records in the inventory is good unless otherwise indicated. In cases where there is a cross-reference to another entry, the title of the entry referred to is shown in capitals with the entry number in parentheses.

## INTRODUCTION

Blue skies and hot summer sun, rainy days that are bone chilling or sultry, pine trees and willows bent low over creeks and lakes, feed mills, and a sprawling university campus are all characteristic of Nacogdoches County. The county is in the East Texas pine belt. Consequently, the lumber and pulp industry is among its oldest and still most lucrative industries. At present Nacogdoches County covers 933 square miles of red and gray and sandy soils, its altitude variance is between 150 and 600 feet, and its annual rainfall approaches 50 inches. This precipitation and an average annual growing season of 243 days gives it good agricultural potential. The county once grew significant amounts of cotton, corn, and even tobacco, but it is more concerned with hay, dairy and beef cattle, poultry, and of late, soybeans as an experimental diversification.

Nacogdoches antedates the Texas Revolution as a governmental unit and population center. The county was named for the Nacogdoche Indians, a mound-building group, who were the original inhabitants. They were followed by the Spanish settlers who were brought there in 1716 to support the mission Nuestra Señora de Guadalupe de los Nacogdoches, and others like it in the region. The mission was abandoned within a few years, however, due to the poor response of the Indians and the lack

of other European competition for the land. Over the years several Spanish settlers gravitated to the Attoyac region, but in 1773 they were forced to abandon their homes and farms and move to San Antonio. Never satisfied with their new accommodations, a large number followed Antonio Gil Ybarbo back in 1779 to found the town of Nacogdoches, which eventually became, along with San Antonio, a principal seat of Spanish government in Texas. In the days of Mexican rule the region became a Department, and was the center of the Fredonian Rebellion (1826-27) and the site of the Battle of Nacogdoches (1832). In 1836 the Republic constituted Nacogdoches as one of its original counties, although it was not formally organized until the following year.

In the early days of Texas history, from colonialism through early statehood, Nacogdoches County remained one of the most important areas of Texas. But the years following the Civil War brought economic slowdown and lack of immigration. The county remained essentially rural for decades, and despite its hub-like location on the roads and rails, remained agricultural. Its population was nearly the same in both 1940 (35,393) and 1970 (36,363), although experiencing some loss and gain. Today the economy is more diversified. Major industries include education, owing to the location of Stephen F. Austin State University within the county since 1923, lumber, manufacturing, poultry processing, and tourism.

Nacogdoches County operates under the Constitution of 1876 which outlines the major offices of county government and their functions.

## COUNTY CLERK

There shall be elected for each county, by the qualified voters, a County Clerk, who shall hold his office for four years, who shall be clerk of the County and Commissioners Courts and recorder of the county, whose duties, perquisites and fees of office shall be prescribed by the Legislature, and a vacancy in whose office shall be filled by the Commissioners Court until the next general election; provided that in counties having a population of less than 8,000 persons there may be an election of a single Clerk, who shall perform the duties of District and County Clerks.<sup>1</sup>

In the process of being "clerk of the County and Commissioners Courts and recorder of the county,"<sup>2</sup> the County Clerk is responsible for a diverse number of functions. The largest of these tasks is that of county recorder, in terms of volume of paper handled. In this area, the Clerk is responsible for receiving, filing, indexing, and maintaining all types of instruments, including deed records, deeds of trust, liens, abstracts, vital statistics, bonds, and licenses, as well as a multifarious collection of odd and obsolete records found in each county courthouse.

The Clerk has the responsibility of recording all proceedings of the County Court and preserving this material in an orderly manner. The County Court is charged by the State Constitution with jurisdiction for misdemeanors, civil cases of value between \$200 and \$500, probate, and the protection and guardianship of minors, lunatics, idiots, and drunkards. Thus, any material handled by the County Court on these cases is therefore the responsibility of the Clerk.

The final broad area of responsibility of the Clerk is in support of the Commissioners' Court. This support includes

attending all Commissioners' meetings, posting notices of such meetings, preparing the agenda for each meeting, taking minutes, and indexing and maintaining these records.

#### COUNTY ATTORNEY

A County Attorney, for counties in which there is not a resident Criminal District Attorney, shall be elected by the qualified voters of each county, who shall be commissioned by the Governor, and hold his office for the term of four years. In case of vacancy the Commissioners Court of the county shall have the power to appoint a County Attorney until the next general election.<sup>3</sup>

The County Attorney has the responsibility of representing the State in the district and inferior courts in his county.<sup>4</sup> Where there is also a resident District Attorney, the County Attorney prosecutes cases in county courts below the district court level.

