Summary of Significant Accounting Policies

GENERAL INTRODUCTION

Texas Tech University Health Sciences Center (TTUHSC) is a component unit of the State of Texas and its financial records reflect compliance with applicable state statutes and regulations. This *Annual Financial Report* includes all accounts of TTUHSC, a separate institution established pursuant to Texas Education Code, Chapter 110. TTUHSC is under the direction, management, and control of the Texas Tech University System Board of Regents which acts separately and independently on all matters affecting TTUHSC.

As an institution of higher education of the State of Texas, the income of TTUHSC is generally exempt from income taxes. However, income unrelated to the exempt purpose of TTUHSC would be subject to tax under § 511(a)(2)(B) of the Internal Revenue Code. Management does not believe that there is any material unrelated income for the year ended August 31, 2012.

TTUHSC is one of four entities included in the Texas Tech University System. The other three entities, reported separately as additional component units of the State of Texas are Angelo State University, Texas Tech University (TTU) and Texas Tech University System Administration (TTUSA).

TTUHSC offers graduate and undergraduate programs in seven schools: the School of Allied Health Sciences, the School of Medicine, the Paul L. Foster School of Medicine, the Anita Thigpen Perry School of Nursing, the Gayle Greve Hunt School of Nursing, the School of Pharmacy, and the Graduate School of Biomedical Sciences. Major ancillary operations include correctional health care, grant and contract activities, and clinical operations.

TTUHSC operates several campuses located in Abilene, Amarillo, Dallas, El Paso, Highland Lakes, Lubbock, Midland and Odessa. The School of Medicine is represented at a majority of the campuses while other schools have a presence at only select campuses. Most administrative functions are centralized at the Lubbock campus.

FUND STRUCTURE

Blended Component Units

Texas Tech Physician Associates (TTPA) is reported as a blended component unit of TTUHSC. TTPA is a certified non-profit health corporation authorized under the Medical Practice Act § 5.01(a), article 4495b of the State of Texas. TTPA was created for the purpose of entering into prepaid capitation agreements for physician and other medical services. TTPA is exempt from tax under Internal Revenue Code § 501(c)(3). The TTPA board consists of nine directors appointed by TTUHSC.

Although legally separate from TTUHSC, TTPA is reported as a component unit because TTUHSC can impose its will on TTPA. TTPA balances and activities are blended with TTUHSC balances and activities since the sole purpose of TTPA is to financially support TTUHSC. Independent financial statements for TTPA can be obtained from the Health Care Systems division of TTUHSC at 3601 4th Street, Lubbock, Texas 79430.

Texas Tech Foundation, Inc. (TTFI) is a component unit of the consolidated Texas Tech University System as it serves the fundraising needs of TTUHSC, TTU, and TTUSA. No balances or activities associated with TTFI are included in the Financial Statements.

NOTE 1 (continued) Summary of Significant Accounting Policies

BASIS OF ACCOUNTING

The fiscal records of TTUHSC are maintained using a modified accrual basis of accounting. Most internal financial reports utilize this basis. However, balances and activities included in most external reports, including this *Annual Financial Report*, are converted to a full accrual basis of accounting in compliance with Governmental Accounting Standards Board (GASB) statements 34 and 35.

Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. For reporting purposes, operating activities are distinguished from non-operating activities. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the principal ongoing operations. Operating expenses include administrative expenses and depreciation on capital assets, among others.

RESTRICTED NET ASSETS

In cases where both restricted and unrestricted net assets are available for use, restricted resources are used first and then unrestricted resources are used as needed.

BUDGETS AND BUDGETARY ACCOUNTING

Budgets are established and monitored for most TTUHSC funds though some fund areas have a more restrictive budget structure than do other fund areas. Many of the budgets are based on legislative appropriations. No budgetary information is presented in this *Annual Financial Report*.

