R P O R T

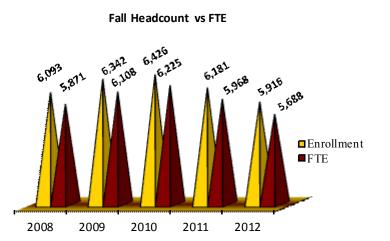

The objective of Management's Discussion and Analysis is to help readers of Midwestern State University's financial statements better understand the financial position and operating activities of the university for the fiscal years ended August 31, 2012 and 2011.

Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the university administration.

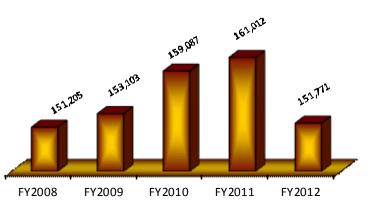

The following discussion should be read in conjunction with the accompanying transmittal letter, financial statements, and note disclosures.

The following graph illustrates the comparison and movement of total student enrollment and full time equivalent (FTE) student growth since 2008. Increased academic standards and a statewide consistent pattern of very flat student enrollment explain the variance.

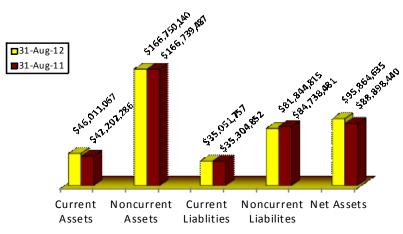

Beginning in 2006, and again in 2011, the university changed its academic standards to ensure students were prepared to pursue higher education. The increase in standards has created growth in student retention as more of our freshmen are better prepared for college which also improves graduation rates. Graduation rates may become financially important to the university as future state appropriations are contingent on such successful outcomes. In addition, the university is one of the few institutions in Texas capable of offering in-state tuition rates plus a \$65/ semester credit hour assessment to all US citizens, which is a great positive impact on future enrollment.

Total Enrolled Semester Credit Hours

Α Ν Ν U Α L F Ν Α Ν С Ι А L R Ε Ρ 0 R Т

The Statement of Net Assets

By reporting information on the university as a whole, these comparative statements highlight for the reader whether or not the year's activities strengthened or weakened the university's financial position. When revenues and other support exceed expenses, the result is an increase in net assets. The relationship between revenues and expenses may be thought of as the university's operating results.

These comparative statements report the current status and changes to the university's net assets. Net assets, the difference between assets and liabilities, is one way to measure the university's financial position. Increases in net assets show an improvement in financial health while decreases often indicate declining financial stability. However, many other non-financial factors, such as the trend in admission applicants, enrollment, student retention, and condition of the buildings must be considered to accurately assess the overall health of the university.

As the statement shows below, the university's net assets increased a total of \$6,966,196 from \$88,898,439 in 2011 to \$95,864,635 in 2012.

	<u>2012</u>	<u>2011</u>
Current Assets	\$ 46,011,067	\$ 42,202,286
Noncurrent Assets:		
Capital Assets	134,327,458	136,678,381

The following charts indicate the changes in net assets for the year ended August 31, 2012 as compared to the previous year.

The university reports unrestricted net assets of 29.44% of total net assets for the year ended August 31, 2012 and 29.43% for the prior year. Although unrestricted, most of these funds have been designated for specific purposes. The category of other unrestricted net assets includes encumbrances, inventories, and unallocated unrestricted net assets. The following charts show how funds have been allocated:

The University's Results of Operations

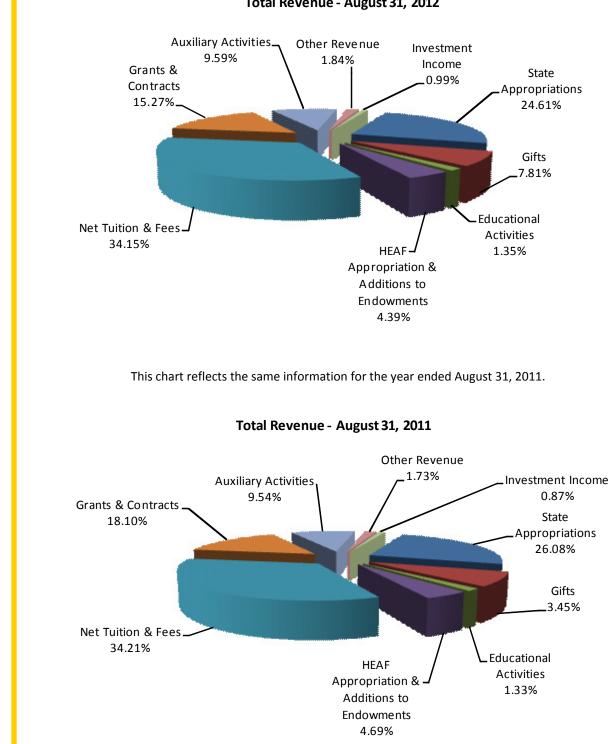

The statement of revenues, expenses, and changes in net assets reflects the university's operating results for the fiscal years ended August 31, 2012 and 2011. The comprehensive statements indicate the financial condition of the university, and comparatively analyze in what direction the university is moving. The following statements reveal the operating results of the university, as well as the non-operating revenues and expenditures. Operating revenues include all transactions that result in the sales and/or receipts from goods and services such as tuition and fees, housing, and food services. Certain federal, state, and private grants are considered operating revenues if they are not for capital purposes and are considered a contract for services. Annual state appropriations, while budgeted for operations, are considered non-operating revenues according to generally accepted accounting principles.

The statement below compares the operating results of the university for the years ended August 31, 2012 and 2011.

	<u>2012</u>	<u>2011</u>
Operating Revenue: Net tuition and fees	\$ 29,393,905	\$ 30,074,871
Grants and contracts	4,327,184	5,659,189
Sales and Service of Educational Activities	1,166,329	1,165,346
Sales and Services of Auxiliary Enterprises	8,257,663	8,383,510
Other	1,586,110	1,517,980
Total Operating Revenue	44,731,191	46,800,896
Total Operating Expenses	(81,183,165)	(83,918,910)
Operating Loss	(36,451,974)	(37,118,014)
Nonoperating Revenues (Expenses):		
State Appropriations	16,762,807	18,252,263
Additional State Appropriations	4,423,896	4,676,181
Federal Grants	8,814,310	10,258,814
Gifts	6,722,053	3,030,962
Other Nonoperating Revenues (Expenses)	(2,490)	6,106
Investment Income	853,372	766,675
Net Increase (Decrease) in Fair Value of Investments	1,284,638	218,119
Net Book Value of Capital Asset Disposals	(45,501)	(105,042)
Interest Expense on Capital Asset Financing	(3,575,660)	(3,813,140)
Total Nonoperating Revenue (Expense)	35,237,425	33,290,938
Income (Loss) Before Capital Contributions, Additions to	(1,214,549)	(3,827,076)
Endowments, and Special Items		
Capital Contributions, Additions to Endowments, & Special Items		
Capital Contributions	4,999,209	325,000
HEAF Appropriation	3,559,433	3,559,433
Additions to Endowments	221,926	567,655
Transfers In	333,347	38,787
Transfers Out	(933,170)	(903,480)
Increase (Decrease) in Net Assets	6,966,196	(239,681)
Net Assets, Beginning of Year	88,898,439	89,138,120
Net Assets, End of Year	\$ 95,864,635	\$ 88,898,439

The University's Cash Flows

A N U A L

F I N A

N C

Ι

A L

R

Ε

Ρ

O R T The statement of Cash Flows represents the university's significant sources and uses of cash. It is designed to help users assess the university's ability to generate future cash flows, its ability to meet obligations as they come due, and its need for external financing.

Cash Flows	5	
	<u>2012</u>	<u>2011</u>
Cash provided (used) by:		
Operating activities	\$(27,386,904)	\$(27,728,042)
Noncapital financing activities	33,830,365	35,644,381
Capital and related financing activities	(5,633,487)	(9,257,800)
Investing activities	338,775	1,970,862
Net increase (decrease) in cash	1,148,749	629,401
Cash – Beginning of year	5,687,853	5,058,452
Cash – End of year	\$ 6,836,602	\$ 5,687,853

There was a net increase in cash of \$1,148,749.

Exhibit III, the Statement of Cash Flows, shows that the major sources of funds for operating activities are from student tuition and fees, grants and auxiliary enterprises. Tuition and fees accounted for \$29.6 million, grants accounted for \$4.4 million and auxiliary enterprises, including housing and dining, accounted for \$8.3 million.

State appropriations in the amount of \$20.9 million were the primary sources of non-capital financing. Although the university is dependent on these appropriations to continue the current level of operations, accounting standards require that this source of funding be reflected as non-operating. Other non-capital financing activities include gifts in the amount of \$4.7 million, additions to endowments in the amount of \$221 thousand, and \$8.8 million in Federal non-operating grants.

