

# COMMISSION ON STATE EMERGENCY COMMUNICATIONS

THE AUTHORITY ON EMERGENCY COMMUNICATIONS IN TEXAS

333 Guadalupe Street \* Suite 2-212 \* Austin \* Texas 78701-3942

October 30, 2013

Honorable Rick Perry, Governor  
Honorable Susan Combs, Texas Comptroller  
Ursula Parks, Director, Legislative Budget Board  
John Keel, CPA, State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Commission on State Emergency Communications for the year ended August 31, 2013, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Mr. Brian P. Millington, Director of Operations at 512.305.6923.

Sincerely,

Kelli Merriweather  
Executive Director

# Commission on State Emergency Communications

# Commission on State Emergency Communications (477) - Unaudited

## **NOTE 1: Summary Of Significant Accounting Policies**

### **Entity**

The Commission on State Emergency Communications (CSEC) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for State Agencies and Universities*.

The Commission on State Emergency Communications serves the state by:

- Statewide enhanced 9-1-1 emergency telephone service provided by local governments. Funding is provided through the 9-1-1 Service Fee and 9-1-1 Equalization Surcharge. The agency all serves as administrator for the Wireless Service Fee Trust Fund which is collected from wireless telecommunication providers in Texas, and distributed to jurisdictions providing 9-1-1 services in the state.
- Statewide Poison Control Center communication network serving six regional answer centers for responding to poisonings. Funding is provided through the Poison Control Surcharge.

Due to the statewide requirements embedded in GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements of this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

### **Fund Structure**

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

### **Governmental Fund Types & Government-wide Adjustment Fund Types**

#### **General Revenue Funds**

The Equalization Surcharge Fund (Fund 5007) – This fund is established for the administration and implementation of statewide 9-1-1 service and the operations of regional poison control centers. Revenues are obtained from a surcharge on telecommunication local exchange lines and wireless telecommunication connections.

The 9-1-1 Service Fee Fund (Fund 5050) – This fund is established for the administration and implementation of statewide 9-1-1 service. Revenues are obtained from service fees on landline and wireless telecommunications.

## Commission on State Emergency Communications (477) - Unaudited

### **NOTE 1: Summary Of Significant Accounting Policies - Continued**

#### Special Revenue Funds

The Wireless Service Fee Fund (Fund 0875) is a trust fund for collection of service fees from wireless telecommunication service providers. The agency is responsible for administration of the trust fund, which primarily consists of distributions to 9-1-1 Districts and transfers to State Treasury Fund 5050.

#### Capital Assets Adjustment Fund Type

The Capital Assets Adjustment Fund will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

#### Long Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment fund type will be used to convert governmental fund types' debt from modified accrual to full accrual.

### **Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end.

The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- The unmatured debt service (principal and interest) on general long-term liabilities
- Long-term capital leases
- Long-term claims and judgments
- Full accrual revenues and expenses

### **Budgets and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations area general subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

# Commission on State Emergency Communications (477) - Unaudited

## NOTE 1: Summary Of Significant Accounting Policies - Continued

### **Assets, Liabilities, And Fund Balances/Net Assets**

#### **ASSETS**

##### Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

##### Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental fund types are the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is expensed when the items are consumed.

##### Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets, such as works of art and historical treasures, are not depreciated. Road and highway infrastructure is reported on the modified accrual basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

#### **LIABILITIES**

##### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

##### Employees Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

## Commission on State Emergency Communications (477) - Unaudited

### **NOTE 1: Summary Of Significant Accounting Policies - Continued**

#### **Fund Balance/Net Position**

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

- **Restricted fund balance** includes those resources that have constraints placed on their use through external parties, such as creditors, grantors, contributors, laws or regulations of other governments, or by law through constitutional provisions.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

## Commission on State Emergency Communications (477) - Unaudited

### **NOTE 2: Capital Assets**

Revenue received from the sale of surplus property has been transferred to Unappropriated General Revenue in accordance with HB7, Sec. 20

#### **Changes In Long-Term Liabilities**

The following changes occurred in liabilities during the year ended August 31, 2013:

Governmental Activities	Balance 9-1-12	Additions	Reductions	Balance 8-31-13	Amounts Due Within One Year	Amounts Due Thereafter
Employees Compensable Leave	\$116,736.31	119,629.28	121,320.93	115,044.66	79,430.99	35,613.67
Total Governmental Activities	\$116,736.31	119,629.28	121,320.93	115,044.66	79,430.99	35,613.67

# Commission on State Emergency Communications (477) - Unaudited

## **Employee's Compensable Leave**

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net assets. Both an expense and a liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.
