Explanation of Table

This table contains information on offenses in Texas statutory law punishable as felonies. The table includes the statute citation for each offense (“Code” and “Section Number” columns), a brief description of the offense (“Offense” column), and the penalty category of the offense (“Felony Category” column). Links to each referenced statute section are provided in the “Section Number” column.

The standard penalties for capital, first degree, second degree, third degree, and state jail felonies are set out in Sections [12.31](#), [12.32](#), [12.33](#), [12.34](#), and [12.35](#), Penal Code, and the standard penalties for Parks and Wildlife Code state jail felonies and Parks and Wildlife Code felonies are set out in Sections [12.4061](#) and [12.407](#), Parks and Wildlife Code. Most felony offenses are assigned penalties using these standard categories. However, the penalty category for some offenses is contingent on circumstances of the offense. For example, [Section 466.313](#), Government Code, sets the penalty for conspiracy with intent that a state lottery offense be committed at one category lower than the most serious offense that is the object of the conspiracy. In such instances the felony category is listed as “Other.” In instances where a felony offense has a punishment in the felony range but the punishment is not categorized as a capital, first degree, second degree, third degree, or state jail felony, or as a Parks and Wildlife Code state jail felony or Parks and Wildlife Code felony, the felony category is listed as “Uncategorized” and a description of the punishment is provided in the “Punishment (nonstandard)” column. In instances where a statute section provides a standard felony category but specifies a nonstandard punishment, a description of the punishment is likewise provided.

Many of the offenses included in the table are punishable in multiple felony categories based on certain circumstances of the offense (e.g., the offense is a subsequent offense or a certain amount of money or controlled substance is involved). If an offense is punishable in multiple categories, each felony category connected to the offense has a separate entry in the table. Although a number of the offenses are also punishable as misdemeanors, the table addresses only punishments categorized as felonies.

An Excel version of the table can be accessed by clicking the title in the table. When viewing the table in Excel, each column can be sorted or filtered via the filter button on the column heading, although this function is most useful for the “Code” and “Felony Category” columns. To sort or filter a column, click on the filter button on the column heading and select the desired criteria. To facilitate chapter sorting, the spreadsheet contains a hidden column with chapter numbers; however, the numbers do not necessarily track the actual chapter numbers related to the offense.
