CAPCOG Overview

The Capital Area Council of Governments (CAPCOG), a Regional Planning Commission organized under Chapter 391, Local Government Code, is a voluntary association of counties, cities and special districts.

Our primary focus is to serve as advocate, planner and coordinator of initiatives that, when undertaken on a regional basis, can be more effective and efficient.

CAPCOG was organized in 1970 to serve local governments in its ten-county region, known as State Planning Region 12. CAPCOG is commonly referred to as a Council of Governments (COG). A COG is defined by law as political subdivision of the state, but has no regulatory power or the authority possessed by cities, counties, or other local governments.

CAPCOG full membership currently consists of 10 counties and 60 municipalities. Associate members represent school districts, special purpose governmental districts and conservation organizations.

Vision Statement

CAPCOG's vision is to exemplify the spirit of regional cooperation by transcending boundaries, developing partnerships, maximizing resources, eliminating duplication, and addressing common challenges.

Mission Statement

Serve the Capital Area as a regional advocate, planner, coordinator, and service provider.

<u>Goals</u>

- 1. To lead in the promotion of regionalism;
- 2. To build partnerships for the economic, environmental, and social development of the region;
- 3. To identify needs within the region and provide access to resources; and
- To provide exceptional service.

Budget Resolution

RESOLUTION

A RESOLUTION ADOPTING THE ANNUAL BUDGET OF THE CAPITAL AREA COUNCIL OF GOVERNMENTS FOR FISCAL YEAR 2010-2011

WHEREAS, the Executive Director has prepared the annual budget for the fiscal year October 1, 2010, to September 30, 2011, providing for total expenditures of \$20,802,961, and,

WHEREAS, the proposed budget has been prepared in accordance with the bylaws of the Capital Area Council of Governments, and,

WHEREAS, the Capital Area Council of Governments has adopted a Salary Plan, Travel Policy, and Procurement Policy in compliance with State law, and,

WHEREAS, the State Auditor has reviewed and approved the application of the State of Texas Salary Plan by the Capital Area Council of Governments, and,

WHEREAS, the specific grant proposals have been submitted to the State and Federal agencies outlined in the budget in conformance with the requirements of those agencies, and,

WHEREAS, the proposed budget has been prepared using a cost allocation plan in accordance with OMB Circular A-87 and the Uniform Grant Management Standards (UGMS) as previously approved by Capital Area Council of Governments' cognizant agency, the U.S. Department of Commerce and state coordinating agency, the Texas Department of Transportation, and in conformance with applicable laws and regulations of the State of Texas, and,

WHEREAS, the proposed budget has been reviewed and recommended for approval by the Budget and Audit subcommittee and the Executive Committee,

THEREFORE, BE IT RESOLVED, that the General Assembly of the Capital Area Council of Governments hereby adopts the FY 2010-2011 budget, and authorizes the Executive Director to perform all duties necessary to implement this budget.

Resolution adopted by the Capital Area Council of Governments General Assembly on this 11th day of August, 2010.

Caroline Murphy, Chair

Executive Committee

Capital Area Council of Governments

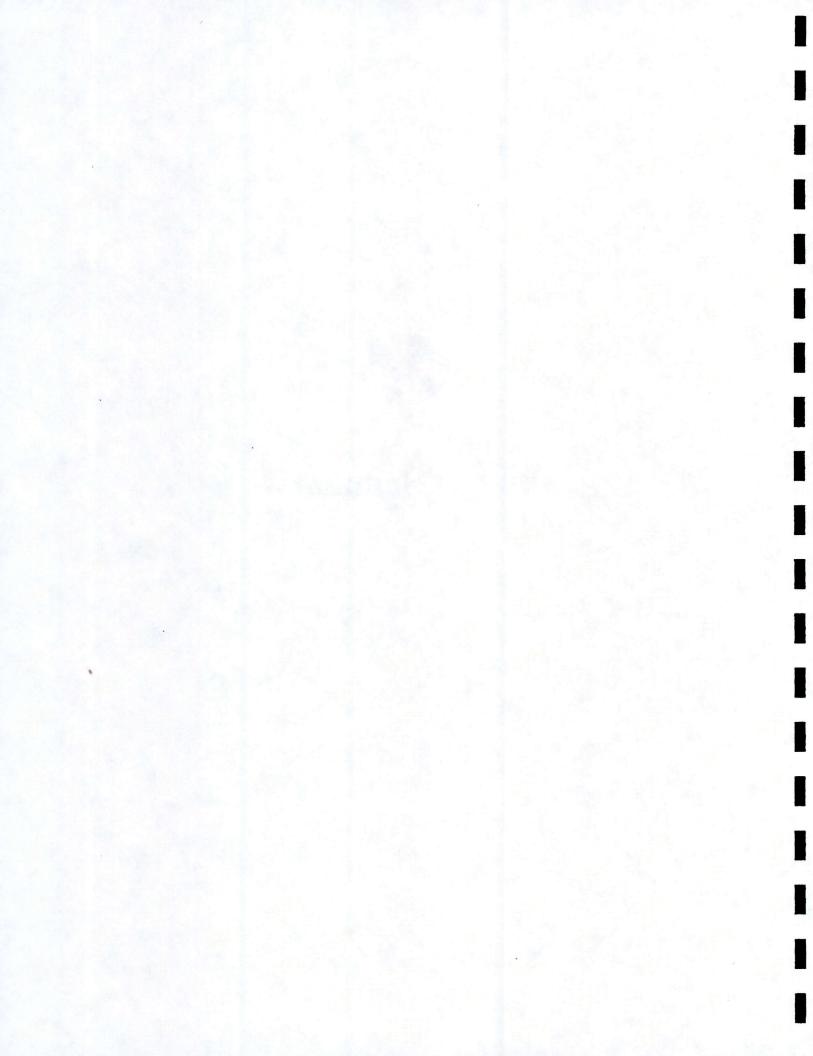

Alan McGraw, Secretary

Executive Committee

Capital Area Council of Governments

Indirect costs are not to be considered Administrative or Overhead Costs. It is an accounting method used when costs are: (a) incurred for a common joint purpose benefiting more than one cost objective; and (b) not readily assignable to the cost objective specifically benefited, without effort disproportionate to the results achieved. This method is outlined in OMB Circular A-87 as an allowable method of cost distribution. The modified direct method is used. This method uses all direct operating expenses and the first \$10,000 of any contracts/sub-grants as the basis for allocation of indirect costs. Separate costs pools have been established for Accounting, Personnel/Payroll, Computer Support, Data Services and Geographic Information Systems (GIS) and are allocated as direct costs to program areas based on allocation methods included in the approved Cost Allocation Plan.

AREA AGENCY ON AGING

Program Description

Administration/Contract Management

The Area Agency on Aging of the Capital Area (AAACAP) provides quality services to support and advocate for the health, safety, and well-being of the older individual in the Region. AAACAP provides services designed to promote independence for those persons 60 years of age and older and their caregivers with a primary focus on frail, rural and low-income minority individuals. The program is authorized through the Older Americans Act of 1965, as amended (OAA), and supported by the Texas Department of Aging and Disability Services.

Primary funding to support service delivery is made through Title III of the OAA. Additional funding is provided through State General Revenue, grants, local governments, foundations and client contributions.

In addition to its role as planner and contractor, the agency is also an active participant in service delivery. It provides, through its Access and Assistance program, Benefits Counseling, Nursing and Assisted Living Facilities Ombudsman services, Care Coordination and Information, Referral and Assistance services. The area agency also provides services under the National Family Caregiver Support Program and is actively involved in Health Promotion for older adults.

Benefits Counseling

This program includes the provision of supportive services that assist older adults in accessing benefits to which they may be entitled. Activities range from the provision of simple information and assistance with problems related to Medicare, Social Security, Medicaid, pensions and other benefits, to more indepth assistance with enrollment processes and appeals for denial of benefits.

Ombudsman Program

This program consists of paid regional Ombudsman staff and a cadre of specially trained and certified volunteers who advocate for quality care in Texas nursing and assisted living facilities. Ombudsmen provide information to residents and families about their individual rights, help identify additional resources in or out of the nursing facility, and assist in the resolution of complaints by or on behalf of residents.

Care Coordination

Care Coordination is a process that links older adults with services and supports in the community-based care system. Its purpose is to make the system work more effectively and efficiently in order to assure individuals receive assistance that is responsive to their needs using all available funding sources and monitoring the quality of the care provided throughout the service provision period.

Information, Referral and Assistance (IR&A)

IR&A is the doorway into the aging network and the service delivery system itself. The intent is to provide information, guidance, direction and linkage for older persons or their family and caregivers to appropriate and available service resources within their communities. The Information, Referral and Assistance Specialist acts as a navigator for inquirers, and advocate on behalf of the older individual with agencies when the need is indicated.

Caregiver Support Program

Families are the foundation for the provision of long-term services and support for older persons in the United States. The AAACAP implemented the National Family Caregiver Support Program for the CAPCOG region by offering programs and services which target family caregivers of adults 60 years of age and older, and for older individuals, age 55 years or older, who are a relative caregiver of a child, no older than 18 years of age or who is an individual with a disability. The program will provide caregivers with information about resources; education and training; assistance to access services; respite care; and other services on a limited basis.

Health Promotion

Health promotion is the process of enabling people to increase control over their health and its determinants, thereby improving their health. According to the Center for Disease Control (CDC), among older adults, falls are the leading cause of injury deaths. They are also the most common cause of nonfatal injuries and hospital admissions for trauma. The AAACAP, in partnership with the Texas Association of Area Agencies on Aging, provides falls prevention awareness and training in an attempt to have a positive impact on the health, and ultimately the level of independence, of community-dwelling older adults.

Additional Services

Through contracts, vendor agreements and the use of vouchers, the AAACAP provides, within the limits of its funding, the following services and supports:

- Congregate and home delivered meals;
- Senior centers;
- Transportation;
- In-home services such as homemaker, chore maintenance, and personal care; and
- Limited financial assistance with dental and vision care, and hearing aids.

Work Plan

Projects/Initiatives that are in planning and development phase:

• Community Stress-Busting for Family Caregivers. The University of Texas Health Science Center – San Antonio submitted a two-year grant proposal to the Administration on Aging to adapt the evidence-informed Stress-Busting Program (SPB) to a community-based lay leader model. The proposal is made in collaboration with the WellMed Charitable Foundation, local Area Agencies on Aging in the Central /South Texas area, including the Area Agency on Aging of the Capital Area, and the South Texas Veterans Health Care System. The goal of the Community Stress – Busting Program (CSBP) for Family Caregivers is to use community-based settings to reach out to large numbers of caregivers to help them cope more effectively with stress related to caregiving. If the grant is awarded, the AAACAP will participate in identifying possible class sites and program partners, coordinating training classes, and recruiting volunteer lay leaders and caregivers to participate in the program.

Projects/Initiatives that are ready for, or in, implementation phase:

 Capital Area Lifespan Respite Care Program. There are an estimated 180,307 caregiving households in the Austin-Round Rock MSA, and while estimates for the smaller, and largely rural counties in the region are unavailable, we can assume that each has a proportionally significant caregiver population. In July 2010 the Texas Department of Aging and Disability Services awarded CAPCOG/AAACAP one of three available grants for Lifespan Respite Care. This program will strive to reach caregivers in rural and urbanized areas of the region to educate caregivers about respite care, expand the number of respite providers, and actually provide respite services.

Projected Productivity and Performance

GOAL: To connect seniors and their families with information and services to maintain or improve quality of life.

Objective: To link older persons and their families or caregivers to useful information that assists them in accessing services and benefits.

Strategy: Link older persons and their families or caregivers through the Information, Referral, and Assistance Program.

Outcome: Percent of individuals surveyed find the information provided through the Information, Referral and Assistance Program or agency website as useful. (90%)

GOAL: To ensure the preservation of the rights of older persons residing in long-term care facilities.

Objective: Provide a presence in long-term care facilities throughout the region to educate residents and advocate for their rights.

Strategy: Maintain the Ombudsman Program in nursing home facilities throughout the region.

Outcome: Percent of individuals surveyed describes the assistance and advocacy received through the Ombudsman program as helpful. (90%)

Output: Percent of complaints resolved and partially resolved by Ombudsman program staff. (85%)

Output: Number of assisted living facilities visited. (60)

GOAL: To ensure provision of services to the maximum number of elderly persons with the funds available.

Objective: To assist the elderly with available government benefit programs.

Strategy: Provide benefits counseling to the elderly.

Outcome: Percent of individuals served describe the assistance received as helpful. (90%)

Output: Number of people receiving benefits counseling. (720)

Objective: To assist with care coordination for the elderly and/or their caregivers.

Strategy: Provide Care Coordination to the elderly and/or their caregivers.

Outcome: Percent of individuals served describe the assistance received as helpful. (90%)

Output: Number of persons receiving care coordination. (540)

Objective: To provide nutrition services to the elderly.

Strategy: Provide congregate meals to the elderly.

Output: Number of congregate meals served funded by DADS. (92,819)

Strategy: Provide home-delivered meals to the elderly.

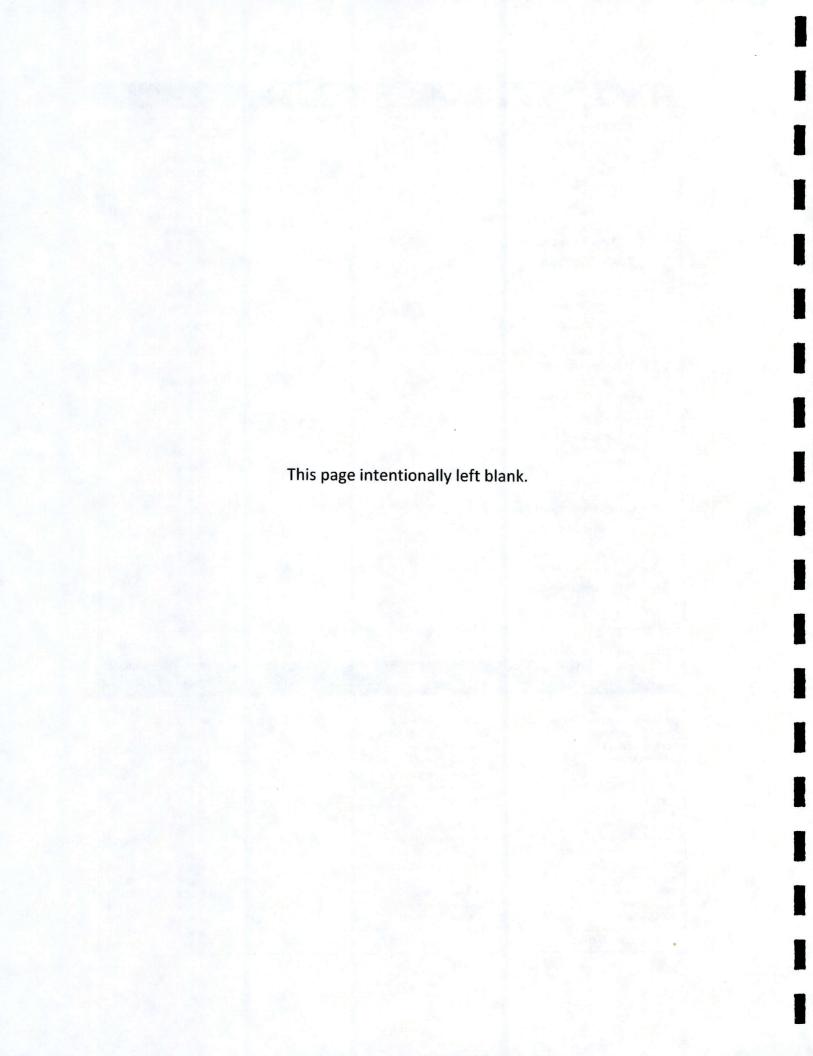

Output: Number of home delivered meals served funded by DADS. (226,416)

Community and Economic Development

Census Information Center/Community Data

Economic Development

COMMUNITY & ECONOMIC DEVELOPMENT

Program Description

The Community and Economic Development division advocates for economic development policy and practices that recognize the region's growth trends, demographics, economic strengths, and a balanced approach to public sector financial support in return for quantifiable benefit to the communities and region.

Data Services

CAPCOG collects and distributes demographic, economic, and other data in support of planning and related activities in the region and in support of programs at CAPCOG. The division's activities use limited grant funds and local funds to support data-related activities and requests for information and analysis as required by our communities.

In addition, CAPCOG is designated as a Census Information Center under an agreement with the U.S. Census Bureau. The goal of the program is to ensure that all communities have access to census information and data products for planning, grant writing, and other needs.

Economic Development

CAPCOG is an EDA-designated Economic Development District and provides planning, technical assistance, market studies, economic data analyses, and training to support regional and local economic development initiatives. CAPCOG through the Capital Area Economic Development District develops the Comprehensive Economic Development Strategy (CEDS), a five-year plan for the region.

Work Plan

Data Services and Census Information Center

- Provide Census and related demographic data and information upon request to member governments and other organizations within the Capital Area.
- Assess data sources and evaluation tools to determine resources necessary to provide the best information possible to local governments and regional organizations to support economic development policy.

Economic Development

- Engage the public and private sector in support of economic development planning and policy, including activities such as public presentations, media stories, and the Data Points blog.
- Provide to CAPCOG members technical assistance in the form of collecting, analyzing, and presenting data for economic and workforce development purposes and by providing training and capacity building.
- Promote initiatives of the 2010-2015 Comprehensive Economic Development Strategy.
- Support the development of "smart grid" demonstration projects to allow identification of emerging economic development opportunities for the Capital Area.

Projected Productivity and Performance

GOAL: To be the leading source for information on community and economic development in

the Capital Area.

Strategy:

Improve and promote the CAPCOG Information Clearinghouse.

Outcome:

New data sets and features available.

Output:

General data requests including online

Strategy:

Conduct outreach through media, business organizations, and local governments.

Output:

Articles, presentations and media stories citing CAPCOG data, analysis, and commentary

(50)

Strategy:

Promote data services to CAPCOG membership.

Output:

Completed technical assistance requests (150)

GOAL:

To make the Capital Area a model of effective regional collaboration on community

and economic development issues.

Strategy:

Serve as a regional forum for elected officials and other stakeholders.

Output:

Convene and support four meetings of Capital Area Economic Development District

(CAEDD).

Strategy:

Publish studies, reports, and other documents that encourage regional collaboration.

Output:

Continue with support for initiatives identified in the 2010-2015 Comprehensive

Economic Development Strategy.

Strategy:

Provide technical assistance to communities to support effective planning for economic

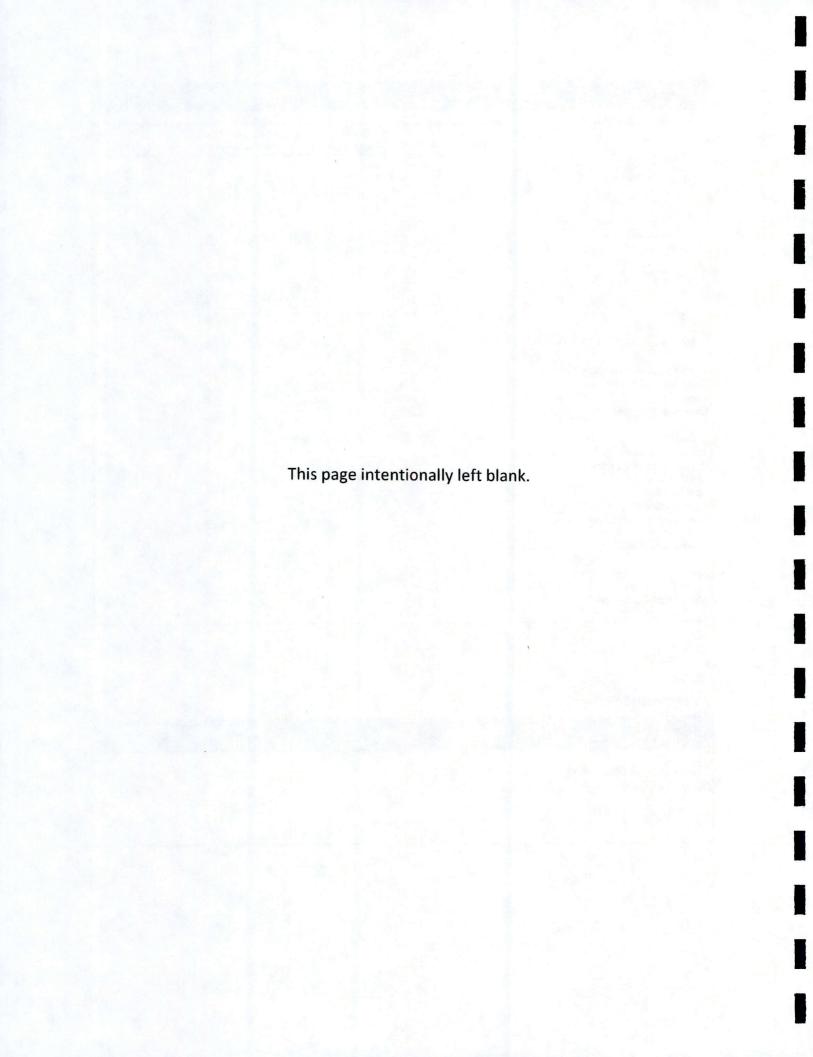

development initiatives with regional impact.

Emergency Communications

EMERGENCY COMMUNICATIONS

Program Description

The Capital Area Council of Governments is charged by law with the responsibility to oversee the provision of 9-1-1 emergency services within its region. The Emergency Communications Division provides that oversight through planning, development, technical support, implementation, training and public education assistance to public safety agencies throughout the 10-county region; thus enabling those agencies to deliver high quality 9-1-1 service to citizens. The Division also works with local telephone companies, Voice over Internet Providers (VoIP), County 9-1-1 Addressing Coordinators, and others in the region to ensure that each 9-1-1 call reaches the correct Public Safety Answering Point (PSAP) with accurate location and telephone number information.

The Emergency Communications Division also:

- Develops and monitors a five-year Strategic Plan, with input from city and county representatives, which is approved bi-annually by the Commission on State Emergency Communications;
- 2) Conducts performance reviews to insure 9-1-1 operation standards are achieved throughout the region;
- 3) Operates a fully equipped training facility used to instruct call-takers on the use of 9-1-1 equipment and other related topics such as stress management, handling difficult callers, or Emergency Medical Dispatching. This facility also serves as a back-up PSAP for local governments within the region should their primary center become unusable for any reason; and
- 4) Provides educational material, designed and developed to enhance the understanding of the 9-1-1 program and the proper use of the 9-1-1 system, to PSAPs and other public safety agencies for use throughout the region.

Work Plan

- Ensure regional mapping services maintain a high degree of accuracy to support 9-1-1 caller location mapping and the transition to Next Generation 9-1-1 systems.
- Deal with evolving technical advances in wireless and Voice over Internet Protocol (VoIP) services to minimize potential impact on 9-1-1 services.
- Maintain the Quality Assurance program to measure and assist agencies in meeting all aspects of 9-1-1 call delivery based on state guidelines.
- Continue to work with service and equipment providers to test and implement solutions for all CAPCOG PSAPs to migrate/transition to Next Generation 9-1-1 services based on the proposed NENA i3 standard.
- Provide a broad training program to best meet the needs of supported agencies within the region.

Projected Productivity and Performance

GOAL: Plan and implement state-of-the-art emergency communications systems.

Objective: Provide technical assistance, equipment, and training to support fiscally responsible, high-

quality 9-1-1 emergency communications throughout the region.

Strategy: Move toward implementation of a Next Generation 9-1-1 (NG9-1-1) system based on the

proposed NENA i3 standard.

Outcome: 9-1-1 data accompanies 100% of calls transferred via the NG9-1-1 network.

Output: Complete NG9-1-1 demonstration tests at/between selected PSAPs within our region.

Objective: Provide appropriate 9-1-1 training opportunities to PSAP staff within the region.

Strategy: Conduct a broad range of training classes throughout the year.

