Honorable Rick Perry, Governor
Honorable Susan Combs, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
John Keel, CPA, State Auditor

Ladies and Gentlemen:

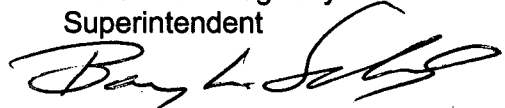

We are pleased to submit the Annual Financial Report of the Texas School for the Blind and Visually Impaired for the fiscal year ended August 31, 2014, in compliance with Texas Government Code Annotated, Sec. 2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Willis Holland, at (512) 206-9208. Cindy Adcock may be contacted at (512) 206-9202 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

William E. Daugherty

TEXAS SCHOOL FOR THE BLIND AND VISUALLY IMPAIRED (771)

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Entity

The Texas School for the Blind and Visually Impaired is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements of State Agencies and Universities.

The Texas School for the Blind and Visually Impaired was originally established by the Texas Legislature in 1856 as the Texas Institution for the Blind. The Institution's name was changed to the Texas State School for the Blind in 1907. In 1915 it was changed to the Texas School for the Blind, and in 1989 it was again changed to the Texas School for the Blind and Visually Impaired. The School operated under the oversight authority of the State Board of Education and the Texas Education Agency until September 1, 1981, when Senate Bill 29 of the Sixty-Seventh Legislature established Texas School for the Blind and Visually Impaired as a separate entity governed by a nine-member board.

The combined financial statements of the Texas School for the Blind and Visually Impaired include all the accounts of all operations of the School's reporting entity, and the Board of the School is the governing authority of this reporting entity. By state statute, the nine members of the Board are appointed by the Governor and confirmed by the Senate of the State of Texas; however, these elected officials do not maintain a significant continuing relationship with TSBVI with respect to carrying out its important public functions. As the School's governing authority, the TSBVI Board powers include budgetary authority and authority over other fiscal and general management of the School which includes, but is not limited to, the authority to execute contracts, approve the hiring or retention of key management personnel, exercise control over facilities and properties, and determine the outcome of disposition of matters affecting the recipients of the services being provided.

The Texas School for the Blind and Visually Impaired provides educational, residential and related services to any visually handicapped school-age children in Texas who cannot be appropriately served in their local school district.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No blended component units or discretely presented component units have been identified.

FUND STRUCTURE

The accompanying financial statements of the Texas School for the Blind and Visually Impaired are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types & Government-Wide Adjustment Fund Types

General Revenue Funds

The General Revenue Fund serves as the general operating fund of the School. It includes all financial resources except those required to be accounted for in another fund. The General Revenue Fund is composed primarily of appropriations from the State's General Revenue Fund, apportionments from the State's Available and Foundation School Funds, and revenues from federal assistance programs, state assistance programs, and curriculum book sales.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes. Special Revenue funds include the Expendable Trust Fund-Legacy (GAAP Fund 9999, Fund 0018).

Capital Project Funds

Capital Projects Fund (Funds 7216, 7627) are used to account for general obligation bonds issued by the Texas Public Finance Authority. The purpose of these bonds is for construction of new facilities and for the repair and renovation of existing buildings.

Permanent Funds

Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state's programs. The Permanent Fund includes the Non-Expendable Trust Fund-Legacy (GAAP Fund 9999, Fund 0021).

Capital Asset Adjustment Fund Type

Capital Asset Adjustment fund type will be used to convert governmental fund types' capital assets from modified accrual to full accrual (GAAP Fund 9998, Fund 0019).

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment fund type will be used to convert governmental fund types' debt from modified accrual to full accrual (GAAP Fund 9997, Fund 0020).

Fiduciary Fund Types:

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund, or a private purpose trust fund is used.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. They include the Student Trust Fund, School Activities Fund, Agency Suspense Payables Deducts, USPS Overpayments to Employees, and Child Support Deducts. The Student Trust Fund is used to account for accumulated deposits of individual students. The School Activities Fund is used to account for various student organizations and clubs.