The main uses of capital and related financing activities came from the financing of renovations to D.L. Ligon Coliseum. Cash was used to purchase capital assets in the amount of \$4.6 million and for the payment of principal and interest on capital debt in the amount of \$8.4 million.

Capital Assets and Debt Administration

Capital Assets

As of August 31, 2012, the university had \$134.3 million invested in capital assets. This figure is net of accumulated depreciation and amortization of \$107.6 million. Depreciation charges totaled \$9.8 million for the current fiscal year. The category of other capital assets includes library holdings, artwork, and collections. Assets by classification are shown below:

Capital Assets Before Accumulated Depreciation

	<u>2012</u>	<u>2011</u>
Land and Land Improvements	\$ 4,693,326	\$ 4,693,326
Construction in Progress	3,437,691	4,054,395
Buildings and Building Improvements	183,895,384	179,063,725
Infrastructure	12,823,875	10,463,927
Facilities Improvements	6,572,510	6,353,046
Furniture and Equipment	11,543,686	11,916,954
Vehicles	1,543,521	1,471,851
Computer Software	2,165,669	2,165,669
Other Capital Assets	15,255,814	15,137,634
Total	\$241,931,476	\$235,320,527

Additions to assets of \$12.28 million during fiscal year 2012 included: renovations to D.L. Ligon locker rooms, the Clark Student Center electrical renovation, the addition of green space between Killingsworth Hall and the Clark Student Center, renovations to Akin Auditorium, and completion of several energy conservation measures.

The construction in progress at the end of the year is the continued renovation of D.L. Ligon Coliseum, expansion of the McCoy Engineering building, and the replacement of soccer field lighting.

Further financial information about the university's capital assets is presented in Note 2 of the notes to the financial statements.

Year Ended 8-31-2012 (UNAUDITED)

А

<u>Debt</u>

At year-end, the university had \$123 million in outstanding debt. Outstanding debt for the year ended August 31, 2011 was \$133 million. The table below summarizes the amount of outstanding debt by type of instrument for the year ended August 31, 2012 compared with August 31, 2011.

	<u>2012</u>	<u>2011</u>
Revenue Bonds	\$ 80,365,670	\$ 84,520,000
General Obligation Bonds (HEAF)	2,860,000	4,210,000
Accrued long term interest payable on bonds	40,696,829	44,506,797
Total	\$ 123,922,499	\$ 133,236,797

Debt repayments made during the year included principal in the amount of \$4,915,000 and interest in the amount of \$3,809,971.

Moody's Investor Services has assigned an A1 bond rating to the university's bonds, and Fitch has assigned an AA- rating. More detailed bond information is disclosed in Schedule 2A, 2B, 2C, 2D, and 2E.

Factors Affecting the Future of Midwestern State University

The underlying strength of Midwestern State University (MSU) continues to be the acceptance of its mission as the only designated public liberal arts university in the State of Texas. Midwestern's focused mission has been defined over a number of years but was formally accepted when the 81st Legislature designated MSU's mission clearly. The weakness of many institutions of higher education is the continuous changing of philosophy and mission as boards and administrators change. Such has not been true of MSU. This stability gives direction that allows an understanding of its past and its future.

A public liberal arts college is known by its characteristics as much as its basic philosophy that every student majoring in majors ranging from fine arts to engineering has an underlying background based on the liberal arts defined for the 21st century. These characteristics include:

- Faculty are dedicated to teaching undergraduates.
- Classes are small and students receive personal attention and mentoring.
- Students work with professors, not graduate assistants.
- Leadership and co-curricular opportunities abound.
- Emphasis is on civic engagement and service learning.
- Students participate in summer-long exchanges at member campuses and study abroad.
- Students publish their research in the online Council of Public Liberal Arts Colleges (COPLAC)
- undergraduate research journal.
- Students present their work at regional undergraduate research conferences.
- Students enroll in summer "study-away" seminars at member campuses.

Recent University Progress

MSU's physical plant continues to be expanded and improved in order to maintain a beautiful campus and to keep laboratories and classrooms up-to-date with current teaching methodologies and equipment. During fiscal year 2012, the university was the recipient of over \$12.4 million in private gifts for new programming and campus upgrades. The planned upgrades include:

Year Ended 8-31-2012 (UNAUDITED)

Ρ

О

R

Т

А

- Clearing the campus of old buildings.
- Constructing beautiful new commuter parking lots.
- Adding classroom and laboratory space to McCoy Engineering Hall
- Renovating the former Christ Academy building.
- Renovating Akin Auditorium.
- Renovating the Wichita Falls Museum of Art at Midwestern State University.
- Building a research center at the Dalquest Desert Research Site.
- Adding three laboratories to Bolin Science Hall.
- Closing streets to add walkways and landscape to various areas on campus.
- Constructing a football field house near the football practice field.
- Adding campus lighting and lighting to softball and soccer fields.

