## CANCER PREVENTION & RESEARCH INSTITUTE OF TEXAS

November 20, 2015

Honorable Greg Abbott, Governor  
Honorable Glenn Hegar, Texas Comptroller  
Ursula Parks, Director, Legislative Budget Board  
John Keel, CPA, State Auditor

Lady and Gentlemen:

We are pleased to submit the annual financial report of the Cancer Prevention and Research Institute of Texas for the year ended August 31, 2015, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Michelle Huddleston at (512) 305-8420.

Sincerely,

  
Heidi McConnell  
Chief Operating Officer

**NOTE 1: Summary of Significant Accounting Policies**

**Entity**

The Cancer Prevention and Research Institute of Texas is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

The Cancer Prevention and Research Institute of Texas is the state agency mandated to (1) create and expedite innovation in the area of cancer research and in enhancing the potential for a medical or scientific breakthrough in the prevention of cancer and cures for cancer; (2) attract, create, or expand research capabilities of public or private institutions of higher education and other public or private entities that will promote a substantial increase in cancer research and in the creation of high-quality new jobs in this state; and (3) develop and implement the Texas Cancer Plan.

Due to the statewide requirements embedded in GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all of the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the state of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

**Blended Component Units**

No component units have been identified which should have been blended into an appropriate fund.

**Fund Structure**

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

**Governmental Fund Types and Government-wide Adjustment Fund Types**

**General Revenue Fund**

Cancer Prevention and Research fund (fund 5136) – This fund is used to receive and account for fees charged for the specialty license plates and is in addition to motor vehicle registration fees. Additionally, the fund receives fees from company applications and is used to receive all miscellaneous agency revenues.

**Capital Project Fund**

The TPFA General Obligation Commercial Paper Cancer Project (fund 7639) is used to account for general obligation bond proceeds issued by the Texas Public Finance Authority. The purpose of these bond proceeds is to provide cancer prevention and research grants to Texas institutions and organizations.

### **Capital Assets Adjustment Fund Type**

The capital assets adjustment fund (fund 7639) will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

### **Long-Term Liabilities Adjustment Fund Type**

The long-term liabilities adjustment fund (fund 7639) is used to convert governmental fund types' debt from modified accrual to full accrual.

### **Basis of Accounting**

---

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within 60 days after fiscal year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- The unmatured debt service (principal and interest) on general long-term liabilities
- Long-term capital leases
- Long-term claims and judgments
- Full accrual revenues and expenses

### **Budget and Budgetary Accounting**

---

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

UNAUDITED

---

**Assets, Liabilities, and Fund Balances/Net Position**

---

**Assets**

---

**Inventories and Prepaid Items**

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally using the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are used or consumed.

**Capital Assets**

Assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraisal fair value as the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets (such as works of art and historical treasures) are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

---

**Liabilities**

---

**Accounts Payable**

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

**Employees' Compensable Leave Balances**

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

---

**Fund Balance/Net Position**

---

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide fund statements.

**Fund Balance Components**

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- **Nonspendable fund balance** includes amounts not available to be spent because they are either not in spendable form or they are legally or contractually required to be maintained intact.

- **Restricted fund balance** includes those resources that have constraints placed on their use through external parties such as creditors, grantors, contributors, laws or regulations of other governments or by law through constitutional provisions or enabling legislation.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- **Assigned fund balance** includes amounts constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by either the Texas Legislature or a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that can report a positive unassigned fund balance.

**Employees' Compensable Leave**

A state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

**NOTE 8: Operating Leases**

Included in the expenditures reported in the financial statements are the following amounts of rent paid or due under operating lease obligations:

<u>Fund Type</u>	<u>Amount</u>
Capital Project Fund	\$ 252,534.78

Future minimum lease rental payments under non-cancelable operating leases having an initial term in excess of one year are as follows:
