LEGISLATIVE APPROPRIATION REQUESTS FOR FY 2016 – 2017  
Administrator's Statement: Texas State Technical College Waco

**OVERVIEW OF TSTC WACO**

Texas State Technical College Waco (TSTC Waco or the College) was established by the Texas Legislature in 1965 as the first of four member colleges in the Texas State Technical College System, with the mission to provide advanced technical training to students in support of economic development for the State of Texas. Located in Central Texas, during the fall 2013 semester TSTC Waco provided technical training to 4,026 students from 142 Texas counties and 31 states in the College's 56 certificate and associate degree programs. TSTC Waco also serves students at the East Williamson County Higher Education Center in Hutto, Texas and the Fort Bend County Technical Center.

TSTC Waco continues our 49-year history of successfully providing a skilled workforce for business and industry in Texas through program offerings in high demand, STEM-related areas. In 2013, Community College Week included Texas State Technical College Waco in the following rankings:

- Number 1 producer of Associate Degrees in Engineering and Engineering-Related fields both in Texas and Number 3 nationally.
- Number 1 producer of Associate Degrees in Computer and Information Science fields in Texas and Number 13 nationally.
- Number 1 producer of Associate Degrees in Precision Production fields in Texas and Number 30 nationally.

TSTC Waco seeks to remain a significant producer of high-demand technical graduates and believes that the value of our graduates and technical education is critical to the future of Texas.

**SIGNIFICANT CHANGES, CHALLENGES AND OPPORTUNITIES**

TSTC Waco continues to adjust methods of operation towards the "Returned Value Funding Model" as outlined in paragraph 11 of Special Provisions Relating Only to Components of Texas State Technical College of the General Appropriations Act. TSTC's focus is on creating pathways to success and enabling students to achieve their educational goals and will increase results (job placement), which is the basis for TSTC Waco's state funding and reputation. The four TSTC colleges are also in process of implementing a single accreditation to become "One College" to provide its stakeholders increased efficiencies of all resources.

The budget strategy directs resources to enable TSTC Waco to:

- Continue development of the competency-led cohort-based instruction piloted at the East Williamson County Higher Education Center (EWCHEC) and Fort Bend Technical Center (FBTC);
- Further develop the competency-based learning (CBL) model of teaching and learning at the Waco campus to

**71D Texas State Technical College - Waco**

increase focus on skills and allow students to progress through programs at own pace. TSTC Waco will continue efforts toward finalizing CBL Charter, faculty training initiatives, and customized procedures including registration, scheduling, student funding, and IT/Colleague;

- Expand programs at the East Williamson County Higher Education Center at Hutto and the Fort Bend Technical Center in Fort Bend County;
- Increase the number of secondary students completing college pathways at TSTC Waco while currently enrolled in high school. Using the framework of HB 5, the strategic pathways improve the preparation of high school students entering TSTC, which may lead to employment opportunities upon completion of high school or with minimal further college;
- Continue to grow partnerships with ISDs, such as the Technical Early College High School under development with Connally Independent School District and the proposed Early College High School with La Vega Independent School District;
- Advance opportunities for student placement in high demand, high salary occupations through a new focus on Career Services where staff and additional assets are working directly with industry to create new and higher salaried employment opportunities for graduates;
- Improve student success by redesigning the intake and academic advising model to matching student goals and capabilities with appropriate program options;
- Finalize the TSTC Badge Charter where students will be able to earn TSTC Badges to signal to employers and others the employment competencies gained – these can include academic competencies tied to their certificate or degree program as well as demonstrated 'soft skills.' Required work to implement includes the identification of competencies for each Badge and building IT processes within Colleague to track and award Badges;
- Shift the focus of instructional program review towards the objectives of the new returned value funding and operating model. Conventional program assessment is focused on cost of operation and enrollment. Program evaluation will include a comprehensive view of the program in relation to college objectives, will involve deployment of an assessment template tool used for TSTC instructional programs statewide, and will use available data to minimize reporting burden. Primary Performance Indicators include graduate wages, student placement rates, and number of students in the workforce (graduates, transfers, and leavers). Secondary Performance Indicators include current market demand, instruction alignment with current/future market demand, and costs of the program;
- Focus on maximizing organizational efficiency by adjusting staffing and expense levels to meet current

**71D Texas State Technical College - Waco**

needs including developed capacity for instructional program vitality:

- Develop efficient curriculum offerings by "right sizing" the programs to meet the skills needed for the job;
- Continue to seed external funding that will enhance and improve student support for veterans by establishing a fully staffed Veterans' Services Center; and
- Address significant deferred maintenance (subject to funding availability) within several areas related to facilities and/or infrastructure including the campus water/sewage system constructed in the early 1940s through the 1950s, major airport renovations, renovation of student housing also constructed in the 1940s through the 1950s, and enhancing irrigation infrastructure at TSTC's golf course.

