## Health Professions Council

November 30, 2013

Honorable Rick Perry, Governor  
Honorable Susan Combs, Texas Comptroller  
Ursula Parks, Director, Legislative Budget Board  
John Keel, CPA, State Auditor

Dear Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of the Health Professions Council for the year ended August 31, 2013, in compliance with TEX. GOV'T CODE ANN Section 2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements- and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact John Monk at 512-305-8551.

Sincerely,

A handwritten signature in black ink, appearing to read "Gay Dodson".

Gay Dodson  
Executive Director

HEALTH PROFESSIONS COUNCIL (364)  
NOTES TO THE FINANCIAL STATEMENTS

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. ENTITY**

The Health Professions Council operates under the authority of Chapter II of Title 71, Health-Public, of the Texas Revised Civil Statutes. An Executive Director, appointed by the Board, directs the administration of the Board.

The Health Professions Council is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the State Comptroller of Public Accounts' Reporting Requirements of State Agencies.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No component units have been identified which should have been blended into an appropriate fund.

**B. FUND STRUCTURE**

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

**GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES**

General Revenue Fund

The general revenue fund (fund 0001) is used to account for all financial resources of the state except those required to be accounted for in another fund.

Capital Asset Adjustment Fund Type

Capital Asset Adjustment Fund Type will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment Fund Type will be used to convert governmental fund types' debt from modified accrual to full accrual.

**FIDUCIARY FUND TYPES**

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

HEALTH PROFESSIONS COUNCIL (364)  
NOTES TO THE FINANCIAL STATEMENTS

C. BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. This includes unpaid Employee Compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments. The activity will be recognized in these new fund types.

D. BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

E. ASSETS, LIABILITIES, AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental fund types use the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is

## UNAUDITED

### HEALTH PROFESSIONS COUNCIL (364) NOTES TO THE FINANCIAL STATEMENTS

expensed when the items are consumed.

#### Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost, or if any purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

#### LIABILITIES

##### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

##### Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that became "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

#### FUND BALANCES/NET POSITION

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

##### Fund Balance Components

Fund balances for governmental funds are classified as either nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

Nonspendable fund balance includes amounts not available to be spent because they are either:  
Not in spendable form -OR- Legally or contractually required to be maintained intact.

Restricted fund balance includes those resources that have constraints placed on their use through external parties - such as creditors, grantors, contributors, laws or regulations of other governments - or by law through constitutional provisions or enabling legislation.

Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest

HEALTH PROFESSIONS COUNCIL (364)  
NOTES TO THE FINANCIAL STATEMENTS

level decision making authority.

Assigned fund balance includes amount constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by: The Texas Legislature -OR- A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted Net Position results when constraints placed on net resources use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted Net Position consists of net resources, which do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources, which are imposed by management, but can be removed or modified.

F. INTERFUND TRANSACTIONS AND BALANCES

The agency has the following types of transactions among funds:

- 1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.
- 2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.
- 3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current."
- 4) Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of the agency's Interfund receivables and payables at August 31, 2013, if any, is presented in Note 12.

# USAS and Interagency Activity Certification Form – State Agencies

Agency No. 364

Agency Name Health Professions Council

All agencies are required to sign and submit this form to the Comptroller of Public Accounts, Financial Reporting section on or before Nov. 20, 2013. The form may be submitted via hard copy, email or fax. For the agencies that are reconciled, their data may be extracted for the *Comprehensive Annual Financial Report (CAFR)*.

This form is required for all agencies regardless of whether they are a simplified reporting or a full reporting agency. The interagency transactions are extracted from USAS for all agencies. Please check the items that are applicable for each type of transaction.

Agencies are required to ensure and certify that their financial data correctly reflects their financial position as recorded in USAS and, if applicable, any internal accounting system, as of Aug. 31, 20CY. For more information regarding the required levels of USAS reconciliation, see the Required Year-End Review and/or Reconciliation of Financial Data and Balances in USAS.

Please complete this interactive form, print it out, sign and date the last page and submit to your financial reporting analyst.

## I. USAS Reconciliation

Check the appropriate statement, either section 1 or 2:

- 1  I certify that for the above agency, the fiscal 2013 financial data contained in the Uniform Statewide Accounting System (USAS) and our internal accounting system, if applicable, were adjusted and the balances accurately reflect the agency's fund financial and/or government-wide financial position.

I also certify that our USAS balances conform to the following:

- System clearing GL 9999 and basis conversion system clearing GL 9992 accounts equal zero at the D23 fund level.
- All balance sheet line items reconcile at the GL account level.
- Fund balance/net position is allocated to the respective GL accounts (2XXX series) and agree with the related GL accounts.
- All operating statement items reconcile to the GAAP source/object level. The correct comptroller object codes were used to ensure accurate D08 government-wide roll-ups.
- D23 funds that roll-up to fund type 09 (GAAP agency funds) have operating statement activity that nets to zero at the GAAP source/object level in USAS.
- Legislative appropriations asset balance (GL 9000) agrees with the balance as calculated on the GR reconciliation.
- Legislative appropriations revenues agree with the balances as calculated on the GR reconciliation.
- Ending fund balance/net position is the same on the operating statement and the balance sheet.
- There are not any "Back Out NA" on the operating statement.
- The USAS IT file is cleared of all AFR USAS batches.

—OR—

- 2 \_\_\_\_\_ This reconciliation was not completed; therefore, I understand the agency is not in compliance with the Comptroller's reporting requirements and may be referred to the State Auditor's Office.

## II. Interagency Balances

Check the appropriate statement, either section 1 or 2:

- 1  I certify that for the above agency, the fiscal 2013 interagency and Interfund balances were coordinated and are posted accurately in USAS.

The DAFR8910 Interfund/Interagency Activity or the FMQuery-SIRS Interagency/Interfund report was run and the following items were verified. From the drop down menu, select "Yes," "No" or "N/A" as appropriate.

	Due From/ Due To	Federal Pass- Throughs	State Pass- Throughs	Transfers
Interagency item amount is posted accurately in USAS				
All "NP" items were eliminated ("NP" items occur if the AGL [Agency General Ledger] information is blank)				
AGL information is correct (the AGL consists of the opposite agency number, D23 fund and 0)
