LEGISLATIVE APPROPRIATION REQUESTS FOR FY 2010 & 2011  
 - Administrator's Statement: Texas State Technical College Harlingen

### OVERVIEW OF TSTC HARLINGEN

Texas State Technical College Harlingen is one of four colleges in the TSTC System of technical colleges charged by the State Legislature to provide technical education and academic support in certificate and associate degree programs that benefit the economic development of the State of Texas. TSTC Harlingen is located in the Lower Rio Grande Valley, an area that is economically and educationally challenged, where approximately 88% of the population is Hispanic and 57% of the population is classified as low-income. Area high schools produce in excess of 15,000 high school graduates each year, and the population growth rate is one of the highest in the nation. These two factors, plus the relatively young age of our residents gives TSTC Harlingen the potential of providing a large workforce pool for the state and nation's economic growth and a prime location for new technology-related industries to the State.

TSTC Harlingen produces approximately 500 graduates per year into the Texas economy from its 34 technical program areas of study. It sustains an average enrollment of around 4,000 semester credit students each term, plus it touches approximately another 7,000 adult learners each year through its Corporate College division that serves the continuing education and contract training needs for business and industry. TSTC Harlingen responds to business, industry, and community needs through updated programs, new programs such as dual enrollment offerings, and higher education partnerships such as with University of Texas at Brownsville/Texas Southmost College.

### BASELINE BUDGET STRATEGY

TSTC Harlingen continues to fulfill its dual mission of providing cutting-edge and high demand technical education to the citizens of Texas, while providing Texas industry with a competent and competitive workforce. TSTC Harlingen's baseline budget strategy reflects the strategic intents developed from stakeholder input from our Board of Regents, industry leaders, government officials, and public education and university colleagues, and supports our transformational efforts at becoming more innovative and entrepreneurial. Particular emphasis will be directed at:

- Deepening our relationships with Texas employers in order to enrich their supply of job-ready technicians,
- Providing students with the learning experiences required to achieve a level of technical skill mastery that leads to successful employment,
- Working cooperatively with Texas community colleges and other partners to address Texas industry's training needs, regardless of their location in the state,
- Strengthening linkages with Texas public schools to promote and jointly offer career and technical education experiences, which in turn help students to persist to high school graduation while preparing for either college or the workplace. TSTC Harlingen maintains an Early College High School on its campus, and an expanding dual enrollment initiative with 19 area high schools, serving over 1,600 secondary students.
- Accelerating the development of innovative practices in the design and delivery of technical training programs that set new standards in the industry, and
- And exploiting every conceivable means to leverage and extend the entire system's resources for greater operating efficiency in the face of widespread escalation in the cost of basic goods and services.

Agency name: **Texas State Technical College - Harlingen**

**TSTC HARLINGEN CHALLENGES**

1. A continuing trend toward increases in student enrollment with corresponding decreases in student contact hours.
2. A growing shortage of technically competent workers in a wide range of Texas industries.
3. Since TSTC must compete with industry, as well as higher education, for its technical faculty, it is a challenge to maintain staffing levels in high demand technical areas.
4. In terms of its energy needs, TSTC's requirements for natural gas, electricity, and gasoline closely resemble those of a cluster of factories, this is especially problematic considering the dramatic rise in energy cost.
5. Each change in essential industrial technology requires an addition or revision in TSTC's curriculum and the acquisition of specialized equipment. Each new or emerging technology also calls for a good deal of research and collaboration with industry.
6. Operating an enterprise spread throughout the State and with as diverse an inventory of products and services in a season of high inflationary pressures presents a challenge that compounds the effects of each of the above.
7. Operating in many facilities that were not designed for educational purposes, especially technical education purposes, including associated energy challenges.