**REDUCTION STRATEGIES**

In responding to both the reduction of federal funding sources and General Revenue (GR) reductions experienced in the last two legislative sessions, TSTC Waco has employed a host of strategies including reorganization and the resulting reductions/repurposing of staff, seeking efficiencies everywhere possible, and focusing operating resources on mission-critical services. The College is seeking grant funding opportunities where possible, is entrepreneurially using College assets to create new revenue streams for the College which can help support our core mission, and is developing corporate and private relationships which benefit the College and our community partners alike.

TSTC Waco expects that a further GR reduction of 5 percent will require the college to consider eliminating student services such as the Student Recreation Center, defer maintenance projects such as roof replacements, cap enrollment in certain instructional programs, and eliminate programs (leading to faculty and staff reductions). An additional 5 percent General Revenue reduction will result in additional program reductions and limitations, including possible elimination of certain strategic partnerships with other colleges that have limited growth potential. The "hands on" technical programs offered by TSTC Waco require appropriate faculty to student ratios and oversight in lab courses for safety reasons.

**EXCEPTIONAL ITEM FUNDING REQUESTS**

TSTC Waco seeks new funding to address the following critical needs and services:

Transition Funding for East Williamson County Higher Education Center:

As authorized by the Texas Education Code Chapter 130.092, TSTC Waco, in partnership with Temple College, joined with the Hutto community to fund the first building for the East Williamson County Higher Education Center at Hutto. The community is providing funding for over half the cost of this facility (TSTC Waco is funding 27 percent of the total cost of the building and owns 100 percent). Because start-up funding does not enter TSTC's returned value funding model until 8-10 years after the start-up activity is authorized, the College requests \$2,400,000 for the FY 2016/2017 biennium to help fund personnel and equipment costs for the third and fourth years of operation fulfilling the intent of Article IX, Section 18.30 of House Bill 3640 of the 83rd Legislature.

**71D Texas State Technical College - Waco**

**Fort Bend Technical Center:**

The Fort Bend county community, foundations, and governing bodies have collaborated and committed outside funding to allow for a significant expansion of TSTC offerings in Fort Bend County. Two foundations based in Fort Bend county have committed lead funding to provide land and construction cost for a 103,596 square foot facility, known as Building One. This outside funding is expected to reach \$20 million, primarily from a land donation and pledged gifts from the foundations as well as pledges of support from local economic development boards. Currently, TSTC shares a portion of the Wharton County Junior College Richmond facility, offering Machining, Diesel Equipment, and Air Conditioning/Refrigeration training. In the planned new facility (Building One), TSTC will add computer science, welding, biomedical equipment certificate, industrial maintenance, construction, and truck driver training to the current offerings requiring start-up funding of \$9,000,000 in salaries, and debt service for equipment, financing, facilities, utilities/maintenance, and operating expenses for the FY 2016/2017 biennium for the initial two years of operation.

To augment the community-backed Building One, TSTC has requested TRB authorization to construct an additional building, Building Two. Building Two instructional focus is Instrumentation, Electronics, and Allied Health Technologies and will include four additional technology programs: Biomedical Equipment/Medical Imaging, Robotics, Electrical/Electronics, and Energy. Building Two is intended to include a Technical Early College High School (grades 8, 9, and 10). Based on the timing gap in funding for start-up operations, TSTC Waco included in its request for transition funding \$2,000,000 for the FY 2016/2017 biennium to help fund startup personnel, and facilities utilities/maintenance costs for the first year of operation in FY 2017 for Building Two.

The above requests for transition funding are included in the TSTC System Administration Legislative Appropriation Request.

