

2014 Texas Transit Statistics

Prepared by:

Public Transportation Division

In Cooperation With:

Public transit agencies and local officials throughout the state of Texas

2014 TEXAS TRANSIT STATISTICS

PREPARED BY:

PUBLIC TRANSPORTATION DIVISION
TEXAS DEPARTMENT OF TRANSPORTATION

IN COOPERATION WITH:

Public transit agencies and local officials
throughout the State of Texas.

ACKNOWLEDGEMENTS:

The Texas Department of Transportation wishes to express its appreciation to city and regional officials, as well as transit operators and public transportation coordinators (PTCs), for their cooperation and assistance during the year. Without their help, this report would not be possible.

DISCLAIMER:

The information presented in this report is a tabulation of the data provided by transit systems throughout the State of Texas. Information on public transportation grants was provided by the Federal Transit Administration, U.S. Department of Transportation, and the Texas Department of Transportation. This information has not been audited by Texas Department of Transportation Public Transportation Division.

PREFACE

The information presented in this report is a tabulation of the data provided by transit systems throughout the State of Texas. Information on public transportation grants was provided by the Federal Transit Administration, U.S. Department of Transportation (DOT), and the Texas Department of Transportation (TxDOT). This information has not been audited by the Texas Department of Transportation, Public Transportation Division (TxDOT-PTN).

This 2014 report provides detailed comparisons of annualized fiscal year (FY) 2013 and 2014 data along with the monthly FY 2014 transit statistics.

TxDOT-PTN is engaged in an on-going process of improving the accuracy and consistency of this report by employing validation tools and conducting training to improve the collection, reporting and analysis of the data. PTN continues to employ the service of the Texas A&M Transportation Institute (TTI) to provide technical assistance and training on performance reporting, along with an annual transit report on the data submittals and performance results for the rural and urbanized transit agencies.

FY 2014 is the eighth fiscal year in which the transit agencies used the PTN-128 web-based system to report data to TxDOT PTN. Having these eight years of web-based data has enabled transit agencies, PTN, and TTI to compare annual differences by data category and analyse annual variances.

TxDOT has chosen to retain Federal Transit Administration program numbers and reporting terminology described in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). In July 2012, Congress passed and the President signed into law a new transportation bill, known as Moving Ahead for Progress in the 21st Century, or MAP-21. This bill became effective October 1, 2012. Program authorization was originally set to expire on September 30, 2014, but it has been extended to May 31, 2015.

The Texas Transit Statistics report has been required by statute for several years. However, the statute was recently amended, as noted in the State transportation code:

- "Section 456.008. Commission Report On Public Transportation Providers. (a) Not later than January 1 of each year, the commission by rule shall prepare and issue to the legislature a report on public transportation providers in this state that received state or federal funding during the previous 12-month period."

In other words, the report for transit activities in the period September 1, 2013 through August 31, 2014 (state fiscal year 2014) is due to the legislature on January 1, 2015.

To meet the January 1 deadline, this report includes preliminary data that is subject to change. A complete version will be published in early 2015 to reflect the submitted finalized data.

This page intentionally left blank.

INTRODUCTION

The Texas Department of Transportation's (TxDOT) mission is to work with others to provide safe and reliable transportation solutions for the state of Texas. To support this mission, the Public Transportation Division (PTN) of TxDOT provides financial and technical assistance to public transportation agencies throughout the state.

The *Texas Transit Statistics Report* is published annually by PTN. Its primary purpose is to provide information to public officials, transit agencies and other interested persons. This 2014 report summarizes the key operating and financial characteristics of Texas' publicly-assisted transit agencies.

Every quarter, PTN collects monthly data from individual transit agencies and then compiles it into the annual totals published here. The information contained in this report is based on Federal Transit Administration (FTA) funding categories and the National Transit Database (NTD) reporting system. The operations data for Urbanized (Section 5307), Rural (Section 5311), Enhanced Mobility of Seniors and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (Section 5316), and the New Freedom (Section 5317) programs come from TxDOT's PTN-128 form, a web-based quarterly operations report.

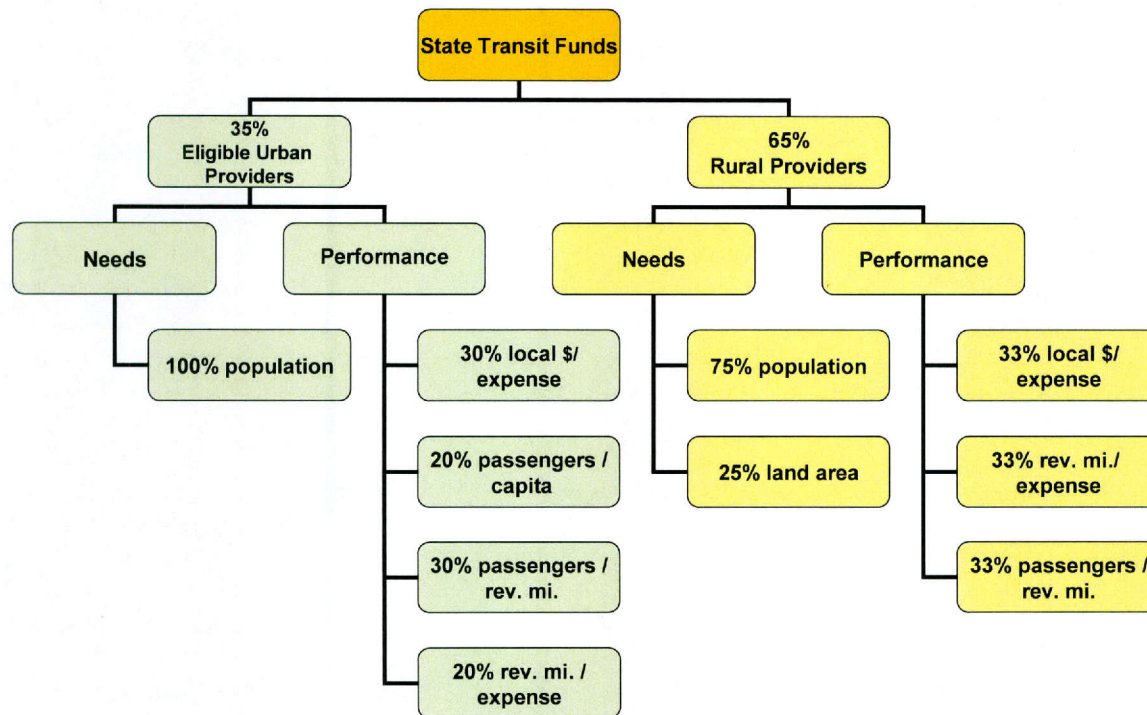

This report shows performance-based measures of efficiency, effectiveness and safety of the transit agencies that receive financial assistance from TxDOT and/or the FTA per the reporting requirements of Texas Transportation Code §456.008 and the Texas Administrative Code (TAC) rule §31.48.

Since June of 2004, the Texas Transportation Commission, known as the "Commission" established formulas to allocate state and federal funds for public transportation. In June of 2006, the Commission amended the formula to better reflect the requirements of Texas Transportation Code, Chapter 461, and other statutes and to mirror the department's goals to reduce congestion, enhance safety, expand economic opportunity, improve air quality, and increase the value of transportation assets. The revised funding formula was developed by TxDOT-PTN with the advice and counsel of the Public Transportation Advisory Committee (PTAC) and the technical assistance of the Texas A&M Transportation Institute (TTI).

The performance-based funding portion of the Texas Public Transportation Funding Formula is based on data submitted by the rural and the urbanized transit agencies. These rural and urbanized transit agencies have performance-based elements in their respective funding formulas that rely on the measures of "needs" and "performance". These measures were first used to allocate funding in state fiscal year 2007 (September 2006 – August 2007).

