THE UCR
PROGRAM

THE TEXAS UNIFORM CRIME REPORTING PROGRAM

PURPOSE OF UCR

The objective of the Uniform Crime Reporting program is to produce reliable crime statistics for law enforcement administration, operation, and management. This information is also available as a measure of the fluctuations in the type and volume of crime in Texas. The means utilized to attain these objectives are: to measure the extent, fluctuation, distribution, and nature of crime through the collection of data on the eight serious Crime Index Offenses; to measure the total volume of serious crime known to police; to show the activity and coverage of law enforcement agencies through arrest counts and police employee strength data.

HISTORY OF UCR

The National Program

The Uniform Crime Reporting program of the Federal Bureau of Investigation grew from the need for a national view of law enforcement statistics. In the 1920's, the International Association of Chief's of Police (IACP) formed the Committee on Uniform Crime Records to develop a uniform system of police statistics. The IACP's voluntary national crime collection program began, in 1930, with the participation of 400 police agencies representing some 20 million citizens in 43 states. In that same year, the U.S. Congress authorized the Federal Bureau of Investigation to serve as the national clearinghouse for the crime statistical information collected by the program.

In UCR, crime reports are obtained from law enforcement agencies throughout the nation based on uniform classifications and procedures of reporting. In an effort to provide as complete a picture of crime in the United States as possible, the Committee on Uniform Crime Records of the IACP chose to obtain data only on offenses that become known to police. A meaningful overview of crime was made available through examination of the seven Crime Index offenses selected for their seriousness, frequency of occurrence and likelihood of being reported: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. By mandate of the U.S. Congress, arson became the eighth index offense in 1979.

In the early planning stages of UCR, it was recognized that the differences among state and local criminal codes precluded the possibility of creating a national crime total based upon an aggregate of local statistics. To provide for national uniformity, the IACP adopted standardized definitions of crimes to overcome the problems posed by the variations in state and local definitions of crimes. Reporting agencies were required to interpret local criminal acts in the context of the standard national definitions before submitting their crime totals. Because of the differences among the state codes, there is no possibility in a program, such as UCR, to distinguish between crimes by designations such as 'felony' or 'misdemeanor.'

The Texas Program

On January 1, 1976, the State of Texas adopted the Uniform Crime Report as its official statewide crime report. The Department of Public Safety accepted the responsibility to collect, validate and tabulate UCR reports from all reporting jurisdictions in Texas. To handle this task, the Uniform Crime Reporting Section was established within the Identification and Criminal Records Divison (now Crime Records Service) to coordinate the collection, processing and publication of information regarding the extent of major crime in Texas.

METHOD OF DATA COLLECTION

Reporting Procedures

Law enforcement agencies report the number of known index crime offenses from their records of complaints from victims, reports from witnesses and from crimes discovered by the agency during its operations. Reports that are later determined to be unfounded are eliminated from the totals. The resulting number of 'offenses known to law enforcement officials' is reported without regard to whether arrests were made, stolen property recovered or prosecution took place. Agencies report additional information on the value of property stolen and recovered, the circumstances surrounding homicides, family violence, hate crimes, and reports of persons arrested for all crimes. The arrest reports are categorized on the basis of age, sex, race and ethnic origin.

Each contributing agency compiles and submits its own crime reports to the UCR program on a monthly basis. To maintain quality and uniformity in the data received, UCR field representatives provide training on detailed procedures for scoring and classifying offenses.

Verification Procedures

A major concern in the collection of crime statistics is the validity and uniformity of the data received. With the receipt of voluntary monthly reports from 947 jurisdictions, the problem of attaining uniformity is readily apparent. Each incoming report is examined for accuracy and reasonableness through the use of numerous cross-checking procedures. While minor errors are corrected by the UCR report verifiers, unusual variations are brought to the attention of the submitting agency by direct contact of a UCR field representative.

Field Representation

In compliance with national guidelines and in an effort to ensure the accurate reporting of crime information, the Texas Uniform Crime Reporting Program has assigned five persons to assist local agencies in crime reporting procedures. Based in Austin, each field representative is assigned a specific area (see map in Appendix), and is responsible for assisting local police agencies in the resolution of reporting problems, and contacts non-reporting agencies to enlist their participation in the program.

A great deal of the success of Texas' UCR Program has been due to the full-time field staff assigned to assist local agencies in crime reporting procedures. The program's philosophy is that personal contact is invaluable to the accuracy and uniformity of UCR data received. To further this process, a full-time trainer conducts on-site training programs for local agencies.

Offense Estimation

The Texas UCR program enjoys a high rate of participation among Texas' law enforcement jurisdictions. In 1998, 947 Texas Law Enforcement agencies submitted reports to the DPS' UCR Section. The population covered by these agencies represented 99.7 percent of Texas' total population. Because UCR relies upon the voluntary participation of these agencies to give a true picture of the total crime in Texas, it is necessary to estimate the crime totals for non-reporting agencies. Using the known crime experiences of similar population areas within the state, crime volumes for non-reporting agencies are proportionally estimated. Through this application of standardized estimating procedures, index crime totals are directly comparable between specific years.

ADVISORY GROUPS

The IACP Committee on Uniform Crime Records continues to serve in an advisory capacity to the FBI in the operation of UCR. The National Sheriff's Association, in 1966, established a Committee on Uniform Crime Records to advise the Uniform Crime Reporting Program. This Committee actively encourages full participation in UCR.

Committees on Crime Records within the Texas Police Association and the Sheriff's Association of Texas are active in promoting interest in UCR, fostering widespread use of uniform crime statistics, and lending assistance to contributors when the need exists. The FBI also actively assists in the development of police statistical programs that are compatible with the national system. Nationally, state statistical programs provide the advantage of increased coverage of local law enforcement agencies and, thereby, help to assure the completeness and quality of crime information.

The Texas Uniform Crime Reporting Program is directly made possible by a grant from the State

of Texas through the Criminal Justice Division of the Governor's Office.