#### DISTRICT CLERK

There shall be a Clerk for the District Court of each county, who shall be elected by the qualified voters for the state and county officers, and who shall hold his office for four years, subject to removal by information, or by indictment of a grand jury and conviction by a petit jury. In case of vacancy the judge of a District Court shall have the power to appoint a Clerk, who shall hold until the office can be filled by election.<sup>5</sup>

The District Clerk has the responsibility for recording and preserving all material created by the District Court. This responsibility encompasses all aspects of the District Court's jurisdiction which is defined by the Constitution as

all criminal cases of the grade of felony; in all suits in behalf of the State to recover penalties, forfeiture and escheats; of all cases of divorce; of all misdemeanors

involving official misconduct; of all suits to recover damages for slander or defamation of character; of all suits for trial of title of land and for the enforcement of liens thereon; of all suits for the trial of the right of property levied upon by virtue of any writ of execution, sequestration or attachment when the property levied on shall be equal to or exceed in value \$500; of all suits, complaints or pleas whatever, without regard to any distinction between law and equity, when the matter in controversy shall be valued at or amount to \$500, exclusive of interest; of contested elections; and said court and the judges thereof shall have power to issue writs of habeas corpus, mandamus, injunction and certiorari, and all writs necessary to enforce their jurisdiction.<sup>6</sup>

#### DISTRICT ATTORNEY

The office of District Attorney is provided for by the Legislature in such districts as may be deemed necessary. In counties which constitute a criminal district, a District Attorney is elected for a term of four years.<sup>7</sup> He handles all criminal cases in the district courts.

#### JUSTICE OF THE PEACE

The office of the Justice of the Peace can trace its beginnings to the Constitution of the Republic of Texas and has been included in every constitution since that time.

Charged by the present Constitution with

jurisdiction in criminal matters of all cases where the penalty or fine to be imposed by law may not be more than for \$200, and in civil matters of all cases where the amount in controversy is \$200 or less,<sup>8</sup>

the Justice of the Peace Court is often referred to as poor man's court.

The Justice of the Peace is also empowered to issue writs, warrants, processes, arraign prisoners, and hold

preliminary hearings. In counties with fewer than 120,000 people, the Justice of the Peace may also serve as coroner, as well as act as registrar of vital statistics in unincorporated towns of less than 2,500 people.

#### TAX ASSESSOR-COLLECTOR

The duties of the Tax Assessor-Collector are outlined by the Constitution in the following manner:

there shall be elected by the qualified electors of each county an Assessor and Collector of Taxes, who shall hold his office for four years and until his successor is elected and qualified; and such Assessor and Collector of Taxes shall perform all the duties with respect to assessing property for the purpose of taxation and of collecting taxes as may be prescribed by the Legislature.<sup>9</sup>

In counties with less than 10,000 population the offices of Sheriff and Tax Assessor-Collector are combined into one office, although the electorate has the option of making the two offices separate.

#### SHERIFF

The office of Sheriff is an old one in American local government, tracing its roots back to the Anglo-Saxon heritage of the English-speaking people. In Texas, the office has been provided for in every constitution of the Republic and of the State. The present Constitution provides that

there shall be elected by the qualified voters of each county a Sheriff, who shall hold his office for the term of four years, whose duties and perquisites and fees of office shall be prescribed by the Legislature, and vacancies in whose office shall be filled by the Commissioners Court until the next general election.<sup>10</sup>

Chief among these duties is that of peace officer of the county, but the Sheriff is also an officer of both the county and the district courts in which he is responsible for the service of writs and processes. In addition to these duties, the Sheriff is also charged with the maintenance of the county jail and the supervision of its prisoners.

#### COUNTY TREASURER

The responsibility for receiving and disbursing county funds belongs to the County Treasurer. Elected for a four-year term, the Treasurer is accountable to the County Commissioners for the manner in which the funds are handled. Under the Republic of Texas the office was an appointive one, but in 1850 it became an elective office and has remained so until the present.

#### COUNTY AUDITOR

The office of County Auditor is provided for in statutory rather than constitutional law. Any county with a population of 35,000 or more, or taxable valuation in excess of \$15 million, is required to have an Auditor.<sup>11</sup> Counties of lesser population may create the office if so desired by Commissioners' Court.<sup>12</sup>

The District Judge of the county appoints the Auditor, and he has the authority to remove the Auditor for misconduct or incompetency.<sup>13</sup>

The Auditor's main duties are the

general oversight of all books and records of all offices of the county, district, and state, who may be authorized or required by law to receive or collect any money, funds, fees, or other property for the use of, or belonging to, the county; and he shall see to the strict enforcement of the law governing county finances.<sup>14</sup>

In counties of less than 225,000 population, the Auditor estimates revenues and expenditures so that a county budget can be formulated by Commissioners' Court. In counties of over 225,000 population, the Auditor is the budget officer and prepares the budget to be approved by Commissioners' Court.<sup>15</sup>

#### COUNTY SCHOOL SUPERINTENDENT

The separate office of County Superintendent was created by amendment to the School Law of 1876, and the establishment of the office was left to the discretion of the Commissioners' Court.<sup>16</sup>

A County Superintendent is elected for a term of four years in Texas counties having a scholastic population of 3,000 or more.<sup>17</sup> The County Superintendent advises the Board of Education (Board of School Trustees) on the establishment and maintenance of common schools and their educational policies, including rules and regulations and prescribed courses of study. He prepares the annual school budget for approval by the Board. The County Superintendent submits annual reports to the State School Superintendent and transmits rules and regulations of the State Department of Education to the Board of Education and to school employees.<sup>18</sup>