**TSTC HARLINGEN EXCEPTIONAL FUNDING REQUESTS**

1. Supplement for Exceptional Technology Expense. The 79th and 80th Texas Legislatures have provided supplemental funding for TSTC in recognition of the fact that despite steady enrollment growth, the old contact-hour-based funding formula does not support TSTC's technical curricula in a semester credit hour/WECM universe. Given TSTC's critical role as the only statewide, and principally state funded, provider of technical education, it is essential to at least maintain at a minimum the current level of funding. A supplemental appropriation of \$8,600,000 million for the biennium will ensure that TSTC Harlingen can continue to provide Texas industry with the highest quality technicians they need in order to be globally competitive. It is hoped that in subsequent biennia, TSTC will be funded in accordance with its ability to deliver technically competent workers in greater numbers and though compressed training cycles, without being penalized by a contact hour based formula that rewards longer and slower programs, which are a disincentive to students and a frustration to employers.
2. Restoration of 10 Percent Reductions. Restoration of reductions required under LAR instructions would be necessary to maintain current operating levels. The reduction of Institutional Enhancement and Workers Comp for a total of \$265,958 will result in reductions of support operations for counseling, student services, and retention efforts. New program development and "Closing the Gaps" goals would also be impaired.
3. Tuition Revenue Bonds. Tuition Revenue Bond issuance authority and debt service funding is requested to support continued Closing the Gaps initiatives on the TSTC Harlingen campus:

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

Vocational-Technical programs include regular programs leading toward Certificates of Completion, Associate of Applied Science Degrees, Adult Education programs and courses, and apprenticeship training and cooperative work experience. This strategy supports the legislated mission statement of TSTC.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

State job market, unemployment rates across the Rio Grande Valley and State. Relative percentage of full-time vs. part-time students.

**3.A. STRATEGY REQUEST**  
 81st Regular Session, Agency Submission, Version 1  
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/23/2008

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

TSTC's intense "hands-on" laboratories have proven to be a successful approach to education, as shown by the graduation and success rates of its students and the positive responses of their employers. But this approach is expensive. For at least 15 years, TSTC has had to spend approximately twice the median departmental operating expenses (DOE) per contact hour of other two-year colleges. A supplement to fund these exceptional technology requirements will enable TSTC to continue providing the education that supports economic development and allows employment opportunities for students who need it most.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Just as industry must continually retool in order to remain competitive, so must TSTC keep its technology labs current in order to help sustain Texas' workforce competitiveness. The rate of change in technology is accelerating more rapidly each year, which has a compounding effect should TSTC be unable to remain current with its updating efforts.

Most of TSTC's technical programs have specialized lab requirements including optimal space, health and safety considerations, electrical supply, water and air purity, room temperature, and the strength and nature of building materials. In addition, TSTC must rely on facilities that were not built for technical training, focusing resources on updating and reconfiguring them to better fit instructional needs. Maintenance and upkeep of facilities is increasingly expensive as they deteriorate over time.

Each change in essential industrial technology requires an addition or revision in TSTC's curriculum. Each new or emerging technology also calls for a good deal of research and collaboration with industry.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

Provides funding necessary for proper functioning of the College operations of Instruction and Support Operations. Funds are used to support E&G instructional support components, including student services, counseling, College communications, administration, tutorial programs and other student success initiatives.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Services would be severely curtailed; student service fees would have to substantially increase to support operations for counseling, deaf student services, and retention efforts. New program development would also be impaired. This funding also helps to meet "Closing the Gaps" goals.

**DESCRIPTION / JUSTIFICATION:**

The 79th and 80th Texas Legislatures have provided supplemental funding for TSTC in recognition of the fact that despite steady enrollment growth, the old contact-hour-based funding formula does not support TSTC's technical curricula in a semester credit hour/WECM universe. Given TSTC's critical role as the only statewide, and principally state funded, provider of technical education, it is essential to at least maintain at a minimum the current level of funding. A supplemental appropriation of \$8,600,000 million for the biennium will ensure that TSTC Harlingen can continue to provide Texas industry with the highest quality technicians they need in order to be globally competitive. It is hoped that in subsequent biennia, TSTC will be funded in accordance with its ability to deliver technically competent workers in greater numbers and through compressed training cycles, without being penalized by a contact hour based formula that rewards longer and slower programs, which are a disincentive to students and a frustration to employers.

DESCRIPTION / JUSTIFICATION:

Hurricane Dolly Disaster Recovery. \$4 Million FY '10 TSTC Harlingen sustained heavy damage to its physical plant, infrastructure, and grounds during Hurricane Dolly. The College implemented its disaster readiness plan immediately upon receiving the Weather Service bulletin, helping to diminish the loss somewhat. Nevertheless, the damage was fairly extensive. Although all campus facilities are insured by private provider, the deductible amount is high and growing.