Outcome: PSAP staff properly trained in use of 9-1-1 equipment and call processing procedures.

Output: Number of persons completing training (1,027).

Objective: Ensure the successful delivery of 9-1-1 calls to each PSAP.

Strategy: Test all Classes of Service (COS) and networks.

Outcome: 9-1-1 calls route and plot properly according to COS.

Output: Ninety-nine percent of network and COS tests route properly (99%).

Objective: Confirm 9-1-1 service within the region is administered in compliance with established

CSEC rules and guidelines.

Strategy: Conduct regular monitoring of PSAPs and Database Offices throughout the region.

Outcome: Overall CSEC Final Risk Assessment rating is "MODERATE" or "LOW"

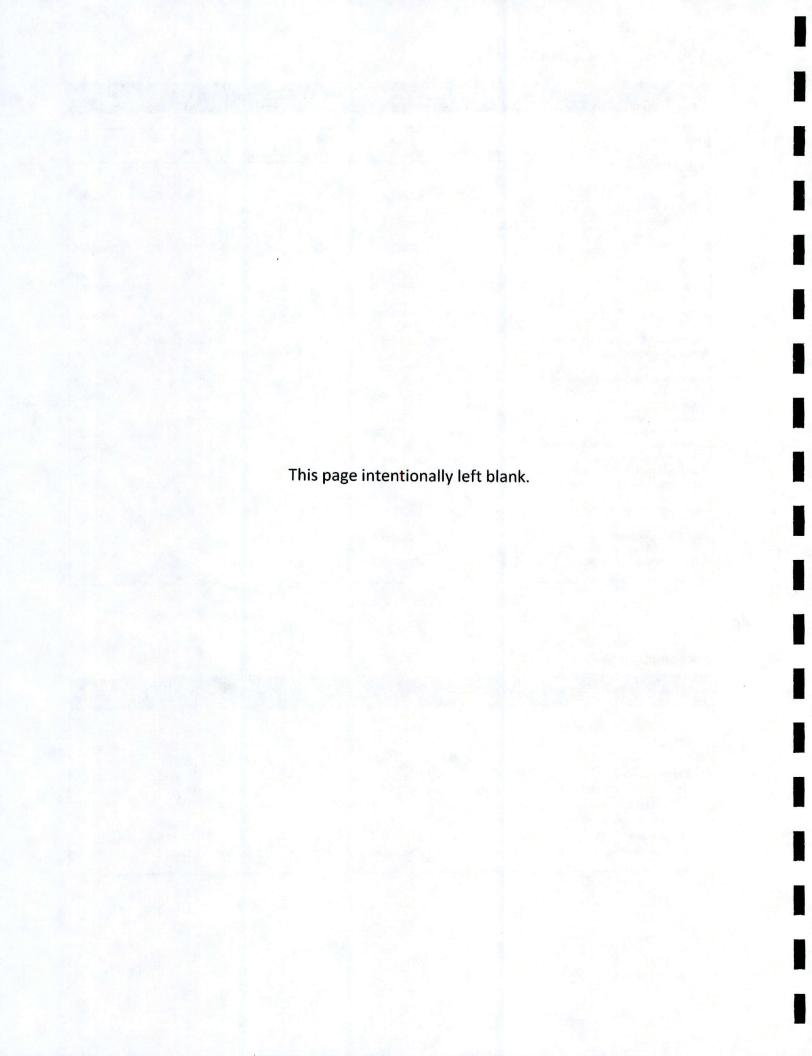

Output: One monitoring visit is conducted for each of the 33 PSAPs within the region (33 visits).

Homeland Security

HOMELAND SECURITY

Program Description

The Homeland Security Division focuses on issues related to equipment, training, and innovative programs centered on improving preparedness and regional response. The division works closely with the Homeland Security Task Force, created in 2002 as a region-wide advisory group, to facilitate regional planning and consensus problem solving for issues related to homeland security, terrorism, disaster planning, and regional response.

CAPCOG receives several grants from federal agencies for terrorism and all hazard preparedness planning. Grant activities include:

- 1) assisting local jurisdictions in writing emergency management plans;
- 2) promoting regional mutual aid;
- facilitating stakeholder discussions to determine allocation of regional homeland security funds and regional preparedness planning;
- 4) implementing the National Incident Management System;
- 5) local planning for communications interoperability; and
- 6) citizen/community preparedness through local volunteer coordination.

Work Plan

- Revise and update Regional Communications Interoperability Plan and develop a strategy for enhancing interoperability capacity across the region in accordance with the Texas State Communications Interoperability Plan (SCIP).
- Facilitate the regional administration of the Communications Assets Survey and Mapping (CASM) tool in accordance with the State of Texas Communications Interoperability Plan (SCIP).
- Continue integration of medical and public health preparedness planning among all ten counties, including increasing coordination and cooperation with the Capital Area Trauma Regional Advisory Council.
- Support citizen/community preparedness activities, including assistance to Citizens Corps programs and facilitating development of educational materials.
- Continue working with communities in updating and submitting the emergency management plans.
- Enhance Regional Response Plan to maximize the coordination and effective use of resources region-wide through mutual aid.
- Administer and maintain the Regional Emergency Notification System and Regional WebEOC Program.
- Facilitate the use of the Regional Emergency Notification System and Regional WebEOC Program, including training of new and existing users and implementing enhancements.
- Ensure plans are in place for accessing and deploying regional response assets.

- Manage the regional homeland security grant program and provide homeland security grant technical assistance to jurisdictions.
- Assist stakeholders in planning and executing exercises and trainings for the region.
- Assist with interpreting state and federal guidance on NIMS compliance and facilitate the delivery of advanced NIMS training courses.
- Assist local governments in identifying Critical Infrastructure and Key Resources and maintaining in a national database for statewide data calls.
- Integrate the Central Texas School Safety Consortium planning with COG planning efforts.
- Provide input to state homeland security working groups and planning activities.

Projected Productivity and Performance

Output:

Output:

Output:

GOAL: Increase response capability in the region for terrorism and other major public safety events.

Objective: Assist fire, EMS, public health and police agencies in obtaining and coordinating equipment and training to facilitate multi-jurisdictional regional response.

Strategy: Promote regional homeland security planning, training and funding opportunities for local governments and public health/safety agencies.

Outcome: Coordination among all disciplines throughout the ten-county region at the city and county level.

Output: Percentage of jurisdictions participating in preparedness and response coordination. (95%)

Output: Review and revise the CAPCOG Regional Response Plan annually.

Follow-up with 80% of cities and counties in the CAPCOG region in order to meet state-mandated emergency preparedness standards at the Intermediate level (80%).

Output: Follow-up with 80% of cities and counties in the CAPCOG region through NIMSCAST to meet federally-mandated standards for compliance with requirements of the National Incident Management System (NIMS) (80%).

Coordinate at least six training opportunities such as NIMS Incident Command position specific courses and discipline specific courses annually (6).