ADDITIONAL UCR COLLECTIONS

Family Violence

Violence within Texas families has been recognized as a growing threat to the safety of Texans. In an effort to quantify the incidents of abuse occurring within Texas families, the 71st Texas Legislature directed the Department of Public Safety to collect information on family violence incidents. This data collection commenced with calendar year 1991 and is included in Chapter Five.

Hate Crime Data Collection

Under mandate of state and federal law, in 1992, the Texas UCR program began collecting hate crime information. The Hate Crime Statistics Act of 1990 directed the U.S. Attorney General to collect data, "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity." Disability was added to the list of bias categories in 1997.

Shortly after passage of the national law, the Texas Legislature amended the Texas Government Code to require the Department of Public Safety to, "Establish and maintain a central repository for the collection and analysis of information relating to crimes that are motivated by prejudice, hatred, or advocacy of violence." The passage of this law impacted every law enforcement agency in Texas through the requirement that, "Local law enforcement agencies shall report offenses described by Subsection (a) in the form and manner and at regular intervals as prescribed by rules adopted by the department." The results of this effort are illustrated in Chapter Six.

Campus Crime

In 1990, the federal Crime Awareness and Campus Security Act was enacted into law. The act requires eligible educational institutions to maintain certain crime and arrest data in accordance with UCR definitions. Index Crime reports from Texas campus police departments are available in Chapter Nine of this report.

Incident Based Reporting

Since its inception, the UCR program has pro-

vided a steady, reliable stream of information about crime in this nation. However, because UCR is a summary-based-reporting system, data about individual crime incidents are not available. The summary-based methodology, despite its reliability, is limited in many aspects. Limitations of the summary system include a lack of information on offenses, arrests, and victim/offender relationships.

To take advantage of new technological capabilities, the FBI, in conjunction with the Bureau of Justice Statistics (BJS), took part in a thorough study to modernize the UCR Program. The findings from this study were presented at the 7th Annual National UCR Conference in July 1984. The resulting document, *Blueprint for the Future of the Uniform Crime Reporting Program: Final Report of the UCR Study*, released in 1985, outlined the emerging Incident Based Reporting (IBR) system. With its implementation, IBR collects data on the circumstances of each crime incident in electronic form. The detail provided by IBR data greatly enhances the speed, availability, accuracy, and usefulness of crime statistics.

The Texas version of IBR, TIBRS, includes all national data elements as well as Texas-specific data. Although many years from full implementation, the Texas IBR program is currently collecting information from 34 IBR-certified agencies, including the Austin Police Department, which remains the largest IBR agency in the nation. At this time, there is not a separate publication for IBR data. IBR data is converted to summary for its inclusion in this publication.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of Texas and are used to project a statewide picture of crime. Awareness of factors which influence the resulting crime statistics is necessary in order to draw fair conclusions. As these crime factors influence the crime experience of each community, comparisons of crime statistics between communities should not be made without consideration of the individual factors present.

Crime is a social problem of grave concern in which the police are limited in their role of suppression and detection. As stated by the Presi-

dent's Commission on Law Enforcement and Administration of Criminal Justice,

The fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime... They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the government; and the government is only one part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time.

Set forth below are some of the conditions which affect the crime types and volume that occur in differing jurisdictions:

- Crime reporting practices of the citizenry.
- Public attitudes toward law enforcement and crime.
- The size, density and demographic composition of a jurisdiction's population.
- Economic status of the population and area unemployment rates.
- Population stability including the number of commuters, transients, and seasonal population variations.
- Climate.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Community family values.
- Law enforcement employment standards and relative strength.
- Policies of the prosecuting officials and the courts.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

TEXAS CRIME

TEXAS CRIME ANALYSIS 2

CRIME MEASUREMENTS

Crime affects every Texan in some fashion. To gain a measurement of crime trends, Texas participates in the Uniform Crime Reporting (UCR) program. UCR makes possible the analysis of crime trends primarily through the Crime Index.

The Crime Index

To track the variations in crime, the UCR data collection program uses a statistical summary tool referred to as the Crime Index. Rather than collecting reports of all crimes that were committed in a particular year, UCR collects the reports of seven index crimes. The crimes in this group are all serious, either by their very nature or because of the frequency with which they occur, and present a common enforcement problem to police agencies. Crimes within this index can be further categorized as violent crimes, which include murder, forcible rape, robbery and aggravated assault, or as property crimes, which consist of burglary, larceny-theft,

and motor vehicle theft. By reducing the overall occurrence of crime to this Crime Index, the annual comparison of crime trends is simplified. Although arson is an index crime in that the number of reported offenses are collected, arson is not a part of the Crime Index.

Offense Estimation

Because a few Texas law enforcement agencies experienced difficulty in finalizing their 1998 crime reports prior to state and national release deadlines, it has been necessary to estimate the number of offenses for 0.3% of the state's population. The methodology for this estimation process has remained the same throughout the Texas UCR program, making it possible to compare crime trends from year to year without the results being skewed by changes in the number of reporting agencies. No attempt, however, is made to estimate for unreported or under-reported crimes. A full discussion of reporting practices and other factors affecting crime trends can be found in Chapter One's section on Crime Factors.

CRIME TRENDS

Texas crime trends are analyzed using two separate methods: crime volume and crime rates. Crime volume is merely the aggregate sum of the Crime Index. By comparing the crime volume from year to year, trends in the number of crimes committed can be studied. Crime rates, however, are compiled to compensate for changes in the size of Texas' population and to show the number of people affected by crime in a given population. Texas crime rates are generally expressed as the number of crimes per 100,000 residents.

Crime Volume

During calendar year 1998, there was an estimated total of 1,009,868 index offenses in Texas. The crime volume decreased 5.2 percent when compared to 1997.

In addition to the above offenses, there were 8,457 cases of arson reported which represented a decrease of 3.7 percent from 1997.

TYPE OF CRIME

Crime analysis generally looks at the two categories of crime discussed above: Violent crimes (or crimes against persons) and property crimes. In 1998, 11 percent of the Crime Index was made up of violent crimes and 89 percent were property crimes.