Philanthropists of this community will also make possible the expansion of programming in the sciences and engineering. The McCoy School of Engineering will add two Ph.D. qualified engineers and a new option in petroleum production engineering. The option will include courses in petroleum production and the growing field of artificial lift, which has become a major portion of petroleum engineering with the development of new petroleum recovery techniques. The College of Science and Mathematics will add a baccalaureate program in biochemistry that has been needed for some time. Midwestern State is also in the process of establishing a petroleum geology program. The fields of biology and chemistry have been moving toward the study of life processes based on the expanding knowledge of DNA and its role in living systems. Few universities of the size of MSU offer programs of this sophistication.

The university is in the process of adding faculty and equipment to expand the number of graduates in nursing, respiratory care, and radiologic sciences. The university will no longer be in the position of having to reject student applicants who are qualified to major in these fields that offer secure employment opportunities and life-long careers. A major private gift of \$5 million will facilitate this expansion.

The university will expand its role as a member of the Lone Star Conference by expanding the intercollegiate athletic programs in women's track and baseball, as soon as private funds are available to construct a new baseball complex on campus.

The most important factor facing MSU continues to be national and state enrollment patterns.

<u>Enrollment</u>

The university reached a record enrollment in 2010. However, in 2011 the university experienced a dramatic decrease in enrollment but a record graduating class. This trend continued in 2012. The tightening of admission standards in 2006 resulted in fewer students requiring remedial work, increased student retention, and rapidly increasing graduation numbers. A small but more qualified entering class and increased graduation numbers have come together at an unexpected time with clear results.

In the last decade the university's support from the State of Texas has dropped from 40 percent to the current 22 percent in FY 2013. Even though state funding is critical, student tuition and fees now provide for nearly 43 percent of the university's educational budget. The declining funding through state revenues is a challenge that can only be met by increasing the total size and reach of Midwestern State. The university must increase its enrollment to 7,000 or more students within the next three or four years. This will be accomplished with a stable mission, maintaining admission standards, teaching all students rigorously, and providing students with extracurricular activities that contribute to their maturity and total educational experience. The university is fortunate to have the faculty, physical plant, equipment, and programming to attract highly qualified students in greater numbers.

Year Ended 8-31-2012 (UNAUDITED)

The university's recruiting activities must be expanded in order to attract students from across Texas and Oklahoma. The declining student population in the traditional drawing area and the increasing graduation rate has triggered the university's implementation of a new enrollment management plan. The university plans to increase its prospect pool from 9,000 to 75,000 individuals from which to recruit qualified students to MSU.

In regard to academic programming, the university can potentially be affected by the increase in attention to lowproducing programs in universities throughout Texas by the Texas Higher Education Coordinating Board. The loss of the university's physics program did, to some degree, diminish all programs of College of Science and Mathematics. However, the university will resurrect the program through a consortium effort with universities similar in size and mission through the State of Texas.

The deregulation of tuition in 2003 has been a financial boon to institutions throughout Texas. However, the state and nation now recognize the increasing number of college students coming from poverty line families. In effect, universities can expect a financially poorer student body. A premium must be placed upon competitive scholarship programs and financial aid in order for these students to receive their education in a timely manner.

MSU's Board of Regents established the Mustangs Guarantee Program. The program guarantees all students, both beginning freshmen and transfer students, a virtually free education if they come from families with an adjusted gross income of \$50,000 or less. The changes in Pell grants, particularly the deletion of Pell grants from the summer semester, will make it critical for students to plan their college careers carefully. It is essential that students understand that Pell will be available for only eight long semesters. Advising of students concerning available grants and loans puts pressure on universities to provide enough personnel to work with students on an almost one-to-one basis. MSU is doing this through its Academic Success Center.

It is clear that the nation's economy will rebuild but that it will be rebuilt around high-technology manufacturing, health sciences, computer technology, and numerous other areas that will require certificates and associate and baccalaureate degrees of nearly all in the work force. Only the growing areas of low paid service positions in the hospitality and health science fields will be exempt. The nation, at this point, is made up of a population that is as much unemployable as it is unemployed. All factors must be considered in planning the match between university education and the work force now demanded and that will be demanded in the future.