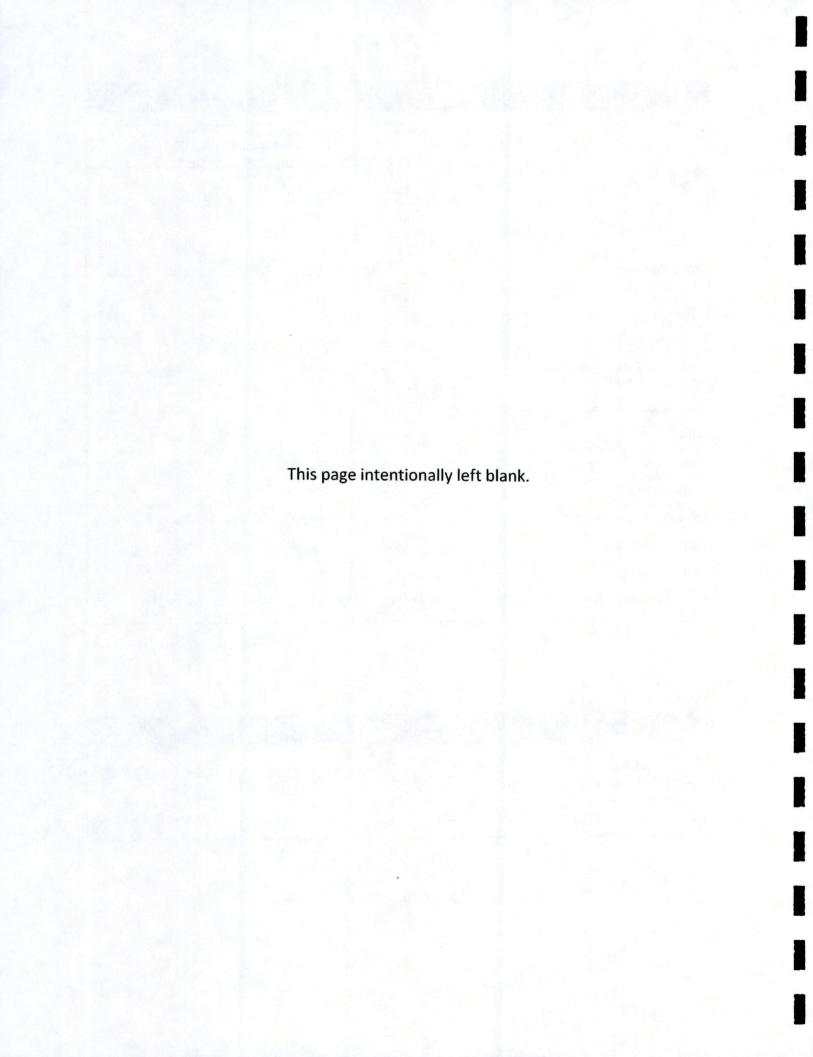

Coordinate at least one regional full-scale exercise annually in the CAPCOG region with 80% of the CBRNE teams participating.

REGIONAL SERVICES

Program Description

Regional Planning and Sustainability

CAPCOG strives to offer a regional perspective to local planning needs. We help communities acquire and maintain data, facilitate regional cooperation to address planning needs. How we use land shapes our neighborhoods, defines our communities, and sets our region apart from others. CAPCOG is working with our member governments to facilitate an informed dialog on land use and its impact on important regional issues as air quality, transportation, solid waste, and social programs.

CAPCOG staff also supports the Capital Area Regional Transportation Planning Organization (CARTPO). CARTPO serves as a forum for elected officials to come together on transportation issues to recommend changes in policy and practice, advocate for legislation, recommend regional priorities, direct certain planning and data initiatives, oversee the federally-prescribed local consultation process, and collaborate with the Capital Area Metropolitan Planning Organization (CAMPO).

Air Quality

CAPCOG's Regional Air Quality Program provides technical assistance and information to area businesses, government entities, and community groups on regional air quality issues, with an emphasis on ground-level ozone pollution. Participation by local governments in community-focused air quality improvement plans, with technical support provided by CAPCOG, has enabled the Central Texas region to maintain compliance with the federal 8-hour ozone standard – despite a significant growth in population. With a new, more stringent standard recently promulgated by the Environmental Protection Agency (EPA), a nonattainment designation for the area is looking more likely. Currently, officials in the 5-county area subject to the designation have agreed to continue supporting a series of proactive programs for achieving early emission reductions. CAPCOG's Air Quality Program staff assess and report on activities and coordinate technical work, documentation and reporting needed to evaluate the status of emission reduction measures.

In addition, CAPCOG receives funding to gain a better understanding of the sources and extent of air quality problems by operating air monitoring stations, estimating and modeling emissions and evaluating emission reduction measures.

GIS Services

Geographic Information Systems (GIS) Services collects, assimilates, distributes, and presents demographic, economic, political, infrastructure, and natural resource data in support of regional and local planning activities. GIS Services provides geospatial support services (e.g., mapping, GIS, and GPS) to other CAPCOG divisions, member governments, and the public. One example is maintenance of the base map that 9-1-1 call takers use to dispatch emergency services. Our 9-1-1 base map includes address points and street centerlines for all ten counties and boasts a 99% success rate in mapping over 1 million landline telephones located in the Capital Area. One of CAPCOG's other services is the Capital Area Geospatial Base Map (GeoMap) Program, a multi-year, cost-sharing initiative to produce and maintain current geospatial base map data for our region.

CAPCOG also works with the Geographic Information Planning Council (GISPC) to encourage data use and exchange within our region. The GISPC maintains an open forum for agencies, organizations and

interested individuals within the Capital Area to promote cost-sharing, provide training, and offer technical support.

Solid Waste

CAPCOG is the state-designated planning agency for solid waste management in Region 12. CAPCOG allocates approximately \$440,000 in state funding annually for local government projects, including source reduction, recycling, local illegal dumping enforcement, solid waste studies, household hazardous waste collections, and public information efforts. CAPCOG also reviews applications for landfill permits and provides technical assistance on solid waste issues to local governments.

Environmental Enforcement

CAPCOG administers the Capital Area Regional Environmental Task Force (RETF), which is a multijurisdictional law enforcement effort of 12 government agencies in Central Texas. RETF was formed to address the problems associated with illegal dumping and other environmental crimes. RETF also provides support with technical expertise, outreach and education, and training in environmental laws.

Criminal Justice Planning

CAPCOG is designated by the Office of the Governor as the agency responsible for regional criminal justice planning in Region 12. CAPCOG provides technical assistance to grant applicants, administers state and federal funds, and assists communities, local governments and nonprofit entities with development of criminal justice, juvenile justice, and victim services programs. CAPCOG works with the Criminal Justice Advisory Committee to review and prioritize grant applications that are submitted for funding consideration to the Office of the Governor.

Local Government Training

CAPCOG has successfully coordinated training events on demand for local governments, such as for newly elected city officials and GIS tools for local planning. FY 2011 will be the first year that CAPCOG will provide a schedule of routine and specialized training events marketed toward local governments, elected officials, staff, and other organizations in the region to build and enhance management capacity.

Work Plan

Regional Planning and Sustainability

- Serve as Administrative Lead Agency for developing County Transportation Plans for our non-MPO counties (i.e. Caldwell and Blanco Counties).
- Coordinate and support the Capital Area Regional Transportation Planning Organization (CARTPO) and its efforts to serve as a regional advocate for transportation related issues.
- Support CAMPO and the Regional Transit Coordination Committee (RTCC) in updating the Regional Transportation Plan for the Capital Area.
- Work with regional agencies, local governments, economic development organizations, and representatives of the development community to assess growth and its impact on the Capital Area.
- Participate in the development of CAMPO's growth concept plan for guiding land use within the five-county MSA.

Air Quality

 Continue collection of ozone concentration and meteorological data through the operation of six supplemental air monitoring stations.

- Perform canister sampling for speciated volatile organic compounds during ozone season.
- Conduct mobile platform-based monitoring of ozone for analysis of regional source impacts and emissions transport.
- Update base-year emissions inventory data to represent the 2008 ozone season.
- Develop new modeling emissions files for use in 2006 photochemical modeling episode.
- Provide an assessment of the causes of high ozone events occurring in the region with an update to the area's conceptual model for 2008, 2009 and 2010 monitoring data.
- Provide for modeling analysis of revised ozone standards on nonattainment designation of region, likelihood of meeting attainment compliance date and what local emission reduction measures may be effective in attaining the new standard.
- Support implementation efforts for emission reduction commitments in the 8-O3 Flex Program, including the regional rideshare initiative, and continue to analyze control strategies for effectiveness as needed to insure air quality improvements are maintained.
- Coordinate meetings and provide technical support for the Central Texas Clean Air Coalition (CAC) and its efforts to serve as a regional advocate for air quality improvement.

GIS Services

- Enhance our enterprise data server architecture for maintaining and distributing data via the Information Clearinghouse.
- Provide geospatial support services (e.g. mapping, location analysis, etc.) for organizations within the Capital Area.
- Draft 9-1-1 Mapping Guidelines that compliment the recently completed 9-1-1 Addressing Guidelines.
- Continue expanding datasets (e.g. tabular and geospatial data) offered on the CAPCOG Information Clearinghouse.

Solid Waste

- Coordinate the Solid Waste Advisory Committee, conduct the FY 2012-2013 solid waste grant request for proposals process, and provide technical assistance to grant recipients.
- Conduct regional outreach, education, and training programs.
- Coordinate review of Municipal Solid Waste permit applications.