Violent Crime Offenses 1984 - 1998
Violent Crimes

Violent crimes involve the element of personal confrontation between the perpetrator and the victim. Because of their nature, violent crimes are considered to be more serious than property crimes. An estimated 111,577 violent crimes occurred during 1998—a 4.7 percent decrease from 1997. The 1998 violent crime rate was 564.7 crimes per 100,000 Texans—a 6.2 percent decline from the rate posted in 1997.

Type of Crime in Texas

Property Crime 89%

Violent Crime 11%

Violent Crime by Offense

Aggravated Assault 66%

Murder 1%

Robbery 26%

Rape 7%
Property Crimes

The number of property crimes occurring during 1998 was estimated at 898,291. Property crimes decreased 5.2 percent from 1997. Burglary accounted for 22 percent of all property offenses, larceny-theft accounted for 67 percent, and motor vehicle theft accounted for 11 percent. The 1998 property crime rate was 4,546.0 crimes per 100,000 Texans—a decrease of 6.8 percent when compared to the rate for 1997.

Property Crime by Offense

Motor Vehicle Theft 11%

Theft 67%

Burglary 22%
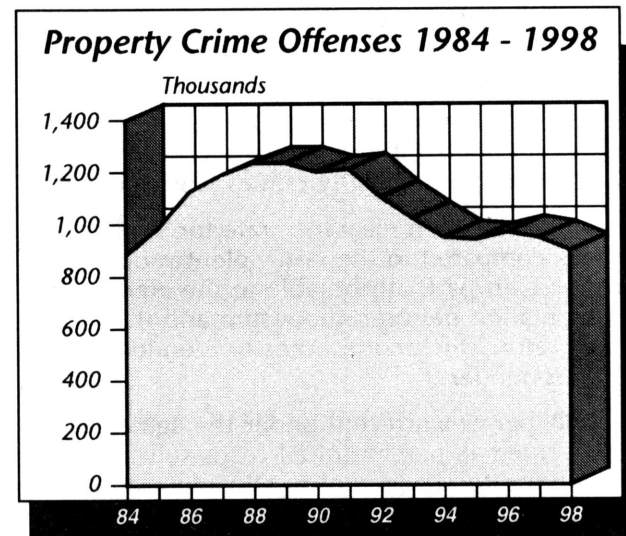

CLEARANCES

For Uniform Crime Reporting purposes, an offense is cleared when a law enforcement agency has identified the offender, enough evidence exists to press charges, and the subject is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender.

Law enforcement officers cleared 21 percent of all index offenses reported to them in 1998, by arrest or exceptional means. Of the violent crimes reported, 50 percent were cleared while 17 percent of all property crimes were cleared.

The relatively high clearance rate for violent crimes compared to the non-violent property crimes is, in part, attributable to the element of confrontation between the victim and the perpetrator which contributes to identification of the offender.

In 1998, persons arrested under the age of 18 represented 16 percent of all cases solved—accounting for 11 percent of all violent crime clearances and 20 percent of property crimes. The involvement rate of persons under 18 years of age was 7 percent for murders, 10 percent for forcible rape, 13 percent for robbery, and 11 percent for aggravated assault. In the non-violent crime categories, this age group accounted for 19 percent of the solved burglaries, 21 percent of the thefts, and 17 percent of the motor vehicle thefts.

ESTIMATED CRIME IN TEXAS

The offenses in this chart were compiled from reports submitted to the UCR program by Texas law enforcement agencies. Because reporting compliance has varied, it has been necessary to estimate offenses for non-reporting jurisdictions. The reporting compliance for 1998 reporting agencies covered 99.7% of Texas' inhabitants. Previous editions of *Crime in Texas* have estimated crime in non-reporting jurisdictions based on an average of the reporting agencies in the same population group or by projecting annual totals from agency reports that cover less than 12 months. This same logic is followed here. The term 'Rate' refers to the number of crimes per 100,000 population.

- There were an estimated 1,009,868 index offenses reported with a 21 percent clearance rate for Texas in 1998.

- The crime rate for the State of Texas was 5,110.7 index offenses for every 100,000 inhabitants.

- During 1998, Texas law enforcement officers made 1,099,094 arrests. Of those arrested, 16 percent were 16 years of age and under.

- The value of stolen property totaled $1,428,371,538.

- The offense of larceny-theft accounted for 60 percent of all index crimes and had a clearance rate of 19 percent.

INDEX CRIME ANALYSIS 3

MURDER

DEFINITION

Murder and nonnegligent manslaughter, as defined in the UCR program, is the willful killing of one human being by another.

This offense category includes any death resulting from a fight, argument, quarrel, assault or commission of a crime. Attempted murder and assaults with the intent to kill are not counted as murder, but are included in UCR as aggravated assaults. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder classification.

The classification of this offense, as well as for all Index Crimes, is based solely on police investigation and not upon determinations by courts, medical examiners, coroners, juries, or other judicial bodies.

ANALYSIS

Volume

The reported number of murders committed in Texas in 1998 was 1,343. This represented a 1.2 percent increase in the number of murders when compared to 1997. More persons were murdered in Texas in January than in any other month, while the fewest were killed during February and November. Property loss during the commission of the crime of murder amounted to $286,038.

Rate

The murder rate for Texas in 1998 was 6.8 murders for every 100,000 persons, the same as in 1997.

Clearance Rate

Texas law enforcement agencies continue to be successful in solving a greater percentage of

murders than any other Index Crime. In 1998, 71 percent of all murders were cleared by arrest or exceptional means.

Murder by Month

Monthly Total

1984 - 1998
Nature

Of the 1,343 murders in 1998, 68 percent were committed by the use of firearms. Knives or cutting instruments were the weapons of choice in 12 percent of the reported cases. The use of strong-arm weapons (hands, feet and fists) accounted for 7 percent of the murders. Blunt

objects were employed in 7 percent of the murders and in the remaining 6 percent, the murder weapon of choice was listed as unknown or other.