Midwestern State University will continue to seek private funding to supplement tuition and fees and state funding in order to provide the rigorous education that will allow students to compete in an ever increasingly competitive job environment. It is clear that the most important funding matter before the Texas Legislature is the development of a dependable, systematic, non-politicized funding system that will allow universities to plan and prepare for expanding its enrollment and decreasing its cost through the use of modern technology.

Midwestern State University is a public institution of higher education and is an agency of the State of Texas. The university's Board of Regents is appointed by the Governor of the State. Accordingly, the university's financial position is in the State of Texas' Consolidated Annual Financial Report. Transactions with the State relate primarily to appropriations for operations and capital improvements and grants from various state agencies.

Basis of Presentation

The financial statements of Midwestern State University have been prepared in accordance with the requirements established by the Comptroller of Public Accounts' Annual Financial Reporting Requirements. These requirements follow, as near as practicable, the generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), including Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* and Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis of Public College and Universities,* issued in June and November, 1999. Due to the significant changes related to these Statements, the Comptroller of Public Accounts does not require the annual financial report to be in compliance with GAAP.

The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas' Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

The university follows the "business-type activities" reporting requirement of GASB Statement No. 34 that provides a comprehensive one-line look at the university's financial activities.

Basis of Accounting – Proprietary Fund Accounting

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial positions, and cash flows. The financial statements of the university have been prepared on the accrual basis. Accrual accounting attempts to record a transaction's financial effects in the period in which the transaction occurred, rather than when cash is received or paid. Revenues are recorded when they are earned or when the university has a right to receive the revenues. Expenses are recognized when they are incurred.

There are four essential elements of accrual accounting. They are:

- Deferral of expenditures and the subsequent amortization of the deferred costs.
- Deferral of revenues until they are earned.
- Capitalization of certain expenses and the subsequent depreciation of the capitalized costs.
- The accruals of revenues that have been earned and expenses that have been incurred.

Midwestern State University Notes To The Financial Statements - Unaudited

Proprietary funds use the flow of economic resources measurement focus, which is similar to the focus used by commercial entities. Proprietary funds focus on whether the enterprise is economically better off as a result of the events and transactions that occurred during the fiscal period reported. Transactions and events that improved an enterprise's financial position are reported as revenues or gains. Transactions and events that diminished the economic position of the enterprise are reported as expenses or losses. Both current and long-term assets and liabilities are shown on the statement of net assets.

The proprietary statement of revenues, expenses, and changes in net assets is segregated into operating and non-operating sections.

Generally, operating activities are those that directly result from the provision of goods and services to customers or are directly related to the principal and usual activity of an enterprise. GASB 34 indicates that a consideration for defining a proprietary fund's operating revenues and expenditures is how individual transactions would be classified for purposes of preparing a statement of cash flows according to GASB Statement No. 9.

Since certain grants are actually contracts for services, they are classified as operating activities. Although loan activity would normally be classified as an investing activity, lending activities in a university are directly related to the principal and usual activity of the university, and are classified as operating activities.

Net Assets

А

Ν

N U

А

L

F

Т

Ν

А

N C

Ι

А

L

R

E P

0

R T GASB Statement No. 34 reports equity as "Net Assets" rather than "fund balance." Net assets are classified according to external donor restrictions or availability of assets for satisfaction of university obligations.

Restricted Net Assets represent amounts over which third parties have imposed restrictions that cannot be changed by the Board, including amounts that the Board has agreed to set aside under contractual agreements with third parties. Nonexpendable restricted net assets are gifts that have been received for endowment purposes, the corpus of which cannot be expended. Expendable restricted net assets represent funds that have been gifted for specific purposes. Restricted Net Assets includes the university's permanent endowments and donor restricted funds.

Unrestricted Net Assets are available for university use, and have been internally designated or reserved for specific purposes such as renewals and replacements, quasi-endowments, capital projects, student loans, budget commitments, and reserves for working capital.

Cash and Cash Equivalents

All highly liquid investments with a maturity of three months or less at the time of purchase are considered cash and cash equivalents. Cash in the investment portfolio is not included in cash and cash equivalents as it is held for investing purposes.

Investments

The university reports investments at fair value in the Statement of Net Assets.

Restricted Assets

Restricted assets are those assets that have third party restrictions or are restricted for specific uses by a contractual obligation. Restricted assets include donor restricted funds and proceeds from bond issuances that can only be used for capital projects.

Inventories

А

Ν

Ν

U

A L

F

N A N C I A L Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost and utilize the last-in, first-out method.

