Texas Council on Alzheimer's Disease and Related Disorders - Agency 016

Notes to the Financial Statements

For the Fiscal Year Ended August 31, 2012

(Unaudited)

Note 1: Summary of Significant Accounting Policies

Entity

The Texas Council on Alzheimer's Disease and Related Disorders ("The Council) is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

The Council consists of seventeen members including five public citizens, seven professional members with expertise in Alzheimer's disease and related disorders and five representatives from the Texas Department of State Health Services ("DSHS") and the Texas Department of Aging and Disability Services. Excluding the agency representatives, the governor, lieutenant governor and speaker of the Texas House of Representatives each appoint four members.

The Council is authorized by Chapter 101 of the *Texas Health and Safety Code*. The Council serves the state by (1) advising the Texas Board of Health and recommending needed action for the benefit of victims of Alzheimer's disease and related disorders and for their caregivers; (2) coordinating public and private family support networking systems for primary family caregivers; (3) disseminating information on services and related activities for victims of Alzheimer's disease and related disorders to the medical and health care community, the academic community, primary family caregivers, advocacy associations, and the public; (4) coordinating a volunteer assistance program primarily for in-home and respite care services; (5) encouraging research to benefit victims of Alzheimer's disease and related disorders; (6) recommending to the Texas Board of Health disbursement of grants and funds available for the council; (7) facilitation and coordination of state agency services and activities relating to victims of Alzheimer's disease and related disorders; and, (8) to establish a consortium of Alzheimer's disease centers pursuant to Chapter 154 of the *Texas Education Code* ("the Consortium").

The Council has no blended or discretely presented component units. The Council does not have paid staff and has contracted with The University of Texas System ("U. T. System") to act as its fiscal agent. The Council receives administrative support services from DSHS which are provided without charge.

Due to the statewide requirements embedded in Governmental Accounting Standards Board ("GASB") Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the state of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Type

General Revenue Fund – The General Revenue Fund is used to account for all financial resources of the Council except those required to be accounted for in another fund. The Council has no financial resources accounted for in other funds.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Assets, Liabilities and Fund Balances

Assets

Cash and Cash Equivalents – Short-term highly liquid investments with maturities of three months or less when purchased are generally considered cash and cash equivalents.

Other Receivables – The liquid assets of the Council are held by U. T. System as fiscal agent for the Council and are considered to be an Other Receivable. The U. T. System accounts for the activities as an Agency Fund and the balances of the Council are reflected as a liability on the balance sheet of U. T. System.

Liabilities

Accounts Payable – Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables – Other Payables includes amounts to be returned to the Texas Higher Education Coordinating Board ("THECB") for contractual amounts not expended by the end of the award period.

Fund Balance

Fund Balance is the difference between fund assets and liabilities on the governmental fund statements.

Reservations of Fund Balance - Fund balances for the governmental fund are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Reserved for Encumbrances - This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

Unreserved/Undesignated - This represents the unappropriated balance at year-end.

Undesignated – Undesignated balances consist of funds that do not meet the definition of the two preceding categories. Undesignated fund balances often have constraints on resources, which are imposed by management but can be removed or modified.