ASSETS, LIABILITIES, AND FUND EQUITY

Current and Non-Current Assets

Current assets are those that are readily available to meet current operational requirements. Non-current assets are those that are not readily available to meet current operational requirements and, instead, are intended to support longer-term institutional needs. In some cases highly liquid assets (including cash and cash equivalents) that are not expendable and therefore not available for current operational needs are classified as non-current assets.

Cash and Cash Equivalents

Cash and cash equivalents are defined as all cash on hand, cash in banks, reimbursements due from the State Treasury, local balances of legislative appropriations (held in the State Treasury), and temporary investments with original maturities of 90 days or less. TTUHSC utilizes bank deposits and eligible investment pools as cash equivalents in its Short/Intermediate Term Investment Fund. Per policy and state statute all bank deposits are fully collateralized. Eligible investment pools must maintain a \$1 net asset value and be continuously rated no lower than AAA or AAA-m by at least one nationally recognized rating service. TTUHSC currently utilizes TexPool and TexStar as eligible investment pools.

Summary of Significant Accounting Policies

Investments

Investments are reported at fair value in this *Annual Financial Report* with the following exceptions: (1) non-participating contracts, such as non-negotiable certificates of deposit with redemption terms that do not consider market rates, are reported using a cost-based measure provided that the fair value of those contracts is not significantly affected by the financial institution's credit standing or other relevant factors; and (2) money market investments and participating interest-earning investment contracts that mature within one year of the date of their acquisition may be reported at amortized cost assuming that the investment is not affected by the financial institution's credit standing or other relevant factors.

Fair value, which is determined based on quoted market prices, is the amount at which an investment could be exchanged in a current transaction between parties other than in a forced or liquidation sale.

Receivables

The most significant categories of TTUHSC receivables are patient receivables and contract receivables. Details regarding Current and Non-current receivables are presented in Note 24. Patient receivables are reported net of allowances for contractual and similar adjustments.

Allowances for uncollectibles and other adjustments are estimated using either (1) aging schedules (for student accounts receivable), (2) percentage of revenues (for pledged gifts receivable), or (3) detailed evaluations of past collection performance (for patient accounts receivable, contract accounts receivable, loans and notes receivable, and other accounts receivable).

Receivables that are not expected to be collected within one year are reported as non-current assets and include portions of pledged gifts receivable and loans and notes receivable.

Inventories and Prepaid Items

Inventories include both consumable inventories and merchandise inventories. Consumable inventories include supplies and postage that are on hand and available for consumption. Merchandise inventories include materials, supplies, equipment, and other items on hand and for sale. Inventories are valued at cost generally utilizing the first-in / first-out method.

Inventories and prepaid items are reported using the consumption method. Under the consumption method, inventories and prepaid items are recorded as assets deferring the recognition of expenditures until the period in which the inventories or prepaid items are used or consumed.

Restricted Assets

Cash and cash equivalents that are held for endowments or for special programs are reported as restricted because they are not available for current operations. All such cash and cash equivalents are associated with programs that are restricted by an external party.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or, in the case of gifts, at fair value as of the date of donation.

Notes to the Financial Statements *August 31, 2012*

NOTE 1 (continued) Summary of Significant Accounting Policies

Capital Assets (continued)

Depreciation of capital assets is recorded as a periodic expense and accumulated as an offset to the asset book values. Depreciation of capital assets is based on allocation methods and estimated lives prescribed by the Statewide Property Accounting (SPA) system as summarized in the table on the following page.

Capital Asset Category	Useful Life
Buildings and Building Improvements	22 Years
Infrastructure	20 Years
Furniture and Equipment	3-15 Years
Vehicles	5-7 Years
Facilities and Other Improvements	10-23 Years

Depreciation expense is not allocated to functional categories for this *Annual Financial Report*.

TTUHSC has adopted the federal standard of capitalizing furniture and equipment assets that exceed an aggregate cost threshold of \$5,000. Capitalization thresholds are also utilized for buildings and building improvements (\$100,000), infrastructure (\$500,000), facilities and other improvements (\$100,000), and vehicles (\$5,000).

