

THIRD QUARTER 2011

TEXAS QUARTERLY CENSUS OF EMPLOYMENT AND WAGES

BY INDUSTRY AND COUNTY

Prepared by the Labor Market & Career Information
Department, Texas Workforce Commission

Quarterly Census of Employment and Wages by Industry & County

Description of the Data

This publication contains employment data, payroll data, and average weekly wages by county for the specified quarter. These data were compiled from quarterly employment and wage reports submitted by employers subject to the Texas Unemployment Compensation Act (TUCA) and for civilian workers covered by the program of Unemployment Compensation for Federal Employees (UCFE). Quarterly average employment data have been tabulated by industry according to the North American Industry Classification System (NAICS) manual (see Industry Classification below) on a statewide and county basis. Payroll data represent the total wages paid by the establishment during the quarter. Total wages are provided for each county and by industry for the state. Average weekly wage data are computed from employment and total wages reported by all establishments as well as just those establishments subject to the Texas Unemployment Compensation Act. Average weekly wages are not to be confused with "prevailing" wage rates in various industries.

Industry Classification

Since the release of first quarter 2001 data, industry information has been provided under the North American Industry Classification System (NAICS). NAICS revisions are implemented every five years. Beginning with first quarter 2011 data, the Texas Workforce Commission (TWC) will release Quarterly Census of Employment and Wages (QCEW) data using the NAICS 2012 revision. The purpose of this revision is to keep up with new and emerging technology industries. This revision is larger than the 2007 revision in the scope of the QCEW dataset, as 186 NAICS 2007 codes become obsolete and 76 new NAICS 2012 codes are established. Because there are no plans for historical reconstruction of the data series, a series break will occur, canceling the ability for a time series analysis for those selected industries. For more information on the new NAICS 2012 code changes, see the following web link: <http://www.census.gov/epcd/www/naics.html>.

Definition of covered employment, wages, and average weekly wage

Covered employment is the number of workers employed by employers subject to the Texas Unemployment Compensation Act during the pay period which included the 12th day of the month. Excluded from coverage are employment covered by the Railroad Retirement Act, self-employed, and unpaid family members.

The payroll data (total wages) used in this publication includes all wages and salaries paid to covered employees by their employers, including bonuses, commissions, and cash values or remuneration received in any medium other than cash.

The average weekly wage is the numeric calculation of total wages for the county divided by the number of employees in the county, divided by the number 13 (the weeks in a quarter). This figure is listed in Table 3 for those establishments that are covered by the Texas Unemployment Compensation Act, and for all employers (those covered plus Federal Government civilian employment).

NAICS Industry Structure

The NAICS industry hierarchy classifies data to the six-digit level. The first level consists of the Goods-Producing and Service-Providing industries. Below this is the Super Sector level. The third layer is the Sector level. Statewide data is published at both the Super Sector and Sector levels. Data for the 254 Texas counties are published at the Super Sector level only.

When there was no employment reported in a county in one of the industry groups, a "0" is shown. When one employer comprises 80% or more of the employment for an industry group in a county, or there are fewer than three employers for an industry group in a county, a dash (---) is shown. The employment for that industry is included in (L) - Unclassified so as not to reveal information about individual establishments.