**Tuition Revenue Bond Payments for Fort Bend Technical Center Building Two:**

Tuition Revenue Bond Issuance Authority of \$14,950,000 is requested by TSTC Waco for the construction of a 38,800 square foot facility, Building Two, at the Fort Bend Technical Center. This authority requires an Exceptional Item Request for projected debt service payments of \$2,399,254 for the FY 2016/2017 biennium.

**BACKGROUND CHECKS**

Criminal history record information is checked for employment applicants under final consideration, following normal screening and selection processes, for security sensitive positions. Security sensitive positions are restricted to those positions described in Texas Education Code § 51.215(c) and Texas Government Code § 411.094(a)(2). Security sensitive positions include those in which employees handle currency, have access to financial records, legal records, medical records, personnel records and student academic records, have access to a master key, or work in an area of the College which has been designated as a security sensitive area.

All advertisements and notices released for security sensitive positions include the statement: "Security Sensitive Position." Upon selection of the best qualified candidate for the position, the candidate may be offered continued employment by the College contingent upon the evaluation of the criminal history record check. If the check produces a criminal record on the candidate, the Human and Organization Development Executive or his/her designee evaluate the record and work with the department head to determine if the employee should be recommended or not recommended for employment. All criminal history information on applicants is privileged and confidential and is not released or otherwise disclosed to any person or agency other than those persons involved in the hiring process with a legitimate need to know this information, except on court order.

**ADDITIONAL FTE REQUEST**

(5)

**71D Texas State Technical College - Waco**

Additional FTE positions are requested for faculty and support staff to provide instruction and services at the Fort Bend Technical Center. The 13 FTE positions include faculty and lab assistants for nine associate degree instructional programs to be offered beginning in fall of 2015. Beginning in the spring of 2016, six FTE positions including faculty and lab assistants for four associate degree instructional programs will be offered. Total FTE positions requested are 19. The request is included in the Exceptional Item funding request for the Fort Bend Technical Center included in the TSTC System Administration Legislative Appropriation Request.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

Provide students with a comprehensive selection of occupationally-oriented, technical career programs with emphasis on STEM-based technologies to support and enhance the economic welfare of Texas and Texas. Additionally provide the necessary academic (core curriculum) courses needed to develop the cognitive competencies and knowledge needed to succeed in their chose career field, establish a foundation of knowledge for life-long learning, and facilitate the transferability of credit to provide students the opportunity to pursue a four-year degree.

One-hundred percent of this funding is needed to provide current services for projected enrollment.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

					(1)	(1)

This strategy is impacted by factors affecting the College's ability to:

- 1) Provide hands on training using state of the art equipment in first-rate labs
- 2) Recruit and retain qualified faculty at competitive salaries
- 3) Forecast workforce demands for the present and future
- 4) Continue its history of successful placement of its students
- 5) Develop diverse learning tools and teaching strategies to achieve learning successes for more students

A strong emphasis on retention and remediation is essential for successful implementation of this strategy.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

------	-------------	----------	----------	----------	---------	---------

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

This strategy is to provide proportional share of staff group insurance premiums paid from Other Educational and General funds.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Strategy is impacted by the number of employees working 30 hours or more and the premium rate. Strategy is based upon percentage of other E&G income to total appropriation. Tuition increases and reduced general revenue appropriations affect the expenditure requirements of this strategy.

There is a general revenue shortfall for group insurance; therefore, other strategies must supplement group insurance expenditures.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

This strategy contains Institutional Enhancement operations funding as well as Transition Funding Authorized by Article IX, Section 18.30 of HB 3640 of the 83rd Legislature, System Administration. For Institutional Enhancement operations, funds are used to support E & G instructional support components including support services for deaf students, students, and instruction. Education through diverse mediums, retention through innovative and early risk assessment, new program development, and marketing designed to reach under-represented populations are supported by this funding.

To conform to LBB requirements, the Transition Funding amounts for FY14 & FY15 are reflected in the Institutional Enhancement strategy. The FY16-17 appropriations request related to this is located at the System Administration level within Strategy 3-1-1, "North Texas and East Williamson County Centers".