Environmental Enforcement

- Coordinate the RETF, including Environmental Law Training classes.
- Provide technical assistance for environmental enforcement, such as monitoring the Illegal Dumping Hotline and referring reports to authorities.
- Coordinate education and outreach events.

Criminal Justice Planning

- Coordinate grant application review and prioritization process, including grant writing workshops, scoring meetings, technical assistance requests, and other duties.
- Facilitate fund-specific CJD-required grant training workshops.
- Develop criteria, compile and publish statistical data for local criminal justice community planning.
- Develop methodology for communities to use in criminal justice community plans.
- Continue work on making CAPCOG web page more user-friendly and useful.

Local Government Training

- Establish training program standards, including standardized processes and single-source training center contact.
- Streamline processes and track the activity for time management and efficiency.
- Use CAPCOG website for generating revenue with an improved training calendar and easy online training registration.
- Create specialized trainings and a Speakers Bureau, in addition to training for Professional Development and program-initiated trainings.

PROJECTED PRODUCTIVITY AND PERFORMANCE

Goal: To promote sustainable growth via regionally coordinated transportation, land use,

solid waste management and air quality planning.

Objective: Local governments coordinating regionally in growth and development issues.

Strategy: Serve as a regional forum for elected officials and community leaders.

Strategy: Staff and administer the CAPCOG committees that serve as a regional forum for elected

officials and professional staff.

Output: Percentage participation by counties in the GISPC, GMUG, CARTPO, RETF and the Clean

Air Coalition.

Objective: Increased awareness of regional approaches.

Strategy: Advocate for economic, environmental, and social regionalism and serve as a catalyst

for a regional dialogue when participating in planning initiatives.

Output: Outreach through committee work, newsletters, reports and activities that support

regional initiatives.

Objective: Encourage participation by public and private stakeholders in air quality and solid waste

management planning activities.

Strategy: Support public outreach to gain maximum involvement of local citizens, public and

private entities in the successful implementation of the 8-O3 Flex emission reduction

measures and development of an ozone nonattainment State Implementation Plan.

Output: Results of the latest monitoring, emissions and modeling data, along with the progress

and problems of emission reduction strategy Implementation.

Output: Provide support for implementation of regional clean air action plan emission reduction

measures as committed to in the State Air Quality Implementation Plan Revision.

Goal: To promote CAPCOG as an objective source for regional data and analysis.

Objective: Provide appropriate data through scientific measurement and assessment to support

regional air quality planning, education and the selection and implementation of

effective emission reduction strategies.

Strategy: Reduce and prevent air pollution by monitoring and assessing air quality, developing

plans to address problems, evaluating emission reduction measures and completing

performance verification of selected control strategies.

Outcome:

Improved air quality for the region.

Output:

Percent of air quality planning grant expended in the year for monitoring, emissions

inventory, modeling and control strategy evaluation projects.

Output:

Ozone air quality monitoring sites operated for the ozone season.

Objective:

Develop the CAPCOG Information Clearinghouse as a resource for regional data and

analysis.

Strategy:

Augment and enhance CAPCOG's geospatial data, tabular data, mapping, and

publications.

Output:

Increased number of data downloads.

Goal:

To maximize the capacity among local governments to plan and implement programs

supporting efficient growth and development.

Objective:

Increase capacity to use tools and resources at the local and regional level.

Strategy:

Provide technical assistance and education.

Outcome:

Inclusive and transparent regional planning processes.

Output:

Conduct three workshops annually.

Output:

Support for regional plans based on a unified strategy, including County Transportation

Plans, the Capital Area Regional Transportation Coordination Plan, and the Central Texas

Greenprint for Growth.

Goal:

To provide effective application of criminal justice resources throughout the region.

Strategy:

Improve program planning through expanded outreach and comprehensive information

gathering and analysis so that funds may be targeted where most needed.

Output:

Number of grant application and technical assistance meetings held in the region (5).

Outcome:

Percent program compliance from Criminal Justice grant recipients (85%).

Goal:

To provide effective application of solid waste management resources in the region.

Strategy:

Provide outreach and education regarding solid waste management strategies and availability of funding resources through the Regional Solid Waste Grant Program.

Output:

Number of grant application workshops, technical assistance meetings and educational

workshops held in the region.

Outcome:

Improved solid waste management infrastructure for the region.

Goal:

Increase effectiveness and efficiency of all CAPCOG-facilitated/coordinated training.

Strategy:

Provide Single Point of Contact coordination for training throughout the Region

Output:

Number of internal and external training events scheduled/implemented.

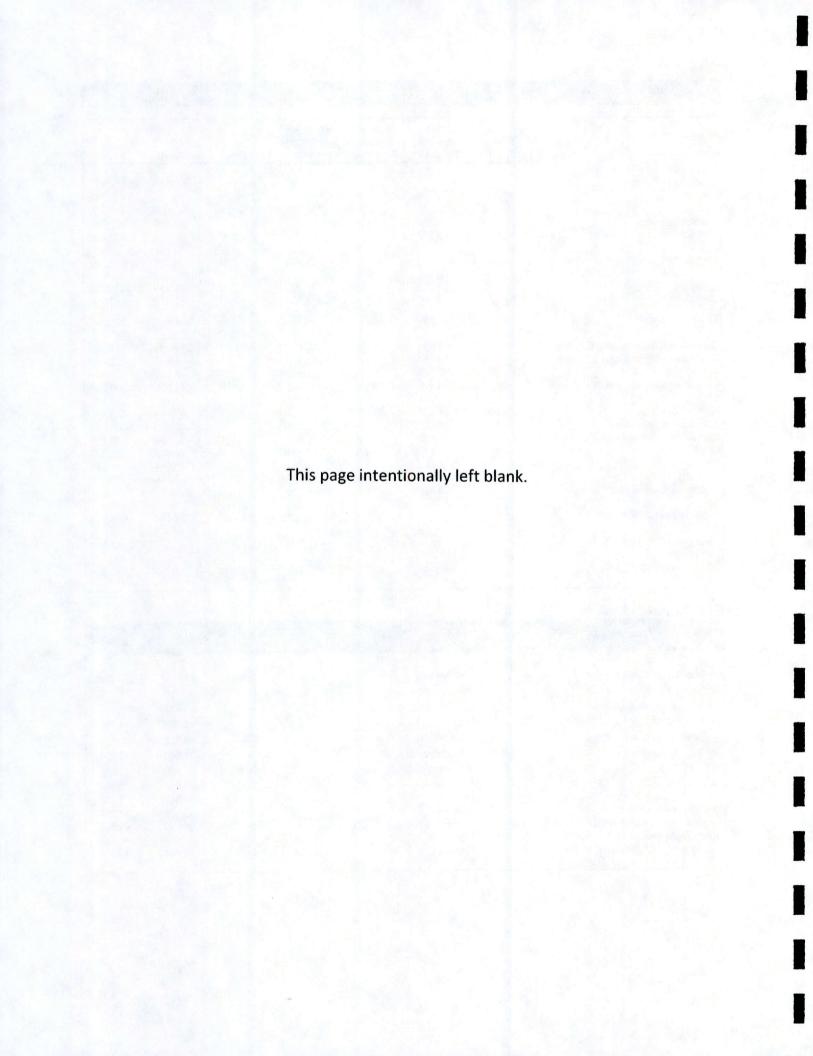

Outcome:

Percent of training events meeting the cost benefit break point (100%)

Regional Training Academy

REGIONAL TRAINING ACADEMY

Program Description

The Regional Training Academy (RTA) was created within the Capital Area Council of Governments (CAPCOG), State Planning Region 12, to establish a centrally-managed method of delivering professional law enforcement training within the ten-county region. For the last 13 years, the RTA has played a critical role in providing training to law enforcement personnel and individuals looking to begin a career in law enforcement.

The Basic Peace Officer's Course (BPOC) is designed to address the region's need for trained law enforcement applicants by providing students with the essential knowledge needed to begin a law enforcement career, and to take the State Peace Officer Licensing Examination. The RTA provides a minimum of three BPOC classes per year; two day classes and one night class.

