# Information about PCCM

## What does PCCM mean?

The letters stand for Primary Care Case Management (PCCM). It is a type of Medicaid plan. Being in the PCCM Medicaid plan means you will go to a primary care provider for most of your health care.

## What is a primary care provider?

This can be a doctor, nurse, or clinic. You see your primary care provider for most of your health care. Talk to your primary care provider when you have a question about your health.

## Where can I find out more about PCCM?

Call toll-free 1-888-302-6688 (TTY 1-800-735-2989 or 7-1-1). You can call Monday to Friday, 7 a.m. to 7 p.m. Central Time. Or, you can go to [www.tmhp.com/C8/PCCMClients/default.aspx](http://www.tmhp.com/C8/PCCMClients/default.aspx).

## What is the PCCM Primary Care Provider and Hospital List?

It is a list of primary care providers, hospitals, specialists, and family planning providers that are near you.

## How do I pick a primary care provider?

1. Go to the Primary Care Provider section in this book and pick one. Some providers are part of a clinic or group and are listed under the clinic or group name. You can pick a provider that:
  - a. Is from any county or city.
  - b. Speaks your language (the list shows which languages each provider speaks).
  - c. Has office hours that work for you.
2. Tell us who you want to pick by calling toll-free 1-888-302-6688.

Keep this list. You can use it if you want to change your primary care provider.

## What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your provider, call us. We will help you.

## Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

## What if I need special health care?

Your primary care provider will send you to other providers if you need special care. Your primary care provider can also admit you to the hospital.

## Do I have to see my primary care provider for all of my health care?

You need to see your primary care provider for most of your health care. However, there are times you do not have to see your primary care provider, such as for:

- Emergency care.
- Eye exams and glasses.
- Mental health and substance abuse treatment.
- Pregnancy and other health care for women.
- Texas Health Steps checkups and vaccinations for kids.
- Family planning services and supplies.

If you need help finding a Medicaid provider for these services, ask your primary care provider, or call toll-free 1-888-302-6688.

## What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

## Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

## What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

## Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

### What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

### Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

- \* Provider accepting current patients only.
- Provider not accepting any patients.
- ☉ Texas Health Steps Provider.

### What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

### Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

- \* Provider accepting current patients only.
- ☒ Provider not accepting any patients.
- ⊕ Texas Health Steps Provider.
- † Provides OB/GYN care/delivery.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

### Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

### What if I can't find my provider in the list?

Look in the index in the back if:

- You can't find your provider's name in the list by county and city.
- You know your provider is part of a group, but the provider's name isn't listed under the group.

If you still can't find your Provider, call us at 1-888-302-6688. We will help you.

### Who do I call if I have a question or an urgent health need?

Call the nurse helpline or your primary care provider for help with urgent health needs. The nurse helpline is always open at 1-800-304-5468. If your primary care provider's office is closed, there should be a message that tells you how to get help.

### LIST OF FAMILY PLANNING PROVIDERS • LISTA DE PROVEEDORES DE PLANIFICACIÓN FAMILIAR

Family planning services are for men and women. You do not need to ask your primary care provider for a referral to get these services or supplies. You can go to any doctor or family planning clinic that accepts Medicaid to get these services or supplies. These private services include birth control, counseling, planning for pregnancy, laboratory tests, supplies, full physical exams, and other services to help you stay healthy. You do not need to ask your primary care provider for a referral to get these services or supplies.

The doctor or family planning clinic will work with you to help you figure out your family planning needs. Nurses in family planning clinics are especially trained to answer private questions. Services are available regardless of age.

You cannot choose a family planning provider from this list to be your primary care provider. Keep this list so that you can locate a family planning provider if you need their services in the future.

If you need a new list, call us at 1-888-302-6688. If you have access to the Internet, you can go to [www.dshs.state.tx.us/famplan/locator.shtm](http://www.dshs.state.tx.us/famplan/locator.shtm) to locate a family planning clinic in your area.

If you have any questions, call the PCCM Client Helpline at 1-888-302-6688.

Los servicios de planeación familiar son para hombres y mujeres. No necesita una recomendación de su proveedor de cuidado primario para recibir estos servicios o provisiones. Usted puede ir a cualquier doctor o clínica de planeación familiar que acepte Medicaid para recibir estos servicios. Estos servicios privados incluyen control de natalidad, consejería, planeación para el embarazo, exámenes de laboratorio, provisiones, exámenes físicos completos y otros servicios para ayudarle a mantener su salud. Usted no tiene que pedirle a su proveedor de cuidado primario que le de una recomendación para recibir estos servicios o provisiones.

El doctor o la clínica de servicios de planeación familiar trabajarán con usted para ayudarle a determinar sus necesidades de planeación familiar. Las enfermeras en las clínicas de planeación familiar están especializadas para contestar preguntas privadas. Los servicios se ofrecen a cualquier edad.

Usted no puede escoger a un proveedor de servicios de planeación familiar de esta lista para que sea su proveedor de cuidado primario. Mantenga esta lista para que pueda localizar un proveedor de planeación familiar en caso que necesite sus servicios en el futuro.

Si usted necesita una lista nueva, llámenos al 1-888-302-6688. Si usted tiene acceso al Internet, puede visitar el sitio: [www.dshs.state.tx.us/famplan/locator.shtm](http://www.dshs.state.tx.us/famplan/locator.shtm) para encontrar una clínica de planeación familiar cerca de su hogar.
