FOREWORD

This pamphlet has been designed to provide the payment rates for veterans, widows and children eligible for disability or death benefits under the Department of Veterans Affairs programs. Section I provides the rates for Disability Compensation for veterans and Dependency and Indemnity Compensation for widows and children. Section II provides the rates for veterans, widows and children eligible for disability or death pension and for dependent parents of veterans whose deaths are shown to be service-connected.

The effective date of the Pension and DIC-Parents payment rates is December 1, 2006. Pension benefits under the Old Protected Law and Section 306 will NOT be increased, although the annual income limits were raised. It is important to understand that these payments are not increased because of the Cost of Living increases for Social Security recipients, but the annual income limits are raised to offset the Social Security increase. This is as a result of current law which ensures that a VA pensioner will not suffer a reduction or discontinuance of a VA pension solely because of an increase in Social Security benefits.

PL 109-111 authorized a 2.3% COLA for compensation and DIC. The effective date of the Compensation and DIC payment rates is December 1, 2007.

*A special thank you to Sandra Covin, TVC Veterans Counselor,
Waco Regional Office, for compiling these figures.*

An annual clothing allowance of \$677 is paid each August to veterans with service-connected disabilities which require use of crutches, canes, wheelchairs, or other devices or appliances which wear the clothing. Payment is automatic each year to those whose eligibility is already established, while others must apply to VA.

Veterans rated 30% or more because of service-connected disease or injury are entitled to additional compensation for dependents. The following chart indicates the amount of additional compensation payable to such veterans who are rated 100% disabled. If a veteran is rated 30, 40, 50, 60, 70, 80 or 90 percent, dependency allowances are payable in an amount bearing the same ratio to the amount specified below as the degree of disability bears to total disability. For example, a veteran who is rated 50% disabled receives 50% of the amounts shown for the correct number of his dependents.

EXAMPLE: A veteran is rated 50% disabled, and has a wife and one child. The total additional allowance for a wife and one child for the 100% veteran is \$240 per month. Our veteran is rated 50%, thus he is entitled to additional allowance of \$120 per month. This same veteran, if rated 30% disabled would receive additional dependents allowance of \$72 (30% of \$240) per month.

DEATH COMPENSATION

Death Compensation may be paid to widows, widowers, children and dependent parents of servicemen or veterans, whose service-connected deaths occurred prior to January 1, 1957. The monthly payment for a widow or widower is \$87; for a child, \$67; and \$40 each for two eligible parents, or \$75 if only one parent is entitled.

When a widow or widower is receiving benefits, and is shown to be eligible for Aid and Attendance Allowance, the amount of \$79 will be added to monthly payment. Likewise, \$79 a month will be added to the payment of a parent who is eligible for Aid and Attendance Allowance.

DEPENDENCY & INDEMNITY COMPENSATION

Current laws provide for payment of dependency and indemnity compensation to the widows and children of deceased servicemen and veterans whose deaths are shown to be service-connected. The dependency and indemnity compensation program came into effect on January 1, 1957.

WIDOW/ER - DIC (Grandfathered)

The following chart indicates the monthly payment of dependency and indemnity compensation for a widow/er of a deceased servicemember or veteran. It will be noted that the monthly payment is based upon the rank and pay grade of the veteran or serviceman. These rates were effective December 1, 2007.

Payments being made to a widow will be increased by \$265 per month for each eligible child in her custody. Payments to the widow will be increased by \$265 per month if she is shown to be a patient in a nursing home or is so helpless as to require the aid and attendance of another person.

VA can also pay certain widows a Housebound Allowance of \$126 per month. Eligible for the allowance are those who are, by reason of disabilities, permanently confined to their homes or the immediate premises, but are not entitled to the Aid and Attendance Allowance.

- ★ Remarried spouses whose eligibility for reinstatement of DIC or pension benefits upon termination of marriage which was terminated by the Omnibus Budget Reconciliation Act of 1990 (OBRA) will receive restored eligibility for such benefits if, prior to November 1, 1990, a legal action had commenced to terminate the disqualifying marriage and that marriage was formally terminated as a result of such legal action.