The Basic County Corrections Course provides training to correctional officers working for sheriff's departments within our region. This state-mandated course prepares correctional officers with the knowledge needed to successfully pass the correctional officer's licensing examination administered by the Texas Commission on Law Enforcement Officer Standards and Education (TCLEOSE). The RTA provides this for counties on an as-needed basis.

The RTA provides in-service training coordination for law enforcement, emergency communications, and homeland security as well. In-service training courses are designed to correspond with all mandated learning objectives set out by TCLEOSE or other certifying agency, as well as address the needs of public safety personnel throughout our region. Regional training needs are assessed through multiple sources, including but not limited to: bi-annual training coordinator meetings, twice annual surveys, the RTA's Law Enforcement Education Committee (LEEC), area chiefs and training coordinators, and the community planning process.

The RTA also provides administrative services for local law enforcement agencies by sponsoring inservice training courses that are taught by their own personnel to members their own department. RTA staff approves the instructor's qualifications and lesson content, provides TCLEOSE credit and maintains all essential record keeping for each course.

Work Plan

- Projects/Initiatives that are in planning and development phase.
 - 1. Develop in-service training schedule to reflect training needs.
 - 2. Schedule Class 58 and 60 (Night Courses) of the Basic Peace Officer Course.
 - 3. Schedule Classes 59 and 61 (Day Courses) of the Basic Peace Officer Course.
 - 4. Evaluate and up-date the Basic Peace Officer Course curriculum.
 - 5. Evaluate and up-date in-service training curriculum.
 - 6. Schedule Law Enforcement Education Committee meetings throughout the year.
 - 7. Evaluate and up-date lesson plans for the Basic County Corrections Course.
 - 8. Provide the Basic County Corrections Course in CAPCOG Region.
- Projects/Initiatives that are ready for or in implementation phase
 - 1. Identify in-service training needs through bi-annual training coordination meetings.
 - Provide in-service training courses.

- 3. Provide legislatively mandated and intermediate law enforcement certification courses within our region.
- 4. Provide Basic Peace Officer Courses for Classes 58, 59, 60 and 61.
- 5. Implement use of force training for agencies throughout the region.
- 6. Provide training in the use of force with the aid of a mobile training unit that delivers situational, judgment, force options and marksmanship.
- Projects/Initiatives to complete or close out during fiscal year 2010.
 - 1. Complete Basic Peace Officer Courses 56 and 57.
 - 2. Provide lesson plan and instructor approval, submit TCLEOSE credit and archive lesson documentation for local law enforcement and non-profit agencies that provide law enforcement training within our region.
 - 3. To organize bi-annual training coordinators' meetings

Projected Productivity and Performance

GOAL: To provide effective law enforcement education and training throughout the Region.

Objective: Provide training to meet the law enforcement agency needs of the region.

Strategy: Provide Basic Peace Officer Courses (BPOC) and Continuing Education based on identified demand of local law enforcement agencies of the region.

Outcome: Percentage passing rate for cadets on the state licensing exam for BPOC courses. (100%)

Output: Number of Basic Peace Officer Courses conducted. (4)

Output: Number of cadets trained. (140)

Output: Number of Basic County Correctional Courses as requested by local Sheriff's Departments within our region. (2)

= sparaments main sail region. (2)

Output: Number of in-service schools provided, including courses necessary to facilitate license

renewal requirements. (75)

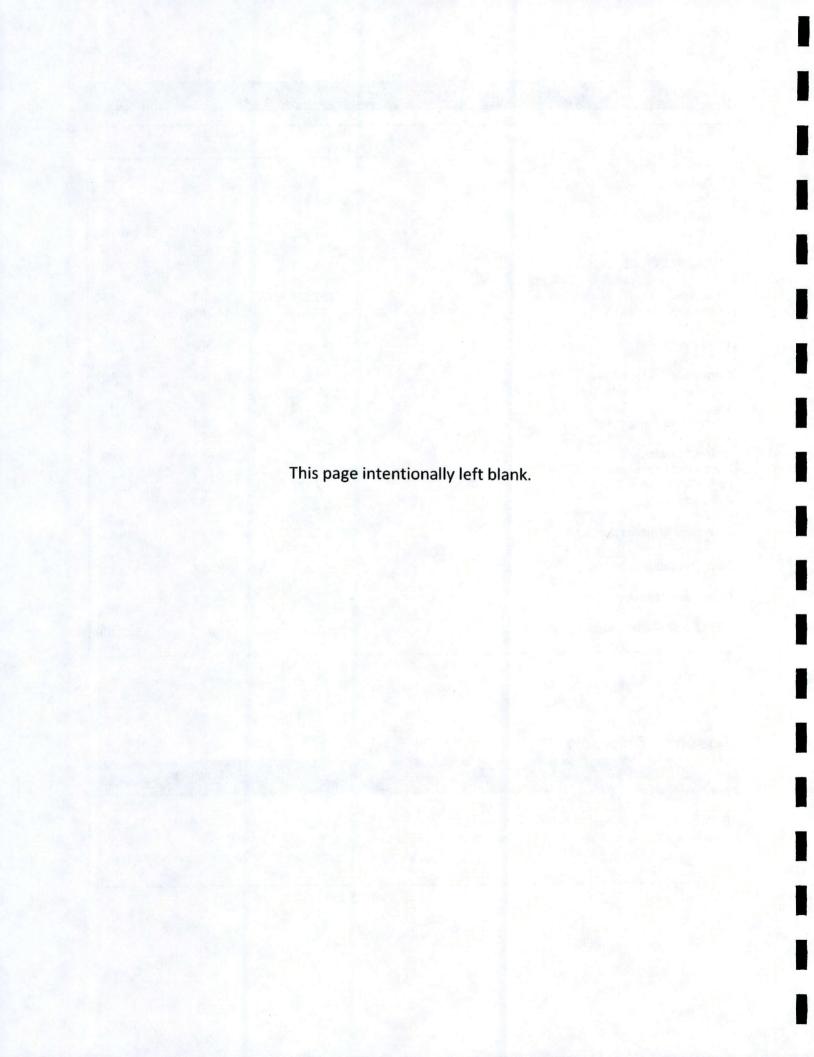

Output: Number of officers/persons trained in-service (1,000)

ADMINISTRATIVE SERVICES

Program Description

Administrative & Financial Services

Administrative Services is responsible for the internal and external services for all CAPCOG program areas including accounting, payroll, budgeting, financial management and reporting, human resources, benefits administration, policies and procedures development, procurement and purchasing, assistance in monitoring and audits, records management, and general oversight of the agency. Administrative Services provides support services as needed to implement programs in accordance with grant and contract agreements.

General Services

General Services is the centralized source of CAPCOG's information distribution system and serves as liaison between the CAPCOG membership and the agency. Services include program and meeting scheduling, database upkeep, advisory subcommittee list and attendance records, publishing of the CAPCOG newsletter, brochures, regional directory, annual report and coordination of outreach activities.

Information Services

Information Services provides computer and network support to all CAPCOG programs and maintains CAPCOG's website. This includes assistance with hardware and software purchases and installation, troubleshooting with assistance from Computer Support staff in each program area, and overall administration/maintenance of the CAPCOG Local Area Network (LAN). Information Services is also available to provide computer technical assistance to CAPCOG local governments on a limited basis.

Work Plan

Administration and Finance

- Review and update agency policies.
- Evaluate procurement procedures.
- Implement software improvements for budgeting detail in monthly reporting.
- Conduct annual inventory.
- Prepare Comprehensive Annual Financial Report (CAFR).
- Provide accurate and timely financial information.
- Maximize financial resources available to program areas.

General Services

- Support Executive Committee meetings and activities, and ensure policy directives are carried out.
- Outreach to regional organizations and member governments.
- Develop media releases for key projects and initiatives.
- Maintain website information pages.

Information Services

- Continue website enhancements.
- Implement on-line database features.
- Enhance remote access capabilities.
- Increase access to on-line resources.
- Upgrade internal network to improve access and reliability.

Projected Productivity and Performance

GOAL: Accurate administration of CAPCOG finances and program reporting in compliance with

all applicable guidelines, rules, and government regulations.