For fabricated assets financed by debt, construction period interest is capitalized as part of the capital asset cost. The capitalized interest is combined with the other costs associated with constructing the asset and depreciated over the appropriate useful life beginning when the asset is placed into service.

As a result of limitations in the SPA system, capital asset betterments that do not individually exceed the full capitalization threshold described above are not capitalized and instead are reported as an expense of the period.

Payables

Major categories of TTUHSC payables include bonds payable, claims payable and general accounts payable (including payroll). Additional categories of payables include deposits payable and unclaimed property due to the State Treasury. Details regarding payables can be found in Note 5.

Compensable Leave

Compensable leave balances represent the approximate value of unused employee vacation time and other compensated time. Annual vacation leave and other compensated time are accrued in a manner consistent with State of Texas rules and guidelines and in accordance with generally accepted accounting principles. Within the framework of those guidelines employees are eligible to carry forward a limited annual leave balance.

Overtime and Compensatory Leave

Non-exempt employees who work in excess of 40 hours in a week generally have the option of requesting compensation for the additional hours worked at a rate equal to 1½ times the usual hourly wage or, if provided by department policy, they may request compensatory leave for the additional hours worked at a rate of 1½ hours of added leave for each extra hour worked.

Employee Sick Leave

Employee sick leave is accrued in a manner consistent with State of Texas rules and guidelines and in accordance with generally accepted accounting principles. Within the framework of those guidelines employees are eligible to carry forward an unlimited sick leave balance. Accumulated sick leave balances are not recognized as an institutional liability because sick leave is not paid out to terminating employees.

Capital Lease Obligations

Where material, capital leases are appropriately recorded as liabilities associated with the acquisition of capital assets in compliance with the full accrual basis of accounting set forth by GASB statements 34 and 35. For purposes of complying with this requirement a capital lease is defined by fulfilling any of the following four conditions: (1) the ownership of the asset transfers to the lessee at the end of the lease; (2) the lessee has the option of purchasing the leased asset at the end of the lease for a bargain price; (3) the term of the lease represents 75% or more of the useful life of the leased asset; or (4) the discounted present value of all future lease payments at the inception of the lease represent 90% or more of the fair value of the leased asset.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances outstanding are reported as reservations of net assets and do not constitute expenditures or liabilities.

Net Assets

Net assets represent the excess of assets over liabilities. As a result of the amounts restricted by external parties and also amounts invested in capital assets, net of related debt, the excess of assets over liabilities does not generally represent spendable resources.

Interfund Activity and Transactions

TTUHSC is regularly involved in both interfund activity and interfund transactions. Interfund activity is defined as financial interaction between internal funds, including blended component units.

Interfund transactions are defined as financial interactions between legally separate entities. Interfund activity and interfund transactions are both clearly identifiable and are eliminated where appropriate.

Interfund transfers represent the flow of assets without equivalent flow of assets in return or a requirement for repayment. Transfers are reported after non-operating revenues and expenses in the *Comparative Statement of Revenues, Expenses and Changes in Net Assets* included in this *Annual Financial Report*.

Risk Financing

Liabilities are reported when it is probable that a loss has occurred and when the amount of the loss can be reasonably estimated. Identified liabilities include amounts for claims that have been incurred but not reported.

NOTE 2
Capital Assets

GENERAL INTRODUCTION

Capital assets are categorized as either (1) land and land improvements, (2) buildings and building improvements, (3) infrastructure, (4) furniture and equipment, (5) vehicles, (6) construction in progress, (7) other capital assets, or (8) facilities and other improvements. Non-depreciable capital assets include land and land improvements, construction in progress, and other capital assets (representing artwork). All other capital asset categories are depreciated.

Adjustments include loss recovery, restatements, corrections of errors and changes in asset type. Reclassifications include completion of construction in progress and interagency transfers of capitalized property at book value.