Of the murders in which firearms were the instrument, handguns accounted for 73 percent of the weapons (or 50 percent of all murders). Shotguns were the murder means in 10 percent of the firearm murders, rifles were used in 7 percent and firearms whose type was not stated accounted for the remaining 10 percent.

When compared to 1997 statistics, the number of persons arrested for the crime of murder in Texas decreased 12 percent. Of the persons arrested for murder, 88 percent were male; 7 per-

cent were age 16 and under (by contrast, in 1984 juveniles accounted for 5 percent of murder arrestees); 70 percent were White; 30 percent were Black; 63 percent were not Hispanic; and 37 percent were Hispanic.

Justifiable Homicide

Statistics on murder circumstances, victims, and victim/offender relationships on these pages include justifiable homicides. Justifiable homicide is the intentional killing of person without evil design and under such circumstances of necessity or duty as to render the act proper. In 1998 there were 54 justifiable homicides, of which, 18 were felons killed by private citizens, and 36 were felons killed by police.

Murder Circumstances

Supplementary homicide information on murder circumstances is collected in two broad categories: felony type and non-felony type. While, in Texas, all murders are felonies, felony type circumstances refer to murders which occur in conjunction with the commission of another crime.

MURDER VICTIMS

Law enforcement agencies participating in UCR provide additional homicide information so that an in-depth analysis of murder is possible. Through the Supplemental Homicide Reporting system, information is provided that identifies the age, sex, race and ethnic origin of both victims and offenders; the relationship of the victim to the offender; the murder weapon; and the circumstances of the offense.

Based on the information relating to murder victims it can be determined that 77 percent of murder victims, in 1998, were male and 23 percent were female. The age group with the greatest number of murder victims for males is the 20 to 24 age group, and for females, the 35 to 39 age group.

Of the victims whose race was known, 68 percent were White, 30 percent were Black, and the remainder were Asian/Pacific Islander and American Indian/Alaskan natives. For both Whites and Blacks the most common age group was the 20 to 24 age bracket. Of the murder victims whose ethnicity was known, 61 percent were not Hispanic and 39 percent were Hispanic.

RAPE

DEFINITION

Rape, as defined in the Uniform Crime Reporting program, is the carnal knowledge of a female forcibly and against her will. Statistics reported in this crime category include assaults to commit forcible rape, however, statutory rape (rape against a female under the age of consent) and sexual assaults on males are excluded.

ANALYSIS

Volume

The estimated number of rapes committed in Texas in 1998 was 7,914. This represented a decrease of 1.2 percent in the number of rapes when compared with 1997. More rapes were committed in Texas in August than in any other month, while the fewest rapes were committed during December. Property loss during the commission of rape amounted to $199,627.

Rate

The rape rate for Texas in 1998 was 40.1 rapes for every 100,000 persons. The rape rate decreased 2.7 percent from 1997.

Clearance Rate

Statewide, Texas law enforcement agencies continue to be successful in clearing or solving by arrest 56 percent of all rapes that were reported. Of the attempts to commit forcible rape, 53 percent were cleared and, of the rapes by force, 56 percent were cleared.

Nature

Forcible rape differs from other violent crimes because, in many cases, the victim is hesitant to report the offense to police. The rigors of court procedures, embarrassment and fear of any accompanying stigma exert a deterrent effect upon the victim's willingness to contact the police. The presence of prior relationship between the victim and offender may make the determination of force difficult to establish, while the usual clandestine nature of this crime presents a problem in verification. As attitudes towards the reporting of rape change, trends in the number of reported offenses can be expected to change correspondingly.

Of all reported forcible rapes during 1998, 11 percent were attempts to commit forcible rape and 89 percent were rapes by force.

Persons Arrested

When compared with 1997, the number of persons arrested for forcible rape increased 6.4 percent to 2,512. Of the forcible rape arrestees in 1998, 15 percent were juveniles (16 and under) and the remainder were adults; 99 percent were male; 73 percent were White, 26 percent were Black, and the remainder were other races; 65 percent were not Hispanic and 35 percent were Hispanic. The age group 15 to 19 was the highest group in terms of the number of those arrested. Because, by definition, the crime of rape is limited to the carnal knowledge of a female by a male, the overwhelming majority of persons arrested for this crime are male. The small number of females arrested for rape, 32 persons in 1998, are generally arrested as accomplices.

ROBBERY

DEFINITION

Robbery, in the Uniform Crime Reporting program, is defined as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force, threat of force or violence, or by putting the victim in fear.

Robbery is a violent crime that frequently results in injury to the victim. Included in this category are assaults to commit robbery and attempted robberies.

ANALYSIS

Volume

The estimated number of robberies committed in Texas in 1998 was 28,672. This represented a 6 percent decrease in the number of robberies when compared with 1997. More robberies were committed in Texas in January than in any other month, while the fewest robberies were committed during the month of February.

Rate

The robbery rate for Texas in 1998 was 145.1 robberies for every 100,000 persons. The change in the rate of robbery from 1997 was a decrease of 7.6 percent.

Clearance Rate

Statewide, Texas law enforcement agencies were successful in clearing or solving by arrest 29 percent of all robberies that were reported. Of the robberies by type of weapon used, strong-armed robberies experienced the highest rate of clearance (37 percent), while robbery by firearm was the classification with the lowest rate of clearance (23 percent).

Nature

In 1998, property loss during the commission of robberies amounted to $39,665,587. The state total was a 1.6 percent decrease from the property loss experienced in 1997. The value of property stolen during robberies averaged $1,384 per incident. Average dollar losses ranged from

Reported Robberies by Month

$472 taken during robberies of convenience stores to $6,936 per bank robbery. The impact of this violent crime cannot be measured in terms of monetary loss alone. While the object of robbery is money or property, the crime involves force or threat of force and many victims suffer serious personal injury.

Robberies on streets or highways accounted for more than one third (35 percent) of the offenses in this category. Robberies of commercial and financial establishments accounted for 24 percent of the total and robberies occurring at residences, 19 percent. The remainder were miscellaneous types.
Of all reported robberies in 1998, 42 percent were committed with the use of firearms. Strong-arm tactics accounted for 39 percent, knives or cutting instruments were used in 9 percent and other weapons made up the remainder.