TxDOT-PTN uses these funding formulas to distribute the federal and state funds to the 38 rural (Section 5311) transit agencies in Texas and allocate state funds to the 30 eligible urbanized (Section 5307) transit agencies. Chart 1 (below) illustrates the State funding performance-based formula for the rural (Section 5311) and the urbanized (Section 5307) transit agencies in Texas.

Chart 1. Texas Public Transportation Funding Formula

The web-based data reporting form (PTN-128) is used by transit agencies to report financial and operating data to the state. This web-based data collection and reporting tool improves data accuracy and reasonableness

This report includes performance data on the following types of transit agencies, based on size or the type of FTA funding received.

- Metropolitan Transportation Authorities (MTAs) provide public transportation in Texas' seven largest urbanized areas. All MTAs serve urbanized areas with a population greater than 200,000. They are organized under specific state laws and granted authority to levy a dedicated sales tax. MTAs are located in Austin, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, and San Antonio. None are eligible to receive state funding through TxDOT. All receive federal funds directly from FTA's Section 5307 formula program.
- Denton County Transportation Authority (DCTA) is listed with the MTAs in this report, due to its similarities to the MTAs; however, it is a Coordinated County Transportation Authority in an urbanized area serving the "collar" counties adjacent to counties with populations of 1,000,000 or more, which includes Denton County. DCTA was successful in obtaining a sales and usage tax in 2004 for the cities of Denton, Highland Village and Lewisville.
- In this report, the term "Urbanized" refers to transit agencies serving a single political subdivision within an urbanized area (50,000 population and above) that do not meet the

state definition of an MTA. All the transit agencies in this group receive state funds through TxDOT and federal Section 5307 funds that come directly from FTA. With the exception of Laredo, none of these agencies are supported by a dedicated sales tax.

- Rural agencies (Section 5311) serve areas which are outside defined urbanized areas. Most serve multiple counties. Section 5311 agencies receive state and federal funds through TxDOT.
- Enhanced Mobility of Seniors and Individuals with Disabilities (Section 5310) Program recipients operate throughout the state in both urbanized and rural areas. Private nonprofit organizations or associations, public bodies that coordinate services for seniors and/or persons with disabilities, or any public body that certifies that nonprofit organizations in the area are not readily available to carry out the services are eligible to receive grants. Only federal funds are given to recipients of these grants.
- The Job Access and Reverse Commute (JARC) (Section 5316) Program provides federal funding for the provision of transportation services designed to increase access to jobs and employment-related activities. Only federal funds are given to recipients of these grants, although state funds awarded through the urbanized or rural programs can be used for match.
- The New Freedom (NF) (Section 5317) Program provides federal funding for the provision of transportation services designed to increase services to individuals with disabilities. Only federal funds are given to recipients of these grants, although state funds awarded through the urbanized or rural programs can be used for match.

The introduction to each program section contains a short narrative of significant changes in the program along with detailed statistics. To meet the legislative requirement to provide an annual report showing monthly activities associated with the Section 5307, Section 5311, and Section 5310 programs, reports listing selected monthly statistics are provided at the end of each program section.

For the purpose of this report, JARC (Section 5316) and New Freedom (Section 5317) data is presented by the applicable MTA, Section 5307, Section 5311 and Section 5310 program as indicated in tables 32 and 33. Due to the inclusion of JARC and New Freedom data into other programs, monthly JARC and New Freedom program statistics have not been captured and are not shown.

Tables 36 and 37 provide the (New Freedom) operational and financial data for these transit agencies. Monthly statistics have not been captured and are not shown at this time.

The American Recovery and Reinvestment Act of 2009 (ARRA) was signed into law by President Obama on February 17th, 2009. The intent of this act is to preserve and create jobs, promote economic recovery, and invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. On March 5, 2009, \$8.4 billion was appropriated for transit programs nationwide. The Recovery Act (2009) provided a total of \$342,146,637 in funding for transit capital and operating projects for the MTA, Section 5307, and Section 5311 transit agencies in Texas.

Since the 2010 report, three new tables and figures were added to show the break-out of ridership by source for the MTA, Section 5307 and Section 5311 programs. These tables document the passenger boarding by source and the figures show the percentage of passenger boardings by service.

Figures 3, 4, 9, and 14 for the MTA, Section 5307, Section 5311, and Section 5310 transit agencies show the unlinked passenger trips per vehicle revenue mile for FY 2005 through FY 2014.

Special notes for the FY 2014 *Report*: Significant changes are expected to impact the future provision of public transportation services and the reported data from those services, due to several factors. These factors include:

- ⊛ Impacts from the 2010 U.S. Census – including changes in urbanized area (UZA) boundaries, and creation of a new UZA or loss of UZA status, and reduction in rural area,
- ⊛ Continued implementation of federal transportation statutes as revised by the “Moving Ahead for Progress in the 21st Century” act, or MAP-21, and the resulting changes in programs,
- ⊛ Changes in participation in rural transit districts (RTD), such as counties moving from one RTD to another, or creating a new RTD.

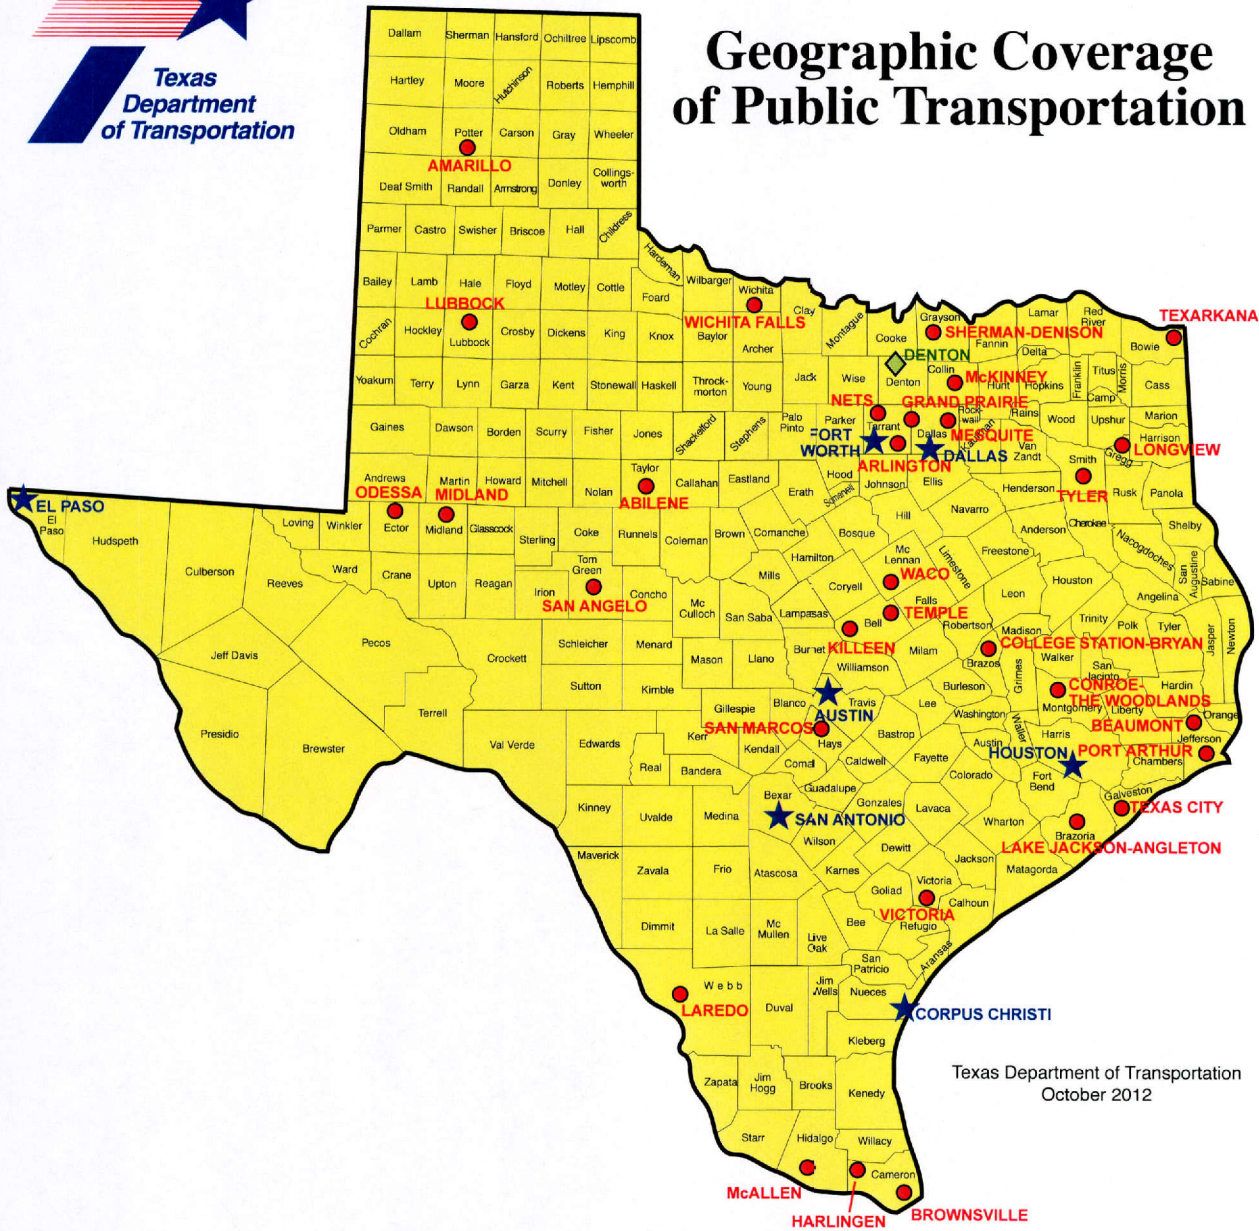

These changes will impact data reported in future *Texas Transit Statistics Reports*.

SUMMARY
MTA and URBANIZED AREA TRANSIT PROGRAMS
(Section 5307)

Metropolitan Transit Authorities (MTAs):

The Section 5307 Grant Program (49 USC, Section 5307) provides capital and operating grants for public transportation projects in urbanized areas. The department continues to report data for metropolitan transit authorities (MTAs) and the urbanized transit agencies separately. The difference in the scale of operations between the two groups is such that it is inappropriate to consider them as a single, combined reporting group. TxDOT-PTN does not provide state funding to the transit authorities; however, the Texas Transportation Commission has requested reports on all transit activities, and this is done in voluntary cooperation with the MTAs. To obtain more extensive information regarding MTA services, their websites are included with contact information at the end of this report.

This report lists the Denton County Coordinated County Transportation Authority (CTA) along with the seven MTAs due to its similarity in size and taxing abilities. Data collection from the CTA data was implemented in FY 2006.

Figure 3 below displays the MTAs trends over the past ten years.

Urbanized Area Transit Programs

Also noted in the introduction of this report, the funding formula is used to allocate state funds to 30 eligible urbanized transit agencies. The state allocates money from the total legislatively-appropriated funding for urbanized transit agencies to four providers in a large urbanized area with transit authorities (Arlington, NETS, Grand Prairie, and Mesquite). These four providers serve only elderly individuals and individuals with disabilities. Population and performance statistics are compared only among these four agencies when allocating funds in this category.

The state funding formula distributes urban performance funds based on a weighted average of four indicators. The funds are then allocated based on the relative performance of the urban service providers. These four performance-based indicators are:

- Local investment per operational expense
- Unlinked passenger trips per vehicle revenue mile
- Vehicle revenue mile per operational expense
- Unlinked passenger trip per capita (Urban only)

The indicators listed above are consistent with the performance measurement goals recommended by the Public Transportation Advisory Committee (PTAC). “Local investment per operational expense” encourages cooperation and coordination. “Unlinked passenger trips per vehicle revenue mile” is a measure of service effectiveness. “Vehicle revenue mile per operational expense” reflects the efficiency of the operation. These three indicators address the goal of fiscal responsibility as well. The “unlinked passenger trips per capita” indicator acknowledges the requirement for funding assistance in cities where transit demand is generated by other than residential population, such as border, tourist, and university cities.

Local investments may fluctuate from year to year and agency to agency as a result of large capital expenditures, change in local funding, and receipt of grants or contracts (i.e. medical transportation, Job Access Reverse Commute, Section 5310, and New Freedom programs). The “unlinked passenger trips per capita” indicator is based on the 2000 census population which does not change from year to year; therefore, only a change in the number of passengers impacts this indicator.

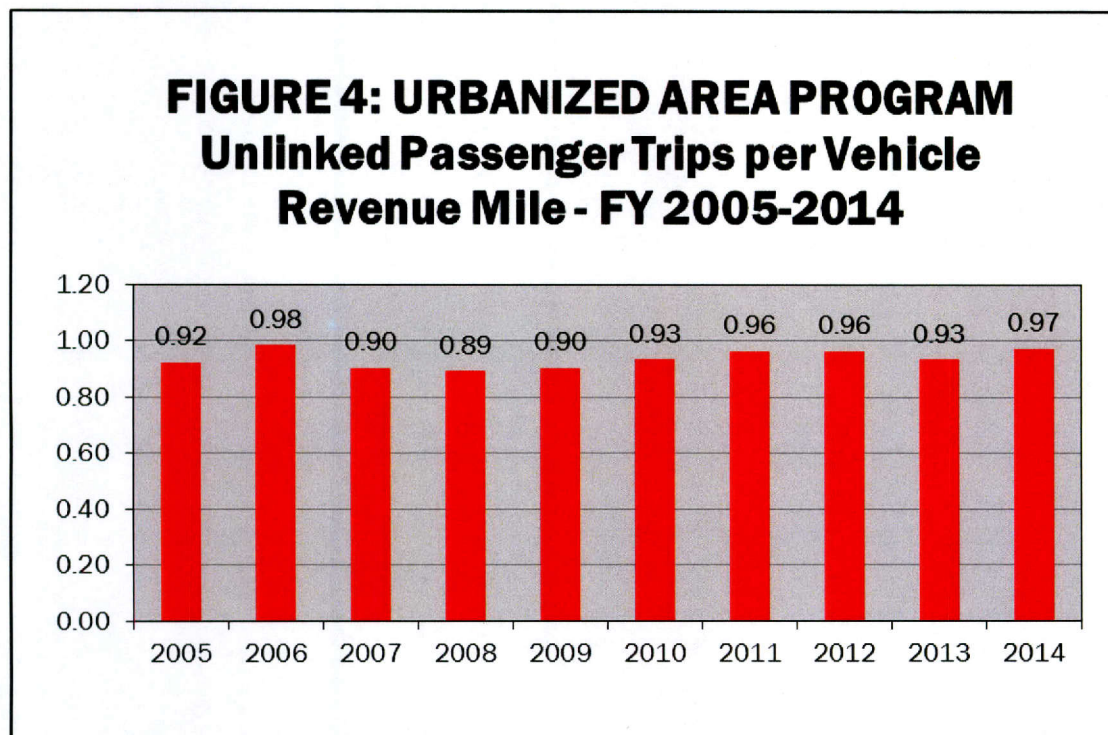

Besides the performance-based funding elements noted above, the urbanized transit agencies are also responsible for reporting four additional performance-based indicators that measure cost efficiency, service effectiveness, cost effectiveness and safety per the Texas Transportation Code §456.008 and §31.48 of the Texas Administrative Code (TAC).

The indicators listed below are required of recipients that receive financial assistance from TxDOT and/or FTA:

- (i) **Service efficiency**—Operating expense per vehicle revenue hour and operating expense per vehicle revenue mile.
- (ii) **Cost effectiveness**—Operating expense per unlinked passenger trip.
- (iii) **Service effectiveness**—Unlinked passenger trips per vehicle revenue mile and unlinked passenger trips per vehicle revenue hour.
- (iv) **Safety**—Total incidents per 100,000 miles of service and average number of miles between revenue vehicle mechanical system failures that prevent the vehicle from completing a scheduled revenue trip.

This is the eighth year the web-based PTN-128 reporting system has been used, allowing all involved parties to review and resolve any variances in the data by data category. This on-line reporting process also allows reasonableness and data quality checks that may be performed anytime throughout the year.

Figure 4 below depicts the annualized rate of “unlinked passenger trips per vehicle revenue mile” for FY 2005-2014.

Notes:

The monthly statistics are located at the end of this section. “Local and Total Revenue” is also identified as “Local and Total Investments.” The monthly statistics for “Total Revenue” and “Annual Total Revenue” differ slightly from one another in this report. Monthly statistics include federal, state, and local funding in the “Total Revenue,” whereas the “Annual Total Revenue” statistics include only the local funding. Table 13 gives a brief description of the types of local contribution included in “Annual Total Revenue.”

Notes:

(1)* Derived revenue from sales tax, advertising on vehicles and/or property. Also includes passenger fares, non-transportation revenue such as donation, parking fees from park & ride lots, investment earnings, etc.

(2) Source used for sales tax revenue data is the Texas Comptroller of Public Accounts.

Includes JARC data. See Table 33 for Breakout.

Includes New Freedom (NF) data. See Table 37 for Breakout.

*Coordinated County Transportation Authority

**Laredo is the only urbanized area that collects transit sales tax.

NONURBANIZED AREA PROGRAM
(SECTION 5311)

This page intentionally left blank.

SUMMARY

RURAL TRANSIT PROGRAMS

(Section 5311)

The Section 5311 Grant Program (49 USC, Section 5311) provides capital, planning, operating, and administrative grants for public transportation projects in rural areas. The rural transit agencies have mandates to report performance as described in the Texas Transportation Code, §456.008 and the Texas Administrative Code (TAC), §31.36 and §31.48.

The funding formula allocates funds based on “needs” and “performance.” Each agency’s “needs” index is comprised of 75 percent population and 25 percent land area. Including land area in the needs calculation recognizes the increased cost of providing transit service to geographically large areas.

The funding formula distributes performance funding based on an average of three indicators:

- Local investment per operational expense
- Unlinked passenger trips per vehicle revenue mile
- Vehicle revenue mile per operational expense

Like the urbanized transit agencies, the rural transit agencies are required to report the following indicators:

- (i) Service efficiency—Operating expense per vehicle mile.
- (ii) Cost effectiveness—Operating expense per unlinked passenger trip.
- (iii) Service effectiveness—Unlinked passenger trips per capita and unlinked passenger trips per vehicle mile.
- (iv) Safety—Total incidents per 100,000 miles of service and average number of miles between revenue vehicle mechanical system failures that prevent the vehicle from completing a scheduled revenue trip.

In addition to the performance-based indicators required for formula funding and the reporting requirements of the TAC, the rural transit agencies are obligated to report annually to the Federal Transit Administration National Transit Database (FTA NTD) as state recipients. The reporting requirements are described in the Safe, Accountable, Flexible, and Efficient Transportation Equity Act: Legacy for Users (SAFETEA-LU). The rural transit agencies’ data is collected by TxDOT-PTN and submitted to FTA-NTD each year in January.

This is the eighth year the web-based PTN-128 reporting system has been used, allowing all involved parties to review and resolve any variances in the data by data category. This on-line reporting process also allows reasonableness and data quality checks that may be performed anytime throughout the year.

performed anytime throughout the year.

As noted in the introduction, new tables and figures are presented in this report to show the detailed break-out of ridership by programs along with passenger boarding by service.

Figure 9 below shows the nonurbanized transit agencies' "unlinked passenger trips per vehicle revenue mile" indicator during the past ten years.

Notes:

The monthly statistics for agencies funded through the Section 5311 Grant Program are located at the end of this section.

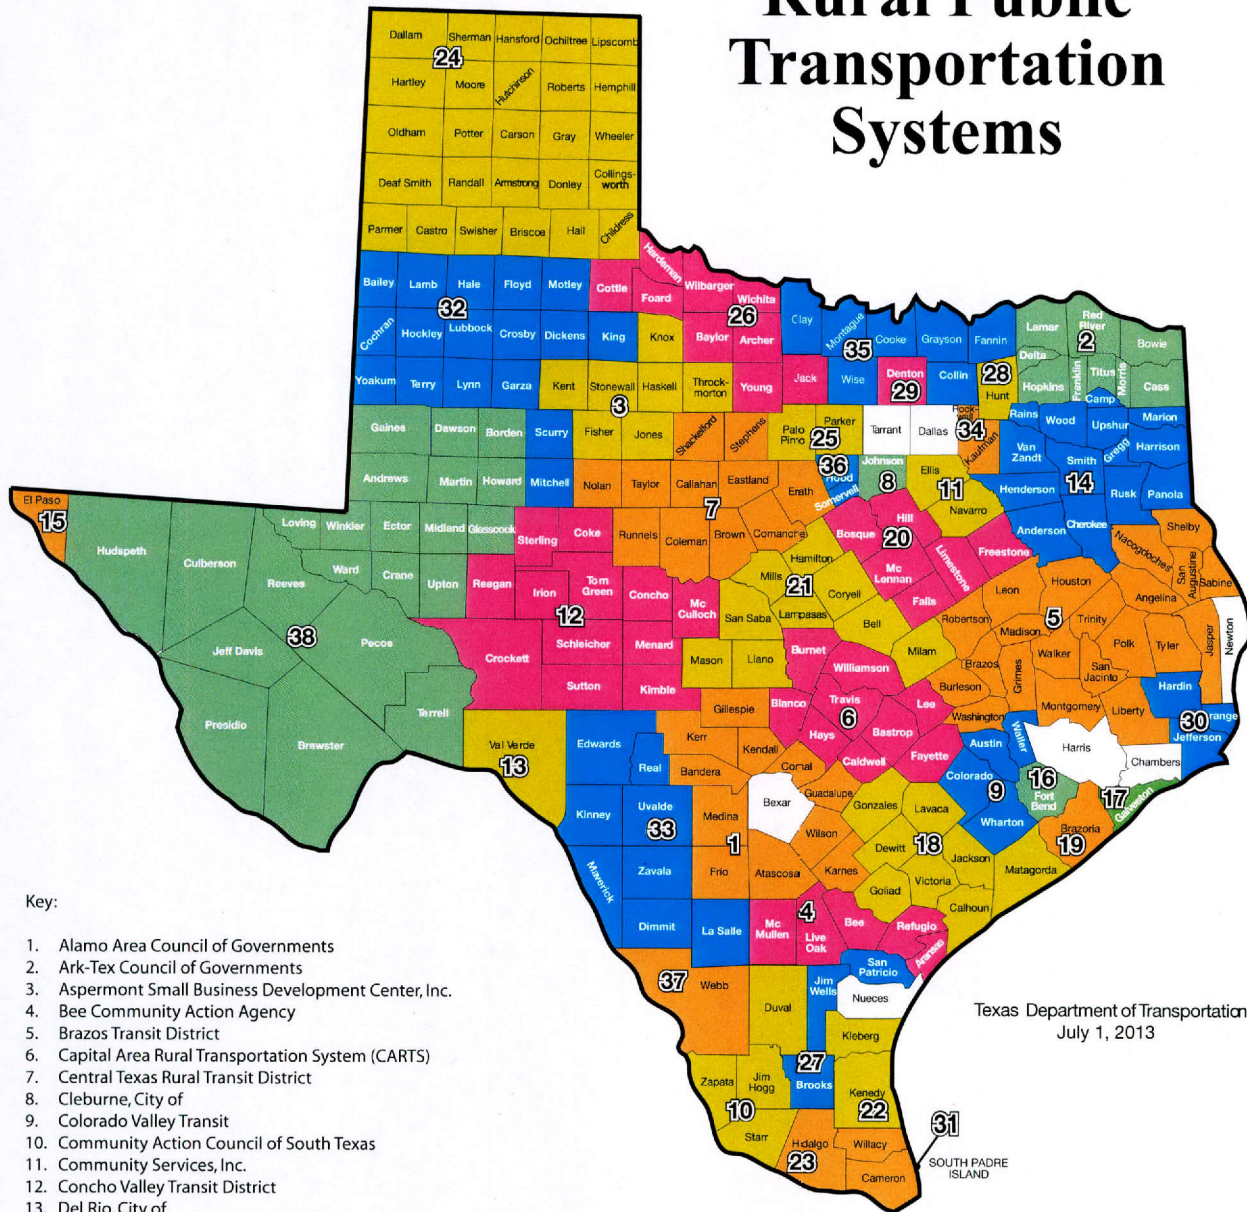

In June 2013, the rural transit district known as the Collin County Committee On Aging, divested itself from public transportation responsibilities based on a decision from the Collin County Commissioners Court. As a result of the agency's de-establishment, Collin County became part of the Texoma Area Paratransit System. This change will be reflected in future *Texas Transit Statistics* reports.

In June 2014, the rural transit district, known as the Bee Community Action Agency ceased operations. As a result of the agency's de-establishment, McMullen County became part of the Alamo Area Council of Governments; and the remaining counties of Live Oak, Bee, Refugio and Aransas became part of the Rural Economic Assistance League, Inc. rural transit agency. This change will be reflected in future *Texas Transit Statistics* reports.

**SENIORS AND
INDIVIDUALS
WITH DISABILITIES PROGRAM**

(SECTION 5310)

This page intentionally left blank.

SUMMARY

SENIORS AND INDIVIDUALS WITH DISABILITIES PROGRAM

(Section 5310)

The Section 5310 Grant Program (49 USC, Section 5310) provides public transportation for the enhanced mobility of seniors and individuals with disabilities throughout the State of Texas. TxDOT administers the FTA Section 5310 program for the small urbanized and nonurbanized areas of the state, which provides about one million unlinked passenger trips to seniors and individuals with disabilities annually. This program provides assistance to help local private nonprofit organizations, public transportation agencies and governmental authorities when other public transportation is unavailable, insufficient, or inappropriate to meeting the needs of the senior and disabled population. (Note: changes in the 5310 program due to MAP-21 are reflected in this *Report*.)

Section 5310 program funds are allocated after state administrative expenses are deducted. The formula does not address performance, however there are separate calculations for small urbanized areas (population 50,000-199,999) and nonurbanized areas.

The formula for allocation of the small urbanized area apportionment includes:

- (a) 25 percent distributed equally among the small urbanized areas of the state, using TxDOT district boundaries and,
- (b) 75 percent distributed by the small urbanized areas share of population of seniors and individuals with disabilities, using TxDOT district boundaries.

Please note that since several TxDOT districts do not include any small urbanized areas, these funds are not allocated by those districts' boundaries for determination of awards.

Section 5310 nonurbanized area allocations are calculated in the same manner as the small urbanized area funds. Twenty-five percent is allocated equally among the TxDOT district boundaries, and seventy-five percent is allocated according to the relative share of the nonurbanized population of seniors and individuals with disabilities. All TxDOT districts have some nonurbanized population within their respective boundaries.

Section 5310 funds for projects serving small urbanized and nonurbanized areas are apportioned to the states, which in turn distribute these funds to eligible local applicants. In small urbanized and nonurbanized areas, each applicable TxDOT district establishes a local planning and development process in consultation with local stakeholders. This planning process provides local applicants with an opportunity to participate, ensures that projects meet the needs of the district's residents, and provides for as much coordination of transportation services as possible.

The Federal Transit Administration apportions Section 5310 funds directly to large urbanized areas, in accordance with the changes implemented from MAP-21. In those large urbanized areas, a selected designated recipient administers the program, including a project selection process that is established locally (See Note, Page 83). Those requesting further information should contact the designated recipient for the applicable large

urbanized area. Contact information is provided starting on page 163.

One effect of this increased federal emphasis on coordination requirements is that existing rural transit agencies have become the primary recipients of Section 5310 funds in rural areas. As a result, the number of independent Section 5310 transit agencies (agencies receiving only Section 5310 funds from the FTA) is declining.

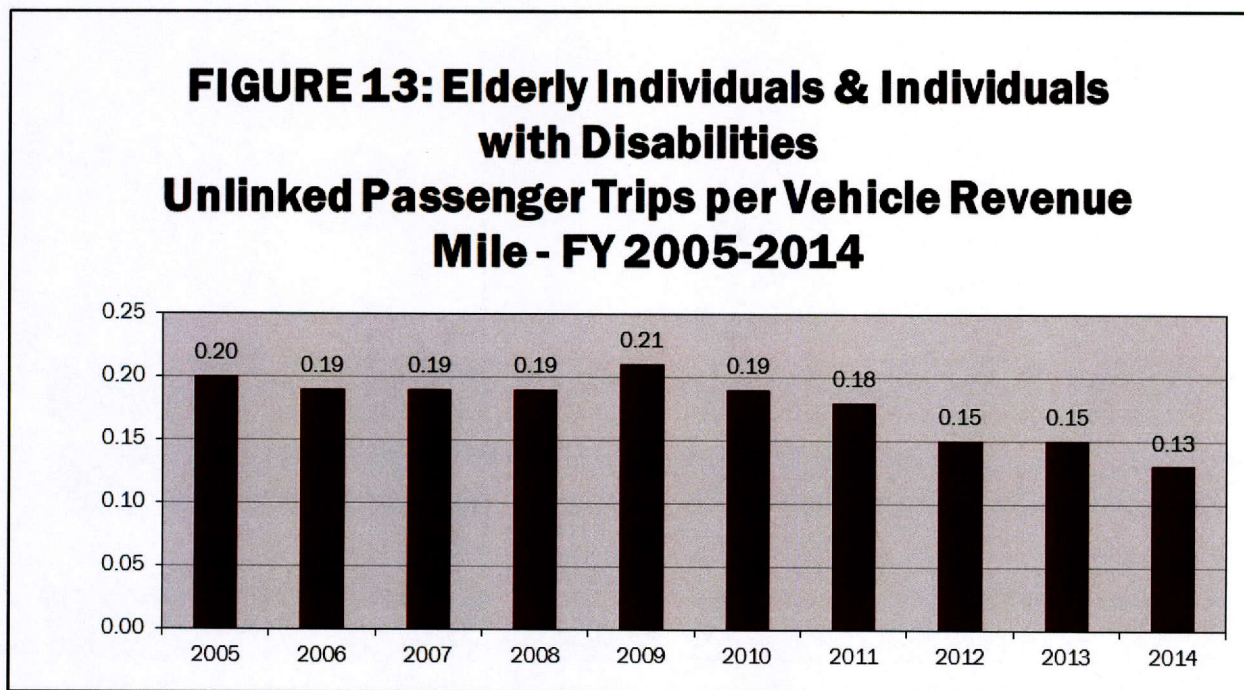

This is the eighth year the web-based PTN-128 reporting system has been used, allowing all involved parties to review and resolve any variances in the data by data category. This on-line reporting process also allows reasonableness and data quality checks that may be performed anytime throughout the year.

The ongoing reduction in the number of independent Section 5310 transit agencies can be attributed to two other factors. First is the Texas Administrative Code rule that (small) urbanized and nonurbanized transit agencies are to be the primary recipients for the Section 5310 program in their respective service areas. In FY 2013 and FY 2014, all 38 nonurbanized transit agencies, served as primary recipients for the Section 5310 program in their respective areas. The inclusion of these operators with the independent Section 5310 transit agencies results in an annual combined count of Section 5310 transit providers of 73 in FY 2013 and 67 in FY 2014.

The second factor for reducing the number of independent Section 5310 transit agencies is the department's use of purchase of service (POS) contracts to foster coordination and increase efficiency. With a POS agreement, Section 5310 transportation services are contracted-out to other transportation agencies that may be able to provide the service more cost-effectively.

As in previous reports, the number of mechanical system failures is not reported here due to annual variations in the number of Section 5310 transit agencies which makes it difficult to form any significant conclusions about trends in this program. PTN is developing tools to ensure these safety factors are reported accurately in future reports.

Figure 13 below indicates a “roller coaster” trend from FY 2005 through FY 2014.

Notes:

The monthly statistics for agencies funded through the Section 5310 Grant Program are located at the end of this section.

The federal transportation bill passed in July 2012, titled “Moving Ahead for Progress in the 21st Century”, or MAP-21, eliminated New Freedom/Section 5317 as a separate program. Funding formerly in this program, along with some project eligibility definitions, was added to the 5310 program at the national level.

In a few cases, TxDOT was asked to become the designated recipient in a large urbanized area. See “Contact Information for Seniors and Individuals with Disabilities Transportation Program,” on page 163, for details.

PROGRAM - (JARC)**

(SECTION 5316)

This page intentionally left blank.

SUMMARY

JOB ACCESS AND REVERSE COMMUTE PROGRAM

(Section 5316)

The Section 5316 Grant Program (49 USC, Section 5316) supports public transportation to and from urban and suburban workplaces. The Job Access and Reverse Commute Program, more commonly called JARC, seeks to provide public transportation services to connect welfare recipients and low income persons to places of employment and related support activities. These support activities include training, job preparation, interviews, and daycare.

On August 10, 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted. With this enactment, JARC became a formula program to the states and large urbanized areas. On May 1, 2007, Circular 9050.1 (JARC Program Guidance and Application Instructions) went into effect. This circular issues guidance on the administration of the JARC program under 49 USC 5316, including application instructions.

TxDOT administers JARC to address the unique transportation challenges faced by welfare recipients and low income persons seeking to get and keep jobs. All JARC projects are selected in a competitive process, which is held annually for small urbanized and nonurbanized (rural) services throughout the state. Since FY 2007, JARC projects have been represented in the annual *Texas Transit Statistics Report*.

Also, state agencies, local government authorities, public transportation agencies, private nonprofit, and for-profit transportation organizations are eligible to receive the (JARC) Section 5316 funds administered by TxDOT. Eligible expenditures on capital, planning activities, and marketing projects are 80% reimbursable through the JARC Program. The administrative costs and operating expenses are eligible for a federal reimbursement rate of 50 percent for JARC projects.

As noted in the introduction of this report, due to the inclusion of JARC data in other program reports, monthly statistics have not been captured and are not shown at this time. The data shown on the following tables summarize JARC's operational and financial statistics.

Notes:

The monthly statistics for agencies funded through the Section 5316 Grant Program are located at the end of this section. The federal transportation bill passed in July 2012, titled "Moving Ahead for Progress in the 21st Century", or MAP-21, eliminated JARC/Section 5316 as a separate program. Funding formerly in this program, along with some project eligibility definitions, were added to the 5307 and 5311 programs.

**TABLE 30: JOB ACCESS AND REVERSE COMMUTE PROGRAM - (JARC) Section 5316
PERFORMANCE SUMMARY AT A GLANCE - Fiscal Years 2013 and 2014**

**NEW FREEDOM
PROGRAM - (NF)**

(SECTION 5317)

This page intentionally left blank.

SUMMARY

NEW FREEDOM PROGRAM (Section 5317)

The Section 5317 Grant Program (49 USC, Section 5317) helps individuals with disabilities by providing both new public transportation and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA), including transportation to and from jobs and employment-support services.

The New Freedom Program is authorized under the provisions of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, (SAFETEA-LU), enacted on August 10, 2005. The New Freedom Program grew out of the New Freedom Initiative introduced by the Administration under Executive Order 13217, "Community-Based Alternatives for Individuals with Disabilities," on June 18, 2001. The New Freedom Program intent is to fill the gaps between human service and public transportation services previously available and to facilitate the integration of individuals with disabilities into the workforce and the community.

On May 1, 2007, Circular FTA Circular 9045.1 (New Freedom Program Guidance and Application Instructions) went into effect. This circular issues guidance on the administration of the New Freedom program under 49 USC 5317, including application instructions.

TxDOT administers the FTA Section 5317 New Freedom Program as a formula program. All the New Freedom projects are selected from a competitive process held annually for small urbanized and nonurbanized (rural) services throughout the state.

Also state agencies, local government authorities, public transportation agencies, private nonprofit and for-profit transportation organizations are eligible to receive the Section 5317 (NF) funds administered by TxDOT. The federal funds may be used to reimburse up to 80 percent of eligible capital expenditures and may be used to reimburse up to 90 percent of incremental costs related to compliance with the Clean Air Act or the ADA. Administrative costs associated with the project as well as net operating expenses are eligible for a federal reimbursement rate of 50 percent.

As noted in the introduction of this report, due to the inclusion of New Freedom data into other program reports, monthly statistics have not been captured and are not shown at this time. The data shown on the following tables summarize New Freedom's operational and financial statistics.

Notes:

The monthly statistics for agencies funded through the Section 5317 Grant Program are located at the end of this section. The federal transportation bill passed in July 2012, titled "Moving Ahead for Progress in the 21st Century", or MAP-21, eliminated New Freedom/Section 5317 as a separate program. Funding formerly in this program, along with some project eligibility definitions, was added to the 5310 program.

**TABLE 34: NEW FREEDOM PROGRAM - (NF) Section 5317
PERFORMANCE SUMMARY AT A GLANCE - Fiscal Years 2013 and 2014**

Definitions

This page intentionally left blank.

DEFINITIONS FOR THE ANNUAL TEXAS TRANSIT STATISTICS REPORT

Note: Definitions are based on the FTA National Transit Database Reporting Manual and the Texas Administrative Code.

ACTUAL VEHICLE HOURS: The hours that vehicles travel while in revenue service (actual vehicle revenue hours (VRH)) plus deadhead hours. Actual vehicle hours exclude hours for charter service, school bus service, operator training, and vehicle maintenance testing.

ACTUAL VEHICLE MILES: The miles that vehicles travel while in revenue service (actual vehicle revenue miles (VRM)) plus deadhead miles. Actual vehicle miles exclude miles for charter services, school bus service, operator training, and vehicle maintenance testing. On May 1, 2007, Circular FTA Circular 9045.1 (New Freedom Program Guidance and Application Instructions) went into effect. This circular issues guidance on the administration of the New Freedom program under 49 USC 5317, including application instructions.

ALLOCATION: (1) Between FTA and TxDOT an administrative distribution of funds among the states, done for funds that do not have statutory distribution formulas: (2) Between TxDOT and grant recipients a preliminary distribution of grant funds representing the maximum amount to be made available to a subrecipient during the fiscal year, subject to the subrecipient's completion of and compliance with all application requirements, rules, and regulations applicable to the specific funding program.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (ARRA): Commonly referred to as the Stimulus or The Recovery Act, is an economic stimulus package enacted by the 111th United States Congress in February 2009.

APPORTIONMENT: A term that refers to a statutorily prescribed division or assignment of funds. An apportionment is based on prescribed formulas in the law and consists of dividing authorized obligation authority for a specific program among the states.

AVERAGE MILES BETWEEN REVENUE VEHICLE SYSTEM FAILURES: The sum of all revenue vehicle miles divided by the aggregated sum of mechanical system failures.

COMMISSION: The Texas Transportation Commission.

COORDINATED COUNTY TRANSPORTATION AUTHORITY (CCTA): A transit authority organized under Chapter 460 of the Texas Transportation Code that follows county boundaries and collects a transit-dedicated sales tax.

DEADHEAD: The operating time (miles and hours) used to move a transit vehicle before revenue service begins and after revenue service ends. When transit vehicles are deadheading, they operate closed-door and are not available to passengers.

DEADHEAD RATIO: The calculation of actual vehicle miles/hours divided by the vehicle revenue miles/hours.

DEPARTMENT: The Texas Department of Transportation.

EXPENSE, TOTAL OPERATING: The total operating cost incurred by a transit agency through its transit operation. It includes the following ten expense objects: labor, fringe benefits, service, materials & supplies, utilities, causalities/liabilities cost, taxes, purchased transportation, miscellaneous expenses and expense transfers. These expense objects are summed by the following four functions: vehicle operations, vehicle maintenance, non-vehicle maintenance and general administration for the total agency expense.

FAREBOX REVENUE: The total passenger fares earned during the report year for directly operated service, regardless of whether they are used during the report year to pay for capital and/or operating expenses. These are fares collected and/or paid for through tickets, passes, tokens, and other fare payment methods.

FAREBOX RECOVERY RATIO: The farebox revenue divided by total operating expenses.

FATALITY: A transit-caused death confirmed within 30 days of the transit incident, which occurs when there is a collision, derailment, fire, evacuation, security incident or when a vehicle leaves the roadway.

FEDERAL TRANSIT ADMINISTRATION: An agency of the United States Department of Transportation.

FUNDS, FEDERAL: Financial assistance from the federal government to assist in paying the capital and operating costs of providing transit services.

FUNDS, LOCAL: Financial assistance from local government (below the state level) to help cover the capital and operating costs of providing transit services.

FUNDS, OTHER: Any miscellaneous funds. Examples are funds dedicated to a local government agency for transportation rather than specifically for transit, advertising revenues, and private donations.

FUNDS, STATE: Financial assistance obtained from the state government to assist in paying the capital and operating costs of providing transit revenue services.

INCIDENT: An event involving a transit vehicle or occurring on transit-related property, involving one or more fatalities, injuries, property damages, or certain crimes.

INJURY: Any physical damage or harm to a person as a result of an incident that requires immediate medical attention away from the scene. (Two or more injuries per incident are reported as Major).

JARC: Job Access and Reverse Commute. A public transportation project relating to the development and maintenance of transportation services designed to transport welfare

recipients and eligible low-income individuals to and from jobs and activities related to their employment; or for any income level when transit is to a suburban destination.

MAJOR INCIDENTS: Any event involving the operation of a transit system if, as a result, one or more of the following occurs: an individual dies either at the time of the event or within 30 days of the event; two or more individuals suffer bodily damage as a result of the event requiring immediate medical attention away from the scene; a collision, personal casualty, or fire causes property damage in excess of \$25,000; and/or a transit vehicle moving passengers in service is evacuated due to a serious life safety hazard that constitutes an imminent threat.

MAJOR MECHANICAL SYSTEM FAILURES: A failure of some element of the revenue vehicle that prevents the vehicle from completing a scheduled revenue trip or from starting the next scheduled revenue trip because actual movement is limited or because of safety concerns.

METROPOLITAN TRANSIT AUTHORITY (MTA): Agencies funded under the formula Section 5307 urbanized area program which also meet the requirements of serving an area with a population over 200,000 people, having a dedicated taxing authority, and organized according to specific state statutes.

METROPOLITAN PLANNING ORGANIZATION (MPO): A public organization that is designated by the governor to provide planning transportation services for an urbanized area of at least 50,000 population.

MOVING AHEAD FOR PROGRESS IN THE 21ST CENTURY (MAP-21):

Federal authorizing legislation, replaced SAFETEA-LU. A funding and authorization bill to govern United States federal surface transportation spending. It was passed by Congress on June 29, 2012, and President Barack Obama signed it on July 6. Eliminated/merged some programs administered by FTA. MAP-21 became effective on October 1, 2012.

NATIONAL TRANSIT DATABASE (NTD): Established by Congress to be the Nation's primary source for information and statistics on the transit systems of the United States. The NTD reporting system evolved from the transit industry-initiated Project FARE (Uniform Financial Accounting and Reporting Elements).

NEW FREEDOM PROGRAM: Financial assistance from §5317 of the Federal Transit Act. This is a formula program to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Funds may be used for associated capital and operating costs

NON-ARSON FIRE: Uncontrolled combustion made evident by flame and/or smoke that requires suppression by equipment or personnel.

NON-MAJOR INCIDENT: Existence of one or more of the following conditions: injuries requiring immediate medical attention away from the scene for one person, property damage equal to or exceeding \$7,500 (but less than \$25,000), and all non-arson fires not qualifying as Major Incidents.

NONURBANIZED AREA PROGRAM: Agencies funded under the formula Section 5311 nonurbanized area program, providing coverage for areas of less than 50,000 population.

OTHER MECHANICAL SYSTEM FAILURES: A failure of some element of the revenue vehicle that because of local policy prevents the vehicle from completing a scheduled revenue trip or from starting the next scheduled revenue trip even though the vehicle is physically able to continue in revenue service.

PASSENGER FARES: The revenue earned from carrying passengers in regularly scheduled and demand response (DR) services. Passenger fares include base fare, zone or distance premiums, express service premiums, extra cost transfers, and quantity purchase discounts applicable to the passenger's ride and special transit fares.

PLANNING ACTIVITY PROGRAM: Grants awarded under Section 5303 to MPOs or under Section 5304 to TxDOT for transit planning and research activities.

PURCHASE OF SERVICE: Transportation service provided to a public transit agency or governmental unit from a public or private transportation provider based on a written contract.

REVENUE, OTHER OPERATING: Revenue derived from (1) organizations paying money in lieu of passenger fares, etc. (2) transit-related services such as station and vehicle concessions and advertising; an (3) non-transit related services, such as rental of vehicles and properties, investment income, and non-park-and-ride parking revenue.

REVENUE, TOTAL OPERATING: The total revenue earned by a transit agency through its transit operations. It includes passenger fares, advertising, financial assistance for transit operations (not capital expenditures) such as federal, state and local government.

RURAL AREA PROGRAM: Agencies funded under the formula Section 5311 nonurbanized area program, providing coverage for areas of less than 50,000 population. See also NONURBANIZED AREA PROGRAM.

RURAL TRANSIT ASSISTANCE PROGRAM (RTAP): The funds allocated to the States to undertake research, training, technical assistance and other support services to meet the needs of transit agencies in nonurbanized areas.

SAFETY INCIDENTS: Any event involving the operation of a transit system if, as a result, one or more of the following occurs: an individual dies either at the time of the event or within 30 days of the event; one or more persons suffer bodily damage as a result of the event requiring immediate medical attention away from the scene; and/or property damage in excess of \$25,000.

SALES TAX: (DEDICATED FUNDS): Any funds raised specifically for transit purposes and which are dedicated at their source (e.g., sales taxes) rather than through an allocation from the pool of general funds.

SENIORS & INDIVIDUALS WITH DISABILITIES PROGRAM: Agencies funded under the

formula Section 5310 program, providing transportation service to seniors and/or individuals with disabilities. Agencies may be non-profit, or a local public body if there is not a readily available non-profit agency in the area. Services may be provided by the grantee agency or purchased from another agency (typically from a nonurbanized Section 5311 agency).

STATE FISCAL YEAR (SFY): The state accounting period of 12 months that begins on September 1 of each calendar year and ends on August 31 of the following calendar year.

TRANSIT VEHICLE AND PROPERTY DAMAGES: The dollar amount required to repair or replace all vehicles (transit and non-transit) and all property/ facilities (tracks, signals, and buildings) damaged during an incident to a state equivalent to that which existed prior to the incident: major Incidents (exceed \$25,000) and non-major incidents (exceed \$7,500 but less than \$25,000).

TEXAS ADMINISTRATIVE CODE: The body of state regulations that are published and have the force of law. Find transit at Title 43 - Transportation, Part 1 - Texas Department of Transportation, Chapter 31 - Public Transportation.

UNLINKED PASSENGER TRIP: A one-way trip carrying a person from a single origin to a single destination. Passengers are counted each time they board a vehicle no matter how many vehicles they use to travel from their origin to their destination.

URBANIZED AREA: An area defined by the U. S. Census Bureau that includes: one or more incorporated cities, villages, towns (central place), and the adjacent densely settled surrounding territory (urban fringe) that together have a minimum of 50,000 persons. The urban fringe generally consists of contiguous territory having a density of at least 1,000 persons per square mile. Urbanized areas do not conform to congressional districts or any other political boundaries.

URBANIZED AREA PROGRAM: Agencies funded under the formula Section 5307 urbanized area program. Both metropolitan transit authorities (MTAs) and smaller urbanized area fall in the Section 5307 urbanized area program, but are generally treated separately. In this report, "urbanized areas" fall between 50,000 and 200,000 in population or do not meet the State requirements to be classified as an MTA.

VEHICLE REVENUE HOURS: The hours that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue hours include layover/recovery time; but exclude deadhead, operator training, and vehicle maintenance testing, as well as school bus and charter services.

VEHICLE REVENUE MILES: The miles that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue miles include layover/recovery time; but exclude deadhead, operator training, and vehicle maintenance testing, as well as school bus and charter services.

VEHICLES, NUMBER OF: The number of revenue vehicles available to meet the annual maximum service requirements. Vehicles available for maximum service include spares, out-of-service vehicles, and vehicles in or awaiting maintenance, but exclude vehicles

awaiting sale and emergency contingency vehicles.

WELFARE RECIPIENT: An individual who has received assistance under a state or tribal program funded under the Social Security Act, Title IV, Part A, at any time during the previous three year period, or as otherwise defined by 49 USC §5316, the Job Access and Reverse Commute program.

CONTACT INFORMATION FOR ENHANCED MOBILITY OF SENIORS & INDIVIDUALS WITH DISABILITIES TRANSPORTATION PROGRAM (Section 5310)

For the Large Urbanized Areas in Texas (urbanized population 200,000 and above), 49 USC Section 5310 requires a local selection process to name a *designated recipient*. These designated recipients are then responsible for administration of the Section 5310 program in their respective urbanized areas, including administration of a project selection process. In some cases, the local preference has been for TxDOT to act as the designated recipient for a limited time. If authorized by the commission, TxDOT will provide this service for a specified period.

The following are the current designated recipients for the Section 5310 program in Texas' large urbanized areas:

<u>Urbanized Area</u>	<u>Designated Recipient (Contact Information)</u>
Austin	<ul style="list-style-type: none"> • TxDOT (portion of FY 2014 funds only) • Capital Area Metropolitan Transportation Authority (balance of FY 2014 funds and subsequent years) (See <i>Metropolitan Transit Authorities</i> listing on page 147)
Brownsville	City of Brownsville (See <i>Urbanized Transit Systems</i> listing on page 149)
Conroe-The Woodlands	<ul style="list-style-type: none"> • TxDOT (FY 2014 funds only) • City of Conroe (FY 2015 funds and subsequent years) 300 West Davis/P.O. Box 3066, Conroe, Texas 77305 Phone (936) 522-3030, www.CityofConroe.org
Corpus Christi	Corpus Christi Regional Transportation Authority (See <i>Metropolitan Transit Authorities</i> listing on page 147)
Dallas-Ft. Worth-Arlington	Three co-designated recipients, based upon coverage: Dallas Area Rapid Transit, Fort Worth Transportation Authority, and North Central Texas Council of Governments (NCTCOG) (See <i>Metropolitan Transit Authorities</i> listing on page 147 for DART and The T; for NCTCOG – Michael Morris, Director of Transportation, 616 Six Flags Drive, Arlington, TX 76011, Phone (817) 695-9241, email mmorris@nctcog.org , website http://www.nctcog.org/trans)
Denton-Lewisville	NCTCOG (See address under Dallas-Ft. Worth-Arlington)

Urbanized Area

Designated Recipient (Contact Information) (continued)

El Paso	El Paso MPO - (Michael Medina, Executive Director, 10767 Gateway Blvd. West, Suite 605, El Paso, TX 79935, Phone (915) 591-9735, email mmedina@elpasompo.org , web http://www.elpasompo.org)
Houston	<ul style="list-style-type: none">• TxDOT (portion of FY 2014 funds only)• Houston Metro (remaining 2014 and FY 2015 funds and subsequent years) (See <i>Metropolitan Transit Authorities</i> listing on page 147)
Killeen	Hill Country Transit District (See <i>Urbanized Transit Systems</i> listing on page 150)
Laredo	<ul style="list-style-type: none">• TxDOT (FY 2014 funds only)• City of Laredo (FY 2015 funds and subsequent years) (See <i>Urbanized Transit Systems</i> listing on page 150)
Lubbock	City of Lubbock/Citibus (See <i>Urbanized Transit Systems</i> listing on page 150)
McAllen	Lower Rio Grande Valley Development Council (See <i>Nonurbanized Transit Systems</i> listing on page 158)
San Antonio	VÍA Metropolitan Transit (See <i>Metropolitan Transit Authorities</i> listing on page 148)

For small urbanized and rural areas of Texas, TxDOT is the designated recipient. A complete listing of the current transit agencies operating as Section 5310 providers in those areas would be too cumbersome to list in this report. Listed below are two methods to obtain a current listing.

To obtain a list of addresses of these agencies, please contact the Texas Department of Transportation, Public Transportation Division, 125 East 11th Street, Austin, Texas, 78701-2483 or call (512) 374-5230.

Or you can view the current transit agencies by going to TxDOT's website.

www.txdot.gov