The new "returned value" funding model does not provide funding for start-up operations because of the inherent lag between the operation ramp-up, teaching event and the actual funding. In fulfilling the intent of Article IX, Section 18.30 of HB 3640, the TSTC System Administration request of \$2,400,000 (FY14 & FY15) was transferred to and expensed by TSTC Waco to fund personnel (FTEs: FY14-15.9, FY15-18.3), capital equipment financing, and operating costs for the East Williamson County Higher Education Center at Hutto until the results of operations enter TSTC's funding formula. This center was created in partnership with Temple College with outside funding from the Hutto community.

STRATEGY:	1	Institutional Enhancement	Service: 19	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Related to standard Institutional Enhancement operations, funds are used for services and staffing necessary to support deaf/disabled student services, retention programs (focused on meeting "Closing the Gaps" targets) and development of new instructional programs to meet the changing needs of Texas business and industry. Student needs for assistance in challenging economic times has increased the need for services provided by this strategy, in spite of funding cuts to this strategy.

Related to the Transition Funding for the East Williamson County Higher Education Center at Hutto of TSTC Waco, the community initially provided matching funds in the form of in-kind real property donations. The Hutto community also contributed a substantial portion of the facility's debt service for the technical education facility. To realize the full capacity of this outside funding, operating funds are essential due to the nature of the TSTC outcomes-based funding formula. Because of the inherent 8-10 year lag until the results of operations contribute to TSTC's funding formula, transition funding to this point is vital to the success of new operations.

The funding for the Center in Hutto also continues to fund equipment debt service related facility start-up and continues funding for operating expenses of salaries and wages, instructional supplies and materials.

------	-------------	----------	----------	----------	---------	---------

The Fort Bend county community, foundations, and governing bodies have collaborated and committed outside funding to allow for a significant expansion of TSTC offerings in Fort Bend County. Two foundations based in Fort Bend county have committed lead funding to provide land and construction cost for a 103,596 square foot facility, known as Building One. This outside funding is expected to reach \$20 million, primarily from a land donation and pledged gifts from the foundations as well as pledges of support from local economic development boards.

To augment the community-backed Building One, TSTC requests TRB issuance authority to finance construction an additional building, Building Two. Building Two is an appropriate contribution to the partnership with the Fort Bend county community in expanding the reach of technical education to the region. The Building Two project is estimated to be 38,800 square feet with an estimated cost of \$14,950,000. Funding for projected debt service payments of \$2,399,254 for the FY 2016/2017 biennium is included in this request.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Currently, TSTC shares a portion of the Wharton County Junior College Richmond facility, offering Machining, Diesel Equipment, and Air Conditioning/Refrigeration training. In 2014, TSTC and the foundations jointly commissioned a study by the Perryman Group to evaluate the needed training for current jobs in the greater Fort Bend/Houston area. Based on the information provided by the study, there are training opportunities and industry demand for a significant expansion of TSTC offerings to address the growing workforce-development needs.

In the first facility, Building One, TSTC will add computer science, welding, biomedical equipment certificate, industrial maintenance, construction, and truck driver training to the current offerings. Building Two's instructional focus will include Instrumentation, Electronics, and Allied Health Technologies and four additional technology programs: Biomedical Equipment/Medical Imaging, Robotics, Electrical/Electronics, and Energy. The intention is for Building Two to also include a Technical Early College High School (grades 8, 9, and 10).

This is a continuation and expansion of existing programs to address the growing workforce-development needs in Fort Bend County. This request is not associated with any specific contracts with an outside entity. The consequence of not funding this request will be a missed opportunity to address the shortage of training for high demand programs in key industries, leaving many Texas employers unable to grow and innovate, restricting their ability to compete in the current economy.

Currently, TSTC shares a portion of the Wharton County Junior College Richmond facility, offering Machining, Diesel Equipment, and Air Conditioning/Refrigeration training. In the spring of 2014, TSTC and the foundations jointly commissioned a study by the Perryman Group to evaluate the needed training for current jobs in the greater Fort Bend/Houston area. Based on the information provided by the study, there are training opportunities and industry demand for a significant expansion of TSTC offerings to address the growing workforce-development needs.

In the first facility, Building One, TSTC will add computer science, welding, biomedical equipment certificate, industrial maintenance, construction, and truck driver training to the current offerings. Building Two's instructional focus will include Instrumentation, Electronics, and Allied Health Technologies and four additional technology programs: Biomedical Equipment/Medical Imaging, Robotics, Electrical/Electronics, and Energy. The intention is for Building Two to also include a Technical Early College High School (grades 8, 9, and 10).