The TSTC System responded immediately by sending systemwide resources (including personnel, equipment, and funds) to assist the Harlingen team in the cleanup and repair efforts with only weeks remaining until the start of the Fall semester. Many of these and other expenses associated with maintaining continuity of business will not likely be covered by the insurer.

The funding of this exceptional item will allow TSTC to recover funds expended in restoring TSTC Harlingen to its pre-storm condition which were unrecoverable through any other measure.

	<b>Total Expenditures</b>		<b>12.0%</b>	<b>\$3,416,741</b>	<b>\$28,399,390</b>		<b>6.9%</b>	<b>\$2,646,398</b>	<b>\$38,525,736</b>

**B. Assessment of Fiscal Year 2006 - 2007 Efforts to Meet HUB Procurement Goals**

**Attainment:**

TSTC exceeded one out of the five of the applicable statewide HUB procurement goals.

**Applicability:**

Texas State Technical College has one agency number. Historically Underutilized Business data is being reported the same in each location of the LAR.

**Factors Affecting Attainment:**

TSTC has many expenditures from HUB qualifying vendors that are not HUB certified. Purchases from these HUB qualifying vendors do not count in attaining our HUB procurement goals. Higher expenditures in Building Construction in FY 2007 caused a decline in TSTC's HUB percentage.

**"Good-Faith" Efforts:**

Texas State Technical College made the following good faith efforts to achieve the statewide HUB procurement goals:

- 1) prepared and distributed information on becoming a certified HUB vendor to non-certified HUB vendors that are bidders;
- 2) hosted HUB certification seminars;
- 3) participated in HUB conferences throughout the state;
- 4) member of Black and Hispanic Chamber in locations of our colleges;
- 5) required that buyers in purchasing must send bids to HUB vendors on all purchases;
- 6) continued to promote an aggressive internal program to promote HUB awareness through contact with college departments and workshops; and
- 7) met with potential HUB vendors and offer to assist in certifying them as a HUB vendor.

<b>Agency Biennial Total (GR + GR-D)</b>				<b>\$ 319,363</b>							

Rank / Name  
Explanation of Impact to Programs and Revenue Collections

1 Workers Compensation  
Reduction of Worker's Compensation Insurance strategy would result in a reduction of services in the primary functions of the College, as funds are diverted from other sources to make required payments for Worker's Compensation Insurance

2 Institutional Enhancement  
Reduction of Institutional Enhancement strategy will reduce available funds for new program development, instructional equipment, and faculty skills upgrading. These reductions may result in reduced enrollment, producing an indeterminate reduction in tuition and fee revenues, contact hour production and corresponding formula funding

Time: 1:00:13PM  
Page: 1 of 1

Agency Code: 71B      Agency: Texas State Technical College - Harlingen

**Special Item: 1      Institutional Enhancement**

**(1) Year Special Item:**      2000

**(2) Mission of Special Item:**

To provide support services for E&G operations to facilitate instructional support services, student counseling, deaf student services, retention efforts, scholarships, institutional research and new program development, and general College educational support, targeting under-represented populations.

**(3) (a) Major Accomplishments to Date:**

Institutional research, student enrichment, retention, Center for Excellence in Teaching and Learning (CETL), scholarships, student tutoring and supplemental instruction services, and addition of Mechatronics program.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Improve retention, provide for new programs (Licensed Vocational Nursing, Corrosion Technology) start-up, increase distance learning offerings, support student enrichment, fund scholarships, increase business and industrial training activities, and expand faculty development opportunities.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Prior to 2000, appropriations for deaf student services, scholarships, program start-up funding, professional development, educational support and plant expansion were separate line item appropriations.

**(5) Non-general Revenue Sources of Funding:**

Texas Rehabilitation Commission, Carl Perkins Vocational Act, and the Department of Education provide additional funding for Deaf and Disabled Student Services.

**(6) Consequences of Not Funding:**

Services would be severely curtailed; student service fees would have to support operations for counseling, deaf student services, and retention efforts. New program development, professional development activities, and tutoring labs would also be curtailed. This funding also helps to meet "Closing the Gaps" obligations of participation and success.