Capital Assets

Property, plant and equipment are recorded at cost, or, if acquired by gift, at the fair market value as of the date of the acquisition. Depreciation is provided on physical properties on a straight-line basis over the estimated useful life of the asset.

Other Significant Accounting Policies

Other significant accounting policies are set forth in the financial statements and the notes thereto.

Note 3: Deposits, Investments, and Repurchase Agreements

Authorized Investments

Midwestern State University is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Governmental Code). Such investments include:

- 1. Obligations of the United States or its agencies,
- 2. Direct obligations of the State of Texas or its agencies,
- 3. Obligations of political subdivisions rated not less than A by a national investment rating firm,
- 4. Certificates of deposit, and
- 5. Other instruments and obligations authorized by statute.

The university also employs four investment managers to manage the assets of the university's endowments which total \$17,626,008 and are invested under a separate investment policy that permits equities as well as fixed income and alternative assets.

Deposits of Cash in Bank

At August 31, the carrying amount of the university's deposits is presented below:

	<u>2012</u>	<u>2011</u>
Cash on Hand	\$ 16,300	\$ 17,000
Cash in Bank	2,238,739	968,639
Cash in State Treasury	4,581,563	4,702,214
Total Cash and Cash Equivalents	\$6,836,602	\$5,687,853
Current Assets—Cash and Cash Equivalents		
Cash on Hand	\$ 16,300	\$ 17,000
Cash in Bank	4,793,124	3,421,796
Cash in State Treasury	4,581,563	4,702,214
Current Assets – Restricted Cash and Cash Equivalents	(2,554,385)	(2,453,157)
Total Cash and Cash Equivalents	\$6,836,602	\$5,687,853

Custodial Credit Risk for Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the university will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The university's policies and State Statute require the university's deposits be deposited into authorized commercial banks and savings and loan associations. State statutes also require that these financial institutions pledge securities as collateral to secure university deposits if they are not fully insured by FDIC.

The university's bank balance at August 31, 2012 was \$3,255,975. The entire amount was covered under the Dodd-Frank Deposit Insurance provision of the Dodd-Frank Wall Street Reform and Consumer Protection Act which provides that all funds in a non-interest bearing transaction account are insured in full by the FDIC from December 31, 2010, through December 31, 2012. This temporarily unlimited coverage is in addition to, and separate from, the coverage of at least \$250,000 available to depositors under the FDIC's general deposit insurance rules.

Other Money Market				5,431,990
Equities				8,714,597
Alternative Investments (including hedge funds)				401,478

Note 3: Continued

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2012, the university's concentration of credit risk is immaterial to any single issuer.

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a debt investment to changes arising from movements in interest rates. Duration is the weighted average maturity of an instrument's cash flows, where the present value of the cash flows serves as the weight. The duration of an instrument can be calculated by first multiplying the time until receipt of cash flow by the ratio of the present value of that cash flow to the instrument's total present value. The sum of these weighted time periods is the duration of the instrument. Modified duration estimates the sensitivity of the university's investments to changes in interest rates.

The university's investments exposed to interest rate risk as of August 31, 2012, were as follows:

Investment Type	Fair Value	Modified Duration
U.S. Government Agency Obligations	\$ 10,149,222	3.52
Corporate Bonds	\$ 2,190,505	3.21
Note 4: Short-Term Debt

Midwestern State University Notes To The Financial Statements - Unaudited

Employees' Compensable Leave

Benefit eligible staff and 12-month faculty members can earn annual leave from eight to twenty-one hours per month depending on the respective employee's years of state employment. The State's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum of hours up to 532 for those employees with thirty-five or more years of state service. A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, separation from State employment, or transfer to a position that no longer accrues vacation, provided the employee has had continuous employment with the State for six months. For proprietary fund types an expense and liability are recorded as the benefits accrue to the employee. The liability is determined through the summarization of each employee's annual leave balance multiplied by their respective salary rate. The estimated cumulative amount of this liability is \$1,505,053. The University made lump sum payments totaling \$121,847 for accrued vacation to employees who separated from state service during the fiscal year ended August 31, 2012, and payments of \$119,997 for the year ended August 31, 2011.