Capital asset changes for the year ended August 31, 2012 for non-depreciable and depreciable capital assets are summarized in the following table.

NOTE 3

Deposits, Investments and Repurchase Agreements

TTUHSC's investment portfolio is invested pursuant to the parameters of applicable Texas law and the governing board's Investment Policies. Under Texas law, TTUHSC investments may be "any kind of investment that persons of ordinary prudence, discretion, and intelligence, exercising the judgment and care under the circumstances then prevailing, acquire or retain for their own account in the management of their affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital." Under Texas law, TTUHSC is required to invest its institutional funds according to written investment policies adopted by the Board of Regents. No person may invest TTUHSC funds without express written authority from the governing board.

The governing investment policy is Regents' Rules Chapter 09, "Investment and Endowments." The majority of TTUHSC assets are invested in two investment pools; the Long Term Investment Fund (LTIF) and the Short/Intermediate Term Investment Fund (SITIF), both having their own stand-alone investment policies. Endowment funds and certain eligible long-term institutional funds are invested in the LTIF, which invests in equity and fixed income securities, as well as alternative investments such as hedge funds and private equity, and is operated using a total return philosophy. Other institutional funds not in the LTIF are invested in the SITIF, a fixed income fund. Other assets include securities gifted to TTUHSC with donor instructions to maintain the assets in their original form, and bond proceeds invested in external investment pools.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the agency will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. TTUHSC's policy is to require collateralization of bank balances in excess of FDIC protection. As of August 31, 2012, TTUHSC did not have any funds considered to be uninsured or uncollateralized.

Short Term Debt

TTUHSC has at times over the past several years issued short term commercial paper to serve as an interim financing source for long term construction projects in advance of issuing authorized bonds. Because this commercial paper was purchased to pay construction costs that were financed by a bond issue, the commercial paper payable is represented in Note 5 as a long-term liability.

CAPITAL LEASE OBLIGATION

Refer to Note 8 for detailed information on capital lease balances, transactions and lease terms.

NOTES PAYABLE

Notes Payable represents commercial paper payable, which is used as an interim financing source for long term construction projects in advance of issuing authorized bonds. Because this commercial paper was issued to pay construction costs that were financed by a bond issue, indicating the intent of long term financing, the commercial paper payable is reported as a long-term liability. Debt service for the commercial paper obligation is provided by general appropriations for tuition revenue bonds. Commercial paper maturities extend up to 270 days from the date of issuance with interest rates ranging from 0.08% to 0.18%. All commercial paper outstanding at August 31, 2012 will mature within one year. For 2013, debt service for the commercial paper obligation is \$741,778.17 which is comprised of \$739,559.49 in principal and \$2,218.68 in interest.

REVENUE BONDS PAYABLE

CLAIMS AND JUDGMENTS

Claims and Judgments include estimates for both known medical malpractice claims and those that have not yet been made against the insured participants. The liability is actuarially estimated to reflect the anticipated future claims for past medical services. Some of these claims are in process, while others are expected to be filed in the future. The liability estimate does not consider the probability of payment on a claim-by-claim basis, and instead considers overall probability of payment for medical malpractice claims. Funding for future claim payments will be from a self-insurance reserve managed by the office of General Counsel.

Description	Balance 09/01/11	Increases	Decreases	Balance 08/31/12	Current Portion
TTUHSC	\$ 17,707,946.23	\$ -	\$ 2,326,703.97	\$ 15,381,242.26	\$ 1,307,405.59

COMPENSABLE LEAVE

Compensable leave balances represent the approximate value of unused employee vacation time and other compensated time as of August 31, 2012. Past experience has demonstrated that approximately 12% of TTUHSC compensable leave balances will mature within one year. Therefore, the non-current portion of the liability as of August 31, 2012 was estimated at \$21,985,728.41 out of a total liability of \$24,983,782.28. Funding for future leave balance payments will be from the same source as annualized salary expense.