Basis of Accounting

The basis of accounting determines when revenue and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid employee compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments and full accrual revenues and expenses. The activity will be recognized in these fund types.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). The governing board approves the annual operating budget and likewise authorizes any revisions to the approved budget. Encumbrance accounting is utilized for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories

Inventories include consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary fund or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables-Other

Other receivables include year-end revenue accruals not included in any other receivable category. This account can appear in governmental fund types.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables-Other

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions. Other payables may be included in either the governmental or proprietary fund types.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that became "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

FUND BALANCE/NET POSITION

“Fund Balance” is the difference between assets plus deferred outflows of resources & liabilities plus deferred inflows of resources on the governmental fund statements. “Net Position” is the difference between assets plus deferred outflows of resources & liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Non-spendable Fund Balance

Non-spendable fund balance includes amounts not available to be spent because they are either not in spendable form or legally or contractually required to be maintained intact. This type includes consumables inventories.

Restricted Fund Balance

Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions. This type includes bond proceeds.

Assigned Fund Balance

Assigned fund balance includes amounts constrained by the state’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the Texas Legislature or a body or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. This type includes encumbrances in General Revenue.

Unassigned Fund Balance

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund. This type includes unencumbered amounts in General Revenue.

INTERFUND ACTIVITIES AND BALANCES

The agency has the following types of transactions between funds:

- (1) Transfers: Legally required transfers that are reported when incurred as ‘Transfers In’ by the recipient fund and as ‘Transfers Out’ by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, it is classified as “Current”, repayment for two (or more) years is classified as “Non-Current”.

The composition of the agency’s Interfund activities and balances are presented in Note 12.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid compensable benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulated rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

Asbestos Abatement

Several buildings on our campus were built from the 1910's to the 1970's and have possible asbestos contamination. Our campus is undergoing a complete renovation and reconstruction, and the contaminated buildings have been completely demolished and have been replaced with new buildings. Asbestos abatement is done as part of the demolition. Funding has been provided as part of the TPFA (TX Public Finance Authority) bond package and performed in an acceptable manner by demolition subcontractors hired by the contractor as part of the construction project. Before demolition of the building, asbestos contamination is removed. When the campus is completely renovated, this agency will no longer have any pollution remediation obligations. At this time, \$25,000 in future asbestos abatement is planned.

NOTE 13: CONTINUANCE SUBJECT TO REVIEW

Senate Bill 309 of the 77th Legislature, R. S., removed the Texas School for the Blind and Visually Impaired from the provisions of the Texas Sunset Act by repealing Section 30.026 of the Education Code.

NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET POSITION

as prescribed by the Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies are not applicable to this annual financial report and accordingly are not included.

NOTE 15: CONTINGENCIES AND COMMITMENTS

The agency is a defendant in pending litigation alleging discrimination. The plaintiff is requesting unspecified damages. Although an adverse ruling is possible, in management's opinion, that possibility is remote.

The School has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

SCHEDULE 1A - SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS *continued*

For the Fiscal Year Ended August 31, 2014

Note 1 - NonMonetary Assistance

The Donation of Federal Food Entitlement A & B is passed through from the Texas Department of Agriculture. The federal grantor agency is the U.S. Department of Agriculture and the federal CFDA number is 10.555. The estimated fair value for fiscal year 2014 is \$4,870.19.

(Note: The difference of the values of the commodities recorded on the federal schedule and Exhibit II (Federal Revenues) will be a reconciling item for Note 2).

Note 2 - Reconciliation

Below is a reconciliation of the total of federal pass-through and federal expenditures as reported on the Schedule of Expenditures of Federal Awards to the total of federal revenues and federal grant pass-through revenues as reported in the general purpose financial statements. Generally, federal funds are not earned until expended; therefore, federal revenues equal federal expenditures for the reporting period.

Per Combined Governmental Operating Statement/Statement of Activities