Persons Arrested

Statewide arrests for robbery in 1998 amounted to 6,521 persons. When compared with 1997, the number of persons arrested for robbery decreased 10.5 percent. Of the robbery arrestees in 1998, 19 percent were juveniles with the remainder being adults; 89 percent were male; 56 percent were White; 44 percent were Black; 69 percent were not Hispanic and 31 percent were Hispanic. Aggravated Assault is defined in the Uniform Crime Reporting program, as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Statistics for aggravated assault include attempts to commit aggravated assault.

ANALYSIS

Volume

The estimated number of aggravated assaults committed in Texas, in 1998, was 73,648. This represented a decrease of 4.6 percent in the number of aggravated assaults when compared to 1997. More aggravated assaults were committed in Texas in May than in any other month, while the fewest aggravated assaults were committed during February.

Rate

The aggravated assault rate for Texas in 1998 was 372.7 aggravated assaults for every 100,000 persons. The change in the rate of aggravated assault from 1997 was a decrease of 6.2 percent.

Strong-arm weapons (hands, feet, fist, etc.) accounted for 19 percent and knives or cutting instruments made up the remaining 22 percent.

The use or attempted use of a dangerous weapon in an assault or the serious injury inflicted by hands, fists or feet is what separates this index offense from assaults categorized as 'simple assaults'. Texans reported 301,841 simple assaults in 1998.

BURGLARY

DEFINITION

Burglary, for Uniform Crime Reporting purposes, is the unlawful entry of a structure with the intent to commit a felony or a theft. While the use of force to gain entry is not required to classify an offense as burglary, attempted forcible entries to commit burglary are counted in this crime's statistics.

ANALYSIS

Volume

The estimated number of burglaries committed in Texas in 1998 was 194,872—this number represents a 3 percent decrease when compared with the number of crimes in 1997. More burglaries were committed, in Texas, in July than in any other month. The month with the fewest burglaries was February.

Rate

The 1998 burglary rate for Texas was 986.2 burglaries for every 100,000 persons. The change in the burglary rate from 1997 was a decrease of 4.6 percent.

Nature

Of all reported burglaries in 1998, 67 percent occurred at residences. Forcible entry accounted for 65 percent of all burglaries, while 31 percent were unlawful entries without force and the remainder were forcible entry attempts. Of the offenses for which the time of occurrence was known, 54 percent were during the day with 46 percent during the night, and the value lost was greater during the day (59 percent) than at night (41 percent).

LARCENY THEFT

DEFINITION

Larceny-Theft, in the Uniform Crime Reporting program, is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Larceny-Theft includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, and other things of value in which no use of force, violence or fraud occurs.

In the UCR program, this crime classification does not include embezzlement, 'con' games, forgery, and the passing of worthless checks. Motor vehicle theft is not included in this category as it is a separate index crime offense.

ANALYSIS

Volume

The estimated number of thefts committed in Texas in 1998 was 606,805, making this the largest crime category of the Index Crimes. The volume of theft in 1998 decreased 5.9 percent from 1997. More thefts were committed in Texas in July than in any other month, while the fewest thefts were committed during February. It is reasonable to expect that many offenses in this category, particularly where the value of goods stolen is small, are never reported to police agencies.
Rate

The 1998 theft rate for Texas was 3,070.9 thefts for every 100,000 persons. The change in the theft rate from 1997 was a decrease of 7.5 percent.

Theft Offenses 1984 - 1998

Theft by Month

Value Lost to Theft 1984 - 1998
Nature

In 1998, theft victims suffered losses totaling $426,102,026. This total represents an increase of 12.1 percent when compared with 1997 total theft losses. The average dollar loss per theft was $702, up from $589 in 1997. Thefts in the 'under $50' category accounted for 36 percent of all reported thefts (but only 1 percent of the value lost), while thefts of values greater than $200 accounted for 40 percent of the total (and 94 percent of the total value lost). The remainder of the thefts were between $50 and $200—these thefts accounted for 24 percent of the volume (and 5 percent of the value lost).

For data collection, larceny-theft is divided into nine categories: pocket-picking, purse-snatching, shoplifting, thefts from motor vehicles, theft of motor vehicle parts, theft of bicycles, theft from buildings, theft from coin-operated machines, and all other thefts (except motor vehicles). Of the nine theft categories, the highest average theft was all other thefts which yielded an average $1,009 per reported occurrence. Thefts from motor vehicles averaged $694 per report, while the average purse-snatching resulted in a $326 loss and the average loss to victims of pocket-picking was $287. The lowest average value lost to theft was shoplifting with an average of $149.

Clearance Rate

Statewide, Texas law enforcement agencies were

successful in clearing or solving by arrest 19 percent of all reported thefts. As with other non-violent property crimes, theft is primarily a crime of opportunity. The factors of opportunity and stealth work in the favor of perpetrators and against police detection, thereby reducing available solutions for this offense.

Persons Arrested

Texas law enforcement agencies made 92,899 larceny-theft arrests in 1998. When compared with 1997, the number of persons arrested for theft decreased 12.5 percent. Of the theft arrestees, 28 percent were juveniles (16 and under); 62 percent were male; 73 percent were White; 26 percent were Black; 67 percent were not Hispanic and 33 percent were Hispanic. Motor Vehicle Theft

Definition

Motor Vehicle Theft, for UCR purposes, is the theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that travels on the surface but not on rails. Specifically excluded from this category are motor boats, construction equipment, airplanes, and farming equipment.

Analysis

Volume

The estimated number of motor vehicle thefts committed in Texas in 1998 was 96,614. The volume of motor vehicle theft decreased 5.0 percent when compared with 1997. More motor vehicle thefts were committed in July than in any other month, while the fewest motor vehicle thefts were committed during February.