The University has an undetermined and unrecorded liability for employee's earned sick leave. Sick leave accumulation of which is unlimited, is earned at the rate of eight hours per month and is paid only when an employee is absent due to illness or to the estate of an employee in the event of his/her death. The maximum sick leave that may be paid an employee's estate is one-half of the employee's accumulated entitlement or 336 hours, whichever is less. The University's policy is to recognize the cost of sick leave when paid. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Note 6: Bonded Indebtedness

Revenue Bonds Payable

Detailed supplemental bond information is disclosed in Schedule 2A-Miscellaneous Bond Information, Schedule 2B-Changes in Bonded Indebtedness, Schedule 2C-Debt Service Requirements, Schedule 2D-Analysis of Funds Available for Debt Service and Schedule 2E-Defeased Bonds Outstanding. General information related to Revenue Financing System bonds is summarized on this page and on the following pages:

Revenue Financing System Revenue Bonds, Series 2002

- Issued by the Texas Public Finance Authority (TPFA) on behalf of the University. To pay for campus improvements in heating, ventilating and air conditioning systems; chilled water distribution; street drainage and paving; and other projects including Americans with Disabilities Act (ADA) accessibility, elevator improvements, safety, and security lighting
- Issued June 15, 2002
- \$8,965,000; all bonds authorized have been issued
- Revenue Bond
- Business-Type Activities
- Source of revenue for debt service Pledged Revenues, consisting of unrestricted current funds revenues and unappropriated fund balances available, but not including remissions, governmental appropriations and gifts, grants and contracts, Higher Education Assistance Funds, and student service fees and private gifts

General information related to the Constitutional Appropriation bond is summarized below:

Constitutional Appropriation Bond, Series 2004

- Issued by the Board of Regents of Midwestern State University. The proceeds of the Bonds are to be used to construct a Business Administration classroom building for use by students of the University
- Issued August 1, 2004
- \$11,185,000; all bonds authorized have been issued
- General Obligation Bond
- Business-Type Activities
- Source of Revenue for Debt Service Payable and secured solely from a first lien on and pledge of up to one-half of the annual appropriation for and on behalf of the University, from the State Treasury pursuant to the Constitutional Provision and "The Excellence in Higher Education Act."

Note 7: Derivatives

Not Applicable.

Note 8: Leases

Midwestern State University has entered into a long-term lease for financing the purchase of a capital asset. Such leases are classified as capital leases for accounting purposes; therefore, such leases are recorded at the present fair value of the future minimum lease payments at the inception of the lease. The following is the original capitalized cost of such property under lease in addition to the accumulated depreciation as of 8/31/12.

Business-Type Activities	Year Ended August 31, 2012			
	Assets under	Accumulated		
Class of Property	Capital Lease	Depreciation	Total	
Vehicles	\$132,036	(\$16,289)	\$115,747	

Future minimum lease payments under this capital lease, together with the present value of the net minimum lease payments at fiscal year-end, are as follows:

Year	Principal	Interest	Total
2013	\$19,202	\$7,317	\$26,519
2014	\$20,577	\$5,943	\$26,520
2015	\$74,461	\$2,079	\$76,540
Total Minimum Lease Payments Less: Amount Representing Interest at Various Rates Present Value of Net Minimum Lease Payments	\$114,240	\$15,339 	\$129,579 \$15,339 \$114,240

Operating Leases

Future minimum lease rental payments under non-cancellable operating leases having an initial term in excess of one year are as follows:

Year	Total
2013	\$120,285
2014	\$86,272
2015	\$64,718
2016	\$37,927
2017	\$21,222
Total Future Minimum Lease Payments	\$330,424

А

Ν

Note 9: Pension Plans

The state has established an optional retirement program for institutions of higher education. Participation in ORP is in lieu of participation in the Teacher Retirement System and is available to certain eligible employees. The contributions made by the plan members and employer for the fiscal year ended August 31, 2012 compared to the previous year are shown below:

	Year Ended	Year Ended
	August 31, 2012	August 31, 2011
Member Contributions	\$1,105,506	\$1,148,451
Employer Contributions	\$1,178,576	\$1,270,927
Total Remittance	\$2,284,082	\$2,419,378

Note 10: Deferred Compensation

The university's Board of Regents approved a non-qualified deferred compensation plan for the university President which provided for \$2,500 per month to be set-aside for the President for thirty-six months, ending August 31, 2011, at which time the President received the full distribution of the \$91,547 balance of the Deferred Compensation Account. A second non-qualified deferred compensation plan was approved by the Board of Regents, which provided for \$1,250 per month to be set-aside for the President for twelve months beginning September 1, 2010 and ending August 31, 2011, at which time the amount of \$3,750 per month would be set-aside for the President for twenty-four months, ending August 31, 2013. The balance of this account at August 31, 2012 was \$60,459.

University employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Texas Government Code, Sec 609.001. Deferred compensation plans are administered by the Employees Retirement System.