NOTE 6 Bonded Indebtedness

GENERAL INFORMATION

At August 31, 2012, TTUHSC had outstanding bonds payable of \$113,041,131.36, which does not include an unamortized premium of \$7,370,763.02 or an unamortized loss on refunding of \$1,925,641.33. The combined total of these three amounts is reflected in the *Comparative Statement of Net Assets* as Revenue Bonds Payable.

Several bond issues were outstanding as of August 31, 2012, as summarized in the paragraphs that follow.

PLEDGED FUTURE REVENUES

On October 21, 1993, the governing board of the Texas Tech University System (System) established a Revenue Financing System to provide a financing structure for revenue supported indebtedness of System components. The source of revenues for debt service issued under the Revenue Financing System includes pledged general tuition and fees, and any other revenues or income, including interest or other income, and balances lawfully available to System components. Excluded from the revenues described above are amounts received under Article 7, § 17 of the Constitution of the State of Texas, general revenue funds appropriated by the Texas Legislature except to the extent so specifically appropriated, encumbered housing revenues, and practice plan funds.

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing), on the other. The following table provides the pledged future revenue information for TTUHSC's revenue bonds.

NOTE 7 Derivatives

TTUHSC holds no derivative instruments, neither for hedging nor investment purposes.

NOTE 8 Leases

OPERATING LEASES

TTUHSC leases various buildings and equipment under operating lease rental agreements. Operating leases do not give rise to property rights and, therefore, the related assets and liabilities are not reported in this *Annual Financial Report*. Total rental expense under these agreements was \$4,022,089.95 for the year ended August 31, 2012. The table below provides the estimated minimum lease payments for operating leases for TTUHSC for the next five fiscal years.

For years ending August 31	Minimum Lease Payments
2013	\$ 4,082,421.30
2014	4,143,657.62
2015	4,205,812.48
2016	4,268,899.67
2017	4,332,933.17

TTUHSC has operating lease income of \$610,314.15 for the year ended August 31, 2012. The table below provides the estimated minimum lease income for TTUHSC for the next five fiscal years. The carrying value of the assets was \$5,675,485.27. The historical cost of the leased buildings was \$12,813,281.18 and related accumulated depreciation was \$7,137,795.91. There were no reported contingent rental revenues.

NOTE 8 (Continued) Leases

OPERATING LEASES (continued)

TTUHSC structures all leases to allow for cancellation within the current period. Most of the cancellation clauses are based on a 30-day notice condition or on the condition of continuing appropriations. However, there is little or no historical precedence for lease cancellations at TTUHSC.

CAPITAL LEASES

TTUHSC has entered into nine long-term capital leases for the purchase of durable medical and office equipment located in El Paso, Texas and Lubbock, Texas. The terms of each the leases require monthly payments over the next 12-36 months, and either contain a bargain purchase option at the end of the lease, or provide for minimum lease payments in excess of 90% of the fair market value of the underlying asset. The original cost of the assets under the capital lease agreements was \$690,812.72. As of August 31, 2012, the assets are recorded at a carrying value of \$552,332.63, which is net of accumulated depreciation in the amount of \$138,480.09. The asset and liability balances associated with these leases are included in the *Comparative Statement of Net Assets* as Depreciable Capital Assets and Capital Lease Obligation, respectively. Additionally, the related assets and accumulated depreciation are included in Furniture and Equipment in Note 2 of the *Annual Financial Report*.

The following is a schedule of the future minimum payments for the capital leases:

Year Ending August 31	Principal	Interest	Total

NOTE 9 Pension Plans

The State of Texas has also established an Optional Retirement Program (ORP) for institutions of higher education. Participation in ORP is in lieu of participation in the TRS program. ORP is a defined contribution pension plan that provides for the purchase of annuity and custodial mutual fund contracts. Current contributory percentages for employees who participated before September 1, 1995 are 8.5% provided by the State, and 6.65% provided by each participant, of annual participant compensation. The state's contribution is comprised of 6.4% from the ORP appropriation and 2.1% from other sources. The 6.4% contribution is mandatory, with the other contributions being at the discretion of the governing board of TTUHSC, which has approved the additional contributions for TTUHSC employees. Current contributory percentages for employees who participated after August 31, 1995, are 6.4% provided by the State, and 6.65% provided by each participant, of annual participant compensation. Since these are individual annuity contracts, the state has no additional or unfunded liability for this program.