Objective: Provide accurate and timely financial reports and information that comply with

appropriate state and federal requirements as well as general accounting principles.

Strategy: Prepare budgets and issue financial reports to program areas and funding agencies in a

timely manner.

Outcome: Percentage of all financial reports, as required by grant agreements, submitted in a timely

manner.

Output: Preparation of a Single Audit in accordance with state and federal regulations.

Output: Preparation of the annual budget for CAPCOG and individual program areas.

Output: Preparation of accurate financial reports by the 20th of the month for internal review.

Output: Respond to audit and monitoring reports as needed.

GOAL: Ensure CAPCOG implements appropriate administrative and program procedures in

compliance with all applicable guidelines, rules, and government regulations and in the

interest of best practices and efficient management.

Objective: Maintain accurate and effective policies and procedures.

Strategy: Update and/or develop policies and procedures related to administration of the agency's

activities and programs.

Output: Prepare procedures for open records requests.

Output: Complete continuity of business plan documentation.

Output: Develop business plan for training activities.

GOAL: Facilitate access to information on all CAPCOG programs by member governments and

organizations.

Objective: Dissemination of information on CAPCOG programs, services, and activities to ensure

access by member organizations and regional partners.

Strategy: Coordinate and compile information from all CAPCOG departments for timely distribution.

Output: Bi-monthly publication of newsletter in both paper and electronic formats.

Output: Publication of Regional Directory and CAPCOG Annual Report.

Output: Maintenance of Information pages on website.

A-17	\$35,651	\$45,454	\$55,258
A-18	\$38,146	\$49,590	\$61,034
A-19	\$40,816	\$53,061	\$65,306
A-20	\$43,673	\$56,775	\$69,878

Chapter 391 of the Local Government Code requires that the salary schedule adopted by a COG may not exceed the state salary schedule as prescribed by the General Appropriations Act. A COG may adopt a salary schedule that is less than the state salary schedule. To comply with this provison, CAPCOG annually adopts a salary schedule that is the same as the current (or prior year) state salary schedule. It is CAPCOG's intent to remain competitive with the salaries paid to state employees; however, due to the timing of the approval of the state budget, it is not always possible or practical to immediately adopt the latest state salary schedule. The schedules used in the FY 2011 CAPCOG Budget are the same as the State of Texas 2010-11 schedules.

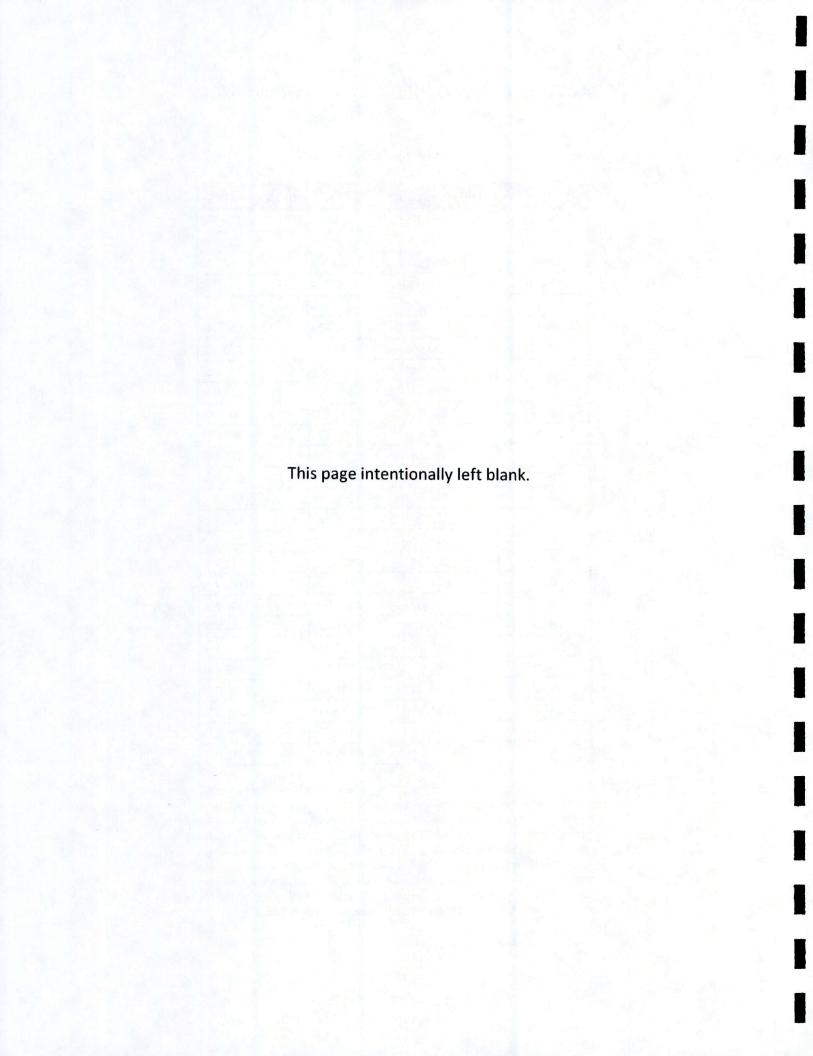

CAPCOG SALARY SCHEDULES FOR FY 2010-2011

Based on the State of Texas Salary Schedules for 2009-2010

SALARY SCHEDULE B

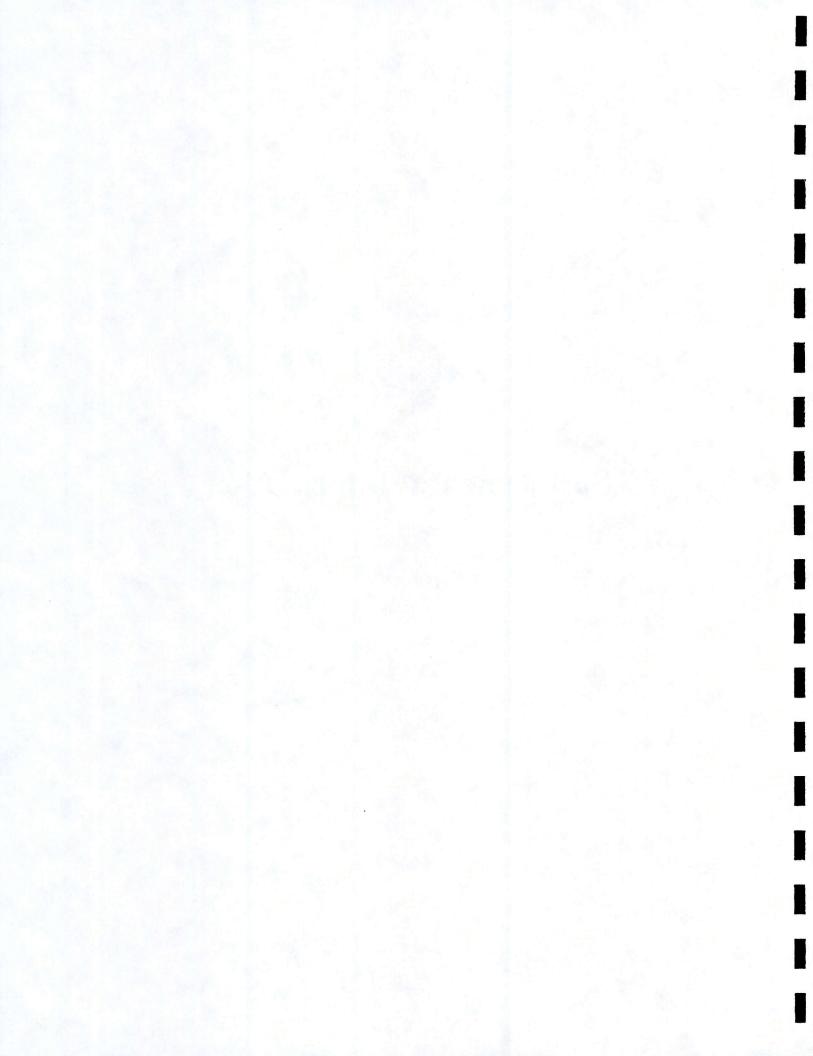

Salary Group	Minimum	Mid Point	Maximum