Rate

The 1998 motor vehicle theft rate for Texas was 488.9 motor vehicle thefts for every 100,000 persons. The change in the motor vehicle theft rate from 1997 was a decrease of 6.5 percent.

Motor Vehicle Theft Offenses 1984 - 1998
Nature

In 1998 motor vehicle theft victims suffered losses totaling $678,089,447. This total value loss represents an increase of 3.0 percent when compared to 1997 total motor vehicle theft losses. The average dollar loss per motor vehicle theft was $7,025, up from $6,474 in 1997. Of the types of motor vehicles that are reported to be stolen, 65 percent are automobiles, 29 percent are trucks and buses, and the remainder are classed as 'other vehicles.' The 'other vehicles' classification includes all other motor vehicles included in the UCR definition, such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts and the like.

ANALYSIS

Volume

The reported number of arsons committed in Texas in 1998 was 8,457. The volume of arson offenses decreased 3.7 percent in comparison with 1997. Because the U.S. Congress did not mandate arson to be an Index Crime until 1979, information on offenses before that year is incomplete.

Rate

The 1998 arson rate for Texas was 42.8 arsons for every 100,000 persons. The change in the arson rate from 1997 was a decrease of 5.3 percent.
Nature

Structures were the most frequent targets of arsonists in 1998, comprising some 47 percent of the reported incidents and 79 percent of the property value lost to arson. Mobile property constituted 38 percent of the reported arsons, but only 21 percent of the value lost. The 'other' category (crops, timber, fences, signs, etc.) formed the remaining 14 percent of the arsons and 1 percent of the value lost.

Residential property was involved in 62 percent of the structural arsons in 1998, with 71 percent of such arsons directed at single occupancy dwellings. Of all targeted structural property, 20

percent of the properties were uninhabited at the time the arson occurred. Motor vehicles composed 96 percent of all mobile property at which arsons were directed.

In 1998, arson victims suffered losses totaling $112,522,700. This total value loss represents a 22 percent increase when compared with 1997 total arson losses. The average dollar loss per arson was $13,305—up from $10,518 in 1997. Industrial/manufacturing property was the classification with the highest average loss per offense, $136,252. Single occupancy residences showed an average loss of $15,520, motor vehicle arsons averaged a loss of $6,125 and the 'other' group (crops, timber, fences, signs, etc) had the lowest average loss of $596.

Clearance Rate

Statewide, Texas law enforcement agencies were successful in clearing or solving by arrest 20 percent of all arsons that were reported. Of the various property classifications, community/public (churches, jails, schools, colleges, hospitals, etc.) had the highest clearance rates (41 percent). Motor vehicles showed the lowest clearance rate (7 percent) of any property class.

Of all arson clearances, 55 percent involved persons under the age of eighteen. Persons in this age group accounted for 87 percent of the community/public structure arson clearances, 58 percent of all structure category clearances and 70 percent of the 'other' category (crops, timber, fences, signs, etc.)

Persons Arrested

Texas law enforcement agencies arrested 877 persons for the crime of arson in 1998. When compared with the previous year, the number of persons arrested for arson decreased 1.6 percent. Of the persons arrested for arson in 1998, 48 percent were juveniles (16 and under); 86 percent were male; 84 percent were White; 15 percent were Black; 69 percent were not Hispanic and 31 percent were Hispanic. The age group that contained the highest number or arson arrestees was the 15-to-19- year old group.

DUI ARRESTS

DEFINITION

For UCR purposes, Driving Under the Influence (DUI) is the driving or operating any motor vehicle or common carrier while under the influence of liquor or narcotics.

ANALYSIS

Volume

As with all Part II non-index crimes, information on the number of reported crimes is not collected by the UCR program for this offense. However, the number of persons arrested for this crime is collected.

The number of arrests for DUI in Texas, in 1998, was 84,570. The volume of DUI arrests decreased .7 percent in comparison with 1997. In Texas, DUI arrests peaked in 1983 when 149,621 persons were arrested and the change in the number of DUI arrests from 1983 to 1998 was a decrease of 43 percent.

Rate

The 1998 DUI arrest rate for Texas was 428.0 arrests for every 100,000 persons. The change in

the DUI arrest rate from 1997 was a decrease of 2.3 percent. As with the number of arrests, the DUI arrest rate peaked in 1983 at 951.5 arrests for every 100,000 Texans. The change in the DUI arrest rate from 1983 to 1998 was a decrease of 55 percent.

Nature

Any consideration of the number and rate of DUI arrests must be reconciled with the fact that many factors control the ability of law enforcement personnel to detect drunken drivers. Among the significant factors which drive the DUI arrest rate are these: media coverage of the DWI problem, public awareness, availability of funds for patrol officer overtime, and the skill and training in DUI detection of law officers.

Persons Arrested

Of the 84,570 persons arrested for DUI in 1998, only 0.4 percent were juveniles (16 and under); 88 percent were male; 93 percent were White; 7 percent were Black; 59 percent were not Hispanic and 41 percent were Hispanic. The age group with the highest number of DUI arrestees was the 20-to-24 year-old group. Of all DUI arrests, 8,674 or 10 percent, were of persons who were under the legal age to purchase alcohol in Texas, which is 21.

The following chart displays the quantity of illegal drugs seized in Texas. Amounts are rounded. Dose units refer to one pill, tablet, capsule or other single user quantity. The information presented here is based upon reports of drugs seized by Texas law enforcement agencies and does not include drugs seized in Texas by any federal law enforcement agency.

WEAPONS ARRESTS

DEFINITION

Weapons offenses include all violations and attempted violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. As with all Part II non-index crimes, the UCR program collects only reports of arrests for this offense.

ANALYSIS

As indicated in the murder section, firearms are the murder weapon of choice in 68 percent of all Texas murders. The percentage of juveniles arrested for murder has increased from 6 percent in 1984 to 13 percent in 1998. In light of these facts, this section focuses on trends in weapon possession.

Volume and Rate

In 1998, 12,795 arrests for weapon violations were reported. The number of arrests decreased 10 percent over 1997. The 1998 weapons arrest rate was 64.8 arrests for every 100,000 persons. The change in the arrest rate from 1997 was a decrease of 11.5 percent.