ORP contributions made by plan members and the employer are detailed in the following table.

For the Year Ended:	08/31/12	08/31/11
Member Contributions	\$ 9,524,174.74	\$ 9,660,668.86

NOTE 12 Interfund Activity and Balances

As of August 31, 2012, TTUHSC had outstanding interfund receivables/payables from other component units of the Texas Tech University System and other state agencies. TTUHSC had an outstanding interfund receivable from the University of Texas Investment Management Company (UTIMCO) as of August 31, 2012, representing undistributed earnings from the investment assets of the Permanent Health Fund for Higher Education. In addition, TTUHSC had a net interfund payable to Texas Tech University which represents payments for shared services. The interfund receivables/payables from other state agencies are for federal pass through agreements.

Also, for the year ended August 31, 2012, TTUHSC had various transfers to and from other components of the Texas Tech University System and other state agencies. The majority of the net transfers in from TTU are for servicing of outstanding bonded indebtedness for which appropriations are shared. The majority of the net transfers out to TTUSA are to support system administrative functions. The transfer to the Texas Department of State Health is for the UPL program amount due to Covenant Medical Center. The transfers to the Texas Higher Education Coordinating Board are for 2% Medical Loan and B-On-Time set-asides.

NOTE 13 Continuance Subject to Review

TTUHSC is not subject to the Texas Sunset Act.

NOTE 14 Adjustments to Fund Balances and Net Assets

TTUHSC had no material prior-period adjustments for the year ended August 31, 2012.

NOTE 15 Contingencies and Commitments

PENDING LITIGATION

At August 31, 2012, various lawsuits and claims involving TTUHSC were pending. While the ultimate liability with respect to litigation and other claims asserted against TTUHSC cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance, is not likely to have a material impact on TTUHSC.

REBATABLE ARBITRAGE

As of August 31, 2012, TTUHSC had no outstanding bond issues with an associated outstanding rebatable arbitration liability.

NOTE 15 (continued) Contingencies and Commitments

CONSTRUCTION CONTRACT COMMITMENTS

Numerous large contracts have been entered into for the purposes of planning, constructing, and equipping building additions and other projects. Outstanding commitment amounts totaled \$3,215,517.00 as of August 31, 2012. These commitments will be funded by donor contributions, appropriations from the state, issuance of revenue bonds, and other borrowings. As of August 31, 2012, the amount of legislative appropriations for capital from the state available for these commitments totaled \$1,883,023.05.

DIRECT LENDING

TTUHSC participates in the federal Direct Loan Program, which provides loans from the federal government to qualifying students and their families for educational purposes. While TTUHSC helps students to obtain these loans, the institution is not a party to the loans and is not responsible for collection of monies owed or for defaults by borrowers. The amount of direct loans issued during the year ended August 31, 2012 was \$61,743,946.00.

NOTE 16 Subsequent Events

TTUHSC had no material subsequent events after August 31, 2012.

NOTE 17 Risk Management

TTUHSC has self-insured arrangements for coverage in the areas of unemployment compensation and medical malpractice. The medical malpractice plan had an actuarially determined accrued incurred but not reported (IBNR) liability at August 31, 2012, of \$15,381,242.26. Texas Tech Physician Associates, a blended component unit, had no accrued IBNR at August 31, 2012. A reconciliation of IBNR is provided in the table in Note 5.

