

Prepared by the U. S. Army Topographic Command (AJSK), Washington, D. C. Compiled in 1954 by photogrammetric methods from aerial photographs taken 1952-1953. Photographs field annotated 1954. Revised by the U. S. Geological Survey in 1974 from aerial photographs taken 1973.  
 Area covered by dashed light-blue pattern is subject to controlled inundation.  
 100,000-foot grids based on Texas coordinate system, central and south central zones.  
 Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