FAMILY
VIOLENCE

FAMILY VIOLENCE 1998

5

DEFINITION

The Texas Family Code defines Family Violence as an act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault, or a threat that reasonably places the member in fear of imminent physical harm. The law excludes the reasonable discipline of a child and defines abuse as physical injury that results in substantial harm or genuine threat; sexual contact, intercourse, or conduct; or compelling or encouraging the child to engage in sexual conduct.

By definition and for the purposes of family violence reports, 'Family' includes individuals related by consanguinity (blood) or affinity, marriage or former marriage, biological parents of the same child, foster children, foster parents, and members or former members of the same household (including roommates).

ANALYSIS

Volume

The total reported number of Texas family violence incidents in 1998 was 175,725. This represented a 3.3 percent decrease when compared to 1997. These incidents involved 191,324 victims (down 2.2 percent from 1997) and 187,412 offenders (down 2.6 percent from 1997).

Victims

Incidents of family violence in 1998 involved 191,324 victims. Of the victims whose sex was known, 24 percent were male and 76 percent were female. The age group with the highest number of victims was the 20-to-24 year-old bracket.

Of the victims whose ethnicity was known, 34 percent were Hispanic and 66 percent were not Hispanic. For the victims whose race was known, 75 percent were listed as White, 24 percent were Black, and less than 1 percent were American Indian or Alaskan Native and Asian or Pacific Islander. Of the White victims, 76 percent were female, 75 percent of the Black victims were female, 82 percent of the American Indian or Alaskan Native victims were female and 74 percent of the Asian or Pacific Islander victims were female.

Of the offenders whose race was known, 73 percent were White, 26 percent were Black, and less than 1 percent were American Indian or Alaskan Native and Asian or Pacific Islander. An examination of offenders by race finds that 78 percent of the White offenders were male, 78 percent of the Black offenders were male, 72 percent of the American Indian or Alaskan Native offenders were male, and 70 percent of the Asian or Pacific Islander offenders were male.

Officer Assaults

A serious problem inherent to police intervention and investigation of family violence is the potential for law officers to be assaulted. In 1998, during the course of responding to family violence incidents, 692 Texas law officers were assaulted. By contrast, Uniform Crime Reports for 1998 listed 5,039 assaults on law officers during all types of police activity.

Offenses

Offense information in the family violence program is collected according to federal UCR guidelines and do not necessarily conform to Texas state definitions. Complete offense definitions are available in the appendix to this publication. Family violence offense information falls into six general categories: assaults, homicides, kidnapping/abductions, robberies, forcible sex offenses, and non-forcible sex offenses. Of the six main categories, assaults accounted for 98% of all offenses. Information for each individual crime is represented in the chart on the next page.

Offenders

In 1998, 187,412 offenders were involved in incidents of family violence. Of the offenders whose sex was known, 78 percent were male and 22 percent were female. The age group showing the highest number of offenders was the 25-to-29 year-old bracket.

For the purposes of this family violence report, the police officers who responded to disturbance calls determined the extent of injuries and all injuries were considered to be apparent injuries. If later medical attention indicated that the injuries were more or less severe than noted by the responding officer, this information is not included in the family violence report. The majority of reported injuries (51%) were considered to be minor injuries. In another 45 percent of family violence reports, 'no injury' was recorded. Major injuries were reported in 4 percent of the cases.

Weapons

The most common weapon involved in family violence cases was physical force through the use of hands, feet, and fists (strong-arm), which accounts for 76 percent of the incidents. The Texas Family Violence law considers the use of threats and intimidation to be serious enough to report and, thus, 10 percent of the reports were listed as involving no weapons. Knives or cutting instruments (4 percent), blunt objects (3 percent), firearms (2 percent) and other (5 percent) account for the remaining cases. Considered as other weapons were motor vehicles, poison, explosives, fire, drugs, unknown, and miscellaneous weapons.

HATE CRIME

HATE CRIME

6

DEFINITION

The Texas Hate Crimes Act, Subchapter D Chapter 411.046 of the Texas Government Code, defines hate crimes as crimes that are motivated by prejudice, hatred, or advocacy of violence including, but not limited to, incidents for which statistics are or were kept under Public Law 101-275 (the federal Hate Crimes Statistics Act). The federal law further defines hate crimes as crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, and added in 1997, disability.

Violation against selected groups within Texas has been recognized as a threat to the safety of Texans. In an effort to quantify these incidents of bias crimes, the Texas Hate Crimes Act directed every law enforcement agency within Texas to report bias offenses to the Department of Public Safety.

ANALYSIS

Volume

The total number of reported Texas hate crime incidents in 1998 was 316. This represents a decrease of 4.5 percent when compared to 1997. These incidents involved 299 victims, 375 offenders, and resulted in a total of 330 offenses.

Hate Crime	1998	1997	% Change
Reported Incidents	316	331	− 4.5%
Reported Victims	299	361	−17.2%
Reported Offenders	375	420	−10.7%
Reported Offenses	330	360	− 8.3%

Bias Motivation

In 1998, the largest percentage of hate crime reports were racial in nature. The second most commonly reported bias motivation was sexual-orientation, the third most common bias motiva-

tion was ethnic/national origin, the fourth most common form of hate crime was religious and the fifth most common was disability.

Hate Crime Locations
Offenders

In 1998, 375 offenders were involved in incidents of hate crimes. Hate crime incidents can be perpetrated by multiple offenders of the same race. The following chart displays the suspected offenders' race totaling 308.

Hate Crime Offenders by Incident

Suspected Offenders' Race	Number	Percent of Total

Hate Crime Offenders
Victims

Information on the victims of hate crimes is limited to victim type. While bias motivation information identifies the offender's bias, it is important to note that the victim may not actually belong to the group the offender sought to harm. For this reason, information on the victims' actual group membership is not recorded.

Victim type, in the hate crime data collection program, is listed as: individual, business, financial institution, government, religious organization, society/public, other and unknown. Of these victim types, individuals were reported to be the main hate crime target.

Hate Crime Victim Type

TOTAL	**330**	**100.0%**

Offenses

Offense information in the hate crime data collection program are defined in accordance with federal Uniform Crime Reporting definitions and do not necessarily conform to Texas state definitions. Complete offense definitions are available in the appendix to this publication.

Hate crime offense information falls into the eight index crime categories—murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson—plus the non-index crimes of simple assault, intimidation and vandalism. Of these offense categories, aggravated assault, simple assault, intimidation and vandalism together accounted for 90 percent of all bias crime offenses.

LAW ENFORCEMENT EMPLOYEE DATA

The Texas Uniform Crime Reporting program collects pertinent data relating to the police agencies of the state. Information regarding law enforcement employee strength, employment trends, law officers assaulted in the line of duty, and law officers killed in the line of duty is discussed in this section.

Commissioned Personnel

Texas' law enforcement community employed 45,573 full-time sworn officers as of October 31, 1998. The average number of officers for every 1,000 inhabitants of Texas was 2.30. The ratio of law enforcement officers to inhabitants increased 3.1 percent from 1997.

Civilian Employees

The 934 Texas agencies reporting law enforcement employee data employed 26,434 civilian workers. Civilian employment has decreased .8 percent over 1997 and now makes up 37 percent of the Texas law enforcement work force.

LAW ENFORCEMENT OFFICERS ASSAULTED

The death or assault of a law enforcement officer seriously impacts the feeling of security in society. As the possibility of being assaulted may discourage persons from considering law enforcement careers, attacks on police officers reduce their ability to combat crime. As such, violence towards police equals violence towards society.

In 1998, 5,039 Texas Law Officers were assaulted in the line of duty. The number of officers assaulted decreased .7 percent over the number of assaults in 1997. Assaults resulted in injury to the officer in 33 percent of the cases and 93 percent of the assaults were cleared.

GLOSSARY OF TERMS

Adult—In Texas, an adult is a person 17 years of age or over. National law provides that adults are age 18 or over. Unless otherwise indicated, this publication follows the state definition.

Affinity—The connection existing, as a consequence of marriage, between married persons and the kindred of the other.

Cleared by Arrest or Exceptional
Means—For Uniform Crime Reporting purposes, an offense is cleared by arrest or solved when at least one person is arrested, charged with the commission of an offense and turned over to court for prosecution. In certain situations police are not able to follow these three steps and, if the following four conditions can be met, the offense can be cleared exceptionally: (1) the investigation has definitely established the identity of the offender: (2) there is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) the exact location of the offender is known so that he could be taken into custody; (4) there is some reason outside the police control that prevents the arresting, charging, and prosecuting of the offender.

Consanguinity—Kinship or blood relationship; the relationship of persons who are descended from a common ancestor.

Crime Factors—Conditions that affect the amount and type of crime that occurs in a geographical area.

Crime Index—The sum of seven index offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the Crime Index are: murder, rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. While arson is also an index offense, it is not part of the Crime Index.

Crime Rate—The number of offenses per 100,000 inhabitants. To calculate a crime rate, divide the population by 100,000 and then divide the number of offenses by that answer. The crime rate is useful in determining the relative frequency of crime without regard to fluctuations in population.

Ethnicity—In UCR, race and ethnic origin are counted as two separate designations. The ethnic origin categories were adopted from the U.S. Department of Commerce and are Hispanic and not Hispanic. Included as Hispanic are all persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Family—Individuals related by blood, affinity, marriage, former marriage, biological parents of the same child, foster children, foster parents, members of the same household or former members of the same household.

Family Violence—An act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault or a threat that reasonably places the member in fear of imminent physical harm. The reasonable discipline of a child is excluded from consideration as family violence.

Hate Crime—A crime that is motivated by prejudice or hatred based on race, religion, sexual orientation, ethnicity, or disability.

Hierarchy Rule—When several offenses are committed simultaneously by one person or group of persons the hierarchy rule in UCR mandates that only the most serious offense is recorded for statistical purposes. Arson is an exception to this rule.

Index Crime—A crime for which reports of offenses committed are collected. Index crimes are murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson.

Intimidation—Putting a victim in reasonable fear of bodily harm through the use of threatening words or other conduct.

Juvenile—In Texas, a juvenile is a person 16 years of age or under.

Non-Violent Crime—Property crimes; the index offenses of burglary, larceny-theft and motor vehicle theft.

Part I Offenses—The first of two categories of index offenses established for crime reporting purposes. Part I Offenses are by their nature more serious and/or occur most frequently. For Part I Offenses, the reports of offenses committed are collected without regard to whether an arrest was made.

Part II Offenses—The second of two categories established for crime reporting purposes. Part II Offenses are generally less serious in nature and/or occur less frequently than Part I Offenses. Monthly tabulations of Part II Offenses are limited to arrest information only.

Personal Weapon—The use of hands, feet, fists and teeth as a weapon to commit a crime; also termed strong-arm weapon.

Prejudice—An unreasonable and unjustifiable negative attitude toward a group and its individual members.

Race—In UCR, race and ethnic origin are counted as two separate designations. The racial categories were adopted from the U.S. Department of Commerce and are as follows: *White*—A person having origins in any of the original peoples of Europe, North Africa or the Middle East; *Black*—A person having origins in any of the Black racial groups of Africa; *American Indian or Alaskan Native*—A person having origins in any of the original peoples of North America who maintains cultural identification through tribal affiliation or community recognition; *Asian or Pacific Islander*—A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent or the Pacific Islands.

Strong-Arm Weapons—The use of hands, feet, fists and teeth as a weapon to commit a crime. Also termed personal weapons.

Threat—A declared intent to inflict bodily harm on a person.

Unfounded Offense—A criminal act reported to law enforcement authorities that, upon investigation, is found to be false or baseless.

Violent Crime—Consists of the Index Offenses of murder, forcible rape, robbery and aggravated assault. Also referred to as crimes against persons.
