Honorable Rick Perry, Governor  
Honorable Susan Combs, Texas Comptroller  
Ursula Parks, Director, Legislative Budget Board  
John Keel, CPA, State Auditor

Dear Governor Perry, Ms. Combs, Ms. Parks, and Mr. Keel:

We are pleased to submit the annual financial report of Lamar State College Port Arthur for the year ended August 31, 2014, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Mary Wickland at 409-984-6125.

Sincerely,

A handwritten signature in cursive script that reads "Betty Reynard".

### Lamar State College Port Arthur Notes to the Financial Statements

#### **Note 1: Summary of Significant Accounting Policies**

##### **Entity**

Lamar State College Port Arthur is a state funded two-year Institution of Higher Education of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Institutions of Higher Education.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the state of *Texas Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

##### **Fund Structure**

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

##### **Proprietary Funds**

Business Type Activity – Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type because the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

##### **Component Units**

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 18.

##### **Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or

producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

#### **Budget and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

#### **Assets, Liabilities, and Fund Balances/Net Position**

##### Assets

##### Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

##### Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. For pension trust funds, investments are required to be reported at fair value using the full accrual basis of accounting in accordance with GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*. Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the operating statement. These costs are reported at gross.

##### Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

##### Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

## UNAUDITED

### Lamar State College Port Arthur Notes to the Financial Statements

#### Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets (such as works of art and historical treasures) are not depreciated. Road and highway infrastructure is reported on the modified accrual basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

#### Other Receivables - Current and Noncurrent

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24. Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

#### Liabilities

##### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

##### Other Payables – Current and Noncurrent

The disaggregation of other payables as reported in the financial statements is disclosed in Note 24. Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions. Other payables may be included in either the governmental or proprietary fund types.

##### Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignation, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

##### Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

### Lamar State College Port Arthur Notes to the Financial Statements

#### Bonds Payable - General Obligation Bonds

General obligation bonds are accounted for in proprietary funds for business-type activities. These payables are reported as long-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter) in the statement of net assets. The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

#### Bonds Payable - Revenue Bonds

Revenue bonds are accounted for in the proprietary funds for business-type activities. These payables are reported as long-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter) in the statement of net assets. The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

#### Net Position

The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is "Net Position" on the proprietary fund statements.

#### Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

#### Restricted Net Position

Restricted net position result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

#### Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two *preceding* categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

**Interfund Activities and Transactions**

Lamar State College Port Arthur has the following types of transactions among funds:

(1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

(2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

(3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as "current." Balances for repayment due in two (or more) years are classified as "non-current".

(4) Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund (interfund services provided) and expenditures or expenses of the disbursing fund (interfund services used).

The composition of Lamar State College Port Arthur's interfund activities and transactions are presented in Note 12.

### Lamar State College Port Arthur Notes to the Financial Statements

Lamar State College Port Arthur has interagency activity with State Agency 730 – University of Houston, State Agency 734 – Lamar University, State Agency 789 – Lamar Institute of Technology, State Agency 758 - The Texas State University System Office of the college, and State Agency 781 - Texas Higher Education Coordinating Board. In accordance with tuition set-aside requirements in the Texas Education Code, Section 56.465, tuition revenues were transferred to the Texas Higher Education Coordinating Board. Remaining Due From/To and Transfers pertained to debt service payments from/to the Texas State University System, grant funds from Texas Higher Education Coordinating Board and US Small Business Administration via pass-through from University of Houston, and loan funds from Lamar University and Lamar Institute of Technology. Legislative transfer activity is directly attributable to bonds authorized by the Legislature and historically funded by means of special line items in the college's General Revenue Appropriations. These interagency activity amounts will be eliminated in the combined Annual Financial Report of the Texas State University System.

#### **Note 13: Continuance Subject to Review**

#### **Note 14: Adjustments to Fund Balances and Net Position**

Lamar State College Port Arthur has no restatements of Fund Balances and Net Position to report as of August 31, 2014.

#### **Note 15: Contingencies and Commitments**

At August 31, 2014 various lawsuits and claims involving Lamar State College Port Arthur were pending. While the ultimate liability with respect to litigation and other claims asserted against the College or the Board of Regents cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

#### **Note 16: Subsequent Events**

### Lamar State College Port Arthur Notes to the Financial Statements

#### **Note 17: Risk Management**

The State provides coverage for workers' compensation and unemployment compensation benefits from appropriations made to other State agencies for Lamar State College Port Arthur employees. The current General Appropriations Act provides that the College must reimburse General Revenue Fund-Consolidated, from the College's appropriations, one-half of the unemployment benefits paid and twenty-five percent of the worker's compensation benefits paid for current and former employees. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each fund type. The College must reimburse the General Revenue Fund one hundred percent of the cost for worker's compensation and employment compensation for any employees paid from funds held in local bank accounts. Workers' compensation and unemployment plans are on a pay-as-you-go basis, in which no assets are set aside to be accumulated for the payment of claims. No material outstanding claims are pending at August 31, 2014.

The College is required by certain bond covenants and FEMA to carry Fire and Extended Coverage and Boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise, Educational and General and other Non-Educational and General Funds. The insurance protects the bondholders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments and the federal government for storm damage. No insurance claims were made during the fiscal year ended August 31, 2014.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$20,000/\$40,000 bodily injury and \$15,000 property damage. However, the institution has chosen to carry liability insurance on their licensed vehicles in the amount of \$1,000,000 combined single liability amount. The coverage exceeds the extent of the waivers of state immunity in the Tort Claims Act.

Lamar State College Port Arthur is exposed to a variety of civil claims resulting from the performance of its duties. It is the College's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

Lamar State College Port Arthur assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the College involved in any risk pools with other government entities.

The College's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no liabilities to report during the fiscal year ended August 31, 2014.