This is a continuation and expansion of existing programs to address the growing workforce-development needs in Fort Bend County. The exceptional item funding request is not associated with any specific contracts with an outside entity. The consequence of not funding this request will be a missed opportunity to address the shortage of training for high demand programs in key industries, leaving many Texas employers unable to grow and innovate, restricting their ability to compete in the current economy.

**B. Assessment of Fiscal Year 2012 - 2013 Efforts to Meet HUB Procurement Goals**

**Attainment:**

The agency attained one of six, or 17%, of the applicable statewide HUB procurement goals in FY 2012. The agency attained zero of six, or 0%, of the applicable statewide HUB procurement goals in FY 2013.

**Applicability:**

The agency had expenditures in all of the six HUB categories for both FY 2012 and FY 2013.

**Factors Affecting Attainment:**

- A portion of the goals showed a positive trend over the respective prior year in percent of total dollars spent on HUB contracts (2 of 6 in comparing FY 2012 to FY 2010, and 3 of 6 in comparing FY 2013 to FY2011).
- The percent of HUB bids/proposals received in FY 2012 as compared to FY 2010 declined.
- The college routinely utilizes vendors that could qualify for HUB certification, but they have no direct incentive to complete the HUB certification steps. This creates a limited supply of "HUB certified" vendors.

**"Good-Faith" Efforts:**

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(c):

- Provided HUBs access to procurement policies and procedures;
- Met with potential HUB vendors, assisted in certifying them and encouraged them to participate in the

(52)

Agency Code: 71D Agency: Texas State Technical College - Waco

bidding process;

- Developed and participated in educational outreach activities, including:

- o Staged periodic trade fairs to HUBs to demonstrate their products and services to potential buyers

- o Participated in programs that consolidated information about upcoming contract opportunities and allowed potential bidders to discover upcoming opportunities

- Trained internal departments concerning the HUB requirements, goals, procurement policies and procedures;

- Attended HUB forums within respective regions, also presented annually at the "Meet the Buyer" expo in the Brownsville/McAllen area;

- Advertised major construction projects widely;

- Utilized the Mentor-Protégé programs with vendors such as WW Grainger Inc./Burgoon Company and Office Depot/P.D. Morrison;

- Maintained membership with HUB Alliance groups and attended quarterly meetings.

<b>1 Reduction in Student Services</b>							
<b>Category:</b> Programs - Service Reductions (Contracted)							
<b>Item Comment:</b> In responding to previous funding reductions, TSTC Waco has employed a host of conventional strategies, including; redeployment of human and other resources, leaving positions vacant, combining job duties, strategic line item budget reductions and delay of capital expenditures.							
A reduction of 10% of non-formula funded strategies would result in a reduction of planned maintenance and reduction in program offerings resulting in a reduction of one FTE.

71D Texas State Technical College - Waco

---

Special Item: 1 Institutional Enhancement

(1) Year Special Item: 2000  
Original Appropriations: \$1,796,114

(2) Mission of Special Item:

To provide support services for E & G operations to facilitate instructional support services, deaf disabled student services, retention efforts, scholarships, institutional research and new program development.

(3) (a) Major Accomplishments to Date:

New programs in alternative energy technology, air traffic control/flight dispatch, high performance computing, and program revisions focusing on green building technologies have been accomplished in the past two years.

Required services for deaf and disabled students have expanded well beyond the funding provided by this item.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Maintain current services, including those for deaf students, expanding retention efforts in order to improve graduation rates, scholarships for needy students, and new program development to allow TSTC to maintain our focus on industry needs.

(4) Funding Source Prior to Receiving Special Item Funding:

Prior to FY2000, the College received separate special items for Deaf Students Services, Scholarships, Educational Support and New Plant Expansion.

(5) Formula Funding:  
N/A

(6) Non-general Revenue Sources of Funding:

None.

(7) Consequences of Not Funding:

Critical instructional support services, retention efforts, scholarships, institutional research, and new program development would not be maintained. The ADA requires that deaf and disabled student services be provided, so funding for instruction and support services would be significantly reduced in order to cover these costs.