The TTUHSC medical malpractice self insurance plan, an occurrence based plan, was established in 1985. Claim limits associated with the plan are \$400,000 per occurrence and \$1,200,000 aggregate per annum for services provided by faculty physicians (unless lower limits are set by law, in which case the lower limits set by law apply), \$100,000 per occurrence and \$300,000 aggregate per annum for services provided by resident physicians, and \$25,000 per occurrence and \$75,000 aggregate per annum for services provided by students.

As of September 1, 2003, providers of health care (physicians) are no longer exempted from the statutory limits of liability set for public servants as set out in § 108.002 of the Texas Civil Practices and Remedies Code. Public servants are limited in liability to \$100,000 to a single person and \$300,000 for a single occurrence. There is also a \$250,000 per person and \$500,000 per occurrence statutory limit in place for tort claims against TTUHSC as an institution.

Risk Management

The State of Texas provides coverage for workers compensation and unemployment benefits from appropriations made to other state agencies for TTUHSC employees. The *General Appropriations Act* of the 82nd Texas Legislature provides that TTUHSC must reimburse the General Revenue Fund, from TTUHSC appropriations, one-half of the unemployment benefits expected to be paid for former and current employees. The Texas Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. TTUHSC must also reimburse the General Revenue Fund for all of the cost for unemployment compensation for any employees paid from funds held in local bank accounts or from local balances of legislative appropriations held in the State Treasury. Total payments for Unemployment Compensation for fiscal year 2012 amounted to \$579,260.64. No material outstanding claims were pending as of August 31, 2012.

For workers compensation, TTUHSC remits an assessed amount from both appropriated and unappropriated fund types to the State Office of Risk Management (SORM). Total payments to SORM for fiscal year 2012 amounted to \$666,796.12. SORM assumes the responsibility for paying all workers compensation claims for current and former employees of TTUHSC.

NOTE 18

Management Discussion and Analysis

TTUHSC does not issue an audited AFR or have material amounts to disclose.

NOTE 19

The Financial Reporting Entity

TTUHSC is a component unit of the State of Texas. The accompanying financial statements reflect inclusion of one blended component unit described in detail in Note 1. TTUHSC has no other related organizations, joint ventures or jointly governed organizations.

NOTE 20

Stewardship, Compliance, and Accountability

Donor Restricted Endowments

TTUHSC endowments are categorized as either true endowments or funds functioning as endowments. As of August 31, 2012, TTUHSC had no term endowments. Expenditure of true endowment funds is not permitted without the express consent of the donor. Most TTUHSC endowments are held in perpetuity. In many cases, a portion of the endowment earnings are expendable for student financial assistance or other purposes as designated by the donor or associated agreement. In other cases, endowment earnings are fully reinvested.

Endowment assets are invested predominantly in the Long Term Investment Fund (LTIF), described in more detail in Note 3. The LTIF allows for quarterly spendable income distributions amounting to 1.125% of the 12-quarter rolling average unitized balance. Spendable income can be supported by both realized earnings and by unrealized earnings.

The cumulative effect of valuation changes assignable to endowment fund assets are summarized in the table below.

Contractual Arrangements and Concentrations of Credit Risk

TTUHSC provides care to patients covered by various third party payers such as Medicare, Medicaid, and private insurance companies and health maintenance organizations (HMOs).

TTUHSC provides primary, secondary, and tertiary health care services to counties in west Texas, eastern New Mexico and the Oklahoma panhandle region as well as border regions in southwest Texas. Patient care centers are located in the Texas cities of Abilene, Amarillo, El Paso, Lubbock, Midland and Odessa.

Concentrations of gross patient accounts receivable are depicted in the following table. Management does not believe there are significant credit risks associated with the listed payers, other than the self-pay and medically indigent category. Further, management continually monitors and adjusts reserves and allowances associated with these receivables. Patient accounts receivables are reported in this *Annual Financial Report* net of allowances for bad debts, contractual adjustments, and charity care.

Concentrations of gross patient accounts receivable as of August 31, 2012 and 2011 are as follows:
