# TEXAS

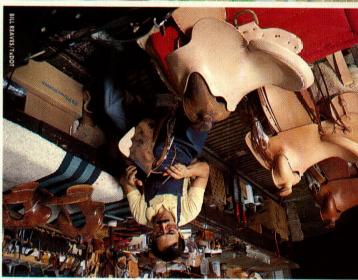

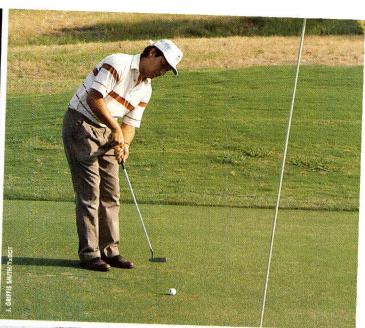

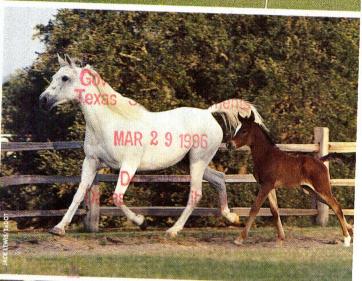

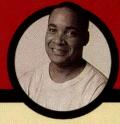

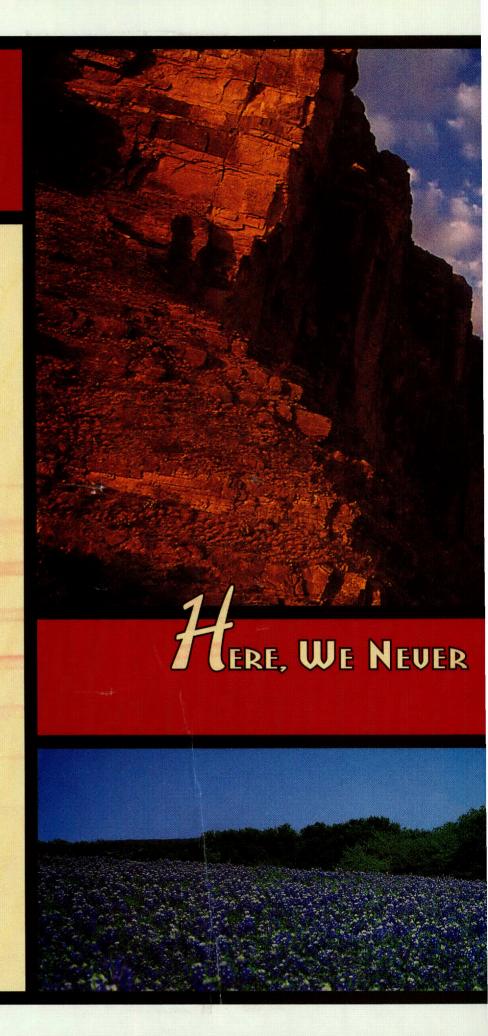

"I'D TAKE YOU HIKING, FISHING AND MOUNTAIN BIKING. AND THAT'S JUST THE FIRST DAY."

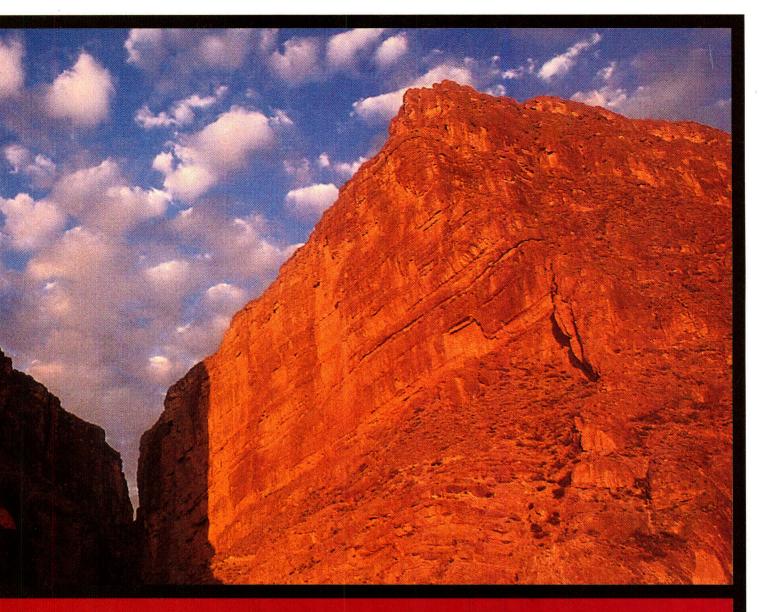

RODERICK BLAKE, ONE OF 18 MILLION TEXAS AMBASSADORS

Here in Texas, you can't help but develop an appreciation for nature, because there's so much of it to appreciate. You can hike through the mountains of Big Bend. Picnic among the wildflowers of the Hill Country. Or even catch some rays on more than 600 miles of beaches. And that's just for starters. In fact, there's so much to do in Texas's great outdoors, we couldn't possibly cover it all in this ad. However, we'd be happy to give you a sneak preview at TravelTex.com on the Web. Or call us at 1-800-8888-TEX.

# HAVE TO GET BACK TO NATURE BECAUSE WE NEVER LEFT IT IN THE FIRST PLACE.

# HERE'S YOUR INVITATION TO THE COUNTRY THAT'S

# TRXAS

ike the song says, the stars are "big and bright deep in the heart of Texas." The Lone Star from the Texas flag symbolizes the Texas mystique a proud heritage found in every corner of the state. As far back as 1835, folks referred to Texas as the "Lone Star State." On your trip, look for the five-pointed star and see how creative Texans have used it...in architecture, clothes, jewelry, art, and so on. You might even discover stars on manhole covers in the streets. Mother Nature even graced us with starfish on the Gulf Coast, and stars appear on petals of some wildflowers. Photographers Pat Berry of Houston and Michael Murphy of the Texas Department of Transportation, found these stars shown on the cover.

It's not so exaggerated to think of Texas as a whole country—800 miles wide and nearly that far north to south.

Sunny seacoast to mile-high mountains; dense forests to cactus-studded desert; great cities and towns!

# HOW TO USE THIS TEXAS GUIDE

IMPORTANT: The first part of this guide book tells what to see and do in seven special sections (through page 85). Those sections summarize attractions around major Texas cities. See the Table of Contents on next page.

We hope these special sections make it easier to explore complex metropolitan areas and enrich your trip. For instance, when visiting DALLAS-FORT WORTH, one might not know about other prime visitor attractions just minutes from your DALLAS-FORT WORTH headquarters. So, each section groups cities that are very near the main metro hub—places with interesting visitor features.

Notice that each of the special sections has a colored stripe down the edge of the page—a different color per section. And, a simplified map is in each special section.

El Paso, City in the Sun

Houston/Galveston and the Bay Cities of Texas

San Antonio, Alamo Country

The Lower Rio Grande Valley

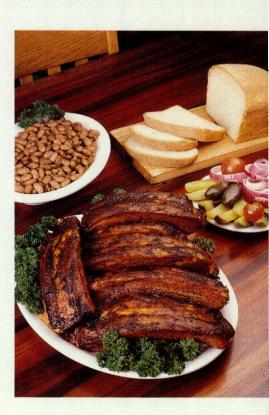

# THE REST OF THE BOOK

Beyond the special sections, beginning page 86, just thumb through alphabetical listings of hundreds more Texas cities and towns. Each city's "Map" code shows grid coordinates to locate it on the *Texas Official Travel Map*. Along with this book, the maps are free from any Texas Travel Information Center, or by mail: PO Box 5064, Austin, Tx 78763-5064.

Highway designations in the book include I- for Interstate highways, U.S. for U.S. Highways, Texas for state highways, and F.M. and R.M. for Texas Farm or Ranch Roads, all of which are fine paved routes. Populations listed are the latest available official census figures. Altitudes are in feet above sea level.

In the Table of Contents, note other subjects of travel interest toward the end of this book, especially "Need Additional Information?"

Let this guide be your companion as you discover the country that's Texas!

# MAP OF TEXAS

# CLIMATE OF TEXAS

ike other attributes of the state, Texas climate is varied, but with one predominant characteristicsunshine. Texas is sun land from the Gulf Coast to mile-high mountains, and in every season of the year. Native and visitor alike enjoy the vitamin D

abundance—living keved to the great outdoors—places to go, miles to cover, and things to see.

Winter comes late to Texas, and leaves before wearing out its welcome. Only January and February can really be called winter, and depending on when and where you are, you might not recognize it. This is the season of "northers", cold fronts that sweep rapidly through the state bringing sudden drops in temperature. Then, within a day or two, warming trends under sunny skies. Snow may powder the High Plains, but down in the Border Tropics they seldom see a snowflake, and it's sport-shirt weather beneath swaying palms. Texas "winter sports" include golf, fishing, sailing, shuffleboard, and picnics on the beach.

## **SPRING**

Spring in Texas is a Sigmund Romberg musical: "Blossom Time." During March and April, bluebonnets, Indian paintbrush and a thousand other wildflowers splash meadows with carpets of color. Temperatures are warm, bringing out shorts and bikinis that were hardly packed away from the previous sun season.

## SUMMER

With a minimum of fanfare, spring blends into summer. Long, lazy days stretch from horizon to horizon. Silvery bass drift beneath lily pads, awaiting a tempting lure. Swimmers plunge into cool lake depths, and bronze themselves along uncrowded beaches beside the Gulf of Mexico.

Sure, temperatures climb on a summer afternoon. After all, this is sun land. Living's casual, and Texans revel in the ultimate season of the sun. Comes time to relax with a frosty glass, there's always air conditioning. In Texas, almost every place under roof is air conditioned.

# FALL

Delightful! October through December feature mild, sparkling days under the bluest skies, and cool nights accented by the notes of a Spanish guitar.

This is another season of color-

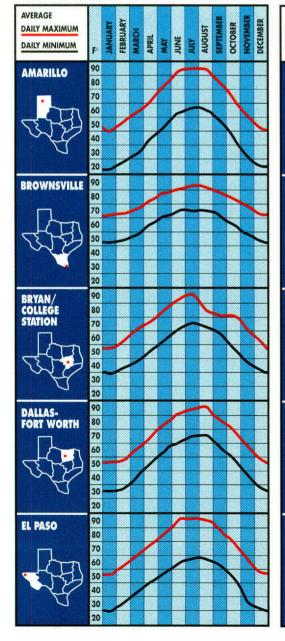

#### golden in the woodlands, and green on Astroturf gridirons. You'll want a sweater or light jacket for evenings at hillside theaters. And if a norther arrives around Christmas, so much the better for tradition.

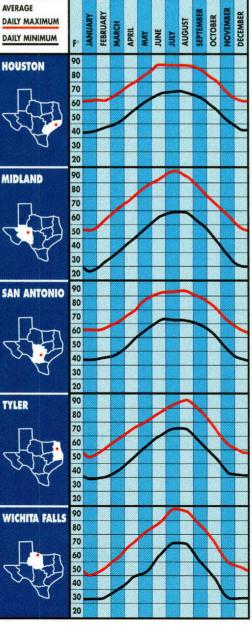

# "OTHER" WEATHER

You've heard about Texas hurricanes and tornadoes. Relax. An occasional good, salty hurricane gives Gulf Coast residents something to talk about—sort of breaks the monotony of perfection. But if you'd just as soon pass up that kind of spice, there's always plenty of warning so you can travel inland. Of course if you do, you'll miss the beachcombing and fishing. Beachcombing is best after a hurricane, and fishing is absolutely fan-

Without question, tornadoes are fierce, but this is one category Texas can't claim the top spot. In fact, on an average square-mile basis, Texas ranks well below Florida and Oklahoma; and usually behind Indiana, Iowa, Louisiana and Mississippi as well. Texans respect tornadoes, and heed any warning, but otherwise don't spend much time worrying about them.

Enjoy the Texas sun land. Enjoy the place where the good old summertime really is. Enjoy the freshness of spring and fall. Enjoy winter that's not a battle for survival. Enjoy the climate that's a way of leisure

# **HIGHWAY REST AREAS**

Throughout the superb system of Texas highways, motorists find bonuses of travel pleasure in highway rest areas. Texas pioneered the concept of miniature parks along travelways, an idea that has been adopted nationally.

Today more than a thousand Texas rest areas, picnic areas, and scenic turnouts invite motorists to pause and relax from the concentration of driving. Often the site has been selected for its impressive landscape views, and each of the small parks is landscaped to complement its individual surroundings. All are equipped with shaded arbors, tables, benches, and cooking grills. Remaining in a rest area for more than 24 hours, or erecting any kind of structure is prohibited by law.

# **INFOBORDS**

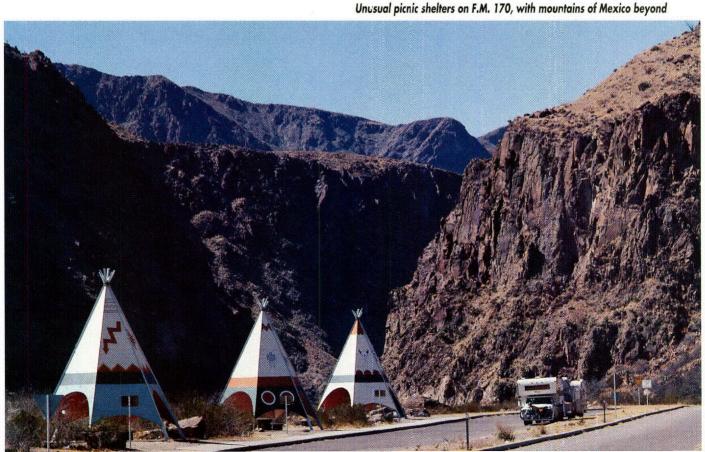

InfoBords are attractive exhibits at more than 100 major rest areas scattered along many of the routes visitors to Texas most often travel. These displays summarize tourism features that lie just off the highway lanes—invitations to stop and visit instead of just driving through.

Each InfoBord location includes a highway map, with panels devoted to nearby attract.ons. Still others tell of features down the road ahead.

The panels feature local visitor attractions, such as museums and other historical points of interest; state and national parks; caverns that are open for tours; lakes and other recreational opportunities; and major visitor attractions such as San Antonio's River Walk, Houston's Astrodome/Astroworld, and Galveston's Strand. Other panels detail special features: freshwater and saltwater fishing, public campgrounds, and facts about Texas.

As you travel Texas highways, be sure to stop a moment at our major rest areas (the ones with rest room facilities, drinking water and picnic areas) and read the InfoBords. You may discover a point of historical interest, a fun-filled family attraction, or a pleasant campground that you might have over ooked—just down the road. Enjoy!

# **SPEED LIMITS**

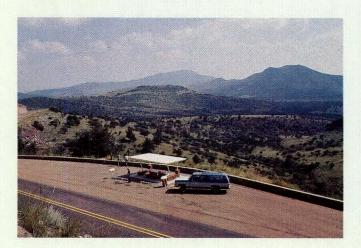

Speeds, caution areas, stops and directions are marked along 76,900 miles of Texas highways by over half a million signs. Passing is illegal when there is a continuous yellow stripe on the driver's side of the center line. Center lines are yellow dash stripes. White dash stripes separate dual lanes of traffic in the same direction. Painted or reflectorized pavement arrows often show approved directions or turns. Arrows pointing toward you or showing red reflectors indicate you are driving the wrong way on a freeway ramp or one-way street. In Texas, the maximum speed limit for cars and light trucks (pickups, panels, vans, etc.) on most *rural* interstate and some federal and state highways is 65 miles per hour, *where posted*. All other highways, including *urban* interstates, are 55 miles per hour, or *lower* as posted.

# **AUTO SAFETY BELTS AND CHILD SEATS**

Texas law requires front seat occupants must be buckled up while riding in cars and light trucks. Further, the law requires children under age four be secured whether in front or back seat. Infants under age two must be secured in a federally approved child safety seat; children between two and four may use such a seat or be secured in standard safety belts. Fines of \$25 to \$50 may be levied for failure to use safety belts and child safety seats as prescribed. The driver and all passengers of a motorcycle may not operate the vehicle unless each is wearing a safety helmet of approved design.

# **AUTO INSURANCE**

A motor vehicle may not be operated in Texas unless a policy of liability insurance is in effect. Evidence of insurance must be furnished when requested by a police officer.

# **MEXICO**

# **Entrance and Exit Regulations**

he enchantment of Mexico is but a bridge away from much of Texas. Visitors find Mexican shops and markets colorful and fascinating, filled with a variety of gift, handicraft and art items at attractive prices. The people of Mexico are gracious and friendly.

Border crossing is easy and simple; there are no fees other than for auto insurance or special permits such as hunting and fishing licenses, bridge tolls, and U.S. Customs duties as mentioned below.

# General

U.S. citizens must carry proof of citizenship when crossing into Mexico. Officials of the National Immigration Institute, posted at border entry points, require a passport, birth certificate, voter registration card, or any other document that proves citizenship. This is a change from the past. The law applies to all border cities, and is an attempt to implement uniform immigration laws on both northern and southern borders.

On returning to Texas from Mexico, a stop at U.S. Customs is required, stating nationality and declaring Mexican purchases.

A Mexican tourist card is required for visiting Mexico beyond the border cities, or for stays longer than 72 hours. The free tourist cards are available from Mexican immigration authorities at the border, and also from Mexican consulates and Mexican government tourist offices in the U.S. A birth certificate or other proof of U.S. citizenship, such as voter registration, military I.D. showing place of birth, or passport, is required to obtain the tourist card.

Canadian citizens who visit Mexico from Texas should have a passport or birth certificate. Other foreign nationals should have a passport and appropriate visas both for entering Mexico and returning to the U.S.

# **Driving Into Mexico**

An automobile permit is required when driving into the interior of Mexico beyond the border cities. The permits, good for up to 180 days, may be obtained at the border after the tourist card has been stamped by Mexican immigration officials. A \$10 fee must be paid by the vehicle's owner using a major credit card on whose face the word "bank" appears. Vehicle Title of Ownership is required. If the vehicle owner is not in the party, written permission from the owner for a specific time period must be presented. The individual to whom the car permit is issued will have his tourist card stamped to that effect, and it is mandatory that he accompany the auto and surrender the permit upon leaving Mexico.

Auto tourists must stop at Mexico's Federal Inspection Points located on all principal highways to the interior, usually about 12 miles from the border. There the auto permit must be presented for inspection, and baggage inspection may also be required.

# **Mexican Auto Insurance**

According to Mexican civil statutes, it is unlawful to operate a motor vehicle in Mexico without automobile insurance issued by a Mexican insurance company. In the past, most U.S. insurance companies offered provisions to adjust claims arising from auto accidents in the immediate border cities of Mexico (Endorsement 74). Although that endorsement may still be carried on U.S. policies, Mexican authorities no longer recognize it, and their law is explicit: drivers must be covered by Mexican insurance. Auto accidents are considered criminal offenses in Mexico, and regardless of fault, involved vehicles are usually impounded.

Short-term Mexican auto insurance is available from numerous agencies and travel services on the Texas side of the border.

# Returning to the U.S.

Each U.S. citizen may bring back Mexican purchases valued to \$400 retail, duty free every 30 days. Federal duty fees will be assessed on the value of articles above the \$400 exemption. NOTE: Many items of Mexican manufacture, such as handicrafts and jewelry, may qualify for exemption even above the \$400 limit; ask for GSP brochure from U.S. Customs.

Federal law permits only one liter of duty-free alcoholic beverages to be brought back by each adult U.S. citizen each 30 days. Alcoholic beverages in

excess of the limit are subject to duty and internal revenue tax. In addition, Texas law requires a state tax on all alcoholic beverages brought in from Mexico.

# Foreign-Made Articles Taken Into Mexico

Foreign-made articles such as cameras, watches, and jewelry previously acquired in the U.S. or elsewhere, should be registered with U.S. Customs before entering Mexico. Without proof of prior possession, such articles may be dutiable when brought back into the U.S.

# **Mexican Currency**

Visitors to Mexican border cities will seldom need Mexican currency. U.S. dollars are readily accepted at the current exchange rate. Mexican banks, large hotels-motels and tourist service facilities provide currency exchange if needed.

# **Pets**

Both Mexico and the U.S. enforce rather stringent regulations about animal pets, and many visitors to Mexico find it more convenient to leave pets at veterinary boarding facilities in Texas border cities. For pets taken into Mexico and returned to the U.S., owners must present a rabies vaccination certificate dated not less than one month nor more than 12 months previously, and International Health Certificate (form 77-043) signed by a veterinarian no more than 72 hours before the pet enters Mexico. The certificate can be stamped (fee \$20) at the border or at a Mexican consulate where tourist cards are obtained.

# **Prohibited Imports**

Upon entering the U.S. from Mexico, certain articles are either prohibited or subject to various quarantines, limitations or special permit requirements. Those articles include all narcotics or drugs, weapons, certain trademarked articles, most fruits, vegetables, plants, animals, birds and meats, and products made from the hides, shells, feathers, or teeth of endangered species. If you are unsure of regulations governing the import of a wildlife product, check with local authorities of U.S. Embassy before making a purchase. The U.S. Fish and Wildlife Service, Division of Law Enforcement, P.O. Box 28006, Washington, D.C. 20005, or TRAFFIC (U.S.A.), World Wildlife Fund, 1255 23rd St., NW, Washington, D.C. 20037, can provide information.

# **Hunting and Fishing In Mexico**

Mexican authorities must be contacted for current regulations, hunting and fishing licenses, and procedures for taking in firearms and ammunition. Any game legally taken in Mexico may be brought into Texas, but must be accompanied by a statement, issued by U.S. Customs at the border, that the game originated in Mexico. There are no restrictions on bringing fish caught in Mexico into Texas, but they must be declared at the Texas port of entry.

### NOTE

The above information is only a general summary of primary travel regulations between the U.S. and Mexico. For further details or significant changes that may have been effected since this printing, contact the Immigration and Customs authorities of the appropriate country.

General—One of Texas' oldest settlements, first called Mina, the town's name was changed about 1837 to honor a man of fame and influence in early Texas. The man was Felipe Enrique Neri, Baron de Bastrop, a

preminent Dutch nobleman—or so the colonists thought.

Actually, he was a flamboyant impostor whose real name was Philip Hendrik Nering Bogel, born not of Holland's nobility, but in Dutch Guiana of ordinary Dutch parents. Appointed a tax collector after he and his parents returned to Holland, he was accused of embezzlement and fled the country.

Appearing in Texas as Baron de Bastrop in 1805, he obtained a colony grant, established a freighting business, and was appointed second alcalde of Sar. Antonio in 1810. He was a primary negotiator with the government of Mexico for Stephen F. Austin's original Anglo-American colony. He was elected representative to the Mexican state of Coahuila (which included Texas), secured passage of a further immigration act, and was instrumental in establishing the port of Galveston.

Of impressive physical stature, dashing and energetic, the counterfeit baron's enterprises resulted in little profit. At his death in 1827, he did not leave enough funds for burial expenses; fellow legislators contributed the cost. In Holland, unclaimed for 20 years, was a reward of 1,000 gold ducats for return of the accused embezzler.

More than 125 historic structures are listed on the National Register of Historic Places, with 31 displaying a Texas Medallion marker. Main street is lined with century old structures housing antique shops, restaurants, and specialty stores.

General—In Bastrop County, the city was established as a flag stop on the Houston and Texas Central Railroad in 1872 and named for Robert Morris Elgin, the railroad land commissioner who laid out the

townsite. City owes its existence to a major flood of the Colorado River in 1869. Originally, the railroad was to have run 10 miles east of Elgin. When the river rose 60 feet over its banks, the railroad surveyed a new line through Elgin to Austin. Economy is based on light industry, agriculture, and brick manufacturing, and at one time was called "The Brick Capital of the Southwest."

No visit to Elgin would be complete without tasting Elgin's hot sausage. It's wonderful! Four sausage companies make the delicacy. Information on location is available at the visitor center (see below). In fact, Elgin was named by the Texas Legislature as the "Sausage Capital of Texas".

Be sure to visit the antique mall on U.S. 290 with more than 50 dealers offering a large variety of antiques and collectibles.

All through the city, keep an eye out for beautiful, old homes. Also, downtown, a Main Street City, is recapturing its early look by refurbishing and reusing its historic buildings. Movies and TV commercials often use Elgin's quaint streets as backdrops.

CORPUS AND THE COASTAL BEND

exas' coastal bend spans an arc of some 115 miles along the state's middle Gulf Coast from the southern end of Matagorda Peninsula to Baffin Bay. One of America's great playgrounds, it is a treasure trove of things to see and do, places to go. In this sunny land of palm trees, blue waters, golden sands, and happy people, Texas' tropical coast is a jewel of endless beaches and sunny skies. Recreational opportunities lure visitors to vast sport-fishing bays, piers, and beaches, while campers enjoy tree-shaded state parks and campgrounds.

Here, too, visitors discover denizens of the deep at the Texas State Aquarium in Corpus Christi, beachcomb for driftwood and seashells along the sands of Padre Island, visit historic Fulton Mansion, marvel at many museums, or ride the range on the famed King Ranch. Refer to the accompanying map for locations of the following cities and towns grouped together in this special **Coastal Bend section:** 

- Aransas Pass
   Beeville
   Corpus Christi
- Portland Rockport-Fulton Sinton

After several special sections like this at the front of this book, see page 86 where alphabetical listings of other Texas cities and towns begin, each with fascinating attractions to enrich your travels anywhere in the Lone Star State.

Oldest mission in Texas, established for Tigua Indians (see below). When founded, the mission pueblo was south of the Rio Grande, but has been left on the Texas side by changes in the river channel. Some mission land has been in constant cultivation since 1682, over 300 years! 100 block of Old Pueblo Rd. (Zaragosa exit from I-10 east).

Nuestra Senora de la Concepcion del Socorro was established in 1682 as mission for Piros, Thanos, and Jemes Indians. Originally located about 12 leagues from Guadalupe Mission at Paso del Norte and about 7.5 leagues from Ysleta. However, when a group of Indians threatened to revolt, mission moved to new location about one league from Isleta Mission. Early 19th-Century flood changed course of Rio Grande and left village and mission on Texas side. Present village of Socorro adjacent to southeast El Paso, F.M. 258 south.

medical, port and trade center; Houston—
becoming the largest city in Texas with

## ALAMO COUNTRY

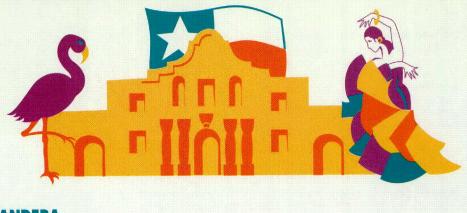

Then Spain established a mission near spring-fed streams at the southern edge of the Hill Country in 1718, mission priests had no idea of what was to come in this new world. Other missions were built and growth followed, but not without a fight. Striving to free themselves from Mexican rule, a vastly outnumbered band of determined Texans took their stand for freedom within the Alamo mission compound in 1836. To this day, the Alamo is known around the world as a symbol of Texas' indomitable spirit.

Today, those early mission settlements have grown into a city, with almost a million people, with unique attractions and amenities.

San Antonio and her nearby neighbors share rich history and warm life-styles, along with touches of the German, Hispanic, Alsatian, and other cultures that serve to enrich the area and its people. Relax and enjoy the warm greetings of this region's cities, grouped in this special section and listed below. Just about anytime, anywhere, there's a fiesta under way. ¡Ole!

General—In 1718, at an Indian village in a pleasant wooded area of spring-fed streams at the southern edge of the Texas Hill Country, Spain established Mission San Antonio de Valero (later called the Alamo).

A customary accompanying presidio (fort), San Antonio de Bexar (Bay-er), protected mission endeavors. Today's city and county names derive from those 18th-Century Spanish beginnings that predate founding of the United States by more than half a century.

Several other Spanish missions soon followed, but the city's real growth dates from establishment of a villa (civil settlement) in 1731, Spain's first step to colonize Texas. Original colonists were Spanish Canary Islanders, to whom many Texas families proudly trace their rcots. San Antonio remained the chief Spanish, then Mexican stronghold in Texas until the Texas Revolution.

Among many nationalities, German builders and businessmen were prominent settlers in the 19th Century. Today, San Antonio is colorfully accented by its multicultural heritage.

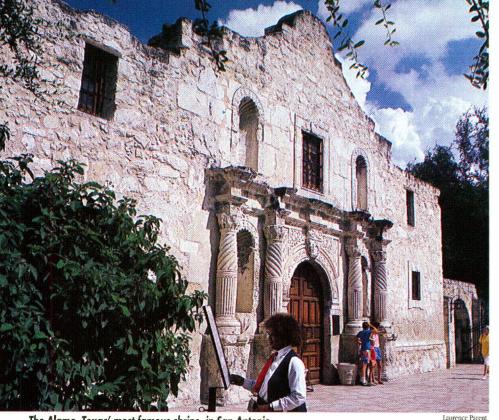

Institutions of higher learning include Incarnate Word College, Our Lady of the Lake Univ., St. Mary's Univ., National Univ. of Mexico, Trinity Univ., San Antonio College, Palo Alto College, St. Philips College, Univ. of Texas Health Science Center at San Antonio, and the Univ. of Texas at San Antonio.

Art museums and theaters are among the state's finest; its symphony orchestra rates with the nation's best, and San Antonians' love for fiestas is unsurpassed!

Some of those popular events include the Great Country River Festival in Sept., the Holiday River Festival in Dec., the Texas Folklife Festival in Aug., the San Antonio Livestock Show and Rodeo in mid-Feb., and at Easter the Starving Artists Show held at La Villita and along the River Walk.

Fiesta San Antonio spans 10 days the third and fourth weeks of Apr. This major event includes art exhibitions, coronation of King Antonio, Pilgrimage to the Alamo, concerts, band festivals, Battle of Flowers Parade, King's River Parade, Fiesta Night Parade, flower and fashion shows, musical productions, balls and street dancing, fireworks and the fabulous series of "Nights in Old San Antonio."

For literature and details about city attractions and events, and for a schedule of the San Antonio Streetcars—an inexpensive, fun way to get to many of the city's downtown attractions—see Visitor Information (below).

The Alamo, Texas' most famous shrine, in San Antonio

Henry B. Gonzalez Convention Center, built as part of 1968 HemisFair, features 241,000 sq. ft. of exhibit space, banquet halls, meeting rooms, international conference center, and theatre for the performing arts. "The Confluence of Civilizations" mural on facade of theater is by Juan O'Gorman of Mexico. With extension of San Antonio River actually flowing into heart of the center, river boats provide an unusual means for convention delegates to travel from riverside hotels to meetings.

What looks like a giant "red enchilada" is really the city's new library. Take time to browse through it.

The Nelson W. Wolff Municipal Baseball Stadium is the new home for the San Antonio Missions. The beautiful facility is at Callaghan Rd. and U.S. 90 West. For schedule and ticket information, call 210/675-7275.

San Antonio is noted for excellent golf courses with numerous municipal courses throughout the city. It was named one of the top municipal golf courses in the state. For more golfing information, call the San Antonio Visitors Center at 210/270-8748 or 1-800-447-3372.

The Alamo—Mission San Antonio de Valero, later to become famous as the Alamo, was established in 1718, the first of five Spanish missions founded in San Antonio to Christianize and educate resident Indians. As the mission grew, the church structure that stands today in midtown was begun about 1755. Its mission role completed, the old buildings were abandoned by 1836

when the site, by then known as the Alamo, became the "Cradle of Texas Liberty." Rebelling against repressions of Mexico's self-proclaimed dictator, Santa Anna, a band of 189 Texas volunteers defied a Mexican army of thousands for 13 days of siege (Feb. 23 to Mar. 6). The Alamo defenders died to the last man, among them such storied names as William Travis, Davy Crockett, and Jim Bowie. Cost to the Mexican forces was dreadful. While Santa Anna dictated an announcement of glorious victory, his aide, Col. Juan Almonte, privately noted: "One more such 'glorious victory,' and we are finished." (The finish came Apr. 21 when Sam Houston's Texans routed the Mexican army at the Battle of San Jacinto near Houston, and captured "the Napoleon of the West," as Santa Anna billed himself.)

Santa Anna raised flag of "no quarter," 1836, during siege of Alamo; roof collapsed in 1858; and fire damage again at end of Civil War. # THE LOWER RIO GRANDE

# VALLEY

t's not really a valley, but when
Texans say "The Valley" everybody
knows where they mean. It's a flat
alluvial plain that stretches along the
Rio Grande at the state's southern tip.
Mexico is just across that river, and
Hispanic influences are strong along the
Texas side, too.

Visitors like the colorful, bicultural influences—the throb of Spanish guitars, the spicy tang of Mexican cuisine, soft syllables of the Spanish language intertwined with everyday English.

From the cities grouped in this special section and listed below, Mexico is just a bridge away, and few travelers to The Valley leave without making the brief foreign crossing. Prized souvenirs include hand-blown glass, embroidered Mexican shirts and dresses, wrought iron, ceramics, large or small items of brass, and jewelry to prompt second looks "back home."

The population swells every winter when throngs of Winter Texans from frozen northlands choose this subtropical region as an escape from wintry blasts. But whatever the season, The Valley offers sights to see and things to do that are different, and fun. ¡Bienvenido, y'all!

General—Texas' southernmost city, international seaport, airport and railroad interchange point on Mexican border. Area dates from colonial days of Imperial Spain, covering periods of exploration, wars,

revolutions, and colorful, though infamous, banditry.

City began in 1846 after Gen. Zachary Taylor established the first Fort Brown to confirm Rio Grande as national boundary after Republic of Texas became a U.S. State. Regrettably, that very incident touched off Mexican-American War, 1846-48. Several existing buildings of Fort Brown are now part of The University of Texas at Brownsville/Texas Southmost Jr. College (below).

Brownsville is the Rio Grande Valley's largest city whose industries include electronics, automotive components, apparel, industrial services, and tourism. Vacationers are attracted by subtropical climate, proximity to Mexico, excellent golf courses, and access to South Padre Island.

Brownsville, "On the Border By the Sea", is a birdwatcher's paradise. The convergence of two major flyways afford the birder an abundance of Northern species migrating for the winter. More than 370 bird species share the refuges and wild places in and around the city. Check with the information center, below, for more details.

Major annual event is Charro Days, a spectacular four-day costume fiesta, in late Feb., that features parades, carnivals, music, dancing, and foods of this colorful two-nation region.

General-Located in south central Cameron County, the town was named for the fresnos (ash) trees scattered in the woods and along streams. In 1912, Lon Hill, an early land owner, formed a company to develop a

canal system which would use the Rio Grande River to irrigate land for farming. Railroad construction in the early 1900s began to bring settlers to the area, and by 1915 a post office was established. Because of the fertile, irrigated land, farm products increased and with the long growing season in the Valley, farming flourished. Today the city is still surrounded by fertile farm/ranch land. Major crops are cotton, sugar cane, grains, orange and red grapefruit orchards.

General—Until 1948, the little-used highway from Raymondville to point on Laguna Madre called Redfish Bay was traveled by occasional fishermen going to deserted beaches. No community marked the road's

end at the water's edge. People of Willacy County, employing own financing, set about creating port. They built wharves, docks and turning basin; laid out townsite, and called it Port Mansfield. Ship channel completed 1962, slicing across shallow Laguna Madre, through Padre Island into deep waters of Gulf of Mexico. Former "occasional" fishermen now have lots of company—sports editors rate Port Mansfield as one of 10 best fishing spots in nation!

Port Mansfield's surrounding salt flats and small spoil islands support an amazing variety of resident and migratory birds. The nearby Laguna Madre area is well-known among bird watchers,

General—City is known as the "Resaca City." A picturesque resaca, 400 feet wide, flows through the city, which is the main canal of a large irrigation system. Only 8 miles from the Mexican border, city was first named

Diaz, for Mexico's president, because the people of the area were predominately of Mexican ancestry. Anglo settlers didn't arrive until 1906, after the completion of the first irrigation system. Prior to this, the region was an arid, mesquite-cactus-brush covered wilderness. As a result of irrigation, the city, as well as all of the Lower Rio Grande Valley, developed an extensive agribusiness. The mild winter climate allows crops to grow year round, not to mention the colorful flowers and native trees. A birder's paradise!

Note the name of the streets, particularly in the central part of town. Generally, north-south streets are named after Texas heroes; east-west streets for early community leaders. In other areas of the city, streets are named after landmarks and notable figures in Mexican and American history.

General—Established by cattlemen as stock shipping point on Texas and Pacific Railroad in 1881, named for Abilene, KS, original endpoint of Old Chisholm Trail; later became major cattle producing area with diversified farming. In recent years oil has added great impetus to city's economy. When the city celebrated its centennial in 1981,

the city set up a demonstration oil-drilling rig on the county fairgrounds—just to illustrate the techniques of "making hole." By pure accident, it struck oil—not much, but enough for modest, profitable production. Cultural aspects influenced by Abilene Christian Univ., Hardin-Simmons Univ., and McMurry Univ., branches of Cisco Junior College and Texas State Technical College; community theater and a philharmonic association and fine arts museum.

The West Texas Fair, ten days in mid-Sept., features exhibits and amusements reflecting early days of Abilene, plus modern attractions of West Texas.

Map R-6/7

General—Big Bend National Park encompasses 801,163 acres, an area of magnificent contrasts. Visitors can travel from the Rio Grande with its spectacular canyons and jungle-like floodplain up

through Chihuahuan Desert, which constitutes majority of the park, to Chisos Mountains with cool woodlands. This variation in elevation and temperature makes Big Bend an ideal year-round park. Big Bend is a challenging place to visit in the summer. May and June temperatures in the Chisos Mountains can reach 95 degrees. With a diversity of Mexican and American plants, more than 1,100 plant types are found in the park. Animal life is just as varied. Desert wildlife is mostly nocturnal, but deer, covotes, javelinas, gray fox, skunks, raccoons, and jackrabbits might be seen during the day. Lucky visitors might spot some of the rarer animals, such as ringtail, black bear, beaver, and mountain lion. More than 430 bird species have been identified, more than at any other national park. Birds include the personable roadrunner, the raucous gray-breasted jay, beautiful hummingbirds, and the rare Colima warbler whose only U.S. nesting grounds are in the Chisos Mountains.

**Big Bend National Park** 

One hundred million years ago, this area was ocean. And 65 million years ago, dinosaurs roamed the area, sharing land and air with other ancient creatures, such as the Big Bend Pterodactyl, largest flying creature known, with an estimated 51-foot wingspread. Big Bend is a geological showplace, where erosion has exposed geological structures from the simplest to the most complex. In this overwhelming landscape, even the nongeologist will sense the magnitude of time and forces that shaped the land.

It is a vast land that invites exploring, not a park that can be seen in just a few hours. Several hundred miles of trails range from short, easy nature walks to primitive trails for experienced hikers. More than 100 miles of paved roads and about 170 miles of dirt roads are in the park; check with any ranger for current conditions of all primitive, backcountry and graded roads before attempting travel.

A permit is required for all backcountry and primitive camping; also for all river-users. Free permits may be obtained at Park Headquarters or ranger stations.

Pet owners take note: Pets are not permitted on any trail and must be kept on leash at all times. In fact, pets aren't allowed outside developed areas: campgrounds and road sides. Also, because of wild animals roaming the park, do not leave any pet unattended, and because of extreme beat, do not leave pets locked in cars. It's best to leave your pets at home.

Rangers present walks and illustrated talks throughout the year. Basic facilities in the park include visitor centers, post office, National Park Service campgrounds, a trailer park, store-gas stations, and a restaurantgift shop-lodge in the Chisos Mountains Basin. Lodging is available in 58 motel-type rooms and eight lodge-type units, plus six more rustic cottagesall located in the Basin area of the park. Advance reservations are strongly advised throughout the year, especially around holidays and during spring break. Write Chisos Mountains Lodge, Basin Rural Station, Big Bend National Park, Texas 79834. Phone 915/477-2291.

Accessible from Marathon via U.S. 385 (70 miles), from Alpine via Texas 118 (108) miles, and from Marfa/Presidio via U.S. 67 and F.M. 170 (156 miles). Admission.

Boys Ranch in Tascosa

## **BOYS RANCH**

Pop. 550

Alt. 3,176 Map C-9 General-Cal Farley's Boys Ranch is a nationally known home for boys and girls who benefit from guidance, affectionate discipline, and education in a ranch setting. Established in 1939 by the late Cal Farley,

Texas businessman and world welterweight wrestling champion of the 1920s. The first boys who came to the ranch lived in the abandoned courthouse of Old Tascosa (see below) that is now the Julian Bivins Museum (also below). Founded and expanded by private donations, the ranch today covers 10,600 acres. Facilities includes a chapel, clinic, schools, fine arts and auditorium, visitors center, and 23 homes for children.

More than 400 boys and girls help operate the ranch, attend school and vocational classes, and enjoy a year-round program of athletics. A popular annual event is the Boys Ranch Rodeo, Labor Day weekend, featuring competition among youths of all ages. Although some 80 percent of the young people were headed for trouble before coming to the ranch, most remain and graduate from the fully accredited Boys Ranch High School, entering the adult world as useful, self-reliant citizens. Visitors are welcome at the ranch; open daily 8 a.m. - 5 p.m.

**Boot Hill Cemetery**—When Tascosa (below) was the wide open, riotous cowboy capital of the 1880s, gunfights were traditional means for settling disputes, and its cemetery was an essential part of the town. The boys maintain the cemetery today. U.S. 385.

Julian Bivins Museum—Housed in the former Oldham County Courthouse, name honors Panhandle rancher whose donation of land formed the nucleus of Boys Ranch. Artifacts from Indian and prehistoric Panhandle cultures, cowboy and pioneer items, photos and documents about Boys Ranch history. Open daily year round, 10 a.m. - 5 p.m.

Old Tascosa—Pioneer settlers in the early 1870s built adobe huts and irrigation ditches along area creeks. After 1875, village became a supply and shipping point for several huge Texas ranches, including the famed XIT and LIT. Bustling town was known as "the Cowboy Capital of the Plains"; became county seat when Oldham County was organized in 1880. The famous and infamous—from Kit Carson to Billy the Kid—once strode its rough plank sidewalks. But as with many Texas cow towns, decline set in when the open range was girded with fences, and the railroad bypassed the site. It was deserted by the 1930s.

General—First settled in the 1860s by pioneers D.P. McCracken and H.C. Ackers on Gilbert Creek in northeastern Wichita County. Cowboys on the giant Samuel Burk Burnett 6666 Ranch derisively called the community

"Nesterville." In 1907 Joseph A. Kemp and Frank Kell from nearby Wichita Falls bought part of the Burk Burnett ranch for their railroad and laid out the present townsite. It's said town was named for Burk Burnett when President Theodore Roosevelt personally interceded with the Post Office Department. (Roosevelt had been Burnett's guest on a wolf hunt in the area in 1905.) The 1918 Fowler oil discovery turned the struggling farming community into a boom town. Oil derricks were so close together old-timers say it was almost possible to walk across town from derrick to derrick without touching the ground. The 1941 movie "Boomtown," with Clark Gable and Spencer Tracy, was based on those wild oil-boom days.

The boom's gone and oil pours less freely today. Farming, ranching, and diversified industries provide stability to the economy. Several parks provide picnic facilities.

**Felty Outdoor Oil Museum**—Early oil field equipment from height of oil boom includes spudders used for drilling and cleaning out wells, a steel beam pumping unit, and a band-wheel power source. On Gresham Rd. (F.M. 240).

General-(KWER-o) An unusual name derivation: A local creek was notorious for trapping cattle in bogs, but skinners salvaged the hides. Indian word for rawhides translated to Spanish as cuero.

When town was founded in 1872, town took name of the creek.

Today seat of DeWitt County, a bountiful agricultural area among state leaders in cattle and calves: also pecans, peaches, apples, and fresh vegetables; substantial natural gas production.

Rich with small-town history-50 structures on the National Register of Historic Places; three historic districts, two residential and one commercial encompassing Main Street. The 1896 courthouse is among most handsome in Texas. Swimming, picnicking, golf in 150-acre municipal park.

The State of Texas, far richer in land than cash, granted 3,050,000 acres of land in 1882 to a Chicago corporation for construction of state capitol. An English company, the Capitol Freehold Land & Investment Company of London, operated the immense spread that covered parts of 10 present counties. The north fence was 200 miles from the south fence; eastwest distance was 27 miles, and 3,000 miles of barbed wired delineated hundreds of pastures, pens, residences and forage enclosures. Initial stocking herd of cattle numbered 110,721 head. Over the years, XIT lands have been divided and sold to "smaller" ranchers, some of whom control 100,000 acres or more.

Davis Mountains State Park—In a sloping basin among scenic Davis Mountains, 1,869 acres host more than 155,000 visitors annually. Primary service facility is multilevel hotel called Indian Lodge, patterned in the pueblo style. A free interpretive center is open afternoons, June through Aug., featuring plant and animal material, both live and mounted; bird observation window and wildlife watering station. Camping, picnicking, dining room, trailer facilities, rest rooms, nature study, hiking. Six miles west of Fort Davis: Texas 118, Park Road 3, Admission.

Fort Davis National Historic Site—When pioneers and gold seekers surged west in the mid-1800s, national concern focused on secure travel routes. In Texas, nearly 600 miles of wilderness stretched between San Antonio and El Paso. Throughout the distance, wagon travelers fell prey to fiercely hostile Indians. Fort Davis, established in 1854, was the first military post to guard the route and offer haven by the precious waters of Limpia Creek.

But the trauma of Civil War stripped the frontier of military protection, and Indians again raided unchecked. Little of value remained when federal troops returned to Fort Davis in 1867. New construction eventually produced substantial rock and adobe buildings that housed up to 12 companies of cavalry and infantry. Post-war troopers were black "buffalo soldiers," many of them former slaves from Southern plantations.

As the western movement resumed, troopers patrolled the long immigrant road, escorted mail and wagon trains, and mounted wide-ranging expeditions into the vast wilderness territory. After years of conflict, peace and civilian settlement finally came to the frontier. With the bluecoats no longer needed, Fort Davis was deactivated in 1891.

Operated by the National Park Service, Fort Davis today is a superb example of frontier forts from that epic era, including both ruins and restorations. A museum, open daily in reconstructed barracks, vividly interprets frontier military life.

Another feature is a sound re-creation of a 19th-Century military parade—bugles and hoofbeats...the clank and jangle of mounted troops...music from band manuals of 1875. Echoing over the empty parade ground, it is a haunting fragment of the past.

Open daily 8 a.m. - 5 p.m. except national holidays; admission. Historic Inn: Limpia Hotel—Restored country inn, c. 1912; sturdy, turnof-the-century oak furniture, second-story veranda and glassed-in sunporch with rattan rockers; Boarding House restaurant. Two suites and nine rooms with baths

Austrian-born Mersfelter could play almost any instrument, was once member of San Antonio Philharmonic Orchestra. Pioneer ranch, trail, and law enforcement artifacts. Open Wed. - Sun. afternoons in summer; admission.

A visitor center at the foot of Mount Locke presents programs daily 9 a.m. - 5 p.m. In summer, solar viewing presented 11 a.m. and 3:30 p.m.; guided tours at 9:30 a.m. and 2 p.m. Winter: solar viewing 11 a.m., guided tour 2 p.m. Up on the summit, the larger dome is open to public and may be viewed from visitors' gallery. Each Tues., Fri. and Sat. evening, weather permitting, the center conducts "Star Parties" for the general public, with viewing of stars and planets through telescopes set up by the observatory. Observatory is 16 miles northwest via Texas 118, Spur 78. Spectacular view

Once a month, visitors can view celestial objects through 107-inch telescope by making reservation with visitor center. (Very popular and sometimes booked months in advance.) Fee charged for large telescope viewing, 915/426-3640.

The cherished tradition remains today; hillside fires still glow each Easter eve while pageant retells the story.

**Enchanted Rock State Park**—Massive dome of solid granite famed in Indian legend; said to be site of human sacrifices, some tribes feared to set foot on it; others used height as rallying point; all held it in awe and reverence. Hiking, rock climbing and rappelling, picnicking, primitive camping in designated areas (reservations accepted).

Note: Because of its popularity, the number of daily visitors is being limited. Therefore, visitation is being limited to protect the natural and cultural resources. Once the park reaches capacity during beavy use periods, such as weekends, bolidays, and spring break, it will temporarily close for the day and reopen at 5 p.m. for those who have camping reservations.

Fort with 21 buildings served until 1853. The only original structure still standing was the post guardhouse, now restored. Visitor center exhibits model of the fort and plans for extensive restorations.

Also on display are artifacts, documents, and fascinating details about trade in bear grease, sugar, rice, and coffee. Beef was four cents a pound. General—One of Texas' oldest municipalities; area was inhabited long before recorded history. Early Spanish explorers list an Aranama Indian village at site, then called Santa Dorotea. In 1749 Spain established a

mission and, as was custom, a nearby presidio (fort) for protection. (See below.) "Remember Goliad" became a Texas Revolution battle cry honoring Col. James W. Fannin Jr. and his men who were massacred at Goliad. Memorial services at grave of Colonel Fannin and his troops on weekend

General Zaragoza State Historic Site—Both a state park and international historic site, reconstructed birthplace and statue of one of Mexico's most famous military figures, Gen. Ignacio Zaragoza (1829-1862). Mexican general and liberal leader was minister of war under Juarez. In 1862 he commanded outnumbered, poorly equipped Mexican army in defense of the Central Mexico city of Puebla against elite French force. Zaragoza flung back attacking army, inflicting heavy losses and forcing its withdrawal to east coast. It is not generally known that this French army had proposed to march into Texas to establish aid and supply line to Confederate forcesbut they reckoned without Zaragoza. The battle date, Cinco de Mayo (May 5), is a national holiday throughout Mexico, and is celebrated here and in several Texas cities. Site is two miles south off U.S. 183 at Presidio La Bahia (see below).

**Presidio La Bahia**—As conquistadors of centuries ago explored new lands for "God, Gold and Glory," the Church played an integral part in colonization and dominion over vast New World empires. Missions were often first permanent Spanish settlement in new areas. To protect mission endeavors, a *presidio* (fort) was usually built nearby and manned by Spanish military forces.

Such was Presidio Santa Maria del Loreto de la Bahia, established in 1749 near Mission Espiritu Santo (see above). It grew into one of the more important forts on the Spanish frontier, and is the finest example of a complete Spanish presidio in Texas. Its chapel is still in regular use for religious services.

Excavation and restoration of massive stone walls and other structures of fort have been completed by Kathryn O'Connor Foundation.

It was in this presidio that Fannin's men, during 1836 Texas Revolution, were imprisoned after their surrender, and were massacred in violation of honorable terms upon which they had laid down their arms. (See Grave of Col. Fannin, above.)

A museum houses articles discovered during restoration, memorabilia of the Texas Revolution, and artifacts indicating nine levels of civilization at the site. General—Though a few homes remain in rural Karnes County, Helena is a ghost town-killed, so they say, by one gunfight too many. Helena was established in 1852 near routes of famed Chihuahua Trail and

Indianola-San Antonio Road. It was a boisterous frontier settlement with more than its share of outlaws and sudden death. During a saloon shooting one night in 1884, 20-year-old Emmett Butler, son of area's wealthiest rancher, Col. William Butler, was killed. Unable to determine who fired the fatal shot, Butler vowed to kill the town that killed his son. He persuaded the railroad, then building across South Texas, to bypass Helena by offering free land miles away. Other towns sprang up along railroad; Helena lost its county seat, and its citizens drifted away. Today old courthouse and other silent ruins are testimony to Butler's vow. On Texas 80 between Karnes City

Historic buildings around the square include a small turn-of-the-century farmhouse, a barn, the old post office, and one of the four original jail cells. All open same hours as Courthouse Museum.

General—County seat of Waller County. Established in 1856 as railroad town when Hempstead Town Company offered lots and blocks to Houston and Texas Central Railroad as inducement for line to run

through town. Because the railroad made it an important shipping and receiving area during the War Between the States, several camps were established in the vicinity. Long known as "Six Shooter Junctior." because of an era of violence around the turn of the century that gave it a nickname. Most notable fight shocked the nation in 1905 when U.S. Congressman John Pinckney and his brother, and two others were gunned down in the courthouse while meeting with prohibitionists, recent victors in an election to ban booze. Heckling began, and in less than two minutes, four people were dead, and the Waller County Courthouse was riddled with 75 shots in the fight. Today, economy is primarily farms, ranches, oil and gas. The close proximity to Houston (52 miles) offers opportunity for cosmopolitan city activities.

Joiner and an Oklahoma attorney and oil promoter had won and lost two fortunes in oil, and despite nearing age 70, he was beginning another search "without even the proverbial shoestring". With inferior equipment, he drilled his first well on Daisy Bradford's land, about six miles from Henderson to a depth of 1,098 feet before junking the site. His second attempt was also unsuccessful. In January 1930, the third well was started by Joiner about 300 feet from his first attempt. On Sept. 3, 1930, the drill bit struck the Woodbine Sand and the core came up dripping with oil. On Oct. 3, 1930, the Daisy Bradford #3 blew in as a 300 barrel-a-day well at a depth of 3,592. Thus began the East Texas Oil Boom.

Pioneer Park, with derrick-covered picnic pavilions, is about six miles west of Henderson on Texas 64 at County Road 4148. Also in the park is the Joe Roughneck Monument, erected by Lone Star Steel as a memorial tribute to the working men in the oil fields known as "roughnecks"

General—City was established when the St.
Louis and Southwestern Railway (Cotton Belt)
extended its tracks through Hill County from
Mt. Pleasant to Waco. It was named for
Richard B. Hubbard, a former governor of

Texas. Agriculture has been the primary support for the economy for many years; cotton was in abundance and the city had its own cotton exchange. Today, most of the land is ranch land, and the Hubbard Livestock Auction provides a market for a wide area of Central Texas. During the early 1900s the city was noted for its hot mineral wells and bath houses. People came

from all over Texas in search of relief from rheumatism and other illnesses. The wells are still here along with five city lakes built after discovering the mineral water.

Alt. 6

Map T-19

General—From what she was, she's the biggest ghost of them all, but not to the eye. At the terminus of Texas 316 south of Port Lavaca, all is clean tranquillity—a deception. Sea and desert have defeated many towns.

The sea is more ruthless—implacable until every trace is scoured away, until all is virgin sand where the footprints of men apparently never trod.

The prints of 6,000 and more did tread here, when concrete and stout-timbered structures lined what was considered the finest harbor on the Gulf of Mexico. Piers thrust into the bay for half a mile, funneling rich cargoes to and from great ships. In the 1840s German colonists landed, led by Prince

Carl of Solms-Braunfels (see NEW BRAUNFELS). In the 1850s an army depot supplied the frontier forts of all Texas. Here two shiploads of Arabian camels landed, beginning that imaginative experiment of Jefferson Davis. Warehouses stored ice, winter-cut on the Great Lakes, prized during Texas summers.

The bustling, prosperous town survived shelling, capture and recapture during the Civil War, yellow fever epidemics, and a storm thought severe in 1866. But all were only prelude to Sept. 17, 1875. The sea that had created and nourished Indianola rose in monstrous salty gray hummocks, lashed by shrieking winds-hurricane! Nine hundred perished, and three-fourths of the city lay in matchbox shambles. Disaster on an unimagined scale.

But Indianola was too prosperous, too vital to guit because of one freak tragedy. Larger warehouses were raised; new piers of heavier pilings sprouted. Eleven years passed before a brutal fact was driven home: that earlier black September was no freak. An even more savage storm sounded the city's death knell.

Indianola was literally gone. Even wreckage was scarce. The few citizens who somehow survived did not return. The county seat, in name, was moved to Port Lavaca for there was really nothing left to move.

Today the tide laps at a few stones of the courthouse foundation. Inches above the smooth sand, outlines of a few shattered concrete cisterns remain. Some fishermen's homes have come of late, and the state has erected an historical marker.

One thing more, appropriately: a solitary rose granite statue of Rene Robert Cavelier, Sieur de la Salle. The French explorer was first to leave a bootprint on the sands of Indianola more than 300 years ago. Today his stone likeness surveys the same featureless, unmarked sands.

**Map J-22** General-Various dates between 1836 and 1840 are cited as the beginning of Jefferson at a river landing on Big Cypress Bayou. Whatever the date, early settlers were already established when the town

was laid out in 1842. Today one of Texas' most historic towns. More than 30 structures bear State Historical Medallions. Several antique shops.

Jefferson early became major East Texas river port of entry; Big Cypress was then navigable by steamboats from New Orleans. Discovery of nearby iron ore brought smelters and plow works, while plentiful pine and cypress stimulated lumber industry

Here was one of Texas' first breweries, and in 1873 world's first ammonia refrigerant ice plant. It was state's first city to utilize artificial gas for street lighting, and shortly after the Civil War, reached a peak population of 30,000 with as many as 15 steamboats at a time lining the docks, and scores of wagon trains passing through on the way West.

Steel rails were also reaching west, but Jefferson, confident in the steamboat, refused Jay Gould's offer for a railroad (see below). Gould angrily predicted death for the city, and laid his tracks elsewhere. He was right as far as "city" goes, because growth in succeeding years, like the railroad, seemed to bypass Jefferson.

For today's traveler seeking quiet reflection of a past era, it is a fortunate result.

Two origins of town's name exist; one prosaic, the other romantic. One credits town name to a civil engineer named Langtry who directed group of Chinese laborers in railroad construction. **Scenic Overlook**—U.S. 90 spans arid, primitive land little changed since pioneers first made their way across it in creaking wagons. View is spectacular and provides insight into difficulties faced by pioneers who had to negotiate crossing without a bridge of any kind. Water from Amistad Lake is now about 80 feet deep in canyon.

General—Settled in 1850 by German pioneers, the tiny hamlet remained obscure until bought in the 1970s by the late Hondo Crouch, pixieish Hill Country humorist, writer, and authentic Texas character.

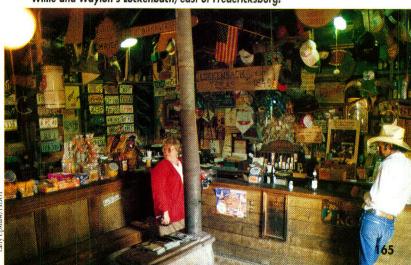

An enormously popular country/Western song made the name known virtually worldwide.

Luckenbach remains as it was—one unpainted general store that also serves as a beer lavern, a traditional rural dance hall, and a sometimes-used blacksmith shop. Sunday afternoons are often spontaneous "happenings." Banjo pickers, gultar strummers, and fiddlers form impromptu groups beneath huge old live oaks. Whittlers ply their leisurely craft, and washer bitchers exercise deceptively simple skills.

Luckenbach's bemusing ambiance, according to one writer, "is like Brigadoon; you're almost afraid to go back because it might not be there again."

Old Fort Parker State Historic Site—Established 1834 by Silas and James Parker and other members of the family of Elder John Parker. The private fort was to protect a settlement of eight or nine families. However, in 1836 a mass attack by several hundred Comanches overran fort, killing five of Parker family and carrying into captivity five persons including Cynthia Ann Parker, then 9 years old. She grew up, married a Comanche chief and lived with the Indians until captured with her two-year-old daughter, Prairie Flower, 24 years later in 1860. She was mother of the last great Comanche chief, Quanah Parker. Cynthia Ann never became reconciled to her forced return to the life of her white kinsmen and tried several times to escape. Unhappy and virtual prisoners, both she and her daughter died about four years after they were separated from the wild, free life of the Comanche. **Confederate Air Force Flying Museum**—After World War II, handful of former service pilots put their wartime flying experience to use as cropduster pilots in the Lower Rio Grande Valley. But when a group of them paid \$2500 for a surplus P-51D Mustang in 1957, the seed was planted for the growth of the nation's finest and most complete collection of flyable WWII combat aircraft.

When these dedicated pilots found that virtually all of the nearly 300,000 aircraft that had been produced during the war had been destroyed, they vowed to try to preserve at least one of each type so that future generations would understand and appreciate the importance and accomplishments of American airpower.

The museum remains dedicated to acquisition, restoration and preservation in flying condition of these vintage military aircraft. CAF maintains impressive array of World War II planes of U.S., Britain, Germany and Japan. Major flying demonstration is "Airsho" in October.

Approximately 20 of the 137 aircraft in the CAF are on display at any one time, with different aircraft quarterly. On display could be combat stalwarts such as P-40 Warhawk, P-38 Lightning, P-47 Thunderbolt, P-51 Mustang, P-39 Aircobra, P-63 King Cobra, P-82 Twin Mustang, F4F Wildcat, F6F Hellcat, F8F Bearcat, F4U Corsair, German Heinkel HE-111, and Messerschmitt. Other flyable planes include B-24 Liberator, B-17 Flying Fortress, B-29 Superfortress, A-26 Invader, B-25 Mitchell, C-47 Skytrain, and several trainers.

Experience the flight of a young Army Air Force cadet learning to fly in the Entertainment Flight Simulator by combining a laser video disc, audio technology, motion and wind—the same technology used to train pilots. Fee.

Railroad, building west from Fort Worth. County seat, today a financial and marketing center for more than 800 square miles of cattle and oil country.

Oil wells, drilled at a distance from the downtown area, are slanted to draw oil from beneath city hall, courthouse, banks and business houses.

Indians knew it better and frequently camped here because pure, fresh water could be found between certain dunes by scooping a trench in sand. Not apparent to eye is one of largest oak forests in nation, stretching over 40,000 acres of arid land. The "forest" is not apparent because mature trees (Havard oaks) are seldom over three feet high, yet they send down roots as far as 90 feet to maintain miniature surface growth. In season, hunters take white-tailed deer, quail, and dove.

City park includes a picnic area, small lake, playground, jogging trail, tennis courts, baseball field, and hookups for RV camping.

City's quaint storefronts are reminiscent of late 1800s, complete with porches and benches. Shoppers find old-fashioned antique shops and boutiques downtown.

Several historical markers are found within the city, as well as the original Old Moulton townsite.

General—Reputed to be the oldest Polish settlement in America; is certainly the mother of Polish settlements in Texas. Established Dec. 1854 by Polish Catholics; in fulfillment of vow, immigrants named their new town

*Panna Maria*, meaning Virgin Mary in Polish. Early years of the colony were severely difficult, plagued by disease, climate extremes and outlaws who infested the region. Neighboring cowboys and ranchers often ridiculed the strange, non-English-speaking foreigners. The community established the first Polish school in the United States, and other villages like Cestohowa, Pawelkville and Kosciusko sprang from this original settlement.

Today, the older generation still speaks an antiquated Silesian dialect (difficult for modern Polish speakers to understand), but Polish is no longer taught in local schools, and the language is being lost.

Visit the community cemetery and Immaculate Conception Catholic Church, topped by a cross carried from Poland by the original colonists more than a century ago. A museum near the church may be visited by request at the church. Southeast of San Antonio, just off Texas 123 between Stockdale and Karnes City; near Helena ghost town (see HELENA).

**St. Joseph School Museum**—Housed in the oldest Polish school in the U.S.; artifacts (many from 19th-Century Poland) depicting life of Polish pioneers. General—Seat of Garza County, named for C.W. Post, cereal manufacturer who founded town in 1907 to demonstrate his economic ideas. Town designed to be center of a community of farmers who owned their own

land and homes in region of giant ranches. All supplies were first brought in by mule train from nearest railhead, Big Spring, some 70 miles away. Between 1910-1913, city was scene of perhaps most elaborate series of experiments in rainmaking ever undertaken in U.S. Explosives were detonated in the atmosphere at timed intervals. General-When oil boom towns are recalled, Ranger often leads the list. It was a quiet rural community established near a Texas Ranger camp in the 1870s. In October 1917 a gusher (see McClesky Number 1 below)

blew in and touched off one of the greatest booms in petroleum history. World War I demand for oil was at an all-time high. The lure of instant riches was irresistible; the town erupted with every kind of frenzied activity. In one year population exploded from 1,000 to 30,000. Small farmers became millionaires. Four railroads raced to complete lines and one railroad's receipts jumped from \$94,000 to \$8,000,000 in two years. As in most instances, the boom was short-lived and today there is no evidence of that bigger-than-life era. Oil activity is evident in orderly fields, while farming and ranching is major interest of area citizens. Ranger Junior College is here.

Lake—Leon. See LAKES listing.

Mermaid of the Conchos in San Angelo

Frontier troops protected stagecoaches and wagon trains, escorted U.S. mail, explored and mapped new territory and occasionally clashed with Indians. Many well-known infantry and cavalry officers commanded the fort, including Col. Ranald S. Mackenzie, Col. William R. Shafter and Col. Benjamin H. Grierson. Both black and white troops took part in their campaigns.

The bluecoats were no longer needed when the frontier moved farther west. In a sentimental ceremony the colors were struck and the last company of the 16th Infantry moved out of Fort Concho on June 20, 1889, as the regimental band played "The Girl I Left Behind Me."

General—Established 1901, a trade center and livestock shipping point at north edge of Canadian River Valley that cuts broad swath through High Plains of the Texas Panhandle.

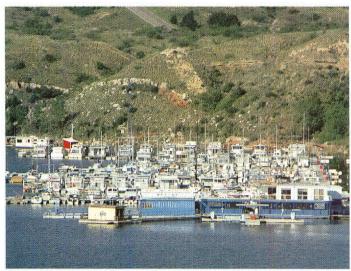

Battle of Adobe Walls—Site where two famous Indian battles were fought. Col. Kit Carson (in his last fight) and his U.S. troops in 1864 narrowly escaped defeat by Kiowa and Comanche Indians who had been molesting wagon trains and settlers. Ten years later, in 1874, Indians under Quanah Parker and Lone Wolf attacked buffalo hunters camp at second battle of Adobe Walls near first site. A fierce dawn attack opened the siege, and though Indians were repulsed, the party of 28 men and one woman was surrounded, and it seemed only a matter of time before the superior number of Indians would prevail. On the second day a group of Cheyenne appeared on a high mesa overlooking the camp, setting the stage for William (Billy) Dixon's famous shot. From within the stockade he shot an Indian from his horse at a distance approaching seven-eighths of a mile! The Indians were so shocked at the white man's shooting ability that they mounted only desultory attacks thereafter and soon withdrew. Site is some 18 miles northeast of Stinnett on private ranch lands off highways; not readily accessible. Local directions available. Historical markers at site.

General—The wild, harsh region of the Big Bend was for centuries only the retreat of bandits, smugglers and fierce Apache and Comanche warriors. Civilization came slowly, was admitted grudgingly, and at the first

of Study Butte (Stew-dy Beaut) came into being around the Big Bend Cinnabar Mine, managed by Will Study. But fame and progress, elusive as the quicksilver itself, faded as the mine became less and less profitable and was closed in the early 1940s. Today a few families live among old stone and adobe structures. barren hills. Millions of dollars worth of quicksilver was marketed before the boom tapered off. The hundreds of wooden shacks are gone entirely; many rock and adobe buildings stand roofless, walls crumbling.

Some modern residents have come of late—leisure homes in the remote desert setting, a country store with grocery staples, souvenirs and mineral specimens, a few motel-type accommodations, and a rustic, home-cooking-style restaurant. The ghost town is near the western edge of Big Bend National Park, off F.M. 170.

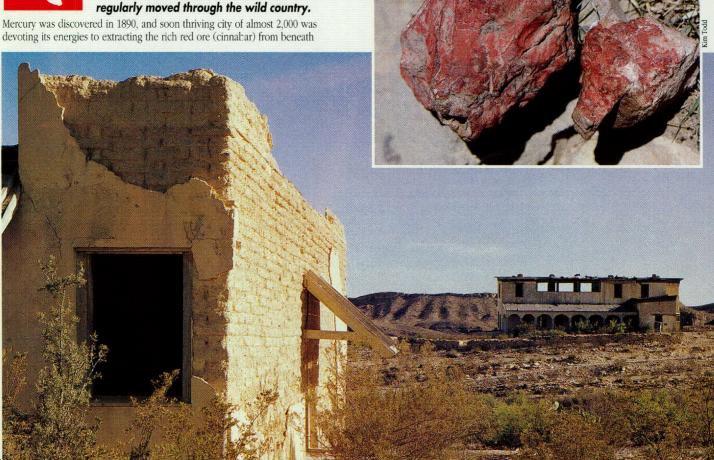

Once a year, on the first Sat. in Nov., some 5,000 "chiliheads" converge on the desolate area for the International Championship Chili Cookoffs. General—Town received its name (from early settler L.B. Vanderpool) when a post office was granted in 1885. On the Sabinal River in the exceptionally scenic Hill Country of western Bandera County. Largely utilized

for sheep, goat and cattle ranching, area is a favorite of deer hunters during season, and year-round gateway to popular Lost Maples State Natural Area (below).

Lost Maples State Natural Area—While they aren't really "lost," the bigtooth maples for which the park is named are very selective in their habitat. Widely scattered over several western states and northern Mexico, this maple thrives only in small, protected pockets in mountainous regions where temperature and humidity are moderated, where moisture is retained, and solar radiation is minimal. Because of their shallow roots, the trees are susceptible

to damage by soil compaction and visitors are cautioned to stay on prescribed paths to ensure continued vigor of the maple stands. Fall color is usually at its peak in early Nov. (Note: Usually crowded in autumn when fall foliage at peak; it's recommended to see scenery during weekdays. Reservations needed this time of year for overnight stays. Also, nature sometimes plays tricks and autumn colors don't always attain usual brilliance. For information call 210/966-3413.) For reservations, call 512/389-8900.

Other vegetation in the scenic Hill Country park includes more than 90 plant families with some 350 species recorded. Bird life is also abundant, including the rare golden-cheeked warbler. Of many mammal species in the park, native white-tailed deer are most numerous.

Park facilities include campsites with water and electricity, picnic areas, rest rooms, showers, and p:imitive camp areas reached by almost 11 miles of hiking and backpacking trails.

Three trees are State Champion Big Trees—an escarpment chokecherry, a Texas ash, and a Bigtooth maple. The chokecherry and Texas ash have been nominated to the American Forestry Assn. Big Tree program for consideration as national champs. Park is four mi. north on R.M. 187. Admission.

Scenic Drives—While the Hill Country is laced with scenic drives, the east-and-west route of F.M. 337 is unquestionably among the most spectacular—massive wooded steeps enfolding tiny, secluded valleys—beautiful! Remember to take your camera.

F.M. 187 north of Vanderpool climbs to the surface of the Edwards Plateau (2,300 ft.) as it joins Texas 39. Sinkholes, porous basins that feed rainwater into the deep Edwards Aquifer, abundantly dot the Hill Country. # TEXAS STATE PARKS

o trip to or through Texas would be complete without visiting some of the state's marvelous variety of handsome, beautifully maintained state parks.

The Texas Parks and Wildlife Department currently offers some 114 operational parks whose features

range from natural areas to outdoor recreational areas to historic sites. Park visitors find abundant camping facilities, hiking and nature trails, close-up views of colorful birds and wildlife, flora from shady forests to desert cacti, and frequent opportunities for fishing, swimming, and boating. Fishing is allowed in all water-access state parks, and fishing licenses are available at most

Landscape variety includes eerie subterranean chambers, mile-high mountain vistas, spectacular canyons, and sandy seashores.

Parks accenting Texas' historical heritage preserve centuries-old Spanish missions, the San Jacinto Battleground where Texas won its independence from Mexico in 1836, rough-hewn frontier army forts, and dignified mansions from gracious, bygone eras.

This book's index provides page-number references for individual state park names whose narrative descriptions are under the park's (nearest) city heading in the body of the book. Park facilities are detailed in the chart on the following pages.

For the mobility impaired, the following chart has a column in which it is indicated that at least some of the facilities in the park so identified are accessible to the handicapped. This is based on past standards rather than the current Americans with Disabilities Act Standards. TP&WD is presently surveying all facilities for ADA compliance. It is recommended that the visitor use this chart as a guideline, but call the specific facility to verify the accessible features required prior to visiting.

Texas Conservation Passports permitting unlimited visits to Texas state parks are available at the headquarters building of individual parks, or from Texas Parks & Wildlife headquarters at 4200 Smith School Road, Austin 78744. For information about Texas parks, hunting, and fishing, call the toll-free Parks & Wildlife number in Austin: 1-800-792-1112 or 512/389-4800 during weekday business hours.

# HUNTING AND FISHING IN TEXAS

the nation. The variety of fish and game is great, and is often abundant.

Fishermen may try more than 5,175 square miles of inland freshwater—hundreds of creeks, rivers and

lakes—plus scores of tidal bays and 624 miles of shoreline along the Gulf of Mexico.

Native freshwater game fish include black bass (largemouth, smallmouth, Guadalupe, spotted bass), crappie, bluegill (bream), various other sunfish, white or sand bass, and catfish including channel, blue and flathead (yellow). In recent years, outstanding success has been achieved with non-native species stocked in Texas lakes and rivers. They include Florida bass (a bigger cousin of the native largemouth), walleye, rainbow trout, and original saltwater species such as redfish and striped bass. Several Texas lakes are now producing striped bass weighing over 30 pounds!

Along the Gulf Coast some 250 different species await lure or bait. Among the most popular are redfish, speckled trout, king and Spanish mackerel, wahoo, bonito, tuna, sailfish, marlin, pompano, flounder, grouper, jewfish, red snapper, sheepshead and drum. Many taken from beach, jetty or pier.

The feature Texas game animal is the white-tailed deer, found almost statewide, but most densely in the Hill Country of Central Texas where they live in greater numbers than anywhere else in the nation. Mule deer and pronghorns are found in West Texas. Other wild animals include javelinas, wild boars, feral hogs and squirrels.

Game birds include a great variety of migratory waterfowl that winter in Texas, plus wild turkey, bobwhite and blue quail, mourning, white-tipped,

and white-winged doves, pheasants, prairie chickens, sandhill cranes and chachalacas.

Of unusual interest are several ranches where exotic game animals are stocked for year-round hunting. Among popular species are Indian blackbuck antelope, wild Corsican rams, African aoudad sheep, axis and sika deer.

Hunting in Texas can be very rewarding, though requiring some special arrangements for the nonresident. Texas has four large areas of public lands (national forests) in the eastern part of the state freely accessible for hunting. The Texas Parks and Wildlife Department offers a variety of public hunting opportunities on over one million acres of land under its control in which people may participate either through purchase of an annual permit, daily permit, or selection in a drawing. Almost all other lands are privately owned, requiring permission from the landowner before entering or hunting.

The situation has given rise to the hunting lease system: fees paid landowners for permission to hunt. Some leases may be had on a daily basis. A central list of leases and public hunting information is available from the Parks & Wildlife Dept. by calling to:1-free in Texas 1-800-792-1112 or 512/385-4505 for nonresidents.

### REGULATIONS

The following is a brief summary of Texas hunting and fishing fees that were in effect at the time this book was printed. Because changes do occur, all persons intending to hunt or fish should obtain a current copy of the free pamphlet, *A Guide to Texas Hunting and Sport Fishing Regulations*, from the Texas Parks & Wildlife Department, 4200 Smith School Road, Austin, Texas 78744. The guide provides seasonal dates, size, bag and possession limits, and special provisions of fishing and hunting laws. In addition, questions about Texas hunting and fishing may be answered by calling 512/389-4800 or 1-80C-792-1112

Licenses are sold at most sporting goods and tackle stores, county courthouses, Parks & Wildlife Dept. offices, and by some, not all, local game wardens. All annual licenses are valid from Sept. 1 through the following Aug. 31, no matter when purchased.

# NATIONAL FORESTS

eferred to collectively as the National Forests in Texas, the Angelina, Sabine, Davy Crockett, and Sam Houston National Forests are in the heavily forested "Piney Woods" of East Texas. They are comprised of 634,912 acres of federally owned land scattered

throughout 12 counties. The National Forests are administered by the U.S. Forest Service under the multiple use principle with each natural resource—timber, water, forage, wildlife and recreation—managed under a coordinated, balanced plan. Primitive camping is allowed in all areas except where posted. No electric, water or sewer hookups are provided at any camping area. Hunting and fishing in National Forests is regulated by the Texas Parks and Wildlife Department. Developed recreation areas have varying facilities as shown in the chart. Fee areas require self-deposit of fees for overnight camping or day use of developed swimming beaches. Some areas have been set aside as "wilderness areas" to provide totally primitive camping experiences. No wheeled vehicles of any kind are permitted in the wilderness areas.

**ANGELINA NATIONAL FOREST**—Smallest with 154,307 acres in Angelina, Jasper, Nacogdoches and San Augustine Counties, with these recreational areas:

No overnight camping permitted in any state forest.

Information about forestry is available from district foresters and Forest Service headquarters at A&M 'Iniv. at College Station.

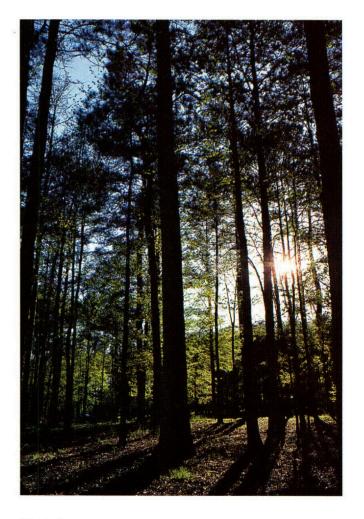

Fcrest Service operates Indian Mound Tree Nursery on Texas 21, near Alto, which provides some 25 million seedlings annually to private landowners for reforestation of their land.

# BIRDS OF TEXAS

ith three-fourths of all American birds represented in Texas, there are birds for the watching anytime, anywhere in the state.

No other state offers the birding variety (or challenge) that Texas does. In fact, Roger Tory

Peterson devotes an entire volume just to this state: A Field Guide to the Birds of Texas, available at virtually any bookstore. Varied vegetation, altitudes from sea level to over 8,000 feet, rainfall from less than 10 inches annually to more than 55 inches, and a strategic position on the North American continent, combine to provide Texas' diversity of avian habitats. In addition, Texas' resident bird population is augmented by multitudes of migrating species.

Refuges offer exceptional viewing of both rare specimens and large concentrations of familiar species. (See WILDLIFE REFUGES, Index.)

The 624-mile Texas coastline teems with shorebirds—gulls, pelicans, egrets and roseate spoonbills, plus the world's few remaining whooping

cranes that winter at the Aransas National Wildlife Refuge.

The lower Rio Grande Valley area hosts tropical birds, Inca and white-winged doves, and is the only place in the nation where such species as white-fronted doves, chachalacas, and green jays may be observed. Santa Ana National Wildlife Refuge is an ideal spot to add them to a life list.

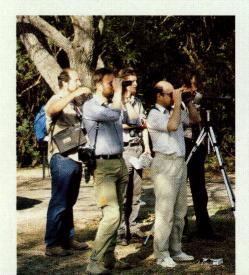

The Texas Panhandle is home to horned larks, kites and prairie chickens. Lakes attract mallard, baldpate and pintail migrants. Muleshoe National W.ldlife Refuge is haven for thousands of wintering sandhill cranes.

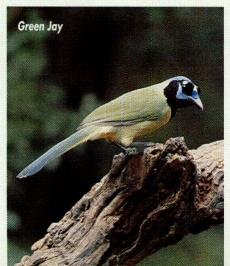

In West Texas are rare Colima warblers and eagles, canyon wrens, desert-dwelling flycatchers and tiny verdins.

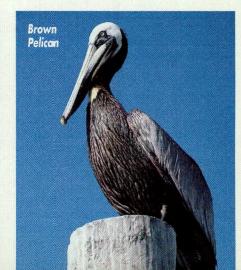

The Hill Country hosts large flocks of wild turkeys, almost countless resident and migrant species, and is the nesting place of rare golden-cheeked warblers. More open terrain is habitat of fleet-footed roadrunners.

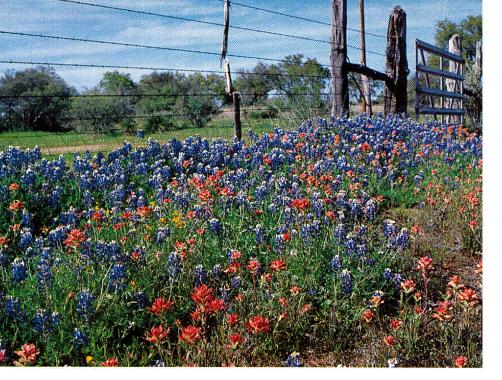

The East Texas pine forests are the home of several eastern species including the wood thrush, Acadian flycatcher and Kentucky warbler. A few swallow-tailed kites may live here with, perhaps, the once-thought-to-be extinct ivory-billed woodpeckers.

Birding in Texas can be a rewarding experience!

# FLOWERS OF TEXAS

n East Texas' humid marshlands, carnivorous pitcher plants trap unwary insects. Far across the state, rare, red Mexican silenes seek the seclusion of cool canyons. On sun-swept Padre Island, ropy beach morning glories ramble across lonely dunes. Such is the story of Texas'

5,000 wildflower species—products of the state's diverse environment. More gregarious types such as bluebonnets, buttercups and Indian paintbrushes roam statewide, draping festive serapes over meadows and highway shoulders each spring.

Other seasons offer their own specialties. The sun-drenched western desert can blithely ignore the calendar. In almost any month, "spring" follows each rare welcome rain; thirst quenched, the yuccas, ocotillos and cacti erupt in a brief frenzy of blooms.

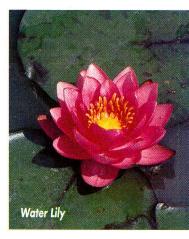

Throughout the year in the lower Rio Grande Valley, towering palms accent bougainvillea-draped boulevards. In winter, giant poinsettias decorate homes to the eaves for the holiday season.

"I never knew all the wonders that your state has within its vast borders. Now I just can't imagine taking a vacation or travel trip anywhere else but Texas."

Richard Ruskin, Florida

"Believe me, one doesn't come across a stranger who greets you with 'Howdy' in California, or in most any other state."

David Venice, California

"We'd like to share a song we composed during our trip: From Beaumont to Big Bend – through the Hill Country too – from the Plains to the Canyons – we were never blue. A photographer's haven – what a stupendous sight – Bill with his camera – was filled with delight! We're thankful for Texas – Her people are great – If you're looking for blessings – go to Texas, don't wait!"

> Claire and Bill Orlando, Florida

"How clean everywhere is. And so much to see and do. We just did not have enough time to do a fraction of the things we wanted to."

T.J. and Martin Essex, England

"I've never met more warm and friendly people in my life. Everyone I ran into made me feel so welcome. I just wanted you to know you've made one Jersey girl a Texan at heart."

Pat Brant Beach, New Jersey