The State's 457 Plan complies with Internal Revenue Code, Section 457. This plan is referred to as the TexaSaver Deferred Compensation Plan and is available to all employees. Deductions, purchased investments, and earnings attributed to the 457 Plan are the property of the State and subject only to the claims of the State's general creditors. Participant rights under the plan are equal to those of the general creditors of the State in an amount equal to the fair market value of the 457 account for each participant. The State has no liability under the 457 Plan, and it is unlikely that plan assets will be used to satisfy the claims of general creditors in the future.

The University also administers a Tax-Deferred Account Program, created in accordance with Internal Revenue Code, Section 403(b). All eligible employees can participate. The Tax-Deferred Account Program is a private plan, and the deductions, purchased investments, and earnings attributed to each employee's 403(b) plan are held by vendors chosen by the employee. The vendors may be insurance companies, banks, or approved non-bank trustees such as mutual fund companies. The assets of this plan do not belong to the University, and thus it does not have a liability related to this plan.

Note 15: Contingencies and Commitments

There is no pending or threatened litigation.

Note 16: Subsequent Events

The University issued \$4,710,000 of Revenue Financing System Revenue Refunding Bonds, Series 2012A and \$5,415,000 Revenue Financing System Revenue Refunding Bonds, Series 2012B to refund \$4,600,000 of the Revenue Financing System Revenue Bonds, Series 2002 and the \$4,945,000 of the Revenue Financing System Revenue and Refunding Bonds, Series 2003 on October 9, 2012. The refunding was undertaken to reduce total debt service payments by \$1,313,344 that will result in an economic gain of \$1,059,634.

While the university does not expect any additional state resources for capital construction from state appropriations for the next biennium, the generous support of donor contributions will provide funding for capital construction needs for the next two years. Short-term capital projects include razing of several old facilities to accommodate new parking and the expansion of the Engineering Building to add additional classrooms and class labs.

A \$40 million request has been submitted to the state to renovate the library to accommodate the West college of Education and Information Technology. Such construction is dependent on authorization from the Texas State Legislature for tuition revenue bonds. The current outlook for the authorization for this funding is not strong given the current unfunded demands on the state budget.

Note 17: Risk Management

The university is exposed to a variety of civil claims resulting from the performance of its duties. It is the university's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. Currently there is no purchase of commercial general liability insurance for the university. The University participates in the statewide property insurance program and purchases educators legal liability insurance.

The university's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. At August 31, 2012, there were no known claim liabilities.

The State provides coverage for workers' compensation and unemployment benefits from appropriations made to other state agencies for university employees. The university was assessed \$101,258 and \$79,062 for worker's compensation coverage for fiscal years ending August 31, 2011 and 2012, respectively. Unemployment compensation is funded on a pay as you go method, with the State contributing ½ of the cost of benefits and the university contributing the other half for employees paid by State appropriated funds. The university must pay 100% of the cost of benefits for employees paid from local funds.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$30,000/\$60,000 bodily injury and \$25,000 property damage. However, the university has chosen to carry liability insurance on its licensed vehicles in the amount of \$250,000/\$500,000/\$100,000 with a combined single limit of \$1,000,000 if the Texas Tort Claims Act is not applicable.

А

Midwestern State University Notes To The Financial Statements - Unaudited

Note 18: Management Discussion and Analysis

See Introduction.

Note 19: The Financial Reporting Entity and Related parties

The University is an agency of the State of Texas. The ten members of its Board of Regents are appointed by the Governor, and include one non-voting student Regent. The University has no component units or joint ventures; however, there are two related parties described below.

The Midwestern State University Foundation and MSU Charitable Trust are nonprofit organizations with the sole purpose of supporting the educational and other activities of the University. The Foundation solicits donations and acts as coordinator of gifts made by other parties. The Foundation remitted restricted gifts of \$1,025,884 to the University during the year ended August 31, 2012, and \$611,378 for the prior year. The MSU Charitable Trust remitted restricted gifts of \$874,318 to the University during the year ended August 31, 2012 and \$460,070 for the prior year. The assets of the Midwestern State University Foundation and the MSU Charitable Trust as of August 31, 2012 are reported by their trustees in the amount of \$16,812,235 and \$24,012,296, respectively.

Note 20: Stewardship, Compliance, and Accountability

Financial information is reported in accordance with the requirements established by GASB No. 34 and No. 35. The university administration is not aware of any noncompliance items.

Note 21: Not Applicable to the AFR Reporting Requirements Process

Note 22: Donor Restricted Endowments

Donor-Restricted Endowment	Amounts of Net <u>Appreciation</u>	Reported in Net Assets
